| (a) Aileron ---------- Control column locked or lashed in mid-position. | +0.75 |
| (b) Aileron ---------- Ailerons at full throw; + moment on one aileron, − moment on the other. | ±0.50 |
| (c) (d) Elevator ---------- Elevator (c) full up (−), and (d) full down (+). | ±0.75 |
| (e) (f) Rudder ---------- Rudder (e) in neutral, and (f) at full throw. | ±0.75 |

(c) As used in paragraph (b) in connection with ailerons and elevators, a positive value of $K$ indicates a moment tending to depress the surface while a negative value of $K$ indicates a moment tending to raise the surface.

§ 3.234 *Secondary controls and systems.* Secondary controls, such as wheel brakes, spoilers, and tab controls, shall be designed for the loads based on the maximum which a pilot is likely to apply to the control in question.

GROUND LOADS

§ 3.241 *Ground loads.* The loads specified in the following conditions shall be considered as the external loads and the inertia forces which occur in an airplane structure. In each of the ground load conditions specified the external reactions shall be placed in equilibrium with the linear and angular inertia forces in a rational or conservative manner.

§ 3.242 *Design weight.* The design landing weight shall not be less than the maximum weight for which the airplane is to be certificated, except as provided in paragraph (a) or (b) of this section.

(a) A design landing weight equal to not less than 95 percent of the maximum weight shall be acceptable if it is demonstrated that the structural limit load values at the maximum weight are not exceeded when the airplane is operated over terrain having the degree of roughness to be expected in service at all speeds up to the take-off speed. In addition, the following shall apply:

(1) The minimum fuel capacity shall not be less than the total of the capacity prescribed in § 3.440 and of the capacity equivalent to the weight of fuel equal in amount to that by which the maximum weight exceeds the design landing weight.

(2) The operating limitations shall limit the take-off weight in such a manner as to assure that landings in normal operation would not exceed the design landing weight.

(b) A design landing weight equal to less than 95 percent of the maximum weight shall be acceptable for multi-engine airplanes, meeting the one-engine-inoperative climb requirement of § 3.85 (b) or § 3.85a (b) if compliance is shown with the following sections of Part 4b of this subchapter in lieu of the corresponding requirement of this part: The ground load requirements of § 4b.230, the landing gear requirements of §§ 4b.331 through 4b.336, and the fuel jettisoning system requirements of § 4b.437.

§ 3.243 *Load factor for landing conditions.* In the following landing conditions the limit vertical inertia load factor at the center of gravity of the airplane shall be chosen by the designer but shall not be less than the value which would be obtained when landing the airplane with a descent velocity, in feet per second, equal to the following value:

$$V = 4.4\ (W/S)^{\frac{1}{4}}$$

except that the descent velocity need not exceed 10 feet per second and shall not be less than 7 feet per second. Wing lift, not exceeding two-thirds of the weight of the airplane may be assumed to exist throughout the landing impact and may be assumed to act through the airplane center of gravity. When such wing lift is assumed, the ground reaction load factor may be taken equal to the inertia load factor minus the ratio of the assumed wing lift to the airplane weight. (See § 3.354 for requirements concerning the energy absorption tests which determine the limit load factor corresponding to the required limit descent velocities.) In no case, however, shall the inertia load factor used for design purposes be less than 2.67, nor shall the limit ground reaction load factor be less than 2.0, unless it is demonstrated that lower values of limit load factor will not be exceeded in taxying the airplane over terrain having the maximum degree of roughness to be expected under intended service use at all speeds up to take-off speed.

LANDING CASES AND ATTITUDES

§ 3.244 *Landing cases and attitudes.* For conventional arrangements of main and nose, or main and tail wheels, the airplane shall be assumed to contact the ground at the specified limit vertical velocity in the attitudes described in §§ 3.245–3.247. (See Figs. 3-12 (a) and 3-12 (b) for acceptable landing conditions which are considered to conform with §§ 3.245–3.247.)

§ 3.245 *Level landing.*—(a) *Tail wheel type.* Normal level flight attitude.

| Condition | Tail wheel type | | Nose wheel type | | |
|---|---|---|---|---|---|
| | Level landing | Tail-down landing | Level landing with inclined reactions | Level landing with nose wheel just clear of ground | Tail-down landing |
| Reference section | § 3.245 (a) | § 3.246 (a) | § 3.245 (b) (1) | § 3.245 (b) (2) | §3.246(b)(c) |
| Vertical component at c. g. | $n_1W$ | $n_1W$ | $n_1W$ | $n_1W$ | $n_1W$ |
| Fore and aft component at c. g. | $K n_1 W$ | 0 | $K n_1 W$ | $K n_1 W$ | 0 |
| Lateral component in either direction at c. g. | 0 | 0 | 0 | 0 | 0 |
| Shock absorber extension (hydraulic shock absorber) | Note (2) | Note (2) | Note (2) | Note (2) | Note (2) |
| Shock absorber deflection (rubber or spring shock absorber) | 100% Static | 100% Static | 100% Static | 100% Static | 100% Static |
| Tire deflection | $(n_1-L)W/d$ | $(n_1-L)W/d$ | $(n_1-L)W/d$ | $(n_1-L)W/d$ | $(n_1-L)W$ |
| Main wheel loads (both wheels) | $D_1$ | 0 | $K n_1 W/d$ | $K n_1 W/d$ | 0 |
| | $V_1$ | | $(n_1-L)Wa/d$ | $K n_1 Wa/d$ | 0 |
| | $D_1$ | | $(n_1-L)Wb/d$ | $K n_1 Wb/d$ | 0 |
| Tail (nose) wheel loads | $D_1$ | $D_1$ | $K n_1 Wa/d$ | | 0 |
| | $V_1$ | 0 | $K n_1 Wb/d$ | | 0 |
| Notes | (1) and (3) | | (1) | (1) and (3) | (3) |

Note (1). $K$ may be determined as follows: $K=0.25$ for $W=3{,}000$ pounds or less; $K=0.33$ for $W=6{,}000$ pounds or greater, with linear variation of $K$ between these weights.

Note (2). For the purpose of design, the maximum load factor shall be assumed to occur throughout the shock absorber stroke from 25 percent deflection to 100 percent deflection unless demonstrated otherwise, and the load factor shall be used with whatever shock absorber extension is most critical for each element of the landing gear.

Note (3). Unbalanced moments shall be balanced by a rational or conservative method.

Note (4). $L$ is defined in § 3.353.

FIG. 3-12(a)—BASIC LANDING CONDITIONS

| Control | Maximum loads for design weight W equal to or less than 5,000 lbs.[1] | Minimum loads[2] |
|---|---|---|
| Aileron: | | |
| Stick | 67 pounds | 40 pounds. |
| Wheel[3] | 53 D in-pounds[4] | 40 D in-pounds.[4] |
| Elevator: | | |
| Stick | 167 pounds | 100 pounds. |
| Wheel | 200 pounds | 100 pounds. |
| Rudder | 200 pounds | 130 pounds. |

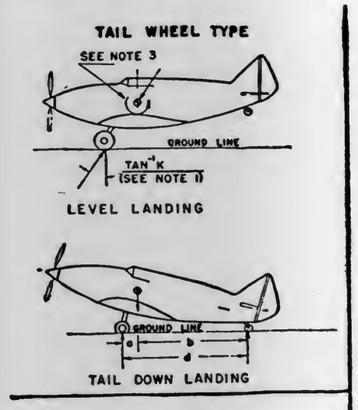
[1] For design weight $W$ greater than 5,000 pounds the above specified maximum values shall be increased linearly with weight to 1.5 times the specified values at a design weight of 25,000 pounds.

[2] If the design includes any other kind of control systems or surfaces (such as to make these specified minimum loads inapplicable, values corresponding to those determined for similar systems in airplanes of similar characteristics shall be used instead, except that in any case values less than 0.6 of the specified moments obtained according to § 3.233 may be used instead.

[3] The critical portions of the aileron control system shall also be designed for a single tangential force having a limit value equal to 1.25 times the couple force determined from the above criteria.

[4] D = wheel diameter.

FIG. 3-11—PILOT CONTROL FORCE LIMITS



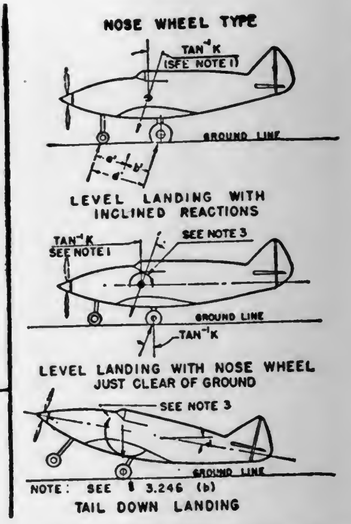


FIG. 3-12(b)

BASIC LANDING CONDITIONS

(c) *Vertical ground reactions.* In this condition, it shall be assumed that the ground reactions are vertical, the wheels having been brought up to speed before the maximum vertical load is attained.

§ 3.247 *One-wheel landing.* One side of the main gear shall contact the ground with the airplane in the level attitude. The ground reactions shall be the same as those obtained on the one side in the level attitude. (See § 3.245.)

GROUND ROLL CONDITIONS

§ 3.248 *Braked roll.* The limit vertical load factor shall be 1.33. The attitude and ground contacts shall be those described for level landings in § 3.245, with the shock absorbers and tires deflected to their static positions. A drag reaction equal to the vertical reaction at the wheel multiplied by a coefficient of friction of 0.8 shall be applied at the ground contact point of each wheel having brakes, except that the drag reaction need not exceed the maximum value based on limiting brake torque.

§ 3.249 *Side load.* Level attitude with main wheels only contacting the ground, with the shock absorbers and tires deflected to their static positions. The limit vertical load factor shall be 1.33 with the vertical ground reaction divided equally between main wheels. The limit side inertia factor shall be 0.83 with the side ground reaction divided between main wheels as follows:

0.5$W$ acting inboard on one side.
0.33$W$ acting outboard on the other side.

TAIL WHEELS

§ 3.250 *Supplementary conditions for tail wheels.* The conditions in §§ 3.251 and 3.252 apply to tail wheels and affected supporting structure.

§ 3.251 *Obstruction load.* The limit ground reaction obtained in the tail down landing condition shall be assumed to act up and aft through the axle at 45 degrees. The shock absorber and tire may be assumed deflected to their static positions.

§ 3.252 *Side load.* A limit vertical ground reaction equal to the static load on the tail wheel, in combination with a side component of equal magnitude. When a swivel is provided, the tail wheel shall be assumed swiveled 90 degrees to the airplane longitudinal axis, the resultant ground load passing through the axle. When a lock steering device or shimmy damper is provided, the tail wheel shall also be assumed in the trailing position with the side load acting at the ground contact point. The shock absorber and tire shall be assumed deflected to their static positions.

NOSE WHEELS

§ 3.253 *Supplementary conditions for nose wheels.* The conditions set forth in §§ 3.254–3.256 apply to nose wheels and affected supporting structure. The shock absorbers and tires shall be assumed deflected to their static positions.

§ 3.254 *Aft load.* Limit force components at axle:

Vertical, 2.25 times static load on wheel,
Drag, 0.8 times vertical load.

§ 3.255 *Forward load.* Limit force components at axle:

Vertical, 2.25 times static load on wheel,
Forward, 0.4 times vertical load.

§ 3.256 *Side load.* Limit force components at ground contact:

Vertical, 2.25 times static load on wheel,
Side, 0.7 times vertical load.

SKIPLANES

§ 3.257 *Supplementary conditions for skiplanes.* The airplane shall be assumed resting on the ground with one main ski frozen in the snow and the other main ski and the tail ski free to slide. A limit side force equal to $P/3$ shall be applied at the most convenient point near the tail assembly, where $P$ is the static ground reaction on the tail ski. For this condition the factor of safety shall be assumed equal to 1.0.

WATER LOADS

§ 3.265 *Water load conditions.* The structure of boat and float type seaplanes shall be designed for water loads developed during take-off and landing with the seaplane in any attitude likely to occur in normal operation at appropriate forward and sinking velocities under the most severe sea conditions likely to be encountered. Unless a more rational analysis of the water loads is performed, the requirements of §§ 4b.251 through 4b.258 of this subchapter shall apply.

SUBPART D—DESIGN AND CONSTRUCTION

GENERAL

§ 3.291 *General.* The suitability of all questionable design details or parts having an important bearing on safety in operation shall be established by tests.

§ 3.292 *Materials and workmanship.* The suitability and durability of all materials used in the airplane structure shall be established on the basis of experience or tests. All materials used in the airplane structure shall conform to approved specifications which will insure their having the strength and other properties assumed in the design data. All workmanship shall be of a high standard.

§ 3.293 *Fabrication methods.* The methods of fabrication employed in constructing the airplane structure shall be such as to produce consistently sound structure. When a fabrication process such as gluing, spot welding, or heat-treating requires close control to attain this objective, the process shall be performed in accordance with an approved process specification.

§ 3.294 *Standard fastenings.* All bolts, pins, screws, and rivets used in the structure shall be of an approved type. The use of an approved locking device or method is required for all such bolts, pins, and screws. Self-locking nuts shall not be used on bolts subject to rotation during the operation of the airplane.

§ 3.295 *Protection.* All members of the structure shall be suitably protected against deterioration or loss of strength in service due to weathering, corrosion, abrasion, or other causes. In seaplanes, special precaution shall be taken against corrosion from salt water, particularly where parts made from different metals are in close proximity. Adequate provisions for ventilation and drainage of all parts of the structure shall be made.

§ 3.296 *Inspection provisions.* Adequate means shall be provided to permit the close examination of such parts of the airplane as require periodic inspection, adjustments for proper alignment and functioning, and lubrication of moving parts.

STRUCTURAL PARTS

§ 3.301 *Material strength properties and design values.* Material strength

properties shall be based on a sufficient number of tests of material conforming to specifications to establish design values on a statistical basis. The design values shall be so chosen that the probability of any structure being understrength because of material variations is extremely remote. Values contained in ANC–5, ANC–18, and ANC–23, Part II shall be used unless shown to be inapplicable in a particular case.

NOTE: ANC–5, "Strength of Metal Aircraft Elements," ANC–18, "Design of Wood Aircraft Structures," and ANC–23, "Sandwich Construction for Aircraft," are published by the Subcommittee on Air Force-Navy-Civil Aircraft Design Criteria, and may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

§ 3.302 *Special factors.* Where there may be uncertainty concerning the actual strength of particular parts of the structure or where the strength is likely to deteriorate in service prior to normal replacement, increased factors of safety shall be provided to insure that the reliability of such parts is not less than the rest of the structure as specified in §§ 3.303–3.306.

§ 3.303 *Variability factor.* For parts whose strength is subject to appreciable variability due to uncertainties in manufacturing processes and inspection methods, the factor of safety shall be increased sufficiently to make the probability of any part being under-strength from this cause extremely remote. Minimum variability factors (only the highest pertinent variability factor need be considered) are set forth in §§ 3.304–3.306.

§ 3.304 *Castings.* (a) Where visual inspection only is to be employed, the variability factor shall be 2.0.

(b) The variability factor may be reduced to 1.25 for ultimate loads and 1.15 for limit loads when at least three sample castings are tested to show compliance with these factors, and all sample and production castings are visually and radiographically inspected in accordance with an approved inspection specification.

(c) Other inspection procedures and variability factors may be used if found satisfactory by the Administrator.

§ 3.305 *Bearing factors.* (a) The factor of safety in bearing at bolted or pinned joints shall be suitably increased to provide for the following conditions:

(1) Relative motion in operation (control surface and system joints are covered in §§ 3.327–3.347).

(2) Joints with clearance (free fit) subject to pounding or vibration.

(b) Bearing factors need not be applied when covered by other special factors.

§ 3.306 *Fitting factor.* Fittings are defined as parts such as end terminals used to join one structural member to another. A multiplying factor of safety of at least 1.15 shall be used in the analysis of all fittings the strength of which is not proved by limit and ultimate load tests in which the actual stress conditions are simulated in the fitting and the surrounding structure. This factor applies to all portions of the fitting, the means of attachment, and bearing on the members joined. In the case of integral fittings, the part shall be treated as a fitting up to the point where the section properties become typical of the member. The fitting factor need not be applied where a type of joint design based on comprehensive test data is used. The following are examples: continuous joints in metal plating, welded joints, and scarf joints in wood, all made in accordance with approved practices.

§ 3.307 *Fatigue strength.* The structure shall be designed, insofar as practicable, to avoid points of stress concentration where variable stresses above the fatigue limit are likely to occur in normal service.

### FLUTTER AND VIBRATION

§ 3.311 *Flutter and vibration prevention measures.* Wings, tail, and control surfaces shall be free from flutter, airfoil divergence, and control reversal from lack of rigidity, for all conditions of operation within the limit *V–n* envelope, and the following detail requirements shall apply:

(a) Adequate wing torsional rigidity shall be demonstrated by tests or other methods found suitable by the Administrator.

(b) The mass balance of surfaces shall be such as to preclude flutter.

(c) The natural frequencies of all main structural components shall be determined by vibration tests or other methods found satisfactory by the Administrator.

### WINGS

§ 3.317 *Proof of strength.* The strength of stressed-skin wings shall be substantiated by load tests or by combined structural analysis and tests.

§ 3.318 *Ribs.* Rib tests shall simulate conditions in the airplane with respect to torsional rigidity of spars, fixity conditions, lateral support, and attachment to spars. The effects of ailerons and high lift devices shall be properly accounted for.

### CONTROL SURFACES (FIXED AND MOVABLE)

§ 3.327 *Proof of strength.* Limit load tests of control surfaces are required. Such tests shall include the horn or fitting to which the control system is attached. In structural analyses, rigging loads due to wire bracing shall be taken into account in a rational or conservative manner.

§ 3.328 *Installation.* Movable tail surfaces shall be so installed that there is no interference between the surfaces or their bracing when each is held in its extreme position and all others are operated through their full angular movement. When an adjustable stabilizer is used, stops shall be provided which, in the event of failure of the adjusting mechanism, will limit its travel to a range permitting safe flight and landing.

§ 3.329 *Hinges.* Control surface hinges, excepting ball and roller bearings, shall incorporate a multiplying factor of safety of not less than 6.67 with respect to the ultimate bearing strength of the softest material used as a bearing. For hinges incorporating ball or roller bearings, the approved rating of the bearing shall not be exceeded. Hinges shall provide sufficient strength and rigidity for loads parallel to the hinge line.

§ 3.330 *Mass balance weights.* The supporting structure and the attachment of concentrated mass balance weights which are incorporated on control surfaces shall be designed for the following limit accelerations: 24g normal to the plane of the control surface, 12g fore and aft, and 12g parallel to the hinge line.

### CONTROL SYSTEMS

§ 3.335 *General.* All controls shall operate with sufficient ease, smoothness, and positiveness to permit the proper performance of their function and shall be so arranged and identified as to provide convenience in operation and prevent the possibility of confusion and subsequent inadvertent operation. (See § 3.384 for cockpit controls.)

§ 3.336 *Primary flight controls.* (a) Primary flight controls are defined as those used by the pilot for the immediate control of the pitching, rolling, and yawing of the airplane.

(b) For two-control airplanes the design shall be such as to minimize the likelihood of complete loss of the lateral directional control in the event of failure of any connecting or transmitting element in the control system.

§ 3.337 *Trimming controls.* Proper precautions shall be taken against the possibility of inadvertent, improper, or abrupt tab operations. Means shall be provided to indicate to the pilot the direction of control movement relative to airplane motion and the position of the trim device with respect to the range of adjustment. The means used to indicate the direction of the control movement shall be adjacent to the control, and the means used to indicate the position of the trim device shall be easily visible to the pilot and so located and operated as to preclude the possibility of confusion. Longitudinal trimming devices for single-engine airplanes and longitudinal and directional trimming devices for multiengine airplanes shall be capable of continued normal operation notwithstanding the failure of any one connecting or transmitting element in the primary flight control system. Tab controls shall be irreversible unless the tab is properly balanced and possesses no unsafe flutter characteristics. Irreversible tab systems shall provide adequate rigidity and reliability in the portion of the system from the tab to the attachment of the irreversible unit to the airplane structure.

§ 3.338 *Wing flap controls.* The controls shall be such that when the flap has been placed in any position upon which compliance with the performance requirements is based, the flap will not move from that position except upon further adjustment of the control or the automatic operation of a flap load limiting device. Means shall be provided to indicate the flap position to the pilot.

If any flap position other than fully retracted or extended is used to show compliance with the performance requirements, such means shall indicate each such position. The rate of movement of the flaps in response to the operation of the pilot's control, or of an automatic device shall not be such as to result in unsatisfactory flight or performance characteristics under steady or changing conditions of air speed, engine power, and airplane attitude. (See § 3.109 (b) and (c).)

§ 3.339 *Flap interconnection.* (a) The motion of flaps on opposite sides of the plane of symmetry shall be synchronized by a mechanical interconnection, unless the airplane is demonstrated to have safe flight characteristics while the flaps are retracted on one side and extended on the other.

(b) Where an interconnection is used, in the case of multiengine airplanes, it shall be designed to account for the unsymmetrical loads resulting from flight with the engines on one side of the plane of symmetry inoperative and the remaining engines at take-off power. For single-engine airplanes, it may be assumed that 100 percent of the critical air load acts on one side and 70 percent on the other.

§ 3.340 *Stops.* All control systems shall be provided with stops which positively limit the range of motion of the control surfaces. Stops shall be so located in the system that wear, slackness, or take-up adjustments will not appreciably affect the range of surface travel. Stops shall be capable of withstanding the loads corresponding to the design conditions for the control system.

§ 3.341 *Control system locks.* When a device is provided for locking a control surface while the airplane is on the ground or water:

(a) The locking device shall be so installed as to provide unmistakable warning to the pilot when it is engaged, and

(b) Means shall be provided to preclude the possibility of the lock becoming engaged during flight.

§ 3.342 *Proof of strength.* Tests shall be conducted to prove compliance with limit load requirements. The direction of test loads shall be such as to produce the most severe loading of the control system structure. The tests shall include all fittings, pulleys, and brackets used to attach the control system to the primary structure. Analyses or individual load tests shall be conducted to demonstrate compliance with the multiplying factor of safety requirements specified for control system joints subjected to angular motion.

§ 3.343 *Operation test.* An operation test shall be conducted by operating the controls from the pilot compartment with the entire system so loaded as to correspond to the limit air loads on the surface. In this test there shall be no jamming, excessive friction, or excessive deflection.

### CONTROL SYSTEM DETAILS

§ 3.344 *General.* All control systems and operating devices shall be so designed and installed as to prevent jamming, chafing, or interference as a result of inadequate clearances or from cargo, passengers, or loose objects. Special precautions shall be provided in the cockpit to prevent the entry of foreign objects into places where they might jam the controls. Provisions shall be made to prevent the slapping of cables or tubes against parts of the airplane. The elements of the flight control system shall incorporate design features or shall be distinctively and permanently marked to minimize the possibility of incorrect assembly which could result in malfunctioning of the control system.

§ 3.345 *Cable systems.* Cables, cable fittings, turnbuckles, splices, and pulleys shall be in accordance with approved specifications. Cables smaller than ⅛-inch diameter shall not be used in primary control systems. The design of cable systems shall be such that there will not be hazardous change in cable tension throughout the range of travel under operating conditions and temperature variations. Pulley types and sizes shall correspond to the cables with which they are used, as specified on the pulley specification. All pulleys shall be provided with satisfactory guards which shall be closely fitted to prevent the cables becoming misplaced or fouling, even when slack. The pulleys shall lie in the plane passing through the cable within such limits that the cable does not rub against the pulley flange. Fairleads shall be so installed that they are not required to cause a change in cable direction of more than 3 degrees. Clevis pins (excluding those not subject to load or motion) retained only by cotter pins shall not be employed in the control system. Turnbuckles shall be attached to parts having angular motion in such a manner as to prevent positively binding throughout the range of travel. Provisions for visual inspection shall be made at all fairleads, pulleys, terminals, and turnbuckles.

§ 3.346 *Joints.* Control system joints subject to angular motion in push-pull systems, excepting ball and roller bearing systems, shall incorporate a multiplying factor of safety of not less than 3.33 with respect to the ultimate bearing strength of the softest material used as a bearing. This factor may be reduced to 2.0 for such joints in cable control systems. For ball or roller bearings the approved rating of the bearing shall not be exceeded.

§ 3.347 *Spring devices.* The reliability of any spring devices used in the control system shall be established by tests simulating service conditions, unless it is demonstrated that failure of the spring will not cause flutter or unsafe flight characteristics.

### LANDING GEAR

#### SHOCK ABSORBERS

§ 3.351 *Tests.* Shock absorbing elements in main, nose, and tail wheel units shall be substantiated by the tests specified in the following section. In addition, the shock absorbing ability of the landing gear in taxying must be demonstrated in the operational tests of § 3.146.

§ 3.352 *Shock absorption tests.* (a) It shall be demonstrated by energy absorption tests that the limit load factors selected for design in accordance with § 3.243 will not be exceeded in landings with the limit descent velocity specified in that section.

(b) In addition, a reserve of energy absorption shall be demonstrated by a test in which the descent velocity is at least 1.2 times the limit descent velocity. In this test there shall be no failure of the shock absorbing unit, although yielding of the unit will be permitted. Wing lift equal to the weight of the airplane may be assumed for purposes of this test.

§ 3.353 *Limit drop tests.* (a) If compliance with the specified limit landing conditions of § 3.352 (a) is demonstrated by free drop tests, these shall be conducted on the complete airplane, or on units consisting of wheel, tire, and shock absorber in their proper relation, from free drop heights not less than the following:

$$h \text{ (inches)} = 3.6\ (W/S)^{0.5}$$

except that the free drop height shall not be less than 9.2 inches and need not be greater than 18.7 inches.

(b) In simulating the permissible wing lift in free drop tests, the landing gear unit shall be dropped with an effective mass equal to:

$$W_e = W\left[\frac{h+(1-L)\,d}{h+d}\right]$$

where:

$W_e$ = the effective weight to be used in the drop test.
$h$ = specified height of drop in inches.
$d$ = deflection under impact of the tire (at the approved inflation pressure) plus the vertical component of the axle travel relative to the drop mass. The value of $d$ used in the computation of $W_e$ shall not exceed the value actually obtained in the drop tests.
$W = W_M$ for main gear units, and shall be equal to the static weight on the particular unit with the airplane in the level attitude (with the nose wheel clear, in the case of nose wheel type airplanes).
$W = W_T$ for tail gear units, and shall be equal to the static weight on the tail unit with the airplane in the tail down attitude.
$W = W_N$ for nose wheel units, and shall be equal to the static reaction which will exist at the nose wheel when the mass of the airplane is concentrated at the center of gravity and exerts a force of $1.0g$ downward and $0.33g$ forward.
$L$ = ratio of assumed wing lift to airplane weight, not greater than 0.667.

The attitude in which the landing gear unit is drop tested shall be such as to simulate the airplane landing condition which is critical from the standpoint of energy to be absorbed by the particular unit.

§ 3.354 *Limit load factor determination.* In determining the limit airplane inertia load factor $n$ from the free drop

test described above, the following formula shall be used:

$$n = n_j \frac{W_e}{W} + L$$

where:

$n_j$ = the load factor developed in the drop test, i. e., the acceleration ($d_v/dt$) in $g$'s recorded in the drop test, plus 1.0.

The value of $n$ so determined shall not be greater than the limit inertia load factor used in the landing conditions, § 3.243.

§ 3.355 *Reserve energy absorption drop tests.* If compliance with the reserve energy absorption condition specified in § 3.352 (b) is demonstrated by free drop tests, the drop height shall be not less than 1.44 times the drop height specified in § 3.353. In simulating wing lift equal to the airplane weight, the units shall be dropped with an effective mass equal to

$$W_e = W \frac{h}{h+d}$$

where the symbols and other details are the same as in § 3.353.

RETRACTING MECHANISM

§ 3.356 *General.* The landing gear retracting mechanism and supporting structure shall be designed for the maximum load factors in the flight conditions when the gear is in the retracted position. It shall also be designed for the combination of friction, inertia, brake torque, and air loads occurring during retraction at any air speed up to 1.6 $V_s$, flaps retracted and any load factors up to those specified for the flaps extended condition, § 3.190. The landing gear and retracting mechanism, including the wheel well doors, shall withstand flight loads with the landing gear extended at any speed up to at least 1.6 $V_s$, flaps retracted. Positive means shall be provided for the purpose of maintaining the wheels in the extended position.

§ 3.357 *Emergency operation.* When other than manual power for the operation of the landing gear is employed, an auxiliary means of extending the landing gear shall be provided.

§ 3.358 *Operation test.* Proper functioning of the landing gear retracting mechanism shall be demonstrated by operation tests.

§ 3.359 *Position indicator and warning device.* When retractable landing wheels are used, means shall be provided for indicating to the pilot when the wheels are secured in the extreme positions. In addition, landplanes shall be provided with an aural or equally effective warning device which shall function continuously after the throttle is closed until the gear is down and locked.

§ 3.360 *Control.* See § 3.384.

WHEELS AND TIRES

§ 3.361 *Wheels.* Main wheels and nose wheels shall be of an approved type. The maximum static load rating of each main wheel and nose wheel shall not be less than the corresponding static ground reaction under the design maximum weight of the airplane and the critical center of gravity position. The maximum limit load rating of each main wheel and nose wheel shall not be less than the maximum radial limit load determined in accordance with the applicable ground load requirements of this part. (See §§ 3.241 through 3.256.)

§ 3.362 *Tires.* A landing gear wheel may be equipped with any make or type of tire, provided that the tire is a proper fit on the rim of the wheel and provided that the approved tire rating is not exceeded under the following conditions:

(a) Load on each main wheel tire equal to the corresponding static ground reaction under the design maximum weight of the airplane and the critical center of gravity position.

(b) Load on nose wheel tires (to be compared with the dynamic rating established for such tires) equal to the reaction obtained at the nose wheel, assuming the mass of the airplane concentrated at the most critical center of gravity and exerting a force of 1.0$g$ downward and 0.31$g$ forward, the reactions being distributed to the nose and main wheels by the principle of statics with the drag reaction at the ground applied only at those wheels having brakes. When specially constructed tires are used to support an airplane, the wheels shall be plainly and conspicuously marked to that effect. Such markings shall include the make, size, number of plies, and identification marking of the proper tire.

BRAKES

§ 3.363 *Brakes.* Brakes shall be installed which are adequate to prevent the airplane from rolling on a paved runway while applying take-off power to the critical engine, and of sufficient capacity to provide adequate speed control during taxying without the use of excessive pedal or hand forces.

SKIS

§ 3.364 *Skis.* Skis shall be of an approved type. The maximum limit load rating of each ski shall not be less than the maximum limit load determined in accordance with the applicable ground load requirements of this part. (See §§ 3.241 through 3.257.)

HULLS AND FLOATS

§ 3.371 *Seaplane main floats.* Seaplane main floats shall be of an approved type and shall comply with the provisions of § 3.265. In addition, the following shall apply:

(a) *Buoyancy.* Each seaplane main float shall have a buoyancy of 80 percent in excess of that required to support the maximum weight of the seaplane in fresh water.

(b) *Compartmentation.* Each seaplane main float for use on airplanes of 2,500 pounds or more maximum weight shall contain not less than 5 watertight compartments, and those for use on airplanes of less than 2,500 pounds maximum weight shall contain not less than 4 such compartments. The compartments shall have approximately equal volumes.

§ 3.372 *Buoyancy (boat seaplanes).* The hulls of boat seaplanes and amphibians shall be divided into watertight compartments in accordance with the following requirements:

(a) In airplanes of 5,000 pounds or more maximum weight, the compartments shall be so arranged that, with any two adjacent compartments flooded, the hull and auxiliary floats (and tires, if used) will retain sufficient buoyancy to support the maximum weight of the airplane in fresh water.

(b) In airplanes of 1,500 to 5,000 pounds maximum weight, the compartments shall be so arranged that, with any one compartment flooded, the hull and auxiliary floats (and tires, if used) will retain sufficient buoyancy to support the maximum weight of the airplane in fresh water.

(c) In airplanes of less than 1,500 pounds maximum weight, watertight subdivision of the hull is not required.

(d) Bulkheads may have watertight doors for the purpose of communication between compartments.

§ 3.373 *Water stability.* Auxiliary floats shall be so arranged that when completely submerged in fresh water, they will provide a righting moment which is at least 1.5 times the upsetting moment caused by the airplane being tilted. A greater degree of stability may be required by the Administrator in the case of large flying boats, depending on the height of the center of gravity above the water level, the area and location of wings and tail surfaces, and other considerations.

FUSELAGE

PILOT COMPARTMENT

§ 3.381 *General.* (a) The arrangement of the pilot compartment and its appurtenances shall provide a satisfactory degree of safety and assurance that the pilot will be able to perform all his duties and operate the controls in the correct manner without unreasonable concentration and fatigue.

(b) The primary flight control units listed on Figure 3–14, excluding cables and control rods, shall be so located with respect to the propellers that no portion of the pilot or controls lies in the region between the plane of rotation of any inboard propeller and the surface generated by a line passing through the center of the propeller hub and making an angle of 5° forward or aft of the plane of rotation of the propeller.

§ 3.382 *Vision.* The pilot compartment shall be arranged to afford the pilot a sufficiently extensive, clear, and undistorted view for the safe operation of the airplane. During flight in a moderate rain condition, the pilot shall have an adequate view of the flight path in normal flight and landing, and have sufficient protection from the elements so that his vision is not unduly impaired. This may be accomplished by providing an openable window or by a means for maintaining a portion of the windshield in a clear condition without continuous attention by the pilot. The pilot compartment shall be free of glare and reflections which would interfere with the pilot's vision. For airplanes intended for night operation, the demonstration of these qualities shall include night flight tests.

§ 3.383 *Pilot windshield and windows.* All glass panes shall be of a nonsplintering safety type.

§ 3.384 *Cockpit controls.* (a) All cockpit controls shall be so located and, except for those the function of which is obvious, identified as to provide convenience in operation including provisions to prevent the possibility of confusion and consequent inadvertent operation. (See Fig. 3–14 for required sense of motion of cockpit controls.) The controls shall be so located and arranged that when seated it will be readily possible for the pilot to obtain full and unrestricted movement of each control without interference from either his clothing or the cockpit structure.

(b) Identical power-plant controls for the several engines in the case of multiengine airplanes shall be so located as to prevent any misleading impression as to the engines to which they relate.

| *Controls* | *Movement and actuation* |
|---|---|
| Primary: | |
| Aileron | Right (clockwise) for right wing down. |
| Elevator | Rearward for nose up. |
| Rudder | Right pedal forward for nose right. |
| Power plant: | |
| Throttle | Forward to open. |

FIGURE 3–14 COCKPIT CONTROLS

§ 3.385 *Instruments and markings.* See § 3.661 relative to instrument arrangement. The operational markings, instructions, and placards required for the instruments and controls are specified in §§ 3.756 to 3.765.

EMERGENCY PROVISIONS

§ 3.386 *Protection.* The fuselage shall be designed to give reasonable assurance that each occupant, if he makes proper use of belts or harness for which provisions are made in the design, will not suffer serious injury during minor crash conditions as a result of contact of any vulnerable part of his body with any penetrating or relatively solid object, although it is accepted that parts of the airplane may be damaged.

(a) The ultimate accelerations to which occupants are assumed to be subjected shall be as follows:

| | N, U | A |
|---|---|---|
| Upward | 3.0$g$ | 4.5$g$ |
| Forward | 9.0$g$ | 9.0$g$ |
| Sideward | 1.5$g$ | 1.5$g$ |

(b) For airplanes having retractable landing gear, the fuselage in combination with other portions of the structure shall be designed to afford protection of the occupants in a wheels-up landing with moderate descent velocity.

(c) If the characteristics of an airplane are such as to make a turnover reasonably probable, the fuselage of such an airplane in combination with other portions of the structure shall be designed to afford protection of the occupants in a complete turnover.

NOTE: In § 3.386 (b) and (c), a vertical ultimate acceleration of 3$g$ and a friction coefficient of 0.5 at the ground may be assumed.

(d) The inertia forces specified for N, U, and A category airplanes in paragraph (a) of this section shall be applied to all items of mass which would be apt to injure the passengers or crew if such items became loose in the event of a minor crash landing, and the supporting structure shall be designed to restrain these items.

§ 3.387 *Exits.* (a) Closed cabins on airplanes carrying more than 5 persons shall be provided with emergency exits consisting of movable windows or panels or of additional external doors which provide a clear and unobstructed opening, the minimum dimensions of which shall be such that a 19-by-26-inch ellipse may be completely inscribed therein. The exits shall be readily accessible, shall not require exceptional agility of a person using them, and shall be distributed so as to facilitate egress without crowding in all probable attitudes resulting from a crash. The method of opening shall be simple and obvious, and the exits shall be so arranged and marked as to be readily located and operated even in darkness. Reasonable provisions shall be made against the jamming of exits as a result of fuselage deformation. The proper functioning of exits shall be demonstrated by tests.

(b) The number of emergency exits required is as follows:

(1) Airplanes with a total seating capacity of more than 5 persons, but not in excess of 15, shall be provided with at least one emergency exit or one suitable door in addition to the main door specified in § 3.389. This emergency exit, or second door, shall be on the opposite side of the cabin from the main door.

(2) Airplanes with a seating capacity of more than 15 persons shall be provided with emergency exits or doors in addition to those required in paragraph (b) (1) of this section. There shall be one such additional exit or door located either in the top or side of the cabin for every additional 7 persons or fraction thereof above 15, except that not more than four exits, including doors, will be required if the arrangement and dimensions are suitable for quick evacuation of all occupants.

(c) If the pilot compartment is separated from the cabin by a door which is likely to block escape in the event of a minor crash, it shall have its own exit, but such exit shall not be considered as an emergency exit for the passengers.

(d) In categories U and A exits shall be provided which will permit all occupants to bail out quickly with parachutes.

§ 3.388 *Fire precautions*—(a) *Cabin interiors.* Only materials which are flash-resistant shall be used. In compartments where smoking is to be permitted, the wall and ceiling linings, the covering of all upholstering, floors, and furnishings shall be flame-resistant. Such compartments shall be equipped with an adequate number of self-contained ash trays. All other compartments shall be placarded against smoking.

(b) *Combustion heaters.* If combustion heaters are installed, they shall be of an approved type. The installation shall comply with applicable parts of the powerplant installation requirements covering fire hazards and precautions. All applicable requirements concerning fuel tanks, lines, and exhaust systems shall be considered.

PERSONNEL AND CARGO ACCOMMODATIONS

§ 3.389 *Doors.* Closed cabins on all airplanes carrying passengers shall be provided with at least one adequate and easily accessible external door. No passenger door shall be so located with respect to the propeller discs as to endanger persons using the door.

§ 3.390 *Seats and berths.* All seats and berths shall be of an approved type. They and their supporting structures shall be designed for an occupant weighing at least 170 pounds (190 pounds with parachute for seats intended for the acrobatic and utility categories) and for the maximum load factors corresponding with all specified flight and ground load conditions including the emergency landing conditions prescribed in § 3.386. The provisions of paragraphs (a) through (d) of this section shall also apply:

(a) Pilot seats shall be designed for the reactions resulting from the application of pilot forces to the primary flight controls as prescribed in § 3.231.

(b) All seats in the U and A categories shall be designed to accommodate passengers wearing parachutes, unless placarded in accordance with § 3.74 (b).

(c) Berths shall be so designed that the forward portion is provided with a padded end board, a canvas diaphragm, or other equivalent means, capable of withstanding the static load reaction of the occupant when subjected to the forward accelerations prescribed in § 3.386. Berths shall be provided with an approved safety belt and shall be free from corners or protuberances likely to cause serious injury to a person occupying the berth during emergency conditions. Berth safety belt attachments shall withstand the critical loads resulting from all relevant flight and ground load conditions and from the emergency landing conditions of § 3.386 with the exception of the forward load.

(d) In determining the strength of the attachment of the seat and berth to the structure, the accelerations prescribed in § 3.386 shall be multiplied by a factor of 1.33.

§ 3.392 *Cargo compartments.* Each cargo compartment shall be designed for the placarded maximum weight of contents and critical load distributions at the appropriate maximum load factors corresponding to all specified flight and ground load conditions. Suitable provisions shall be made to prevent the contents of cargo compartments from becoming a hazard by shifting. Such provisions shall be adequate to protect the passengers from injury by the contents of any cargo compartment when the ultimate forward acting accelerating force is 4.5$g$.

§ 3.393 *Ventilation.* All passenger and crew compartments shall be suitably ventilated. Carbon monoxide concentration shall not exceed 1 part in 20,000 parts of air.

MISCELLANEOUS

§ 3.401 *Leveling marks.* Leveling marks shall be provided for leveling the airplane on the ground.

SUBPART E—POWER-PLANT INSTALLATIONS: RECIPROCATING ENGINES

GENERAL

§ 3.411 *Components.* (a) The power-plant installation shall be considered to include all components of the airplane which are necessary for its propulsion. It shall also be considered to include all components which affect the control of the major propulsive units or which affect their continued safety of operation.

(b) All components of the power-plant installation shall be constructed, arranged, and installed in a manner which will assure the continued safe operation of the airplane and power plant. Accessibility shall be provided to permit such inspection and maintenance as is necessary to assure continued airworthiness.

ENGINES AND PROPELLERS

§ 3.415 *Engines.* Engines installed in certificated airplanes shall be of a type which has been certificated in accordance with the provisions of Part 13 of this subchapter.

§ 3.416 *Propellers.* (a) Propellers installed in certificated airplanes shall be of a type which has been certificated in accordance with the provisions of Part 14 of this subchapter.

(b) The maximum engine power and propeller shaft rotational speed permissible for use in the particular airplane involved shall not exceed the corresponding limits for which the propeller has been certificated.

§ 3.417 *Propeller vibration.* In the case of propellers with metal blades or other highly stressed metal components, the magnitude of the critical vibration stresses under all normal conditions of operation shall be determined by actual measurements or by comparison with similar installations for which such measurements have been made. The vibration stresses thus determined shall not exceed values which have been demonstrated to be safe for continuous operation. Vibration tests may be waived and the propeller installation accepted on the basis of service experience, engine or ground tests which show adequate margins of safety, or other considerations which satisfactorily substantiate its safety in this respect. In addition to metal propellers, the Administrator may require that similar substantiation of the vibration characteristics be accomplished for other types of propellers, with the exception of conventional fixed-pitch wood propellers.

§ 3.418 *Propeller pitch and speed limitations.* The propeller pitch and speed shall be limited to values which will assure safe operation under all normal conditions of operation and will assure compliance with the performance requirements specified in §§ 3.81–3.86.

§ 3.419 *Speed limitations for fixed-pitch propellers, ground adjustable pitch propellers, and automatically varying pitch propellers which cannot be controlled in flight.* (a) During take-off and initial climb at best rate-of-climb speed, the propeller, in the case of fixed-pitch or ground adjustable types, shall restrain the engine to a speed not exceeding its maximum permissible take-off speed and, in the case of automatic variable-pitch types, shall limit the maximum governed engine revolutions per minute to a speed not exceeding the maximum permissible take-off speed. In demonstrating compliance with this provision the engine shall be operated at full throttle or the throttle setting corresponding to the maximum permissible take-off manifold pressure.

(b) During a closed throttle glide at the placard, "never-exceed speed" (see § 3.739), the propeller shall not cause the engine to rotate at a speed in excess of 110 percent of its maximum allowable continuous speed.

§ 3.420 *Speed and pitch limitations for controllable pitch propellers without constant speed controls.* The stops or other means incorporated in the propeller mechanism to restrict the pitch range shall limit (a) the lowest possible blade pitch to a value which will assure compliance with the provisions of § 3.419 (a), and (b) the highest possible blade pitch to a value not lower than the flattest blade pitch with which compliance with the provisions of § 3.419 (b) can be demonstrated.

§ 3.421 *Variable pitch propellers with constant speed controls.* (a) Suitable means shall be provided at the governor to limit the speed of the propeller. Such means shall limit the maximum governed engine speed to a value not exceeding its maximum permissible take-off revolutions per minute.

(b) The low pitch blade stop, or other means incorporated in the propeller mechanism to restrict the pitch range, shall limit the speed of the engine to a value not exceeding 103 percent of the maximum permissible take-off revolutions per minute under the following conditions:

(1) Propeller blades set in the lowest possible pitch and the governor inoperative.

(2) Engine operating at take-off manifold pressure with the airplane stationary and with no wind.

§ 3.422 *Propeller clearance.* With the airplane loaded to the maximum weight and most adverse center of gravity position and the propeller in the most adverse pitch position, propeller clearances shall not be less than the following, unless smaller clearances are properly substantiated for the particular design involved:

(a) *Ground clearance.* (1) Seven inches (for airplanes equipped with nose wheel type landing gears) or 9 inches (for airplanes equipped with tail wheel type landing gears) with the landing gear statically deflected and the airplane in the level, normal take-off, or taxying attitude, whichever is most critical.

(2) In addition to subparagraph (1) of this paragraph, there shall be positive clearance between the propeller and the ground when, with the airplane in the level take-off attitude, the critical tire is completely deflated and the corresponding landing gear strut is completely bottomed.

(b) *Water clearance.* A minimum clearance of 18 inches shall be provided unless compliance with § 3.147 can be demonstrated with lesser clearance.

(c) *Structural clearance.* (1) One inch radial clearance between the blade tips and the airplane structure, or whatever additional radial clearance is necessary to preclude harmful vibration of the propeller or airplane.

(2) One-half inch longitudinal clearance between the propeller blades or cuffs and stationary portions of the airplane. Adequate positive clearance shall be provided between other rotating portions of the propeller or spinner and stationary portions of the airplane.

FUEL SYSTEM

§ 3.429 *General.* The fuel system shall be constructed and arranged in a manner to assure the provision of fuel to each engine at a flow rate and pressure adequate for proper engine functioning under all normal conditions of operation, including all maneuvers and acrobatics for which the airplane is intended.

ARRANGEMENT

§ 3.430 *Fuel system arrangement.* Fuel systems shall be so arranged as to permit any one fuel pump to draw fuel from only one tank at a time. Gravity feed systems shall not supply fuel to any one engine from more than one tank at a time unless the tank air spaces are interconnected in such a manner as to assure that all interconnected tanks will feed equally. (See also § 3.439.)

§ 3.431 *Multiengine fuel system arrangement.* The fuel systems of multiengine airplanes shall be arranged to permit operation in at least one configuration in such a manner that the failure of any one component will not result in the loss of power of more than one engine and will not require immediate action by the pilot to prevent the loss of power of more than one engine. Unless other provisions are made to comply with this requirement, the fuel system shall be arranged to permit supplying fuel to each engine through a system entirely independent of any portion of the system supplying fuel to the other engines.

NOTE: It is not necessarily intended that fuel tanks proper be separate for each engine if a common tank is provided with separate outlets and the remainder of the fuel system is independent.

§ 3.432 *Pressure cross feed arrangements.* Pressure cross feed lines shall not pass through portions of the airplane devoted to carrying personnel or cargo, unless means are provided to permit the flight personnel to shut off the supply of fuel to these lines, or unless any joints, fittings, or other possible sources of leakage installed in such lines are enclosed in a fuel- and fume-proof enclosure which is ventilated and drained to the exterior of the airplane. Bare tubing need not be enclosed but shall be protected where necessary against possible inadvertent damage.

OPERATION

§ 3.433 *Fuel flow rate.* The ability of the fuel system to provide the required fuel flow rate and pressure shall be demonstrated when the airplane is in the attitude which represents the most adverse condition from the standpoint of fuel feed and quantity of unusable fuel in the tank. During this test fuel shall be delivered to the engine at the applicable flow rate (see §§ 3.434–3.436) and at a pressure not less than the minimum required for proper carburetor operation. A suitable mock-up of the system, in which the most adverse conditions are simulated, may be used for this purpose. The quantity of fuel in the tank being tested shall not exceed the amount established as the unusable fuel supply for that tank as determined by demonstration of compliance with the provisions of § 3.437 (see also §§ 3.440 and 3.672), plus whatever minimum quantity of fuel it may be necessary to add for the purpose of conducting the flow test. If a fuel flowmeter is provided, the meter shall be blocked during the flow test and the fuel shall flow through the meter bypass.

§ 3.434 *Fuel flow rate for gravity systems.* The fuel flow rate for gravity systems (main and reserve supply) shall be 150 percent of the actual take-off fuel consumption of the engine.

§ 3.435 *Fuel flow rate for pump systems.* The fuel flow rate for pump systems (main and reserve supply) shall be 0.9 pound per hour for each take-off horsepower or 125 percent of the actual take-off fuel consumption of the engine, whichever is greater. This flow rate shall be applicable to both the primary engine-driven pump and the emergency pumps and shall be available when the pump is running at the speed at which it would normally be operating during take-off. In the case of hand-operated pumps, this speed shall be considered to be not more than 60 complete cycles (120 single strokes) per minute.

§ 3.436 *Fuel flow rate for auxiliary fuel systems and fuel transfer systems.* The provisions of § 3.434 or § 3.435, whichever is applicable, shall also apply to auxiliary and transfer systems with the exception that the required fuel flow rate shall be established upon the basis of maximum continuous power and speed instead of take-off power and speed. A lesser flow rate shall be acceptable, however, in the case of a small auxiliary tank feeding into a large main tank, provided a suitable placard is installed to require that the auxiliary tank must only be opened to the main tank when a predetermined satisfactory amount of fuel still remains in the main tank.

§ 3.437 *Determination of unusable fuel supply and fuel system operation on low fuel.* (a) The unusable fuel supply for each tank shall be established as not less than the quantity at which the first evidence of malfunctioning occurs under the conditions specified in this section. (See also § 3.440.) In the case of airplanes equipped with more than one fuel tank, any tank which is not required to feed the engine in all of the conditions specified in this section need be investigated only for those flight conditions in which it shall be used and the unusable fuel supply for the particular tank in question shall then be based on the most critical of those conditions which are found to be applicable. In all such cases, information regarding the conditions under which the full amount of usable fuel in the tank can safely be used shall be made available to the operating personnel by means of a suitable placard or instructions in the Airplane Flight Manual.

(b) Upon presentation of the airplane for test, the applicant shall stipulate the quantity of fuel with which he chooses to demonstrate compliance with this provision and shall also indicate which of the following conditions is most critical from the standpoint of establishing the unusable fuel supply. He shall also indicate the order in which the other conditions are critical from this standpoint:

(1) Level flight at maximum continuous power or the power required for level flight at $V_C$, whichever is less.

(2) Climb at maximum continuous power at the calculated best angle of climb at minimum weight.

(3) Rapid application of power and subsequent transition to best rate of climb following a power-off glide at 1.3 $V_{S_0}$.

(4) Sideslips and skids in level flight, climb, and glide under the conditions specified in subparagraphs (1), (2), and (3) of this paragraph, of the greatest severity likely to be encountered in normal service or in turbulent air.

(c) In the case of utility category airplanes, there shall be no evidence of malfunctioning during the execution of all approved maneuvers included in the Airplane Flight Manual. During this test the quantity of fuel in each tank shall not exceed the quantity established as the unusable fuel supply, in accordance with paragraph (b) of this section, plus 0.03 gallon for each maximum continuous horsepower for which the airplane is certificated.

(d) In the case of acrobatic category airplanes, there shall be no evidence of malfunctioning during the execution of all approved maneuvers included in the Airplane Flight Manual. During this test the quantity of fuel in each tank shall not exceed that specified in paragraph (c) of this section.

(e) If an engine can be supplied with fuel from more than one tank, it shall be possible to regain the full power and fuel pressure of that engine in not more than 10 seconds (for single-engine airplanes) or 20 seconds (for multiengine airplanes) after switching to any full tank after engine malfunctioning becomes apparent due to the depletion of the fuel supply in any tank from which the engine can be fed. Compliance with this provision shall be demonstrated in level flight.

(f) There shall be no evidence of malfunctioning during take-off and climb for 1 minute at the calculated attitude of best angle of climb at take-off power and minimum weight. At the beginning of this test the quantity of fuel in each tank shall not exceed that specified in paragraph (c) of this section.

§ 3.438 *Fuel system hot weather operation.* Airplanes with suction lift fuel systems or other fuel system features conducive to vapor formation shall be demonstrated to be free from vapor lock when using fuel at a temperature of 110° F. under critical operating conditions.

§ 3.439 *Flow between interconnected tanks.* In the case of gravity feed systems with tanks whose outlets are interconnected, it shall not be possible for fuel to flow between tanks in quantities sufficient to cause an overflow of fuel from the tank vent when the airplane is operated as specified in § 3.437 (a) and the tanks are full.

FUEL TANKS

§ 3.440 *General.* Fuel tanks shall be capable of withstanding without failure any vibration, inertia, and fluid and structural loads to which they may be subjected in operation. Flexible fuel tank liners shall be of an acceptable type. Integral type fuel tanks shall be provided with adequate facilities for the inspection and repair of the tank interior. The total usable capacity of the fuel tanks shall be sufficient for not less than one-half hour operation at rated maximum continuous power (see § 3.74 (d)). The unusable capacity shall be considered to be the minimum quantity of fuel which will permit compliance with the provisions of § 3.437. The fuel quantity indicator shall be adjusted to account for the unusable fuel supply as specified in § 3.672. If the unusable fuel supply in any tank exceeds 5 percent of the tank capacity or 1 gallon, whichever is greater, a placard and a suitable notation in the Airplane Flight Manual shall be provided to indicate to the flight personnel that the fuel remaining in the tank when the quantity indicator reads zero cannot be used safely in flight. The weight of the unusable fuel supply shall be included in the empty weight of the airplane.

§ 3.441 *Fuel tank tests.* (a) Fuel tanks shall be capable of withstanding the following pressure tests without failure or leakage. These pressures may be applied in a manner simulating the actual pressure distribution in service:

(1) Conventional metal tanks and nonmetallic tanks whose walls are not supported by the airplane structure: A pressure of 3.5 p. s. i. or the pressure developed during the maximum ultimate acceleration of the airplane with a full tank, whichever is greater.

(2) Integral tanks: The pressure developed during the maximum limit acceleration of the airplane with a full tank, simultaneously with the application of the critical limit structural loads.

(3) Nonmetallic tanks the walls of which are supported by the airplane structure: Tanks constructed of an acceptable basic tank material and type of construction and with actual or simulated support conditions shall be subjected to a pressure of 2 p. s. i. for the first tank of a specific design. The supporting structure shall be designed for the critical loads occurring in the flight or landing strength conditions combined with the fuel pressure loads resulting from the corresponding accelerations.

(b) (1) Tanks with large unsupported or unstiffened flat areas shall be capable of withstanding the following tests without leakage or failure. The complete tank assembly, together with its supports, shall be subjected to a vibration test when mounted in a manner simulating the actual installation. The tank assembly shall be vibrated for 25 hours at a total amplitude of not less than 1/32 of an inch while filled 2/3 full of water. The frequency of vibration shall be 90 percent of the maximum continuous rated speed of the engine unless some other frequency within the normal operating range of speeds of the engine is more critical, in which case the latter speed shall be employed and the time of test shall be adjusted to accomplish the same number of vibration cycles.

(2) In conjunction with the vibration test, the tank assembly shall be rocked through an angle of 15° on either side of the horizontal (30° total) about an axis parallel to the axis of the fuselage. The assembly shall be rocked at the rate of 16 to 20 complete cycles per minute.

(c) Integral tanks which incorporate methods of construction and sealing not previously substantiated by satisfactory test data or service experience shall be capable of withstanding the vibration test specified in paragraph (b) of this section.

(d) (1) Tanks with nonmetallic liners shall be subjected to the sloshing portion of the test outlined under paragraph (b) of this section with fuel at room temperature.

(2) In addition, a specimen liner of the same basic construction as that to be used in the airplane shall, when installed in a suitable test tank, satisfactorily withstand the slosh test with fuel at a temperature of 110° F.

§ 3.442 *Fuel tank installation.* (a) The method of supporting tanks shall not be such as to concentrate the loads resulting from the weight of the fuel in the tanks. Pads shall be provided to prevent chafing between the tank and its supports. Materials employed for padding shall be nonabsorbent or shall be treated to prevent the absorption of fuels. If flexible tank liners are employed, they shall be of an approved type, and they shall be so supported that the liner is not required to withstand fluid loads. Interior surfaces of compartments for such liners shall be smooth and free of projections which are apt to cause wear of the liner, unless provisions are made for the protection of the liner at such points or unless the construction of the liner itself provides such protection. A positive pressure shall be maintained within the vapor space of all bladder cells under all conditions of operation including the critical condition of low air speed and rate of descent likely to be encountered in normal operation.

(b) Tank compartments shall be ventilated and drained to prevent the accumulation of inflammable fluids or vapors. Compartments adjacent to tanks which are an integral part of the airplane structure shall also be ventilated and drained.

(c) Fuel tanks shall not be located on the engine side of the fire wall. Not less than one-half inch of clear air space shall be provided between the fuel tank and the fire wall. No portion of engine nacelle skin which lies immediately behind a major air egress opening from the engine compartment shall act as the wall of an integral tank. Fuel tanks shall not be located in personnel compartments, except in the case of single-engine airplanes. In such cases fuel tanks the capacity of which does not exceed 25 gallons may be located in personnel compartments, if adequate ventilation and drainage are provided. In all other cases, fuel tanks shall be isolated from personnel compartments by means of fume and fuel proof enclosures.

§ 3.443 *Fuel tank expansion space.* Fuel tanks shall be provided with an expansion space of not less than 2 percent of the tank capacity, unless the tank vent discharges clear of the aircraft in which case no expansion space will be required. It shall not be possible inadvertently to fill the fuel tank expansion space when the airplane is in the normal ground attitude.

§ 3.444 *Fuel tank sump.* (a) Each tank shall be provided with a drainable sump having a capacity of not less than 0.25 percent of the tank capacity or 1/16 gallon, whichever is the greater. It shall be acceptable to dispense with the sump if the fuel system is provided with a sediment bowl permitting ground inspection. The sediment bowl shall also be accessible for drainage. The capacity of the sediment chamber shall not be less than 1 ounce per each 20 gallons of the fuel tank capacity.

(b) If a fuel tank sump is provided, the capacity specified in paragraph (a) of this section shall be effective with the airplane in the normal ground attitude and in all normal flight attitudes.

(c) If a separate sediment bowl is provided in lieu of a tank sump, the fuel tank outlet shall be so located that, when the airplane is in the normal ground attitude, water will drain from all portions of the tank to the sediment bowl.

§ 3.445 *Fuel tank filler connection.* (a) Fuel tank filler connections shall be marked as specified in § 3.767.

(b) Provision shall be made to prevent the entrance of spilled fuel into the fuel tank compartment or any portions of the airplane other than the tank itself. The filler cap shall provide a fuel-tight seal for the main filler opening. However, small openings in the fuel tank cap for venting purposes or to permit passage of a fuel gauge through the cap shall be permissible.

§ 3.446 *Fuel tank vents and carburetor vapor vents.* (a) Fuel tanks shall be vented from the top portion of the expansion space. Vent outlets shall be so located and constructed as to minimize the possibility of their being obstructed by ice or other foreign matter. The vent shall be so constructed as to preclude the possibility of siphoning fuel during normal operation. The vent shall be of sufficient size to permit the rapid relief of excessive differences of pressure between the interior and exterior of the tank. Air spaces of tanks the outlets of which are interconnected shall also be interconnected. There shall be no undrainable points in the vent line where moisture is apt to accumulate with the airplane in either the ground or level flight attitude. Vents shall not terminate at points where the discharge of fuel from the vent outlet will constitute a fire hazard or from which fumes may enter personnel compartments.

(b) Carburetors which are provided with vapor elimination connections shall be provided with a vent line which will lead vapors back to one of the airplane fuel tanks. If more than one fuel tank is provided and it is necessary to use these tanks in a definite sequence for any reason, the vapor vent return line shall lead back to the fuel tank which must be used first unless the relative capacities of the tanks are such that return to another tank is preferable.

§ 3.447–A *Fuel tank vents.* Provision shall be made to prevent excessive loss of fuel during acrobatic maneuvers including short periods of inverted flight. It shall not be possible for fuel to siphon from the vent when normal flight has been resumed after having executed any acrobatic maneuver for which the airplane is intended.

§ 3.448 *Fuel tank outlet.* The fuel tank outlet shall be provided with a screen of from 8 to 16 meshes per inch. If a finger strainer is used, the length of the strainer shall not be less than 4 times the outlet diameter. The diameter of the strainer shall not be less than the diameter of the fuel tank outlet. Finger strainers shall be accessible for inspection and cleaning.

FUEL PUMPS

§ 3.449 *Fuel pump and pump installation.* (a) If fuel pumps are provided to maintain a supply of fuel to the engine, at least one pump for each engine shall be directly driven by the engine. Fuel pumps shall be adequate to meet the flow requirements of the applicable portions of §§ 3.433–3.436.

(b) Emergency fuel pumps shall be provided to permit supplying all engines with fuel in case of the failure of any one engine-driven pump, except that if an engine fuel injection pump which has been certificated as an integral part of the engine is used, an emergency pump is not required. Emergency pumps shall be available for immediate use in case of the failure of any other pump. If both the normal pump and emergency pump operate continuously, means shall be provided to indicate to the crew when either pump is malfunctioning.

LINES, FITTINGS, AND ACCESSORIES

§ 3.550 *Fuel system lines, fittings, and accessories.* Fuel lines shall be installed and supported in a manner which will prevent excessive vibration and will be adequate to withstand loads due to fuel pressure and accelerated flight conditions. Lines which are connected to components of the airplane between which relative motion might exist shall incorporate provisions for flexibility. Flexible hose shall be of an acceptable type.

§ 3.551 *Fuel valves.* (a) Means shall be provided to permit the flight personnel to shut off rapidly the flow of fuel to any engine individually in flight. Valves provided for this purpose shall be located on the side of the fire wall most remote from the engine.

(b) Shut-off valves shall be so constructed as to make it possible for the flight personnel to reopen the valves rapidly after they have once been closed.

(c) Valves shall be provided with either positive stops or "feel" in the on and off positions and shall be supported in such a manner that loads resulting from their operation or from accelerated flight conditions are not transmitted to the lines connected to the valve. Valves shall be so installed that the effect of gravity and vibration will tend to turn their handles to the open rather than the closed position.

(d) Fuel valve handles and their connections to the valve mechanism shall incorporate design features to minimize the possibility of incorrect installation.

§ 3.552 *Fuel strainer.* A fuel strainer shall be provided between the fuel tank outlet and the carburetor inlet. If an engine-driven fuel pump is provided, the strainer shall be located between the tank outlet and the engine-driven pump inlet. The strainer shall be accessible for drainage and cleaning, and the strainer screen shall be removable.

DRAINS AND INSTRUMENTS

§ 3.553 *Fuel system drains.* Drains shall be provided to permit safe drainage of the entire fuel system and shall incorporate means for locking in the closed position. The provisions for drainage shall be effective in the normal ground attitude.

§ 3.554 *Fuel system instruments.* (See § 3.655 and §§ 3.670 through 3.673.)

OIL SYSTEM

§ 3.561 *Oil system.* Each engine shall be provided with an independent oil system capable of supplying the engine with an ample quantity of oil at a temperature not exceeding the maximum which has been established as safe for continuous operation. The usable oil tank capacity shall not be less than the product of the endurance of the airplane under critical operating conditions and the maximum oil consumption of the engine under the same conditions, plus a suitable margin to assure adequate system circulation and cooling.

§ 3.562 *Oil cooling.* See § 3.581 and pertinent sections.

OIL TANKS

§ 3.563 *Oil tanks.* Oil tanks shall be capable of withstanding without failure all vibration, inertia, and fluid loads to which they might be subjected in operation. Flexible oil tank liners shall be of an acceptable type.

§ 3.564 *Oil tank tests.* Oil tank tests shall be the same as fuel tank tests (see § 3.441), except as follows:

(a) The 3.5 p. s. i. pressure specified in § 3.441 (a) shall be 5 pounds p. s. i.

(b) In the case of tanks with nonmetallic liners, the test fluid shall be oil rather than fuel as specified in § 3.441 (d) and the slosh test on a specimen liner shall be conducted with oil at a temperature of 250° F.

§ 3.565 *Oil tank installation.* Oil tank installations shall comply with the requirements of § 3.442 (a) and (b).

§ 3.566 *Oil tank expansion space.* Oil tanks shall be provided with an expansion space of not less than 10 percent of the tank capacity or ½ gallon, whichever is greater. It shall not be possible inadvertently to fill the oil tank expansion space when the airplane is in the normal ground attitude.

§ 3.567 *Oil tank filler connection.* Oil tank filler connections shall be marked as specified in § 3.767.

§ 3.568 *Oil tank vent.* (a) Oil tanks shall be vented to the engine crankcase from the top of the expansion space in such a manner that the vent connection is not covered by oil under any normal flight conditions. Oil tank vents shall be so arranged that condensed water vapor which might freeze and obstruct the line cannot accumulate at any point.

(b) *Category A.* Provision shall be made to prevent hazardous loss of oil during acrobatic maneuvers including short periods of inverted flight.

§ 3.569 *Oil tank outlet.* The oil tank outlet shall not be enclosed or covered by any screen or other guard which might impede the flow of oil. The diameter of the oil tank outlet shall not be less than the diameter of the engine oil pump inlet. (See also § 3.577.)

LINES, FITTINGS, AND ACCESSORIES

§ 3.570 *Oil system lines, fittings, and accessories.* Oil lines shall comply with the provisions of § 3.550, except that the inside diameter of the engine oil inlet and outlet lines shall not be less than the diameter of the corresponding engine oil pump inlet and outlet.

§ 3.571 *Oil valves.* See § 3.637.

§ 3.572 *Oil radiators.* Oil radiators and their support shall be capable of withstanding without failure any vibration, inertia, and oil pressure loads to which they might normally be subjected.

§ 3.573 *Oil filters.* If the engine is equipped with an oil filter, the filter shall be constructed and installed in such a manner that complete blocking of the flow through the filter element will not jeopardize the continued operation of the engine oil supply system.

§ 3.574 *Oil system drains.* Drains shall be provided to permit safe drainage of the entire oil system and shall incorporate means for positive locking in the closed position.

§ 3.575 *Engine breather lines.* (a) Engine breather lines shall be so arranged that condensed water vapor which might freeze and obstruct the line cannot accumulate at any point. Breathers shall discharge in a location which will not constitute a fire hazard in case foaming occurs and so that oil emitted from the line will not impinge upon the pilot's windshield. The breather shall not discharge into the engine air induction system.

(b) *Category A.* In the case of acrobatic type airplanes, provision shall be made to prevent excessive loss of oil from the breather during acrobatic maneuvers including short periods of inverted flight.

§ 3.576 *Oil system instruments.* See §§ 3.655, 3.670, 3.671, and 3.674.

§ 3.577 *Propeller feathering system.* If the propeller feathering system is dependent upon the use of the engine oil supply, provision shall be made to trap a quantity of oil in the tank in case the supply becomes depleted due to failure of any portion of the lubricating system other than the tank itself. The quantity of oil so trapped shall be sufficient to accomplish the feathering operation and shall be available only to the feathering pump. The ability of the system to accomplish feathering when the supply of oil has fallen to the above level shall be demonstrated.

COOLING

§ 3.581 *General.* The power-plant cooling provisions shall be capable of maintaining the temperatures of all power-plant components, engine parts, and engine fluids (oil and coolant), at or below the maximum established safe values under critical conditions of ground and flight operation.

TESTS

§ 3.582 *Cooling tests.* Compliance with the provisions of § 3.581 shall be demonstrated under critical ground, water, and flight operating conditions. If the tests are conducted under conditions which deviate from the highest anticipated summer air temperature (see § 3.583), the recorded power-plant temperatures shall be corrected in accordance with the provisions of §§ 3.584 and 3.585. The corrected temperatures determined in this manner shall not exceed the maximum established safe values. The fuel used during the cooling tests shall be of the minimum octane number approved for the engines involved, and the mixture settings shall be those appropriate to the operating conditions. The test procedures shall be as outlined in §§ 3.586 and 3.587.

§ 3.583 *Maximum anticipated summer air temperatures.* The maximum anticipated summer air temperature shall be considered to be 100° F. at sea level and to decrease from this value at the rate of 3.6° F. per thousand feet of altitude above sea level.

§ 3.584 *Correction factor for cylinder head, oil inlet, carburetor air, and engine coolant inlet temperatures.* These temperatures shall be corrected by adding the difference between the maximum anticipated summer air temperature and the temperature of the ambient air at the time of the first occurrence of maximum head, air, oil, or coolant temperature recorded during the cooling test.

§ 3.585 *Correction factor for cylinder barrel temperatures.* Cylinder barrel temperatures shall be corrected by adding 0.7 of the difference between the maximum anticipated summer air temperature and the temperature of the am-

bient air at the time of the first occurrence of the maximum cylinder barrel temperature recorded during the cooling test.

§ 3.586 *Cooling test procedure for single-engine airplanes.* This test shall be conducted by stabilizing engine temperatures in flight and then starting at the lowest practicable altitude and climbing for 1 minute at take-off power. At the end of 1 minute, the climb shall be continued at maximum continuous power until at least 5 minutes after the occurrence of the highest temperature recorded. The climb shall not be conducted at a speed greater than the best rate-of-climb speed with maximum continuous power unless:

(a) The slope of the flight path at the speed chosen for the cooling test is equal to or greater than the minimum required angle of climb (see § 3.85 (a)), and

(b) A cylinder head temperature indicator is provided as specified in § 3.675.

§ 3.587 *Cooling test procedure for multiengine airplanes*—(a) *Airplanes which meet the minimum one-engine-inoperative climb performance specified in § 3.85 (b).* The engine cooling test for these airplanes shall be conducted with the airplane in the configuration specified in § 3.85 (b), except that the operating engine(s) shall be operated at maximum continuous power or at full throttle when above the critical altitude. After stabilizing temperatures in flight, the climb shall be started at the lower of the two following altitudes and shall be continued until at least 5 minutes after the highest temperature has been recorded:

(1) 1,000 feet below the engine critical altitude or at the lowest practicable altitude (when applicable).

(2) 1,000 feet below the altitude at which the single-engine-inoperative rate of climb is 0.02 $V_{s_0}^2$.

The climb shall be conducted at a speed not in excess of the highest speed at which compliance with the climb requirement of § 3.85 (b) can be shown. However, if the speed used exceeds the speed for best rate of climb with one engine inoperative, a cylinder head temperature indicator shall be provided as specified in § 3.675.

(b) *Airplanes which cannot meet the minimum one-engine-inoperative climb performance specified in § 3.85 (b).* The engine cooling test for these airplanes shall be the same as in paragraph (a) of this section, except that after stabilizing temperatures in flight, the climb (or descent, in the case of airplanes with zero or negative one-engine-inoperative rate of climb) shall be commenced at as near sea level as practicable and shall be conducted at the best rate-of-climb speed (or the speed of minimum rate of descent, in the case of airplanes with zero or negative one-engine-inoperative rate of climb).

LIQUID COOLING SYSTEMS

§ 3.588 *Independent systems.* Each liquid cooled engine shall be provided with an independent cooling system. The cooling system shall be so arranged that no air or vapor can be trapped in any portion of the system, except the expansion tank, either during filling or during operation.

§ 3.589 *Coolant tank.* A coolant tank shall be provided. The tank capacity shall not be less than 1 gallon plus 10 percent of the cooling system capacity. Coolant tanks shall be capable of withstanding without failure all vibration, inertia, and fluid loads to which they may be subjected in operation. Coolant tanks shall be provided with an expansion space of not less than 10 percent of the total cooling system capacity. It shall not be possible inadvertently to fill the expansion space with the airplane in the normal ground attitude.

§ 3.590 *Coolant tank tests.* Coolant tank tests shall be the same as fuel tank tests (see § 3.441), except as follows:

(a) The 3.5 pounds per square inch pressure test of § 3.441 (a) shall be replaced by the sum of the pressure developed during the maximum ultimate acceleration with a full tank or a pressure of 3.5 pounds per square inch, whichever is greater, plus the maximum working pressure of the system.

(b) In the case of tanks with nonmetallic liners, the test fluid shall be coolant rather than fuel as specified in § 3.441 (d), and the slosh test on a specimen liner shall be conducted with coolant at operating temperature.

§ 3.591 *Coolant tank installation.* Coolant tanks shall be supported in a manner so as to distribute the tank loads over a large portion of the tank surface. Pads shall be provided to prevent chafing between the tank and the support. Material used for padding shall be nonabsorbent or shall be treated to prevent the absorption of inflammable fluids.

§ 3.592 *Coolant tank filler connection.* Coolant tank filler connections shall be marked as specified in § 3.767. Provisions shall be made to prevent the entrance of spilled coolant into the coolant tank compartment or any portions of the airplane other than the tank itself. Recessed coolant filler connections shall be drained and the drain shall discharge clear of all portions of the airplane.

§ 3.593 *Coolant lines, fittings, and accessories.* Coolant lines shall comply with the provisions of § 3.550, except that the inside diameter of the engine coolant inlet and outlet lines shall not be less than the diameter of the corresponding engine inlet and outlet connections.

§ 3.594 *Coolant radiators.* Coolant radiators shall be capable of withstanding without failure any vibration, inertia, and coolant pressure loads to which they may normally be subjected. Radiators shall be supported in a manner which will permit expansion due to operating temperatures and prevent the transmittal of harmful vibration to the radiator. If the coolant employed is inflammable, the air intake duct to the coolant radiator shall be so located that flames issuing from the nacelle in case of fire cannot impinge upon the radiator.

§ 3.595 *Cooling system drains.* One or more drains shall be provided to permit drainage of the entire cooling system, including the coolant tank, radiator, and the engine, when the airplane is in the normal ground attitude. Drains shall discharge clear of all portions of the airplane and shall be provided with means for positively locking the drain in the closed position. Cooling system drains shall be accessible.

§ 3.596 *Cooling system instruments.* See §§ 3.655, 3.670, and 3.671.

INDUCTION SYSTEM

§ 3.605 *General.* (a) The engine air induction system shall permit supplying an adequate quantity of air to the engine under all conditions of operation.

(b) Each engine shall be provided with at least two separate air intake sources, except that in the case of an engine equipped with a fuel injector only one air intake source need be provided, if the air intake, opening, or passage is unobstructed by a screen, filter, or other part on which ice might form and so restrict the air flow as to affect adversely engine operation. It shall be permissible for primary air intakes to open within the cowling only if that portion of the cowling is isolated from the engine accessory section by means of a fire-resistant diaphragm or if provision is made to prevent the emergence of backfire flames. Alternate air intakes shall be located in a sheltered position and shall not open within the cowling unless they are so located that the emergence of backfire flames will not result in a hazard. Supplying air to the engine through the alternate air intake system of the carburetor air preheater shall not result in the loss of excessive power in addition to the power lost due to the rise in the temperature of the air.

§ 3.606 *Induction system de-icing and anti-icing provisions.* The engine air induction system shall incorporate means for the prevention and elimination of ice accumulations in accordance with the provisions in this section. It shall be demonstrated that compliance with the provisions outlined in the following paragraphs can be accomplished when the airplane is operating in air at a temperature of 30° F. when the air is free of visible moisture.

(a) Airplanes equipped with sea level engines employing conventional venturi carburetors shall be provided with a preheater capable of providing a heat rise of 90° F. when the engine is operating at 75 percent of its maximum continuous power.

(b) Airplanes equipped with altitude engines employing conventional venturi carburetors shall be provided with a preheater capable of providing a heat rise of 120° F. when the engine is operating at 75 percent of its maximum continuous power.

(c) Airplanes equipped with altitude engines employing carburetors which embody features tending to reduce the possibility of ice formation shall be provided with a preheater capable of providing a heat rise of 100° F. when the engine is operating at 60 percent of its maximum continuous power. However, the preheater need not provide a heat rise in excess of 40° F. if a fluid de-icing system complying with the provisions of §§ 3.607–3.609 is also installed.

(d) Airplanes equipped with sea level engines employing carburetors which embody features tending to reduce the possibility of ice formation shall be provided with a sheltered alternate source of air. The preheat supplied to this alternate air intake shall be not less than that provided by the engine cooling air downstream of the cylinders.

§ 3.607 *Carburetor de-icing fluid flow rate.* The system shall be capable of providing each engine with a rate of fluid flow, expressed in pounds per hour, of not less than 2.5 multiplied by the square root of the maximum continuous power of the engine. This flow shall be available to all engines simultaneously. The fluid shall be introduced into the air induction system at a point close to, and upstream from, the carburetor. The fluid shall be introduced in a manner to assure its equal distribution over the entire cross section of the induction system air passages.

§ 3.608 *Carburetor fluid de-icing system capacity.* The fluid de-icing system capacity shall not be less than that required to provide fluid at the rate specified in § 3.607 for a time equal to 3 percent of the maximum endurance of the airplane. However, the capacity need not in any case exceed that required for 2 hours of operation nor shall it be less than that required for 20 minutes of operation at the above flow rate. If the available preheat exceeds 50° F. but is less than 100° F., it shall be permissible to decrease the capacity of the system in proportion to the heat rise available in excess of 50° F.

§ 3.609 *Carburetor fluid de-icing system detail design.* Carburetor fluid de-icing systems shall comply with provisions for the design of fuel systems, except as specified in §§ 3.607 and 3.608, unless such provisions are manifestly inapplicable.

§ 3.610 *Carburetor air preheater design.* Means shall be provided to assure adequate ventilation of the carburetor air preheater when the engine is being operated in cold air. The preheater shall be constructed in such a manner as to permit inspection of exhaust manifold parts which it surrounds and also to permit inspection of critical portions of the preheater itself.

§ 3.611 *Induction system ducts.* Induction system ducts shall be provided with drains which will prevent the accumulation of fuel or moisture in all normal ground and flight attitudes. No open drains shall be located on the pressure side of turbo-supercharger installations. Drains shall not discharge in a location which will constitute a fire hazard. Ducts which are connected to components of the airplane between which relative motion may exist shall incorporate provisions for flexibility.

§ 3.612 *Induction system screens.* If induction system screens are employed, they shall be located upstream from the carburetor. It shall not be possible for fuel to impinge upon the screen. Screens shall not be located in portions of the induction system which constitute the only passage through which air can reach the engine, unless the available preheat is 100° F. or over and the screen is so located that it can be de-iced by the application of heated air. De-icing of screens by means of alcohol in lieu of heated air shall not be acceptable.

EXHAUST SYSTEM

§ 3.615 *General.* (a) The exhaust system shall be constructed and arranged in such a manner as to assure the safe disposal of exhaust gases without the existence of a hazard of fire or carbon monoxide contamination of air in personnel compartments.

(b) Unless suitable precautions are taken, exhaust system parts shall not be located in close proximity to portions of any systems carrying inflammable fluids or vapors nor shall they be located under portions of such systems which may be subject to leakage. All exhaust system components shall be separated from adjacent inflammable portions of the airplane which are outside the engine compartment by means of fireproof shields. Exhaust gases shall not be discharged at a location which will cause a glare seriously affecting pilot visibility at night, nor shall they discharge within dangerous proximity of any fuel or oil system drains. All exhaust system components shall be ventilated to prevent the existence of points of excessively high temperature.

§ 3.616 *Exhaust manifold.* Exhaust manifolds shall be made of fireproof, corrosion-resistant materials, and shall incorporate provisions to prevent failure due to their expansion when heated to operating temperatures. Exhaust manifolds shall be supported in a manner adequate to withstand all vibration and inertia loads to which they might be subjected in operation. Portions of the manifold which are connected to components between which relative motion might exist shall incorporate provisions for flexibility.

§ 3.617 *Exhaust heat exchangers.* (a) Exhaust heat exchangers shall be constructed and installed in such a manner as to assure their ability to withstand without failure all vibration, inertia, and other loads to which they might normally be subjected. Heat exchangers shall be constructed of materials which are suitable for continued operation at high temperatures and which are adequately resistant to corrosion due to products contained in exhaust gases.

(b) Provisions shall be made for the inspection of all critical portions of exhaust heat exchangers, particularly if a welded construction is employed. Heat exchangers shall be ventilated under all conditions in which they are subject to contact with exhaust gases.

§ 3.618 *Exhaust heat exchangers used in ventilating air heating systems.* Heat exchangers of this type shall be so constructed as to preclude the possibility of exhaust gases entering the ventilating air.

FIRE WALL AND COWLING

§ 3.623 *Fire walls.* All engines, auxiliary power units, fuel burning heaters, and other combustion equipment which are intended for operation in flight shall be isolated from the remainder of the airplane by means of fire walls, or shrouds, or other equivalent means.

§ 3.624 *Fire wall construction.* (a) Fire walls and shrouds shall be constructed in such a manner that no hazardous quantity of liquids, gases, or flame could pass from the engine compartment to other portions of the airplane. All openings in the fire wall or shroud shall be sealed tight with fireproof grommets, bushings, or fire-wall fittings, except that, such seals of fire-resistant materials shall be acceptable for use on single-engine airplanes and multiengine airplanes not required to comply with § 3.85 (b) or § 3.85a (b), if such airplanes are equipped with engine(s) having a volumetric displacement of 1,000 cubic inches or less; and if the openings in the fire walls or shrouds are such that, without seals, the passage of a hazardous quantity of flame could not result.

(b) Fire walls and shrouds shall be constructed of fireproof material and shall be protected against corrosion. The following materials have been found to comply with this requirement:

(1) Heat- and corrosion-resistant steel 0.015 inch thick,

(2) Low carbon steel, suitably protected against corrosion, 0.018 inch thick.

§ 3.625 *Cowling.* (a) Cowling shall be constructed and supported in such a manner as to be capable of resisting all vibration, inertia, and air loads to which it may normally be subjected. Provision shall be made to permit rapid and complete drainage of all portions of the cowling in all normal ground and flight attitudes. Drains shall not discharge in locations constituting a fire hazard.

(b) Cowling shall be constructed of fire-resistant material. All portions of the airplane lying behind openings in the engine compartment cowling shall also be constructed of fire-resistant materials for a distance of at least 24 inches aft of such openings. Portions of cowling which are subjected to high temperatures due to proximity to exhaust system ports or exhaust gas impingement shall be constructed of fireproof material.

POWER-PLANT CONTROLS AND ACCESSORIES

CONTROLS

§ 3.627 *Power-plant controls.* Power-plant controls shall comply with the provisions of §§ 3.384 and 3.762. Controls shall maintain any necessary position without constant attention by the flight personnel and shall not tend to creep due to control loads or vibration. Flexible controls shall be of an acceptable type. Controls shall have adequate strength and rigidity to withstand operating loads without failure or excessive reflection.

§ 3.628 *Throttle controls.* A throttle control shall be provided to give independent control for each engine. Throt-

tle controls shall afford a positive and immediately responsive means of controlling the engine(s). Throttle controls shall be grouped and arranged in such a manner as to permit separate control of each engine and also simultaneous control of all engines.

§ 3.629 *Ignition switches.* Ignition switches shall provide control for each ignition circuit on each engine. It shall be possible to shut off quickly all ignition on multiengine airplanes, either by grouping of the individual switches or by providing a master ignition control. If a master control is provided, suitable means shall be incorporated to prevent its inadvertent operation.

§ 3.630 *Mixture controls.* If mixture controls are provided, a separate control shall be provided for each engine. The controls shall be grouped and arranged in such a manner as to permit both separate and simultaneous control of all engines.

§ 3.631 *Propeller speed and pitch controls.* (See also § 3.421 (a).) If propeller speed or pitch controls are provided, the controls shall be grouped and arranged in such a manner as to permit control of all propellers, both separately and together. The controls shall permit ready synchronization of all propellers on multiengine airplanes.

§ 3.632 *Propeller feathering controls.* If propeller feathering controls are provided, a separate control shall be provided for each propeller. Propeller feathering controls shall be provided with means to prevent inadvertent operation.

§ 3.633 *Fuel system controls.* Fuel system controls shall comply with requirements of § 3.551 (c).

§ 3.634 *Carburetor air preheat controls.* Separate controls shall be provided to regulate the temperature of the carburetor air for each engine.

ACCESSORIES

§ 3.635 *Power-plant accessories.* Engine-driven accessories shall be of a type satisfactory for installation on the engine involved and shall utilize the provisions made on the engine for the mounting of such units. Items of electrical equipment subject to arcing or sparking shall be installed so as to minimize the possibility of their contact with any inflammable fluids or vapors which might be present in a free state.

§ 3.636 *Engine battery ignition systems.* (a) Battery ignition systems shall be supplemented with a generator which is automatically made available as an alternate source of electrical energy to permit continued engine operation in the event of the depletion of any battery.

(b) The capacity of batteries and generators shall be sufficient to meet the simultaneous demands of the engine ignition system and the greatest demands of any of the airplane's electrical system components which may draw electrical energy from the same source. Consideration shall be given to the condition of an inoperative generator, and to the condition of a completely depleted battery when the generator is running at its normal operating speed. If only one battery is provided, consideration shall also be given to the condition in which the battery is completely depleted and the generator is operating at idling speed.

(c) Means shall be provided to warn the appropriate flight personnel if malfunctioning of any part of the electrical system is causing the continuous discharging of a battery used for engine ignition. (See § 3.629 for ignition switches.)

POWER-PLANT FIRE PROTECTION

§ 3.637 *Power-plant fire protection.* Suitable means shall be provided to shut off the flow in all lines carrying flammable fluids into the engine compartment on multiengine airplanes required to comply with the provisions of § 3.85 (b).

SUBPART F—EQUIPMENT

§ 3.651 *General.* The equipment specified in § 3.655 shall be the minimum installed when the airplane is submitted to determine its compliance with the airworthiness requirements. Such additional equipment as is necessary for a specific type of operation is specified in other pertinent parts of this subchapter, but, where necessary, its installation and that of the items mentioned in § 3.655 is covered by this part.

§ 3.652 *Functional and installational requirements.* Each item of equipment which is essential to the safe operation of the airplane shall be found by the Administrator to perform adequately the functions for which it is to be used, shall function properly when installed, and shall be adequately labeled as to its identification, function, operational limitations, or any combination of these, whichever is applicable.

BASIC EQUIPMENT

§ 3.655 *Required basic equipment.* The following table shows the basic equipment items required for type and airworthiness certification of an airplane:

(a) *Flight and navigational instruments.* (1) Air-speed indicator (see § 3.663).

(2) Altimeter.

(3) Magnetic direction indicator (see § 3.666).

(b) *Power-plant instruments*—(1) *For each engine or tank.* (i) Fuel quantity indicator (see § 3.672).

(ii) Oil pressure indicator.

(iii) Oil temperature indicator.

(iv) Tachometer.

(2) *For each engine or tank (if required in reference section).* (i) Carburetor air temperature indicator (see § 3.676).

(ii) Coolant temperature indicator (if liquid-cooled engines used).

(iii) Cylinder head temperature indicator (see § 3.675).

(iv) Fuel pressure indicator (if pump-fed engines used).

(v) Manifold pressure indicator (if altitude engines used).

(vi) Oil quantity indicator (see § 3.674).

(c) *Electrical equipment (if required by reference section).* (1) Master switch arrangement (see § 3.688).

(2) Adequate source(s) of electrical energy (see §§ 3.682 and 3.685).

(3) Electrical protective devices (see § 3.690).

(d) *Miscellaneous equipment.* (1) Approved safety belts for all occupants (see § 3.715).

(2) Airplane Flight Manual if required by § 3.777.

INSTRUMENTS; INSTALLATION

GENERAL

§ 3.661 *Arrangement and visibility of instrument installations.* (a) Flight, navigation, and power-plant instruments for use by each pilot shall be easily visible to him.

(b) On multiengine airplanes, identical power-plant instruments for the several engines shall be so located as to prevent any confusion as to the engines to which they relate.

§ 3.662 *Instrument panel vibration characteristics.* Vibration characteristics of the instrument panel shall not be such as to impair the accuracy of the instruments or to cause damage to them.

FLIGHT AND NAVIGATIONAL INSTRUMENTS

§ 3.663 *Air-speed indicating system.* This system shall be so installed that the air-speed indicator shall indicate true air speed at sea level under standard conditions to within an allowable installational error of not more than plus or minus 3 percent of the calibrated air speed or 5 miles per hour, whichever is greater, throughout the operating range of the airplane with flaps up from $V_c$ to 1.3 $V_{s_1}$ and with flaps down at 1.3 $V_{s_1}$. The calibration shall be made in flight.

§ 3.664 *Air-speed indicator marking.* The air-speed indicator shall be marked as specified in § 3.757.

§ 3.665 *Static air vent system.* All instruments provided with static air case connections shall be so vented that the influence of airplane speed, the opening and closing of windows, air-flow variation, moisture, or other foreign matter will not seriously affect their accuracy.

§ 3.666 *Magnetic direction indicator.* The magnetic direction indicator shall be so installed that its accuracy shall not be excessively affected by the airplane's vibration or magnetic fields. After the direction indicator has been compensated, the installation shall be such that the deviation in level flight does not exceed 10 degrees on any heading. A suitable calibration placard shall be provided as specified in § 3.758.

§ 3.667 *Automatic pilot system.* If an automatic pilot system is installed:

(a) The system shall be designed so that the automatic pilot can either:

(1) Be quickly and positively disengaged by the human pilot(s) to prevent it from interfering with his control of the airplane, or

(2) Be sufficiently overpowered by one human pilot to enable him to control the airplane.

(b) A satisfactory means shall be provided to indicate readily to the pilot the alignment of the actuating device in relation to the control system which it operates, except when automatic synchronization is provided.

(c) The manually operated control(s) for the system's operation shall be readily accessible to the pilot.

(d) The automatic pilot system shall be designed so that, within the range of adjustment available to the human pilot, it cannot produce hazardous loads on the airplane or create hazardous deviations in the flight path under any conditions of flight appropriate to its use either during normal operation or in the event of malfunctioning, assuming that corrective action is initiated within a reasonable period of time.

§ 3.668 *Gyroscopic indicators.* All gyroscopic instruments installed in airplanes intended for operation under instrument flight rules shall derive their energy from a power source of sufficient capacity to maintain their required accuracy at all airplane speeds above the best rate-of-climb speed. They shall be installed to preclude malfunctioning due to rain, oil, and other detrimental elements. Means shall be provided for indicating the adequacy of the power being supplied to each of the instruments. In addition, the following provisions shall be applicable to multiengine airplanes:

(a) There shall be provided at least two independent sources of power, a manual or an automatic means for selecting the power source, and a means for indicating the adequacy of the power being supplied by each source.

(b) The installation and power supply systems shall be such that failure of one instrument or of the energy supply from one source will not interfere with the proper supply of energy to the remaining instruments or from the other source.

§ 3.669 *Flight director instrument.* If a flight director instrument is installed, its installation shall not affect the performance and accuracy of the required instruments. A means for disconnecting the flight director instrument from the required instruments or their installations shall be provided.

POWER-PLANT INSTRUMENTS

§ 3.670 *Operational markings.* Instruments shall be marked as specified in § 3.759.

§ 3.671 *Instrument lines.* Power-plant instrument lines shall comply with the provisions of § 3.550. In addition, instrument lines carrying inflammable fluids or gases under pressure shall be provided with restricted orifices or other safety devices at the source of the pressure to prevent escape of excessive fluid or gas in case of line failure.

§ 3.672 *Fuel quantity indicator.* Means shall be provided to indicate to the flight personnel the quantity of fuel in each tank during flight. Tanks, the outlets and air spaces of which are interconnected, may be considered as one tank and need not be provided with separate indicators. Exposed sight gauges shall be so installed and guarded as to preclude the possibility of breakage or damage. Sight gauges which form a trap in which water can collect and freeze shall be provided with means to permit drainage on the ground. Fuel quantity gauges shall be calibrated to read zero during level flight when the quantity of fuel remaining in the tank is equal to the unusable fuel supply as defined by § 3.437. Fuel gauges need not be provided for small auxiliary tanks which are used only to transfer fuel to other tanks, provided that the relative size of the tanks, the rate of fuel transfer, and the instructions pertaining to the use of the tanks are adequate to guard against overflow and to assume that the crew will receive prompt warning in case transfer is not being achieved as intended.

§ 3.673 *Fuel flowmeter system.* When a fuel flowmeter system is installed in the fuel line(s), the metering component shall be of such design as to include a suitable means for bypassing the fuel supply in the event that malfunctioning of the metering component offers a severe restriction to fuel flow.

§ 3.674 *Oil quantity indicator.* Ground means, such as a stick gauge, shall be provided to indicate the quantity of oil in each tank. If an oil transfer system or a reserve oil supply system is installed, means shall be provided to indicate to the flight personnel during flight the quantity of oil in each tank.

§ 3.675 *Cylinder head temperature indicating system for air-cooled engines.* A cylinder head temperature indicator shall be provided for each engine on airplanes equipped with cowl flaps. In the case of airplanes which do not have cowl flaps, an indicator shall be provided if compliance with the provisions of § 3.581 is demonstrated at a speed in excess of the speed of best rate of climb.

§ 3.676 *Carburetor air temperature indicating system.* A carburetor air temperature indicating system shall be provided for each altitude engine equipped with a preheater which is capable of providing a heat rise in excess of 60° F.

ELECTRICAL SYSTEMS AND EQUIPMENT

§ 3.681 *Installation.* (a) Electrical systems in airplanes shall be free from hazards in themselves, in their method of operation, and in their effects on other parts of the airplane. Electrical equipment shall be of a type and design adequate for the use intended. Electrical systems shall be installed in such a manner that they are suitably protected from fuel, oil, water, other detrimental substances, and mechanical damage.

(b) Items of electrical equipment required for a specific type of operation are listed in other pertinent parts of this subchapter.

BATTERIES

§ 3.682 *Batteries.* When an item of electrical equipment which is essential to the safe operation of the airplane is installed, the battery required shall have sufficient capacity to supply the electrical power necessary for dependable operation of the connected electrical equipment.

§ 3.683 *Protection against acid.* If batteries are of such a type that corrosive substance may escape during servicing or flight, means such as a completely enclosed compartment shall be provided to prevent such substances from coming in contact with other parts of the airplane which are essential to safe operation. Batteries shall be accessible for servicing and inspection on the ground.

§ 3.684 *Battery vents.* The battery container or compartment shall be vented in such manner that gases released by the battery are carried outside the airplane.

GENERATORS

§ 3.685 *Generator.* Generators shall be capable of delivering their continuous rated power.

§ 3.686 *Generator controls.* Generator voltage control equipment shall be capable of dependably regulating the generator output within rated limits.

§ 3.687 *Reverse current cut-out.* A generator reverse current cut-out shall disconnect the generator from the battery and other generators when the generator is developing a voltage of such value that current sufficient to cause malfunctioning can flow into the generator.

MASTER SWITCH

§ 3.688 *Arrangement.* If electrical equipment is installed, a master switch arrangement shall be provided which will disconnect all sources of electrical power from the main distribution system at a point adjacent to the power sources.

§ 3.689 *Master switch installation.* The master switch or its controls shall be so installed that it is easily discernible and accessible to a member of the crew in flight.

PROTECTIVE DEVICES

§ 3.690 *Fuses or circuit breakers.* If electrical equipment is installed, protective devices (fuses or circuit breakers) shall be installed in the circuits to all electrical equipment, except that such items need not be installed in the main circuits of starter motors or in other circuits where no hazard is presented by their omission.

§ 3.691 *Protective devices installation.* Protective devices in circuits essential to safety in flight shall be so located and identified that fuses may be replaced or circuit breakers reset readily in flight.

§ 3.692 *Spare fuses.* If fuses are used, one spare of each rating or 50 percent spare fuses of each rating, whichever is greater, shall be provided.

ELECTRIC CABLES

§ 3.693 *Electric cables.* If electrical equipment is installed, the connecting cables used shall be in accordance with recognized standards for electric cable of a slow burning type and of suitable capacity.

SWITCHES

§ 3.694 *Switches.* Switches shall be capable of carrying their rated current and shall be of such construction that there is sufficient distance or insulating material between current carrying parts and the housing so that vibration in flight will not cause shorting.

§ 3.695 *Switch installation.* Switches shall be so installed as to be readily accessible to the appropriate crew member and shall be suitably labeled as to operation and the circuit controlled.

INSTRUMENT LIGHTS

§ 3.696 *Instrument lights.* If instrument lights are required, they shall be of such construction that there is sufficient distance or insulating material between current carrying parts and the housing so that vibration in flight will not cause shorting. They shall provide sufficient illumination to make all instruments and controls easily readable and discernible, respectively.

§ 3.697 *Instrument light installation.* Instrument lights shall be installed in such a manner that their direct rays are shielded from the pilot's eyes. Direct rays shall not be reflected from the windshield or other surfaces into the pilot's eyes.

LANDING LIGHTS

§ 3.698 *Landing lights.* If landing lights are installed, they shall be of an acceptable type.

§ 3.699 *Landing light installation.* Landing lights shall be so installed that there is no dangerous glare visible to the pilot and also so that the pilot is not seriously affected by halation. They shall be installed at such a location that they provide adequate illumination for night landing.

POSITION LIGHTS

§ 3.700 *Position light system installation*—(a) *General.* The provisions of §§ 3.700 through 3.703 shall be applicable to the position light system as a whole, and shall be complied with if a single circuit type system is installed.[1] The single circuit system shall include the items specified in paragraphs (b) through (f) of this section.

(b) *Forward position lights.* Forward position lights shall consist of a red and a green light spaced laterally as far apart as practicable and installed forward on the airplane in such a location that, with the airplane in normal flying position, the red light is displayed on the left side and the green light is displayed on the right side. The individual lights shall be of an approved type.

(c) *Rear position light.* The rear position light shall be a white light mounted as far aft as practicable. The light shall be of an approved type.

(d) *Circuit.* The two forward position lights and the rear position light shall constitute a single circuit.

[1] Requirements for dual circuit position light systems are contained in Part 4b of this subchapter.

(e) *Flasher.* If employed, an approved position light flasher for a single circuit system shall be installed. The flasher shall be such that the system is energized automatically at a rate of not less than 60 nor more than 120 flashes per minute with an on-off ratio between 2.5:1 and 1:1. Unless the flasher is of a fail-safe type, means shall be provided in the system to indicate to the pilot when there is a failure of the flasher and a further means shall be provided for turning the lights on steady in the event of such failure.

(f) *Light covers and color filters.* Light covers or color filters used shall be of noncombustible material and shall be constructed so that they will not change color or shape or suffer any appreciable loss of light transmission during normal use.

§ 3.701 *Position light system dihedral angles.* The forward and rear position lights as installed on the airplane shall show unbroken light within dihedral angles specified in paragraphs (a) through (c) of this section.

(a) Dihedral angle *L* (left) shall be considered formed by two intersecting vertical planes, one parallel to the longitudinal axis of the airplane and the other at 110° to the left of the first, when looking forward along the longitudinal axis.

(b) Dihedral angle *R* (right) shall be considered formed by two intersecting vertical planes, one parallel to the longitudinal axis of the airplane and the other at 110° to the right of the first, when looking forward along the longitudinal axis.

(c) Dihedral angle *A* (aft) shall be considered formed by two intersecting vertical planes making angles of 70° to the right and 70° to the left, respectively, looking aft along the longitudinal axis, to a vertical plane passing through the longitudinal axis.

§ 3.702 *Position light distribution and intensities*—(a) *General.* The intensities prescribed in this section are those to be provided by new equipment with all light covers and color filters in place. Intensities shall be determined with the light source operating at a steady value equal to the average luminous output of the light source at the normal operating voltage of the airplane. The light distribution and intensities of position lights shall comply with the provisions of paragraph (b) of this section.

(b) *Forward and rear position lights.* The light distribution and intensities of forward and rear position lights shall be expressed in terms of minimum intensities in the horizontal plane, minimum intensities in any vertical plane, and maximum intensities in overlapping beams within dihedral angles *L*, *R*, and *A*, and shall comply with the provisions of subparagraphs (1) through (3) of this paragraph.

(1) *Intensities in horizontal plane.* The intensities in the horizontal plane shall not be less than the values given in Figure 3–15. (The horizontal plane is the plane containing the longitudinal axis of the airplane and is perpendicular to the plane of symmetry of the airplane.)

(2) *Intensities above and below horizontal.* The intensities in any vertical plane shall not be less than the appropriate value given in Figure 3–16, where *I* is the minimum intensity prescribed in Figure 3–15 for the corresponding angles in the horizontal plane. (Vertical planes are planes perpendicular to the horizontal plane.)

(3) *Overlaps between adjacent signals.* The intensities in overlaps between adjacent signals shall not exceed the values given in Figure 3–17, except that higher intensities in the overlaps shall be acceptable with the use of main beam intensities substantially greater than the minima specified in Figures 3–15 and 3–16 if the overlap intensities in relation to the main beam intensities are such as not to affect adversely signal clarity.

| Dihedral angle (light involved) | Angle from right or left of longitudinal axis, measured from dead ahead | Intensity (candles) |
|---|---|---|
| *L* and *R* (forward red and green) | 0° to 10° | 40 |
| | 10° to 20° | 30 |
| | 20° to 110° | 5 |
| *A* (rear white) | 110° to 180° | 20 |

FIGURE 3–15—Minimum intensities in the horizontal plane of forward and rear position lights.

| Angle above or below horizontal | Intensity |
|---|---|
| 0° | 1.00 *I*. |
| 0° to 5° | 0.90 *I*. |
| 5° to 10° | 0.80 *I*. |
| 10° to 15° | 0.70 *I*. |
| 15° to 20° | 0.50 *I*. |
| 20° to 30° | 0.30 *I*. |
| 30° to 40° | 0.10 *I*. |
| 40° to 90° | At least 2 candles. |

FIGURE 3–16—Minimum intensities in any vertical plane of forward and rear position lights.

| Overlaps | Maximum intensity | |
|---|---|---|
| | Area A (candles) | Area B (candles) |
| Green in dihedral angle *L* | 10 | 1 |
| Red in dihedral angle *R* | 10 | 1 |
| Green in dihedral angle *A* | 5 | 1 |
| Red in dihedral angle *A* | 5 | 1 |
| Rear white in dihedral angle *L* | 5 | 1 |
| Rear white in dihedral angle *R* | 5 | 1 |

NOTE: Area A includes all directions in the adjacent dihedral angle which pass through the light source and which intersect the common boundary plane at more than 10 degrees but less than 20 degrees. Area B includes all directions in the adjacent dihedral angle which pass through the light source and which intersect the common boundary plane at more than 20 degrees.

FIGURE 3–17—Maximum intensities in overlapping beams of forward and rear position lights.

§ 3.703 *Color specifications.* The colors of the position lights shall have the International Commission on Illumination chromaticity coordinates as set forth in paragraphs (a) through (c) of this section.

(a) *Aviation red.*

$y$ is not greater than 0.335,
$z$ is not greater than 0.002;

(b) *Aviation green.*

$x$ is not greater than $0.440-0.320y$,
$x$ is not greater than $y-0.170$,
$y$ is not less than $0.390-0.170x$;

(c) *Aviation white.*

$x$ is not less than 0.350,
$x$ is not greater than 0.540,
$y-y_0$ is not numerically greater than 0.01, $y_0$ being the $y$ coordinate of the Planckian radiator for which $x_0=x$.

RIDING LIGHT

§ 3.704 *Riding light.* (a) When a riding (anchor) light is required for a seaplane, flying boat, or amphibian, it shall be capable of showing a white light for at least 2 miles at night under clear atmospheric conditions.

(b) The riding light shall be installed to show the maximum unbroken light practicable when the airplane is moored or drifting on the water. Externally hung lights shall be acceptable.

SAFETY EQUIPMENT; INSTALLATION

§ 3.711 *Marking.* Required safety equipment which the crew is expected to operate at a time of emergency, such as flares and automatic life raft releases, shall be readily accessible and plainly marked as to its method of operation. When such equipment is carried in lockers, compartments, or other storage places, such storage places shall be marked for the benefit of passengers and crew.

§ 3.712 *De-icers.* When pneumatic de-icers are installed, the installation shall be in accordance with approved data. Positive means shall be provided for the deflation of the pneumatic boots.

§ 3.713 *Flare requirements.* When parachute flares are required, they shall be of an approved type.

§ 3.714 *Flare installation.* Parachute flares shall be releasable from the pilot compartment and so installed that danger of accidental discharge is reduced to a minimum. The installation shall be demonstrated in flight to eject flares satisfactorily, except in those cases where inspection indicates a ground test will be adequate. If the flares are ejected so that recoil loads are involved, structural provisions for such loads shall be made.

§ 3.715 *Safety belts.* Safety belts shall be of an approved type. In no case shall the rated strength of the safety belt be less than that corresponding with the ultimate load factors specified in § 3.386 (a), taking due account of the dimensional characteristics of the safety belt installation for the specific seat or berth arrangement. Safety belts shall be attached so that no part of the anchorage will fail at a load lower than that corresponding with the ultimate load factors equal to those specified in § 3.386 (a) multiplied by a factor of 1.33. In the case of safety belts for berths, the forward load factor need not be applied.

EMERGENCY FLOTATION AND SIGNALING EQUIPMENT

§ 3.716 *Rafts and life preservers.* Rafts and life preservers shall be of an approved type.

§ 3.717 *Installation.* When such emergency equipment is required, it shall be so installed as to be readily available to the crew and passengers. Rafts released automatically or by the pilot shall be attached to the airplane by means of a line to keep them adjacent to the airplane. The strength of the line shall be such that it will break before submerging the empty raft.

§ 3.718 *Signaling device.* Signaling devices, when required by other parts of the regulations of this subchapter, shall be accessible, function satisfactorily, and be free from any hazard in their operation.

RADIO EQUIPMENT; INSTALLATION

§ 3.721 *General.* Radio equipment and installations in the airplane shall be free from hazards in themselves, in their method of operation, and in their effects on other components of the airplane.

MISCELLANEOUS EQUIPMENT; INSTALLATION

§ 3.725 *Accessories for multiengine airplanes.* Engine driven accessories essential to the safe operation of the airplane shall be so distributed among two or more engines that the failure of any one engine will not impair the safe operation of the airplane by the malfunctioning of these accessories.

HYDRAULIC SYSTEMS

§ 3.726 *General.* Hydraulic systems and elements shall be so designed as to withstand, without exceeding the yield point, any structural loads which might be imposed in addition to the hydraulic loads.

§ 3.727 *Tests.* Hydraulic systems shall be substantiated by proof pressure tests. When proof tested, no part of the hydraulic system shall fail, malfunction, or experience a permanent set. The proof load of any system shall be 1.5 times the maximum operating pressure of that system.

§ 3.728 *Accumulators.* Hydraulic accumulators or pressurized reservoirs shall not be installed on the engine side of the fire wall, except when they form an integral part of the engine or propeller.

## SUBPART G—OPERATING LIMITATIONS AND INFORMATION

§ 3.735 *General.* Means shall be provided to inform adequately the pilot and other appropriate crew members of all operating limitations upon which the type design is based. Any other information concerning the airplane found by the Administrator to be necessary for safety during its operation shall also be made available to the crew. (See §§ 3.755 and 3.777.)

LIMITATIONS

§ 3.737 *Limitations.* The operating limitations specified in §§ 3.738–3.750 and any similar limitations shall be established for any airplane and made available to the operator as further described in §§ 3.755–3.780, unless its design is such that they are unnecessary for safe operation.

AIR SPEED

§ 3.738 *Air speed.* Air-speed limitations shall be established as set forth in §§ 3.739–3.743.

§ 3.739 *Never-exceed speed* ($V_{ne}$). This speed shall not exceed the lesser of the following:

(a) 0.9 $V_d$ chosen in accordance with § 3.184.

(b) 0.9 times the maximum speed demonstrated in accordance with § 3.159, but shall not be less than 0.9 times the minimum value of $V_d$ permitted by § 3.184.

§ 3.740 *Maximum structural cruising speed* ($V_{no}$). This operating limitation shall be:

(a) Not greater than $V_c$ chosen in accordance with § 3.184.

(b) Not greater than 0.89 times $V_{ne}$ established under § 3.739.

(c) Not less than the minimum $V_c$ permitted in § 3.184.

§ 3.741 *Maneuvering speed* ($V_p$). (See § 3.184.)

§ 3.742 *Flaps-extended speed* ($V_{fe}$). (a) This speed shall not exceed the lesser of the following:

(1) The design flap speed, $V_f$, chosen in accordance with § 3.190.

(2) The design flap speed chosen in accordance with § 3.223, but shall not be less than the minimum value of design flap speed permitted in §§ 3.190 and 3.223.

(b) Additional combinations of flap setting, air speed, and engine power may be established, provided the structure has been proven for the corresponding design conditions.

§ 3.743 *Minimum control speed* ($V_{mc}$). (See § 3.111.)

POWER PLANT

§ 3.744 *Power plant.* The power-plant limitations in §§ 3.745 through 3.747 shall be established and shall not exceed the corresponding limits established as a part of the type certification of the engine and propeller installed in the airplane.

§ 3.745 *Take-off operation.* (a) Maximum rotational speed (revolutions per minute).

(b) Maximum permissible manifold pressure (if applicable).

(c) The time limit upon the use of the corresponding power.

(d) Where the time limit of paragraph (c) of this section exceeds 2 minutes, the maximum allowable temperatures for cylinder head, oil, and coolant outlet if applicable.

§ 3.746 *Maximum continuous operation.* (a) Maximum rotational speed (revolutions per minute).

(b) Maximum permissible manifold pressure (if applicable).

(c) Maximum allowable temperatures for cylinder head, oil, and coolant outlet if applicable.

§ 3.747 *Fuel octane rating.* The minimum octane rating of fuel required for satisfactory operation of the power plant at the limits of §§ 3.745 and 3.746.

AIRPLANE WEIGHT

§ 3.748 *Airplane weight.* The airplane weight and center of gravity limitations are those required to be determined by § 3.71.

MINIMUM FLIGHT CREW

§ 3.749 *Minimum flight crew.* The minimum flight crew shall be established

as that number of persons required for the safe operation of the airplane during any contact flight as determined by the availability and satisfactory operation of all necessary controls by each operator concerned.

TYPES OF OPERATION

§ 3.750 *Types of operation.* The type of operation to which the airplane is limited shall be established by the category in which it has been found eligible for certification and by the equipment installed. (See the appropriate operating parts of the Civil Air Regulations.)

MARKINGS AND PLACARDS

§ 3.755 *Markings and placards.* (a) The markings and placards specified are required for all airplanes. Placards shall be displayed in a conspicuous place and both shall be such that they cannot be easily erased, disfigured, or obscured. Additional informational placards and instrument markings having a direct and important bearing on safe operation may be required by the Administrator when unusual design, operating, or handling characteristics so warrant.

(b) When an airplane is certificated in more than one category, the applicant shall select one category on which all placards and markings on the airplane shall be based. The placard and marking information for the other categories in which the airplane is certificated shall be entered in the Airplane Flight Manual. A reference to this information shall be included on a placard which shall also indicate the category on which the airplane placards and markings are based.

INSTRUMENT MARKINGS

§ 3.756 *Instrument markings.* The instruments listed in §§ 3.757–3.761 shall have the following limitations marked thereon. When these markings are placed on the cover glass of the instrument, adequate provision shall be made to maintain the correct alignment of the glass cover with the face of the dial. All arcs and lines shall be of sufficient width and so located as to be clearly and easily visible to the pilot.

§ 3.757 *Air-speed indicator.* (a) True indicated air speed shall be used:

(1) The never-exceed speed, $V_{NE}$—a radial red line (see § 3.739).

(2) The caution range—a yellow arc extending from the red line in (1) above to the upper limit of the green arc specified in (3) below.

(3) The normal operating range—a green arc with the lower limit at $V_{S_1}$, as determined in § 3.82 with maximum weight, landing gear and wing flaps retracted, and the upper limit at the maximum structural cruising speed established in § 3.740.

(4) The flap operating range—a white arc with the lower limit at $V_{S_0}$ as determined in § 3.82 at the maximum weight, and the upper limit at the flaps-extended speed in § 3.742.

(b) When the never-exceed and maximum structural cruising speeds vary with altitude, means shall be provided which will indicate the appropriate limitations to the pilot throughout the operating altitude range.

§ 3.758 *Magnetic direction indicator.* A placard shall be installed on or in close proximity to the magnetic direction indicator which contains the calibration of the instrument in a level flight attitude with engine(s) operating and radio receiver(s) on or off (which shall be stated). The calibration readings shall be those to known magnetic headings in not greater than 30-degree increments.

§ 3.759 *Power-plant instruments.* All required power-plant instruments shall be marked with a red radial line at the maximum and minimum (if applicable) indications for safe operation. The normal operating ranges shall be marked with a green arc which shall not extend beyond the maximum and minimum limits for continuous operation. Take-off and precautionary ranges shall be marked with a yellow arc. Ranges of engine speed which are restricted as a result of excessive engine or propeller vibration shall be marked with a red arc.

§ 3.760 *Oil quantity indicators.* Indicators shall be suitably marked in sufficient increments so that they will readily and accurately indicate the quantity of oil.

§ 3.761 *Fuel quantity indicator.* When the unusable fuel supply for any tank exceeds 1 gallon or 5 percent of the tank capacity, whichever is greater, a red band shall be placed on the indicator extending from the calibrated zero reading (see § 3.437) to the lowest reading obtainable in the level flight attitude, and a suitable notation in the Airplane Flight Manual shall be provided to indicate to the flight personnel that the fuel remaining in the tank when the quantity indicator reaches zero cannot be used safely in flight. (See § 3.672.)

CONTROL MARKINGS

§ 3.762 *General.* All cockpit controls, with the exception of the primary flight controls, shall be plainly marked as to their function and method of operation.

§ 3.763 *Aerodynamic controls.* The secondary controls shall be suitably marked to comply with §§ 3.337 and 3.338.

§ 3.764 *Power-plant fuel controls.* (a) Controls for fuel tank selector valves shall be marked to indicate the position corresponding to each tank and to all existing cross feed positions.

(b) When more than one fuel tank is provided, and if safe operation depends upon the use of tanks in a specific sequence, the fuel tank selector controls shall be marked adjacent to or on the control to indicate to the flight personnel the order in which the tanks must be used.

(c) On multiengine airplanes, controls for engine valves shall be marked to indicate the position corresponding to each engine.

(d) The usable capacity of each tank shall be indicated adjacent to or on the fuel tank selector control.

§ 3.765 *Accessory and auxiliary controls.* (a) When a retractable landing gear is used, the indicator required in § 3.359 shall be marked in such a manner that the pilot can ascertain at all times when the wheels are secured in the extreme positions.

(b) Emergency controls shall be colored red and clearly marked as to their method of operation.

MISCELLANEOUS

§ 3.766 *Baggage compartments, ballast location, and special seat loading limitations.* (a) Each baggage or cargo compartment and ballast location shall bear a placard which states the maximum allowable weight of contents and, if applicable, any special limitation of contents due to loading requirements, etc.

(b) When the maximum permissible weight to be carried in a seat is less than 170 pounds (see § 3.74), a placard shall be permanently attached to the seat structure which states the maximum allowable weight of occupants to be carried.

§ 3.767 *Fuel, oil, and coolant filler openings.* The following information shall be marked on or adjacent to the filler cover in each case:

(a) The word "fuel," the minimum permissible fuel octane number for the engines installed, and the usable fuel tank capacity. (See § 3.437.)

(b) The word "oil" and the oil tank capacity.

(c) The name of the proper coolant fluid and the capacity of the coolant system.

§ 3.768 *Emergency exit placards.* Emergency exit placards and operating controls shall be colored red. A placard shall be located adjacent to the control(s) which clearly indicates it to be an emergency exit and describes the method of operation. (See § 3.387.)

§ 3.769 *Approved flight maneuvers*—(a) *Category N.* A placard shall be provided in front of and in clear view of the pilot stating: "No acrobatic maneuvers including spins approved."

(b) *Category U.* A placard shall be provided in clear view of the pilot stating: "Acrobatic maneuvers are limited to the following: ---------- (list approved maneuvers)."

(c) *Category A.* A placard shall be provided in clear view of the pilot which lists all approved acrobatic maneuvers and the recommended entry air speed for each. If inverted flight maneuvers are not approved, the placard shall bear a notation to this effect.

§ 3.770 *Operating limitations placard.* A placard shall be provided in clear view of the pilot stating: "This airplane must be operated as a ---------- or ---------- category airplane in compliance with the operating limitations stated in the form of placards, markings, and manuals."

§ 3.771 *Airspeed placards.* The following airspeed limitations shall be shown on placards in view of the pilot:

(a) Maximum speed with landing gear extended, if the airplane is equipped with retractable landing gear.

(b) Minimum control speed with one engine inoperative, for multiengine airplanes.

(c) Rough air or maneuvering speed determined in accordance with § 3.741.

AIRPLANE FLIGHT MANUAL

§ 3.777 *Airplane Flight Manual.* (a) An Airplane Flight Manual shall be furnished with each airplane, having a maximum certificated weight of more than 6,000 pounds. The portions of this document listed below shall be verified and approved by the Administrator, and shall be segregated, identified, and clearly distinguished from portions not so approved. Additional items of information having a direct and important bearing on safe operation may be required by the Administrator when unusual design, operating, or handling characteristics so warrant.

(b) For airplanes having a maximum certificated weight of 6,000 pounds or less an Airplane Flight Manual is not required; instead, the information prescribed in this part for inclusion in the Airplane Flight Manual shall be made available to the operator by the manufacturer in the form of clearly stated placards, markings, or manuals.

§ 3.778 *Operating limitations*—(a) *Air-speed limitations.* Sufficient information shall be included to permit proper marking of the air-speed limitations on the indicator as required in § 3.757. It shall also include the design, maneuvering speed, and the maximum safe air speed at which the landing gear can be safely lowered. In addition to the above information, the significance of the air speed limitations and of the color coding used shall be explained.

(b) *Power-plant limitations.* Sufficient information shall be included to outline and explain all power-plant limitations (see § 3.744) and to permit marking the instruments as required in § 3.759.

(c) *Weight.* The following information shall be included:

(1) Maximum weight for which the airplane has been certificated,

(2) Airplane empty weight and center of gravity location,

(3) Useful load,

(4) The composition of the useful load, including the total weight of fuel and oil with tanks full.

(d) *Load distribution.* (1) All authorized center of gravity limits shall be stated. If the available space for loading the airplane is adequately placarded or so arranged that any reasonable distribution of the useful load listed in weight above will not result in a center of gravity location outside of the stated limits, this section need not include any other information than the statement of center of gravity limits.

(2) In all other cases this section shall also include adequate information to indicate satisfactory loading combinations which will assure maintaining the center of gravity position within approved limits.

(e) *Maneuvers.* All authorized maneuvers and the appropriate air-speed limitations as well as all unauthorized maneuvers shall be included in accordance with the following:

(1) *Normal category.* All acrobatic maneuvers, including spins, are unauthorized. If the airplane has been demonstrated to be characteristically incapable of spinning in accordance with § 3.124 (d), a statement to this effect shall be entered here.

(2) *Utility category.* All authorized maneuvers demonstrated in the type flight tests shall be listed, together with recommended entry speeds. All other maneuvers are not approved. If the airplane has been demonstrated to be characteristically incapable of spinning in accordance with § 3.124 (d), a statement to this effect shall be entered here.

(3) *Acrobatic category.* All approved flight maneuvers demonstrated in the type flight tests shall be included, together with recommended entry speeds.

(f) *Flight load factor.* The positive limit load factors made good by the airplane's structure shall be described here in terms of accelerations.

(g) *Flight crew.* When a flight crew of more than one is required to operate the airplane safely, the number and functions of the minimum flight crew shall be included.

§ 3.779 *Operating procedures.* This section shall contain information concerning normal and emergency procedures and other pertinent information peculiar to the airplane's operating characteristics which are necessary to safe operation.

§ 3.780 *Performance information.* (a) For airplanes with a maximum certificated take-off weight of more than 6,000 lbs., information relative to the items of performance set forth in subparagraphs (1) through (5) of this paragraph shall be included:

(1) The stalling speed, $V_{S_0}$, at maximum weight,

(2) The stalling speed, $V_{S_1}$, at maximum weight and with landing gear and wing flaps retracted,

(3) The take-off distance determined in accordance with § 3.84, including the air speed at the 50-foot height, and the airplane configuration, if pertinent,

(4) The landing distance determined in accordance with § 3.86, including the airplane configuration, if pertinent,

(5) The steady rate of climb determined in accordance with § 3.85 (a), (c), and, as appropriate, (b), including the air speed, power, and airplane configuration, if pertinent.

(b) The effect of variation in paragraph (a) (2) of this section with angle of bank up to 60 degrees shall be included.

(c) The calculated approximate effect of variations in paragraph (a) (3), (4) and (5) of this section with altitude and temperature shall be included.

SUBPART H—IDENTIFICATION DATA

§ 3.791 *Identification plate.* A fireproof identification plate shall be securely attached to the structure in an accessible location where it will not likely be defaced during normal service. The identification plate shall not be placed in a location where it might be expected to be destroyed or lost in the event of an accident. The identification plate shall contain the identification data required by § 1.50 of this subchapter.

§ 3.792 *Airworthiness certificate number.* The identifying symbols and registration numbers shall be permanently affixed to the airplane structure in compliance with § 1.100 of this subchapter.

[F. R. Doc. 56–4021; Filed, May 21, 1956; 8:53 a. m.]

## TITLE 29—LABOR

### Chapter V—Wage and Hour Division, Department of Labor

PART 783—SEAMAN EXEMPTION

WHO IS "EMPLOYED AS A SEAMAN," FOR PURPOSES OF EXEMPTION

On April 26, 1956, the Administrator of the Wage and Hour Division of the United States Department of Labor issued an amendment to Part 783 of Title 29, Code of Federal Regulations, entitled Seaman Exemption, which was published in the May 2, 1956 issue of the FEDERAL REGISTER (21 F. R. 2862).

The first sentence of § 783.2 (d) of Part 783 reads in part "• • • putting out running and mooring lines • • •". The word "lines" should read "lights". Section 783.2 (d) of Part 783, Title 29, Code of Federal Regulations, is therefore corrected by striking the word "lines" in this phrase and substituting therefor the word "lights".

Dated at Washington, D. C., this 16th day of May 1956.

NEWELL BROWN,
*Administrator,*
*Wage and Hour Division.*

[F. R. Doc. 56–4017; Filed, May 21, 1956; 8:52 a. m.]

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[FCC 56–467]

[Amdts. 2–21 and 12–19]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 12—AMATEUR RADIO SERVICE

MODIFYING AREAS OF PERMISSIBLE SHARING BETWEEN AMATEUR SERVICE AND LORAN STATIONS

In the matter of amendment of Parts 2 and 12 of the Commission's rules to modify the areas of permissible sharing between the Amateur Service and Loran stations in the band 1800–20000 kc.

1. At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 16th day of May 1956;

2. The Commission having under consideration its proposal in the above entitled matter; and

3. It appearing that footnote NG23 to the table of frequency allocations contained in § 2.104 (a) (5) of the Commission's rules and that § 12.111 (a) of the Commission's rules stipulate that the Amateur Service may use certain portions of the band 1800–2000 kc in certain areas in accordance with the following conditions (among others):

(1) The use of these frequencies by the amateur service shall not be a bar to the expansion of the radionavigation (Loran) service;

(2) The amateur service shall not cause harmful interference to the radionavigation (Loran) service; and

(3) The provisions of this footnote and section shall be considered as temporary in the sense that they shall remain subject to cancellation or revision, in whole or in part, by order of the Commission without hearing whenever the Commission shall deem such cancellation or revision to be necessary or desirable in the light of the priority within this band of the Loran system of radionavigation; and

4. It further appearing that as a means of preventing harmful interference from being caused to the maritime mobile use of 2009 kc on the west coast of Florida, and to permit the orderly expansion of Loran service in the West Indies/Caribbean area, the carrier frequency of the Gulf of Mexico Loran Chain was changed from 1950 kc to 1850 kc on May 1, 1956; and

5. It further appearing that the West Indies Loran Chain scheduled for operation later this year will also operate on 1850 kc; and

6. It further appearing that the east coast Loran chain will then be operating on 1950 kc, and the west coast, West Indies, and Gulf of Mexico Loran Chains will then be operating on 1850; and

7. It further appearing that the existing frequency sharing arrangement between the amateur service and Loran as set forth in footnote NG23 and § 12.111 (a) no longer provides the protection from interference required by a navigational aid; and

8. It further appearing that the continued use of frequencies by the amateur service in accordance with the aforementioned existing sharing arrangement may constitute a hazard to the safety of life and property through interference to the Loran system of radionavigation; and

9. It further appearing therefore, that pursuant to the provisions of section 4 (a) of the Administrative Procedure Act, the issuance of a Notice of Proposed Rule Making in this matter, prior to an order effecting the necessary rule changes would be contrary to the public interest; and

10. It further appearing that the public interest, convenience, and necessity will be served by the amendments herein ordered, the authority for which is contained in section 303 (c), (f), (h) and (r) of the Communications Act of 1934, as amended;

11. *It is ordered*, That effective July 9, 1956, Parts 2 and 12 of the Commission's rules are amended as set forth below: *Provided, however*, That inasmuch as the safety of life and property at sea is involved in this matter and the Gulf Loran Chain is already in operation on 1850 kc, all amateurs are requested to comply with this order on a voluntary basis immediately upon receipt of the information contained herein.

(Sec. 303, 48 Stat. 1082 as amended, 47 U. S. C. 303)

Released: May 17, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

NOTE: Rules changes herein will be included in Amendments 2–21 and 12–19.

The table associated with footnote NG23 to the Table of Frequency Allocations, § 2.104 (a) (5), of Part 2 of the Commission's rules is amended to read as follows:

(4) Amateur operation shall be limited to:

| Area | Bands (kc) | DC plate input power in watts | |
|---|---|---|---|
| | | Day | Night |
| Minnesota, Iowa, Wisconsin, Michigan, Pennsylvania, Maryland, Delaware, and States to the north of these, including the District of Columbia. | 1800–1825<br>1875–1900 | 500 | 200. |
| North Dakota, South Dakota, Nebraska, Colorado, New Mexico, and States to the west of these States (except State of Washington). | 1900–1925<br>1975–2000 | 500 | 200. |
| State of Washington | 1900–1925<br>1975–2000 | 200 | 50. |
| Oklahoma, Kansas, Missouri, Arkansas, Illinois, Indiana, Kentucky, Tennessee, Ohio, West Virginia, Virginia, North Carolina, South Carolina, Texas (West of 99° W. or North of 32° N). | 1800–1825<br>1875–1900 | 200 | 50. |
| Hawaiian Islands | 1900–1925<br>1975–2000 | 500 | 200. |
| Texas (East of 99° W. and South of 32° N.), Louisiana, Mississippi, Alabama, Georgia, Florida, Puerto Rico, Virgin Islands, Alaska, Guam, and other Territories and possessions of the U. S. not listed above. | None | No operation | No operation. |

The table associated with § 12.111 (a) (4) of the Commission's rules is amended to read as follows:

| Area | Authorized bands (kc) | DC plate input power in watts | |
|---|---|---|---|
| | | Day | Night |
| Minnesota, Iowa, Wisconsin, Michigan, Pennsylvania, Maryland, Delaware, and States to the north of these, including the District of Columbia. | 1800–1825<br>1875–1900 | 500 | 200. |
| North Dakota, South Dakota, Nebraska, Colorado, New Mexico, and States to the west of these States (except State of Washington). | 1900–1925<br>1975–2000 | 500 | 200. |
| State of Washington | 1900–1925<br>1975–2000 | 200 | 50. |
| Oklahoma, Kansas, Missouri, Arkansas, Illinois, Indiana, Kentucky, Tennessee, Ohio, West Virginia, Virginia, North Carolina, South Carolina, Texas (West of 99° W. or North of 32° N.). | 1800–1825<br>1875–1900 | 200 | 50. |
| Hawaiian Islands | 1900–1925<br>1975–2000 | 500 | 200. |
| Texas (East of 99° W. and South of 32° N.), Louisiana, Mississippi, Alabama, Georgia, Florida, Puerto Rico, Virgin Islands, Alaska, Guam, and other Territories and possessions of the U. S. not listed above. | None | No operation | No operation. |

[FCC 56–460]

[Amdt. No. 11–17]

## PART 11—INDUSTRIAL RADIO SERVICES

### INDUSTRIAL RADIOLOCATION SERVICE

In the matter of amendment of the Commission's rules governing the Industrial Radiolocation Service to add the frequency band 10500–10550 Mc for CW Radiolocation.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 16th day of May 1956;

The Commission having under consideration its rules governing the Industrial Radiolocation Service, Subpart M of Part 11, with respect to use of the frequency band 10500–10550 Mc; and

It appearing that in accordance with the provisions of § 2.104 of Part 2 of the Commission's rules, that frequency band is available for CW Radiolocation; and

It further appearing that to facilitate the licensing of CW Radiolocation devices in the Industrial Radiolocation Service, Subpart M of Part 11 should be amended to reflect the availability of this frequency band; and

It further appearing that general notice of proposed rule making is not required in this matter under section 4 of the Administrative Procedure Act because this amendment is solely for the purpose of listing frequencies which have already been made available by previous action of the Commission and, that for the same reason the amendment may become effective immediately;

*It is ordered*, Pursuant to the authority contained in section (4) (i) and 303 (c), (f), (g) and (r) of the Communications Act of 1934, as amended, that effective immediately, § 11.607 is amended by the addition of a new paragraph (f) as follows:

§ 11.607 *Frequencies available.* • • •

(f) Land Radiopositioning Stations and Mobile Radiopositioning Stations in this service, including speed measuring devices, may be authorized to use frequencies in the band 10500–10550 Mc, for CW emission only, on a shared basis with stations in other services.

NOTE: Rules changes herein will be included in Amendment 11–17.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: May 17, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[Docket No. 11467; FCC 56–458]

[Amdt. 18–10]

## PART 18—INDUSTRIAL, SCIENTIFIC, AND MEDICAL SERVICE

### RADIO FREQUENCY STABILIZED ARC WELDERS

In the matter of amendment of Part 18 of the Commission's rules and regulations with respect to those portions governing radio frequency stabilized arc welders.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 16th day of May 1956,

The Commission having under consideration its Notice of Proposed Rule Making in the above entitled matter adopted on July 27, 1955; and

It appearing that footnote 1 to § 18.1 of the Commission's rules provides temporary rules applicable to radio frequency stabilized arc welding equipment and suspends until April 30, 1956, the more stringent requirements of the miscellaneous equipment provisions of Part 18 which would otherwise be applicable; and

It further appearing that additional information is needed by the Commission to formulate permanent rules applicable to non-type-approved radio frequency stabilized arc welding equipment and that a Further Notice of Proposed Rule Making is being issued setting forth specific items upon which further information is needed; and

It further appearing that pending the promulgation of final rules, the temporary regulations heretofore in effect should be continued; and

It further appearing that it will be in the public interest to provide specifically at this time for the type approval and use of radio frequency stabilized arc welding equipment which complies with the requirements for type approval of miscellaneous equipment; and

It further appearing that compliance with the provisions of section 4 (a) of the Administrative Procedure Act would be impracticable in view of the date now specified for compliance of this equipment with the requirements for miscellaneous equipment in the rules and that, since this amendment relieves a restriction, it may be made effective immediately,

*It is ordered*, That, pursuant to the authority of sections 4 (i), 301 and 303 (r) of the Communications Act of 1934, as amended, that footnote 1 to § 18.1 is amended as set forth below effective April 30, 1956.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154; interprets or applies secs. 301, 303, 48 Stat. 1081, 1082, as amended; 47 U. S. C. 301, 303)

Released: May 17, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

Amend Footnote 1 to § 18.1 to read as follows:

[1] The effective date of Part 18 with respect to electric arc welding devices using radio frequency energy is suspended until action is completed in the Docket No. 11467 proceeding with respect to these devices: *Provided*, That, in the event of interference from electric arc welding devices using radio frequency energy to any authorized radio service, steps to remedy such interference shall promptly be taken (except that, in case of interference to receivers arising from direct intermediate frequency pickup by such receivers of the fundamental frequency emissions of certified electric arc welding equipment using radio frequency energy, this provision with respect to interference shall not apply): *And further provided, however*, That equipment manufactured after September 1, 1952 shall be subject to the same technical limitations and standards as set forth for industrial heating equipment in §§ 18.21 to 18.24, inclusive, except that such equipment need not be operated within a shielded room or space but in lieu thereof shall be operated with sufficient shielding to limit the radiation to the value prescribed in § 18.22: *And further provided*, That radio frequency stabilized electric arc welding equipment designed for operation on ISM frequencies may be type approved and operated in accordance with the provisions of § 18.31 (c) of the rules relating to miscellaneous equipment: *And further provided*, That broad band type of emissions from arc welding equipment shall be measured by an instrument having performance characteristics similar to the "Proposed American Standards Specification for a Radio Noise Meter—0.15 to 25 Megacycles/second" dated March 1950, published by the American Standards Association Committee on Radio Electrical Coordination C63. Quasi-peak values of field intensity shall be measured and used in determining compliance with §§ 18.21 (b) and 18.22 (a). Instruments not having characteristics similar to the above mentioned standards may be used provided suitable correlation factors are used to adjust the field intensity readings to values which would be obtained with an instrument having the desired characteristics.

The certification required by § 18.22 may be based upon field intensity measurements made by the manufacturer of the equipment at locations other than the one where the equipment is in use provided such certification includes a statement by the operator of the equipment that the equipment covered thereby has been installed and is being operated in conformity to the instructions issued by the manufacturer.

# TITLE 33—NAVIGATION AND NAVIGABLE WATERS

## Chapter II—Corps of Engineers, Department of the Army

### PART 202—ANCHORAGE REGULATIONS

### PART 203—BRIDGE REGULATIONS

### PONCE HARBOR, PUERTO RICO

### DORSEYS CREEK, MARYLAND

1. Pursuant to the provisions of section 7 of the River and Harbor Act of March 4, 1915 (38 Stat. 1053; 33 U. S. C. 471) § 202.255 is hereby prescribed establishing and governing the use of an anchorage area in Ponce Harbor, Puerto Rico, as follows:

§ 202.255 *Ponce Harbor, P. R.*—(a) *Small-craft anchorage.* On the northwest of Ponce Municipal Pier and northeast of Cayitos Reef, bounded as follows: Beginning at latitude 17°58'27", longitude 66°37'29.5", bearing approximately 325° true, 2,200 feet from the most southwest corner of Ponce Municipal Pier; thence 273° 30' true, 1,800 feet; thence 15° true, 900 feet; thence 93° 30' true, 1,800 feet; thence 195° true, 900 feet to the point of beginning.

(b) *The regulations.* (1) The Commonwealth Captain of the Port may authorize use of this anchorage whenever he finds such use required in safeguarding the maritime or commercial interests.

(2) No vessel shall anchor within the area until assigned a berth by the Commonwealth Captain of the Port. Application for permission to occupy the anchorage must be submitted in advance by the master or authorized representative of the vessel.

(3) Vessels occupying the anchorage will at all times keep within the limits of the area, and shall move or shift their position promptly upon notification by the Commonwealth Captain of the Port.

(4) The anchorage is reserved for all types of small craft, including schooners, fishing vessels, yachts and pleasure craft.

(5) Floats for marking anchors in place will be allowed; stakes or mooring piles are prohibited.

[Regs, May 8, 1956, 800.212 (Ponce Harbor, P. R.)—ENGWO] (Sec. 7, 38 Stat. 1053; 33 U. S. C. 471)

2. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499) § 203.245 governing the operation of drawbridges across navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets, where constant attendance of draw tenders is not required is amended

deleting the provision pertaining to the Baltimore and Annapolis Railroad Company bridge across Dorseys Creek, Maryland, from subparagraph (f) (3), and prescribing subparagraph (f) (3–a) to govern the operation of this bridge, as follows:

§ 203.245 *Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.* • • •

(f) *Waterways discharging into Chesapeake Bay.* • • •

(3) Dorseys Creek, Md.; United States Naval Academy highway and railroad bridges, and Maryland State Roads Commission bridge at Annapolis. At least 5 hours' advance notice required.

(3–a) Dorseys Creek, Md.; Baltimore and Annapolis Railroad Company bridge at Annapolis. The draw need not be opened for the passage of vessels, and paragraphs (b) to (e), inclusive, of this section shall not apply to this bridge.

• • • • • • •

[Regs., May 8, 1956, 823.01 (Dorseys Creek, Md.)—ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

[SEAL] JOHN A. KLEIN,
*Major General, U. S. Army,*
*The Adjutant General.*

# PROPOSED RULE MAKING

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

### [ 26 CFR (1954) Part 290 ]

EXPORTATION OF TOBACCO MATERIALS, TOBACCO PRODUCTS, AND CIGARETTE PAPERS AND TUBES, WITHOUT PAYMENT OF TAX, OR WITH DRAWBACK OF TAX

NOTICE OF PROPOSED RULEMAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

*Preamble.* 1. These regulations, 26 CFR Part 290, "Exportation of Tobacco Materials, Tobacco Products, and Cigarette Papers and Tubes, Without Payment of Tax, or With Drawback of Tax," supersede 26 CFR (1939) Part 141, "Shipment or Delivery of Manufactured Tobacco, Snuff, Cigars, Cigarettes, and Cigarette Papers or Tubes, for Use as Sea Stores Without Payment of Internal Revenue Tax," Part 142, "Tax-Free Withdrawals of Cigars From Customs Bonded Warehouses, Class 6," and, with respect to tobacco products and cigarette papers and tubes, supersede Part 451, "Exportation Without Payment of Tax of Tobacco Manufactures, Oleomargarine, Adulterated Butter, Mixed Flour, and Playing Cards; Shipments to Possessions of the United States, and Drawback on Tobacco Manufactures and Stills Exported, or Shipped to Puerto Rico or Philippine Islands," and are promulgated in order to implement the Internal Revenue Code of 1954.

2. These regulations shall not affect any act done, or any liability or right accruing or accrued, or any suit or proceeding had or commenced, before the effective date of the regulations.

Subpart A—Scope of Regulations

Sec.
290.1 Exportation of tobacco materials, tobacco products, and cigarette papers and tubes, without payment of tax, or with drawback of tax.
290.2 Forms prescribed.

Subpart B—Definitions

290.10 Meaning of terms.
290.11 Articles.
290.12 Assistant regional commissioner.
290.13 Black Fat.
290.14 Cigar.
290.15 Cigarette.
290.16 Cigarette paper.
290.17 Cigarette papers.
290.18 Cigarette tube.
290.19 Clippings.
290.20 Collector of customs.
290.21 Commissioner.
290.22 Customs warehouse.
290.23 Cuttings.
290.24 Dealer in tobacco materials.
290.25 Director, Alcohol and Tobacco Tax Division.
290.26 Establishment.
290.27 Exportation or export.
290.28 Factory.
290.29 Inclusive language.
290.30 I. R. C.
290.31 Leaf tobacco.
290.32 Manufactured tobacco.
290.33 Manufacturer of cigarette papers and tubes.
290.34 Manufacturer of cigars and cigarettes.
290.35 Manufacturer of tobacco.
290.36 Perique.
290.37 Person.
290.38 Proprietor.
290.39 Region.
290.40 Regional commissioner.
290.41 Removal or remove.
290.42 Revenue officer.
290.43 Scraps.
290.44 Siftings.
290.45 State.
290.46 Stems.
290.47 Tobacco in process.
290.48 Tobacco materials.
290.49 Tobacco products.
290.50 United States.
290.51 U. S. C.
290.52 Warehouse.
290.53 Waste.

Subpart C—General

290.60 Exportation.
290.61 Articles for use on vessels and aircraft.
290.62 Restrictions on disposal of articles on vessels and aircraft.
290.63 Responsibility for delivery or exportation of articles and tobacco materials.
290.64 Tax liability.
290.65 Assessment of tax.
290.66 Authority of revenue officers to enter premises.
290.67 Interference with administration.
290.68 American articles returned.
290.69 Unlawful diversion of articles or tobacco materials.
290.70 Disposal of forfeited, condemned, and abandoned articles and tobacco materials.
290.71 Variations from requirements.

Subpart D—Establishment, Operation, and Discontinuance of Warehouses

ESTABLISHMENT OF WAREHOUSES

290.80 Authority to establish.
290.81 Application.
290.82 Bond.
290.83 Corporate documents.
290.84 Articles of partnership or association.
290.85 Trade name certificate.
290.86 Power of attorney.
290.87 Warehouse premises.
290.88 Additional information.
290.89 Investigation of applicant.
290.90 Issuance of authority to operate.
290.91 Withdrawal of authority to continue operation of warehouse.

OPERATION OF WAREHOUSES

290.92 Sign.
290.93 Inventories.
290.94 Records.
290.95 Reports.
290.96 Claim for abatement of assessment.
290.97 Claim for refund of tax.

CHANGES SUBSEQUENT TO ORIGINAL ESTABLISHMENT OF WAREHOUSES

290.98 Change in individual name.
290.99 Change in trade name.
290.100 Change in corporate name.
290.101 Fiduciary successor.
290.102 Transfer of ownership.
290.103 Change in officers or directors of a corporation.
290.104 Change in stockholders of a corporation.
290.105 Change in location within same region.
290.106 Change in location to another region.
290.107 Change in warehouse premises.

BONDS AND EXTENSIONS OF COVERAGE OF BONDS

290.108 Corporate surety.
290.109 Deposit of bonds, notes, or obligations in lieu of corporate surety.
290.110 Amount of bond.
290.111 Strengthening bond.
290.112 Superseding bond.
290.113 Extension of coverage of bond.
290.114 Approval of bond and extension of coverage of bond.
290.115 Termination of liability of surety under bond.
290.116 Release of bonds, notes, and obligations.

DISCONTINUANCE OF WAREHOUSES

290.117 Discontinuance of operations.

Subpart E—Shipments of Tobacco Materials by Dealers in Tobacco Materials

290.130 Shipments for export.

Subpart F—Removal of Articles and Tobacco Materials by Manufacturers, and Removal of Articles by Warehouse Proprietors

290.140 Packages.
290.141 Lottery features.
290.142 Indecent or immoral material.
290.143 Label or notice.
290.144 Shipping containers.
290.145 Consignments of articles or tobacco materials.
290.146 Notice of removal.
290.147 Execution and disposition of notice of removal.
290.148 Diversion of shipment to another consignee.
290.149 Return of shipment to factory or warehouse.
290.150 Destruction of articles under official supervision.
290.151 Delay in lading at port of exportation.
290.152 Foreign trade zones.

Subpart G—Drawback of Tax

290.160 Application of drawback of tax.
290.161 Claim.
290.162 Drawback bond.
290.163 Inspection by revenue officer.
290.164 Delivery of products for shipment to destination.
290.165 Customs procedure.
290.166 Landing certificate.
290.167 Collateral evidence as to landing.
290.168 Proof of loss.
290.169 Extension of time.

Subpart H—Withdrawal of Cigars From Customs Warehouses

290.180 Shipment restricted.
290.181 Bond.
290.182 Amount of bond.
290.183 Strengthening bond.
290.184 Superseding bond.
290.185 Termination of liability of surety under bond.
290.186 Packages.
290.187 Lottery features.
290.188 Indecent or immoral material.
290.189 Label or notice.
290.190 Shipping containers.
290.191 Notice of removal.
290.192 Execution and disposition of notice of removal.
290.193 Return of shipment to warehouse.

AUTHORITY: §§ 290.1 to 290.193 issued under 68A Stat. 917; 26 U. S. C. 7805. Statutory provisions interpreted or applied are cited to text in parentheses.

### SUBPART A—SCOPE OF REGULATIONS

§ 290.1 *Exportation of tobacco materials, tobacco products, and cigarette papers and tubes, without payment of tax, or with drawback of tax.* This part contains the regulations governing the exportation (including shipment for sea stores) of articles and tobacco materials, without payment of tax, the establishment of warehouses for the receipt, storage, and subsequent exportation of articles, without payment of tax, and the allowance of drawback of tax paid on tobacco products exported.

§ 290.2 *Forms prescribed.* The Director, Alcohol and Tobacco Tax Division, is authorized to prescribe all forms required by this part, including bonds, notices, and reports. Information called for thereon shall be furnished in accordance with the instructions on the forms or issued in respect thereto.

### SUBPART B—DEFINITIONS

§ 290.10 *Meaning of terms.* The terms used in this part shall have the meanings ascribed in this subpart, unless the context otherwise indicates.

§ 290.11 *Articles.* "Articles" shall mean manufactured tobacco, cigars, cigarettes, and cigarette papers and tubes.

§ 290.12 *Assistant regional commissioner.* "Assistant regional commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to and functions under the direction and supervision of the Regional Commissioner.

§ 290.13 *Black Fat.* "Black Fat" shall mean tobacco which is normally treated with oil under pressure and results in black tobacco, and shall include all tobacco similarly treated and referred to by such other terms as Black Horse, etc.

§ 290.14 *Cigar.* "Cigar" shall mean any roll of tobacco wrapped in tobacco.

§ 290.15 *Cigarette.* "Cigarette" shall mean any roll of tobacco, wrapped in paper or any substance other than tobacco.

§ 290.16 *Cigarette paper.* "Cigarette paper" shall mean paper, or any other material except tobacco, prepared for use as a cigarette wrapper.

§ 290.17 *Cigarette papers.* "Cigarette papers" shall mean taxable packages, books, or sets, of cigarette paper.

§ 290.18 *Cigarette tube.* "Cigarette tube" shall bean cigarette paper made into a hollow cylinder for use in making cigarettes.

§ 290.19 *Clippings.* "Clippings" shall mean the tobacco which is clipped or cut off the ends of cigars in the manufacture thereof.

§ 290.20 *Collector of customs.* "Collector of customs" shall mean the person having charge of a customs collection district and shall also include assistant collector of customs, deputy collector of customs, and any person authorized by law or by regulations approved by the Secretary of the Treasury to perform the duties of a collector of customs.

§ 290.21 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 290.22 *Customs warehouse.* "Customs warehouse" shall mean a customs bonded manufacturing warehouse, class 6, where cigars are manufactured of imported tobacco.

§ 290.23 *Cuttings.* "Cuttings" shall mean the tobacco remaining after the binders and wrappers for cigars are cut out of the leaf.

§ 290.24 *Dealer in tobacco materials.* "Dealer in tobacco materials" shall mean every person who handles tobacco materials for sale, shipment, or delivery solely to another qualified dealer in such materials, to a qualified manufacturer of tobacco products, or to a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States. Dealer in tobacco materials shall include every person who produces Perique or Black Fat for sale, shipment, or delivery, in accordance with 26 CFR Part 280. Dealer in tobacco materials shall not include (a) an operator of a warehouse who stores tobacco materials solely for a dealer in tobacco materials, for a manufacturer of tobacco products, for a farmer or grower of tobacco, or for a bona fide association of farmers or growers of tobacco; or (b) a farmer or grower of tobacco who sells leaf tobacco of his own growth or raising, or a bona fide association of farmers or growers of tobacco which sells only leaf tobacco grown by farmer or grower members, if the tobacco so sold is in the condition as cured on the farm.

§ 290.25 *Director, Alcohol and Tobacco Tax Division.* "Director, Alcohol and Tobacco Tax Division" shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

§ 290.26 *Establishment.* "Establishment" shall mean the premises of a dealer in tobacco materials in which he carries on such business.

§ 290.27 *Exportation or export.* "Exportation" or "export" shall, for the purposes of this part, mean the shipment for and clearance of articles and tobacco materials to a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States, and shall include the shipment for and clearance of articles for consumption (as ships' supplies or stores) beyond the jurisdiction of the internal revenue laws of the United States.

§ 290.28 *Factory.* "Factory" shall mean the premises of a manufacturer of tobacco, cigars and cigarettes, or cigarette papers and tubes in which he carries on such business.

§ 290.29 *Inclusive language.* Words in the plural form shall include the singular, and vice versa, and words in the masculine gender shall include the feminine, partnerships, associations, companies, corporations, estates, and trusts.

§ 290.30 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code of 1954.

§ 290.31 *Leaf tobacco.* "Leaf tobacco" shall mean:

(a) *Unstemmed.* Tobacco from which the stem or mid-rib has not been removed, and

(b) *Stemmed.* Tobacco from which the stem or mid-rib has been removed, also known as "strips."

§ 290.32 *Manufactured tobacco.* "Manufactured tobacco" shall mean all tobacco, other than cigars and cigarettes, prepared, processed, manipulated, or packaged for consumption by smoking or

for use in the mouth or nose. Any other tobacco not exempt from tax under Chapter 52, I. R. C., which is sold or delivered to any person contrary to such chapter and regulations thereunder, shall be regarded as manufactured tobacco.

§ 290.33 *Manufacturer of cigarette papers and tubes.* "Manufacturer of cigarette papers and tubes" shall mean every person who makes up cigarette paper into packages, books, or sets, on which tax is imposed, or into tubes, except for his own personal use or consumption or solely for use by him in the manufacture of cigarettes.

§ 290.34 *Manufacturer of cigars and cigarettes.* "Manufacturer of cigars and cigarettes" shall mean every person who produces cigars or cigarettes, except for his own personal consumption.

§ 290.35 *Manufacturer of tobacco.* "Manufacturer of tobacco" shall mean every person who manufactures tobacco by any method of preparing, processing, or manipulating, except for his own personal consumption or use; or who packages any tobacco for consumption by smoking or for use in the mouth or nose; or who sells or delivers any tobacco, not exempt from tax under Chapter 52, I. R. C., to any person, contrary to the provisions of such chapter and regulations thereunder. The term "manufacturer of tobacco" shall not include (a) a farmer or grower of tobacco who sells leaf tobacco of his own growth or raising, or a bona fide association of farmers or growers of tobacco which sells only leaf tobacco grown by farmer or grower members, if the tobacco so sold is in the condition as cured on the farm; or (b) a dealer in tobacco materials who handles tobacco solely for sale, shipment, or delivery, in bulk, to another dealer in such materials or to a manufacturer of tobacco products, or to a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States.

§ 290.36 *Perique.* "Perique" shall mean tobacco, such as that produced in Louisiana, cured in its own juices and given other treatment peculiar to this type of tobacco.

§ 290.37 *Person.* "Person" shall mean and include an individual, partnership, association, company, corporation, estate, or trust.

§ 290.38 *Proprietor.* "Proprietor" shall mean the operator of a warehouse established under this part.

§ 290.39 *Region.* "Region" shall mean the area, designated by the Secretary or his delegate, comprising the geographical jurisdiction of a regional commissioner of internal revenue.

§ 290.40 *Regional commissioner.* "Regional commissioner" shall mean the Regional Commissioner of Internal Revenue of an internal revenue region.

§ 290.41 *Removal or remove.* "Removal" or "remove" shall mean removal of articles under and from internal revenue bond.

§ 290.42 *Revenue officer.* "Revenue officer" shall mean any officer or employee of the United States acting in connection with any internal revenue law of the United States.

§ 290.43 *Scraps.* "Scraps" shall mean portions of leaf tobacco.

§ 290.44 *Siftings.* "Siftings" shall mean the particles of tobacco salvaged in the process of sifting or screening the residue of tobacco.

§ 290.45 *State.* "State" shall, for the purposes of this part, be construed to include the Territories of Alaska and Hawaii, and the District of Columbia.

§ 290.46 *Stems.* "Stems" shall mean the stems or mid-ribs of tobacco.

§ 290.47 *Tobacco in process.* "Tobacco in process" shall mean tobacco which has been, or is being, manipulated or processed, but is to undergo further manipulation, processing, or handling, prior to removal for consumption by smoking or for use in the mouth or nose.

§ 290.48 *Tobacco materials.* "Tobacco materials" shall mean tobacco in process, Perique, Black Fat, leaf tobacco, and tobacco scraps, cuttings, clippings, siftings, dust, stems, and waste.

§ 290.49 *Tobacco products.* "Tobacco products" shall mean manufactured tobacco, cigars, and cigarettes.

§ 290.50 *United States.* "United States" shall, for the purposes of this part, include only the States, the Territories of Alaska and Hawaii, and the District of Columbia.

§ 290.51 *U. S. C.* "U. S. C." shall mean the United States Code.

§ 290.52 *Warehouse.* "Warehouse" shall mean a bonded internal revenue warehouse established under the provisions of this part for the storage of articles for subsequent exportation, without payment of tax.

§ 290.53 *Waste.* "Waste" shall mean tobacco, including dust, and foreign substances resulting from the handling, manipulation, or processing of tobacco, and which are worthless for use in the manufacture of tobacco products and have no market value for that purpose.

## SUBPART C—GENERAL

§ 290.60 *Exportation.* Articles may be removed from factories, warehouses, and customs warehouses, and tobacco materials may be shipped from factories and establishments, without payment of tax, under this part, for exportation.

§ 290.61 *Articles for use on vessels and aircraft.* Articles may be removed by a manufacturer or warehouse proprietor under his factory or warehouse bond, without payment of tax, for delivery to vessels or aircraft for consumption or use thereon as supplies beyond the jurisdiction of the internal revenue laws of the United States. Where articles are removed for this purpose it will be necessary for the manufacturer or warehouse proprietor to submit to the assistant regional commissioner, for the region in which such a removal originates, satisfactory proof that such articles will be so consumed or used. Such proof may include a showing that the vessel is actually engaged in foreign, intercoastal, or noncontiguous territory trade (i. e., that it is operating on a regular schedule in such trade, actually transporting passengers and/or cargo between a port in the United States and a foreign port, a port on the opposite coast of the United States, or a port in a noncontiguous territory or possession, or between ports in one such territory or possession and another such territory or possession); that it is departing for a foreign port, a port on the opposite coast, or a port in a noncontiguous territory or possession; or that it is a vessel of war or other governmental activity or a vessel employed in the fisheries or whaling business. In the case of aircraft, such proof may include a showing that the aircraft is clearing through customs en route to a place or places beyond the jurisdiction of the internal revenue laws of the United States, or that it is operating on a regular schedule between places in the United States which requires operation outside the jurisdiction of the internal revenue laws of the United States. Such removals may not be made to a vessel or aircraft stationed in the United States for an indefinite period, or where its schedule does not include operations outside such jurisdiction.

(68A Stat. 708; 26 U. S. C. 5704)

§ 290.62 *Restrictions on disposal of articles on vessels and aircraft.* Articles delivered to a vessel or aircraft, without payment of tax, pursuant to § 290.61, for consumption thereon, shall not be sold, offered for sale, or otherwise disposed of while the vessel or aircraft is within the jurisdiction of the internal revenue laws of the United States, i. e., inside the 3-mile limits or international boundary, as the case may be, of the United States.

(68A Stat. 708; 26 U. S. C. 5704; 19 U. S. C. 1317)

§ 290.63 *Responsibility for delivery or exportation of articles and tobacco materials.* Responsibility for compliance with the provisions of this part with respect to the removal under bond of articles and tobacco materials, without payment of tax, for export, and for the proper delivery or exportation of such articles and materials, and with respect to the exportation of tobacco products with benefit of drawback of tax, shall rest upon the manufacturer of articles, dealer in tobacco materials, and the proprietor of a warehouse from whose premises such articles and materials are removed for export, and upon the exporter who exports tobacco products with benefit of drawback of tax.

§ 290.64 *Tax liability.* A dealer in tobacco materials, manufacturer of tobacco products or cigarette papers and tubes, and a proprietor of a warehouse, who ships tobacco materials from his establishment or factory, or removes tobacco products or cigarette papers or tubes from his factory or warehouse for export, under his bond, without payment of tax, and fails to comply with the provisions of this part, shall be liable for tax on the tobacco materials, equal to the tax imposed by law on manufactured tobacco, and for tax on tobacco products and cigarette papers and tubes at the rate imposed by law on such articles. A dealer, manufacturer, or warehouse proprietor, who removes tobacco materials, tobacco products, or cigarette papers and tubes for export, under his bond, without payment of tax, in accordance with the provisions of this part, shall be liable for such tax unless satisfactory evidence of exportation or proper delivery, as required by this part, is timely furnished the assistant regional commissioner for the region in which is located the establishment, factory, or warehouse, from which the articles or tobacco materials were so removed. Such evidence shall be furnished within 90 days of the date of removal of the tobacco materials, tobacco products, or cigarette papers and tubes: *Provided*, That this period may be extended for good cause shown.

§ 290.65 *Assessment of tax.* The tax determined by the assistant regional commissioner to be due, pursuant to § 290.64, shall be assessed, subject to the limitations prescribed in section 6501, I. R. C., against the dealer in tobacco materials, manufacturer, or warehouse proprietor liable for the tax. The tax so assessed shall be in addition to any penalties prescribed by law for failure to pay such tax: *Provided*, That, except in cases where delay may jeopardize collection of the tax, or where the amount is nominal or the result of an evident mathematical error, no such assessment shall be made until and after notice has been afforded the dealer, manufacturer, or warehouse proprietor to show cause against such assessment. The dealer, manufacturer, or warehouse proprietor will be allowed 30 days from the date of such notice to show cause, in writing, against such assessment.

(68A Stat. 707, 836; 26 U. S. C. 5703, 6862)

§ 290.66 *Authority of revenue officers to enter premises.* Any revenue officer may enter in the daytime any premises where articles removed under this part are kept, so far as it may be necessary for the purpose of examining such articles. When such premises are open at night, any revenue officer may enter them, while so open, in the performance of his official duties. The owner of such premises, or person having the superintendence of the same, who refuses to admit any revenue officer or permit him to examine the articles removed under this part shall be liable to the penalties prescribed by law for the offense.

(68A Stat. 872, 903; 26 U. S. C. 7342, 7606)

§ 290.67 *Interference with administration.* Whoever, corruptly or by force or threats of force, endeavors to hinder or obstruct the administration of this part, or endeavors to intimidate or impede any revenue officer acting in his official capacity, or forcibly rescues or attempts to rescue or causes to be rescued any property, after it has been duly seized for forfeiture to the United States in connection with a violation or intended violation of this part, shall be liable to the penalties prescribed by law.

(68A Stat. 855; 26 U. S. C. 7212)

§ 290.68 *American articles returned.* When articles produced in factories operated under the internal revenue laws of the United States, which have been exported, and upon which no internal revenue tax has been paid, or upon which such tax has been paid and refunded by allowance of drawback, are returned to the United States, they are liable to customs duty equal to the tax imposed by the internal revenue laws upon such articles. All packages of returned American cigars and cigarettes produced in factories operated under the internal revenue laws shall be marked or stamped, in accordance with customs regulations, "U. S. Customs—American Goods Returned," to denote payment of duty thereon.

All returned American manufactured tobacco produced in factories operated under the internal revenue laws shall have the proper internal revenue stamps, in payment of the duty, affixed and canceled before release from customs custody. Customs regulations provide that no customs inspection stamp shall be affixed to returned American manufactured tobacco, but the packages of such tobacco shall be marked or stamped, preferably over the internal revenue stamp, with the inscription "American goods returned." All returned American cigarette papers and tubes produced in factories operated under the internal revenue laws shall be marked or stamped, in accordance with customs regulations, "U. S. Customs—American Goods Returned," to denote payment of duty thereon. Cigars produced in customs warehouses and exported under this part, when returned to the United States, are subject to internal revenue tax in effect on such articles at the time of return. Therefore, internal revenue stamps in payment of the tax shall be affixed to such cigars in addition to any customs stamps required to denote the payment of duty with respect to such cigars. Returned American articles after release by customs may not be received in any internal revenue cigar, cigarette, tobacco, or cigarette paper and tube factory, except as provided in Parts 270, 275, and 285 of this chapter.

(19 U. S. C., Sec. 1201, Par. 1615)

§ 290.69 *Unlawful diversion of articles or tobacco materials.* Any person who diverts, for taxable purposes, articles or tobacco materials, removed under this part, without payment of tax, shall be liable for the tax thereon and may also be subject to other penalties prescribed by law for such offense. Such articles and tobacco materials, as well as any other property possessed with intent to defraud the United States or intended for use in violating the provisions of this part, are subject to forfeiture to the United States.

(68A Stat. 716, 717, 718; 26 U. S. C. 5751, 5761, 5762, 5763)

§ 290.70 *Disposal of forfeited, condemned, and abandoned articles and tobacco materials.* When in the opinion of any officer having custody of forfeited, condemned, or abandoned articles or tobacco materials, upon which the Federal tax has not been paid, the sale thereof will not bring a price equal to such tax due and payable thereon, and the expenses incident to the sale thereof, he shall not sell, nor cause to be sold, such articles or materials for consumption in the United States. Where the articles or materials are not sold, the officer may deliver them to a Federal or State hospital or institution (if they are fit for human consumption) or cause their destruction. Where such articles or materials are sold, they shall not be released by the officer having custody thereof until they are properly packaged and internal revenue stamps (the cost of which stamps shall be considered as a portion of the sales price) are affixed to each package to denote the payment of tax. In the case of such articles or materials held by or for the Federal Government, the sale thereof shall be subject to the applicable provisions of the regulations of the General Services Administration, Title 1, Personal Property Management.

(68A Stat. 716, 831; 26 U. S. C. 5753, 6807)

§ 290.71 *Variations from requirements*—(a) *Construction and separation of premises.* The Director, Alcohol and Tobacco Tax Division, may approve a manner of construction and separation of warehouse premises in lieu of that specified in this part, where it is shown that it is impracticable to conform to the requirements, and the proposed construction and separation will afford as much or more security and protection to the revenue as is intended by the requirements in this part, and where such variation is not contrary to any provision of law. Where it is proposed to employ a manner of construction and separation of premises other than that provided for by this part, prior approval shall be obtained in accordance with the provisions of paragraph (c) of this section.

(b) *Methods of operation.* The Director, Alcohol and Tobacco Tax Division, may in case of emergency approve methods of operation other than those provided for by this part, where it is shown that variations from the requirements are necessary, will not hinder the effective administration of this part, will not jeopardize the revenue, and where such variations are not contrary to any provision of law. Where it is proposed to employ methods of operation other than those provided for by this part, prior approval shall be obtained in accordance with the provisions of paragraph (c) of this section.

(c) *Application.* Any person, subject to the provisions of this part, who proposes to employ methods of operation, or of construction and separation of warehouse premises, other than as provided in this part, shall submit an application so to do, in triplicate, to the assistant regional commissioner. Such application shall describe the proposed variations and state the necessity therefor. With respect to variations in construction and separation of warehouse premises, where they cannot be adequately described in the application, drawings, or photographs thereof shall also be submitted. The assistant regional commissioner shall make such inquiry as is necessary to ascertain the necessity for the variations and whether approval thereof will hinder the effective administration of this part

or result in jeopardy to the revenue. On completion of the inquiry, the assistant regional commissioner will forward two copies of the application to the Director, Alcohol and Tobacco Tax Division, together with a report of his findings and his recommendation.

### SUBPART D—ESTABLISHMENT, OPERATION, AND DISCONTINUANCE OF WAREHOUSES

#### ESTABLISHMENT OF WAREHOUSES

§ 290.80 *Authority to establish.* Subject to approval by the assistant regional commissioner, a warehouse may be established, in accordance with this subpart, for the receipt and storage of articles and the subsequent removal thereof under this part.

§ 290.81 *Application.* Every person desiring to establish a warehouse, under this subpart, shall make application so to do, in writing, to the assistant regional commissioner for the region in which the warehouse is to be located. He shall, before commencing business, qualify in accordance with the provisions of this subpart. All documents required under this subpart to be furnished with such application shall be made a part thereof.

§ 290.82 *Bond.* Every person, before commencing business as a proprietor of a warehouse, shall file with the assistant regional commissioner, a bond, Form 2103, in accordance with the applicable provisions of this subpart, conditioned upon compliance with the provisions of Chapter 52, I. R. C., and regulations thereunder, including, but not limited to, the timely payment of taxes imposed by such chapter and penalties and interest in connection therewith for which he may become liable to the United States.

§ 290.83 *Corporate documents.* Every corporation, before commencing business as a proprietor of a warehouse, shall furnish with the application required by § 290.81, a true copy of the corporate charter or a certificate of corporate existence or incorporation, executed by the appropriate officer of the State in which incorporated. The corporation shall also furnish, in duplicate, evidence which will establish the authority of the officer or other person who executes the application to execute the same; the authority of persons to sign other documents, required by this part, for the corporation; and the identity of the officers and directors, and each person who holds more than ten percent of the stock of such corporation. Where a corporation has previously filed such documents or evidence with the same assistant regional commissioner, a written statement by the corporation, in duplicate, to that effect will be sufficient for the purpose of this section.

§ 290.84 *Articles of partnership or association.* Every partnership or association, before commencing business as the proprietor of a warehouse, shall furnish with its application, required by § 290.81, a true copy of the articles of partnership or association, if any, or certificate of partnership or association where required to be filed by any State, county, or municipality. Where a partnership or association has previously filed such documents with the same assistant regional commissioner, a written statement by the partnership or association, in duplicate, to that effect will be sufficient for the purpose of this section.

§ 290.85 *Trade name certificate.* Every person, before commencing business under a trade name as the proprietor of a warehouse, shall furnish with his application, required by § 290.81, true copies, in duplicate, of the certificate or other document, if any, issued by a State, county, or municipal authority in connection with the transaction of business under such trade name. If no such certificate or other document is so issued, a written statement by such person, in duplicate, to that effect will be sufficient for the purpose of this section.

§ 290.86 *Power of attorney.* If the application or other qualifying documents are signed by an attorney in fact for an individual, partnership, association, company, or corporation, or by one of the partners for a partnership, or by an officer of an association or company, or, in the case of a corporation, by an officer or other person not authorized to sign by the corporate documents described in § 290.83, power of attorney conferring authority upon the person signing the documents shall be manifested on Form 1534 and furnished to the assistant regional commissioner.

§ 290.87 *Warehouse premises*—(a) *Description and diagram.* The premises to be used by a proprietor as his warehouse shall be described, in the application required by § 290.81, by number, street, and city, town, or village, and State. Such premises may consist of more than one building, which need not be contiguous, but shall be located in the same city, town, or village; shall be suitable for the purpose intended; provide proper protection and safety for the articles to be stored therein; and afford adequate protection of the revenue with respect to such articles. Where such premises consist of less than an entire building, a diagram, in duplicate, shall also be furnished showing the particular floor or floors, or room or rooms, comprising the warehouse.

(b) *Separation.* Where the warehouse premises consist of less than an entire building, the premises shall be completely separated from adjoining portions of the building, which separation shall be constructed of materials generally used in the construction of buildings and may include any necessary doors or other openings. The premises shall be accessible directly from the street, yard, or common passageway or means of entrance.

(c) *Warehouses established prior to effective date.* Warehouses established prior to the effective date of this part shall not be subject to the provisions of paragraph (b) of this section if, in the opinion of the assistant regional commissioner, the existing premises afford adequate protection to the revenue.

(d) *Restrictions.* Warehouse premises shall be used exclusively for the storage of articles for subsequent removal under this part.

(e) *Emergency premises.* In cases of emergency, the assistant regional commissioner may authorize, for a limited period, the temporary storage of articles outside the particular premises of the warehouse provided the extension of coverage of the warehouse proprietor's bond is furnished in the manner required under § 290.113, also the temporary separation of warehouse premises by means other than those specified in paragraph (b) of this section, where such action will not hinder the effective administration of this part, is not contrary to law, and will not jeopardize the revenue.

§ 290.88 *Additional information.* In connection with the establishment of a warehouse under this subpart, the assistant regional commissioner may require such additional information as he may deem necessary to justify the establishment of such warehouse.

§ 290.89 *Investigation of applicant.* The assistant regional commissioner shall promptly cause such inquiry or investigation to be made, as he deems necessary, to verify the information furnished in connection with the application to establish a warehouse and to determine whether the premises of the proposed warehouse are adequate for the purpose intended and for the protection of the revenue.

§ 290.90 *Issuance of authority to operate.* If the application, bond, and supporting documents, required under this subpart, are approved by the assistant regional commissioner, the applicant will be notified, in writing, of such approval and of the number assigned to him to identify his warehouse for the purposes of this part.

§ 290.91 *Withdrawal of authority to continue operation of warehouse.* Where the assistant regional commissioner has reason to believe that the proprietor has not in good faith complied with the provisions of this part, or has failed to maintain his warehouse in such manner as to protect the revenue, he may terminate the right of the proprietor to operate, after notice and opportunity for hearing, for reasonable cause.

#### OPERATION OF WAREHOUSES

§ 290.92 *Sign.* The proprietor of a warehouse, established under this subpart, shall place and keep, on the outside of the building in which his warehouse is located, or at the entrance of his warehouse, where it can be plainly seen, a sign in plain and legible letters containing the words "Internal Revenue Tobacco Export Warehouse No. ____," with the number to be that assigned by the assistant regional commissioner under § 290.90.

§ 290.93 *Inventories*—(a) *General.* Every proprietor of a warehouse shall make a true and accurate inventory of the articles held by him at the times specified in this section. Such inventory shall be rendered to the appropriate assistant regional commissioner and shall be subject to verification by a revenue officer.

(b) *Opening.* An opening inventory shall be made by the proprietor at the time of commencing business. The date of commencing business under this subpart shall be the effective date of the bond as indicated thereon by the assistant regional commissioner. A similar inventory shall be made by the proprietor when he files and commences business under a superseding bond. The date of such inventory shall be the effective date of such superseding bond as indicated thereon by the assistant regional commissioner.

(c) *Special.* A special inventory shall be made by the proprietor whenever required by any revenue officer.

(d) *Closing.* A closing inventory shall be made by the proprietor when he transfers ownership, changes his location to another region, or discontinues his warehouse. Where the proprietor transfers ownership or changes the location of the warehouse to another region the closing inventory shall be made as of the day preceding the date of the opening inventory of the successor or the date of the opening inventory at the new location.

§ 290.94 *Records.* Every proprietor shall keep at his warehouse complete and adequate records consistent with accepted commercial practice of the date, kind, and quantity of articles received, removed, transferred, destroyed, lost, or returned to manufacturers. In support of such records the proprietor shall retain a copy of each notice of removal received from a manufacturer or another warehouse proprietor from whom articles are received, and a copy of each notice, as required by this part, covering articles removed from his warehouse. Such records and copies of the notices of removal shall be retained for two years after the year in which the shipments were received or removed and shall be made available for inspection by any revenue officer upon his request.

§ 290.95 *Reports*—(a) *General.* Reports shall be made, as required by this section, for each warehouse established under this subpart. Such reports shall be made by the proprietor of the warehouse on Form 2140 to the assistant regional commissioner and shall cover all articles on hand, received, removed or transferred, and lost or destroyed while in the warehouse, during the month or period of the month covered by the report. With respect to articles lost or destroyed the facts of such loss or destruction shall be established to the satisfaction of the assistant regional commissioner before credit therefor in the records of such warehouse proprietor may be authorized. A copy of each such report shall be retained by the proprietor for two years following the close of the year covered in such reports, and made available for inspection by any revenue officer upon his request.

(b) *Opening.* An opening report, covering the period from the date of the opening inventory, as required by § 290.93, to the end of the month, shall be made on or before the 20th day following the end of the month in which such inventory was made.

(c) *Monthly.* A report for each full month shall be made on or before the 20th day following the end of the month covered in the report.

(d) *Special.* A special report shall be made with each special inventory required by an internal revenue officer. Such special report shall cover the period from the first of the month to the close of business of the day preceding the date of the special inventory. Another report, covering the period from the date of such inventory to the end of the month, shall be made on or before the 20th day following the end of the month in which the inventory was made.

(e) *Closing.* A closing report, covering the period from the first of the month to the date of the closing inventory, as required by § 290.93, shall be made with such inventory.

§ 290.96 *Claim for abatement of assessment.* Claim for abatement of the unpaid portion of the assessment of any tax on articles removed from a warehouse, or any liability in respect of such tax, alleged to be excessive in amount, assessed after the expiration of the period of limitation applicable thereto, or erroneously or illegally assessed, shall be filed on Form 843, in duplicate, with the assistant regional commissioner. Such claim shall set forth the reasons relied upon for the allowance of the claim and shall be accompanied by evidence necessary to support the claim.

(68A Stat. 792; 26 U. S. C. 6404)

§ 290.97 Claim for refund of tax. The tax paid on articles delivered to, stored in, or removed from a warehouse established under this subpart, may be refunded where the tax has been paid in error. The claim for refund, Form 843, shall be filed in duplicate within three years from the date of payment of the tax, with the assistant regional commissioner for the region in which the tax was paid, and the claim shall be supported by evidence necessary to establish to the satisfaction of the assistant regional commissioner that the claim is valid.

(68A Stat. 791; 26 U. S. C. 6402)

#### CHANGES SUBSEQUENT TO ORIGINAL ESTABLISHMENT OF WAREHOUSES

§ 290.98 *Change in individual name.* Where there is merely a change in the name of an individual operating as a proprietor of a warehouse, he shall, within 30 days of such change, notify the assistant regional commissioner, in writing, and furnish an extension of coverage of his bond, in accordance with the provisions of § 290.113.

§ 290.99 *Change in trade name.* Where there is merely a change in the trade name of a proprietor operating a warehouse, he shall, within 30 days of the adoption of the new trade name, notify the assistant regional commissioner, in writing, and furnish an extension of coverage of bond, in accordance with the provisions of § 290.113. The proprietor shall also furnish true copies, in duplicate, of any new trade name certificate or document issued to him, or statement in lieu thereof, required by § 290.85.

§ 290.100 *Change in corporate name.* Where there is merely a change in the name of a corporate proprietor operating a warehouse, the proprietor shall, within 30 days of such change, notify the assistant regional commissioner, in writing, and furnish an extension of coverage of bond, in accordance with the provisions of § 290.113. The proprietor shall also furnish such documents as may be reasonably necessary to establish that the corporate name has been changed.

§ 290.101 *Fiduciary successor.* If an administrator, executor, receiver, trustee, assignee, or other fiduciary, is to take over and continue the operation of a warehouse, such fiduciary shall, before commencing operations, so notify the assistant regional commissioner, in writing, file a bond in accordance with the provisions of § 290.82, furnish certified copies, in duplicate, of the order of the court, or other pertinent documents, showing his appointment and qualifications as such fiduciary, and make an opening inventory, in accordance with the provisions of § 290.93: *Provided*, That where a diagram of the warehouse premises has been previously furnished in accordance with the provisions of § 290.87, the fiduciary may adopt such diagram. However, where a fiduciary intends merely to liquidate the business, qualification as a proprietor of a warehouse will not be required if he promptly files with the assistant regional commissioner a statement to that effect, together with an extension of coverage of the predecessor's bond, in accordance with the provisions of § 290.113, which shall be executed on behalf of the principal on the bond by the fiduciary.

§ 290.102 *Transfer of ownership.* If a transfer is to be made in the proprietorship of a warehouse (including a change in the identity of the members of a partnership or association), such proprietor shall give notice, in writing, to the assistant regional commissioner, naming the proposed successor and the desired effective date of such transfer. The proposed successor shall, before commencing operations, qualify as the proprietor of a warehouse, in accordance with the applicable provisions of this subpart: *Provided*, That where a diagram has been furnished by the proprietor in accordance with the provisions of § 290.87, the proposed successor may adopt such diagram. The proprietor shall give such notice of transfer, and the proposed successor shall make application and file bond, as required, in ample time for examination and approval thereof before the desired date of such change. The predecessor shall make a closing inventory and closing report, in accordance with the provisions of §§ 290.93 and 290.95, respectively, and the successor shall make an opening inventory, in accordance with the provisions of § 290.93.

§ 290.103 *Change in officers or directors of a corporation.* Where there is any change in the officers or directors of a corporation operating as the proprietor of a warehouse, the proprietor shall furnish to the assistant regional commissioner notice, in writing, of the election of the new officers or directors within 30 days after such election.

§ 290.104 *Change in stockholders of a corporation.* Where the issuance, sale, or transfer of the capital stock of a corporation, operating as a proprietor of a warehouse, results in a change in the identity of the principal stockholders exercising actual or legal control of the operations of the corporation, the corporate proprietor shall, within 30 days after the change occurs, notify the assistant regional commissioner of the change. The continued operation of the warehouse by the new principal stockholders exercising actual or legal control shall be subject to the approval of the assistant regional commissioner.

§ 290.105 *Change in location within same region*—(a) *Transfer to a new location.* Whenever a proprietor of a warehouse contemplates changing the location of his warehouse within the same region, he shall, before commencing operations at the new location, notify the assistant regional commissioner, in writing, of the change and shall furnish an extension of coverage of the bond filed under this subpart, in accordance with the provisions of § 290.113.

(b) *Mere change in address.* Whenever any change occurs in the address, but not the location, of the warehouse, as a result of action of local authorities, the proprietor shall, within 30 days of such change, notify the assistant regional commissioner, in writing, and shall furnish an extension of coverage of the bond filed under this subpart, in accordance with the provisions of § 290.113.

§ 290.106 *Change in location to another region.* Whenever a proprietor of a warehouse contemplates changing the location of his warehouse to another region, he shall, before commencing operations at the new location, qualify as such a proprietor in the new region, in accordance with the applicable provisions of this subpart. The proprietor shall notify the assistant regional commissioner of the region from which he is removing of his qualification in the new region, giving the address of the new location of his warehouse, and make a closing inventory and closing report, in accordance with the provisions of §§ 290.93 and 290.95, respectively.

§ 290.107 *Change in warehouse premises.* Where the premises of a warehouse are to be changed to an extent which will make inaccurate the description of such premises as set forth in the last application of the proprietor, or the diagram, if any, furnished with such application, the proprietor shall notify the assistant regional commissioner, in writing, describing the proposed change in such premises, and furnish a diagram thereof, if required under the provisions of § 290.87. The proprietor shall also furnish an extension of coverage of bond, in accordance with the provisions of § 290.113.

BONDS AND EXTENSIONS OF COVERAGE OF BONDS

§ 290.108 *Corporate surety.* Surety bonds, required under the provisions of this subpart, may be given only with corporate sureties holding certificates of authority from the Secretary of the Treasury as acceptable sureties on Federal bonds. Limitations concerning corporate sureties are prescribed by the Secretary in Treasury Department Form 356, revised. The surety shall have no interest whatever in the business covered by the bond.

(61 Stat. 646; 6 U. S. C. 6)

§ 290.109 *Deposit of bonds, notes, or obligations in lieu of corporate surety.* Bonds or notes of the United States, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, may be pledged and deposited by the proprietor of a warehouse as security in connection with bond to cover his operations, in lieu of the corporate surety, in accordance with the provisions of Treasury Department Circular No. 154, revised (31 CFR Part 225). Such bonds or notes which are nontransferable, or the pledging of which will not be recognized by the Treasury Department, are not acceptable as security in lieu of corporate surety.

(61 Stat. 646; 6 U. S. C. 15)

§ 290.110 *Amount of bond.* The amount of the bond required to be filed by the proprietor of a warehouse, as required by § 290.82, shall be not less than the estimated amount of tax which may at any time constitute a charge against the bond: *Provided*, That the amount of any such bond (or the total amount where original and strengthening bonds are filed) shall not exceed $200,000 nor be less than $1,000. The charge against such bond shall be subject to increase upon receipt of articles into the warehouse and to decrease as required evidence of exportation or other delivery is received by the assistant regional commissioner with respect to articles transferred or removed. When the limit of liability under a bond given in less than the maximum amount has been reached, no additional shipments shall be received into the warehouse until a strengthening or superseding bond is filed, as required by §§ 290.111 or 290.112.

§ 290.111 *Strengthening bond.* Where the assistant regional commissioner determines that the amount of the bond under which a proprietor of a warehouse is currently carrying on business no longer adequately protects the revenue, and such bond is in an amount of less than $200,000, the assistant regional commissioner may require the proprietor to file a strengthening bond in an appropriate amount with the same surety as that on the bond already in effect, in lieu of a superseding bond to cover the full liability on the basis of § 290.110. The assistant regional commissioner shall refuse to approve any strengthening bond where any notation is made thereon which is intended or which may be construed as a release of any former bond, or as limiting the amount of either bond to less than its full amount. Such strengthening bonds shall have placed thereon, by the obligors at the time of execution, the notation "Strengthening Bond."

§ 290.112 *Superseding bond.* The proprietor of a warehouse shall file a new bond to supersede his current bond, immediately when (a) the corporate surety on the current bond becomes insolvent, (b) the assistant regional commissioner approves a request from the surety on the current bond to terminate his liability under the bond, (c) payment of any liability under a bond is made by the surety thereon, or (d) the assistant regional commissioner considers such a superseding bond necessary for the protection of the revenue.

§ 290.113 *Extension of coverage of bond.* An extension of the coverage of any bond filed under this subpart shall be manifested on Form 2105 by the proprietor of the warehouse and by the surety on the bond with the same formality and proof of authority as required for the execution of the bond.

§ 290.114 *Approval of bond and extension of coverage of bond.* No person shall commence operations under any bond, nor extend his operations, until he receives from the assistant regional commissioner notice of his approval of the bond or of an appropriate extension of coverage of the bond required under this subpart.

§ 290.115 *Termination of liability of surety under bond.* The liability of a surety on any bond required by this subpart shall be terminated only as to operations on and after the date of approval of a superseding bond, or the date of approval of the discontinuance of operations by the proprietor of a warehouse, or otherwise in accordance with the termination provisions of the bond. The surety shall remain bound in respect of any liability for unpaid taxes, penalties, and interest, not in excess of the amount of the bond, incurred by the proprietor while the bond is in force.

§ 290.116 *Release of bonds, notes, and obligations.* Bonds, notes, and other obligations of the United States, pledged and deposited as security in connection with bonds required by this subpart, shall be released only in accordance with the provisions of Treasury Department Circular No. 154, revised (31 CFR Part 225). When the assistant regional commissioner who has accepted such security is satisfied that it is no longer necessary to hold such security, he shall fix the date or dates on which a part or all of such security may be released. At any time prior to the release of such security, the assistant regional commissioner may, for proper cause, extend the date of release of such security for such additional length of time as in his judgment may be appropriate.

(61 Stat. 646; 6 U. S. C. 15)

DISCONTINUANCE OF WAREHOUSES

§ 290.117 *Discontinuance of operations.* A proprietor who desires to discontinue operations and close out his warehouse shall dispose of all articles on hand, in accordance with this part, and make a closing inventory and closing report, in accordance with the provisions of §§ 290.93 and 290.95, respectively, to the assistant regional commissioner as notice of such discontinuance and to permit the assistant regional commisisoner to terminate the liability of the surety on the bond of the proprietor.

SUBPART E—SHIPMENTS OF TOBACCO MATERIALS BY DEALERS IN TOBACCO MATERIALS

§ 290.130 *Shipments for export*—(a) *Other than by parcel post.* Where a dealer in tobacco materials removes a shipment of tobacco materials, under his bond and this subpart, and forwards it directly to the port for lading and exportation, the dealer, or his forwarding or export agent at the port, shall prepare an extra copy of the shipper's export declaration, Commerce Form 7525–V, marked "For internal revenue purposes," which shall show the quantity of each kind of tobacco materials included in the shipment. This copy of the shipper's export declaration, after it has been completed by the customs authorities at the port to indicate exportation of the tobacco materials described thereon, shall be retained by the dealer as a part of the records of his establishment for two years after the close of the year in which the tobacco materials are removed. This copy of the shipper's export declaration shall be made available for inspection by any revenue officer upon his requst.

(b) *By parcel post.* Tobacco materials removed by a dealer in tobacco materials, under his bond and this subpart, for export by parcel post to a person in a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States, shall be addressed and consigned to such person when the tobacco materials are deposited in the mails. Waiver of his right to withdraw the shipment from the mails shall be endorsed on each package or parcel in the shipment and signd by the dealer in tobacco materials making the shipment. In any case where a shipper's export declaration, Commerce Form 7525–V, is not required to be executed by the dealer in connection with a shipment of tobacco materials for export by parcel post, he shall obtain from the postmaster or his agent a receipt on Post Office Department Form 3817. Such receipt shall be retained by the dealer at his establishment, as a part of the records thereof, for two years after the close of the year in which the shipment is deposited in the mails and shall be made available for inspection by any revenue officer upon his request.

SUBPART F—REMOVAL OF ARTICLES AND TOBACCO MATERIALS BY MANUFACTURERS, AND REMOVAL OF ARTICLES BY WAREHOUSE PROPRIETORS

§ 290.140 *Packages.* Articles and tobacco materials may be put up for removal under this subpart in any packages desired.

(68A Stat. 713; 26 U. S. C. 5723)

§ 290.141 *Lottery features.* No certificate, coupon, or other device purporting to be or to represent a ticket, chance, share, or an interest in, or dependent on, the event of a lottery shall be contained in, attached to, or stamped, marked, written, or printed on any package of articles or tobacco materials removed under this subpart.

(68A Stat. 713; 26 U. S. C. 5723)

§ 290.142 *Indecent or immoral material.* No indecent or immoral picture, print, or representation shall be contained in, attached to, or stamped, marked, written, or printed on any package of tobacco materials or articles removed under this subpart.

(68A Stat. 713; 26 U. S. C. 5723)

§ 290.143 *Label or notice.* Every package of articles, before removal from the factory, under this subpart, without payment of tax, shall have legibly imprinted thereon, or on a label securely affixed thereto, the words "For export purposes. U. S. Tax-exempt."

§ 290.144 *Shipping containers.* Each shipping case, crate, or other container, in which tobacco materials or articles are to be shipped or removed, under this subpart, without payment of tax, shall bear a number, such number to be assigned by the manufacturer. Removals of articles from a warehouse established under this part shall be made, in so far as practicable, in the same containers in which received from factories. However, where it is necessary to break a manufacturer's original shipping container to remove a portion of the contents for export, a new container shall be provided for the portion to be removed, which container shall be marked with the same number as the manufacturer's original container number followed by the letter "A" for the removal of the first portion thereof, "B" for the second portion, and so on as may be necessary.

§ 290.145 *Consignments of articles or tobacco materials*—(a) *General.* Articles and tobacco materials transferred or removed from a factory, or articles removed from a warehouse, under this subpart, without payment of tax, shall be consigned as hereafter required by this section.

(b) *To a warehouse.* Where articles are transferred under bond from a factory to a warehouse, the manufacturer shall consign the articles to the proprietor thereof.

(c) *To another warehouse or for return to the manufacturer.* Where articles are shipped under bond from a warehouse for transfer to another such warehouse, or for return to the manufacturer, the proprietor of the warehouse from which the articles are removed shall consign the articles to the proprietor of the warehouse or to the manufacturer to whom the articles are to be delivered.

(d) *To officers of the armed forces for subsequent exportation.* Where articles are removed from a factory or warehouse for delivery to officers of the armed forces in this country for shipment to, and use by, the armed forces outside the continental United States and the Territories of Alaska and Hawaii, the manufacturer or warehouse proprietor shall consign such articles to the receiving officer at the armed forces base or installation, in this country, to which the articles are to be delivered.

(e) *To vessels and aircraft for shipment to noncontiguous foreign countries and possessions of the United States.* Where articles or tobacco materials are removed from a factory, or articles are removed from a warehouse, for export to a noncontiguous foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States, the manufacturer or warehouse proprietor shall consign such articles or tobacco materials directly to the vessel or aircraft, or to his agent at the port for delivery to the vessel or aircraft.

(f) *To contiguous foreign countries.* Where articles or tobacco materials are removed from a factory, or articles are removed from a warehouse, for export to a person in a contiguous foreign country, the manufacturer or warehouse proprietor shall consign such shipment to the collector or deputy collector of customs at the border or other port of exit.

(g) *To Government vessels and aircraft for use as supplies.* When articles are removed from a factory or warehouse for delivery to a vessel or aircraft, engaged in an activity for the Government of the United States or a foreign government, for consumption or use as supplies beyond the jurisdiction of the internal revenue laws (3-mile limit of the continental United States and the Territories of Alaska and Hawaii), the manufacturer or warehouse proprietor shall consign such articles to the proper officer on board the vessel or aircraft to which the articles are to be delivered.

(h) *To commercial vessels and aircraft for use as supplies.* Where articles are removed from a factory or warehouse for delivery to a commercial vessel or aircraft for consumption or use as supplies beyond the jurisdiction of the internal revenue laws (3-mile limit of the continental United States and the Territories of Alaska and Hawaii), the manufacturer or warehouse proprietor shall consign such articles to the collector of customs at the port at which the articles will be laden on the vessel or aircraft.

(i) *For exportation by parcel post.* Articles or tobacco materials removed from a factory, or articles removed from a warehouse, for export by parcel post to a person in a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States, shall be addressed and consigned to such person when the articles or tobacco materials are deposited in the mails. Waiver of his right to withdraw such articles or materials from the mails shall be endorsed on each package or parcel in the shipment and be signed by the manufacturer or warehouse proprietor.

§ 290.146 *Notice of removal.* For each shipment of articles or tobacco materials transferred or removed under bond from his factory, under this subpart, the manufacturer shall prepare a notice of removal on Form 2149, and for each shipment of articles removed from his warehouse, the proprietor shall prepare a notice of removal on Form 2150. Each such notice shall be given a serial number by the manufacturer, or warehouse proprietor, in a series beginning with number 1, with respect to the first shipment removed from the factory or warehouse, under this subpart, and commencing again with number 1 on January 1 of each year thereafter.

§ 290.147 *Execution and disposition of notice of removal*—(a) *General.* After

actual removal from his factory or warehouse of the shipment described on the Form 2149, or Form 2150, required by § 290.146, the manufacturer or warehouse proprietor shall, except where the shipment is to be exported by parcel post, promptly forward one copy of the notice to the assistant regional commissioner for the region in which is located the factory or warehouse from which the shipment is removed. The manufacturer or warehouse proprietor shall enter on such copy of the notice the date of removal of the shipment described thereon. The manufacturer or warehouse proprietor shall retain one copy of such notice at his factory or warehouse, as a part of his records, for two years after the close of the year in which the related shipment was removed and such copy shall be made available for inspection by any revenue officer upon his request. The manufacturer or warehouse proprietor shall dispose of the other copies of each notice of removal as hereafter required by this section.

(b) *Shipment of articles from factory to warehouse.* Where articles are transferred under bond from a factory to a warehouse, the manufacturer shall forward to the proprietor three copies of the notice of removal, Form 2149, covering the shipment. Immediately upon receipt of the shipment at his warehouse, the proprietor shall check the containers comprising the same, ascertain that none show evidence of having been broken or tampered with, satisfy himself as to the contents, properly execute the certificate of receipt on each of the copies of the Form 2149, and forward one such copy to the manufacturer for disposition as provided by paragraph (j) of this section. The warehouse proprietor shall file one other such copy of the Form 2149 with his report, as required by § 290.95, and shall retain the other copy at his warehouse, as a part of his records, as required by § 290.94.

(c) *Shipment of articles to another warehouse or for return to the manufacturer.* Where articles are shipped under bond from a warehouse for transfer to another such warehouse or for return to the manufacturer, the proprietor of the warehouse from which the articles are shipped shall forward three copies of the notice of removal, Form 2150, to the proprietor of the receiving warehouse, or forward two copies of the notice to the manufacturer concerned. Immediately upon receipt of the shipment at his warehouse or factory, the proprietor or manufacturer shall check the containers to determine whether all of the articles described on the related notice have been received and shall then properly execute the certificate of receipt on each of the copies of the Form 2150, and forward one such copy to the proprietor making the shipment for disposition as provided by paragraph (j) of this section. The manufacturer receiving the articles into his factory shall retain the other receipted copy of the Form 2150, at his factory, as a part of his records, for two years after the close of the year in which the shipment was received. Such copy shall be made available for inspection by any revenue officer upon his request. The proprietor of the receiving warehouse shall file one copy of the completed Form 2150 with his report, as required by § 290.95, and shall retain the other completed copy at his warehouse, as part of his records, as required by § 290.94.

(d) *Shipment of articles to officers of the armed forces for subsequent exportation.* Where articles are removed from a factory or warehouse for delivery to officers of the armed forces in this country for shipment to, and use by, the armed forces outside the continental United States and the Territories of Alaska and Hawaii, the manufacturer or warehouse proprietor making the shipment shall be responsible for delivery of the shipment to the base or installation and for the proper execution of the certificate of receipt on a copy of the notice of removal, Form 2149, or Form 2150, by the officer at such base or installation responsible for receiving the shipment. After completing the certificate of receipt on such copy thereof the receiving officer shall return the form to the manufacturer or warehouse proprietor making the shipment for disposition as provided by paragraph (j) of this section.

(e) *Shipments to noncontiguous foreign countries and possessions of the United States*—(1) *Regular.* Where a shipment of articles or tobacco materials is removed from a factory, or a shipment of articles is removed from a warehouse, under this subpart, for direct delivery to a vessel or aircraft for transportation to a noncontiguous foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States, the manufacturer or warehouse proprietor making the shipment shall be responsible for delivery of the shipment to such vessel or aircraft. The manufacturer or warehouse proprietor shall file two copies of the appropriate notice of removal, Form 2149, or Form 2150, with the office of the collector of customs at the port where the shipment is laden for transportation to its destination. Such copies of the notice of removal should be filed with the related shipper's export declaration, Commerce Form 7525–V. In the event the copies of the notice of removal are not filed with the shipper's export declaration, when the copies of the notice of removal are filed with the collector of customs they shall show all particulars necessary to enable the collector to identify the shipment with the related shipper's export declaration and any other documents filed with his office in connection with the shipment. After the vessel or aircraft on which the shipment has been laden clears or departs from his port, the collector of customs shall execute the certificate of exportation on the notice of removal, retain one copy thereof for his records and deliver or transmit the other copy to the manufacturer or warehouse proprietor making the shipment for disposition by him as provided by paragraph (j) of this section.

(2) *Special.* Where a shipment of articles removed from a factory or warehouse, under this subpart, is destined for a noncontiguous foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States, but the shipment is to be delivered to a Federal department or agency, or to an authorized dispatch agent, transportation officer, or port director of such a department or agency for forwarding on to the place of destination of the shipment, the manufacturer or warehouse proprietor making the shipment shall furnish a copy of the related notice of removal, Form 2149, or Form 2150, to the Federal department or agency, or an officer thereof at the port, receiving the shipment for ultimate transmittal to the place of destination, in order that such department, agency, or officer, can properly modify and execute the certificate of receipt on such notice to evidence receipt of the shipment for transmittal to a place beyond the jurisdiction of the internal revenue laws of the United States. After completing such certificate, the Federal department, agency, or officer, shall return the copy of the notice of removal, so executed, to the manufacturer or warehouse proprietor concerned for disposition by him as provided by paragraph (j) of this section.

(f) *Shipment of articles and tobacco materials to a contiguous foreign country.* Where a shipment of articles or tobacco materials is removed from a factory, or a shipment of articles is removed from a warehouse, and consigned to a person in a contiguous foreign country, the manufacturer or warehouse proprietor making the shipment shall furnish to the collector or deputy collector of customs at the border or other port of exit of the shipment from the United States, through which the shipment will be routed, two copies of the notice of removal, Form 2149, or Form 2150, together with the related shipper's export declaration, Commerce Form 7525–V. In the event the copies of the notice of removal are not filed with the shipper's export declaration or, in the case of a shipment for the armed forces of the United States in the contiguous foreign country, where no shipper's export declaration is required, the copies of the notice of removal when filed with the collector of customs shall show all particulars necessary to enable the collector to identify the shipment with the related shipper's export declaration, if any, and any other documents filed with his office in connection with the shipment. After the shipment has been cleared by customs from the United States the customs authorities at the port of exit will complete the certificate of exportation on each copy of the Form 2149, or Form 2150, retain one copy thereof and transmit the other copy to the manufacturer or warehouse proprietor making the shipment for disposition by him as provided by paragraph (j) of this section.

(g) *Shipment of articles to Government vessels and aircraft for use as supplies.* Where articles are removed from a factory or warehouse for direct delivery to a vessel or aircraft, engaged in an activity for the Government of the United States or a foreign government, for consumption or use as supplies beyond the jurisdiction of the internal revenue laws of the United States, the manufacturer or warehouse proprietor making the shipment shall be responsible for delivery of the shipment aboard the vessel or aircraft and for the proper execution of the certificate of receipt on one copy of the notice of removal, Form 2149, or Form 2150, by the officer of the vessel or aircraft responsible for receiving the shipment. After completing such certificate of receipt the receiving officer of the vessel or aircraft shall return the form to the manufacturer or warehouse proprietor making the shipment for disposition by him as provided by paragraph (j) of this section.

(h) *Shipment of articles to commercial vessels and aircraft for use as supplies.* Where a shipment of articles is removed from a factory or warehouse, under this subpart, for delivery to a vessel or aircraft entitled to receive such articles for consumption or use thereon as supplies beyond the jurisdiction of the internal revenue laws of the United States, such shipment shall be inspected and laden on the vessel or aircraft under the supervision of the customs authorities at the port of actual lading. The manufacturer or warehouse proprietor making the shipment shall file two copies of the notice of removal, Form 2149, or Form 2150, with the office of the collector of customs at the port where the shipment is to be laden in sufficient time to permit the collector of customs to execute his order for inspection and lading thereon and to deliver such copies to the inspector of customs who will inspect the shipment and supervise its lading. The inspector of customs shall note on the copies of the notice of removal any discrepancy between the shipment inspected and laden under his supervision and that described on the notice of removal. After complying with the order for inspection and lading, the inspector shall complete and sign the certificate of inspection and lading on both copies of the notice of removal. Where the vessel or aircraft does not clear from the port at which the shipment is laden in foreign intercoastal, or noncontiguous trade, or to a port or destination beyond the jurisdiction of the internal revenue laws of the United States, the customs inspector supervising the lading of the shipment shall require the person on board the vessel or aircraft responsible for receiving the shipment to execute the certificate of receipt on the two copies of the notice of removal and to indicate thereon the trade or activity in which the vessel or aircraft is or will be engaged. The inspector of customs will return both copies of the notice to his collector who will retain one copy for his records and deliver or transmit the other copy to the manufacturer or warehouse proprietor making the shipment, for disposition by him as provided by paragraph (j) of this section. Where the vessel or aircraft clears or departs from the port at which the shipment is laden in foreign, intercoastal, or noncontiguous trade, or for some other destination beyond the jurisdiction of the internal revenue laws of the United States, the collector of customs shall also execute the certificate of clearance or departure on the copy of the related notice of removal before delivering or transmitting such copy to the manufacturer or warehouse proprietor concerned.

(i) *Shipment of articles and tobacco materials from factory or warehouse for export by parcel post.* Where a shipment of articles or tobacco materials is removed from a factory, or a shipment of articles is removed from a warehouse, for export by parcel post, the manufacturer or warehouse proprietor shall present one copy of the notice of removal, Form 2149, or Form 2150, together with the packages containing the shipment, to the postal authorities with the request that the postmaster or his agent execute the certificate of mailing on the form. The manufacturer or warehouse proprietor shall then dispose of the receipted copy as provided by paragraph (j) of this section.

(j) *Disposition of executed copies by manufacturers and proprietors.* The manufacturer or proprietor receiving a completed copy of a notice of removal, Form 2149, or Form 2150, shall immediately file such copy with the appropriate assistant regional commissioner.

§ 290.148 *Diversion of shipment to another consignee.* If, after removal of a shipment from a factory or warehouse, the manufacturer or warehouse proprietor desires to divert the shipment to another consignee he shall so notify the appropriate assistant regional commissioner. The manufacturer or warehouse proprietor shall describe the shipment, set forth the serial number and date of the notice of removal under which the shipment was removed from his factory or warehouse, furnish the name and address of the new consignee, and request the assistant regional commissioner to correct his copy of the notice of removal accordingly.

§ 290.149 *Return of shipment to factory or warehouse.* A manufacturer or warehouse proprietor may return to his factory or warehouse articles or tobacco materials previously removed therefrom, under this subpart, without internal revenue supervision when so authorized by the assistant regional commissioner. The manufacturer or warehouse proprietor shall, prior to returning the articles or materials to the bonded premises of his factory or warehouse, make application to the appropriate assistant regional commissioner for permission so to do, which application shall be accompanied by three copies of the Form 2149, or Form 2150, under which the articles or materials were orginally removed. If less than the entire shipment of articles or materials, as described on the form, is intended to be returned to the factory or warehouse, the application shall set forth accurately the articles or materials to be returned and shall show what disposition was made of the balance of the original shipment and any other facts pertinent to such shipment. If the assistant regional commissioner approves the application, he shall so indicate by appropriate endorsement to that effect on each of the three copies of the related Form 2149, or Form 2150, set forth the articles or materials for which return is approved, if less than all of the articles or materials described on the form, and return all three copies thereof to the manufacturer or warehouse proprietor. Upon receipt of the three copies of the form bearing the endorsement of the assistant regional commissioner, the manufacturer or warehouse proprietor shall proceed at once to take the articles or materials back into the bonded premises of his factory or warehouse, properly modify and execute the certificate of receipt on each copy of the related Form 2149, or Form 2150, and transmit one such copy at once to the assistant regional commissioner. With respect to the other two copies of the related form, the manufacturer or warehouse proprietor shall retain one copy for the records of his factory or warehouse and shall submit the other copy with his report for the month in which the articles or materials are returned.

§ 290.150 *Destruction of articles under official supervision.* Where the proprietor of a warehouse desires to destroy any of the articles stored in his warehouse, he shall notify the assistant regional commissioner of the kind and quantity of articles to be destroyed and the date on which he desires the destruction to take place in order that the assistant regional commissioner may detail a revenue officer to inspect the articles and supervise their destruction. The warehouse proprietor shall prepare a notice of removal, Form 2150, describing the articles to be destroyed. After witnessing the destruction of the articles the revenue officer will certify to their destruction on two copies of the notice of removal and return them to the proprietor. The proprietor shall file one such copy with his monthly report, as required by § 290.95, and shall retain the other copy at his warehouse, as a part of his records, for two years after the close of the year in which the articles are so destroyed. Such copy shall be made available for inspection by any revenue officer upon his request.

§ 290.151 *Delay in lading at port of exportation.* If, on arrival at the port of a shipment of articles or tobacco materials, the vessel or aircraft for which they are intended is not prepared to receive the shipment, such articles or materials may be properly stored at the port for not more than 30 days. In the event of any further delay, the facts shall be reported to the appropriate assistant regional commissioner and unless he approves an extension of time in which to effect lading and clearance of the shipment it must be returned to the factory or warehouse.

§ 290.152 *Foreign trade zones.* A manufacturer or warehouse proprietor may remove tobacco products and cigarette papers and tubes, under his bond, without payment of tax, for shipment to a foreign trade zone in accordance with the applicable provisions of Part 253 of this title.

### SUBPART G—DRAWBACK OF TAX

§ 290.160 *Application of drawback of tax.* Refund of tax by allowance of drawback shall apply only to tobacco products, on which tax has been paid, when such products are shipped to a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United

States. Such drawback shall be allowed only to the person who paid the tax on such products and who complies with the provisions of this subpart.

(68A Stat. 709, 908; 26 U. S. C. 5706, 7653)

§ 290.161 *Claim.* Claim for allowance of drawback of tax, under this subpart, shall be filed on Form 2147 with the assistant regional commissioner for the region in which the tobacco products covered by the claim are held by the claimant. Such claim shall be so filed in sufficient time to permit the assistant regional commissioner to detail a revenue officer to inspect the products and supervise destruction of the stamps to denote payment of tax, since the claim will not be allowed until such stamps have been so destroyed. Upon receipt of a claim supported by satisfactory bond, as required by this subpart, the assistant regional commissioner shall execute his order thereon and assign a revenue officer to proceed to the place where the products involved are held and there perform the functions required in § 290.163.

§ 290.162 *Drawback bond.* Each claim for allowance of drawback of tax, under this subpart, shall be accompanied by a bond, Form 2148, satisfactory to the assistant regional commissioner with whom the claim is filed. Such bond shall be in an amount not less than the amount of tax for which drawback is claimed, conditioned that the claimant shall furnish, within a reasonable time, evidence satisfactory to the assistant regional commissioner that the tobacco products have been landed at some port beyond the jurisdiction of the internal revenue laws of the United States, or that after clearance from the United States the products were lost (otherwise than by theft) or destroyed by fire, casualty, or act of God, and have not been relanded within the limits of the United States. The provisions of §§ 290.108 and 290.109 are applicable with respect to any drawback bond required under this section.

(68A Stat. 709; 26 U. S. C. 5706)

§ 290.163 *Inspection by revenue officer.* The revenue officer assigned in connection with a claim for drawback of tax, under this subpart, shall, at the place where the tobacco products covered by the claim are held by the claimant, examine such products and satisfy himself as to the accuracy of the schedule of such products appearing in the claim, Form 2147, and determine that the packages of such products bear proper stamps to denote payment of tax. The officer shall then supervise destruction of the stamps on the packages. No particular mode of destruction of such stamps is prescribed but the use of any indelible preparation which will render them illegible is approved. When the stamps have been properly destroyed, the revenue officer shall supervise the packing of the tobacco products in shipping containers, the numbering of each such container, and the affixture thereto of the following: "Drawback of tax claimed on products contained herein. Sale, consumption, or use in United States prohibited. Products subject to customs duty equal to tax if brought back into the United States.

After the claimant has completed the schedule, recapitulation, and affidavit on each copy of the claim, Form 2147, the revenue officer will execute his report on each copy of the claim, return two copies to the claimant, deliver one copy to the assistant regional commissioner, and release the shipment to the claimant for transmittal to the port of exportation.

§ 290.164 *Delivery of products for shipment to destination.*—(a) *Other than by parcel post.* The claimant, upon release of the tobacco products by the revenue officer for shipment with benefit of drawback of tax, under this subpart, will be responsible for delivery of such products at the port of exportation for customs inspection and supervision of lading and clearance of the products. The claimant, or his agent at said port, shall file with the collector of customs at the port of exportation in sufficient time, prior to lading, to permit his inspection and supervision of lading of the tobacco products, the two copies of the Form 2147 returned to the claimant by the revenue officer in accordance with § 290.163.

(b) *By parcel post.* Where the tobacco products are to be shipped by parcel post to a destination in a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States, the claimant shall endorse and sign on each container or parcel in the shipment a waiver of his right to withdraw such container or parcel from the mails, after which the claimant shall present the shipment to the post office. The claimant shall request the postmaster or his agent to execute the certificate of mailing on each of the two copies of the claim, Form 2147, returned to the claimant by the revenue officer in accordance with § 290.163. When so executed by the postal authorities the two copies of the Form 2147 shall be transmitted at once to the assistant regional commissioner with whom the form was previously filed.

§ 290.165 *Customs procedure.* The inspector of customs shall satisfy himself that the tobacco products described on the Form 2147 and those inspected by him are the same, and shall note on the form any discrepancy. After having inspected the products and supervised the lading thereof on the export carrier, the inspector shall complete and sign the certificate of inspection and lading on each copy of the Form 2147, and then deliver or transmit such copies of the form to the office of his collector of customs for further processing. After clearance from the port of the export carrier on which the products are laden, the collector of customs shall execute the certificate of exportation on both copies of Form 2147. The collector shall retain one copy of the form for his record and transmit the other copy to the assistant regional commissioner of the region from which the products were shipped.

(68A Stat. 709; 26 U. S. C. 5706)

§ 290.166 *Landing certificate.* Each claimant for drawback under this subpart agrees in the bond filed by him that he will furnish, within a reasonable time, evidence satisfactory to the assistant regional commissioner that the tobacco products covered by his claim have been landed at some port beyond the jurisdiction of the internal revenue laws of the United States, or that after shipment from the United States the products were lost, and have not been relanded within the limits of the United States. The landing certificate shall accurately describe the products involved, so as to readily identify the drawback claim to which it relates. The landing certificate shall be signed by a revenue officer at the place of destination, unless it is shown that no such officer can furnish such landing certificate, in which case the certificate of landing shall be signed by the consignee, or by the vessel's agent at the place of landing, and shall be sworn to before a notary public or other officer authorized to administer oaths and having an official seal. The landing certificate shall be filed with the assistant regional commissioner, with whom the drawback claim was filed, within six months from the date of clearance of the tobacco products from the United States. A landing certificate prepared in a foreign language shall be accompanied by an accurate translation thereof in English.

(68A Stat. 709; 26 U. S. C. 5706)

§ 290.167 *Collateral evidence as to landing.* In case of inability to furnish the prescribed evidence of landing, application for relief shall be made by the claimant to the assistant regional commissioner with whom the drawback claim and bond were filed. Such application shall set forth the facts connected with the alleged exportation, and indicate the date of shipment, the kind, quantity, and value of tobacco products shipped, the name of the consignee, and the name of the vessel by, and the port or place of destination to which the shipment was made, and the date and amount of the bond covering such shipment. The application shall also state in what particular the provisions of this subpart, respecting the proofs of landing, have not been complied with, and the cause of failure to furnish such proofs; that such failure was not occasioned by any lack of diligence on the part of the claimant, or that of his agents; and that he is unable to furnish any other or better evidence than that furnished with his application. Each such application shall be supported by the best collateral evidence the claimant may be able to submit. The evidence may consist of the original or verified copies of letters from the consignee advising the claimant of the arrival or sale of the tobacco products, with such other statements respecting the failure to furnish the prescribed evidence of landing as may be obtained from the consignee or other persons having knowledge thereof. Such letters and other documents in a foreign language shall be accompanied by accurate translations thereof in English, and, when the letters fail to identify sufficiently the tobacco products, the original sales account must be produced.

(68A Stat. 709; 26 U. S. C. 5706)

§ 290.168 *Proof of loss.* When the claimant is unable to procure a certificate of landing, in accordance with the provisions of § 290.166, in consequence of loss of the tobacco products, his application for relief shall set forth the extent of the loss and, if possible, the location and manner of shipwreck or other casualty and the time of its occurrence. When obtainable, affidavits of the vessel's owners should be furnished detailing the manner and extent of the loss and the time and location of the disaster. If the tobacco products were insured, the claimant shall furnish certificates by officers of the insurance companies that the insurance has been paid, and that, to the best of their knowledge and belief, the products were actually destroyed. The aforesaid proof shall be furnished to the assistant regional commissioner within six months from the date of clearance of the tobacco products from the United States.

(68A Stat. 709; 26 U. S. C. 5706)

§ 290.169 *Extension of time.* In case the claimant, from causes beyond his control, is unable to furnish the landing certificate or proof of loss, within the time prescribed therefor, he may make an application to the assistant regional commissioner for an extension of time in which to do so. Such application must state specifically the cause of failure to furnish the evidence. Two extensions of three months each may be granted by the assistant regional commissioner, provided the surety on the drawback bond of the claimant assents in writing thereto.

(68A Stat. 709; 26 U. S. C. 5706)

## SUBPART H—WITHDRAWAL OF CIGARS FROM CUSTOMS WAREHOUSES

§ 290.180 *Shipment restricted.* Only cigars produced in customs warehouses of imported tobacco on which the duties have been paid may be withdrawn under this subpart, without payment of tax, for export to a foreign country or a possession of the United States. Such duties paid may not be recovered on cigars withdrawn under this subpart. Cigars produced in customs warehouses of imported tobacco on which the customs duties have not been paid must be withdrawn in accordance with customs regulations and procedure.

§ 290.181 *Bond.* Where the customs warehouse proprietor desires to withdraw cigars from his warehouse, without payment of tax, under this subpart, he shall, prior to making the first withdrawal, file with the assistant regional commissioner a bond, Form 2104, conditioned upon compliance with the provisions of Chapter 52, I. R. C., and of this part, including, but not limited to, the timely payment of taxes imposed by such chapter and penalties and interest in connection therewith for which he may become liable to the United States. The provisions of §§ 290.108 and 290.109 are applicable to the bond required under this section.

§ 290.182 *Amount of bond.* The amount of the bond required to be filed by the customs warehouse proprietor, as required by § 290.181, shall be not less than the estimated amount of tax which may at any time constitute a charge against the bond: *Provided*, That the amount of any such bond (or the total amount where original and strengthening bonds are filed) shall not exceed $25,000 nor be less than $1,000. The charge against such bond shall be subject to increase as withdrawals are made and decrease as required evidence of exportation is received by the assistant regional commissioner with respect to cigars withdrawn. When the limit of liability under a bond given in less than the maximum amount has been reached, further withdrawals shall not be made thereunder until a strengthening or superseding bond is filed, as required by §§ 290.183 or 290.184.

§ 290.183 *Strengthening bond.* Where the assistant regional commissioner determines that the amount of the bond, under which the customs warehouse proprietor is withdrawing cigars for shipment under this subpart, no longer adequately protects the revenue, and such bond is in an amount of less than $25,000, the assistant regional commissioner may require the proprietor to file a strengthening bond in an appropriate amount with the same surety as that on the bond already in effect, in lieu of a superseding bond to cover the full liability on the basis of § 290.182. The assistant regional commissioner shall refuse to approve any strengthening bond where any notation is made thereon which is intended or which may be construed as a release of any former bond, or as limiting the amount of either bond to less than its full amount. Such strengthening bond shall have placed thereon, by the obligors at the time of execution, the notation "Strengthening Bond."

§ 290.184 *Superseding bond.* The customs warehouse proprietor shall file a new bond to supersede his current bond, immediately when (a) the corporate surety on the current bond becomes insolvent, (b) the assistant regional commissioner approves a request from the surety on the current bond to terminate his liability under the bond, (c) payment of any liability under a bond is made by the surety thereon, or (d) the assistant regional commissioner considers such a superseding bond necessary for the protection of the revenue.

§ 290.185 *Termination of liability of surety under bond.* The liability of a surety on any bond required by this subpart shall be terminated only as to operations on and after the date of approval of a superseding bond, or the date of approval of the customs warehouse proprietor's request for termination, or otherwise, in accordance with the termination provisions of the bond. The surety shall remain bound in respect of any liability for unpaid taxes, penalties, and interest, not in excess of the amount of the bond, incurred by the proprietor while the bond is in force.

§ 290.186 *Packages.* Cigars may be put up for withdrawal under this subpart in any packages desired.

(68A Stat. 713; 26 U. S. C. 5723)

§ 290.187 *Lottery features.* No certificate, coupon, or other device purporting to be or to represent a ticket, chance, share, or an interest in, or dependent on, the event of a lottery shall be contained in, attached to, or stamped, marked, written, or printed on any package of cigars withdrawn under this subpart.

(68A Stat. 713; 26 U. S. C. 5723)

§ 290.188 *Indecent or immoral material.* No indecent or immoral picture, print, or representation shall be contained in, attached to, or stamped, marked, written, or printed on any package of cigars withdrawn under this subpart.

(68A Stat. 713; 26 U. S. C. 5723)

§ 290.189 *Label or notice.* Every package of cigars before removal from the customs warehouse, under this subpart, without payment of tax, shall have legibly imprinted thereon, or on a label securely affixed thereto, the words "For export purposes. U. S. Tax-exempt."

§ 290.190 *Shipping containers.* Each shipping case, crate, or other container in which cigars are to be withdrawn, under this subpart, shall bear a number, such number to be assigned by the customs warehouse proprietor.

§ 290.191 *Notice of removal.* For each shipment to be withdrawn under this subpart, the customs warehouse proprietor shall prepare a notice of removal on Form 2149. Each such notice shall be given a serial number by the proprietor in a series beginning with number 1, with respect to the first shipment withdrawn, under this subpart, and commencing again with number 1 on January 1 of each year thereafter.

§ 290.192 *Execution and disposition of notice of removal.*—(a) *General.* After actual withdrawal from his warehouse of the shipment described on the Form 2149, required by § 290.191, the customs warehouse proprietor shall, except where the shipment is to be exported by parcel post, promptly forward one copy of the notice to the assistant regional commissioner for the region in which is located the customs warehouse from which the shipment is withdrawn. The customs warehouse proprietor shall enter on such copy of the form the date of withdrawal of the shipment described thereon. The proprietor shall retain one copy of such notice at his warehouse, as a part of his records, for two years after the close of the year in which the shipment was withdrawn and such copy shall be made available for inspection by any revenue officer upon his request. The proprietor shall dispose of the other copies of the Form 2149 as hereafter required by this section.

(b) *Cigars withdrawn for export to noncontiguous foreign countries and possessions of the United States.*—(1) *Regular.* Where cigars are withdrawn from a warehouse, under this subpart, for direct delivery to a vessel or aircraft for transportation to a noncontiguous foreign country or to a possession of the United States, the customs warehouse proprietor making the withdrawal shall be responsible for delivery of the shipment to such

vessel or aircraft. The customs warehouse proprietor shall file two copies of the notice of removal, Form 2149, with the office of the collector of customs at the port where the shipment is laden for transportation to its destination. Such copies of the notice of removal shall be filed with the related shipper's export declaration, Commerce Form 7525–V. In the event the copies of the notice of removal are not filed with the shipper's export declaration, when the copies of the notice of removal are filed with the collector of customs they shall show all particulars necessary to enable the collector to identify the shipment with the related shipper's export declaration and any other documents filed with his office in connection with the shipment. After the vessel or aircraft on which the shipment has been laden clears or departs from his port, the collector of customs shall execute the certificate of exportation on the notice of removal, retain one copy thereof for his records and deliver or transmit the other copy to the customs warehouse proprietor making the shipment for disposition as provided by paragraph (e) of this section.

(2) *Special.* Where a shipment of cigars withdrawn from a warehouse, under this subpart, is destined for a noncontiguous foreign country or a possession of the United States, but the shipment is to be delivered to a Federal department or agency, or port director of such a department or agency for forwarding on to the place of destination of the shipment, the customs warehouse proprietor making the shipment shall furnish a copy of the notice of removal, Form 2149, to the Federal department or agency, or an officer thereof at the port, receiving the shipment for ultimate transmittal to the place of destination, in order that such department, agency, or officer can properly modify and execute the certificate of receipt on such notice to evidence receipt of the shipment for transmittal to a place beyond the jurisdiction of the internal revenue laws of the United States. After completing such certificate, the Federal department, agency, or officer, shall return the copy of the notice of removal, so executed, to the customs warehouse proprietor concerned for disposition by him as provided by paragraph (e) of this section.

(c) *Cigars withdrawn for export to a contiguous foreign country.* Where cigars are withdrawn from a customs warehouse and consigned to a person in a contiguous foreign country, the customs warehouse proprietor shall furnish to the collector or deputy collector of customs at the border or other port of exit of the shipment from the United States, through which the shipment will be routed, two copies of the notice of removal, Form 2149, together with the related shipper's export declaration, Commerce Form 7525–V. In the event the copies of the notice of removal are not filed with the shipper's export declaration or, in the case of a shipment for the armed forces of the United States in the contiguous foreign country, where no shipper's export declaration is required, the copies of the notice of removal when filed with the collector of customs shall show all particulars necessary to enable the collector to identify the shipment with the related shipper's export declaration, if any, and any other documents filed with his office in connection with the shipment. After the shipment has been cleared by customs from the United States the customs authorities at the port of exit will complete the certificate of exportation on each copy of the Form 2149, retain one copy thereof and transmit the other copy to the customs warehouse proprietor making the shipment for disposition by him as provided by paragraph (e) of this section.

(d) *Cigars withdrawn for export by parcel post.* Where cigars are withdrawn from a customs warehouse for export by parcel post, the customs warehouse proprietor shall present one copy of the notice of removal, Form 2149, to the postal authorities, together with the packages containing the cigars, with the request that the postmaster or his agent execute the certificate of mailing on the notice. The customs warehouse proprietor shall dispose of the receipted copy as provided by paragraph (e) of this section.

(e) *Disposition of executed copies by customs warehouse proprietors.* The customs warehouse proprietor receiving a completed copy of the notice of removal, Form 2149, shall immediately file such copy with the appropriate assistant regional commissioner.

§ 290.193 *Return of shipment to warehouse.* A customs warehouse proprietor may return to his warehouse cigars previously withdrawn therefrom, under this subpart, provided he promptly files with the appropriate assistant regional commissioner a copy of the Form 2149 under which the cigars were originally withdrawn, with the certificate of receipt properly modified and executed by the customs officer in charge of the warehouse to show return of the shipment. If less than the entire shipment is returned to the warehouse, the form shall state what disposition was made of the balance of the original shipment and any other facts pertinent to such shipment. The customs warehouse proprietor shall retain a copy of such form for the records of his warehouse for two years after the close of the year in which the shipment was returned. Such copy shall be made available for inspection by any revenue officer upon his request.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 961 ]

[Docket No. AO–160–A18]

HANDLING OF MILK IN PHILADELPHIA, PA., MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVELY APPROVED MARKETING AGREEMENT AND TO ORDER AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the opening of a public hearing to be held in Courtroom No. 7, Room 3018, United States Courthouse, Ninth and Market Streets, Philadelphia, Pennsylvania, beginning at 10:00 a. m., e. d. s. t., June 11, 1956 for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture, and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Proposals Nos. 1 and 6 relative to the enlargement of the marketing areas, raise the issue as to whether the present provisions of the order would tend to effectuate the declared policy of the act if applied to the marketing area as proposed to be extended, or if not, what modifications of such provisions are appropriate to effectuate the declared policy of the act.

By the Milk Distributors Association of the Philadelphia Area, Inc.:

1. Extend the Philadelphia marketing area to include that portion of Bucks County, Pennsylvania, south and southeast of and including the following townships: Plumstead, Bedminster, East Rockhill and West Rockhill, and the portion of Montgomery County, Pennsylvania, south and southeast of and including the townships of Salford, Upper Salford, Lower Frederick and Limerick and the following boroughs and townships in Chester County, Pennsylvania: The Boroughs of Spring City, Phoenixville, West Chester and Malvern and the Townships of Tredyffrin, Easttown, Willistown, East Goshen, West Goshen, Westtown and Thornbury; and the remaining part of Philadelphia County, Pennsylvania, not already included in the marketing area.

2. Amend the Class I pricing provisions to provide a Class I price for milk disposed of in the proposed area of extension 15 cents per hundredweight less than the Class I price applicable to milk sold in the present marketing area.

3. Delete from the list of named plants set forth in § 961.6 (a) the plants at Pottstown, Pennsylvania, Byers, Pennsylvania, and Port Allegany, Pennsylvania, and add to the list of such named plants, the plant at Nassau, Delaware, and make such other changes as may be necessary to bring the list of plants up to date.

4. Provide for increased making allowances during each March, April, May and June for Class II milk in § 961.40 (b) and reconsider § 961.31 (b) and § 961.40 (b) to provide for a permanent classification and pricing of low value products during March, April, May and June.

5. Reconsider the butterfat differentials to be used in calculating values of milk of differing butterfat content, as received from individual producers, and as disposed of in various uses by handlers.

By Inter-State Milk Producers' Cooperative:

6. Extend the Philadelphia marketing area to include all or part of the following townships and boroughs, all in Pennsylvania; balance of Philadelphia City and County, Bensalem, Bristol, Falls, Lower Southampton, Middletown, Lower Makefield, Upper Southampton, Northampton, Newtown, Upper Makefield, Wrightstown, Warwick, Warminster, and Warrington and the boroughs and cities therein, all in Bucks County; balance of Upper Moreland, Horsham, Montgomery, Hatfield, Upper Salford, Lower Salford, Towamencin, Upper Gwynedd, Lower Gwynedd, Upper Dublin, Whitemarsh, Whitpain, Worcester, Skippack, Lower Frederick, Limerick, Upper Providence, Lower Providence, East Norriton, West Norriton, Upper Merion, Plymouth, and the boroughs and cities therein all in Montgomery County; Tredyffrin, Easttown, Willistown, East Goshen, West Goshen, Westtown, Thornbury, and all the boroughs and cities therein and Spring City, Phoenixville and West Chester, all in Chester County.

7. Consider defining "producer" (for pooling purposes) with respect to deliveries through the bulk tank system.

8. Bring up-to-date the list of named plants in § 961.6 (a).

9. Reconsider the Class I pricing formula, first, with respect to an adjustment in the table entitled "Class I Price Schedule—Class I Price Per Hundredweight" § 961.40 (a) (6), and second, with respect to the deletion of the supply-demand adjustment, § 961.40 (a) (7) and (8).

10. Reconsider the handler (§ 961.41) and producer (§ 961.82) butterfat differentials.

11. Provide a butterfat differential premium to be charged handlers for Class I sales with a butterfat content in excess of 4.0 percent, except for such sales qualifying for the premiums in § 961.85 and for such sales which are clearly designated with a nationally registered breed trademark.

12. Delete § 961.84, additional deductions. (Nearby location differentials.)

By Oakland Farms:

13. Provide for the classification of cream as a Class I product with a separate pricing for cream. Amend also, all relevant provisions of the order with respect to the definition of a producer milk plant to include the shipment of cream into the marketing area.

14. Provide for the classification as Class I, all milk or butterfat entering the marketing area except that milk moved directly from producers' farms.

15. Amend § 961.42 to provide for the payment of Class I differential in series beginning with the plant nearest the marketing area and eliminate differentials on Class II milk.

By Chester County Dairymen's Cooperative Association, United Farmers Cooperative and Southern York County Dairymen's Association:

16. Review the provisions of §§ 961.41 (a) and (b), 961.83, and 961.85 relating to handler and producer butterfat differentials.

17. Review the Class I pricing formula as set forth in § 961.40 (a), particularly with respect to including an index reflecting farm labor costs.

By Southern York County Dairymen's Association:

18. Revise the Class II pricing formula to bring about an increase in Class II price to compensate for increased milk production costs.

By Borden's Farm Products of New Jersey, Inc.

19. Provide an out-of-area price for milk purchased from producers and sold outside the defined marketing area.

20. Frame the producer milk plant definition in a manner which will permit the continued receipts of unregulated milk from other dealers.

By Mifflin Creamery Company, Inc., Lancaster Milk Company, Lancaster Milk Company, Inc., W. M. Evans Dairy Company, Inc., Christiana Milk Products Company, Inc., Tri-County Dairy Company, Inc., The H. E. Koontz Creamery, Inc., and Grover Farms, Inc.:

21. Amend the order to provide for the payment to producers through the medium of a marketwide pool.

22. Amend § 961.6 (c) by deleting the present language and substituting therefor the following:

(c) Any other plant from which milk is supplied to a pasteurizing or bottling plant described in paragraph (b) of this section: *Provided*, That any such other plant shall not be included in this definition during any month in which there is shipped from the plant only Class II milk as defined in § 961.31 or during any of the months of October, November, December, and January in which less than 100,000 pounds of milk are shipped into the marketing area and allocated to Class I to such pasteurizing or bottling plant or to a plant or plants supplying such pasteurizing or bottling plant.

Proposed by the Dairy Division:

23. Consider standardization of the language of the definition and administrative provisions of the order.

24. Make such other changes as may be required to make the marketing agreement and order in their entirety conform with any amendment thereto that may result from this hearing.

Copies of this notice of hearing and of the order as now in effect may be procured from the market administrator, 1612 Market Street, Philadelphia 3, Pennsylvania, or from the Hearing Clerk, Administration Building, United States Department of Agriculture, Room 112, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 17th day of May 1956.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

## CIVIL AERONAUTICS BOARD

### [ 14 CFR Part 1 ]

[Draft Release No. 56–13]

AIRCRAFT IDENTIFICATION MARKINGS

EXTENSION OF JULY 27, 1956, DATE

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board a Special Civil Air Regulation extending the July 27, 1956, deadline date for identification of fixed-wing aircraft in accordance with Special Civil Air Regulation No. SR–412.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by July 2, 1956. Copies of such communications will be available after July 5, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Some time ago, the Department of Defense advised the Board that the size and location of identification markings on civil aircraft made it necessary for military aircraft to reduce their speed to approximately that of civil aircraft when making interceptions in restricted areas; and that, as a consequence, interceptors such as the F–86D were required to make identifications at less than a safe maneuverable speed. For this reason, the Department concluded that civil aircraft should be identified from the side, rather than from above or below, since the latter procedures were considered too hazardous. Accordingly, the Department of Defense recommended that larger identification markings be required on the side surfaces of civil aircraft.

In view of the foregoing information and recommendations, a notice of proposed rule making was published in the FEDERAL REGISTER (20 F. R. 1225) and circulated as Civil Air Regulations Draft Release No. 55–7, dated February 18, 1955, which proposed, among other things, the deletion of the requirement in Part 1 of the Civil Air Regulations for wing and tail surface markings on fixed-wing aircraft. In lieu thereof, it proposed to require that larger identification markings be displayed horizontally either on the fuselage side or vertical tail surfaces of all fixed-wing aircraft after January 1, 1960.

Analysis of the comment received in response to Draft Release No. 55–7 revealed that the great majority of those who commented challenged the justification made for the proposed amendment. However, prior to and following the publication of the proposal, the Board received requests from many aircraft operators for waivers of certain of the identification marking requirements prescribed in Part 1. In view of these requests, and the Board's desire to obtain additional information which would be of value in making a final decision with respect to identification marking requirements, the Board was of the opinion that persons who desired to do so should be permitted to display, for a temporary period, larger identification markings on either the fuselage side or vertical tail surfaces of fixed-wing aircraft in lieu of upper and lower wing surface markings and small tail surface markings.

Accordingly, the Board promulgated Special Civil Air Regulation No. SR–412 which permits, until July 27, 1956, identification marks to be affixed to the fuselage side or vertical tail surfaces in lieu of the markings required by Part 1.

Since SR–412 became effective, many persons have availed themselves of its provisions; however, the Bureau has been advised that, if SR–412 is amended to allow an extension beyond the present date of July 27, 1956, for affixing the markings, one scheduled air carrier and possibly more will take advantage of this regulation. The Bureau is of the opinion that such an extension should be granted in order that additional information may be obtained on which to base a final decision.

Persons who choose to display identification markings in accordance with the amended regulation proposed herein will be required to affix the markings to their aircraft before July 27, 1956. Since this regulation will remain in effect for a period of 4 years from its effective date, unless sooner superseded or rescinded, those who affix identification markings in accordance with this proposed regulation can be assured of being able to continue to display such markings for a period of at least 2 years.

It would be of value to the Board if those persons who display identification markings on their aircraft in accordance with this regulation submit to the Board photographs or sketches of their aircraft displaying such markings, and also their comments as to the effect such markings have on ground-to-air and air-to-air identification of their aircraft. All such information should be addressed to the Civil Aeronautics Board, attention of Bureau of Safety Regulation, Washington 25, D. C.

Accordingly, it is proposed to issue a Special Civil Air Regulation effective July 28, 1956, to read as follows:

Contrary provisions of §§ 1.102 (a) and 1.103 (a) of Part 1 of the Civil Air Regulations notwithstanding, identification markings may be removed from the upper and lower wing surfaces provided that vertical tail or fuselage markings are affixed in accordance with the following:

1. The markings shall be placed horizontally and the letters and numbers shall be of equal height not less than 12 inches high.

2. If on the sides of the fuselage, the markings shall be displayed on both sides of the fuselage in an area between the wing trailing edge and the horizontal stabilizer leading edge.

3. If on the vertical tail, the markings shall be displayed on both sides of a single vertical tail surface or on the outer sides of multitail surfaces.

4. Identification markings may be affixed in accordance with the foregoing provisions until July 27, 1958.

5. Identification markings affixed in accordance with the foregoing provisions may be displayed until the termination date of this special regulation.

It is proposed that this regulation supersede Special Civil Air Regulation No. SR–412, and be effective for a period of 4 years.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205 (a) 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended; 49 U. S. C. 551–560)

Dated at Washington, D. C., May 16, 1956.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN, *Director.*

## [ 14 CFR Parts 3, 4b, 6, 7, 40, 41, 42, 43, 45 ]

[Special Civil Air Regulation No. SR–392A]

[Draft Release No. 56–12]

### POSITION AND ANTI-COLLISION LIGHT REQUIREMENTS AND FACILITATION OF EXPERIMENTS WITH EXTERIOR LIGHTING SYSTEMS

### NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of amendments to Parts 3, 4b, 6, Proposed Part 7, and Special Civil Air Regulation No. SR–392A as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by July 25, 1956. Copies of such communications will be available after July 30, 1956, for examination by interested persons in the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

The continuing increase in air traffic density and the advent of airplanes capable of appreciably higher speeds than heretofore attained demand further improvements in the exterior lighting of aircraft. The presently effective regulations in Parts 3, 4b, and 6 of the Civil Air Regulations require the installation of position lights and prescribe certain specifications for such lights. There are also contained in the regulations in these same parts certain specifications for anti-collision lights, and there is a regulatory requirement in Parts 40, 41, 42, and 43 that they be installed on all airplanes of more than 12,500 pounds by May 31, 1956. In addition, Special Civil Air Regulation No. SR–392A permits under certain conditions experimentation with exterior lights which do not conform to the specifications in the regulations.

Recent experience with exterior lighting systems indicates the need for a thorough re-evaluation of the pertinent regulations. The main issues are concerned with: (1) The specifications for anti-collision lights; (2) the specifications for position lights, and (3) the facilitation of experiments with exterior lighting systems. These three issues are being made the subject of specific proposals which follow.

In summary, it is being proposed herein to establish new specifications for anti-collision lights and to revise the specifications for position lights by eliminating the use of flashers and, in dual circuit systems, the fuselage and red tail lights. These new specifications for anti-collision and position lights are proposed to be applicable to all future new type aircraft regardless of category. Although the new specifications could be used on present aircraft, such use would be on a voluntary basis, and it is proposed that presently approved systems be allowed to be used indefinitely. In addition, it is being proposed to permit further experimentation with exterior lighting on both air carrier and non-air-carrier aircraft, rather than on only air carrier aircraft.

A. *Specifications for anti-collision lights.* At the present time the specifications for anti-collision lights are contained in § 4b.637 of Part 4b of the Civil Air Regulations applicable to transport category airplanes. The Administrator of Civil Aeronautics has made these specifications applicable in the approval of anti-collision lights not only on large airplanes but also on small airplanes and on rotorcraft. Practical considerations in the future might indicate the advisability of some difference in details between the specifications for large aircraft and the smaller ones. For this reason, it is proposed not only to re-evaluate the specifications contained in Part 4b but also to include specifications in the airworthiness parts of the regulations for smaller airplanes and for rotorcraft. Following is a discussion of the pertinent technical issues involved and the specific proposals for new anti-collision light specifications for inclusion in Parts 3, 4b, 6, and 7 of the Civil Air Regulations.

NOTE: Action by the Board is now pending with respect to Part 7 dealing with transport category rotorcraft.

The presently effective specifications for anti-collision lights contained in § 4b.637 were established a few years ago and reflect the state-of-the-art as of that time. They were based upon conclusions reached from experimentation and studies conducted by both industry and Government. The use on a relatively large number of aircrafts of lights conforming to these specifications has revealed certain shortcomings in the specifications. Furthermore, during the past year or so experimentation has led to the development of condenser-discharge type lights which appear to have certain advantageous features. The inherent characteristics of such lights, however, do not permit compliance with certain of the specifications presently contained in § 4b.637. Thus, the purpose of the re-evaluation of these specifications is to take into account more recent experience with anti-collision lights and to broaden the

specifications to reflect some of the characteristics of the condenser-discharge lights. The Bureau considers that both the incandescent and the condenser-discharge lights have sufficient advantages to permit their use, providing of course, that the design features essential in an effective anti-collision light system are incorporated.

As a result of various reports of experiments and studies conducted, as well as specific recommendations submitted, the following technical issues need particular consideration in evaluating proper specifications for anti-collision lights.

1. *Flash frequencies.* From tests on representative type flashing lights it was found some time ago that the optimum flash frequencies from the standpoint of attention attraction were of the order of 60–80 flashes per minute. However, further tests indicated that flash frequencies beyond these limits were also satisfactory. The presently effective regulations for anti-collision lights require that the frequencies be between the limits of 40 and 100 flashes per minute. More recently new experimental type lights operated at frequencies higher than the 100 flashes per minute indicate that even at 180 flashes per minute the individual flashes are clearly distinguishable. As a matter of fact, experience with the presently approved type lights which have been in service for some time indicates that the upper flash frequency limit can be raised without undue loss of conspicuity. On a number of airplanes these lights have been installed in pairs, one light on top and one on the bottom of the fuselage. The frequency of the individual light is about 90 flashes per minute; however, in the overlap areas in and adjacent to the horizontal plane, the effective frequency becomes 180 flashes per minute. No adverse experience has been indicated as a result of these higher frequencies and, therefore, a recently adopted amendment to the regulations permits flash frequencies in overlap areas to exceed the prescribed limit of 100 flashes per minute. For these reasons, it is proposed to extend the upper limit of flash frequencies from 100 to 180 flashes per minute. With respect to the lower limit, the Bureau can find no substantiation at this time for either lowering or raising it.

2. *Field of coverage.* The various positions in which two aircraft can find themselves with respect to each other calls ideally for an exterior lighting systerm visible throughout the complete sphere of the aircraft. However, practical difficulties with most of the anti-collision light systems make this extremely difficult of accomplishment without the installation of a large number of individual light units. Requiring such a step would not be justified in view of the fact that the posiiton lights on an aircraft are such as to cover approximately the complete sphere. Thus the additional conspicuity from an anti-collision light can best be utilized by covering more effectively the area in the horizontal plane, including reasonable angles above and below the horizontal. It has been recommended to the Bureau that the field of coverage by an anti-collision light system include all angles from 30° above to 30° below the horizontal. It was further recommended that an arc or arcs of invisibility totalling no more than 6° be permitted to the rear of the aircraft. This obviously is in consideration of the vertical tail (or tails) which would obscure a light installed on top of the fuselage. The combined effect of these two recommendations would be to permit a region of invisibility expressed in terms of solid angles of about 0.03 steradians within a region of about 0.15 steradians in the rearward direction. The prescribed field of coverage to extend around the aircraft from 30° above to 30° below the horizontal would in practice require the installation of either one light on top of the fin or, more probably, two lights on the fuselage, one on top and the other on the bottom.

3. *Light intensities.* The presently effective regulation does not specify the minimum required intensities for anti-collision lights. With the advent of a variety of anti-collision light types utilizing a relatively wide range of flash frequencies and on-off ratios, it appears necessary to establish a minimum standard of light intensity. When light is flashed at intervals and the duration of each flash is short, the reaction of the light on the human eye is such that the "effective" intensity is smaller than the actual intensity of the same light when it is on steady. This notwithstanding the fact that when measured photometrically the intensity of the steady light might be exactly the same as the peak intensity of the flashing light. Experimental determination of the constant for the well known Blondel-Rey expression indicates, for flash durations such as can be expected in anti-collision lights, the following relation between the effective intensity and the actual (steady light) beam intensity as a function of flash duration:

$$I_e = \frac{\int_{t_1}^{t_2} I(t)\,dt}{0.2 + (t_2 - t_1)};$$

where $I(t)$ is the instantaneous intensity as a function of time, and $(t_2 - t_1)$ is the time interval of flash.

It is proposed to prescribe minimum effective light intensities varying from 100 candles at the horizontal plane of the aircraft to 10 candles at 30° above and 30° below the horizontal. It is believed that these minimum effective intensities are well within the effective intensities being attained on anti-collision lights now used. It is possible that further information obtained in response to this notice of proposed rule making will indicate a need for somewhat higher values.

4. *Color.* The presently specified color in the regulations for anti-collision lights is aviation red. This color was chosen after extensive experimentation. Until recently there was generally uniform agreement throughout the industry and interested Government agencies that the red color would be the most effective in an anti-collision light. With the advent of the condenser-discharge type lights it has been suggested in some quarters that a white light with a color temperature in the vicinity of 6,000–8,000 degrees Kelvin would be more effective than a red light. The proponents of this color light offer principally two advantages. The first is that a condenser-discharge white light is reacted to by the human eye over a wider periphery than a red light. The second is that, for the same light source intensity, a white filter transmits about four times as much of the light as does a red filter, thus increasing substantially the light intensity. The latter conclusion, however, must be qualified. Although the red light at close distances would have only one-quarter the intensity of the white light, the range of visibility would be reduced only to one-half instead of to one-quarter (in accordance with the inverse-square law). At longer distances atmospheric absorption alters the relative range appreciably so that, for example, a light which could be seen at 20 miles with a white filter could be seen at about 16–18 miles with a red filter. This difference would have a further tendency to be reduced with progressively worse weather conditions. These conclusions are based on experiments with a tungsten type light. No technical data have been presented so far to indicate whether or not different conclusions would be reached for the condenser-discharge type light. The proponents of the red light point to a number of advantages for the red light as compared to a white light; for example, easier recognition against an urban background, less distraction to the pilot from light scatter in hazy or cloudy atmospheric conditions, less adverse effect on pilot dark adaptation, together with the fact that red is generally thought of as a sign of danger and therefore draws quicker attention. Without attempting to prejudge the final resolution of this issue, the Bureau thus far considers that the red light should continue to be required.

5. *Location of lights.* In order that anti-collision lights give the necessary field of coverage it will probably be necessary to install two lights on an aircraft, one on top and one on the bottom of the fuselage, although in some instances it might be possible to have only one light mounted on top of the fin. In either case, the proper positioning of the lights is of considerable importance from the standpoint of possible glare to the pilot in IFR conditions. Recently, special tests in overcast conditions have indicated that with certain installations the anti-collision lights had extremely undesirable effects on the pilots. In some cases these effects resulted in vertigo, in others, in very severe annoyance. It is of interest to note that the tests were conducted with red as well as with white lights. It appears that these undesirable effects are more likely to occur on small aircraft where the anti-collision lights are located fairly near the pilot's cockpit. The wording in the presently effective regulations for anti-collision lights is directed against installations which would be conducive to the types of conditions evidenced in the tests. Apparently, however, lack of sufficient experience with anti-collision lights has led to some installations which do not meet the intent of the regulations. Since the present

wording in § 4b.637 is considered clear as to its intent, it is not proposed to make any significant changes therein. It is believed that, on the basis of past experience, anti-collision lights in the future will not be installed so as to have an extreme effect upon pilots. It is further considered that, with installations where undesirable effects on the pilot are apparent but not sufficiently pronounced to cause concern, judicious operational practices will be exercised in the use of anti-collision lights under IFR conditions.

6. *Direction indication.* In addition to the prime function of exterior lighting, which is to make the aircraft conspicuous, there is another function; namely, to indicate direction of flight. For this purpose, consistent with tradition established by other modes of navigation, the disposition on an aircraft of red, green, and white lights has world-wide acceptance. The regulations require basically that a red position light be placed on the left side, a green one on the right, and a white one in the rear. Recently new concepts have been introduced experimentally for direction indication. However, the Bureau does not feel justified at this time in suggesting a change in this respect and, therefore, the present system of direction indication is proposed for retention.

Experience with anti-collision lights has shown that the relatively high intensity of these lights may have a deleterious effect on the visibility of the position lights, particularly if the latter are flashing. Apparently the flashing of wing and tail position lights, the fuselage lights, and the anti-collision lights is conducive to confusion as regards the direction of flight. Tests have shown that with the presently used system, the clearest indication is obtained when, in addition to the flashing anti-collision light, the lighting system is limited to the two wing lights and a white tail light, and when these three position lights are on steady. It is proposed, therefore, to prescribe steady position lights when such are used in conjunction with an anti-collision light. (The matter of altering the specifications for position lights is discussed later in this notice of proposed rule making.)

7. *Applicability.* The presently effective regulations in Part 4b prescribe the specifications for anti-collision lights when such are installed. Since the promulgation of those specifications, the operating parts of the regulations have been amended to require the installation of anti-collision lights on all airplanes of more than 12,500 pounds. Consequently, in amending the specifications in Part 4b to be made applicable to future new type airplanes, it is proposed that anti-collision lights be made required equipment. It is also proposed that the introduction of specifications into Parts 3 and 6 of the regulations for airplanes of 12,500 pounds or less and for rotorcraft be made also on the basis of required equipment. Thus, all new type airplanes and rotorcraft irrespective of size introduced into service in the future would have anti-collision lights installed. This proposal does not include any differentiation in the specifications of anti-collision lights for small versus large aircraft. In principle, equal conspicuity should be required. It is considered that the proposed specifications are sufficiently broad and reasonable as to apply equally to all aircraft without undue burden to the designer and operator. However, the Bureau is prepared to consider any specific suggestions regarding possible differentiation.

In view of the foregoing, notice is hereby given that it is proposed to recommend to the Board that Parts 3, 4b, and 6 of the Civil Air Regulations be amended:

1. By adding new §§ 3.705 and 6.637, and by inserting in lieu of the presently effective provision of § 4b.637 a new provision, all to read as follows: (Part 7 for transport category rotorcraft now pending consideration before the Board would also be amended similarly.)

§§ 3.705, 4b.637, 6.637 *Anti-collision light system.* An approved anti-collision light system consisting of one or more lights shall be so located that the light would not be detrimental to the crew's vision and would not detract from the conspicuity of the position lights. The system shall comply with the provisions of paragraphs (a) through (d) of this section.

(a) *Field of coverage.* The system shall consist of such lights as will afford coverage of all vital areas around the airplane with due consideration to the physical configuration and the flight characteristics of the airplane. In any case, the field of coverage shall extend in all directions within 30° above and 30° below the horizontal plane of the airplane, except that a solid angle or angles of obstructed visibility totalling not more than 0.03 steradians shall be permissible within a solid angle equal to 0.15 steradians centered about the longitudinal axis in the rearward direction.

(b) *Flashing characteristics.* The arrangement of the system, i. e., number of light sources, beam width, speed of rotation, etc., shall be such as to give an effective flash frequency of not less than 40 and not more than 180 cycles per minute. The effective flash frequency shall be the frequency at which the airplane's complete anti-collision light system is observed from a distance, and shall apply to all sectors of light including the overlaps which might exist when the system consists of more than one light source.

(c) *Color.* The color of anti-collision lights shall be aviation red in accordance with the specifications of § 4b.635 (a).

(d) *Light intensity.* The minimum light intensities, measured with the red filter and expressed in terms of "effective" intensities, shall be in accordance with Figure 4b–27. The following relation shall be assumed:

$$I_e=\frac{\int_{t_1}^{t_2} I(t)\,dt}{0.2+(t_2-t_1)};$$

where:

$I_e$=effective intensity (BCP),
$I(t)$=instantaneous intensity as a function of time,
$t_2-t_1$=flash time interval.

NOTE: Normally, the maximum value of effective intensity is obtained when $t_2$ and $t_1$ are so chosen that the effective intensity is equal to the instantaneous intensity at $t_2$ and $t_1$.

| Angle above or below horizontal plane | Effective intensity (candles) |
|---|---|
| 0° to 5° | 100 |
| 5° to 10° | 60 |
| 10° to 20° | 20 |
| 20° to 30° | 10 |

FIGURE 4b–27—MINIMUM EFFECTIVE INTENSITIES FOR ANTI-COLLISION LIGHTS

B. *Specifications for position lights.* The present regulations require flashing position lights on air carrier airplanes and the specifications for such lights are contained in Part 4b. For small airplanes and for rotorcraft there are contained in Parts 3 and 6 specifications for the flashing features if the position lights are designed to be flashed.

Several years ago, it was established that the flashing of position lights contributed noticeably to the conspicuity of aircraft. However, the continued search for even more effective exterior lighting led to the development of the anti-collision light. The latter type light is also flashing in effect and has the added advantage of more concentrated intensities of light which offer conspicuity at greater distances. As explained in connection with the proposed changes to the anti-collision light specifications, it remains of importance for the position lights to retain their direction and attitude indicating features. This appears to be most effectively accomplished by maintaining the position lights steady rather than flashing when used simultaneously with an anti-collision light system. Inasmuch as it is being proposed to require for all future new type aircraft the intallation of anti-collision lights, it is also being proposed to require that steady position lights be used.

The position light specifications in the presently effective Part 4b call not only for the basic red and green forward position lights and the white rear position light, but also for two white fuselage lights and an additional red rear position light. The need for the three latter lights to supplement the flashing of the basic position lights no longer exists if the position lights are required to be on steady. Therefore, it is proposed that the position light specifications in Part 4b be limited to the three basic lights; namely, red and green forward position lights, and white rear position light.

In view of the foregoing, notice is hereby given that it is proposed to recommend to the Board that Parts 3, 4b, and 6 of the Civil Air Regulations be amended as follows: (Part 7 for transport category rotorcraft now pending consideration before the Board would also be amended similarly.)

1. By making editorial changes in § 3.700 (a) to eliminate reference to single and dual circuit systems and by deleting § 3.700 (e) which now deals with flasher characteristics.

2. By deleting § 4b.632 (d), 4b.632 (e), and 4b.634 (c) which now deal with fuselage lights and flasher characteristics, and by also making changes in § 4b.632 (c) and in Figures 4b–18 and 4b–20 to eliminate all references to the rear red position light.

3. By making editorial changes in § 6.632 (a) to eliminate reference to single and dual circuit systems, and by deleting § 6.632 (e) which now deals with flasher characteristics.

4. By deleting from the operating parts of the Civil Air Regulations the requirement for flashing position lights on airplanes equipped with anti-collision lights.

C. *The facilitation of experiments with exterior lighting systems.* Special Civil Air Regulation No. SR–392A adopted June 29, 1955, permits air carriers subject to the approval of the Administrator to install and use experimentally, on a limited number of their airplanes, exterior light systems which do not conform to the specifications contained in Part 4b of the Civil Air Regulations. The purpose of SR–392A was to permit experimentation on large airplanes while retaining their standard airworthiness certification. Prior to that time such experimentation was conducted either on Government-owned aircraft or on private aircraft limited in operations to the conditions of an experimental certificate.

SR–392A does not extend the permission for experimentation with exterior lights to non-air-carrier aircraft because at the time of its adoption only air carrier operators indicated interest in this activity. Recently, however, new experimental developments in anti-collision light systems have aroused the interest of private and corporate operators to the extent that some of the operators apparently wish to install the new systems on their aircraft for purposes of experimentation. The Bureau sees no valid reason why operators other than air carriers should not be permitted to participate, if they wish, in experiments intended to improve the effectiveness of aircraft exterior lighting, provided that the number of such aircraft is reasonably limited.

Under the provisions of SR–392A only a relatively small number of airplanes was involved in the experimentation which was conducted by the air carriers under coordinated programs. The results of these experiments have become generally known to interested persons. The Bureau believes that the knowledge gained from such experiments warrants permitting deviations from the exterior lighting specifications contained in the Civil Air Regulations.

If future experimentation is to be conducted more widely and by private individuals, the Bureau believes that conditions should be imposed which would assure that the experimental exterior lights are in fact installed for purposes of bona fide experimentation and that the results of such experimentation become available to the Government and to all other interested persons.

In view of the foreging, notice is hereby given that it is proposed to recommend to the Board the adoption of a new Special Civil Air Regulation to supersede SR–392A to read substantively as follows:

Contrary provisions of the Civil Air Regulations notwithstanding, experimental exterior lighting equipment which does not comply with the relevant specifications contained in the Civil Air Regulations may, subject to the approval of the Administrator, be installed and used on aircraft for the purpose of experimentation intended to improve exterior lighting: *Provided,* That

1. The Administrator may grant approval for a period not to exceed six months, except that approval for additional periods may be granted if the Administrator finds that the experiments can be reasonably expected to contribute to improvements in exterior lighting;

2. Not more than 15 aircraft possessing a U. S. certificate of airworthiness may have installed at any one time experimental exterior lighting equipment of one basic type;

3. The Administrator shall prescribe such conditions and limitations as may be necessary to insure safety and to avoid confusion in air navigation;

4. The person engaged in the operation of the aircraft shall disclose publicly the deviations of the exterior lighting from the relevant specifications contained in the Civil Air Regulations at times and in a manner prescribed by the Administrator;

5. Upon application for approval to conduct experimentation with exterior lighting, the applicant shall advise the Administrator of the specific purpose of the experiments to be conducted; and at the conclusion of the approved period of experimentation, he shall advise the Administrator of the detailed results thereof.

This proposed regulation would supersede Special Civil Air Regulation No. SR–392A.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984, 49 U. S. C. 425 (a). Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended, 49 U. S. C. 551–560)

Dated at Washington, D. C., May 14, 1956.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN, *Director.*

## FEDERAL COMMUNICATIONS COMMISSION

### [ 47 CFR Part 18 ]

[Docket No. 11467; FCC 56–459]

### RADIO FREQUENCY STABILIZED ARC WELDERS

### FURTHER NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of further proposed rule making in the above entitled matter.

2. The Commission has reviewed the comments submitted in reply to the original notice of proposed rule making in this proceeding. Evidence is provided that there is a need for more stringent radiation limits than is provided by the temporary regulations now in effect. On the other hand, the comments indicate that it may be quite difficult to reduce the radiation from these devices while at the same time retaining the characteristics necessary for efficient welding.

3. On the basis of these comments, the Commission has concluded that the regulations governing miscellaneous equipment (§§ 18.31 and 18.32) are not directly applicable to radio frequency stabilized arc welders. It has further concluded that the present temporary regulations (Footnote 1 to § 18.1) do not adequately control the interference caused by these welders. It, therefore, proposes to promulgate rules covering the operation of radio frequency stabilized arc welders (or the radio frequency stabilizer when this device is a separate component) based on the following principles:

(a) Radiation shall be limited to 15 uv/m at 1,000 feet on all frequencies not allocated for ISM use, except that a welder equipped with an arc stabilizing capacitor in series with the welding lead or with such other arc stabilizing device which will require rf energy flow for brief infrequent intervals may radiate a maximum of 10 uv/m at one mile.

(b) Radio frequency energy fed back into the power line shall be limited to 1000 uv below 490 kc and to 200 uv above 490 kc when measured across a line stabilization network.

(c) That welders which are not type approved and are operated within 1,000 feet of a radio equipped airport be registered with the Commission prior to being operated by filing the following information:

(i) Location of the welder.

(ii) Manufacturer, model number and serial number of the welder.

(iii) Name of radio-equipped airport(s) within 1,000 feet of the welder.

(iv) Reason why the welding equipment must be operated within 1,000 feet of the airport.

(v) A statement that the welder operator has furnished the person in charge of communications at the airport with a telephone number to be called in the event of interference.

(vi) A statement that in the event harmful interference is caused, operation of the offending welding equipment will be discontinued immediately until the interference condition is corrected.

(vii) A statement of the estimated length of time the welding equipment will be used at the location described in (i) above.

(viii) A statement that if operation of the welder at the described location is discontinued, the Commission will be promptly notified.

(ix) A statement that the user of the welder will make inquiries at radio-euipped airports within 1,000 feet of the welder immediately after the welder is installed to determine whether the welder causes interference and that the user will continue to make such inquiries periodically at least once each three months.

(x) A statement that the welder is type approved or certified.

(d) Requirement that the welder be type approved or certified.

(e) Provision for type approval if the welder operates on ISM frequencies.

(f) Certification may be based on measurements at the point of operation or on measurements of a prototype.

(g) A provision that welders certificated prior to the date the rules become effective may operate without further certification until a date two years after that date provided no harmful interference is caused, and provided further that where such welders are located within 1,000 feet of a radio-equipped airport they shall be registered with the Commission.

(h) A provision that the technical limits and standards of the rules, including certification (or type approval) will not be applicable until September 1, 1957, for welders manufactured or installed prior to September 1, 1952, provided harmful interference is not caused to authorized radio services, and provided further that where such welders are located within 1,000 feet of a radio-equipped airport they shall be registered with the Commission.

4. Pending the promulgation of permanent regulations, the Commission has further extended the applicability of Footnote 1 of § 18.1 from April 30, 1956, until action is completed in this docket.

5. Any interested party may file comments in this matter before June 18, 1956. Replies to comments may be filed within ten days from the last day for filing original comments. The Commission will consider all such comments and briefs that are presented before taking final action.

6. This proposal to amend the Commission's rules is issued under the authority of sections 4 (i), 301, and 303 (r) of the Communications Act of 1934, as amended.

7. In accordance with the provisions of § 1.764 of the Commission's rules an original and 14 copies of all statements, briefs, or comments, filed shall be furnished the Federal Communications Commission.

Adopted: May 16, 1956.

Released: May 17, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4007; Filed, May 21, 1956; 8:51 a. m.]

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[W-035865]

WYOMING

STOCK DRIVEWAY WITHDRAWAL NO. 44
WYOMING NO. 8, ENLARGED

By virtue of the authority contained in section 10 of the act of December 29, 1916 (39 Stat. 865), as amended by the act of January 29, 1929 (45 Stat. 1144; 43 U. S. C. 300), and in section 7 of the act of June 28, 1934, (48 Stat. 1272), as amended by the act of June 26, 1936 (49 Stat. 1976; 43 U. S. C. 315f), and pursuant to the authority delegated by the Director, Bureau of Land Management, Order No. 541 of April 21, 1954 (19 F. R. 2473), it is ordered as follows:

The following described lands in the State of Wyoming are hereby classified as necessary and suitable for stock driveway purposes, and, excepting any mineral deposits therein, are withdrawn from all disposal under the public land laws and reserved, subject to valid existing rights, for the use of the general public, the reservation to be known as Stock Driveway Withdrawal No. 44, Wyoming No. 8, Enlarged:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 49 N., R. 102 W.,
Sec. 27: SE¼SE¼:
Sec. 35: Lots 3, 4, 5.

The area described aggregates 127.09 acres.

Any mineral deposits in the lands shall be subject to location and entry only in the manner prescribed by the Secretary of the Interior in accordance with the provisions of the aforesaid act of January 29, 1929, and existing regulations.

*Notice for Filing Objections to the Foregoing Order, Published Simultaneously Herewith, Enlarging Stock Driveway Withdrawal No. 44, Wyoming No. 8*

For a period of 30 days from the date of publication of the above entitled order, persons having cause to object to the terms thereof may file their objections in duplicate in the office of the State Supervisor, Room 305, Federal Office Building, Cheyenne, Wyoming. In the case any objection is filed and the nature is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, whether or not a hearing is held, notice of the determination as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

LOWELL M. PUCKETT,
*State Supervisor.*

### National Park Service

[Rocky Mountain National Park Order 2]

SUPERVISORY PARK RANGERS

DELEGATION OF AUTHORITY TO EXECUTE AND APPROVE CERTAIN PERMITS

APRIL 18, 1956.

SECTION 1. *Saddle Livery Permits.* The Supervisory Park Rangers of Rocky Mountain National Park and Shadow Mountain National Recreation Area may issue revocable permits having a term of one year or less, authorizing saddle livery operations based on privately owned lands to use the trails within Rocky Mountain National Park and Shadow Mountain National Recreation Area.

SEC. 2. *Appeals.* Any party aggrieved by any action or decision of the Supervisory Park Rangers, shall have a right to appeal to the Superintendent of the area. Any such appeal shall be in writing and shall be submitted to the Superintendent within 30 days after receipt by the aggrieved party of notice of action taken or decision made by the Supervisory Park Ranger.

(National Park Service Order No. 14 (21 F. R. 1467); 39 Stat. 535; 16 U. S. C., 1952 ed., sec. 2. Region Two Order No. 3 (21 F. R. 1494))

[SEAL] JAMES V. LLOYD,
*Superintendent, Rocky Mountain National Park and Shadow Mountain National Recreation Area.*

[F. R. Doc. 56-3992; Filed, May 21, 1956; 8:48 a. m.]

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

GETTYSBURG LIVESTOCK SALES CO.

POSTING OF STOCKYARD

The Secretary of Agriculture has information that the Gettysburg Livestock Sales Co., Gettysburg, South Dakota, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyard named above as a posted stockyard subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 17th day of May 1956.

[SEAL] H. E. REED,
*Director, Livestock Division.*

[F. R. Doc. 56-4019; Filed, May 21, 1956; 8:53 a. m.]

### Office of the Secretary

DIRECTOR OF AGRICULTURAL CREDIT SERVICES

DESIGNATION TO DIRECT CERTAIN FUNCTIONS

Effective immediately and pending the appointment of a Rural Electrification Administration Administrator, the rural electrification program and the rural telephone program, as assigned to the Rural Electrification Administration by order of the Secretary, effective January 2, 1954, entitled "Designations of Authority and Assignment of Functions" (19 F. R. 74, et seq.), subject to the reservations in section 1501 of said order, shall be under the immediate direction and supervision of the Director of Agricultural Credit Services.

The Director of Agricultural Credit Services under the authority of this order and signing in his own title shall have all the functions of a head of agency with respect to these programs, as prescribed in section 116 of said order of January 2, 1954, including the authority to execute loan documents applicable to these programs.

Done at Washington, D. C., this 17th day of May 1956.

[SEAL] EZRA TAFT BENSON,
*Secretary of Agriculture.*

[F. R. Doc. 56-4020; Filed, May 21, 1956; 8:53 a. m.]

## DEPARTMENT OF COMMERCE

### Federal Maritime Board

[Docket No. M-64 (Sub. 1)]

PACIFIC FAR EAST LINE, INC.

NOTICE OF APPLICATION TO EXTEND BAREBOAT CHARTER OF VESSELS AND TENTATIVE FINDINGS

Pursuant to section 5 (e) of the Merchant Ships Sales Act, 1946, as amended (Pub. Law 591, 81st Cong.) (50 U. S. C. App. 1738), seven (7) Victory type vessels owned by the United States were chartered to Pacific Far East Line, Inc. (Applicant), for the carriage of iron ore from Stockton, California, to ore ports in Japan; the charter contemplated two (2) voyages per vessel, a total of fourteen (14) voyages; four (4) of the vessels were recalled after completion of one (1) voyage; the applicant is obligated to redeliver said vessels on or before June 20, 1956.

Applicant seeks to use the three (3) vessels currently under charter to complete a sufficient number of voyages so that the total voyages accomplished under the charter will be the total of fourteen (14) contemplated by the Report of the Board dated March 20, 1956.

The Board has tentatively affirmed its findings of March 20, 1956, and has tentatively determined that its recommendation 6 in its Report of March 20, 1956, should be relaxed to permit applicant to continue using the three (3) vessels for additional voyages sufficient to accomplish a total of fourteen (14) under the charter.

Any interested party may be heard concerning these tentative findings in Room 4519, New General Accounting Office Building, Fifth and G Streets NW., Washington, D. C., at 2:00 p. m., e. d. t., May 24, 1956. Said findings will become final if no protestant appears.

Dated: May 18, 1956.

By order of the Board.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

[F. R. Doc. 56-4045; Filed, May 21, 1956; 8:55 a. m.]

## DEPARTMENT OF LABOR

### Wage and Hour Division

#### LEARNER EMPLOYMENT CERTIFICATES

#### ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended March 1, 1956, 21 F. R. 1349).

The following learner certificates were issued authorizing the employment of not more than 10 percent of the total number of factory production workers as learners for normal labor turnover purposes:

H. Bomse & Brothers, Inc., 1666 Callowhill Street, Philadelphia, Pa.; effective 5-4-56 to 5-3-57 (ladies' dresses).

Classic Dress Co., Mary and Hamilton Streets, Dickson City, Pa.; effective 5-8-56 to 5-7-57 (children's dresses).

Dalmatia Blouse Co., Dalmatia, Pa.; effective 5-4-56 to 5-3-57 (women's blouses).

Dolly Sportwear, Inc., 21 St. Casimir Avenue, Yonkers, N. Y.; effective 5-4-56 to 5-3-57 (dresses).

Gaco Manufacturing Co., Inc., 119 Ivie Street, Cornelia, Ga.; effective 4-30-56 to 4-29-57 (sport shirts).

Hollywood Corset Co., 24 West Fifth South Street, Salt Lake City, Utah; effective 5-8-56 to 5-5-57 (brassieres).

Hollywood-Maxwell Co., 407 Main Street, Arkadelphia, Ark.; effective 5-4-56 to 5-3-57 (brassieres).

Horton Garment Co., Horton, Kans.; effective 5-2-56 to 5-1-57 (dresses).

Kutztown Sportswear Co., 361 East Main Street, Kutztown, Pa.; effective 5-4-56 to 5-3-57 (ladies' blouses).

Mid-American Manufacturing Co., Inc., 304 South First Street, Ponca City, Okla.; effective 5-14-56 to 5-13-57 (jeans).

Miller Manufacturing Co., Inc., 10th and Virginia Streets, Joplin, Jasper Co., Mo.; effective 5-13-56 to 5-12-57 (shirts, pants).

Mode Manufacturing Corp., Wind Gap, Pa.; effective 4-30-56 to 4-29-57 (ladies' blouses).

Rebel Garment Co., Magee, Miss.; effective 5-2-56 to 5-1-57 (dungarees, pants).

Star Union Co. of Tennessee, Inc., Manchester, Tenn.; effective 5-16-56 to 5-15-57 (pajamas).

Tiny Town Togs, Inc., 2 River Street, Troy, N. Y.; effective 5-2-56 to 5-1-57 (children's dresses).

Tiny Town Troy, Inc., 2 River Street, Troy, N. Y.; effective 5-2-56 to 5-1-57 (children's dresses).

Valley View Manufacturing Co., Valley View, Pa.; effective 5-7-56 to 5-6-57 (dresses, housecoats).

The following learner certificates were issued for normal labor turnover purposes. The number of learners authorized is indicated:

Atlas Sportswear Corp., 2150 Washington Street, Boston, Mass.; effective 5-8-56 to 5-7-57; 3 learners (women's rain wear).

Arkay Infants Wear, Inc., 58 Smith Street, Newburgh, N. Y.; effective 5-4-56 to 5-3-57; 5 learners (infants' wear).

Baronol Garment Co., Washington and Sycamore Streets, Berwick, Pa.; effective 4-30-56 to 4-29-57; 5 learners (children's apparel).

Chance Pajama Manufacturing Co., 1346 Franklin Street, Johnstown, Pa.; effective 5-7-56 to 5-6-57; 5 learners (ladies' pajamas).

Elena-Fay Dresses, Inc., 45 Social Street, Woonsocket, R. I.; effective 5-4-56 to 5-3-57; 10 learners (women's dresses).

Emmy-Lou Dress Co., 1339 North Main Street, Scranton, Pa.; effective 5-4-56 to 5-3-57; 4 learners (dresses).

Empire Manufacturing Co., 750 Acoma Street, Denver, Colo.; effective 5-7-56 to 5-6-57; 5 learners (children's pajamas).

Grace Sportwear Co., 614 Exeter Avenue, West Pittston, Pa.; effective 5-7-56 to 5-6-57; 3 learners (blouses).

Haven Manufacturing Corp., Walnut Street, Pottsville, Pa.; effective 5-8-56 to 5-7-57; 10 learners (dresses).

Mar Tee Original, Inc., 1233 Washington Avenue, St. Louis, Mo.; effective 5-2-56 to 5-1-57; 10 learners (dresses).

United Garment Manufacturing Co., 316 West Lake Street, Chisholm, Minn.; effective 5-18-56 to 5-17-57; 10 learners (outerwear).

The following learner certificates were issued for plant expansion purposes. The number of learners authorized is indicated:

Alabama Textile Products Corp., Crestview, Fla.; effective 5-7-56 to 11-6-56; 20 learners (pajamas).

Chippewa Falls Woolen Mill Co., 714 East Spring Street, Chippewa Falls, Wis.; effective 5-2-56 to 11-1-56; 30 learners (sportswear).

Eureka Pants Manufacturing Co., Shelbyville, Tenn.; effective 5-1-56 to 10-31-56; 30 learners (work pants, and shirts).

Huntland Development Corp., Huntland, Tenn.; effective 5-2-56 to 11-1-56; 20 learners (sport coats, jackets).

Meyers & Son Manufacturing Co., First and Jefferson Streets, Madison, Ind.; effective 5-8-56 to 5-7-57; 30 learners (coveralls).

Ruleville Manufacturing Co., Ruleville, Miss.; effective 5-7-56 to 11-6-56; 30 learners (jackets).

Glove Industry Learner Regulations (29 CFR 522.60 to 522.65, as amended March 1, 1956, 21 F. R. 581).

Northland Glove & Mitten Manufacturing Co., 50 Pearl Street, Essex Junction, Vt.; effective 5-7-56 to 5-6-57; 1 learner for normal labor turnover purposes (work gloves, ski gloves, mittens).

Richmond Glove Corp., 601 North D Street, Richmond, Ind.; effective 5-7-56 to 5-6-57; 10 learners for normal labor turnover purposes (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended March 1, 1956, 21 F. R. 629).

The following learner certificates were issued for normal labor turnover purposes:

Carolina Lee Knitting Co., Madison, N. C.; effective 5-7-56 to 5-6-57; 4 learners.

M K M Knitting Mills, Inc., North Commercial Street, Manchester, N. H.; effective 4-30-56 to 4-29-57; 5 percent of factory production workers engaged in the manufacture of hosiery.

Renfro Hosiery Mills Co., 304 Willow Street, Mount Airy, N. C.; effective 5-12-56 to 5-11-57; 5 percent of factory production workers.

Sussex Hosiery Co., Intersection of Highway 73 and Central Drive, Concord, N. C.; effective 5-7-56 to 5-6-57; 5 learners.

Independent Telephone Industry Learner Regulations (29 CFR 522.70 to 522.74, as amended March 1, 1956, 21 F. R. 581).

Twin Valley-Ulen Telephone Co., Twin Valley, Mo.; effective 5-7-56 to 5-6-57.

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended March 1, 1956, 21 F. R. 581).

The following learner certificates were issued for normal labor turnover purposes, except as otherwise indicated:

Alabama Textile Products Corp., Crestview, Fla.; effective 5-7-56 to 11-6-56; 20 learners for plant expansion purposes engaged in the production of men's shorts (men's undershorts).

DeKalb Garment Co., Inc., Fyffe, DeKalb County, Ala.; effective 5-1-56 to 10-31-56; 10 learners for plant expansion purposes (men's shorts).

DeKalb Garment Co., Inc., Fyffe, DeKalb County, Ala.; effective 5-1-56 to 4-30-57; 5 learners (men's undershorts).

L & L Manufacturing Co., Inc., North Wilkesboro, N. C.; effective 5-1-56 to 10-31-56; 20 learners for plant expansion purposes (knit underwear).

L & L Manufacturing Co., Inc., North Wilkesboro, N. C.; effective 5-1-56 to 4-30-57; 5 percent of factory production workers (knit underwear).

M K M Knitting Mills, Inc., North Commercial Street, Manchester, N. H.; effective 4-30-56 to 4-29-57; 5 percent of factory production workers engaged in the manufacture of sweaters (sweaters).

Henry L. Miller & Son, Inc., Port Carbon, Pa.; effective 5-2-56 to 5-1-57; 5 percent of factory production workers (knit underwear).

Superior Underwear Mill, Bechtelsville, Pa.; effective 5-4-56 to 5-3-57; 5 percent of factory production workers (athletic shirts).

Regulations applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

Brinkley Pearl Works, Brinkley, Ark.; effective 5-7-56 to 11-6-56; not less than 85 cents per hour for the first 320 hours and 90 cents per hour for the remaining 160 hours of the 480-hour learning period, for the occupation of blank button cutter; authorizing the employment of 5 learners for normal labor turnover purposes (pearl button blanks).

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods and the number or proportion of learners authorized to be employed, are as indicated:

Esquire Manufacturing Corp., Humacao, P. R.; effective 4-16-56 to 4-15-57; not less than 30 cents per hour for the first 160 hours, 36 cents per hour for the next 160 hours, and 42 cents per hour for the remaining 160 hours of the 480-hour learning period, for the occupations of sewing machine operators, final pressers, and cutters; not less than 36 cents per hour for a maximum of 160 hours, for the occupations of marking, snapping, collar turning, and examining; authorizing the employment of 13 learners for normal labor turnover purposes (men's pajamas). (Effective 4-30-56, the above rates are amended to not less than 45 cents per hour for the first 240 hours and 50 cents per hour for the remaining 240 hours of the 480-hour learning period, for the occupations of sewing machine operators, final pressers, and cutters, and not less than 45 cents per hour for a maximum of 160 hours, for the occupations of marking, snapping, collar turning, and examining.)

Gordonshire Knitting Mills, Inc., Cayey, P. R.; effective 4-18-56 to 10-24-56; not less than 46 cents per hour for the first 480 hours and 50 cents per hour for the remaining 480 hours of the 960-hour learning period, for the occupations of looping and mending; not less than 46 cents per hour for a maximum of 240 hours, for the occupations of knitting and examining; authorizing the employment of 10 learners for plant expansion purposes (seamless hosiery) (replacement certificate).

Rico Glove Corp., Washington Avenue, Cayey, P. R.; effective 4-25-56 to 10-24-56; not less than 35 cents per hour for the first 160 hours, 43 cents per hour for the next 160 hours, and 52 cents per hour for the remaining 160 hours of the 480-hour learning period, for the occupation of sewing machine operators; authorizing the employment of 40 learners for plant expansion purposes (fabric and leather gloves).

Rio Manufacturing Corp., State Road 838, Rio Piedras, P. R.; effective 4-24-56 to 10-23-56; not less than 58 cents per hour for a maximum of 240 hours, for the occupation of punch press operators; not less than 58 cents per hour for the first 240 hours and 66 cents per hour for the remaining 240 hours of the 480-hour learning period, for the occupations of grinders, crimpers, spotters, and silver welders; authorizing the employment of 7 learners for normal labor turnover purposes (fishing tackle hardware).

Senorita Hosiery Mills, Inc., Gurabo, P. R.; effective 4-18-56 to 9-19-56; not less than 53 cents per hour for the first 480 hours and 58 cents per hour for the remaining 480 hours of the 960-hour learning period, for the occupations of knitting, seaming, and mending; not less than 53 cents per hour for a maximum of 240 hours, for the occupation of examining; authorizing the employment of 6 learners for normal labor turnover purposes (full-fashioned hosiery) (replacement certificate).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 14th day of May 1956.

MILTON BROOKE,

## ATOMIC ENERGY COMMISSION

[Docket No. 18]

#### GENERAL ELECTRIC CO.

#### NOTICE OF ISSUANCE OF CONSTRUCTION PERMIT

Please take notice that the Atomic Energy Commission has issued the construction permit set forth below to the General Electric Company. In accordance with the procedures set forth in the Commission's rules of practice (10 CFR Part 2), the Commission will direct the holding of a formal hearing upon timely receipt of a request therefor from the applicant or an intervenor.

*Construction permit* (No. CPPR-3). The General Electric Company, Schenectady, New York (hereinafter "GE") on January 10, 1956, filed its application for license under section 104 of the Atomic Energy Act of 1954 (hereinafter the "act") to construct and operate a nuclear reactor (hereinafter "the reactor"). A revised application was filed on March 6, 1956. The original application together with said revision is hereinafter referred to as "the application."

The Atomic Energy Commission (hereinafter the "Commission") has found that:

A. The reactor will be a utilization facility as defined in the Commission's regulations contained in 10 CFR, Chapter 1, Part 50, "Licensing of Production and Utilization Facilities."

B. GE proposes to utilize the reactor in the conduct of research and development activities leading to the demonstration of the practical value of the boiling water type of reactor for industrial or commercial purposes.

C. GE is financially qualified to construct and operate the reactor in accordance with the regulations contained in 10 CFR, Chapter 1; to assume financial responsibility for the payment of Commission charges for special nuclear material and to undertake and carry out the proposed use of such material for a reasonable period of time.

D. GE is technically qualified to design and construct the reactor.

E. GE has submitted sufficient information to provide reasonable assurance that a utilization facility of the general type proposed by GE can be constructed and operated at the proposed location without undue risk to the health and safety of the public and that additional information required to complete its application will be supplied.

Pursuant to the Atomic Energy Act of 1954 and 10 CFR, Chapter 1, Part 50, "Licensing of Production and Utilization Facilities," the Commission hereby issues a construction permit to GE to construct the reactor as a utilization facility. This permit shall be deemed to contain and be subject to the conditions specified in §§ 50.54 and 50.55 of said regulations; is subject to all applicable provisions of the Atomic Energy Act of 1954 and rules, regulations and orders of the Atomic Energy Commission now or hereafter in effect; and is subject to any additional conditions specified or incorporated below:

(1) The earliest date for the completion of the reactor is June 1, 1957. The latest date for completion of the reactor is February 28, 1958. The term "completion date" as used herein means the date on which construction of the reactor is completed except for the introduction of the fuel material.

(2) The site proposed for the location of the reactor is the location in Alameda County, California, specified in report GEAP-069—"Technical Information with Environmental Factors Regarding Developmental Boiling Water Reactor."

(3) The general type of facility authorized for construction is a boiling water type reactor designed to furnish energy equivalent to 3,000 kilowatts of electricity, using uranium enriched in the isotope uranium-235 as fuel.

(4) This permit is subject to submittal by GE to the Commission (by proposed amendment of the application) of the complete, final Hazards Summary Report (portions of which may be submitted and evaluated from time to time) and a finding by the Commission that the final design provides reasonable assurance that the health and safety of the public will not be endangered by operation of the reactor in accordance with the specified procedures.

(5) From time to time GE may submit to the Commission, in writing, reports upon the progress being made in experimental and developmental work. Following the submission of each such report the Commission will review the data included therein to determine whether the results of such work can be incorporated as technical specifications by appropriate amendment to this permit.

(6) Upon completion (as defined in paragraph "1" above) of the construction of the facility in accordance with the terms and conditions of this permit, upon the filing of any additional information needed to bring the original application up to date, and upon finding that the facility authorized has been constructed in conformity with the application as amended and in conformity with the provisions of the act and of the rules and regulations of the Commission, and in the absence of any good cause being shown to the Commission why the granting of a license would not be in accordance with the provisions of the act, the Commission will issue a Class 104 license to GE pursuant to section 104b. of the act, which license shall expire seven (7) years after the date of this construction permit.

Pursuant to § 50.60 of the regulations in 10 CFR Part 50, the Commission has allocated to GE, for use in the operation of the reactor, 29.0 kilograms of uranium-235-contained in uranium at the isotopic

ratio specified in GE's application. Estimated schedules of special nuclear material transfers to GE and returns to the Commission are contained in Appendix "A" which is set forth below. Deliveries by the Commission to GE in accordance with schedule 1 in Appendix "A" will be conditioned upon GE's return to the Commission of special nuclear material substantially in accordance with schedule 2 of Appendix "A".

Date of issuance: May 14, 1956.

Dated at Washington, D. C., this 14th day of May 1956.

For the Atomic Energy Commission.

H. L. PRICE,
*Director,*
*Division of Civilian Application.*

APPENDIX "A" TO GENERAL ELECTRIC COMPANY CONSTRUCTION PERMIT

SCHEDULE 1

Estimated schedule of transfers of special nuclear material from the Commission to GE:

| Date of transfer | Kilograms of contained U-235 |
|---|---|
| 1956 | 50 |
| 1957 | None |
| 1958 | 30 |
| 1959 | 30 |
| 1960 | 30 |
| 1961 | 30 |
| 1962 | 30 |
| Total for license period | 200 |

SCHEDULE 2

Estimated schedule of transfers of special nuclear material from GE to the Commission:

| Date of transfer | Kilograms of contained U-235 | | |
|---|---|---|---|
| | In fabrication scrap | In spent fuel | Total |
| 1956 | 19.5 | None | 19.5 |
| 1957 | None | None | None |
| 1958 | 11.7 | None | 11.7 |
| 1959 | 11.7 | 10.0 | 21.7 |
| 1960 | 11.7 | 15.0 | 26.7 |
| 1961 | 11.7 | 10.0 | 21.7 |
| 1962 | 11.7 | 15.0 | 26.7 |
| Return of inventory | | | 43.0 |
| Total for license period | | | 171.0 |

## CIVIL AERONAUTICS BOARD

[Docket No. 7280]

TRANS WORLD AIRLINES, INC.; INDIA-BANGKOK-MANILA EXTENSION

NOTICE OF ORAL ARGUMENT

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that oral argument in the above-entitled proceeding is assigned to be held on June 20, 1956, at 10:00 a. m., e. d. s. t., in Room 5042, Commerce Building, Constitution Avenue, between Fourteenth and Fifteenth Streets NW., Washington, D. C., before the Board.

Dated at Washington, D. C., May 15, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 56-4024; Filed, May 21, 1956; 8:54 a. m.]

[Docket No. 7002 et al.]

NEW YORK-NASSAU CASE

NOTICE OF ORAL ARGUMENT

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that oral argument in the above-entitled proceeding is assigned to be held on July 5, 1956, at 10:00 a. m., e. d. s. t., in Room 5042, Commerce Building, Constitution Avenue, between Fourteenth and Fifteenth Streets NW., Washington, D. C., before the Board.

Dated at Washington, D. C., May 16, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 56-4025; Filed, May 21, 1956; 8:54 a. m.]

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11124, 11125; FCC 56M-487]

HAROLD M. GADE AND MONMOUTH COUNTY BROADCASTERS

ORDER SCHEDULING HEARING

In re applications of Harold M. Gade, Eatontown, New Jersey, Docket No. 11124, File No. BP-9096; Monmouth County Broadcasters, Long Branch, New Jersey, Docket No. 11125, File No. BP-9231; for construction permits.

The Hearing Examiner having under consideration: (1) a "Petition to Advance Hearing Date" filed May 7, 1956, on behalf of applicant Gade; (2) the procedural facts shown by the record herein; and (3) the statements made by Bureau counsel at an oral argument on the above pleading which was scheduled on this date and which was attended by no other counsel; and

It appearing that a third application formerly involved in this proceeding was dismissed by order dated May 8, 1956, that Monmouth County Broadcasters failed to appear at the prehearing conference on April 3, 1956, and no applicant or party except Bureau appeared at the scheduled oral argument on this date and no party opposes the pending petition; and

It further appearing that it would conduce to the orderly dispatch of the Commission's business to advance the hearing date substantially as requested by petitioner, and as herein ordered, and that good cause is shown for accordingly modifying the previous pretrial order hereinafter referred to; now therefore:

*It is ordered,* This 15th day of May 1956, that the hearing upon the applications here involved shall be commenced at the offices of the Commission in Washington, D. C., at 10:00 a. m., on Thursday, June 7, 1956; and

*It is further ordered,* That paragraphs 4 and 5 of the Order After Third Prehearing Conference, dated April 10, 1956, (fixing the dates for prehearing and further hearing on June 8 and June 27) be and they are hereby set aside.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-3974; Filed, May 21, 1956; 8:45 a. m.]

[Docket Nos. 11623, 11624; FCC 56M-481]

BLACK HILLS BROADCAST CO. OF RAPID CITY AND HEART OF THE BLACK HILLS STATIONS

ORDER CONTINUING HEARING

In re applications of Black Hills Broadcast Company of Rapid City, Lead, South Dakota, Docket No. 11623, File No. BPCT-2033; John Daniels, Eli Daniels and Harry Daniels d/b as THE HEART OF THE BLACK HILLS STATIONS, Deadwood, South Dakota, Docket No. 11624, File No. BPCT-2040; for television construction permits (Channel 5).

The Hearing Examiner having under consideration a motion, filed by Black Hills Broadcast Company of Rapid City on May 8, 1956, requesting that the dates set in the present schedule for the exchange of written case, the further conference, and the commencement of the hearing, be continued for at least thirty days, to afford movant an opportunity to canvas the feasibility of dismissing its application and thus remove the conflict and necessity of hearing;

It appearing that time for filing opposition to the motion has expired, that no opposition has been filed, and that good cause for the requested continuance has been shown;

*It is ordered,* This 15th day of May 1956, that the motion for continuance is granted, and that the dates in the schedule are continued as follows:

a. Exchange of written case under Rule 1.841—from May 25, 1956 to June 25, 1956, 5:00 p. m.

b. Further conference under Rule 1.841—from June 5, 1956 to July 5, 1956, at 10:00 a. m., in the offices of the Commission, Washington, D. C.

c. Commencement of evidentiary hearing—from June 20, 1956 to July 23, 1956, at 10:00 a. m., in the offices of the Commission, Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

## FEDERAL POWER COMMISSION

[Docket No. G-10101, etc.]

MILLS BENNETT ESTATE ET AL.

NOTICE OF APPLICATIONS

MAY 16, 1956.

In the matters of Mills Bennett Estate, Docket No. G-10101; Edwin W. Pauley, Operator, Docket No. G-10109; Renwar Oil Corporation et al., Docket No. G-10112; Roy H. Bettis and G. Frederick Shepherd d. b. a. Bettis and Shepherd, Docket No. G-10120; George R. Brown, Docket No. G-10124; Hidalgo Gas Production Corporation, Docket No. G-10132; Heep Oil Corporation, Docket No. G-10140; George W. Graham et al., Docket No. G-10178; Arkansas Fuel Oil Corporation, Docket Nos. G-10186 thru G-10190, inc.; Forest Oil Corporation, Docket Nos. G-10225 and G-10226; L. A. Douglas, Operator, Docket No. G-10229; Sinclair Oil and Gas Corporation, Docket No. G-10269; Panhandle Oil Corporation, Docket No. G-10312.

Take notice that each of the above Applicants has filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicants to sell natural gas, subject to the jurisdiction of the Commission, all as more fully described in their respective applications which are on file with the Commission and open for public inspection.

All of the Applicants listed above produce and propose to sell natural gas to Texas Eastern Transmission Corporation for transportation in interstate commerce for resale, as indicated below.

*Docket No. G- and Location of Field*

10101: Bennett Ranch Field, Brooks County, Tex.

10109: Tabasco Field and adjacent areas, Hidalgo County, Tex.

10112: West Rockport Field, Aransas County, Tex.

10120: Mercedes Field, Hidalgo County, Tex.

10124: Lockridge and South Lockridge Fields, Brazoria County, Tex.

10132: Mercedes Field, Hidalgo County, Tex.; Agua Dulce Field, Nueces County, Tex.

10140; May Field, Kleberg County, Tex.
10178; East Bishop Field, Nueces County, Tex.
10186; San Antonio Bay Field, Calhoun County, Tex.
10187; Guedin Field, San Patricio County, Tex.
10188; May Field, Kleberg County, Tex.
10189; Midway Field, San Patricio County, Tex.
10190; Puerto Bay Field, Aransas and San Patricio Counties, Tex.
10225; Sal Del Rey Field, Hidalgo County, Tex.
10226; Encino Pasture Field, San Patricio County, Tex.
10229; Violet Field, Nueces County, Tex.
10269; East White Point Field, Nueces and San Patricio Counties, Tex.
10312; Bird Island Field, Kleberg County, Tex.

Protests or petitions to intervene may be filed with the Commission in accordance with § 1.8 or 1.10 of its rules of practice and procedure (18 CFR 1.8 or 1.10), on or before June 4, 1956.

---

[Docket No. G-10201]

OHIO FUEL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

MAY 15, 1956.

Take notice that The Ohio Fuel Gas Company, Applicant, an Ohio corporation and a subsidiary of The Columbia Gas System, Inc., having its principal place of business at 99 North Front Street, Columbus 15, Ohio, filed on April 4, 1956, an application for a certificate of public convenience and necessity, authorizing it to construct and operate certain proposed facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

The proposed facilities consist of: Approximately 11.6 miles of 20-inch O. D. transmission pipeline extending Line B-115 from Johnstown, Licking County, Ohio, to Treat Station, Licking County, Ohio; together with valves, piping and incidental facilities necessary for practical operation.

The purpose of the application is to enable the Applicant to increase the volumes of gas necessary to satisfy its storage requirements during the summer months and thereby enable it to meet its future winter requirements. The application states that to perform the required market service and maintain scheduled deliveries for input to storage, Applicant must increase the capacity of its high pressure transmission system transporting gas for delivery to northern markets and storage areas. The estimated daily capacity of the existing facilities is approximately 316 MMcf. The total capacity required is 356 MMcf per day, which includes 101 MMcf required for market service and 255 MMcf for input into storage for an average day in the month of July 1956.

The total cost of these facilities is estimated at $611,000 of which $568,000 is for construction of 11.6 miles of 20-inch loop line, and $43,000 is for construction of the valve setting and tie-in connections at Treat Station. This will be financed by the Columbia Gas System, Inc.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, June 18, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 4, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY,
*Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3682]

BAILEY SELBURN OIL & GAS LTD., CLASS A STOCK

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

MAY 15, 1956.

The above named issuer, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw the specified security from listing and registration on the San Francisco Stock Exchange.

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

Since listing of this stock on the San Francisco Stock Exchange in 1953, reported trading on said Exchange has averaged only about 1,000 shares per annum. The stock is listed and actively traded on the American Stock Exchange.

Savings of time in preparing reports and of listing fees on additional shares will result from the proposed delisting. The San Francisco Stock Exchange states that it has no objection to the delisting and has suspended the stock from dealings on its floor at the close of business April 9, 1956.

Upon receipt of a request, on or before June 4, 1956, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-3997; Filed, May 21, 1956; 8:49 a. m.]

[File No. 54-219, 59-13]

STANDARD SHARES, INC.

ORDER APPROVING ACCOUNTING ENTRIES AND RELEASING JURISDICTION WITH RESPECT THERETO

MAY 16, 1956.

The Commission, by order dated February 16, 1956, having approved a plan of Standard Shares, Inc. ("Standard Shares"), a registered holding company, formerly named Standard Power and Light Corporation, filed under section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") which plan proposed, among other things, a program for the transformation of Standard Shares into a closed-end nondiversified investment company; and having reserved jurisdiction over the accounting entries to be made by Standard Shares in connection with consummation of said plan; and

Standard Shares on May 4, 1956, having filed an application herein proposing, inter alia, (a) the restatement of the ledger values of its portfolio securities as of January 1, 1956, on the basis of the market values of such securities as of December 31, 1955, thereby reducing the aggregate ledger carrying values of such securities from $113,671,004 to $25,030,561, and (b) to write off the amounts in its Organization and Capital Stock Discount and Expense accounts of $204,089 and $59,595, respectively; and

The Commission having considered said application and having found that the accounting entries proposed therein should be approved and that the jurisdiction heretofore reserved by the Commission with respect thereto should be released:

*It is ordered,* That the accounting entries proposed to be made by Standard Shares be, and the same hereby are, approved, and that the jurisdiction heretofore reserved by the Commission with respect thereto be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order SA-38]

SULCOP S. A. R.

In re: Debt owing to Sulcop S. A. R. F-57-872.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of Irving Trust Company, 1 Wall Street, New York 15, New York, arising out of a Demand Deposit Account in the name of Sulcop S. A. R., Bucharest, Roumania, maintained by the aforesaid bank, together with any and all rights to demand, enforce, and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Sulcop S. A. R., Bucharest, Roumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 16, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
*Assistant Attorney General, Director, Office of Alien Property.*

[Vesting Order SA-39]

MAGYAR REZHENGERMUVEK RESZVCNYTARSASAG AZELOH CHAUDOIR GUSZTAV ES TARSA

In re: Debt owing to Magyar Rezhengermuvek Reszvcnytarsasag Azeloh Chaudoir Gusztav Es Tarsa, a/k/a Ungarische Kupferwalzwerke, A. G. F-34-1297.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of Anaconda Export Company, formerly Copper Export Association, Inc., New York, New York, arising out of an account payable entitled, "Accounts Payable Blocked Account", maintained by the aforesaid Company, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Magyar Rezhengermuvek Reszvcnytarsasag Azeloh Chaudoir Gusztav Es Tarsa, a/k/a Ungarische Kupferwalzwerke, A. G., Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 16, 1956.

For the Attorney General.

[Vesting Order SA-40]

BANQUE CREDIT BULGARE S. A.

In Re: Debt owing to Banque Credit Bulgare S. A. F-11-39.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The First National City Bank of New York, 55 Wall Street, New York 15, New York, arising out of an account entitled, "Union Bank of Switzerland, Iden. G. R. 17 Banque Nationale de Bulgarie," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Banque Credit Bulgare S. A., Sofia, Bulgaria, a national of Bulgaria as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the prop-

erty described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on May 16, 1956.

For the Attorney General.

## INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

MAY 17, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32101: *Trailer-on-flat-car service—Erie Railroad Company.* Filed by The Erie Railroad Company, for itself and interested rail carriers. Rates on electrical appliances, floor covering, crude rubber, and refined sugar, truckloads, loaded in or on motor-truck trailers and transported on railroad flat cars from New York, N. Y., to Cleveland, Ohio, and in the reverse direction in movement of floor covering.

Grounds for relief: Circuitous route, meeting competition of direct route performing similar trailer-on-flat-car service in competition with carriers by motor truck.

Tariff: Erie Railroad Company's tariff I. C. C. 21047.

FSA No. 32102: *Aluminum billets—New Kensington, Pa., to the South.* Filed by C. W. Boin, agent, for interested rail carriers. Rates on aluminum billets, blooms, etc., carloads, from New Kensington, Pa., to specified points in southern territory.

Grounds for relief: Circuitous routes.

Tariff: Supplement 14 to Agent Boin's I. C. C. A-1079.

FSA No. 32103: *Latex—New York to Southern points.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on latex (liquid crude rubber), natural or synthetic, tank-car loads from Brooklyn and New York, N. Y., to Dalton, Ga., and Hazelwood, N. C.

Grounds for relief: Short-line distance formula, and circuity.

Tariff: Supplement 14 to Agent Boin's I. C. C. A-1079.

FSA No. 32104: *Sewing machine cases, etc.—New York and New Jersey to Anderson, S. C.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on sewing machine cases, electrical appliances and nine other described commodities, mixed carloads from New York and Brooklyn, N. Y., and Elizabethport and Manville (Finderne), N. J., to Anderson, S. C.

Grounds for relief: Motor truck competition and circuity, analogous commodities.

Tariff: Supplement 14 to Agent Boin's I. C. C. A-1079.

By the Commission.

[No. 31955]

ILLINOIS CENTRAL RAILROAD CO.

SUBURBAN FARE INCREASE; INVESTIGATION INSTITUTED AND HEARING ASSIGNED

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 8th day of May A. D. 1956.

It appearing that, by petition filed March 26, 1956, with the Interstate Commerce Commission, the Illinois Central Railroad Company seeks authority to increase generally its intrastate and interstate passenger fares between points in the Chicago, Ill. suburban area by 36 percent;

And it further appearing that the petitioner avers that it has filed with the Illinois Commerce Commission tariff schedules containing the proposed increases in intrastate passenger fares in the said area and that the schedules have been suspended and not permitted to become effective; that the intrastate fares presently applicable in connection with the petitioner's suburban operations approved in Docket No. 30560, Illinois Central Multiple Fares in Chicago Area, 289 I. C. C. 133, 141, and Illinois Commerce Commission Docket No. 40483, which tariffs became effective on June 27, 1953, are unduly low resulting in unjust discrimination against, and a burden upon, interstate commerce in violation of section 13 of the Interstate Commerce Act unless increased to the extent proposed;

For good cause appearing:

*It is ordered*, That in response to said petition, an investigation be, and it is hereby, instituted, and that a hearing be held for the purpose of giving the respondent hereinafter designated and any other persons interested an opportunity to present evidence to determine whether the present intrastate passenger fares and charges in connection with petitioner's suburban operations cause, or will cause, any undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce, on the one hand and interstate commerce, on the other hand, or any undue, unreasonable, or unjust discrimination against interstate commerce, and to determine what fares and charges, if any, or what maximum or minimum, or maximum and minimum fares or charges, should be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination, if any, as may be found to exist;

*It is further ordered*, That the Illinois Central Railroad Company be, and it is hereby, made the respondent to this proceeding; that a copy of this order be served upon such respondent; and that the State of Illinois be notified of this proceeding by sending copies of this order and of the said petition by registered mail to the Governor of said State and to the Illinois Commerce Commission at Chicago, Ill.;

*It is further ordered*, That notice of this proceeding be given to the general public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register Washington, D. C.;

*And it is further ordered*, That this proceeding be assigned for hearing at such time and place as the Commission may hereafter designate.

By the Commission, Division 2.

[SEAL] HAROLD D. MCCOY,
*Secretary.*

## TITLE 32—NATIONAL DEFENSE

### Chapter V—Department of the Army

#### Subchapter A—Aid of Civil Authorities and Public Relations

PART 512—PRISONERS

REVISION OF PART

Part 512, including §§ 512.1 and 512.2 is revised to read as follows:

Sec.
512.1 Clemency.
512.2 Correspondence and visits.
512.3 Temporary parole.

AUTHORITY: §§ 512.1 to 512.3 issued under sec. 2, 38 Stat. 1085, as amended; 10 U. S. C. 1453. Interpret or apply secs. 1, 2, 38 Stat. 1074, 1075, 1085, 1086; 10 U. S. C. 1455, 1457, 1457a, 1457b.

SOURCE: AR 633-10, January 20, 1956, and AR 633-5, March 29, 1956.

§ 512.1 *Clemency*—(a) *General.* The regulations of this section establish uniform policies for the mitigation, remission and suspension of sentences of Army prisoners. For further information, see Manual for Courts-Martial 1951 (16 F. R. 1303), paragraph 97.

(b) *Authority to mitigate, remit, and suspend sentences.* (1) Any commanding officer of a sentenced or unsentenced prisoner who has the authority to appoint a court of the kind that imposed the sentence, or any superior military authority, may mitigate, remit, or suspend, in whole or in part, any unexecuted portion of a sentence (including all uncollected forfeitures) adjudged by a court-martial, other than a sentence extending to death or dismissal or affecting a general officer, with the following exception: only the Secretary of the Army or other person designated by him may mitigate, remit, or suspend the unexecuted portions of sentences of sentenced prisoners confined in United States disciplinary barracks or in institutions under the control of the Attorney General.

(2) As an exception to Article 74 (a), Uniform Code of Military Justice, the President has delegated to the Secretary of the Army the authority as to persons convicted by military tribunals under jurisdiction of the Department of the Army to remit or suspend any part or amount of the unexecuted portion of any sentence extending to death which, as approved by the President, has been commuted to a lesser punishment (Executive Order 10498, 4 Nov. 53, 18 F. R. 7003).

(3) After being informed of the decision of the Board of Review in a case referred to it, The Judge Advocate General may, prior to taking the action prescribed in Manual for Courts-Martial, 1951, paragraph 100c (1), mitigate, remit, or suspend in whole or in part any unexecuted portion of a sentence other than a sentence extending to death or dismissal or affecting a general officer

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

**CFR SUPPLEMENTS**

**(As of January 1, 1956)**

The following Supplement is now available:

(including all uncollected forfeitures) adjudged by a court-martial.

(4) Under the provisions of Article 74 (b), Uniform Code of Military Justice, only the Secretary of the Army may authorize, for good cause, substitution of an administrative form of discharge for a discharge or dismissal executed in accordance with the sentence of a court-martial.

(c) *Policy.* So far as may be consistent with the maintenance of military discipline and the preservation of good order, commanders will exercise their authority to mitigate, remit, or suspend unexecuted portions of court-martial sentences when they deem that such action is merited and will result in restoration to duty or otherwise contribute to the rehabilitation of the prisoner. A prisoner's civilian, military, and confinement record will be considered in determining his suitability for clemency.

(d) *Responsibility for required clemency consideration.* Each prisoner will be considered for clemency in accordance with paragraph (e) of this section, by the authorities designated as follows:

(1) *Guardhouses and stockades.* Prisoners confined in the foregoing facilities will be considered for clemency by the commander exercising general court-martial jurisdiction over the prisoners.

(2) *Hospitals.* Prisoners in hospitals who are carried on the rolls of disciplinary barracks will be considered for clemency in accordance with subparagraph (3) of this paragraph. All other prisoners in hospitals, including those prisoners who are designated for confinement in a disciplinary barracks or Federal institution but who are hospitalized prior to arrival at such institutions, except for persons to whom paragraph (b) (2) of this section applies, will be given clemency consideration by the commander exercising general court-martial jurisdiction over the prisoners.

(3) *Disciplinary barracks and Federal institutions.* Each prisoner serving a sentence in a disciplinary barracks or Federal penal or correctional institution or released on parole or conditionally released from such institutions, and each prisoner in a hospital who is carried on the rolls of a disciplinary barracks, will be considered for clemency by the Secretary of the Army. Commandants of disciplinary barracks and wardens of Federal penal and correctional institutions are responsible for furnishing The Provost Marshal General, Department of the Army, case histories of Army prisoners, together with their recommendations concerning restoration to duty and clemency.

(e) *Time of clemency consideration.* (1) Prisoners sentenced to dismissal, dishonorable or bad conduct discharge, and confinement will be considered for clemency by the authority specified in paragraph (d) of this section, as follows:

(i) In cases in which the sentence to confinement is less than 8 months, as soon as practicable.

(ii) In cases in which the sentence to confinement is 8 months or more and less than 2 years, not earlier than 4 months nor later than 6 months from the date the sentence to confinement became effective, and annually thereafter.

(iii) In cases in which the confinement is 2 years or more, not earlier than 6 months nor later than 8 months from the date the sentence to confinement became effective, and annually thereafter.

(iv) In any case at any time prior to completion of the sentence, upon recommendation for cause.

NOTE: The date on which initial clemency consideration is due will be extended by any period during which credit is not given for serving a sentence.

(2) In addition to the considerations for clemency otherwise required, written application for a special clemency consideration, setting forth a basis for the application and containing sufficient grounds for further clemency consideration, may be made by the prisoner or in behalf of the prisoner, and forwarded through channels to the appropriate convening authority having court-martial jurisdiction if the prisoner is confined in a place other than a disciplinary barracks or Federal penal or correctional institution. If the prisoner is confined in a disciplinary barracks or Federal penal or correctional institution, such application will be forwarded to The Provost Marshal General, Department of the Army.

(3) A prisoner released on parole from a disciplinary barracks will be considered annually for clemency until expiration of his sentence as reduced by abatements if the sentence was adjudged prior to May 31, 1951 and without credit for abatements if the sentence was adjudged on or after May 31, 1951.

(4) A prisoner released on parole or conditionally released from a Federal penal or correctional institution will be considered annually for clemency until expiration of the full term of his sentence or sentences without credit for abatements.

§ 512.2 *Correspondence and visits—*(a) *General.* The maintenance of wholesome and frequent contacts with their families and others genuinely interested in their welfare is a vital factor in the rehabilitation of persons in confinement. The right of prisoners to mail and visiting privileges will be limited only by security requirements and the facilities available for proper inspection, handling and supervision. Restrictions on mail or visiting privileges will not be imposed as a disciplinary measure.

(b) *Authorized correspondents and visitors.* No limitations will be imposed as to the number of persons who may be approved for the purpose of visiting or corresponding with a prisoner. The prisoner's wife, children, parents, brothers, and sisters should be approved uniformly, unless disapproval is required in the interest of safe administration or the prisoner's welfare. Other persons may be approved as correspondents and visitors when this appears to be in the best interest of the prisoner.

(c) *Mail.* (1) Incoming and outgoing mail will be inspected for unauthorized content.

(2) Restrictions will not be placed on the number of letters to or from authorized correspondents, except as necessary for security and control, prevention of unreasonable individual excesses, or to prevent delays in processing mail. Normally, prisoners will be permitted to write at least two letters each week and to receive all incoming letters from authorized correspondents. Mail privileges for unsentenced prisoners will be as liberal as operating conditions and facilities permit. Letters to members of Congress, to Federal officials, to higher military authority, or to inspectors general, and correspondence regarding legal matters in which the prisoner has a legitimate interest, will be forwarded to the addressee, subject to inspection. Other special purpose correspondence may be permitted at the discretion of the installation commander or commandant. Letters to members of Congress or the President, and petitions for writs or release, will be forwarded direct to the addressee. Letters containing accusations, charges, or complaints, if addressed to other than a member of Congress or the President, will be forwarded through proper channels to officials who have the authority to correct the complaints or alleged wrongs.

(3) Vulgar or obscene language or any violations of postal laws will not be permitted.

(d) *Visits.* (1) Restrictions on the number and length of visits and on the number of authorized persons permitted to visit at any one time, will be limited to those which are necessary for the safe handling of visits, prisoner control, and those made necessary by operational routines or limited facilities. Normally, sentenced prisoners should be permitted to receive visits of 1 to 2 hours' duration on nonworkdays (weekends and holidays) at least twice monthly. However, in determining the need for exceptions, consideration should be given to the distance traveled by visitors, the frequency of visits, and other pertinent factors. Visits for unsentenced prisoners will be as liberal as operating conditions and facilities permit. Reasonable exceptions as to time and length of visits will be made for attorneys to interview their clients regarding pending legal affairs.

(2) All visits to prisoners will be supervised.

(e) *Other.* The receiving of articles other than correspondence may be authorized by installation commanders or commandants. Telegraphic communications may be authorized only when warranted by existing circumstances. Telephone calls to or by prisoners, at the expense of the caller, will be permitted only in emergencies when no other means of communication will suffice, will be monitored, and will be limited to the emergency subject.

§ 512.3 *Temporary parole.* The installation commander or commandant may authorize a brief home visit by a prisoner, for emergency reasons, after determining that circumstances exist which justify such special action, and that such action is not inconsistent with custodial requirements or the public safety. For this purpose, a temporary parole may be granted the prisoner, analogous to emergency leave, unless the installation commander or commandant determines that travel under guard is required. Travel and subsistence expenses incident to such a home visit, including those of any accompanying guard, will be borne by the prisoner. Normally, visits will be granted only in case of critical illness of an immediate relative, on the basis of verified information, and will be limited to the minimum number of days considered necessary, usually not exceeding one week, exclusive of travel time. For this purpose, "immediate relative" will include wife, children, parents, brothers and sisters, and other persons closely related to the prisoner.

[SEAL] JOHN A. KLEIN,
*Major General, U. S. Army,*
*The Adjutant General.*

## TITLE 14—CIVIL AVIATION

### Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 40–1]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

WEATHER REPORTING FACILITIES AND REQUIREMENTS COVERING LANDING LIMITATIONS OUTSIDE CONTINENTAL UNITED STATES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 18th day of May 1956.

Part 40 of the Civil Air Regulations contains the certification and operation rules for scheduled air carriers conducting interstate operations. Part 41, on the other hand, contains the regulations applicable to scheduled air carriers operating outside the continental limits of the United States. However, § 40.1 of Part 40 permits the Administrator to authorize air carriers whose operations are essentially domestic in character to operate on routes extending beyond the continental limits of the United States in accordance with the provisions of Part 40 in lieu of the provisions of Part 41 in order to permit continuity of operating procedures throughout the air carriers' systems.

Currently effective § 40.35 of Part 40 requires air carriers to show that sufficient wheather reporting services are available en route to insure necessary weather reports and forecasts prepared and released by the United States Weather Bureau or by a source approved by the Weather Bureau. However, reports prepared by the United States Weather Bureau or a source approved by the Weather Bureau are not normally available for areas under the jurisdiction of other nations.

Currently effective § 40.406 of Part 40 prescribes the take-off and landing weather minimum requirements for IFR flight. These requirements include provisions allowing pilots to "take-a-look" to determine whether conditions at the airport are at or above prescribed weather minimums and, if so, to continue to approach and land. Authority to "take-a-look" is limited to airports served by ILS and GCA in operative condition or to airports at which certain instrument approach procedures are commenced when weather conditions above prescribed minimums exist but which a later report indicates are below minimum requirements. Part 41, on the other hand, prohibits air carriers from "taking-a-look" only at airports at which United States Weather Bureau reports indicate below minimum conditions exist. At airports outside the United States which do not possess a United States Weather Bureau reporting service, a pilot may in his discretion "take-a-look". If he finds that weather conditions at the airport are at or above prescribed weather minimums, he may complete the approach and land.

The inapplicability of § 40.35 to air carrier operations outside the United States and the inconsistency between Parts 40 and 41 with respect to "take-a-look" restrictions appear to have been an oversight. In order to correct this situation, § 40.35 is being amended to provide for the use of weather reports prepared by sources other than those approved by the United States Weather Bureau on routes extending beyond the continental limits of the United States on which operations are conducted pursuant to § 40.1. These "other" sources shall be approved by the Administrator. In addition, § 40.406 is being amended to prohibit pilots from "taking-a-look" only when the latest United States Weather Bureau report or a report from a source approved by the Weather Bureau indicates the ceiling or visibility to be less than the prescribed minimum. This will enable pilots flying on routes outside the continental United States pursuant to § 40.1 to exercise the same "take-a-look" privileges as are available to pilots flying in accordance with Part 41.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented (20 F. R. 8579).

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) effective June 22, 1956:

1. By amending § 40.35 to read as follows:

§ 40.35 *Weather reporting facilities.* The air carrier shall show that sufficient weather reporting services are available along the route to insure weather reports and forecasts necessary for the operation. Forecasts used to control flight movements shall be prepared from weather reports furnished in accordance with paragraphs (a) and (b) of this section as appropriate.

(a) For operations within the continental limits of the United States, weather reports used to control flight movements shall be those prepared by the United States Weather Bureau, or by a source approved by the Weather Bureau.

(b) For operations authorized in accordance with § 40.1 to be conducted outside the continental limits of the United States, weather reports used to control flight movements may be those prepared by any source approved by the Administrator.

2. By amending § 40.406 to read as follows:

§ 40.406 *Take-off and landing weather minimums; IFR.* (a) Except as provided in paragraphs (c) and (d) of this section, irrespective of any clearance which may be obtained from air traffic control, no airplane shall take off or land under IFR when the ceiling or ground visibility reported by the U. S. Weather Bureau or by a source approved by the Weather Bureau is less than the minimum approved for the airport when used as a regular airport.

(b) Except as provided in paragraphs (c) and (d) of this section, no instrument approach procedure shall be executed when the latest weather report prepared by the U. S. Weather Bureau or by a source approved by the Weather Bureau indicates the ceiling or visibility is less than the landing minimum approved for the airport when used as a regular airport.

(c) An instrument approach procedure may be executed when the weather report prepared by the U. S. Weather Bureau or by a source approved by the Weather Bureau indicates that the ceiling or visibility is less than approved minimum for landing, if the airport is served by ILS and PAR in operative condition and both are used by the pilot, and thereafter a landing may be made, if weather conditions equal to or better than the prescribed minimums are found to exist by the pilot in command upon reaching the authorized landing minimum altitude.

(d) If an instrument approach procedure is initiated when the current report prepared by the U. S. Weather Bureau or by a source approved by the Weather Bureau indicates that the prescribed ceiling and visibility minimums exist and a later weather report indicating below minimum conditions is received after the airplane (1) is on an ILS final approach and has passed the outer marker, or (2) is on a final approach using a radio range station or comparable facility and has passed the appropriate facility and has reached the authorized landing minimum altitude, or (3) is on GCA final approach and has been turned over to the final approach controller, such ILS, Range, or GCA approach may be continued and a landing may be made in the event weather conditions equal to or better than the prescribed minimums for the airport are found to exist by the pilot in command of the flight upon reaching the authorized landing minimum altitude.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551–554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
*Secretary.*

[F. R. Doc. 56–4054; Filed, May 22, 1956; 8:50 a. m.]

## Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 196]

### PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

### PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and latitudes are in feet, MSL. Ceilings are in feet above airport elevation. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility; class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance facility to airport | Ceiling and visibility minimums: Condition | Ceiling and visibility minimums: 2 engines or less: 65 knots or less | Ceiling and visibility minimums: 2 engines or less: More than 65 knots | Ceiling and visibility minimums: More than 2 engines (more than 65 knots) | If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| DAVENPORT, IOWA. Municipal, 737'. SBRAZ-DTV-MLI. Procedure No. 1. Amendment No. 3. Effective date: June 16, 1956. Supersedes Amendment 2, dated January 21, 1956. Major changes: (1) Missed approach instructions revised to prevent conflict with aircraft holding on the back course of MLI ILS; (2) conversion of statute to nautical miles. | Moline VOR | 236—18.3 | 2,300 | S side of W course: 265° outbound. 085° inbound. 2,000' within 10 miles. | 1,300 | 040—2.3 | T-dn<br>C-dn<br>S-dn<br>A-dn | 300–1<br>400–1<br>400–1<br>800–2 | 300–1<br>500–1<br>500–1<br>800–2 | 200–½<br>500–1½<br>500–1½<br>800–2 | Within 2.3 miles, make left turn and return to the MLI LFR holding within 20 miles on the W course. CAUTION: Official weather information indicating conditions at Davenport at or above minimums specified must be obtained prior to the time a let-down is started. |
| PEORIA, ILL. Greater Peoria, 659'. SBMRAZ-DTV-PIA. Procedure No. 1. Amendment No. 4. Effective date: June 16, 1956. Supersedes Amendment 3, dated June 30, 1954. Major changes: (1) Missed approach altitude raised account 1,267' radio tower in pull-up area; (2) procedure turn distance reduced to 10 miles; (3) transition from Peoria VOR added; (4) Peoria approach distance limited. | Peoria VOR | 071—5.2 | 2,000 | W side of N course: 002° outbound. 182° inbound. 2,000' within 10 miles. | 1,500 | 170—2.1 | T-dn<br>C-dn<br>S-dn<br>A-dn | 300–1<br>400–1<br>400–1<br>800–2 | 300–1<br>500–1<br>500–1<br>800–2 | 200–½<br>500–1½<br>500–1½<br>800–2 | Within 2.1 miles, climb to 2,300' on S course within 20 miles. |
| PIERRE, S. DAK. Pierre, 1,742'. SBRAZ-DTV-PIR. Procedure No. 1. Amendment No. 8. Effective date: June 16, 1956. Supersedes Amendment 7, dated July 17, 1954. Major changes: (1) New form, including conversion to statute units; (2) column 5 distance revised (criteria); (3) Straight-in runway number added; (4) column 11 distance revised to 20 miles; Washington request; (5) Procedure page restriction deleted. | PIR VOR | 236—2.2 | 3,000 | N side of E course: 094° outbound. 274° inbound. 3,000' within 10 miles. | 2,500 | 269—2.9 | *T-dn<br>C-d<br>C-n<br>S-d 25<br>S-n 25<br>A-dn | 300–1<br>400–1½<br>400–1<br>400–1½<br>800–2 | 300–1<br>500–1½<br>500–1<br>500–1½<br>800–2 | 200–½<br>500–1½<br>500–2<br>500–1½<br>800–2 | Within 2.9 miles turn left, climb to 3,500' on W course within 20 miles. *Takeoff to NW restricted to 400–1. |

2. The very high frequency omnirange procedures prescribed in § 609.9 (a) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses, and radials are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility: class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance, facility to airport | Ceiling and visibility minimums | | | | If visual contact not established at authorized minimums after passing facility within distance specified or if landing not accomplished |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Condition | 2 engines or less | | More than 2 engines; more than 65 knots | |

3. The very high frequency omnirange procedures prescribed in § 609.9 (b) are amended to read in part:

TVOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. NOTE: Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a TVOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility: class and identification; Procedure No. (TVOR); effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance from int. runway center line extended and final course to approach end of runway | Ceilings and visibility minimums | | | | If visual contact not established at TVOR, or if landing not accomplished |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Condition | 2 engines or less | | More than 2 engines; more than 65 knots | |
| | | | | | | | | 65 knots or less | More than 65 knots | | |

4. The very high frequency omnirange procedures prescribed in § 609.9 (c) are amended to read in part:

VOR/DME STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses, and radials are magnetic. Elevations and altitude are in feet MSL.

If a VOR/DME instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specific routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

NOTE: Distances are in nautical miles unless otherwise indicated except visibilities, which are in statute miles.

El Paso, Tex.; International Airport; elevation 3,926'; facility BVOR/DME; identification ELP; Amendment No. 2; effective date, June 16, 1956; supersedes Amendment 1, dated January 18, 1956.

| Transition to facility or transition to DME orbit | | | | Procedure turn; side of approach radial; altitudes; limiting distances | Minimum altitude on approach radial | | | | Procedure No.; direct or right or left turn to final approach orbit; Runway No. | Minimum altitude on final approach orbit | | | Ceiling and visibility minimums | | | | If visual contact not established at authorized landing minimums at fix specified, or if landing not accomplished— |

6. The ground controlled approach procedures prescribed in § 609.13 are amended to read in part:

GCA STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. NOTE: Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with GCA to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach. Except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a PAR approach, or for more than 30 seconds during an ASR approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

| City and State; airport name; airport elevation; effective date | Radar terminal area; maneuvering altitudes by sectors and limiting distances | Ceiling and visibility minimums | | | | | | | | Missed approach procedure |

# TITLE 6—AGRICULTURAL CREDIT

## Chapter III—Farmers Home Administration, Department of Agriculture

### Subchapter B—Farm Ownership Loans

PART 311—BASIC REGULATIONS

SUBPART B—LOAN LIMITATIONS

AVERAGE VALUE OF FARMS; PUERTO RICO

On May 14, 1956, for the purpose of Title I of the Bankhead-Jones Farm Tenant Act, as amended, the average value of efficient family-type farm-management units for the county identified below was determined to be as herein set forth. The average value heretofore established for said county, which appears in the tabulations of average values under § 311.29, Chapter III, Title 6 of the Code of Federal Regulations, is hereby superseded by the average value set forth below for said county.

| PUERTO RICO | *Average value* |
|---|---|
| County: | |
| Utuado | $20,000 |

(Sec. 41 (1), 50 Stat. 529, as amended; 7 U. S. C. 1015 (l))

## Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

### Subchapter B—Loans, Purchases, and Other Operations

[1955 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 2, Corn]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1955-CROP CORN LOAN AND PURCHASE AGREEMENT PROGRAM

MISCELLANEOUS AMENDMENTS

The regulations issued by Commodity Credit Corporation and Commodity Stabilization Service, published in 20 F. R. 4104, 7413 and 7977, containing the specific requirements for the 1955-Crop Corn Price Support Program are hereby amended as follows:

1. Section 421.1138 (f) is hereby amended to also make corn which is delivered to CCC from other than approved warehouse storage, under purchase agreements eligible for sale to CCC if such corn grades No. 4 other than for test weight or grades No. 5, and if it grades "weevily" in addition to a numerical grade of No. 5 or better, so that the amended subsection reads as follows:

§ 421.1138 *Eligible corn.* • • •

(f) (1) To be eligible for sale to CCC under a purchase agreement:

(i) Corn delivered to CCC from other than approved warehouse storage must grade No. 5 or better, except that such corn may bear the special grade "Weevily" in addition to the numerical grade.

(ii) Corn placed in approved warehouse storage prior to the time that the producer notifies the county committee of his intention to sell the corn to CCC must grade No. 3 or better or No. 4 on the factor of test weight only but otherwise No. 3 or better, must not contain in excess of 13.5 percent moisture, and must not grade "weevily".

2. Section 421.1145 (a) (2) is hereby amended to provide the basis of settlement for corn deliverd to CCC from other than approved warehouse storage grading No. 4 on the basis of factors other than test weight, for corn grading No. 5, and for corn bearing the special grade "Weevily" in addition to a numerical grade, and also to provide the basis of settlement for ineligible corn which is inadvertently accepted by CCC and which cannot be returned, so that the amended subsection reads as follows:

§ 421.1145 *Settlement*—(a) *Settlement value.* * * *

(2) (i) Settlement for corn delivered to and purchased by CCC under a purchase agreement shall be made as provided in this section, subject to the provisions of paragraph (d), (f) and (g) of § 421.1018 of the 1955 C. C. C. Grain Price Support Bulletin 1 (20 F. R. 3017 and 20 F. R. 4563).

(ii) Settlement for corn delivered to CCC from other than approved warehouse storage, and purchased by CCC under a purchase agreement shall be made on the basis of weight, grade and other quality factors determined at the time of delivery in accordance with § 421.1018 (d) (4) of the 1955 C. C. C. Grain Price Support Bulletin 1 and §§ 421.1140 and 421.1141, except that in cases provided for in § 421.1018 (d) (3) of the 1955 C. C. C. Grain Price Support Bulletin 1, settlement shall be made on the basis of the grade and quality factors determined pursuant to such section or on the basis of the grade and quality factors determined at the time of delivery, whichever is higher. Settlement for eligible corn delivered to CCC by submission of warehouse receipts issued by an approved warehouse shall be made on the basis of the weight, grade and other quality factors shown on the warehouse receipt or accompanying documents in accordance with § 421.1018 (d) (4) of the 1955 C. C. C. General Grain Bulletin 1. No grade or quality factors determined at any time or on any basis other than indicated herein shall be considered in determining the settlement value.

(iii) Settlement for eligible corn delivered under purchase agreement from other than approved warehouse storage grading No. 3 or better, or No. 4 on the factor of test weight only but otherwise No. 3 or better, and for corn of such grades bearing the special grade "Weevily" in addition to the numerical grade shall be made on the basis of the applicable basic county support rate and the "Schedule of Premiums and Discounts" contained in the 1955 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Corn (20 F. R. 7977). Settlement for eligible corn delivered from other than approved warehouse storage and grading No. 4 on the basis of factors other than test weight and grading No. 5, and for corn of such grades bearing the special grade "Weevily" in addition to the numerical grade, shall be computed on the basis of the applicable basic county support rate applicable for corn grading No. 3 except for moisture, less the difference, if any at the time of delivery, between the market price for No. 3 corn and the market price of the corn delivered, as determined by CCC: *Provided, however,* That if such corn is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price. Settlement for eligible corn delivered to CCC by the submission of warehouse receipts issued by an approved warehouse shall be made on the basis of the applicable basic county support rate and the "Schedule of Premiums and Discounts" contained in the 1955 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Corn.

(iv) In the event that any corn grading "Sample" or "Sample Weevily", or any corn in excess of the maximum stated in the purchase agreement is delivered to CCC under a purchase agreement and, is inadvertently accepted and CCC determines that it is not in a position to reject the corn to the producer, the settlement value shall be the market price of such corn, as determined by CCC, on the date of delivery to CCC: *Provided, however,* That if such corn is sold by CCC in order to determine its market price, the settlement value shall be not less than the sales price.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053; 15 U. S. C. 714, 7 U. S. C. 1447, 1421)

Issued this 18th day of May 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President, Commodity Credit Corporation.*

## TITLE 7—AGRICULTURE

### Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 927—MILK IN THE NEW YORK METROPOLITAN MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 927), regulating the handling of milk in the New York metropolitan milk marketing area, hereinafter referred to as the "order", it is hereby found and determined, that:

(a) The following provisions of the order do not tend to effectuate the declared policy of the act:

(1) For the period June 1–13, 1956, all provisions of subparagraph (11) of § 927.40 (a) except the provision "(11) Multiply the result determined pursuant to subparagraph (10) of this paragraph by" and the provision "0.88."

(2) For the period June 14–30, 1956, all provisions of subparagraph (11) of § 927.40 (a) except the provision "(11) Multiply the result determined pursuant to subparagraph (10) of this paragraph by" and the provision "0.94."

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are found to be impracticable, unnecessary, and contrary to the public interest in that:

(1) The information upon which this action is based did not become available in time sufficient for such compliance;

(2) A substantial majority of the producers of milk for the market have requested this action;

(3) It is found necessary to issue and make effective this suspension order to reflect current marketing conditions and to facilitate, promote, and maintain orderly marketing conditions in the marketing area; and

(4) This suspension order does not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for issuance of this order.

*It is therefore ordered,* That, the following provisions appearing in § 927.40 (a) of the order be and hereby are suspended:

(1) For the period June 1–13, 1956, all provisions of subparagraph (11) of § 927.40 (a) except the provision "(11) Multiply the result determined pursuant to subparagraph (10) of this paragraph by" and the provision "0.88."

(2) For the period June 14–30, 1956, all provisions of subparagraph (11) of § 927.40 (a) except the provision "(11) Multiply the result determined pursuant to subparagraph (10) of this paragraph by" and the provision "0.94."

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 18th day of May 1956.

[SEAL] EARL L. BUTZ,
*Assistant Secretary.*

[F. R. Doc. 56-4051; Filed, May 22, 1956; 8:50 a. m.]

[945.301 Amdt. 9]

PART 945—TOMATOES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

*Findings.* (a) Pursuant to Marketing Agreement No. 125 and Order No. 45 (7 CFR Part 945; 20 F. R. 7357), regulating the handling of tomatoes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Florida Tomato Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (1) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (2) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of tomatoes, in the manner set forth below, on and after the effective date of this amendment, (3) compliance with this amendment will not require any special preparation on the part of handlers which cannot be completed by the effective date, (4) reasonable time is permitted, under the circumstances, for such preparation, (5) information regarding the committee's recommendations has been made available to producers and handlers in the production area, and (6) this amendment relieves restrictions on the handling of tomatoes grown in the production area.

(b) *Order, as amended.* The provisions of § 945.301 (b) (2), as amended (31 F. R. 2408, 2746, 3075, 3217), are hereby further amended by deleting all of such subparagraph (2). Section 945.301 (b) (3), (4), (5), (6), (7), and (8) is hereby renumbered respectively § 945.301 (b) (2), (3), (4), (5), (6), and (7).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 21st day of May 1956, to become effective May 23, 1956.

[SEAL] S. R. SMITH,
*Director,*
*Fruit and Vegetable Division.*

[F. R. Doc. 56-4093; Filed, May 22, 1956; 8:52 a. m.]

PART 1001—LIMES GROWN IN FLORIDA

MISCELLANEOUS AMENDMENTS

Notice was published in the FEDERAL REGISTER issue of May 2, 1956 (21 F. R. 2895), that the Department was giving consideration to the proposed amendment of the supplementing rules and regulations (7 CFR 1001.110 et seq.; Subpart—Rules and Regulations; 20 F. R. 6017) currently in effect pursuant to the marketing agreement and Order No. 101 (7 CFR Part 1001; 20 F. R. 4179) regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Florida Lime Administrative Committee (established pursuant to said marketing agreement and order as the agency to administer the provisions thereof), it is hereby found that the amendment, as hereinafter set forth, of the said rules and regulations is in accordance with the provisions of the said marketing agreement and order and will tend to effectuate the declared purposes of the Agricultural Marketing Agreement Act of 1937, as amended. Such amendment is hereby approved; and the said rules and regulations are amended as follows:

1. By changing the period at the end of paragraph (b) of § 1001.120 *Handler registration* to a colon and adding immediately thereafter the following: "*Provided,* That such applicant shall have been issued for the current season a certificate of registration pursuant to § 601.40 of the Florida Citrus Code covering the packing house in which limes are to be handled."

2. By adding in § 1001.130 *Limes not subject to regulation* immediately following paragraph (a) of such section, a new paragraph (b) reading as follows:

(b) The term "commercial processing into products," as used in paragraph (c) of § 1001.56, means the manufacture of any lime product which has been preserved by any recognized commercial process, including canning, freezing, dehydrating, drying, the addition of chemical substances, or by fermentation. Limes handled for conversion into juice without further processing or preservative treatment, as herein described, shall be deemed fresh limes subject to all regulations under this part.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued this 18th day of May 1956, to become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

## TITLE 39—POSTAL SERVICE

### Chapter I—Post Office Department

PART 43—MAIL DEPOSIT AND COLLECTION

PART 45—CITY DELIVERY

PART 97—APARTMENT HOUSE REGULATIONS

MISCELLANEOUS AMENDMENTS

a. Section 43.4 *Mail chutes* is hereby rescinded.

b. Section 43.5 *Separation of mail by sender* is redesignated as § 43.4.

c. Section 43.6 *Recall of mail* is redesignated as § 43.5.

d. New § 43.6 is hereby added to read as follows:

§ 43.6 *Mail chutes and receiving boxes*—(a) *Use.* (1) Mailing chutes and receiving boxes may be placed at the expense of the owner in public buildings, railroad stations, hotels, and business or office buildings of not less than 4 stories, and apartment houses of not less than 40 residential apartments. Buildings in which receiving boxes are located must be open to the general public, without restrictions, during the hours prescribed for mail collections. If the owner of a building does not desire to install a mail chute and receiving box, a receiving box only may be installed, provided the postmaster has determined it is necessary and has approved its installation.

(2) Mailing chutes and receiving boxes are intended for the reception or deposit of mail matter of the first class and must not be used for the deposit of mail of any other class.

(b) *Approval of installation.* (1) Requests for the installation of mailing chutes and receiving boxes must be approved by the postmaster and he must be furnished the contract and specifications for any proposed chute and box. The postmaster has authority to approve, upon formal application, the installation of mailing chutes and receiving boxes conforming to these regulations. Collection will not be made from any chute box until approved by the postmaster, and no unapproved chute shall bear any sign indicating that it is under the protection of the United States Postal Service.

(2) The specifications must provide for a complete installation ready for collection service, with a tentative plan of the building showing the contemplated location of the whole of such chute and of the receiving box.

(3) If the postmaster approves the contract and specifications, he will endorse his approval upon the contract and report his action to the Regional Director or the regional operations manager.

(c) *Specifications for construction of chutes*—(1) *Size.* The chute must be approximately 2 by 8 inches in size and must extend in a continuously vertical line from the point of beginning to the receiving box.

(2) *Material.* (i) Every mailing chute must be made entirely of metal and glass. The metal parts of the chute must be of such form, weight, and character as to insure rigidity, safety, and durability. Panel moldings must be of metal of suitable strength and resilience to insure a constant grip on the glass. At least three-fourths of the front of the chute in each story must be of heavy sheet or plate glass not less than three-sixteenths of an inch in thickness. All joints in the chute must be tight so that mail matter cannot catch or lodge therein.

(ii) Chutes must be securely mounted on steel angles, or other material approved by the Regional Director or regional operations manager. The mounting must be plumb and flush the entire length of the chute. The chute must be so constructed that floor sections can be easily removed from floor thimbles.

(3) *Mail slots.* (i) The chute must be provided with openings (mail slots) on each floor for deposit of mail. Each opening must be 4¾ by ½ inches, with a second inside opening of the same size

2½ inches below the first, with serrate edges or other suitable device designed to prevent clogging. The legend "U. S. Mail" must be plainly inscribed upon chutes at every mail opening.

(ii) At each slot opening, there must be attached a suitable dustproof glazed frame for printed cards, 4¾ by 9 inches, giving information as to the use of mail chutes, stating that the hours of collection are posted on the receiving box, and calling attention to the penalties for tampering with mail equipment.

(4) *Locking devices.* The chute must be provided with a suitable locking device and keys by means of which it may be conveniently opened and closed by postal authorities but not by other persons. The lock must be so constructed that the key cannot be removed until the chute is properly locked.

(5) *Location and arrangement.* (i) The chute must be so placed as to be conveniently accessible throughout the entire length. In no case shall the chutes be placed behind elevator screens or partitions or run through any part of a building to which the public is denied access, without the prior approval of the Regional Director or the regional operations manager.

(ii) Mail chutes installed in pairs must be so constructed and erected that any part of either chute may be removed, leaving the other for service.

(iii) The chute must be so constructed that it can be easily opened and closed without the use of tools and without injury to structure or finish, and all portions of its interior must be easily reached. Where panels are not set entirely inside channels, adequate intermediate fastenings controlled by official key must be provided.

(d) *Specifications for construction of receiving boxes*—(1) *Dimensions.* The cubic contents of receiving boxes will be determined by the postmaster. The bottom of the door of the box must not be less than 30 inches from the floor level of the building. The exterior of the bottom of the box must not be less than 20 inches from the floor level, and this space shall be entirely open and unobstructed and so arranged that the mail collector may place a satchel or other receptacle in convenient position under the bottom of the door when making collections.

(2) *Material.* Receiving boxes must be constructed of metal of sufficient weight and such character as to insure security and rigidity. Boxes must be provided with cushions, yielding bottoms, or deflecting devices which will effectively prevent injury to mail matter descending through the chute. If cushions are used, they shall be made of wool felt and covered with asbestos cloth. The bottom of the box must be provided with a suitable means of attaching and holding the carrier's satchel or other receptacle in position.

(3) *Door and floor.* Receiving boxes must be provided with doors opening to the right upon exposed side hinges secured with rivets. The door openings must be not less than 12 by 20 inches nor more than 18 by 30 inches. The floor of the interior of the box, or cushion if one is used, must be level with the threshold of the door. Four screw holes must be placed in the door, to fit letter box arrow locks furnished by the postmaster.

(4) *Mail slots, markings, and display frames.* Boxes must be provided with mail openings 1¼ inches wide by 11 inches long, protected by inside hood. Openings shall be not more than 5 feet 10 inches above the floor level and protected by inside hinge flaps, and legibly inscribed "Letters". Boxes must be distinctly marked "U. S. Mail Letter Box" and must be provided with suitable and convenient frames to display collection schedule cards 3¾ by 5½ inches in size.

(5) *Location.* Every receiving box must be placed as near to a main entrance of the building as practicable. Receiving boxes must not be located more than 100 feet from a main entrance by the shortest line of travel. The location will be approved only when the postmaster, after careful examination of the tentative building plan, finds it impracticable because of structural conditions to place a receiving box closer to a main entrance. A receiving box may be placed on only the ground floor of a building.

(6) *Auxiliary box.* If the receiving box to be attached to the chute will not be of sufficient size to accommodate the deposits of first-class mail, an auxiliary box or boxes of sufficient capacity should be installed in close proximity to the mail chute boxes. The cubic contents of the auxiliary receiving box or boxes will be determined by the postmaster, and their construction must conform to the general specifications for the receiving boxes except deflecting devices are not required. The mail openings should be of sufficient size to permit the deposit of first-class mail tied in bundles and the mail opening or "pull-down" shall be inscribed "Letters" and "Letter Mail Tied in Bundles."

(7) *Metal compartments.* If, due to structural conditions, it is not practicable to install auxiliary boxes, a metal compartment comparable in size to a small P. O. sack rack should be provided. Although no specifications are stipulated for the construction of the metal compartment, it should be of sufficient height and length to permit the suspension of the required number of sacks from hooks, the number of mail openings to correspond to the number of sacks. The compartment must be lettered or stenciled "U. S. Mail" in large letters and have on each section or at the mail opening the inscription "Letter Mail Tied in Bundles." The compartment must be constructed so as to permit the convenient hanging and withdrawing of the sacks.

(8) *Combination letter and bundle box.* If the receiving box to be attached to a chute will not be of sufficient size to accommodate the deposits of first-class mail, and it is not desired to install a separate auxiliary box, a combination letter and bundle letter box may be attached to the chute in lieu of the regular receiving box, constructed as follows:

(i) The box must be at least 60 inches high, 23 inches wide, and 17 inches deep, and shall have a pull-down inlet door with an opening 7 by 11½ inches inscribed "Letters and Letter Mail Tied in Bundles." The bottom edge of the door opening should be not more than 5 feet above the floor level. The mail opening shall be fully protected by inside baffle plates so as to prevent pilfering of mail.

(ii) At a height of 3 feet 4 inches from the bottom of the box there must be placed a ¾-inch pipe hanger (removable) along each side of the box from the front to the back, each equipped with two sliding hooks so that a No. 1 mail sack may be hung thereon.

(iii) The bottom of the box and this door should be flush or below the level of the bottom of the box and this door should be of such size and so constructed as to permit the convenient hanging and withdrawing of the sacks. There must be four screw holes in this door to fit the letter box arrow lock to be furnished by the postmaster.

(iv) Boxes shall be distinctly marked "U. S. Mail."

(e) *Maintenance of chutes and receiving boxes.* (1) Every mailing chute and receiving box must be inspected by a representative of the postmaster at least once a year; and such cleaning and repairing as may be directed by the postmaster must then be done under his supervision, by and at the expense of the proprietor or lessee of the building in which such mailing chute and receiving box are situated.

(2) If the postmaster finds that any part of the chute or receiving box does not conform to these regulations, or has become defective, he must close the mail openings and discontinue collections, and shall not resume collections until the mailing chute and receiving box fully meet the requirements of these regulations. All repairs, changes, and alterations to mailing chutes and receiving boxes must be made by and at the expense of the owner or lessee of the building in which they are situated, under the supervision and subject to the approval of the postmaster.

(3) Any obstruction in a mailing chute must be at once reported to the postmaster, who must promptly make an inspection of the chute. If the obstruction resulted from misuse or abuse of the chute, he will notify the proprietor or lessee of the building in which it is located and may, in his discretion, close the mail openings and discontinue collections until satisfied that proper care will be taken in the future use of the chute and the receiving box. If collections are discontinued, the postmaster will attach to the chute, at the several mail openings, notices of discontinuance.

(f) *Custody and control of chutes and receiving boxes.* (1) Mailing chutes and receiving boxes are considered the property of the United States as long as collections of mail are made from them and shall remain under the exclusive custody and control of the postmaster until collections are discontinued by his direction.

(2) Every mail chute contract must contain an explicit waiver by the owner or owners of patents issued or to be issued on the chute and receiving box covered by the contract, and on any device or devices connected therewith, of all claims against the United States and its officers and agents for the use of such chute and box and such device or devices.

(3) The contract must contain a full warranty by the company or person proposing to erect the chute and receiving box against claims on account of infringements of the patents of others. Before commencing collections of mail, the postmaster must assure himself that a blanket bond in such form and with such penalty as may be prescribed by the Postmaster General has been filed at the Department conditioned that the obligor and his or its sureties shall and will protect and indemnify the United States from any and all such claims, accompanied with a written notice from such person or company that they have no claim of any kind against such mailing chute and receiving box. This bond must be in the amount of $10,000, though a larger sum may be required if considered advisable by the Post Office Department.

(4) With every mail chute contract submitted for approval there must be furnished evidence that a surety bond in the sum of $3,000 has been given to the purchaser guaranteeing the construction and installation of the mail chute equipment in accordance with the rules, regulations, and specifications of the Post Office Department, and that any defect arising within 3 years will be remedied by the manufacturer without expense to the purchaser.

(5) When mailing chutes and receiving boxes are erected under lease, the postmaster is authorized to sign an agreement, endorsed on the back of the contract, between the proprietor or lessee of the building and the person or company erecting the chutes and boxes, providing that if the lessors of the chutes and boxes shall request the return of the mailing apparatus, the postmaster will, after due notice to the proprietor or lessee, discontinue collections, remove the lock from the receiving box, and permit the removal of the mailing apparatus by the lessors.

(g) *Regulations to be part of contract.* The contents of this section must be printed on the back and become a part of every contract for the erection and use of mailing chutes and receiving boxes entered into between the manufacturers or owners of chutes and boxes and the proprietor or lessee of the building in which they are located. Postmasters may obtain copies of the contents of this section from their area supply centers for distribution to appropriate patrons.

(h) *Mailing chute manufacturers.* The following are approved mailing chute manufacturers:

Capitol Mail Chute Corp., 55 Cozine Avenue, Brooklyn, N. Y.

Cutler Mail Chute Company, 76 Anderson Avenue, Rochester 7, N. Y.

Federal Mail Chute Corp., Ltd., 1890 Sixteenth Street, San Francisco, Calif.

(R. S. 161, 396, as amended; sec. 1, 24 Stat. 569, as amended; 5 U. S. C. 22, 369, 39 U. S. C. 156)

e. In § 45.4 *Mail receptacles* rescind paragraph (c).

f. Add new § 45.6, to read as follows:

§ 45.6 *Apartment house receptacles*—(a) *Conditions requiring installation of receptacles.* (1) The delivery of mail in apartment houses, family hotels, residential flats, and business flats in residential areas, containing three or more apartments having a common street entrance, shall be contingent on the installation and maintenance of United States Post Office approved mail receptacles, one for each apartment, including resident manager and janitor, unless the management has arranged for the mail to be delivered at the office or desk for distribution by its employees. The cost of receptacles and their installation are paid for by the owner of the building.

(2) Owners and managers of apartment houses, family hotels, and flats, equipped with old-type apartment house mail receptacles are urged to install up-to-date and approved receptacles to assure more adequate protection to the mail of occupants. When these buildings are remodeled to provide additional apartments or when a material change in the location of boxes is made, they shall be equipped with approved receptacles.

(3) When new apartments are being erected or existing ones are remodeled, postmasters will inform builders and owners of the requirements of this section and will provide for a suitable inspection to see that receptacles of safe and durable construction are installed in conformity with this section.

(b) *Specifications for construction of receptacles*—(1) *Materials.* The receptacles shall be manufactured of material of such strength and thickness as to provide reasonable safety to the mail deposited.

(2) *Capacity.* The receptacles must be of sufficient capacity to receive long-letter mail 4½ inches in width and certain large and bulky magazines, unrolled as well as rolled, and must be so constructed and of such height or length and capacity that magazines 14¼ inches in length and 2½ inches in diameter, if rolled, may be deposited and removed with facility.

(3) *Individual doors and locks.* (i) Each individual receptacle must be equipped with a door through which the mail may be removed by the holder. The doors of the several receptacles shall be secured by key locks or combination keyless locks. If key locks are installed, manufacturers must provide a sufficient number of key changes to prevent the opening of receptacles by the use of a key to any other receptacle in the same house or in the immediate locality. These locks must be securely fastened to the door or receptacle. Each lock should be clearly numbered on the back so that if key is lost, a duplicate may be ordered by number. The lock number should also be clearly shown on the inside of the master door directly above the individual box to which it is attached.

(ii) Apartment house managers must maintain a record of the number of keys supplied by manufacturers and jobbers, relating the key number to the receptacle number, so that, when necessary, new keys may be ordered. Key numbers shall not be placed on the barrels of the locks, as this would make it possible for unauthorized persons to secure keys and gain access to the boxes. Apartment house managers must keep a record of the combinations of keyless locks so that new tenants may be given the combination. These records of key numbers and combinations must be kept in the custody of the manager or a trusted employee.

(4) *Master doors and locks.* (i) Each group of receptacles must be equipped with a master door or device on the opening of which the entire group of receptacles is accessible for the deposit of mail by carrier. The master door or device shall be secured by a master lock furnished by the Post Office Department for use so long as mail is delivered by letter carriers, the key for which shall be in the custody of postal employees.

(ii) The master lock must be attached to the group of receptacles by the owner or builder of the apartment house, or by his direction, under the supervision of the postmaster's representative who will see that they are securely attached. The plate to which the master lock will be fastened should be riveted to the face of the box.

(5) *Slot.* In the face of each receptacle there must be provided a slot 2 inches in length and one-eighth inch wide for the deposit of carrier and special delivery notices.

(6) *Numbers and name cards.* (i) Mail receptacles must be satisfactorily numbered or lettered in numerical or alphabetical sequence from left to right so as to enable the carrier to expeditiously deliver the mail.

(ii) Each receptacle must be fitted with clasps or holders for placing a card on which shall be placed a list of the names of persons receiving mail through such receptacles. The holders for the lists of names may be placed on the outside of the receptacles instead of inside, if the holders are wide enough for not less than three names and are placed so that the carrier while in a standing position may read the names when the master door is open.

(7) *Arrangement and location.* (i) Not more than two tiers of boxes may be installed. Boxes should be arranged so as to permit the installation of the largest number of boxes with the smallest number of master locks. The minimum number of boxes to which one master lock may be attached is three.

(ii) The receptacles must be arranged in groups, as many in each group as is consistent with safety, but never less than eight in a group, except where the number of apartments is less than eight or where the number of boxes cannot be evenly divided into multiples of eight or where telephone units are installed with the receptacles.

(iii) Receptacles in apartment houses shall be located at points reasonably near the entrance in vestibules, halls, or lobbies, adequately lighted, so as to afford the best protection to the mail and enable the carriers to read the addresses on mail and the names on boxes without undue strain on their eyes and without molestation by swinging or opening doors. The receptacles must be placed

so that the center of the barrel of the master lock of the upper tier will be not more than 5½ feet from the floor and the center of the barrel of the master lock of the lower tier will be not less than 30 inches from the floor.

(8) *Installation with telephone units.* (i) Where necessary or desirable to install mail receptacles in conjunction with a telephone unit of a standard size, the receptacles may be placed in two tiers, or they may be installed in groups or batteries of less than eight if required for the proper arrangement of the groups in the two tiers. This does not apply to cases where the telephone unit is installed independently of mail receptacles. Although there is no objection to combining these two services, the mail receptacles must be separated from the telephone or electrical unit. Electric push buttons may be placed in the flange of the face of the nests of mail receptacles, connecting with wires outside the mail receptacles, provided the pushbuttons can be removed from the outside and the wire connection with such pushbuttons can be repaired without removal of the receptacles.

(ii) Telephone units combined with mail receptacle units must be constructed so that access to the telephone unit is not dependent on entering the mail receptacle, and the latter must not be accessible when the telephone unit is opened.

(c) *Directories.* (1) In all apartment houses where there are 25 or more receptacles, a complete directory of all persons receiving mail must be maintained. Where an apartment house is divided into units with separate entrances and 25 or more receptacles are installed to the unit, a separate directory must be provided for each unit. In addition, where mail is not generally addressed to specific units, a directory must be kept at the main unit of the building, listing all persons receiving mail in the various units.

(2) Directories must be alphabetical by surname and must be maintained and kept corrected to date. The receptacle number and apartment number should always be the same, and the apartment number should appear on the right of the name on the directory. If, for any cause, the apartment number is different from the number of the receptacle, the receptacle number should appear on the left of the name in the directory. The same arrangement shall be followed where the apartments and receptacles are either lettered or lettered and numbered.

(3) The directory must be of legible type, in a suitable frame for protection purpose, and attached to the wall immediately above or to the side of the mail receptacles where it can be easily read. If an attendant, such as telephone operator, doorman, or elevator conductor, is on duty between the hours of 7 a. m. and 11 p. m. and mail is delivered either to apartment house receptacles or in bulk for distribution by employees of the building, the directory may be kept in the custody of the employee on duty in the building so that it may be available to the carrier or special delivery messenger on request.

(d) *Maintenance and repair.* (1) The owners or managers of buildings must keep receptacles in good repair. Owners and managers of buildings must return to the postmaster any inside letter-box arrow locks that become defective or that are no longer needed.

(2) Carriers will report on Form 3521, Carriers' Report of Condition of Mail Receptacle, all apartment houses that are being remodeled and all mail boxes that are not locked or are out of repair. Delivering employees and postmasters will see that inside letter-box arrow locks are properly accounted for when buildings are torn down or remodeled and that such defective locks are recovered.

(3) Upon receipt of a report of lack of repair or irregularity in the operation of apartment house mail receptacles, postmasters will have prompt investigation made and direct what repairs must be made by and at the expense of the owners or managers. So that there will be no question as to the disposition or treatment of mail, repairs must be made only when a representative of the post office is present. It is unlawful for other than postal employees to open receptacles and expose mail.

(4) Failure to keep boxes locked or in proper repair as directed by postmasters is sufficient justification for withholding delivery of mail therein and requiring the occupants of the apartments to call for their mail at the post office, if this action is believed advisable for safety reasons. When such action is contemplated, a reasonable notice of approximately 30 days will be given in writing to the patrons and the owner or manager of the apartment building.

(5) The postmaster will investigate complaints of loss, theft, or injury of mail deposited by carrier in apartment house mail receptacles, and, when it is shown that some one has wilfully or maliciously injured, defaced, or destroyed mail deposited in receptacles, the postmaster will take action to have the matter investigated by a post office inspector.

(6) The United States Penal Code prescribes penalties for the wrongful possession of mail locks and the wilful or malicious injury or destruction of letter boxes and the theft of mail therefrom. Manufacturers are authorized to place on each installation of apartment house mail receptacles the words "U. S. Mail" and a warning notice of these provisions of law. Manufacturers are also authorized to place inconspicuously on each installation their name and words "Approved by the Postmaster General," when the designs have been approved by the Post Office Department.

(e) *Manufacturers and distributors.* The following is a list of manufacturers and distributors of one or more designs of apartment house mail receptacles approved by the Post Office Department, with trade names of boxes:

Art Brass & Plating Works, 417 South Alaskan Way, Seattle 4, Wash. (No. 16 horizontal, and No. 4 vertical).

Auth Electric Co., Inc., 34–20 45th Street, Long Island City 1, N. Y.

Bommer Springs Hinge Co., Inc., 251–271 Classon Avenue, Brooklyn 5, N. Y. (Keilson).

Connecticut Telephone and Electric Co., Meriden, Conn. (Keil).

S. H. Couch Co., Inc., Boston 71, Mass. (Nos. 73 and 73–F).

Edwards Company, Inc., 15 Merwin Street, Norwalk, Conn.

Florence Manufacturing Co., Inc., 8908–18 South State Street, Chicago 19, Ill. (Pry-Proof, 13–F).

Mail Safe Manufacturing Division, of Ekholm Manufacturing Co., 622 Watson Avenue, Saint Paul 2, Minn.

Perma-Bilt Steel Products Co., 8324 Graham Avenue, Los Angeles 1, Calif.

(R. S. 161, 396, as amended; 5 U. S. C. 22, 369)

g. Part 97 Apartment House Regulations is hereby rescinded.

(R. S. 161, 396, as amended; 5 U. S. C. 22, 369)

[SEAL] ABE MCGREGOR GOFF,
*The Solicitor.*

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 909 ]

[Docket No. AO 214–A1]

ALMONDS GROWN IN CALIFORNIA

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), notice is hereby given of a public hearing to be held in the assembly room, State Agriculture Building, 1220 N Street, Sacramento, California, beginning 9:30 a. m., P. d. s. t., June 5, 1956, with respect to proposed amendments to the marketing agreement and order (7 CFR Part 909) regulating the handling of almonds grown in California. The proposed amendments have not received the approval of the Secretary of Agriculture.

The public hearing will be held for the purpose of receiving evidence with respect to the proposed amendments which are hereinafter set forth, or appropriate modifications thereof.

The California Almond Growers Exchange, a cooperative marketing association, has proposed the following amendments and has requested a hearing thereon:

1. Amend § 909.4 by deleting the words "in the initial crop year hereunder, and thereafter" appearing at the end of the section.

2. Amend § 909.6 by deleting the present provisions and substituting therefor the following:

§ 909.6 *Shelled almonds.* "Shelled almonds" means almonds after the shells are removed and includes blanched, diced, sliced, slivered and roasted shelled almonds.

3. Delete §§ 909.7, 909.8, 909.9, and 909.10.

4. Amend § 909.11 by deleting the present provisions and substituting therefor the following:

§ 909.11 *Inedible kernel.* "Inedible kernel" means a kernel, piece, or particle of almond kernel which is not an edible kernel.

5. Amend § 909.12 by deleting the present provisions and substituting therefor the following:

§ 909.12 *Edible kernel.* "Edible kernel" means a kernel, piece, or particle of almond kernel which is free from serious damage as defined in the effective U. S. Standards for shelled almonds. This definition may be changed by the Secretary after consideration of a Control Board recommendation or other pertinent information.

6. Amend § 909.13 by deleting the present provisions and substituting therefor the following:

§ 909.13 *Kernel weight.* "Kernel weight" means the weight of kernels, including pieces and particles, regardless of whether undamaged or damaged, contained in any lot of almonds, unshelled or shelled.

7. Delete §§ 909.19 and 909.20.

8. Amend § 909.21 by deleting the present provisions and substituting therefor the following:

§ 909.21 *Almond products.* "Almond products" means any edible preparation other than blanched, diced, sliced, slivered or roasted shelled almonds, manufactured entirely or partially from raw shelled almonds. This definition may be revised by the Secretary, upon consideration of a recommendation by the Board.

9. Amend § 909.23 by deleting the present provisions and substituting therefor the following:

§ 909.23 *Inspection agency.* "Inspection agency" means the Federal-State Inspection Service or, when specifically designated, the Federal Inspection Service.

10. Amend § 909.24 by deleting the words: "(d) For inedible kernel content" appearing at the end thereof.

11. Amend § 909.25 by deleting the proviso at the end thereof.

12. Amend § 909.26 by deleting the present provisions and substituting therefor the following:

§ 909.26 *Handler carryover.* "Handler carryover" as of any given date means all almonds (except almonds held as certified surplus) wherever located, then held by handlers or for their accounts (whether or not sold), not including any almond products.

13. Amend § 909.27 by deleting the present provisions and substituting therefor the following:

§ 909.27 *Trade demand.* "Trade demand" means the quantity of almonds which commercial distributors and users such as the wholesale, chain store, confectionery, bakery, ice cream, and nut salting trades will acquire from all handlers during a crop year for distribution in continental United States, Alaska, Hawaii, Puerto Rico, and the Canal Zone. Unless otherwise stated it shall be expressed in terms of kernel weight.

14. Amend § 909.41 (e) by deleting therefrom the proviso at the end thereof.

15. Delete § 909.42.

16. Amend § 909.43 by deleting the present provisions and inserting in lieu thereof two sections as follows:

§ 909.43 *Nominations*—(a) *Method.* Nominees for the respective member and alternate member positions shall be chosen by ballot delivered to the Control Board. Nominees chosen as provided herein shall be submitted by the Control Board to the Secretary on or before May 20 of each year together with such related information as he may require. If a nomination for any Board member is not received by the Secretary on or before May 20 he may select such member from persons belonging to the group to be represented, without nomination. The Control Board shall mail to all handlers and growers, other than cooperatives, of record the required ballots and all necessary voting information including the names of incumbents willing to accept renomination and, for growers other than cooperative representation, the name of any person proposed for nomination in a petition signed by 15 such growers and filed with the Board prior to mailing of the ballots. Distribution of ballots shall be announced by press releases furnishing pertinent information on balloting issued by the Control Board through newspapers and other publication having general circulation in the almond producing areas.

(b) *Voting.* (1) Nominees for each member and alternate member position shall be voted upon separately by the group proposing them. The handler or grower group which is determined to be eligible for additional representation pursuant to § 909.41 (e) and (f) respectively, shall nominate such representatives in the same manner prescribed for choosing other nominees.

(2) Each handler may vote for a nominee for each position representing the group to which he belongs. Each handler vote shall be weighted by the quantity of almonds (kernel weight basis computed to the nearest whole ton) handled for his own account through March 31 of the crop year in which nominations are made. The nominee for each position shall be the person receiving highest weighted vote for the position.

(3) Growers who market their almonds through cooperative handlers shall vote through their respective organizations. Each cooperative shall cast a vote for nominees for each position representing the cooperative grower group and such ballots shall be weighted by the number of growers who are members of, or under contract with, such cooperative. The nominee for each position shall be the person receiving the highest weighted vote for that position.

(4) Growers who market their almonds through other than cooperative handlers shall each have one equal vote. The nominees for each position representing such grower group shall be the person receiving the highest number of votes for that position.

§ 909.43a *Selection and term of office.* Members and their respective alternates shall be selected annually by the Secretary for a term of one year beginning June 10 and shall serve until their respective successors are selected and qualified.

17. Amend § 909.46 by deleting the present provisions and substituting therefor the following:

§ 909.46 *Vacancy.* To fill any vacancy occasioned by the death, removal, resignation or disqualification of any member or alternate of the Control Board, a successor for his unexpired term shall be selected by the Secretary after consideration of recommendations which may be submitted by members of the group in which such vacancy exists, unless such selection is deemed impractical by the Secretary due to the proximity of the end of the term or for other reason.

18. Amend § 909.50 (c) by deleting the present provisions and substituting therefor the following:

(c) *Voting by mail or telegram.* The Control Board may vote by mail or telegram upon due notice to all members including in the notice to each a statement of a reasonable time in which a vote by mail or telegram must be received by the Board manager or president for counting: *Provided,* That voting by mail or telegram shall not be permitted at any assembled meeting of the Board. When any proposition is submitted for voting by mail or telegram, one dissenting vote shall prevent its adoption by that method.

19. Amend § 909.62 by deleting the present provisions and substituting therefor the following:

§ 909.62 *Method of establishing salable and surplus percentages.* Whenever the Secretary finds from the recommendations and supporting information supplied by the Control Board or from any other available information, that to designate the percentages of almonds during such crop year which shall be salable almonds and surplus almonds would tend to effectuate the declared policy of the act, he shall designate such percentages. The salable and surplus percentages shall each be applied to the kernel weight of almonds received by a handler for his own account during the crop year, as provided in § 909.65. In establishing such salable and surplus percentages, the Secretary shall give consideration to the ratio of estimated trade demand, minus the handler carryover at

the beginning of the crop year, plus the desirable handler carryover at the end of the crop year, to the estimated production of almonds, all expressed in terms of kernel weight, the recommendation submitted to him by the Control Board, and such other data as he deems appropriate. The total of the salable and surplus percentages established each crop year shall equal 100 percent.

20. Amend § 909.63 by deleting the present provisions and substituting therefor the following:

§ 909.63 *Increase of salable percentage.* The Secretary may, on request of the Control Board made at any time prior to May 15 of any crop year (or if the Control Board shall fail to so request, upon the request within like time of two or more handlers who have handled during the immediately preceding crop year at least 15 percent of the total tonnage, in terms of kernel weight, handled by all handlers during such crop year), and after findings of fact, based upon a revision of the estimates required under § 909.64 and other pertinent information, that the salable almonds are not sufficient to satisfy trade demand for the crop year and requirements for a desirable carryover at the end of the crop year, increase the salable percentage. Such redetermination shall be made in the manner specified in § 909.62.

21. Amend § 909.64 by deleting the present provisions and substituting therefor the following:

§ 909.64 *Board estimates and recommendations.* (a) To aid the Secretary in fixing the salable and surplus percentages, the Board shall furnish to the Secretary, not later than August 1 of each crop year, the following estimates (expressed in terms of kernel weight) and recommendations, each of which shall be adopted by the affirmative vote of at least six members:

(1) The quantity of almonds to be produced;

(2) The handler carryover as of July 1;

(3) The desirable handler carryover at the end of the crop year;

(4) The trade demand, taking into consideration anticipated imports, economic conditions and the anticipated market price (within the limitations of the act); and

(5) The recommended salable and surplus percentages to be established.

(b) The Board shall also furnish to the Secretary a complete report of the proceedings of the Board meeting at which the recommended salable and surplus percentages to be fixed by the Secretary were adopted. If, for any reason, the Board fails to make these estimates or to recommend to the Secretary salable and surplus percentages as required hereby, reports representing the respective views of each member with respect to such matters shall be submitted to the Secretary and the Secretary may act on the basis of such reports or such other information as may be available to him.

22. Amend § 909.65 by deleting the present provisions and substituting therefor the following:

§ 909.65 *Surplus obligation*—(a) *Requirement for withholding.* Except as otherwise provided in §§ 909.66 and 909.68, every handler shall withhold from handling a quantity of almonds having a certified kernel weight equal to the surplus percentage of the kernel weight of all almonds such handler receives for his own account during the crop year and shall have such almonds inspected as required in § 909.84: *Provided,* That this provision shall not apply to any lot of almonds for which the surplus obligation has been met by a previous holder and the handler acquiring such almonds makes a report thereof to the Control Board accompanied by a certification from the previous holder that the surplus obligation for such almonds has been met. Such almonds so withheld shall be set aside and thereafter kept for the account of the Control Board and, from the date of withholding, and at all times thereafter, shall be kept by the handler available for inspection by the Control Board or its agents. Such almonds shall be stored in such manner as to maintain them in the same condition as when certified as surplus except for loss through fire, acts of God, acts of war, riot or other conditions beyond the handler's control. Upon demand of the Control Board they shall be delivered to the Board f. o. b. handler's warehouse or point of storage, except that the Control Board shall not make such demand upon a handler with respect to surplus almonds for which the time for withholding has been deferred pursuant to § 909.66. All such surplus almonds so withheld by the handler shall be, at the time of withholding, placed by the handler at his expense in suitable containers which may be prescribed by the Control Board and following inspection shall be identified by appropriate seals or stamps or tags to be furnished by the Board and to be affixed to the containers by the handlers under the direction and supervision of the inspectors or the Control Board. The quantity of almonds hereby required to be withheld shall constitute, and may be referred to as, the "surplus" or "surplus obligation" of a handler. The almonds handled by any handler in accordance with the provisions of this part shall be deemed to be that handler's quota fixed by the Secretary within the meaning of section 8 (a) (5) of the act.

(b) *Requirements for surplus.* A lot of almonds to be eligible for use in satisfying the surplus obligation of a handler must meet the following requirements, and the weight to be certified and credited as surplus shall be the kernel weight less any inedible kernel weight in excess of three percent of its edible kernel content: (1) The almonds in such lots shall be dry and properly cured, (2) lots of unshelled almonds shall not have more than 10 percent of the almonds by count affected by adhering hulls (where more than 10 percent of the surface is affected) and shall not contain more than 5 percent by weight of loose shells, hulls and other foreign material; and (3) lots of shelled almonds shall not contain, in the aggregate, more than 15 percent by weight of unshelled almonds and shells, loose hulls, and other foreign material and not more than 40 percent inedible kernels. The kernel content of unshelled almonds shall be included in determining edible and inedible kernel weight. The Secretary upon the recommendation of the Control Board may modify these requirements or establish additional requirements including grade requirements for lots of surplus for export or disposition into outlets for human consumption as kernels.

23. Amend § 909.66 by deleting the present provisions and substituting therefor the following:

§ 909.66 *Deferment of time for withholding surplus and procedure*—(a) *Deferment of time.* Compliance by any handler with the requirements of § 909.65 for withholding surplus shall be deferred to any date desired by the handler but not later than May 15 of the crop year, upon the voluntary execution and delivery by such handler to the Control Board of a written undertaking that on or prior to a date within the deferment period herein authorized, he will have fully satisfied his surplus withholding obligation required by said § 909.65. Such undertaking shall be secured either by almonds owned by the applying handler and pledged to the Control Board or by a bond or bonds to be filed with and acceptable to the Control Board in the amount or amounts hereinafter specified conditioned upon full compliance with such undertaking.

(b) *Procedure when almonds are offered as security.* In case the applying handler desires to pledge almonds as security, such almonds shall be owned by him free and clear of any and all liens or encumbrances and shall be in a quantity, kernel weight basis, equal to or in excess of the quantity for which deferment is desired, such quantity to be determined pursuant to rules and regulations prescribed by the Control Board with the approval of the Secretary. The applying handler shall execute and deliver to the Control Board appropriate instruments which shall authorize the Board, in case of default, to sell the pledged almonds up to the quantity represented by the deferred surplus obligation as soon as practicable in the most favorable surplus outlets available, and to remit the proceeds, less Board expenses in connection therewith, to the defaulting handler. Pledged almonds in excess of the deferred obligation shall be returned to the defaulting handler, who shall be charged with any board expenses in connection with such excess quantity. The applying handler, in pledging almonds to the Board, shall agree in writing that he will: store the pledged almonds in bulk storage bins or other containers regularly used by almond handlers, separate and apart from all other almonds; permit inspection of such almonds by the Board or the inspection agency at any time; maintain such almonds insofar as is reasonably practicable in the same condition as when offered as security; store such almonds in a manner that they can be readily identified, weighed, measured, and sampled; and place or cause to be placed on the bins or other containers such seals, tags, stamps or other means of identification

as shall be prescribed by the Control Board, and not remove or permit to be removed such identification except under supervision or direction of the Board.

(c) *Procedure when a bond is offered as security.* (1) In case the applying handler desires to furnish a bond as security, such bond shall be provided at the handler's expense, shall be acceptable to the Control Board, with a surety or sureties acceptable to the board, and shall be in an amount computed by multiplying the pounds of almonds, kernel weight basis, for which deferment is desired by the bonding rate. Such bonding rate shall be computed by the manager of the Control Board and shall be the average (to the nearest half cent) of the current season's opening prices per pound for shelled almonds known as nonpareil shelled count-to-the-ounce almonds 20/22, 23/25, and 27/30, f. o. b. shipping point, in sacks of any handler or handlers who during the preceding crop year handled 51 percent of the almonds handled by all handlers. Such handler or handlers shall be selected in order of volume handled in the preceding crop year, using the minimum number of handlers to represent a volume of 51 percent of the total volume handled. If the prices of one handler only are involved such average shall be a simple average of such prices. If the prices of two or more handlers are involved for the designated almonds, the simple average price of each such handler shall be weighted by the total quantity of almonds handled by him during the preceding crop year. Handlers whose prices are to be used as aforesaid shall furnish the Board with information necessary to compute the bonding rate. Until the bonding rate can be computed in any new crop year, the bonding rate to be used shall be computed as herein provided on the basis of the most recent price lists of such handlers. In the event the average price used in computing the bond rate changed by 5 percent or more, the bonding rate shall be recomputed and the amount of the handler's bond shall be adjusted on the basis of such revised bonding rate. This method of establishing and adjusting the bonding rate may be modified by the Secretary after consideration of a Board recommendation.

(2) In case a handler defaults in meeting his deferred surplus obligation, any funds collected by the Board from the bonding company through such default shall be used by the Control Board to purchase from handlers a quantity of almonds, kernel weight basis, up to but not exceeding the quantity on which the default occurred. Purchases shall be made from almonds with respect to which the surplus obligation has been met, and shall be of grades, varieties or sizes, and in such containers as the Board specifies in consideration of available surplus outlets. Purchases shall be at the lowest prices at which such almonds are offered and if more almonds are offered than required by the Board, it shall make the purchases from various handlers as nearly as practicable in proportion to the quantity of their respective offerings at the same price. The control Board shall dispose of the almonds acquired as soon as practicable in the most favorable surplus outlets and shall remit the proceeds from such sales less Board expenses in connection with such transaction, to the defaulting handler.

(3) If any balance should remain, after purchases and dispositions are made pursuant to the provisions of this paragraph in a quantity equal to the defaulted obligation, such balance shall be remitted to the defaulting handler. If for any reason the Board is unable to purchase a quantity of almonds as large as the quantity of surplus in default by the handler, any remaining balance of funds received because of the default less expenses of the Board, shall be remitted to all handlers, other than the defaulting handler, in proportion to the ratio of each such handler's surplus obligation to the total surplus obligation of all such other handlers for the crop year with reference to which the default occurred.

(d) *Effect of satisfaction.* A handler who has defaulted on his bond shall be credited on his surplus obligation with that quantity of almonds represented by the sums collected divided by the bonding rate.

24. Amend § 909.67 by deleting the present provisions and substituting therefor the following:

§ 909.67 *Payment to handlers for services rendered.* The Control Board may pay handlers for necessary services rendered by handlers in connection with almonds eventually disposed of as surplus including but not limited to storing, shelling, sorting, bleaching, grading, packaging, fumigating, and other services in accordance with such schedule of payments as may be established by the secretary after recommendation of the Control Board.

25. Amend § 909.68 by deleting the present provisions and substituting therefor the following:

§ 909.68 *Interhandler transfers.* Any handler, may, upon notice to, and under the supervision and direction of the Control Board, transfer to another handler requesting such transfer, surplus credits or almonds. Any such transfers of almonds shall be accounted for in such manner that the surplus obligation and assessments on the combined transactions of the participating handlers shall be fully met and such surplus obligation and assessments may be divided between such handlers in accordance with their arrangements subject to approval of the Control Board.

26. Amend § 909.69 by adding thereto the following sentence: "The Board shall be kept fully informed by handlers in regard to their interhandler transfers so that its records will reflect accurately the status of each handler's surplus obligation."

27. Delete § 909.71.

28. Amend § 909.72 by deleting the present provisions and substituting therefor the following:

§ 909.72 *Exchange of surplus almonds.* Any handler who has withheld surplus almonds pursuant to the requirements of § 909.65 and has had the same certified as surplus almonds may exchange therefor, to the extent that such almonds have not been disposed of, an equal quantity, by certified kernel weight, of other almonds which he has on hand or which he acquires. Any such exchange shall be made under the supervision and direction of the Control Board with appropriate inspection and certification of the almonds involved.

29. Amend § 909.73 by deleting the words "edible kernel weight poundage" where they appear in the second paragraph of said section and substituting therefor the words "certified kernel weight"; and by deleting the next to last sentence of the section.

30. Amend § 909.81 by deleting the word "edible" where it appears before the words "kernel weight" in the last sentence of the section.

31. Amend § 909.82 by deleting the present provisions and substituting therefor the following:

§ 909.82 *Determination of kernel weight*—(a) *Almonds for which settlement is made on kernel weight.* All lots of almonds, whether shelled or unshelled, for which settlement is made on the basis of kernel weight shall be included in the total kernel weight for any handler at the settlement weight.

(b) *Almonds for which settlement is made on unshelled weight.* Any unshelled almonds for which settlement is made on the basis of unshelled weight shall be included in the total kernel weight for any handler at the settlement weight of such unshelled almonds multiplied by the applicable shelling ratio in accordance with § 909.161.

32. Amend § 909.83 by deleting the present provisions and substituting therefor the following:

§ 909.83 *Redetermination of kernel weight.*—The Control Board on the basis of reports by handlers as required in §§ 909.111 through 909.114 shall redetermine the kernel weight of all almonds received by each handler for his own account during each crop year (and on which surplus has not been contributed by a previous handler) through each of the following dates: December 31, March 31, and June 30. Such redetermined kernel weight for each handler shall be the base for application of the surplus percentage in computing such handler's redetermined surplus obligation for the crop year through such dates. Such redetermined kernel weight for each handler as of any date during the crop year shall be his carryover as of that date, plus deliveries of salable almonds, plus certified surplus for such crop year to that date (whether or not delivered), minus his carryover at the beginning of the crop year. Adjustments shall be made for almonds on which the surplus obligation has been assumed by a previous handler. Weights used in such computation for various classifications of almonds shall be: (a) For unshelled almonds, other than certified surplus, the kernel weight computed by application of shelling ratios authorized pursuant to § 909.161; (b) for unshelled almonds certified as surplus, the certified kernel weight; (c) for shelled almonds other than certified surplus, the net weight; (d) for shelled almonds cer-

tified as surplus, the certified kernel weight; and (e) for shelled almonds used in production of almond products, the weight of such almonds. Such examination or audit of handler's records as the Board makes shall be at the Board's expense and under uniform procedure.

33. Amend § 909.84 by deleting the present provisions and substituting therefor the following:

§ 909.84 *Inspection and certification of surplus.* Each handler shall cause an inspection to be made of all almonds withheld by him in satisfaction of his surplus obligation, as soon as practicable after withholding or at such times as the Board may require, to determine that such almonds meet the requirements specified in § 909.65 (b) and to ascertain the kernal weight to be certified. The Board shall check handlers' records and plants from time to time to verify that the withholding requirements are being complied with and shall use the reports submitted pursuant to §§ 909.111 through 909.114 in checking compliance. Each handler shall obtain an inspection certificate from the inspection agency and furnish such certificate to the Control Board. The handler shall bear the costs of the inspection and the certificate. The inspection certificate shall show, in addition to such other requirements as the Control Board may specify, the identity of the handler, the kind and number of containers in the lot and any brands or labels, whether the lot is shelled or unshelled, the variety or varieties of almonds in unshelled lots, the certified kernal weight contained in the lot, and that such lot meets the grade requirements for surplus almonds. Lots certified as surplus shall be identified by seals furnished by the Board and attached to the twine of each sack, by the handler under the supervision of the inspector. If the surplus is in containers other than sacks, or if it is for export, it may be stamped or identified as the Board may require. Provisions of this section may be modified by the Secretary upon recommendation of the Board.

34. Amend § 909.101 (e) by deleting the present provisions and substituting therefor the following:

(e) *Disposition after September 1.* Any surplus almonds remaining unsold as of September 1 shall be disposed of by the Board as soon as practicable through the most readily available surplus outlets. The date of September 1 herein specified may be extended to a later date by the Secretary, upon recommendation of the Board.

35. Amend § 909.102 by deleting the period and inserting at the end of the second sentence thereof the following: "or may acquire credits for surplus disposition from another handler in accordance with § 909.68"; and by changing the date "August 1" wherever it appears in said section to "September 1"; and by adding at the end of the section the following sentence: "The date of September 1 herein specified may be extended to a later date by the Secretary upon recommendation of the Board."

36. Amend § 909.103 by changing the dates July 31 and August 1, wherever they appear in said section, to August 31 and September 1, respectively; and by adding at the end of § 103 (a) the following: "If the date of September 1 specified in § 909.102 is extended, the dates of August 31 and September 1 herein specified shall be extended correspondingly."

37. Amend the heading: "reports, books and records" and §§ 909.111, 909.112, 909.114, and 909.115 by deleting the present provisions of said sections and substituting therefor the following:

RECORDS AND REPORTS

§ 909.111 *Records.* Each handler shall keep records which will clearly show the details of his receipts of almonds, withholdings, sales, shipments, inventories, surplus disposition and other pertinent information in respect to his operations pursuant to the provisions of this part. Such records shall be retained by the handler for two years after the end of the crop year to which they apply. Each handler's premises where almonds are held and where the aforesaid records are kept shall be acessible to authorized representatives of the Board and the Secretary for inspection and observation of the almonds, and for examination and audit of the aforesaid records. Each handler shall furnish all labor necessary to facilitate any inspection of the almonds which may be made by the Board or the Secretary. The Board or the Secretary shall make such checks or audits of each handler's records each crop year as is deemed appropriate by the Secretary to insure that accurate information as required in this part is being furnished by handlers to the Board.

§ 909.112 *Reports.* On or before January 15, April 15, and July 15 of each crop year, each handler shall file with the Control Board a written report, certified to the Board and to the Secretary by such handler as to its completeness and correctness, containing the following information pertaining to the crop year operations as of the close of business on December 31, March 31, and June 30, respectively:

(a) *Handler carryover regardless of year of production and whether or not sold.* (1) Weight of unshelled almonds by varieties.

(2) Weight of shelled almonds by varieties.

(b) *Surplus almonds in inventory, whether or not sold, segregated by crop years.* (1) Weight of unshelled certified surplus.

(2) Weight of shelled certified surplus.

(c) *Sales and deliveries during the crop year.* (1) Weight of sales of unshelled salable almonds by varieties, segregated as to delivered and undelivered.

(2) Weight of sales of shelled salable almonds by varieties, segregated as to delivered and undelivered, including therein as delivered, the kernel weight of almonds used in producing almond products other than those authorized as outlets for surplus.

(3) Weight of sales of unshelled certified surplus, segregated as to delivered and undelivered and by crop years.

(4) Weight of sales of shelled certified surplus, segregated as to delivered and undelivered, and by crop years, including therein as delivered, the weight of shelled almonds used in producing almond products authorized as outlets for surplus.

§ 909.114 *Confidential nature of records and reports.* All information contained in handler records made available to the Board or the Secretary, or in reports to the Board, constituting a trade secret or disclosing the trade position, financial condition, or business operations of any handler shall be considered as confidential information. Such information received by the Board, shall be kept in the custody and under the control of one or more employees of the Board, who shall disclose such information to no person except the Secretary.

38. Amend § 909.120 by striking out the proviso contained therein referring to the first year of operation.

39. Amend § 909.121 (a) by deleting the present provisions and substituting therefor the following:

(a) *Requirement for payment.* Each handler shall pay to the Control Board on demand by the Board, from time to time, such sum, not to exceed two-tenths of one cent, per pound of almonds, kernel weight basis, received by him for his own account (except as to receipts from other handlers on which assessments have been paid) as the Secretary finds is necessary to provide funds to meet the authorized Board expenses for the crop year and to provide an adequate carryover into the next crop year. Upon redetermination of the kernel weight of almonds received by handlers for their own account as provided in § 909.83, such redetermined kernel weight for each handler shall be the basis upon which he shall pay assessments at the aforesaid rate. At any time during or after a crop year, the Secretary may increase the rate of assessment to apply to all such almonds during such crop year to secure sufficient funds to cover the expenses authorized by § 909.120 or by any later finding by the Secretary relative to the expenses of the Control Board, and such additional assessments shall be paid to the Control Board by each handler on demand.

40. Delete the heading "Appendix I—Schedule of Payments to Handlers for Services Rendered in Connection With Surplus Almonds" and delete §§ 909.151, 909.152, 909.153, and 909.154.

41. Delete the heading "Appendix II—Varietal Shelling Ratios Applicable to Unshelled Almonds" and amend § 909.161 by deleting the word "edible" where it appears before the words "kernel weight" immediately preceding the table; and by adding after the table, the following paragraph:

Lots of unshelled almonds designated by a handler as unknown or unnamed varieties, or varieties of a name not listed in this section, also lots of mixed varieties (lots containing more than 10 percent by weight of unshelled almonds which differ materially in shape or appearance from the predominant variety in the lot) shall be converted to kernel weight at 60 percent, unless the handler, at his expense, furnishes an inspection certificate applicable to the lot, issued by the inspection agency, showing the kernel weight content of the lot. The shelling ratios in this section may be changed by the Secretary, and shelling ratios for other varieties may be specified by him, upon consideration of a Control Board recommendation and other available data.

42. Make such other changes as may be necessary to make the entire marketing agreement and order conform with any amendments thereto which may result from this hearing.

Copies of this notice of hearing may be obtained from the Hearing Clerk, Room 112 A, Administration Building, Washington 25, D. C.; from the Western Marketing Field Offices of the Fruit and Vegetable Division, Agricultural Marketing Service, at Room 300, Old P. O. Building, 701 K Street, Sacramento 14, California, and at 1515 Clay Street, Oakland 12, California; and at the Almond Control Board Office, Forum Building, Room 721, Sacramento 14, California.

Done at Washington, D. C., this 18th day of May 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator,*
*Marketing Services.*

[Docket No. AO-103-A14]

MILK IN NEW ORLEANS, LA., MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO A TENTATIVE DECISION WITH RESPECT TO A PROPOSED AMENDMENT TO THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is hereby given that the time for the filing of exceptions to the tentative decision of the Assistant Secretary, with respect to a proposed amendment to the order, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area, which was issued May 2, 1956 (21 F. R. 3203), is hereby extended until May 25, 1956.

Dated: May 18, 1956.

[SEAL] EARL L. BUTZ,
*Assistant Secretary.*

## [ 7 CFR Part 957 ]

[AO-150 A-2]

POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to Marketing Agreement No. 98 and Order No. 57, as amended (7 CFR Part 957)[1] regulating the handling of potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, to be effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), hereinafter called the "act." Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the fifteenth day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

*Preliminary statement.* The public hearing on the record of which the proposed amendment to the marketing agreement and to the order, as amended, was formulated was held at Pocatello, Idaho, on January 19–21, 1956, pursuant to notice thereof which was published December 21, 1955, in the FEDERAL REGISTER (20 F. R. 9825). Such notice sets forth proposed amendments.

To facilitate reference to the specific documents mentioned in this proceeding, Marketing Agreement No. 98 and Order No. 57, as amended, are hereinafter referred to as the "present order." The proposed amendments to Marketing Agreement No. 98 and Order No. 57, as amended, are hereinafter referred to as the "proposed order."

*Material issues.* The material issues presented on the record of the hearing are as follows:

(1) The right to exercise Federal jurisdiction.

(2) The amendment of (a) § 957.1 *Secretary* to include employees of the United States Department of Agriculture among the persons to whom authority may be or has been delegated to act in the stead of the Secretary, (b) § 957.2 *Act* to add the citation of the statute pertaining to the amendments to the act passed by the 83d Congress, and (c) § 957.3 *Person* to conform the definition thereof to that set forth in the act.

(3) The amendment of (a) § 957.7 *Seed potatoes* to delete "the State from which the potatoes are shipped" and substitute "the State in which the potatoes are grown", (b) § 957.8 *Handler* to further set forth the persons to whom the proposed order and rules and regulations thereunder would apply, and (c) § 957.9 *Ship* or *Handle* to extend its applicability to sales and the transportation of potatoes within the production area except the movement of potatoes within the area for certain purposes.

(4) The amendment of § 957.12 *Fiscal year* to change the fiscal year from June 1 to May 31 following, to a period beginning and ending on the dates approved by the Secretary pursuant to recommendations by the committee.

(5) The renumbering and amendment to § 957.13 *Grade and size* to provide current citations, whether to include United States Standards for Grades of Peeled Potatoes, and to identify the Idaho and Oregon State standards for potatoes as those issued by the State of Idaho or Oregon whichever is applicable.

(6) The addition of a new § 957.13 to define "Prepare for market".

(7) The renumbering and amendment of § 957.15 *District* so as to cover redistricting.

(8) The addition of a new § 957.15 to define "Pack" and a new § 957.16 to define "Container".

(9) The addition of a new § 957.19 to define "Marketing season", and whether to include new sections defining the terms "Table stock potatoes" and "processor".

(10) The renumbering and amendment of § 957.20 to provide for the additional membership on the Idaho-Eastern Oregon Potato Committee and to set forth producer members' qualifications.

(11) The renumbering and amendment of § 957.21 to change the terms of office of committee members.

(12) The addition of a new § 957.28 to provide for "Redistricting" of the production area and the reapportionment of committee membership.

(13) The renumbering and amendment of (a) § 957.23 to provide for the selection of the enlarged committee membership, (b) § 957.24 to provide an altered procedure for the nomination of committee members, and (c) § 957.25 to provide appropriate language and cross-references.

(14) The renumbering and amendment of (a) § 957.28 to provide that alternate members may perform duties as assigned or requested by the committee, (b) § 957.29 to increase the number of committee members necessary to constitute a quorum, and (c) § 957.30 to increase the rate of reimbursement to committee members, to authorize the committee to request alternates to attend committee meetings, and to provide for the payment of expenses and compensation of such alternates.

(15) The amendment of §§ 957.40 to 957.46, inclusive, to authorize (a) incur-

[1] The recodification of Order No. 57, as amended, originally appeared at 16 F. R. 10765.

ring of reasonable and necessary expenses by the committee, (b) preparation of an estimated budget of income and expenditures likely to be incurred by the committee, (c) the levying of assessments to cover such expenses, and (d) the accounting and refunding of any excess funds collected.

(16) Authority for the establishment of potato marketing research and development projects.

(17) The amendment of §§ 957.50 to 957.54, inclusive, to delete the present provisions contained in these sections and to substitute new sections which require the submission of a marketing policy, authorize recommendation of regulations by the committee, and provide for the issuance of limitation of shipment regulations by the Secretary, and whether to exempt from such regulations the movement of potatoes within the production area for certain purposes.

(18) The renumbering and amendment of § 957.57 to delete the proviso that inspection or payment of assessments may be required at different times than specified by other provisions of this part.

(19) The amendment of § 957.65 so as to (a) authorize the inspection of all shipments during any period which regulations are in effect; (b) require reinspection of regraded, resorted, or repacked lots which have had prior inspection; (c) authorize the committee to establish, with the approval of the Secretary, a length of time for which an inspection certificate may be valid; and (d) provide that a copy of each inspection certificate issued by the inspection service be made available to the committee.

(20) Whether to delete the provisions relating to the issuance of exemption certificates and procedures applicable thereto.

(21) The amendment of § 957.83 by inserting "(a)" after the title *Effective time*, and by adding a new paragraph (b) so as to specify that the rules and regulations in effect under the present order at the time the proposed order is promulgated shall continue in force and effect until subsequent modification or termination.

(22) The making of such other changes as may be necessary to make the proposed order conform to the amendments which are contained herein.

*Findings and conclusions.* The findings and conclusions on the material issues all of which are based upon the evidence adduced at the hearing and the record thereof are as follows:

(1) The right to exercise Federal jurisdiction under the act and under the proposed order is established by the fact that all sales and transportation of potatoes grown in the Idaho portion of the production area and in Malheur County, Oregon (hereinafter referred to as the "production area") are in the current of interstate or foreign commerce or directly burden, obstruct, or affect such commerce.

Order No. 57 was originally issued September 2, 1941, and subsequently amended January 16, 1950. The present order (Order No. 57, as amended) governs such handling of production area potatoes as is not only in interstate commerce but also in intrastate commerce between the production area and the non-production area regions of the State where the potatoes were grown. In other words, the right of Federal jurisdiction is being exercised under the present order with respect to the handling of potatoes within the States of Idaho and Oregon.

One of the briefs in this proceeding asserted that the extension under the proposed order of Federal jurisdiction over intrastate handling transactions will come into direct conflict with the State authority in a zone heretofore reserved to the State of Idaho, one of the States involved in the production area. But, as already indicated, the present order exercises the Federal authority with respect to such handling transactions as are between the production area and points within the remainder of Idaho, and, in fact, grade and size regulations, including modifications thereof, were in effect with regard thereto during past seasons. The extension of such jurisdiction to encompass all intrastate handling activities within the production area is feasible, appropriate, and proper to the effectuation of the declared policy of the act. The record evidence supports such extension in the manner indicated in the proposed order.

Any handling of potatoes grown in the production area exerts a direct influence upon all other handling of such potatoes. A factor or factors which influence the market at shipping point soon are reflected in prices in terminal markets, subject to the effect of location factors, and, in turn, factors influencing prices in receiving markets are soon reflected in the market at shipping point. For example, terminal market prices are directly and adversely affected whenever excessive supplies of unsold potatoes of suitable market quality are accumulated in the production area. Frequently potatoes are prepared for market and loaded aboard cars or trucks within the production area at such a rate that it is not possible for shippers to find buyers to purchase such potatoes at reasonable prices. The presence of such quantities of unsold potatoes in the production area is, therefore, a direct burden on the market because terminal market prices are influenced thereby. Such burdensome supply tends to depress prices in terminal markets at points beyond the production area as well as within such area. Changes in the supply of potatoes in the production area being marketed at any particular time and changes in estimates of available potato supplies directly affect the price of potatoes in terminal markets.

A substantial portion of the potato crop grown in the production area is utilized or consumed within such area. Although potatoes are produced primarily for fresh market sale both within the production area and outside of Idaho and Oregon, an ever increasing quantity is used for processing potatoes into certain products, especially within the production area. The Idaho potato processing industry has made great strides during recent years in terms of newly developed potato products and enlarged plant capacity, and further expansion of processing facilities for the manufacture of dehydrated products and starch appears likely in the near future within Idaho.

One of the briefs filed in this proceeding asserted that shipments of Idaho potatoes grading less than U. S. No. 2 within the area do not directly burden, obstruct, or affect interstate commerce in production area potatoes.

However, the record shows that one of the processors testified that had it not been for the doubling during the past year of the plant capacities by processors in the area, the excessively large 1955 crop of potatoes would have sold at low prices. He further testified that his plant is in constant competition with every fresh market shipper in securing potato supplies which include field-run and cull potatoes, and some better quality potatoes depending on price. Also, if it were not for the fact his processing plants had acquired, and utilized, during the current season an aggregate of approximately one million bags of U. S. No. 1 and U. S. No. 2 grade potatoes (included in its field-run purchases), the producers would be getting very little for their potatoes on the commercial market. This shows a real and direct effect on the price of the remainder of the potato crop that was sold in the commercial fresh market during a season of high production of potatoes in the production area.

Slightly in excess of 18 percent of the production of 1954 crop Idaho potatoes went to processing outlets official estimates indicate. Approximately 7.5 million bushels out of a total crop of 40.8 million bushels were converted into starch, flour, dehydrated products, and other potato products, the bulk of which moved out of the production area to points outside thereof in interstate commerce.

Estimates supplied by processors testifying at the hearing indicate a somewhat greater utilization of production area potatoes as follows: 3 to 4 million hundredweight in starch, slightly more than 2 million hundredweight dehydrated, 0.6 million hundredweight in flour, and slightly more than 1 million hundredweight in other products, including frozen French fries and other frozen and canned products.

Potatoes are also handled in the production area as seed and for livestock feed, as well as for fresh use for human consumption. Approximately 3.6 million bushels of seed, including 1.5 million bushels used on the farms where grown, were used in Idaho from the 1954 crop. This same crop provided about 2.7 million bushels of potatoes which were fed to livestock.

During the past several years poor grades and off-size of potatoes have frequently been sold in the fresh market within the production area. Each sale of such poor-grade and off-size potatoes displaces an equivalent quantity of more desirable potatoes, such as those that meet grade and size regulations, which tends to depress the price of such better potatoes. Also, the substitution of poorer potatoes makes it necessary to find another market within or outside the area for such better potatoes which results

in adding potatoes to the supply thereof in such new market. Any such increase in supply has a direct and opposite effect on the price of potatoes in markets outside the area. Any loss of a local market for good quality potatoes, as a result of the sale of unregulated (poor quality) potatoes, forces the shipper in the production area to seek markets elsewhere. Shipments of potatoes originating in Idaho are transported by rail or by truck to other points in Idaho and sold for use as fresh potatoes. The sale of discounted grades and sizes of Idaho or Malheur County, Oregon, potatoes for fresh table use within the production area tends to depress the market for better grades and sizes which constitute the bulk of potatoes grown and handled in the production area. The sale of discounted grades and sizes, such as pickouts or culls, for table use within the production area directly affects the market price level for all potatoes and, in turn, the prices which farmers receive for their potatoes. Also, potatoes move between Idaho and Malheur County, Oregon. These sales and transportation of potatoes within the production area constitute a direct burden upon interstate commerce in potatoes grown in the production area, or are in interstate commerce.

It is common practice for handlers to load potatoes at shipping points within the production area and to ship such potatoes to markets within such area, and, before or upon arrival at such markets, to divert such potatoes to markets outside the production area. It is impossible, in many cases, at the time potatoes are sold, especially to truckers, to determine finally whether such potatoes will be marketed by the trucker within the production area or at a point outside thereof. Further the extension of the authority in the proposed order to cover all handling of potatoes within the production area will greatly aid in effecting compliance with the regulatory program and thereby tend to effectuate the declared policy of the act. Under the present order, it is difficult for the committee to ascertain at the time a shipment of potatoes is so diverted within the production area whether such diversion is to a point outside thereof and whether the potatoes are of the proper grade and size.

To the extent that potatoes are diverted and fail to comply with the then current grade and size regulation or are not inspected and certified, such diversion would tend toward disorderly marketing conditions. To regulate intra-production area handling transactions to correct such disorderly marketing conditions would, therefore, tend to effectuate the declared policy of the act.

The season average prices received by farmers for production area potatoes have, since 1949, ranged from a low of $0.54 to as high as $1.54 per bushel. These prices are equivalent to a range of 36 to 112 percent of parity. During the 1954 season, growers averaged $1.11 per bushel, equivalent to 96 percent of parity. However, the average price was down to $0.57 per bushel or 46 percent of the parity equivalent price during the 1953 season.

The U. S. average price received by farmers for potatoes as of December 15, 1955, was $1.44 per bushel or 57 percent of parity. The average price received by Idaho farmers for the same date was $0.60 per bushel. In view of the foregoing, it is not expected that the season average price received by farmers in the production area for their potatoes will equal the parity equivalent price therefor.

The direct relationship between growers' prices, f. o. b. shipping point prices, and terminal market prices is reflected in the following schedule of prices (hundredweight basis, U. S. No. 1, Size A, 2 inches minimum Russets, sold in Chicago during the 1954–55 season):

| Week ending | Growers' prices | F. o. b. prices at shipping point | Terminal market prices |
|---|---|---|---|
| | *Dollars* | *Dollars* | *Dollars* |
| Aug. 14, 1954 | 2.25–2.45 | 2.85–3.25 | 4.25 |
| Sept. 18 | 1.80–2.00 | 2.65–2.90 | 4.00–4.25 |
| Oct. 16 | 1.40–1.70 | 2.10–2.35 | 3.40–3.75 |
| Nov. 27 | 1.65–2.25 | 2.25–3.00 | 3.80–4.25 |
| Dec. 25 | 1.75–2.40 | 2.75–3.35 | 3.90–4.35 |
| Feb. 5, 1955 | 2.35–2.80 | 2.85–3.50 | 4.35–4.80 |
| Mar. 12 | 2.50–3.00 | 3.05–3.70 | 4.40–5.00 |

This direct relationship of prices at all of the various distributive levels is not restricted to shipments leaving the production area or to potatoes destined for such shipments. The price incentives that begin or cause the beginning of the preparation of potatoes for market are the same whether such potatoes are to be marketed within the production area or outside thereof. The grower does not receive any special or different price consideration solely on the basis of destination, all other factors, such as grade, size, or pack, being equal. Whether or not a grower's potatoes leave the production area or are consumed therein, after grading, is not involved in his returns therefrom. However, his return is directly related to terminal market prices determined by the trade in production area potatoes. The production area grower or shipper does not receive one f. o. b. price for potatoes destined for points within the production area and a different f. o. b. price for potatoes destined for Chicago or other terminal markets. The same factors determine each price.

(2) The definition of "Secretary" should include not only the Secretary of Agriculture of the United States, the official charged by law with responsibilities for programs of this nature, but also any other officer or employee of the United States Department of Agriculture who is or hereafter may be authorized to act in his stead. It is physically impossible for the Secretary to perform in person all functions and duties imposed upon him by law. The Secretary is empowered to delegate certain responsibilities and authority. The delegation of authority in the proposed definition of Secretary is provided by law and should be included in the definition as an appropriate means of promoting proper administration of the proposed order.

The definition of "act" should be amended to include the citation "68 Stat. 906, 1047" which refers to the recent amendments to the Agricultural Marketing Agreement Act of 1937, as amended, contained in the Agricultural Act of 1954. Such amendments authorize provisions for container regulation and for the establishment of research and development projects. This authority is contained in the proposed order.

The definition of "person" should be amended so to follow the definition of "person" as that term is defined in the act, which will insure that it will have the same meaning as used in the act.

(3) The definition of "seed potatoes" should be redefined as "certified seed potatoes" to make it clear that only such potatoes as are certified as seed potatoes by the appropriate state certifying agency will come within the scope of that term to preclude any misunderstanding as to the meaning of this term. Also, since seed potatoes are certified in the State where grown by the seed potato certifying agency of such state, rather than by a certifying agency of the State from which such potatoes are shipped, it is appropriate that the definition of the term should so provide.

The terms "handler" and "shipper" as used in the proposed order, are synonymous and they should be defined to identify those persons who handle potatoes in the manner described and set forth in the definition of "handle" because such persons are to be subject to the regulation by the proposed order. Any person who is engaged in the act or acts of handling or shipping potatoes or who causes potatoes to be handled or shipped should be considered as a handler. Such persons are responsible for the grade, size, quality, and maturity of potatoes delivered to transportation agencies, or which are transported or sold in the current of interstate or foreign commerce, or so as directly to burden, obstruct, or affect such commerce, and such persons are handlers.

Common or contract carriers transporting potatoes are performing a handling function, but when such potatoes are owned by another person such handling should not be regulated under the order because such carriers are not responsible for the grade, size, quality, or maturity of the potatoes being transported. Neither are they responsible for the introduction of such potatoes into the stream of interstate commerce. Also, the sole interest of common or contract carriers in such potatoes is to transport them for a service charge to destinations selected by others. The responsibility for the grade, size, quality, and maturity of such potatoes delivered to a common or contract carrier should be borne solely by the person or persons responsible for delivering such potatoes to the carriers.

The proposed order contains two changes in the definition of "handler". One such change is a substitution of "handle" for "ship" which is a conforming change. The other is the addition of the phrase "or who causes potatoes to be handled". This phrase should be made a part of the definition so as to include all persons responsible for the initiation and carrying out of the activities covered by the term "handle". Those persons, in addition to owners and officers of a firm handling potatoes, should include individuals who, in a supervisory capacity, are directly responsible for the sale or

transportation of potatoes. Therefore, the term handler or shipper should be defined to mean any person (except a common or contract carrier of potatoes owned by another person) who handles potatoes or causes potatoes to be handled; and such term should not be limited to any particular handler. All persons within the meaning of such term should be responsible for complying with the obligations imposed by or pursuant to the proposed order so as to assure that all potatoes will be handled in accordance therewith.

The term "handle" or "ship" is defined in the proposed order to indicate those transactions which determine whether a person is a handler and comes within the authority for regulation under this program. Ship and handle are synonymous. Handle should include the act of handling or shipping and the activities by handlers which are included within these terms. The handling of potatoes under the proposed order begins with the movement of such potatoes from the field where grown and continues to follow such potatoes until they are ultimately disposed of within the production area or leave the area. Handle should also mean the sale of potatoes at any point between the time that they begin to move from the field until they are ultimately disposed of within the production area or leave the area.

The growing and harvesting of potatoes in the production area are producer functions and should be construed as operations of the producer in his capacity as a producer. The digging of potatoes is a harvesting activity performed as a grower function, even though it is an essential preliminary to the marketing of potatoes because until potatoes are dug from the ground, their specific identity, kind, and quantity are unknown.

It is a common practice during the early part of the marketing season for some potatoes grown in the production area to move directly after grading to market. However, the great bulk of potatoes dug in the latter part of September and in October are stored and disposed of during the following seven to nine months. The storage within the production area and movement to such storage of such potatoes should not be considered as a handling activity and should be specifically exempt from regulation under the proposed order because such potatoes are ungraded, and have not yet otherwise been prepared for market. However, as soon as such stored potatoes start their movement out of storage, such movement, except for planting within the production area, whether to a packing house or to a processing plant, constitutes an act of handling.

The initial handling activity should begin when potatoes are moved from the field other than to storage. This activity should apply to all potatoes except those moved for preparation for market or storage within the production area or for planting therein. Some handlers pick potatoes from the field and put them in sacks or other containers and then haul them directly to market. Such potatoes also may be sold immediately after picking and move to market. In such instances the operation of picking potatoes constitutes a preparation for market because the person responsible for the picking has left some potatoes behind because they are too small or too large, or cut, or sunburned, or rotten, or in some other manner unsuitable for the market outlet to which the bulk of the potatoes are destined. The operation of picking the potatoes and of preparing them for market in any other manner is a handler function regardless of whether it is performed by the grower of such potatoes or by other because this operation makes such potatoes a visible and direct part of the supply of such potatoes available for market and it is the first step in actually moving such potatoes into market channels. Such potatoes can sometimes continue moving in market channels to the retailer or other ultimate outlet without further preparation for market. With the exception of the processes and activities specifically excluded from the term "handle", any movement of potatoes, whether ungraded or graded to points outside the production area should constitute handling. The picking, loading, hauling, or any other movement of such potatoes from the place where grown causes the potatoes to become a part of the visible supply of potatoes which are available for market, and directly burdens, obstructs or affects interstate commerce. The sale of such potatoes at any time after they are dug continues such potatoes in commerce because such sale constructively moves the potatoes in the stream of commerce from the seller to the buyer or consignee and actual movement of such potatoes in the stream of commerce pursuant to the instructions of the buyer or consignee constitutes sale or transportation, or both.

All potatoes grown in the production area, which are grown for market, are graded or otherwise prepared for market and such activities should be handler functions in the marketing of such potatoes which are included in the definition of handle or ship.

The movement of potatoes out of storage and the running of such potatoes over a mechanical grader, or the preparation of such potatoes for market by any other means, comes within the definition of handle because such activities determine the various outlets to which potatoes can go and they have a direct effect upon the price which potato growers shall receive for their crop. The matter of compliance with regulations which are authorized by the proposed order can be determined by the handler who is grading or preparing such potatoes for market. The primary responsibility for the grade, size, and quality of potatoes in any given unit, or in any given lot should rest with the person or persons responsible for the grading operation. Such persons determine the kind of potatoes which are put in the sack or the shipping unit.

The act of selling such potatoes makes the persons who make such sale a handler because such such sale directly affects the market for potatoes and it thereby becomes a burden or obstruction of interstate commerce in such potatoes. The transportation of potatoes also directly burdens, obstructs or affects interstate commerce in potatoes for it has a direct bearing on the market and the movement and sale of potatoes, regardless of whether such sale or movement is within the production area or to a point outside thereof, are so inextricably intermingled that such movement and sale become a part of the stream of interstate commerce.

The definition of handle should not include the sale of potatoes at retail by a person in his capacity as a retailer, or the growing and digging of potatoes because the latter activities are construed as being those of a producer in his capacity as such; and retailers and producers are exempt from regulation under the act with respect to retailer and producer functions, respectively. Also, the movement of potatoes within the production area for the purpose of having such potatoes prepared for market, stored, or planted in such area should not come within the scope of handling. All other activities from the time potatoes are picked until their ultimate disposition within the production area or shipment therefrom should, however, be included within handling.

(4) A fiscal period should be substituted for the presently defined fiscal year. Fiscal year is presently defined to include the period from June 1 of each year to May 31 of the following year. Under the definition of fiscal period, as hereinafter set forth, the fiscal period covers a period beginning and ending on dates recommended by the committee and approved by the Secretary. The committee should have this authority so as to recommend the period that is most practicable and workable. This permits the adjustment of the beginning and ending dates of the fiscal period to correspond to the extent practicable to the actual marketing season.

(5) The definitions of "Grade, and size" should be amended to provide current citations applicable to the United States Standards for potatoes. A reference to the States of Idaho and Oregon in connection with State potato standards should be included since the potatoes grown in the production area involve these two States. Testimony in the record does not support any basis for regulation in terms of the United States Standards for Grades of Peeled Potatoes. Therefore, the latter standards relating to peeled potatoes and any other reference to peeled potatoes are not included.

(6) The term "Prepare for Market" commonly referred to as "grading", should mean the sorting of potatoes by hand or mechanical means, or both, whereby such potatoes are separated into grade size, quality, or maturity classifications, or any combination thereof. Such classifications may be, and usually are, determined by a handler who directs in person, or who delegates responsibility to his agent, how and in what number of classes, including packs, the particular lot of potatoes shall be separated. Grading may vary from an operation performed entirely by hand which selects certain potatoes when they are picked up after digging, to the more common production line operation whereby potatoes are carried by mechanical conveyor through a series of washers, moving screens or belts, and over tables, where sizes are determined, and good quality, as represented by grades and sizes, or both, is separated from bad so that the potatoes which are to go to preferred price outlets are separated from those going to discounted price outlets. Such operation includes the packing of the various combinations of grades and sizes into their respective containers (or in the case of pickouts or culls, the usual bulk loading) and the loading, or setting aside for later loading, into rail cars or trucks for transportation to markets both within the production area and outside thereof. The grading or preparation for market is an operation that applies to all potatoes grown in the production area, even though the extent to which potatoes are separated into classes may vary considerably among the types of ultimate outlets. For example, potatoes destined for fresh market outlets usually result in a lot of such potatoes being carefully graded so that only the preferred qualities and sizes are shipped to such outlets while the off-grades and off-sizes, commonly referred to as "pickouts," go to starch plants, to livestock feeding operations, or to other types of outlets which do not require such careful separation into market classifications or do not demand preferred grades and sizes.

The definition of the grading operation "prepare for market" should mean the sorting or separation of potatoes into grades or sizes, or other market classifications, by any means, as set forth in the proposed order. Since the proposed order prohibits the handling of any potatoes that were prepared for market during so-called "shipping holidays", the definition of the term "prepare for market" will serve as the guide in determining whether a particular shipment may properly be made.

(7) The definition of "district" should be amended to provide for appropriate references to the new section, in the proposed order, relating to redistricting which contains authority for the reestablishment of districts and the reapportionment of committee membership.

(8) "Pack" should be defined as set forth in the proposed order as a means for establishing a method of regulation and as the basis for distinguishing among the various units in which potatoes are prepared for market and shipped. The term pack is commonly used throughout the potato trade and refers to a combination of factors relating to grade, size, and maturity of the potatoes and to the type of container. Among the common or usual packs handled by the potato industry in the production area are U. S. No. 1, size A, 2 inch or 4-ounce minimum, in 100-pound burlap bags or in 50-pound paper bags, or in 10-pound paper or mesh bags. The latter packs are loaded loose or in 50-pound master (paper) containers. Other packs may include those in which a particular size range, 6 to 10 ounces, for example, or perhaps 20 to 30 percent 10-ounces and larger, is packed in a given shipping unit according to the buyer's instructions. The common units in which production area potatoes are handled are 100-pounds, 50-pounds, 15-pounds, 10-pounds, and 5-pounds. Grades such as U. S. No. 1, U. S. No. 2, or Idaho Standard, may be tied in with any such unit, and, in addition, minimum and maximum sizes may also be specified.

The current trend in potato packs is toward the consumer-size package. However, other developments may occur in the future. The committee should be able to recommend such pack regulations as will permit taking advantage of any practice or innovation which may tend to improve growers' returns. Pack is merely a combination of grade, size, and container. The particular packs which may be handled should be specified by recommendation of the committee with approval of the Secretary, and thereby permit the tailoring of particular regulations to particular packs.

"Container" should be defined in the proposed order as a basis for differentiating among the numerous shipping units in which potatoes may move to market outlets. Authority for regulation by type of container was enacted by the 83rd Congress as an amendment to the Agricultural Marketing Agreement Act of 1937, as amended. Such authority should be included to permit the committee to recommend, and the Secretary to issue, rules and regulations which would fix the size, weight, dimensions, or pack of the container or containers which may be used in the packaging, transportation, sale, shipment, or handling of potatoes when to do so would effectuate the declared policy of the act. But there is no intent to extend such authority to cover any containers used in the handling of processed potato products.

(9) "Marketing season" or "season" should be defined in the proposed order because reference to this term is made a number of times in the proposed order and to indicate the period of time within which the potatoes of one crop year will generally move to market. The beginning date of July 1 coincides closely with the start of the late summer crop of potatoes grown in District No. 2 (Malheur County-Western Idaho). Handling of potatoes from this district generally starts about the middle of July and continues through most of September. The late crop potatoes start to move from District No. 1 (Eastern Idaho) and District No. 3 (Twin Falls-Burley area) during the latter part of September and continue through the following June. Marketing season, therefore, should be defined as the period from July 1 of one year to June 30 of the following year.

Testimony in the record does not support the need for a definition of "table-stock potatoes". Evidence indicates that the proposed definition is too inclusive, a residual term covering all potatoes not included within the definition of certified seed potatoes. The definition of such term is not necessary for the issuance of any regulations or other operation in connection with the proposed order; hence, it is not included.

It is necessary to include a definition of "process" in the proposed order because the section of the proposed order relating to the composition of the committee provides that one of the four handler members of the committee may be a processor. Processors gave considerable testimony at the hearing as to the probable effect of the proposed order on their operations, activities, and future plans. There is also evidence as to the possible adverse effect of regulation on shipments of potatoes for processing. In order to offer the substantial and expanding potato processing industry a voice in committee deliberations, the membership of the committee should permit the inclusion of one processor.

The term "process" should be defined to mean to manufacture or convert potatoes into any of the products thereof. The proposed order also authorizes the modification, suspension or termination of regulations applicable to potatoes shipped for processing in order to facilitate shipments for such purpose.

(10) The proposed order should provide for the selection by the Secretary of a committee, the Idaho-Eastern Oregon Potato Committee, composed of eleven members of whom seven should be producers and four should be handlers (one of whom may be a processor), and their respective alternates. The present order authorizes a committee of five producers and three handlers, a total of eight members. The change in total committee membership is necessitated by the increased representation proposed for Districts 1 and 3.

The section of the proposed order relating to the establishment of the committee should provide that employees of producers are eligible for committee membership in the same manner as the present order provides for corporate producers. Unincorporated producers should be able to be represented by employees since their interests as producers are basically the same. Many producers are also handlers.

For purposes of nomination and selection as a producer member, any such producer may also be a handler but at least 51 percent of the total quantity of potatoes handled by him must have been of his own production. This percentage requirement should assure producers throughout the production area that their representatives on the committee will be primarily concerned with and allied with producers' interests. To restrict the producer membership on the committee to growers who handled nothing but their own production, would deny committee membership to many able producers simply because they handled some of their neighbors' potatoes. For the same reason, such a requirement could disqualify a producer member during his tenure on the committee. The 51 percent requirement is deemed to be a reasonable one in determining producers' qualifications for nomination and selection. This type of eligibility should also be applicable to producers participating in nomination meetings.

(11) The proposed order should provide for a two-year term of office for committee members and alternates, so that five members, including three producers and two handlers, and their alternates, will end their respective terms of office on the first May 31 after the effective date of the proposed order and the remaining six members including four producers and two handlers, and

their alternates, will end their respective two-year terms of office the second May 31 after said effective date. A term of office of two years' duration will permit the members to gain experience and familiarity with the committee's operations over a longer period of time than the present order provides and the staggered terms will enable new members to avail themselves of the benefits of the experience of the incumbent members.

(12) The provision for redistricting is desirable because it allows the committee to consider from time to time whether the basis for representation could be improved and how such improvements should be made. The guides as set forth in the proposed order which the committee should keep in mind in considering redistricting and the reapportionment of committee membership are appropriate and desirable points of reference that relate directly to the welfare of potato producers and handlers.

At least four months should precede any committee recommendation for redistricting or reapportionment so as to afford producers and handlers an ample opportunity to become acquainted with the proposed changes and to act accordingly. Also, an adequate period of time, as set forth in the proposed order, should precede the effective date of any such redistricting or reapportionment similarly to afford sufficient time to nominate members for new positions, especially prior to the beginning of a new fiscal period.

(13) The proposed order should provide for the addition of two producers and one handler to the present membership of the committee. One such producer and the handler member, with their respective alternates, should be added to committee representation from District No. 1 (Eastern Idaho); and District No. 3 (Twin Falls-Burley area) representation should be increased by the other producer member, with his alternate. The committee would then be composed of eleven members, five from District No. 1, two from District No. 2, and four from District No. 3. It is reasonable and appropriate to provide for such new representation. District No. 1, which would have five of the eleven members, accounts for a majority of the acreage and production of potatoes grown in the production area. An increase of two members in District No. 1 will provide representation on the committee more in line with the district's importance. The additional producer members for District No. 3 is reasonable and has two purposes: (i) such increased membership will maintain about the same producer-handler relationship on the committee as now exists; and (ii) the additional member for District No. 3 will reduce the concentration of representation which would otherwise obtain for District No. 1. The present representation of one producer member and one handler member for District No. 2 (Malheur County-Western Idaho) should remain unchanged. The census data for 1954 generally supports the above representation. District No. 1 (five members) produced nearly 60 percent of the volume of potatoes grown in the production area; District No. 2 (two members) produced approximately 15 percent; and District No. 3 (four members) produced slightly more than 25 percent.

The procedure applicable to nomination of committee members and alternates contained in the present order should be changed so as no longer to require that two nominees be designated for each position to be filled on the committee. The appropriate section should provide that the Secretary may select members and alternates from nominations submitted by the committee or from other eligible persons. The Secretary, the official charged with the responsibility of administration of the proposed order, should have a choice of selecting members from all eligible persons especially if a particular nominee may, for some reason, be unqualified for committee membership. Of course, this change will not prevent the committee or any other person from submitting the names of more than one nominee for each position to be filled. However, past experience has shown that usually the producers and handlers in a district have particular preference for a single slate of representatives from that district. Frequently, at a producer nomination meeting the present arrangement has resulted in the names of first and second choices being submitted for the position as member, and the third and fourth choices for the position as alternate; and such an arrangement could result in the elimination of a top choice as alternate. Submission of a single slate of qualified nominees by the committee, which slate would most likely be the only one submitted, could ordinarily result in the selection of the members and alternates desired by the industry.

The committee should have flexibility in arranging nomination meetings. Such meetings should be permitted in conjunction with other meetings conducted by other groups or organizations. Such an arrangement should result in a larger attendance of producers and handlers than ordinarily could be expected at a meeting held solely for nominations. Also, a combination of meetings could result in time saving for potato industry representatives.

(14) Alternate members continue in the same status as under the present order. They should also be available, however, on the same basis as committee members to perform duties requested or assigned by the committee. Such duties should include, but not be limited to, serving on various subcommittees, or perhaps to help in reporting or tracing violations of the proposed order. Unless an alternate member attends committee meetings from time to time, if not regularly, he will generally be uninitiated in committee business and will not be well qualified to serve in the absence of the member for whom he is an alternate. Also, in the event an alternate subsequently is selected as a member, his tenure as an alternate will have served as good experience. An alternate, when performing duties assigned or requested by the committee, should be entitled to compensation and reimbursement of expenses on the same basis as committee members.

The provisions of the present order require that five of the eight members (approximately 63 percent) of the committee shall constitute a quorum and that the same number of concurring votes are necessary to approve any committee action. In order to maintain this relationship under the proposed order, a quorum should require the presence of seven of the eleven members at any assembled meeting. Also, the concurrence of seven members of the enlarged committee should be required for the passage of any motion or approval of any committee action.

The maximum per diem rate of compensation to be paid members or alternates when attending to committee business should be increased from $5.00 to $10.00. The lower rate was established by the 1950 amendment to Order No. 57. Committee members and alternates frequently attend to committee business at a personal financial sacrifice. Regardless of whether the $5.00 or $10.00 maximum rate is effective, such rate will not, in most cases, compensate the individual for the time lost from his own interests. It is reasonable that the rate of compensation should be increased in view of rising costs that have occurred since 1950. The proposed order authorizes the committee to request that alternates as well as members attend meetings of the committee even though all members are expected to be present. In the event such request is made, alternates in attendance should be paid the per diem compensation and their reasonable and necessary expenses.

(15) The committee should be required to prepare a budget of expenses at the beginning of each fiscal period, and as often as may be necessary thereafter, showing estimates of income and expenditures necessary for the administration of the proposed order. Each such budget should be presented to the Secretary with an analysis of its components and explanation thereof in the form of a report on such budget. It is desirable that the committee should recommend a rate of assessment to the Secretary which should be designed to bring in during each fiscal period sufficient income to cover expenses incurred by the committee. This will furnish the Secretary with adequate data and information concerning the committee's proposed activities and enable him to determine whether the proposed expenses, and related rate of assessment, are reasonable and likely to be incurred by the committee in carrying out its duties and functions under the proposed order.

The funds to cover the expenses of the committee should be obtained through the levying of assessments on handlers. The act specifically authorizes the Secretary to approve the incurring of reasonable expenses by administrative agencies, such as the committee, and the statute also requires that each order issued pursuant to the act shall contain provisions requiring handlers to pay their pro rata share of the necessary expenses. Moreover, in order to assure continuance of the committee, the payment of assessments by handlers should be required irrespective of whether particular provisions of the proposed order are suspended or become inoperative.

Each handler should pay the committee upon demand his pro rata share of such reasonable expenses which the Secretary finds will be incurred necessarily by the committee during each fiscal period. Such pro rata share of expenses should be equal to the ratio between the total quantity of potatoes handled by him as the first handler thereof during a specified fiscal period and the total quantity of potatoes so handled by all handlers during the same fiscal period; and such proration of expenses will be equitable among handlers. Since the first handler usually applies for inspection, such handler should be the person who is to pay the assessment. For potatoes which are not so inspected, the handler responsible for the assessment should continue to be the handler who first handles the potatoes and should be so designated by the committee. The maximum allowable assessment rate of $1.00 per carload, as set forth in the present order, remains unchanged. The rate of assessment should be established by the Secretary on the basis of the committee's recommendation, or other available information, so as to assure the imposition of such assessments as are consistent with the act.

At any time during or subsequent to a given fiscal period the committee should be authorized to recommend the approval of an amended budget and to recommend the fixing of an increased rate of assessment to balance necessary committee expenses and revenues for such period. Upon the basis of such recommendations, or other available information, the Secretary should be authorized to approve amended budgets, and, if he finds that the then current rate of assessment is insufficient to cover committee expenses and permit proper administration of the proposed order, he should be authorized to increase the rate of assessment, so as to avoid inequities. The proposed order should provide that such increased rate of assessment shall be applied retroactively to all potatoes previously handled by first handlers during the specified fiscal period.

Funds received by the committee pursuant to the levying of assessments should be used solely for the purpose of administering the provisions of the proposed order. The committee should be required to maintain books and records clearly reflecting the true, up-to-date operation of its affairs so that its administration may be subject to inspection at any time by appropriate parties. Each member and each alternate, as well as employees, agents, or other persons working for or on behalf of the committee should be required to account for all receipts and disbursements, funds, property, or records for which they are responsible, should the Secretary at any time ask for such an accounting. Whenever any person ceases to be a member or alternate of the committee, he should be required to account for all receipts, disbursements, funds, property, books, records, and other committee assets for which he is responsible and to deliver such funds, property, and other assets as directed by the Secretary. Such person should also be required to execute assignments and such other instruments which may be appropriate to vest in his successor or agency, or person designated by the Secretary the right to all such funds and property and all claims vested in such person. This is a matter of good business practice.

If the committee were to recommend that the operation of the proposed order should be suspended, or if no regulation should be in effect for a part or all of a marketing season, the committee should be authorized to recommend as a practical measure that one or more of its members, or any other person, should be designated by the Secretary to act as a trustee or trustees during such period. This provides a feasible means whereby the committee's business affairs may be taken care of during periods of relative inactivity with a minimum of difficulty and expense to the industry and to the Secretary.

The committee should provide periodic reports on its fiscal operations. Audit reports may be requested by the Secretary at appropriate times, such as at the end of each marketing season or at such other times as may be necessary to maintain appropriate supervision and control of the committee's affairs. Handlers should be entitled to a proportionate refund of the excess assessments which remain at the end of a fiscal period. Such refund should be credited to each such handler against the operations of the following fiscal period so as to provide the committee with operating funds prior to the start of the ensuing shipping season. Whenever a handler demands payment of any such credit, the proportionate refund should be paid to him.

When the committee is required to wind up its affairs upon termination of the proposed order, considerable expense may be involved in the liquidation process. It is appropriate, therefore, in order to meet the expenses of such liquidation that some of the funds remaining at the end of a fiscal period, which are in excess of those necessary for payment of expeditures during such period, should be carried over into subsequent fiscal periods as a reserve for possible liquidation. Such reserve should be maintained for the purpose of helping to cover the expenses of final liquidation of the committee in the event that the proposed order is terminated and should, to the extent practical, spread the cost of liquidation on an equitable basis among handlers during the entire period the program was in effect. However, any funds not required for such liquidation should, to the extent practical, be returned on a pro rata basis to all persons who contributed to the fund. This will assure equitable distribution of the cost of the program.

(16) The establishment or providing for the establishment of marketing research and development projects was expressly authorized by amendments to the act in Public Law 690 enacted by the 83d Congress. Such authorization should be included in the proposed order as a continuation of related authority in the present order with respect to appropriate projects.

By means of marketing research and development projects, the committee should be able to, for example, determine the volume of potatoes falling into each grade and size composition of each crop. With such information the Secretary and the committee should know what volume could be taken off the market by specific grade and size restrictions in an effort to carry out the declared purpose of the act. By such projects the industry could undertake to determine the practicability of distributing educational literature describing the nutritional value of potatoes as an effort to counteract the declining per capita consumption of potatoes.

Information relative to the marketing of potatoes is needed to improve consumer acceptance. The committee could study or arrange studies conducted on consumer preferences for certain varieties, types, sizes, and packs of potatoes to determine more nearly what potatoes and packs the consumer desires in terms of price preferences, so that growers' returns may be improved. Potatoes packed to high standards in the shipping area are often damaged en route to the market. Potato quality almost always declines in storage. Studies which could discover improved methods of transporting and storing potatoes could permit improvement of potato quality and thereby enable the industry to market a better product.

As the industry becomes more experienced in conducting market research and development projects, new studies which are not readily anticipated at this time will undoubtedly become apparent. Therefore, the committee should have the authority to recommend the establishment of such projects which are designed to assist, improve, or promote the marketing, distribution, and consumption of potatoes and tend to improve growers' returns. The committee should be empowered to engage in such projects, to spend assessment funds for them, and to consult and cooperate with other agencies with regard to their establishment. All such projects must be approved by the Secretary, so as to assure, among other things, that they are within the purview of the statute.

(17) The declared policy of the act is to establish and maintain such orderly marketing conditions for potatoes, among other commodities, as will tend to establish parity prices for such potatoes, and to establish and maintain such minimum standards of quality and maturity and such grading and inspection requirements as will effectuate such orderly marketing of potatoes as will be in the public interest. The regulation of the handling of potatoes by grade, size, quality, or maturity as authorized in the present order and continued in the proposed order provides a means of carrying out such policy.

The provisions of the present order relative to marketing policy, recommendation for regulations, and the issuance of regulations should be revised so as to clarify such provisions in the proposed order.

The procedures and methods which are outlined in the proposed order for the development and institution of marketing policies relating to grade, size, quality,

or maturity regulation provide a practical basis for the committee to obtain appropriate and adequate in formation relating to potato marketing problems. Also, other members of the industry, including both growers and handlers, should be provided with the information regarding the policies and regulations recommended by the committee to enable them to plan their operations accordingly. The factors set forth in the proposed order which the committee should take into consideration in developing its marketing policies are the factors commonly and usually taken into account by growers and handlers in their day-to-day evaluation of the market outlook with respect to potatoes.

In order that the Secretary may effectively carry out his responsibilities in connection with the proposed order, the committee should prepare and submit to the Secretary a report on its proposed marketing policy, as well as revisions thereof, relating to the marketing of potatoes during each season. The initial marketing policy offered each season by the committee should be prepared and submitted promptly to the Secretary prior to or simultaneous with recommendations for regulations. This should give all interested parties the maximum notice of probable regulations. All reports on marketing policy and regulations recommended by the committee should be submitted promptly to the Secretary and presented to the industry as a means of keeping both informed. In order that the Secretary may be currently apprised of the committee's thinking relative to marketing policies and its appraisal of market conditions, the committee should furnish the Secretary, whenever conditions warrant a change from an existing marketing policy and regulation, with a new or revised policy. This will tend to keep program operations as nearly as may be on current basis in the light of the then market conditions.

The proposed order should authorize the Secretary to limit shipments of potatoes whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. This authority should be in the proposed order, and it is included in the present order. It should be continued with appropriate amendments. Authority to regulate shipments by grade and size has been exercised under Order No. 57 since the 1948–49 season and the committee has operated thereunder each season since then. This exercise of jurisdiction under the present order has established a pattern of grade (including maturity and quality requirements) and size regulation which has tended to improve growers' returns for potatoes grown in the production area. It is appropriate and proper that the proposed order contain authority to regulate in any or all portions of the production area the handling of particular grades, sizes, qualities, or maturities, or any combinations thereof, of any or all varieties of potatoes during any period, much the same as is now done under the present order and thereby tend to improve growers' returns. This is a proper exercise of the authority granted by Congress through the Agricultural Marketing Agreement Act of 1937, as amended.

Under the present order the regulation of handling of particular grades, sizes, qualities, or maturities of potatoes differently for different varieties has tended to increase the returns to growers. Experience under the present order has established the desirability of continued operation. Such provisions should be included in the proposed order so as to continue these benefits. It is also proper that the Secretary should have authority to issue different regulations for certified seed and for other potatoes. Under the present order grade and size regulations were generally modified for shipments of potatoes for seed purposes. No separate regulations were issued for seed potatoes as such. However, it is an appropriate authority to have in the proposed order so that, if it should be the judgment of the committee that to do so would tend to effectuate the declared purposes of the act, the committee should have authority to recommend such action to the Secretary and the Secretary should have authority to regulate the handling of certified seed potatoes differently from other potatoes.

The proposed order should contain authority for regulating the grade, size, quality, and maturity of potatoes differently for different outlets. It is important that the committee and the Secretary should be able to give consideration to the alternative prices that growers can obtain from potatoes that are shipped to the domestic table stock market, to export market, or to certain other outlets such as for potato chips or other types of processing. Each of these outlets may take a particular grade and size potato at a price such outlets warrant or for which buyers are willing to pay a premium, or buy only at discount from usual table stock prices. In recognition of this fact and in the interest of maximizing growers' returns the committee should be able to consider these differences and to recommend, and the Secretary issue, such different regulations by grade, size, quality, and maturity that should be applied to potatoes going to each type of outlet as the circumstances may warrant.

The present order provides for different regulations by different portions of the production area and such authority has been exercised from time to time, particularly with respect to the so-called early deal in the western part of Idaho and Malheur County, Oregon, and the late or storage deal in the central and eastern part of Idaho.

For example, in the early deal, potatoes are usually shipped immediately after harvest; and in order that such potatoes reach market in an acceptable form, without excessive skinning or feathering, regulations were issued which specified a maturity requirement for such potatoes. In addition, some portions of the production area may suffer from a condition affecting the crop which does not necessarily extend throughout the production area. In such cases, different regulations for the respective portions of the production area could be made effective to meet the precise problems. It is important, therefore, that the proposed order should also have this authority to recognize these differences and to permit the issuance of different regulations when the condition of the crop or the market so justifies.

The proposed order should have authority for regulating the handling of particular grades, sizes, qualities, or maturities of potatoes differently for different varieties, for certified seed and other potatoes, for different outlets, and for different portions of the production area. This is an appropriate authority that should be in the proposed order so that the committee may make appropriate recommendations and the Secretary issue such regulations as will establish and maintain orderly marketing conditions and as will tend to establish parity prices.

Common practice throughout the potato industry in the production area has been to prepare specific packs of potatoes for market. These packs have developed over a number of years. The 100-pound, U. S. No. 1 grade, pack is a common one throughout the area, as also are the U. S. No. 2 grade, and, under the Idaho grades, the Idaho Deluxe grade, the Idaho Standard grade, and Idaho Utility. In addition, "Bakers" refers to a particular size of potatoes and such designation is, at times, used in connection with any grade of potatoes. The combination of grade and size related to the size of unit establishes a pack of potatoes. On the other hand, the 10, 15, and 25 pound packs of U. S. No. 1's, or of Idaho Standards, or Utilities, also are common packs. Each particular grouping by grade and size in connection with the container has been emphasized by the industry in its dealings with the public and with receivers in terminal markets. The designation of "Bakers" on containers of Idaho potatoes is a significant commercial asset in the market. It is important that these trade distinctions, which have a monetary value, should be preserved in the interests of doing a good merchandising job for the industry. The results of this practice has been to place particular limitations on the size of potatoes, as well as the extent of grade defects which are placed in certain types of packs. The development of certain grades and sizes in connection with certain packages, however, involves some mechanical difficulties particularly in the smaller packs. The proposed order should provide authority to issue different regulations for different kinds of packs so that the industry may avail itself of prescribed tolerances in recognition of certain mechanical difficulties inherent in grading and packing and for proper merchandising of its packs in the markets which will pay premiums for such packs. In addition, the export market will take certain kinds of packs, such as U. S. No. 1, Size B, which would not reflect an appropriate return if sold in domestic markets. Sales of such packs in export markets would net the grower an additional return rather than a low price when sold on the domestic market which would tend to depress the price of more desirable sizes. The committee should have authority to determine the kind of packs that go into export, the kind of packs that should go into different outlets, or the grade and size of potatoes that should go into various packs. This is part of a good merchandising approach.

The proposed order should also authorize different grade and size regulations for potatoes when packed in different kinds of containers. This is part of the authority that becomes an important adjunct to good merchandising. Containers other than those in current use may enter the marketing picture in the near future. The potato industry in the production area may wish to protect newly developed or specialized containers by restricting their use to certain grades, sizes, or qualities while allowing other grades and sizes to be shipped in other of the containers in use at the same time.

The order should contain authority for the Secretary to fix, through rules and regulations, the size, capacity, weight, dimensions or pack of container or containers which may be used in the packaging or handling of potatoes, or both, as this is an appropriate means for assisting growers in increasing returns for their crop. Although the need for fixing the size, and other features, of containers in the potato industry may be less urgent than in some other crops, nevertheless the evolution of containers for potatoes indicates that there may be situations in the future in which the committee should have the right and authority to exercise its judgment in the elimination of nuisance types of container or containers that tend to create disorderly rather than orderly marketing.

The proposed order should provide, the same as the present order, authority to regulate shipments of potatoes by establishing, in terms of grade, size, or both, minimum standards of quality and maturity when prices are above parity. The shipment of culls, and other undesirable grades and sizes of potatoes that are below minimum standards of quality or maturity when prices are above parity, is not in the public interest. If it is the judgment of the committee that low grades and off sizes of potatoes should not be handled when prices are above parity, the committee should have authority to recommend, and the Secretary to issue, regulations which will maintain minimum standards of quality and maturity during such price situations.

Producers and handlers who market potatoes between early July and September 15 frequently encounter trouble, pricewise, in marketing their crop due to excess potatoes on the market. Such excess of potatoes has resulted in glutted markets, low prices to growers, and, in general, disorderly marketing conditions for potatoes grown within the production area. Such producers and handlers have found it desirable at times to stop digging and otherwise decrease supplies of potatoes in order for the market conditions to clear up. At times, during this summer deal, more potatoes are dug and prepared for market during a given period than can be sold at satisfactory prices to the producer. Potatoes are of a perishable nature, especially during the summer, and once they are dug, they must be moved to market immediately because there are not available for such potatoes adequate storages. When potatoes are dug, but still unsold, they hang over the market so that prices are depressed to extremely low points. Growers and handlers suffer from these low prices and, at times in the past, the potatoes have brought less even than the cost of digging. As harvested potatoes accumulate in the production area and roll to market unsold, this excess supply situation tends to depress prices, not only locally, but also in terminal markets, and to create disorderly marketing conditions. Growers and handlers have found through experience that the best remedy for this situation is to discontinue putting potatoes on the market so as to facilitate the disposition of unsold rollers. They have attempted to do so at times in the past through voluntary digging holidays. However, these have not been successful in that not all growers have been willing to go along with the holiday program. Evidence indicates that the most practical approach to this problem is to authorize the prohibition of the preparation of such potatoes for market. In practical effect this means that the grading sheds would be shut down and grading operations would be discontinued during the period of the "shipping holiday." The purpose of such a holiday should be to clear up the local supplies so that the quantities of unsold potatoes may be brought into manageable proportions which do not have a depressing effect on the market price and growers' returns. Growers proposed that shipping holidays should be in effect either under glutted conditions such as they experienced in the past or during Saturday and Sunday (over week-ends) so as to eliminate the preparation for market of potatoes during these periods when receivers and other buyers in terminal markets are not open for business; and such holidays would tend to prevent adding supplies to an already glutted market. Because the primary objective of a "shipping holiday" is to clear up local supplies and unsold rollers, the sale and transportation of such potatoes as are already loaded at the beginning of such holiday should be permitted. This permission would facilitate moving all loaded supplies to the terminal markets and thereby tend to reduce the pressure of the excess supply at the source.

The proposed order should authorize that a prohibition of the preparation of potatoes for market may be declared by the Secretary pursuant to committee recommendation, whenever supply situations are such that prices to growers are unduly depressed and the prohibition of the preparation of potatoes for market will tend to increase such prices up to the parity level. Such prohibition or holiday should be authorized either during week-ends or any other part of the week whenever the circumstances warrant. However, no such holiday should prohibit the shipment of potatoes to processors within the production area only, irrespective of whether the potatoes were already loaded at the beginning of the holiday. Such potatoes as are delivered to these processors do not contribute to the accumulation of the unsold excess supply. Also, such prohibition of preparation of potatoes for market should be limited to the two-month period from July 15 to September 15. No regulation should be issued or be effective under this provision during the remainder of the marketing season. Also, as a protective measure for growers so that the digging and preparation of potatoes for market will not be prohibited for an undue length of time, no such prohibition of the preparation of potatoes for market should be effective for more than 96 consecutive hours, and at least 72 consecutive hours should elapse between any two successive shipping holidays. Any regulation so issued under the prohibition of the preparation of potatoes for market should not apply to the handling of potatoes for processing. Potatoes for processing includes those potatoes which go to dehydration and other types of processing, such as starch or flour.

Further, handlers should be permitted to sell or contract to sell any potatoes during a holiday to the extent that such sales are in conformity with all regulations in effect at that time under the proposed order in order to reduce the number of unsold rollers that may move to market after the holiday.

No handler should be permitted to handle during any shipping holiday, or at any time thereafter, any potatoes which were prepared for market or loaded during the holiday. This is necessary in order to prevent the additional accumulation of potato supplies during the holiday which could be dumped on the market immediately after the holiday thereby tending to minimize the benefits thereof.

The authority to issue regulations should also contain authority to amend or suspend them. This is a logical outgrowth of the authority to issue such regulations. In the same way, the Secretary may terminate any regulation when he finds that the regulation obstructs or no longer tends to effectuate the declared policy of the act.

The Secretary, upon the basis of recommendations and information submitted by the committee, or other available information, should be authorized to modify, suspend, or terminate grade, size, or quality regulations to facilitate the handling of potatoes for purposes other than disposition in normal domestic fresh markets. Rules and regulations applicable to inspection or the collection of assessments should also be subject to modification, suspension, or termination in connection with such handling. The committee should be well qualified because of the experience and knowledge of individual members, to recommend such modifications, suspensions, or terminations as will be in the best interests of the Idaho-Malheur County potato industry and which will tend to effectuate the declared policy of the act. Potatoes moving to or sold in certain outlets, such as those specified in § 957.53 of the proposed order, are usually handled in a different manner, or such outlets usually accept different grades, sizes, qualities, maturities, packs, or containers, or different prices are returned, or combinations of such considerations may apply. The proposed order

should provide authority for the committee and the Secretary to give appropriate consideration to the handling of potatoes for such purposes so that full opportunity may be taken under this program to improve orderly marketing conditions for potatoes, thereby promoting the tendency to increase total returns to potato growers in the production area.

The movement or transportation of ungraded or field-run potatoes for the purpose of having such potatoes prepared for market should be exempt in the proposed order provided that such movement is confined to the production area. Although some potatoes move directly from the field to the packing house for preparation for market, most potatoes grown in the production area are first moved to farm storage in field-run condition. Prior to grading for fresh market or movement to processors, much of the crop at farm storages receives a rough grading which results in the elimination of rots and other obvious cull potatoes, not desirable for either fresh or processing outlets.

Usually grading or preparation for market is done close to the farm where the potatoes are grown; and it is not the usual practice to haul ungraded potatoes for any great distance for this purpose. In some instances, however, potatoes move directly from storage in field-run condition to graders at more distant points within the production area for preparation for market. It is impractical, as a matter of every day business operation, to require such potatoes, which are later to be graded or prepared for market, to meet grade, size, and other regulations at the time of such movement. To require such compliance with such regulations for table stock potatoes would impose an unreasonable hardship on producers and handlers in the production area. Such movement for grading or preparation for market within the production area should be specifically excluded from the definition of the term "handle."

Movement of ungraded or field-run potatoes within the production area for the purpose of having such potatoes stored within the production area or for planting within the production area should similarly not be restricted. No useful purpose would be served by including such movement within the authority of the proposed order. Movement of ungraded potatoes for planting or storage within the production area occurs prior to the time such potatoes are prepared for market or moved thereto. Exclusion of such movement within the production area from the definition of "handle" will ease the burden of administration on the committee and reduce any reporting and other requirements on growers.

Some export markets accept certain grades, and particularly some sizes, which are generally discounted in domestic markets. The proposed order should therefore, provide that grade, size, and other regulations may be modified, suspended, or terminated to facilitate the movement to export outlets so that this demand can be met and the sale of potatoes grown in the production area may continue in such markets. This authority is contained in the present order.

The proposed order should provide that special considerations may be given to the handling of potatoes for relief or for charitable purposes. Such shipments are intended for special outlets and usually the shipments are by way of donation or due to some special consideration between the shippers and the receivers.

The handling of pickouts and culls for livestock feed has been relieved from regulation under the present order. Under the proposed order such handling similarly should be relieved from regulation but only for disposition within the production area. Adequate outlets are available in the production area for livestock feed potatoes. Since such production area can utilize the available supply of such potatoes, it is practical and desirable to permit such handling to localized livestock outlets as a means of effecting compliance with the terms and conditions of the proposed order. Such a limitation would also assure that the potatoes earmarked for such outlet are not diverted to the fresh market outside the production area.

The committee should continue to have authority under the proposed order to recommend that any regulation applicable to potatoes for the fresh market should be modified, suspended, or terminated with respect to the handling of certified seed potatoes, when to do so would facilitate the shipment thereof for seed purposes. Also, the Secretary's authority should be continued in this respect. Seed potatoes must pass a series of tests before certification by the appropriate State agency. There is additional expense to the grower for such certification. Certified seed is usually sold at a premium over potatoes for fresh market; small sizes are preferred as seed but discounted for table use. However, should prices of table-stock potatoes be at relatively high levels, growers and shippers may be encouraged to divert certified seed potatoes to the table (or fresh) market. In such event, the committee should be authorized to recommend, and the Secretary to issue, safeguarding requirements or other regulations applicable to certified seed shipments to insure that they are in fact shipped for use as seed.

A practice has been started by a number of growers and handlers of holding potatoes in so-called warm storage to promote proper conditioning for manufacture into potato chips. This is in accordance with the desires and specifications of potato chippers. Such conditioning usually puts the potatoes in a preferred condition for potato chips but in a condition (i. e., shriveled and with sprouts) which could result in discounted prices if sold on the fresh market. The committee should have authority to recommend that special consideration be given for potatoes which have been conditioned for chipping. Such consideration should include, among other things, authority to prescribe a different period of validity for inspection certificates issued on potatoes moving into warm storage in the production area for conditioning. However, such special consideration need not be extended to all potatoes which are destined to potato chip plants without prior conditioning. Also, an existing grade regulation could be modified so as to permit the handling of conditioned potatoes that fail to meet the requirements of the grade because of shriveling and sprouting. The Secretary should have the requisite authority to accomplish this.

The committee and the Secretary should have authority to give special consideration to potatoes which move to processing outlets or which may be converted into any products or by-products, whether for edible or industrial use. Market requirements vary for shipments of potatoes destined for several processing outlets. The common processed potato products include dehydrated potatoes in various forms, starch, flour, and canned and frozen products. Other products of raw potatoes include alcohol, and glucose. There is no authority provided in the present or proposed order which would permit any regulation of potato products or by-products as such. Therefore, only those handling activities which precede the manufacturing process should be subject to the aforesaid special consideration which includes modification, suspension, or termination of regulations applicable to the usual fresh market shipments of potatoes. Shipments of potatoes, among other vegetables, for the purpose of having such potatoes canned or frozen, are specifically exempted from regulation by the act. Any reference to potatoes for canning or freezing herein has particular reference merely to a safeguard, which requirement may cause such shipments to canners or freezers to be reported to the committee for the sole purpose of assuring the committee, the Secretary, and the potato industry in the production area that such shipments are, in fact, moved to the outlet for which intended. No other regulation or restriction is implied on potatoes for canning or freezing.

Evidence supports the fact that, in most cases, shipments to starch processors should be subject only to safeguarding requirements to determine that such shipments reach the announced outlet. Starch is primarily a salvage outlet for pickouts or culls in the production area. Such pickouts or culls are usually purchased from fresh market packing house operators at a very low price. Few field-run potatoes are used in starch plant operations. Also starch does not compete, in a large sense, with potatoes for edible uses.

On the other hand, the testimony in the hearing record shows that dehydrators use and prefer higher quality potatoes than do starch processors. Exclusive use of field-run potatoes in dehydration plants is not uncommon; however, at times culls or pickouts are blended with field-run or graded potatoes. It was testified that efficiency of operation in dehydration plants improves directly with the quality of the raw product, and that processors compete with fresh market shippers for potato supplies. Some producers make an attempt to remove rots and green potatoes from their field-run stock prior to delivery to dehydrators because their returns are based on grade-out. In any event, rots and green potatoes are subject to culling by the dehydrators because the use of such culls would result in the manufacture of a poorer quality product.

The present order regulates the handling of potatoes shipped outside the production area for processing and contains authority for relaxing regulations to facilitate such handling. In view of the foregoing, the proposed order should also authorize the Secretary to relax the grade and size regulation which would otherwise be applicable to all handling of potatoes to facilitate the movement of potatoes to the several processing outlets. Of course, the degree of relaxation should be reasonably related to the particular processing outlet. Prices at which growers sell and processors buy field-run potatoes are directly related to and dependent on fresh market prices. The same is generally true but to a lesser extent, of prices of culls or pickouts sold to processors. Most of the processing plants in the production area utilize large quantities of field-run potatoes or cull potatoes in their operations, often exceeding one million bushels per plant during a marketing season.

During certain seasons, excessively high production and supplies could result in depressed prices and lower returns to growers. Some potato crops grown in the production area may be of such generally poor quality as to contain a high proportion of culls in field-run lots thereby resulting in the committee recommending and the Secretary issuing a somewhat less stringent grade and size regulation to permit the filling of market demands or to facilitate grading operations. The committee should, therefore, have authority to recommend some restriction on the handling of culls and pickouts for manufacturing or processing during seasons when these conditions exist. The members of the committee may decide that the wisest and most prudent course to follow, after consideration of the nature of the potato crop and the position of growers, shippers, and processors, should be to recommend, for example, that the Secretary modify the grade and size regulation to the extent that only field-run or better quality or sizes of potatoes may be handled for processing rather than culls and pickouts. Such modification may, for example, permit the delivery and utilization of field-run potatoes at dehydration plants and prohibit the blending therewith of culls or pickouts. At times it may be necessary for the committee to recommend the issuance of somewhat more restrictive regulations.

For other purposes or outlets which may develop in the future, the committee should be empowered with sufficient flexibility so as to recommend that special treatment, through modification, suspension, or termination of regulations be made applicable thereto. The committee, with the approval of the Secretary, should be authorized to give such special consideration to help promote orderly marketing of potatoes by taking advantage of such new outlets and to facilitate the handling of potatoes therefore.

(18) The provisions of the present order relating to safeguards (applicable to shipments of potatoes for special purposes) should be somewhat modified mainly to delete superfluous wording and to simplify committee administration. The proviso in the present § 957.57 (b) (2) relating to inspection and payment of expenses at different times than otherwise usually specified should be deleted because no need for its applicability is contemplated. The committee should continue to have authority to rescind any Certificate of Privilege issued as a safeguard to a handler for a special purpose shipment whenever proof satisfactory to the committee is obtained which shows that the terms of the certificate have been violated by him. This will assure handlers that a Certificate of Privilege will not be revoked without adequate proof of a violation.

(19) Provision should be made for inspection by the Federal-State Inspection Service, or by such other inspection service as the Secretary may approve, of shipments of potatoes grown in the production area during any period in which shipments of potatoes are regulated under the proposed order. Such inspection requirements should apply to all potatoes shipped under regulations issued under the proposed order, except when any such shipments are relieved from inspection requirements pursuant to such order, so as to assure compliance with the program.

Inspection of shipments subject to regulation establishes a means for providing the shipper, the buyer, the committee, the Secretary, and other interested parties, with an authoritative determination as to whether a shipment or shipments of potatoes comply with the requirements of any particular grade, size, quality, or maturity regulation which may be in effect under the proposed order. Effective regulation of the handling of potatoes grown in the production area requires that the grade, size, quality, and maturity of each shipment of such potatoes should be authoritatively established so that the administration of the proposed order shall be efficient and effective.

Copies of inspection certificates issued pursuant to the requirements of the proposed order should be supplied to the committee promptly so that it may properly discharge its administrative responsibilities under the program, including checking the compliance aspects thereof. Such certificates also could provide a basis for computing assessment due by handlers.

Provision should be made in the proposed order for authority to inspect potatoes, not only by personnel of the Federal-State Inspection Service but also by personnel of such other inspection service as the Secretary may designate, so that sufficient flexibility for successful operation can be provided through appropriate inspection if Federal-State Inspection is not available. The requirement that no handler shall ship potatoes unless the shipment is inspected by an authorized inspection service approved under the proposed order is reasonable and necessary for the proper administration of the program.

Responsibility for obtaining inspection should fall primarily on the handler who first handles potatoes after they have been prepared for market so that each shipment of such potatoes will be identified and certified with respect to its grade, size, and other factors. The handler who so first handles potatoes should be required to obtain inspection and subsequent handlers may not handle such potatoes unless a properly issued inspection certificate, valid under the terms of the proposed order, applies to the potatoes.

In order that the committee may carry out its duties under the order to determine that specific shipments of potatoes have been properly inspected and certified and also comply with other applicable regulations, it is necessary that the committee be supplied with appropriate evidence of each such shipment in the form of an inspection certificate.

Whenever any shipment of potatoes subject to the terms and provisions of the proposed order have been inspected and are later dumped from the containers in which they were inspected, such potatoes lose their identity insofar as the original inspection certificate issued for them is concerned. When any such lot of potatoes thereafter should be repacked, regraded, or resorted, such potatoes take on new identity; and any subsequent handling of such potatoes should comply with regulations issued under the proposed order. Therefore, inspection of such potatoes should be required as in the case of any other handling of potatoes. Such requirement is necessary to effectuate the declared policy of the act and a means effecting compliance. Therefore, the proposed order should provide that any person who handles potatoes grown in the production area after they have been repacked, regraded, or resorted shall not handle such potatoes unless they are inspected prior to handling. Such inspection of repacked, regraded, or resorted potatoes is necessary so that the shipper thereof, as well as subsequent handlers, and the committee may determine if such shipments comply with the regulations then in effect and applicable thereto.

The committee with the approval of the Secretary, should be authorized to determine the length of time the inspection certificates may be valid insofar as the requirements of the proposed order are concerned. In order to assure that an inspection certificate will reflect at the time of handling, the quality of a particular lot of potatoes at the time of inspection prior thereto, the committee should have authority to fix, with approval of the Secretary, a time limit governing the continuing validity of any such certificate. Such requirement is reasonable and necessary; and it could be helpful especially with respect to warehouse or lot inspections, so that a time could be fixed that would allow adequate opportunity for the handling of all of the inspected potatoes, thereby accommodating handlers and truckers. For example, this provision could serve to

authorize the committee with approval of the Secretary to establish a longer period of validity for inspection certificates issued in the case of potatoes placed in warm storage for conditioning for use as chips and shipped out of storage at some later date. As previously indicated conditioned potatoes are subject to shriveling and sprouting, due to conditioning; and the added time would enable the subsequent handling of such conditioned potatoes if they otherwise meet the then current regulations.

(20) The provisions of the present order set forth procedures to be followed in the issuance of exemption certificates to individual producers and handlers who, because of adverse circumstances beyond their control or reasonable expectation, are unable to handle a quantity of potatoes equal to the average handled by all producers and handlers in their immediate areas. The committee proposed deletion of the sections of the order applicable to exemptions contending that unusual weather conditions are reasonably to be expected, the shipment of undergrade and undersize potatoes moved under exemption certificates tends to depress the returns paid for good quality potatoes, and it is difficult to administer the exemption procedures and simultaneously afford equitable treatment to all producers and handlers. Testimony in the hearing record reveals that approximately 50 exemption certificates, applicable to an area of 5,000 to 6,000 acres of potatoes, were issued by the committee to producers and handlers during the 1954-55 season. Most of the 50 certificates were issued on the basis of hardship resulting from hail damage. Contrary to the committee's contention, hail cannot be anticipated. Such weather factors do not affect all producers and handlers in an area alike. During past marketing seasons, the volume moved under exemption certificates has been slight compared to total shipments. During the 1954-55 season, e. g., the acreage affected amounted to only 3 percent of the total acreage in the production area. In addition, not all of the production from any such affected acreage failed to meet minimum regulatory requirements.

The record does not support a finding that would justify deletion of the provisions of the present order relating to exemptions. It was testified that producers and handlers would be unable to seek equitable treatment under the program should the exemption feature not be in the proposed order. No other adequate or reasonable course is available to producers and handlers; therefore, the exemption provisions should be continued in the proposed order.

(21) The continuation of rules and regulations effective under the present order which may be in operation at the time of issuance of the proposed order is necessary for the efficient operation of the program. For example, rules and regulations (7 CFR 957.100 through 957.133) relative to exemption certificates, Certificates of Privilege, and safeguards are currently in effect under the present order. Since there are no substantial changes in the provisions of the proposed order authorizing these rules and regulations, they should continue in effect until subsequently modified or terminated. Such continuation is practical and necessary for efficient operation. Any lapse in such rules and regulations for technical reasons could result in undue administrative hardship on the committee and the Secretary, and on the industry.

(22) The provisions of the present order which remain essentially unchanged by the terms and conditions of the proposed order should be applied to all handling of potatoes grown in the production area because such provisions are incidental to, and not inconsistent with section 8c (6) and (7) of the act, and they are necessary to effectuate the other provisions of the proposed order and the declared policy of the act. These provisions include, among others, the miscellaneous provisions, §§ 957.80 through 957.95 which are an essential part of the present order, also common to other potato marketing orders, and they are necessary and appropriate to the operation of the proposed order. The other provisions of the present order remaining essentially the same in the proposed order are incorporated on the same basis. The record shows the desirability and necessity for doing so. These sections set forth certain definitions, rights, obligations, privileges, or procedures which are necessary and appropriate for the effective operation of the proposed order.

*Ruling on proposed findings and conclusions.* At the conclusion of the hearing, the Presiding Officer fixed March 16, 1956, later extended to April 2, 1956, as the latest day on which briefs from interested parties with respect to the testimony presented in evidence at the hearing and the findings and conclusions to be drawn therefrom must be received by the Hearing Clerk of this Department.

Briefs were filed within the allotted time by L. E. Haight, Attorney for Food Processing Division, J. R. Simplot Company, Boise, Idaho; and Jones, Pomeroy & Jones, Pocatello, Idaho, Attorneys for Rogers Bros. Seed Company, American Potato Company, and Idaho Potato Growers, Inc., all of Idaho Falls, Idaho. The briefs contained proposed findings of fact, conclusions, and arguments with respect to the proposed amendments considered at the hearing. The briefs generally contend, among other things, that there is no competition between fresh and processed potatoes, and that the evidence received at the hearing does not justify a referendum with respect to proposed amendment.

The proposed order has as its primary purpose the establishment and maintenance of such orderly marketing conditions as will establish parity prices for potatoes grown in the production area. The proposed order relates only to the handling of fresh or raw unprocessed potatoes; and the returns to producers for such potatoes are the direct and positive concern of such authority.

There is direct competition among all buyers for each crop of potatoes grown in the production area. In most instances, potatoes grown in the production area are produced for sale to fresh market outlets. The prices at which growers sell to processors are, for the most part, governed by the multiple factors which determine fresh market prices. Each grower first considers price alternatives and opportunities in fresh market channels, based on his best estimates of the grade and size of his particular crop or lot of potatoes, before making any sale commitments with processors, including contracts to sell to processors before planting or harvest. In such latter instances, the grower's judgment as to the prospect for fresh market prices during the ensuing marketing season are an important consideration in his decision whether to sell to processors. To the extent, then, that producers weigh prices offered by processors for potatoes grown in the production area against fresh market prices (both within and outside the State) for such potatoes, there is direct price competition between such outlets.

Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions herein set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the fact found and stated in connection with the conclusions in this recommended decision.

*General findings.* Upon the basis of evidence introduced at the hearing and the record thereof it is found that:

(1) The marketing agreement, as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to potatoes produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such potatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such potatoes as will be in the public interest;

(2) The marketing agreement, as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, regulate the handling of potatoes grown in the production area in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which hearings have been held;

(3) The said marketing agreement, as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, are limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of the several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The said marketing agreement, as hereby proposed to be amended, and the order, as amended, and as hereby proposed to be amended, prescribe, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of potatoes grown in the production area; and

(5) All handling of potatoes grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs or affects such commerce.

*Recommended amendment to the marketing agreement and order.* The proposed amendment of the marketing agreement and order, as amended, is recommended as the detailed means by which the aforesaid conclusions may be carried out; and, for ready reference to all of the provisions of the present order as proposed to be amended, an entire order, as amended, is set forth:

DEFINITIONS

§ 957.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 957.2 *Act.* "Act" means Public Act No. 10, 73rd Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 957.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 957.4 *Production area.* "Production area" means all territory included within Malheur County, Oregon, and the counties of Adams, Valley, Lemhi, Clark, and Fremont in the State of Idaho, and all of the counties in Idaho lying south of the aforesaid counties in Idaho.

§ 957.5 *Potatoes.* "Potatoes" means all varieties of Irish potatoes grown within the production area and does not include any products thereof.

§ 957.6 *Varieties.* "Varieties" means and includes all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 957.7 *Certified seed potatoes.* "Certified seed potatoes" means and includes all potatoes officially certified and tagged, marked or otherwise appropriately identified, under the supervision of the official seed potato certifying agency of the State in which the potatoes are grown, or other seed certification agencies which the Secretary may recognize and approve.

§ 957.8 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of potatoes owned by another person) who handles potatoes or causes potatoes to be handled.

§ 957.9 *Handle.* "Handle" is synonymous with "ship" and means to sell or transport potatoes within the production area or between the production area and any point outside thereof: *Provided*, That such term shall not include the movement of potatoes within the production area for the purpose of having such potatoes prepared for market, stored, or planted within such area.

§ 957.10 *Producer.* "Producer" means any person engaged in the production of potatoes for market.

§ 957.11 *Committee.* "Committee" means the administrative committee, called the Idaho-Eastern Oregon Potato Committee, established pursuant to § 957.25.

§ 957.12 *Fiscal period.* "Fiscal period" means the period beginning and ending on the dates approved by the Secretary pursuant to recommendations by the committee.

§ 957.13 *Prepare for market.* "Prepare for market" means to sort or separate potatoes into grades, sizes, qualities, or packs, or any combination thereof, for market purposes.

§ 957.14 *Grade and size.* "Grade" means any one of the officially established grades of potatoes, and "size" means any one of the officially established sizes of potatoes, as defined and set forth in:

(a) United States Standards for Potatoes issued by the United States Department of Agriculture (§§ 51.1540 to 51.1559 of this title), or amendments thereto, or modifications thereof, or variations based thereon;

(b) United States Consumer Standards for Potatoes issued by the United States Department of Agriculture (§§ 51.1575 to 51.1587 of this title), or amendments thereto, or modifications thereof, or variations based thereon; and

(c) Standards for potatoes issued by the State of Idaho or Oregon or amendments thereto, or modifications, or variations based thereon.

§ 957.15 *Pack.* "Pack" means a unit of potatoes in any type of container and which falls within specific weight limits or within specific grade limits, or both, recommended by the committee and approved by the Secretary.

§ 957.16 *Container.* "Container" means a sack, box, bag, crate, hamper, basket, carton, package, barrel, or any other type of unit used in the packaging, transportation, sale, shipment or handling of potatoes.

§ 957.17 *Export.* "Export" means shipment of potatoes beyond the boundaries of continental United States.

§ 957.18 *District.* "District" means each one of the geographical divisions of the production area established pursuant to § 957.27 or as reestablished pursuant to § 957.28.

§ 957.19 *Marketing season.* "Marketing season" is synonymous with "season" and means the period July 1 of any year to and including June 30 of the following year.

§ 957.20 *Process.* "Process" means to manufacture or convert potatoes into any of the products thereof.

COMMITTEE

§ 957.25 *Establishment and membership.* (a) The Idaho-Eastern Oregon Potato Committee consisting of eleven members, of whom seven shall be producers and four shall be handlers (including one handler from any district within the production area who may be a processor), is hereby established. For each member of the committee there shall be an alternate who shall have the same qualifications as the member.

(b) Each person selected as a producer member or alternate shall be an individual who (1) is a producer in the district for which selected or an officer or employee of a producer in such district, and (2) is also a resident of such district. A producer who handles potatoes other than of his own production shall qualify as a producer under this section, and §§ 957.29, 957.30, 957.32, and 957.34, only if the potatoes of his own production constituted 51 percent or more of the total quantity of potatoes handled by him during the portion of the then current season preceding his nomination.

§ 957.26 *Term of office.* (a) The term of office of committee members and alternates shall be for two years beginning June 1 and ending May 31. After June 1, 1956, and on an alternating basis in succeeding years, the terms of office shall be so determined that the tenure of three producer members and two handler members, and their respective alternates, shall terminate as of May 31 of one year and the tenure of four producer members and two handler members, and their respective alternates, shall terminate as of May 31 of the following year.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify and continuing until the end of the term for which selected, and until their successors are selected and have qualified.

§ 957.27 *Districts.* For the purpose of selecting committee members, the following districts of the production area are hereby established:

(a) *District No. 1.* The counties of Oneida, Power, Bingham, Butte, Clark, and all counties lying east thereof in Idaho;

(b) *District No. 2.* Malheur County, Oregon, and counties of Owyhee, Elmore,

Boise, Valley, and all counties lying west thereof in Idaho;

(c) *District No. 3.* The remaining designated counties in Idaho included in the production area, and not included in District No. 1 or District No. 2.

§ 957.28 *Redistricting.* The committee may recommend, and pursuant thereto the Secretary may approve, the reapportionment of members among districts, and the reestablishment of districts, set forth in § 957.27, within the production area. In recommending any such changes, the committee shall give consideration to: (a) Shifts in potato acreage within districts and within the production area during recent years; (b) the importance of new potato production in its relation to existing districts; (c) the equitable relationship between the committee membership and districts; (d) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and (e) other relevant factors. No change in districting or in apportionment of members within districts may become effective within less than 60 days prior to the beginning of a fiscal period; and no recommendations for such redistricting or reapportionment may be made less than four months prior to such date.

§ 957.29 *Selection.* Members and alternates shall be selected on the following basis (unless otherwise apportioned pursuant to § 957.28): (a) Three producer members and two handler members, with their respective alternates, from District No. 1; (b) one producer member and one handler member, with their respective alternates from District No. 2; and (c) three producer members and one handler member, with their respective alternates, from District No. 3.

§ 957.30 *Nominations.* (a) The Secretary may select the members and alternates of the Idaho-Eastern Oregon Potato Committee from nominations which may be made in the following manner, or from other eligible persons; and nominations for members and alternates may be submitted by producers or handlers, including processors, as the case may be, or groups of either thereof, on an elective basis or otherwise:

(b) In order to provide nominations for committee members and alternates:

(1) The committee shall hold or cause to be held prior to April 1 of each year, one or more meetings of producers and of handlers in each of the districts designated in § 957.27, or pursuant to § 957.28, in which the then current terms of office will expire the following May 31; and

(2) In arranging for such meetings, the committee may, if it deems desirable, utilize the services and facilities of existing organizations and agencies, and may combine its meetings with others.

(c) Nominations shall be supplied to the Secretary, in such manner and form as he may prescribe, not later than 30 days prior to the expiration of the terms of office.

(d) Only producers may participate in designating nominees for producer members and alternates and only handlers, including those who are also processors, may participate in designating nominees for handler members and alternates.

(e) Regardless of the number of districts in which a person produces or handles potatoes, such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives, in designating nominees for committee members and alternates: *Provided*, That in the event a person is engaged in producing or handling potatoes in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees: *Provided further*, That an eligible voter's privilege of casting only one vote, as aforesaid, shall be construed to permit such voter to cast one vote for each position to be filled in the district in which he elects to vote.

§ 957.31 *Failure to nominate.* If nominations are not made within the time and in the manner and form specified by the Secretary pursuant to § 957.30, the Secretary may, without regard to nominations, select the committee members and alternates: *Provided*, That such selection shall be on the basis of the representation prescribed in this subpart.

§ 957.32 *Acceptance.* Any person selected by the Secretary as a committee member or as an alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 957.33 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a committee member or as an alternate to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate, a successor for his unexpired term may be selected by the Secretary from nominations made in the manner specified in § 957.30, or the Secretary may select such committee member or alternate from previously unselected nominees on the current nominee list from the district involved. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of the representation provided for in § 957.29.

§ 957.34 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate during such member's absence; and an alternate member may perform such other duties as assigned or requested by the committee. In the event of the death, removal, resignation, or disqualification of a member his alternate shall act for him until a successor to such member is selected and has qualified.

§ 957.35 *Procedure.* (a) Seven members of the committee shall be necessary to constitute a quorum; and at least seven concurring votes shall be required to pass any motion or approve any committee action. At any assembled meeting, all votes shall be cast in person.

(b) The committee may provide for meetings, by telephone, telegraph, or other means of communication and any vote cast at such meeting shall be confirmed promptly in writing.

§ 957.36 *Expenses and compensation.* Committee members and their respective alternates shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this subpart, and shall receive compensation at a rate to be determined by the committee and approved by the Secretary, not to exceed $10.00 for each day, or portion thereof, spent in attending to committee business: *Provided*, That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses and compensation, as aforesaid.

§ 957.37 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 957.38 *Duties.* It shall be the duty of the committee:

(a) To act as intermediary between the Secretary and any producer or handler;

(b) To select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(c) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(d) To investigate, from time to time, and to assemble data on the growing, harvesting, shipping and marketing conditions with respect to potatoes;

(e) To furnish to the Secretary such available information as he may request;

(f) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(g) To make available to producers and handlers the committee voting record on recommended regulations and on other matters of policy;

(h) At the beginning of each fiscal period, to submit to the Secretary a budget of its expenses for such fiscal period, together with a report thereon;

(i) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period; and at such other time as the committee may deem necessary or as the Secretary may request; the report of such audit shall show the receipt and expenditure of funds collected pursuant to this subpart;

a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(j) To consult, cooperate, and exchange information when deemed desirable by the committee with other potato marketing committees and other individuals or agencies in connection with all proper committee activities and objectives under this subpart.

EXPENSES AND ASSESSMENTS

§ 957.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof during a fiscal period and the total quantity of potatoes handled by all handlers as first handlers thereof during the same period.

§ 957.41 *Budget.*. At the beginning of each fiscal period, and as may be necessary thereafter, the committee shall prepare a budget of estimated income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget promptly to the Secretary with an accompanying report showing the basis for its calculations.

§ 957.42 *Assessments.* (a) The funds to cover the committee's expenses pursuant to § 957.40 shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who ships potatoes as the first handler thereof shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of such expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary, but not to exceed $1.00 per carload. Such rates may be established upon the basis of the committee's recommendations or other available information.

(c) At any time during or subsequent to a given fiscal period, the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendation, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all potatoes which were regulated under this part and which were shipped by the first handler thereof during such fiscal period.

§ 957.43 *Accounting.* (a) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member or alternate of the committee, he shall account for all receipts, disbursements, funds, and property (including but not being limited to books and other records) pertaining to the committee's activities for which he is responsible, and deliver all such property and funds in his hands to such successor, agency, or person as may be designated by the Secretary, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designated person, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this part, or during any period or periods when regulations are not in effect; and if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 957.44 *Refunds.* Monies arising from the excess of assessments over expenses shall be accounted for as provided in this section. Each handler entitled to a proportionate refund of the excess assessments at the end of a fiscal period shall be credited with such refund against the operations of the following fiscal period unless he demands payment thereof, in which event such proportionate refund shall be paid to him. However, the Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that some of the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve for possible liquidation. Upon approval by the Secretary, such reserve may be used upon termination of this part to liquidate the affairs of the committee: *Provided*, That upon termination of this part any monies in the reserve for liquidation which are not required to defray the necessary expenses of committee liquidation shall, to the extent practical, be returned upon a pro rata basis to all persons from whom such funds were collected.

RESEARCH AND DEVELOPMENT

§ 957.47 *Research and development.* The committee, with the approval of the Secretary, may provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of potatoes.

REGULATION

§ 957.50 *Marketing policy*—(a) *Preparation.* Prior to or at the same time as recommendations are made pursuant to § 957.51, the committee shall consider and prepare a proposed policy for the marketing of potatoes. In developing its marketing policy the committee shall investigate relevant supply and demand conditions for potatoes. In such investigations the committee shall give appropriate consideration to the following:

(1) Market prices for potatoes, including prices by grade, size, and quality in different packs, and in different containers;

(2) Supplies of potatoes by grade, size, and quality in the production area and in other production areas;

(3) The trend and level of consumer income;

(4) Establishing and maintaining orderly marketing conditions for potatoes;

(5) Orderly marketing of potatoes as will be in the public interest; and

(6) Other relevant factors.

(b) *Reports.* (1) The committee shall promptly submit a report to the Secretary setting forth the aforesaid marketing policy and shall notify producers and handlers of the contents of such report.

(2) In the event it becomes advisable to shift from such marketing policy because of changed supply and demand conditions, the committee shall prepare a new or revised marketing policy in the manner set forth in paragraph (a) of this section and this paragraph. The committee shall promptly submit a report thereon to the Secretary and notify producers and handlers of the contents of such report on the new or revised marketing policy.

§ 957.51 *Recommendation for regulations.* Whenever the committee deems it advisable that the handling of potatoes be regulated pursuant to § 957.52 or § 957.53, or both, it shall recommend such regulations to the Secretary, or amendment, thereto, or modification, suspension or termination thereof, whenever it finds that such regulations will tend to effectuate the declared policy of the act.

§ 957.52 *Issuance of regulations.* (a) The Secretary shall limit the handling of potatoes whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such limitation may:

(1) Regulate in any or all portions of the production area, the handling of particular grades, sizes, qualities, or maturities, or any combination thereof, of any or all varieties of potatoes during any period;

(2) Regulate the handling of particular grades, sizes, qualities, or maturities of potatoes differently, for different varieties, for certified seed potatoes and other potatoes, for different outlets, for different portions of the production area, for different packs, for different containers, or for any combination of the foregoing, during any period.

(3) Provide a method, through rules and regulations issued pursuant to this part, for fixing the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of potatoes, or both;

(4) Regulate the handling of potatoes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity; or

(5) Prohibit the handling of potatoes during a specified period or periods. No regulation issued pursuant to this subparagraph shall be applicable to the handling of potatoes (i) for processing, (ii) that were already loaded at the beginning of such period, or (iii) during any period other than between July 15 and September 15 of any marketing season. No such prohibition shall be deemed to limit the right of any person to sell or contract to sell any potatoes which are in conformity with the then current regulations, if any, that are in effect under this part. Further, no such prohibition shall be effective for more than 96 consecutive hours and at least 72 hours shall elapse between the termination of any such period of prohibition and the beginning of the next such period.

(b) In the event the handling of potatoes is regulated pursuant to § 957.52 (a) (5), no handler shall, except as otherwise permitted by said § 957.52 (a) (5), handle any potatoes that were prepared for market or loaded during the effective period of such regulation.

(c) The Secretary may amend any regulation issued under this part whenever he finds that such amendment would tend to effectuate the declared policy of the act. The Secretary may also terminate or suspend any regulation or amendment thereof whenever he finds that such regulation or amendment obstructs or no longer tends to effectuate the declared policy of the act.

§ 957.53 *Modification, suspension, or termination.* Whenever the Secretary finds, upon the basis of the recommendations and information submitted by the committee, or from other available information, that it will tend to effectuate the declared policy of the act, he shall modify, suspend, or terminate regulation under or pursuant to § 957.42, § 957.52, or § 957.65, or any combination thereof, in order to facilitate the handling of potatoes for the following purposes:

(a) Export;

(b) Relief or charity;

(c) Livestock feed within the production area;

(d) Certified seed potatoes;

(e) Processing into specified products; and

(f) Such other purposes which may be specified by the committee, with approval of the Secretary.

§ 957.54 *Minimum quantity exemption.* The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which shipments will be free from regulations issued or in effect pursuant to §§ 957.40 to 957.65, inclusive, or any combination thereof.

§ 957.55 *Notification of regulation.* The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 957.56 *Safeguards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to § 957.53 and other outlets from entering channels of trade for other than the specific purpose authorized therefor.

(b) Safeguards, as provided by this section, may include requirements that handlers:

(1) Shall obtain the inspection required by § 957.65 or pay the assessment provided by § 957.42, or both, in connection with the potato shipments effected in accordance with § 957.53; and

(2) Shall obtain certificates of privilege from the committee for shipments of potatoes effected or to be effected under provisions of § 957.53.

(c) The committee, with the approval of the Secretary, shall prescribe rules governing the issuance and the contents of certificates of privilege.

(d) The committee may rescind or deny to any handler certificates of privilege if proof satisfactory to the committee is obtained that potatoes shipped by him for the purposes stated in § 957.53 were handled contrary to the provisions of this part.

(e) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(f) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes shipped under duly issued certificates and such other information as may be requested by the Secretary.

INSPECTION AND CERTIFICATION

§ 957.65 *Inspection and certification.* (a) During any period in which regulations are issued pursuant to §§ 957.52, 957.53, or any combination thereof, no handler shall handle potatoes unless such potatoes are inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary may designate, and is covered by a valid inspection certificate, except when relieved from such requirements pursuant to recommendation by the committee and approval by the Secretary.

(b) Regrading, resorting, or repacking any lot of potatoes shall invalidate any prior inspection certificates covering such potatoes insofar as the requirements of this section are concerned. During any period in which shipments of potatoes are regulated, as aforesaid, no handler shall handle potatoes after they have been regraded, resorted, repacked, or in any way further prepared for market, unless such potatoes are inspected and covered by a valid inspection certificate as required in paragraph (a) of this section.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate shall be valid may be established by the committee with the approval of the Secretary; and such length of time may be different for shipments for different purposes.

(d) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available promptly to the committee by the inspection service.

EXEMPTIONS

§ 957.70 *Procedure.* The committee may adopt, subject to approval of the Secretary, the procedures pursuant to which certificates of exemption will be issued to producers or handlers.

§ 957.71 *Granting exemptions.* (a) The committee may issue certificates of exemption to any producer who applies for such exemption and furnishes adequate evidence to the committee: (1) That by reason of a regulation issued pursuant to § 957.52 or § 957.53, or both, he will be prevented from handling as large a proportion of his production as the average proportion of production handled by all producers in said applicant's immediate production area, and (2) that the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation. Each certificate shall permit the producer to handle the amount of potatoes specified thereon. Such certificate shall be transferred with such potatoes at time of handling.

(b) The committee may issue certificates of exemption to any handler who applies for such exemption and furnishes adequate evidence to the committee: (1) That by reason of a regulation issued pursuant to § 957.52 or § 957.53, or both, he will be prevented from handling as large a proportion of his storage holdings of ungraded potatoes, acquired during or immediately following the digging season, as the average proportion of ungraded storage holdings handled by all handlers in said applicant's immediate shipping area, and (2) that the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation. Each certificate shall permit the handler to handle the amount of potatoes specified thereon. Such certificate may be transferred with such potatoes at time of handling.

(c) The committee shall be permitted at any time to make a thorough investigation of any producer's or handler's claim pertaining to exemptions.

§ 957.72 *Appeal.* If any applicant for exemption certificates is dissatisfied with the determination by the committee with respect to his application, said applicant may file an appeal with the committee. Such an appeal must be taken promptly after the determination by the committee from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 957.73 *Records, reports, and review of exemptions.* (a) The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of potatoes covered by such exemption certificates, a record of the amount of potatoes shipped under exemption certificates, a record of appeals for reconsideration of applications, and such information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the committee upon request of the Secretary.

(b) The Secretary shall have the right to modify, change, alter, or rescind any procedure and any exemptions granted pursuant to §§ 957.70 to 957.73, inclusive.

MISCELLANEOUS PROVISIONS

§ 957.80 *Reports.* Upon the request of the committee, with approval of the Secretary, every handler[*] shall furnish to the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its powers and perform its duties under this subpart. The Secretary shall have the right to modify, change, or rescind any requests for reports pursuant to this section.

§ 957.81 *Compliance.* Except as provided in this part, no handler shall handle potatoes, the handling of which has been prohibited by the Secretary in accordance with provisions of this part, and no handler shall handle potatoes except in conformity to the provisions of this part.

§ 957.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 957.83 *Effective time.* (a) The provisions of this subpart shall become effective at such time as the Secretary may declare above his signature attached to this subpart, and shall continue in force until terminated in one of the ways specified in this subpart.

(b) All rules and regulations issued by the Secretary pursuant to this part (Order No. 57, as amended), which are in effect immediately prior to the date of this amendment shall continue in effect under this subpart as originally issued, or subsequently modified, until such rules and regulations are changed, modified, or suspended in accordance with this subpart.

§ 957.84 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any season whenever he finds that such termination is favored by a majority of producers who, during the preceding season, have been engaged in the production for market of potatoes: *Provided*, That such majority has, during such season, produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced on or before April 30 of the then current season.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 957.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall upon request of the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 957.86 *Effect of termination or amendments.* (a) Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (1) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (2) release or extinguish any violation of this subpart or of any regulation issued under this subpart, or (3) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

(b) Each person who is a committee member or alternate on the effective date of this subpart shall continue in office under this subpart until the end of such person's term of office, and until his successor has been selected and has qualified; and all effective rules and regulations issued pursuant to this subpart shall continue in effect until modified, suspended, or terminated by the Secretary in accordance with the provisions of this subpart.

§ 957.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 957.88 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the United States, or name any agency in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 957.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 957.90 *Personal liability.* No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission as such member, alternate, employee, or agent, except for acts of dishonesty.

§ 957.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 957.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

§ 957.93 *Counterparts.* This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.[*]

[*] Applicable only to the proposed marketing agreement.

§ 957.94 *Additional parties.* After the effective date hereof, any handler who had not previously executed this agreement may become a party hereto if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.[2]

§ 957.95 *Order with marketing agreement.* Each signatory handler favors and approves the issuance of an order, by the Secretary, regulating the handling of potatoes in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act, such an order.[2]

Done at Washington, D. C., this 18th day of May 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

## [ 7 CFR Part 975 ]

[Docket No. AO-179-A13]

MILK IN CLEVELAND, OHIO, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO THE ORDER, AS AMENDED, REGULATING HANDLING

*Correction*

In Federal Register Document 55-3393, of the issue dated April 27, 1955, the following corrections are made:

1. On page 2803 Col. 1, 11th line of 2d full paragraph change "Class II" to "Class III".

2. On page 2806 Col. 1, 18th line of 1st paragraph change "Class II" to "Class III".

3. On page 2806 Col. 2, 7th line from end of 1st paragraph change "Class II" to "Class III".

4. On page 2806 Col. 3, 18th line from bottom change "Class II" to "Class III".

5. On page 2807 Col. 3, next to last line change "$1.35" to "$1.40", and on page 2808 Col. 1, 2d line change "$1.80" to "$1.85".

## FEDERAL COMMUNICATIONS COMMISSION

## [ 47 CFR Part 3 ]

[Docket No. 11677]

REMOTE CONTROL OPERATION OF CERTAIN STANDARD, FM, AND NON-COMMERCIAL EDUCATIONAL FM BROADCAST STATIONS

NOTICE OF EXTENSION OF TIME FOR FILING COMMENTS

In the Matter of amendment of §§ 3.66, 3.274 and 3.572 of the Commission's rules and regulations relating to remote control operation of certain standard, FM, and non-commercial educational FM broadcast stations.

1. On April 12, 1956, the Commission issued a Notice of Proposed Rule Making (FCC 56-323) in the above-entitled proceeding which specified that comments should be filed on or before June 1, 1956, with replies to comments due 20 days thereafter.

2. On May 10, 1956, the International Brotherhood of Electrical Workers (AFL-CIO) filed a request for extension of time in which to file comments, as the June 1, 1956, date would be unfair and impractical in that it would not allow it sufficient time for the presentation of considered views prepared with the degree of care and accuracy that the Commission is entitled to have before it in its consideration of the proposed rule making in the matter.

3. The Commission believes that a sufficient showing has been made to warrant an extension of time for filing comments in this proceeding and that such an extension would be in the public interest.

4. In view of the foregoing, *It is ordered*, That the time for filing comments in the above-entitled proceeding is extended to July 2, 1956; and that the time for filing replies to such comments is extended to 20 days thereafter.

Adopted: May 17, 1956.

Released: May 17, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4043; Filed, May 22, 1956; 8:48 a. m.]

[2] Applicable only to the proposed marketing agreement.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[Doc. 14—California State Office]

CALIFORNIA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

MAY 14, 1956.

Pursuant to the authority delegated by the Director, Bureau of Land Management, in section 2.5 of Order 541, dated April 21, 1954 (19 F. R. 2473, 2476), it is ordered as follows:

Subject to valid rights and provisions of existing withdrawals, the Departmental order of January 21, 1933, establishing Stockdriveway Withdrawal No. 235, California No. 17, under section 10 of the act of December 29, 1916 as amended (30 Stat. 865; 43 U. S. C. 300), is hereby revoked so far as it affects the following described lands:

MOUNT DIABLO MERIDIAN

T. 26 S., R. 35 E.,
Section 2, SE¼NE¼.
T. 25 S., R. 36 E.,
Section 20, S½SE¼.

The areas described aggregate 120 acres.

This revocation is made in furtherance of an exchange under section 8 of the act of June 28, 1934 as amended by section 8 of the act of June 26, 1936 (48 Stat. 1272; 49 Stat. 1976; 43 U. S. C. 315g) by which the offered lands will benefit a Federal land program. This restoration is, therefore, not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284) as amended, granting preference rights to veterans of World War II and others.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, 5th Floor Bartlett Building, 215 W. 7th St., Los Angeles 14, California.

R. R. BEST,
*State Supervisor.*

[F. R. Doc. 56-4030; Filed, May 22, 1956; 8:45 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Department of the Air Force has filed an application, Serial No. Fairbanks 012867, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the mining and mineral leasing laws.

The applicant desires the land for military purposes.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

Commencing at the point of intersection of latitude 64°35' North and longitude 146°42' West; thence South along said longitude line for a distance of 670 feet to the True Point of Beginning for this description; thence West 9,200 feet; thence North 1,540 feet; thence N. 55° 00' E. 6,875 feet; thence East 6,335 feet; thence South 5,460 feet, more or less, to a point due East of the Point of Beginning; thence West 2,710 feet, more or less, to the Point of Beginning, and containing 1,240 acres, more or less.

ROGER R. ROBINSON,
*Operations Supervisor.*

[F. R. Doc. 56-4031; Filed, May 22, 1956; 8:46 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The U. S. Coast Guard has filed an application, Serial No. Anchorage 022116, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including mining and mineral leasing laws and the Grazing Act.

The applicant desires the land for primary communication facilities.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

Point of beginning Coast Guard Reservation Corner No. 1, from which Corner No. 9 of U. S. Survey No. 3275 bears west 4.484 chains; thence approximately south 89° 24' E. a distance of approximately 68.7 chains to CG Reservation Corner No. 2, which is identical to Corner No. 3 of U. S. Survey No. 3022; thence south 85° 08' 30" E. a distance of 2.692 chains to Coast Guard Reservation Corner No. 3, which is identical to Corner No. 13 of U. S. Survey No. 2808; thence east a distance of 16.48 chains; passing thru Corner No. 12 of U. S. Survey No. 2808, to Coast Guard Reservation Corner No. 4; thence south a distance of approximately 40 chains to Coast Guard Reservation Corner No. 5; thence west approximately 87.88 chains, passing thru corner No. 9 of U. S. Survey No. 3155, to Coast Guard Reservation Corner No. 6; thence north a distance approximately 41 chains to Coast Guard Reservation Corner No. 1 the point of beginning. Such Reservation containing an approximate area of 356 acres, including the area occupied by the right of way of the North Tongass Highway which passes thru this Reservation.

ROGER R. ROBINSON,
*Operations Supervisor.*

### Bureau of Reclamation

PAONIA PROJECT, COLORADO

ORDER OF REVOCATION

MARCH 1, 1956.

Pursuant to authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Order of December 7, 1942, insofar as said order affects the following described lands; provided, however, that such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the lands hereinafter described:

SIXTH PRINCIPAL MERIDIAN, COLORADO

PAONIA PROJECT

T. 14 S., R. 90 W.,
Sec. 16; W½NE¼, SW¼SE¼;
Sec. 21; W½NE¼, W½, SE¼;
Sec. 22; S½SW¼.

The above areas aggregate 760 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[1941433]

MAY 17, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The released lands are within the Gunnison National Forest and have been open to applications and offers under the mineral-leasing laws. They will be open to such other applications, selections and locations, as are permitted on national forest lands effective at 10:00 a. m. on June 22, 1956.

Inquiries concerning applications and offers under the mineral-leasing laws and locations under the mining laws shall be addressed to the Manager, Land Office, Bureau of Land Management, Denver, Colorado. Other inquiries shall be addressed to the Regional Forester, Federal Center—Building 85, Denver, Colorado.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

## FEDERAL POWER COMMISSION

[Docket No. E-6679]

PACIFIC POWER & LIGHT CO.

NOTICE OF APPLICATION FOR AUTHORITY TO ISSUE UNSECURED PROMISSORY NOTES

MAY 17, 1956.

Take notice that on May 11, 1956, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Pacific Power & Light Company ("Applicant"), a corporation organized under the laws of the State of Maine and doing business in the States of Oregon, Washington, Wyoming, Montana and Idaho, with its principal business office at Portland, Oregon, seeking an order authorizing the issuance of unsecured Promissory Notes in the aggregate principal amount of not to exceed $25,000,000 at any one time outstanding. Applicant proposes to issue the unsecured Promissory Notes in varying amounts to the banks listed below:

| *Name and Address* | *Amount* |
|---|---|
| Guaranty Trust Co. of New York, New York, N. Y. | $8,000,000 |
| The Chase Manhattan Bank, New York, N. Y. | 5,000,000 |
| The first National City Bank of New York, New York, N. Y. | 5,000,000 |
| Mellon National Bank & Trust Co., Pittsburgh, Pa. | 3,000,000 |
| Continental Illinois National Bank & Trust Co. of Chicago, Chicago, Ill. | 2,000,000 |
| The Hanover Bank, New York, N. Y. | 2,000,000 |
| Total | 25,000,000 |

The First National Bank of Portland (Oregon), the United States National Bank of Portland (Oregon), and Bank of California N. A. (Portland, Oregon Branch) will have participations of $500,000 each, and National Bank of Commerce of Seattle (Washington) and Seattle-First National Bank (Seattle, Washington) will have participations of $300,000 each, through agreements with Guaranty Trust Company of New York.

Each of the notes to be issued will be dated the date of the borrowing evidenced thereby, have a stated maturity of November 15, 1964, and bear interest at the rate of 4% per annum from the date thereof until December 31, 1958, and at the rate of 4¼ percent per annum from January 1, 1959 until maturity.

Any person desiring to be heard or to make any protest with reference to said application, should on or before the 7th day of June 1956, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's Rules of Practice and Procedure. The application is on file and available for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[Docket No. G-3802, et al.]

DAVE MORGAN OIL CO. ET AL.

NOTICE OF SEVERANCE AND CONTINUANCE

MAY 18, 1956.

In the matters of Dave Morgan, d. b. a. Dave Morgan Oil Company et al.,

Docket No. G–3802 et al.; Shell Oil Company, Docket No. G–5082.

Notice is hereby given that the application of Shell Oil Company in Docket No. G–5082 in the above consolidated proceedings and scheduled for a hearing on May 23, 1956, at 9:30 a. m., e. d. s. t., is hereby severed therefrom and continued for a hearing at a subsequent date to be set by further notice.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56–4038; Filed, May 22, 1956; 8:47 a. m.]

[Docket No. G–10414]

HUNT OIL CO.

ORDER INSTITUTING INVESTIGATION

Hunt Oil Company, (Respondent) is engaged in the production of natural gas and the sale thereof in interstate commerce for resale for ultimate public consumption, and is a natural gas company within the meaning of the Natural Gas Act, as found by the Commission by order issued February 7, 1956 In the Matter of Hunt Oil Company, Docket No. G–4366.

On October 4, 1955, Respondent, as party Seller, submitted for filing a contract, dated August 22, 1955, with Texas Eastern Transmission Corporation, as Buyer, for the sale of gas produced in the Greenwood-Waskom Field in Caddo Parish, Louisiana, which was designated by the Commission as Hunt Oil Company FPC Gas Rate Schedule No. 28, and accepted for filing by Commission letter dated November 30, 1955.

In addition to the sale of natural gas hereinbefore specifically referred to, it appears from the Commission's files that the Respondent also engages in other sales of natural gas in interstate commerce. It further appears that, upon the basis of data available to the Commission, the rates, charges, and classifications for or in connection with the sale or transportation of natural gas by the Respondent herein, subject to the jurisdiction of the Commission, and the rules, regulations, practices, and contracts relating thereto may be unjust, unreasonable, unduly discriminatory, or preferential.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that an investigation be instituted by the Commission, upon its own motion, into and concerning all rates, charges, or classifications demanded, observed, charged or collected by the said Respondent in connection with any transportation or sale of natural gas, subject to the jurisdiction of the Commission, and any rules, regulations, practices or contracts affecting such rates, charges or classifications.

The Commission orders:

(A) An investigation of Respondent be and it is hereby instituted under the provisions of the Natural Gas Act for the purpose of enabling the Commission to determine whether, with respect to any transportation or sale of natural gas, subject to the jurisdiction of the Commission, made or proposed to be made by said Respondent, any of the rates, charges, or classifications demanded, observed, charged, or collected, or any rules, regulations, practices or contracts affecting such rates, charges or classifications are unjust, unreasonable, unduly discriminatory or preferential.

(B) If the Commission, after a hearing has been had, shall find with respect to the Respondent that any of their rates, charges, classifications, rules, regulations, practices, or contracts subject to the jurisdiction of the Commission, are unjust, unreasonable, unduly discriminatory, or preferential, the Commission will thereupon determine and fix by order or orders just and reasonable rates, charges, classifications, rules, regulations, practices or contracts to be thereafter observed and in force.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 5, 14, 15, and 16 thereof, and the Commission's rules of practice and procedure, a public hearing be held upon a date to be fixed by further order of the Commission concerning the matters specified in Paragraphs (A) and (B) above.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: May 17, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56–4039; Filed, May 22, 1956; 8:47 a. m.]

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70–3479]

COLUMBIA GAS SYSTEM, INC.

NOTICE OF PROPOSED BANK BORROWINGS

MAY 17, 1956.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating Sections 6 and 7 thereof as applicable to the proposed transactions, which are summarized as follows:

Columbia proposes to borrow $35,000,000 in aggregate amount from eighteen commercial banks, as follows:

| Bank | Amount |
|---|---|
| Guaranty Trust Co. of New York | $10,910,000 |
| Chemical Corn Exchange Bank | 4,200,000 |
| Mellon National Bank & Trust Co | 4,200,000 |
| Bankers Trust Co | 2,500,000 |
| The First National City Bank of New York | 2,500,000 |
| Irving Trust Co | 2,000,000 |
| The Hanover Bank | 2,000,000 |
| J. P. Morgan & Co., Inc | 1,500,000 |
| Manufacturers Trust Co | 1,500,000 |
| Peoples First National Bank & Trust Co | 900,000 |
| Brown Brothers, Harriman & Co | 750,000 |
| Fidelity Trust Co | $600,000 |
| The Ohio National Bank of Columbus | 450,000 |
| The Union National Bank of Pittsburgh | 300,000 |
| The Charleston National Bank | 240,000 |
| The Kanawha Valley Bank | 240,000 |
| The First Huntington National Bank | 120,000 |
| First-City National Bank of Binghamton | 90,000 |
| Total | 35,000,000 |

Loans will be made and mature in accordance with this schedule:

| To be borrowed on or before— | To mature— | Amount |
|---|---|---|
| July 13, 1956 | Feb. 28, 1957 | $10,000,000 |
| Aug. 15, 1956 | Mar. 29, 1957 | 15,000,000 |
| Sept. 14, 1956 | Apr. 30, 1957 | 10,000,000 |

Each borrowing will be apportioned ratably among the participating banks. The loans will be evidenced by unsecured notes bearing interest at the rate of 3½ percent per annum (the prime rate at the time the loans were negotiated), payable three months after the date of each respective note and at maturity or earlier payment. Notes may be prepaid in whole or in part, in order of maturity, without penalty on ten days' notice, except that prepayments may not be made with funds borrowed from banks at a lower interest rate.

Pursuant to a separate filing (File No. 70–3478), Columbia will advance the borrowed funds to its six subsidiaries which operate facilities for the underground storage of natural gas, in order to finance their purchases of inventory gas. Funds for repayment of the bank loans will become available to Columbia as said subsidiaries repay the advances with proceeds of the sale of gas withdrawn from storage.

Columbia's aggregate fees and expenses in this matter are estimated at $400.

It is requested that the Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than June 4, 1956, at 5:30 p. m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56–4040; Filed, May 22, 1956; 8:48 a. m.]

[File No. 7–1797]

DENVER & RIO GRANDE WESTERN RAILROAD CO.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

MAY 17, 1956.

In the matter of application by the San Francisco Stock Exchange for unlisted trading privileges in The Denver & Rio Grande Western Railroad Company, common stock; File No. 7–1797.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F–1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before June 4, 1956, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## INTERSTATE COMMERCE COMMISSION

[Notice 113]

MOTOR CARRIER APPLICATIONS

MAY 18, 1956.

Protests consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and State address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceeding shall notify the Commission by letter or telegram within 30 days of publication of this notice in the FEDERAL REGISTER. Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operations of Motor Carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 200 Sub 189, filed May 9, 1956, RISS & COMPANY, INC., Riss Building, 15 West Tenth Street, Kansas City, Mo. Applicant's representative: M. W. Van Cleave, 15 West Tenth Street, Kansas City, Mo. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Peoria, Ill., and Lincoln, Ill., from Peoria over U. S. Highway 150 to junction Illinois Highway 121, thence over Illinois Highway 121 to Lincoln, and return over the same route, serving no intermediate points and with no service at the termini except as otherwise authorized, as an alternate or connecting route for operating convenience only in connection with carrier's authorized regular route operations between Peoria, Ill., and St. Louis, Mo. Applicant is authorized to conduct operations in Missouri, Kansas, Colorado, Oklahoma, Texas, Illinois, Iowa, Nebraska, Ohio, Indiana, Pennsylvania, Maryland, New York, New Jersey, Michigan, Kentucky, Massachusetts, Connecticut, West Virginia, Virginia, and the District of Columbia.

No. MC 730 Sub 67, filed May 14, 1956, PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation, 299 Adeline Street, Oakland, Calif. Applicant's attorney: Lynn S. Richards, 716 Newhouse Building, Salt Lake City 11, Utah. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from Salt Lake City, Utah, and points within ten miles thereof, to (1) Elko, Cobre, Lamoille, Ely, Cherry Creek, Egan, Tippett, Anderson's Ranch, Aurum, Muncy, Ruth, and Kimberly, Nev., (2) points on U. S. Highway 40 between Elko, Nev., and the Utah-Nevada State Line, (3) points on U. S. Highway 50 between Ely, Nev., and the Utah-Nevada State Line, and (4) points in Nevada on U. S. Highway 93 between the Junction of U. S. Highways 50 and 93 and the Junction of U. S. Highways 40 and 93.

NOTE: Applicant states applied-for authority would remove existing restriction in applicant's Sub 52. It also broadens the authority by adding petroleum to the commodity description. Applicant is authorized to conduct operations in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, and Washington.

No. MC 1150 Sub 16, filed May 9, 1956, J. B. HEEREN, doing business as HEEREN TRUCKING COMPANY, Lemmon, S. Dak. Applicant's attorney: Alan Foss, First National Bank Building, Fargo, N. Dak. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, equipment, materials and supplies* used in or in connection with the discovery, mining, development, production, refining, manufacture, processing, storage, transmission, and distribution of uranium and its products and by-products, and *uranium, uraniferous lignite ore* and *other ores or materials from which uranium is derived*, between points in Carter, Powder River, Fallon, Custer, Rosebud, Wibaux, Prairie, and Dawson Counties, Mont., and points in North Dakota and South Dakota on and west of U. S. Highway 83.

No. MC 1227 Sub 3, filed April 26, 1956, CHELAN TRANSFER COMPANY, INC., Box 7, Chelan, Wash. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the proposed Wells Dam Site to be located between Chelan Station and Wells, Wash., as an off-route point in connection with applicant's regular route operations between Chelan Falls, Wash., and Wenatchee, Wash. Applicant is authorized to conduct operations in Washington.

No. MC 1872 Sub 38, filed May 7, 1956, RULON C. ASHWORTH, JOSEPHINE G. ASHWORTH, RALPH G. ASHWORTH, AND RULON C. ASHWORTH, JR., doing business as ASHWORTH TRANSFER COMPANY, 1526 South Sixth West, Salt Lake City, Utah. Applicant's attorney: Harry D. Pugsley, Continental Bank Building, Salt Lake City 1, Utah. For authority to operate as a *common carrier*, over irregular routes, transporting: *Ammonium nitrate*, and *damaged shipments* thereof, between Bacchus, Utah, and points in Wyoming, Colorado, New Mexico, Arizona, California, Oregon, Nevada, Idaho, and Montana. Applicant is authorized to conduct operations in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, and Wyoming. Any duplication with present authority should be eliminated.

No. MC 2229 Sub 77, filed May 10, 1956, RED BALL MOTOR FREIGHT, INC., 1210 South Lamar Street, P. O. Box 3148, Dallas, Tex. Applicant's attorney: Scott P. Sayers, Century Life Building, Fort Worth, Tex. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including *Class A and B explosives*, but excepting household goods as defined by the Commission, articles of unusual value, commodities in bulk, commodities

requiring special equipment and those injurious or contaminating to other lading, between Sherman, Tex., and Henrietta, Tex., over U. S. Highway 82, serving no intermediate points, but serving the termini for purpose of joinder only, as an alternate route in connection with applicant's authorized regular route operations between Houston and Vernon, Tex., and between Sherman and Greenville, Tex. Applicant is authorized to conduct operations in Arkansas, Louisiana, and Texas.

No. MC 7348 Sub 4, filed May 7, 1956, HIGHWAY MOTOR FREIGHT, INC., P. O. Box 451, Hastings, Nebr. Applicant's attorney: Marion F. Jones, Suite 526, Denham Building, Denver 2, Colo. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving all intermediate and off-route points within 20 miles of Denver, Colo., in connection with applicant's regular route operations between Akron, Colo., and Denver, Colo., restricted to commodities having a prior or subsequent movement on applicant's authorized regular route, and excluding incorporated municipalities.

NOTE: The purpose of this application is to enable applicant to make delivery to or to pickup at a number of new installations and manufacturing plants constructed and being constructed in the area around Denver. Applicant is authorized to conduct operations in Nebraska, Iowa, and Colorado.

No. MC 8989 Sub 157, filed May 9, 1956, HOWARD SOBER, INC., 2400 West St. Joseph Street, P. O. Box 1228, Lansing 4, Mich. Applicant's attorney: Albert F. Beasley, Investment Building, 15th and K Streets NW., Washington 5, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Motor trucks, motor truck-tractors, motor truck chassis, motor vehicles (except trailers) designed for transportation of passengers and property*, with or without bodies, and *parts thereof*, in initial movements, in driveaway service, from Fort Wayne, Ind. and Springfield, Ohio, to points in the United States; *damaged shipments* of the above-described commodities on return. Applicant is authorized to conduct operations throughout the United States.

NOTE: Applicant states that it holds authority to transport most, if not all, of the vehicles in this application and that its primary purpose is to clarify the commodity description. No duplicating authority is sought.

No. MC 9140 Sub 6, filed May 9, 1956, W. DON MAURER, doing business as DON MAURER TRUCK LINE, 523 First Avenue, East Spencer, Iowa. Applicant's attorney: Donald R. Wigton, 1221 Badgerow Building, Sioux City 1, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Farm machinery* and *parts thereof*, from Coldwater, Ohio, to Omaha, Nebr., Sioux City, Iowa, Spencer, Iowa, and points in Iowa within fifty (50) miles of Spencer. Applicant is authorized to transport the named commodities from specified Illinois points and West Bend, Wis., to Sioux City and Spencer, Iowa, and points within 35 miles of Spencer, and between Spencer and Omaha, Nebr.

No. MC 15808 Sub 17, filed April 30, 1956, GIRTON BROS., INC., P. O. Box 341, U. S. 40 East, Brazil, Ind. Applicant's attorney: Louis E. Smith, Suite 503, 1800 North Meridian Street, Indianapolis 2, Ind. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Internal combustion engines* and *parts thereof*, between Louisville, Ky., and Springfield, Ohio. Applicant is authorized to conduct operations in Indiana and Ohio.

No. MC 19201 Sub 91, filed May 8, 1956, PENNSYLVANIA TRUCK LINES, INC., 110 South Main Street, W. E., Pittsburgh, Pa. Applicant's attorney: Robert H. Griswold, Commerce Building, P. O. Box 432, Harrisburg, Pa. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including *commodities of unusual value, commodities in bulk*, and *commodities requiring special equipment*, but excluding Class A and B explosives and household goods as defined by the Commission, between Norristown, Pa., and King of Prussia, Pa., over U. S. Highway 202, and between junction U. S. Highway 202 and unnumbered highway (Henderson Road) and King of Prussia, from junction U. S. Highway 202 and unnumbered highway (Henderson Road) over unnumbered highway to junction unnumbered highway at or near Henderson, Pa., thence over unnumbered highway to junction Pennsylvania Highway 23, thence over Pennsylvania Highway 23 to King of Prussia, and return over the same route, serving all points on said routes which are stations on the line of The Pennsylvania Railroad. RESTRICTION: Applied-for authority to be restricted to service which is auxiliary to, or supplemental of rail service of The Pennsylvania Railroad Company. Applicant is authorized to conduct operations in Indiana, Michigan, New York, Ohio, Pennsylvania, and West Virginia.

No. MC 26664 Sub 3, filed April 16, 1956, HARVEY B. WATTS, 23 Belmont Avenue, Floral Park, N. Y. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Manufactured fertilizer*, from Carteret, N. J., to points in Westchester County, N. Y. Applicant is authorized to transport fertilizer from Carteret, N. J., to New York, N. Y. and points in a defined area in New York.

No. MC 28008 Sub 2, filed April 24, 1956, (CORRECTION), MIDWEST FREIGHT FORWARDING COMPANY, INC., published on Page 3092, issue of May 9, 1956. Route 2 as published described the request for authority as "Between Boston, Mass., and Chicago, Ill., serving all intermediate points". This description was in error. The correct route description reads "From Boston, Mass., to Chicago, Ill., serving no intermediate points" over the described route.

No. MC 30837 Sub 204, filed April 23, 1956, KENOSHA AUTO TRANSPORT CORPORATION, 4519 76th Street, Kenosha, Wis. For authority to operate as a common carrier, over irregular routes, transporting: *Motor trucks, motor truck tractors, motor truck chassis, motor vehicles (except trailers) designed for the transportation of passengers and property*, with or without bodies, and *parts thereof*, (1) in initial movements, in driveaway service, from Fort Wayne, Ind., and Springfield, Ohio, to points in the United States; (2) in secondary movements, in driveaway service, between points in the United States, restricted to transportation of vehicles which have previously been transported in initial movements from Bridgeport, Conn., Fort Wayne, Ind., or Springfield, Ohio. Applicant is authorized to conduct operations throughout the United States.

NOTE: Applicant states that it holds authority similar to that sought in this application both as to commodity and as to territory to be served and that the only purpose of the application is to clarify the commodity description.

No. MC 34837 Sub 8, filed May 7, 1956, RELIABLE TRANSPORT, INCORPORATED, 1601 Wake Forest Road, P. O. Box 2323, Raleigh, N. C. Applicant's attorney: Harry F. Gillis, Mills Building, Washington, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Norfolk, Hopewell, and Richmond, Va., and points within ten (10) miles of Norfolk, Hopewell, and Richmond, to points in South Carolina. Applicant is authorized to transport liquid petroleum products from the above-described areas to points in a described area in North Carolina and diesel oil fuel from Cheatam Annex, Va., to Raleigh, N. C.

No. MC 2329 Sub 125, filed May 7, 1956, HAYES FREIGHT LINES, INC., 628 East Adams Street, Springfield, Ill. Applicant's attorney: Jack Goodman, 39 South La Salle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Iron and steel articles*, between Aurora, Ind., on the one hand, and, on the other, points in Indiana.

No. MC 48479 Sub 5, filed May 4, 1956, FRIGIDWAYS, INC., P. O. Box 2503, 253 West Virginia Avenue, Memphis, Tenn. Applicant's attorney: Frank B. Hand, Jr., Transportation Building, Washington 6, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Packing-house products*, as described by the Commission, from Humboldt and Union City, Tenn., to points in Mississippi and Louisiana. Applicant is authorized to conduct operations in Alabama, Georgia, Iowa, Louisiana Minnesota, Mississippi, and Tennessee.

No. MC 48479 Sub 6, filed May 9, 1956, FRIGIDWAYS, INC., 253 West Virginia Avenue, P. O. Box 2503, Memphis, Tenn. Applicant's attorney: Frank B. Hand, Jr., Transportation Building, Washington 6, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Frozen foods*, from points in Tennessee and Arkansas to points in Missouri, Kansas, Nebraska, Iowa, Wisconsin, Minnesota, Indiana, Georgia, Alabama, Mississippi, Louisiana, Michigan, Ohio, and Tennessee.

No. MC 59120 Sub 12, filed April 17, 1956, EAZOR EXPRESS, INC., 15 26th Street, Pittsburgh 2, Pa. Applicant's attorney: Samuel P. Delisi, 1211 Berger Building, Pittsburgh 19, Pa. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, livestock, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment (but including perishable commodities requiring refrigerator equipment), (1) between Norwalk, Ohio and Girard, Pa.; from Norwalk over U. S. Highway 20 to Girard, and return over the same route, serving no intermediate or off-route points; (2) between Akron, Ohio, and Girard, Pa.; from Akron over Ohio Highway 5 to junction Ohio Highway 7, thence over Ohio Highway 7 to junction U. S. Highway 20 at Conneaut, Ohio, and thence over U. S. Highway 20 to Girard, and return over the same route, serving no intermediate or off-route points, as alternate routes for operating convenience only in connection with applicant's authorized regular routes in Certificate No. MC 59120 Sub 11, between Chicago, Ill., and Pittsburgh, Pa.; and (3) between Akron, Ohio, and junction of U. S. Highway 62 and Pennsylvania Highway 18 in Mercer County, Pa.; from Akron over Ohio Highway 5 to Warren, Ohio, thence over Ohio Highway 82 to the Ohio-Pennsylvania State Line, thence over U. S. Highway 62 to junction with Pennsylvania Highway 18 in Mercer County, Pa., and return over the same route, serving no intermediate or off-route points, as an alternate route for operating convenience only in connection with applicant's authorized regular routes in Certificate MC 59120 between Pittsburgh, Pa., and Buffalo, N. Y. Applicant is authorized to conduct operations in Pennsylvania, New York, Illinois, and Ohio.

No. MC 59135 Sub 11, filed April 18, 1956, amended May 10, 1956, RED STAR EXPRESS LINES OF AUBURN, INCORPORATED, doing business as RED STAR EXPRESS LINES, 26–50 Wright Avenue, Auburn, N. Y. Applicant's attorney: P. Bateman Ennis, 640 Shoreham Building, Washington, D. C. For authority to operate as a *common carrier*, over regular routes, transporting: *Dry Aluminum Chloride*, in bulk, between Grasselli, N. J., and Rochester, N. Y., from Grasselli over U. S. Highway 1–9 to North Bergen, N. J., thence over U. S. Highway 1–9 to junction U. S. Highway 6, thence over U. S. Highway 6 to junction New Jersey Highway 46, thence over New Jersey Highway 46 to junction New Jersey Highway 17, thence over New Jersey Highway 17 to the New York State line, thence over New York Highway 17 to junction U. S. Highway 11, thence over U. S. Highway 11 to junction New York Highway 5 to Auburn, N. Y., thence over New York Highway 5 to junction U. S. Highway 31, thence over U. S. Highway 31 to Rochester, and return over the same route, serving no intermediate points.

No. MC 60012 Sub 37, filed May 7, 1956, RIO GRANDE MOTOR WAY, INC., 775 Wazee Street, P. O. Box 1469, Denver, Colo. Applicant's attorney: Ernest Porter, 1531 Stout Street, P. O. Box 5482, Denver 17, Colo. For authority to operate as a *common carrier*, transporting: *General commodities*, including Class A, B and C explosives, and except household goods as defined by the Commission, commodities of unusual value, livestock, commodities in bulk and those requiring special equipment, serving the site of the Glenn L. Martin Company plant located near Watertown and Kassler, Colo., approximately 15 miles southwest of Denver, as an off-route point in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Colorado and New Mexico.

No. MC 64932 Sub 209, (Amended), filed April 30, 1956, published in the May 16, 1956, issue, of page 3240, ROGERS CARTAGE CO., a corporation, 1934 South Wentworth Avenue, Chicago, Ill. Applicant's attorney: Carl L. Steiner, 39 South La Salle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Aqua ammonia solutions*, and *nitric acid*, in bulk, in tank vehicles, from West Henderson, Ky., to points in Indiana, Ohio, Michigan, Missouri, Iowa, Minnesota, Wisconsin, Illinois, Arkansas, and Tennessee.

No. MC 66632 Sub 1, filed May 8, 1956, JACK LURIE AND SID LURIE, doing business as VERMONT MOVING & STORAGE, 2124 Pitkin Avenue, Brooklyn, N. Y. Applicant's attorney: Morris Honig, 150 Broadway, New York 38, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Household goods*, as defined by the Commission, between New York, N. Y., on the one hand, and, on the other, points in Maine, New Hampshire, and Vermont. Grounds for relief: Competition with markets at other destinations in South Dakota, Iowa and Nebraska, and circuity.

Tariff: Supplement 136 to Agent Hinsch's I. C. C. 4238.

FSA No. 32109: *Motor-water and motor-water-motor rates—Pan Atlantic Steamship.* Filed by Pan Atlantic Steamship Corporation, for itself, and interested motor carriers. Rates on commodities, various, moving on class rates between points in Connecticut, Delaware, District of Columbia, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont, on the one hand, and points in Texas, on the other.

Grounds for relief: Competition with rail-water, water-rail and rail-water-rail carriers, and circuity.

Tariff: Supplement 6 to Pan Atlantic Steamship Corporation tariff I. C. C. No. 253.

FSA No. 32110: *Trailer-on-flat-car service—N. Y., N. H. & H. R. R.* Filed by The New York, New Haven and Hartford Railroad Company, for itself and other interested rail carriers. Rates on freight loaded in or on trailers and transported on railroad flat cars between specified points in Connecticut, Massachusetts, and Rhode Island, on the New York, New Haven & Hartford Railroad, on the one hand, and points in New York and Pennsylvania, also points in Illinois, Indiana, Michigan, Missouri, and Ohio, on the other.

Grounds for relief: Motor-truck competition, and circuity.

Tariff: New York, New Haven and Hartford Railroad Company's tariff I. C. C. F–4394.

FSA No. 32111: *Kyanite—Clover, S. C., to Hartford, Conn.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on kyanite, crude or ground (not pulverized), carloads from Clover, S. C., to Hartford, Conn.

Grounds for relief: Short-line distance formula, and circuity.

Tariff: Supplement 107 to Agent Spaninger's I. C. C. 1346.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

## TITLE 7—AGRICULTURE

### Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 53—MEATS, PREPARED MEATS, AND MEAT PRODUCTS (GRADING, CERTIFICATION, AND STANDARDS)

SUBPART B—STANDARDS

OFFICIAL UNITED STATES STANDARDS FOR GRADES OF SLAUGHTER CATTLE

On April 25, 1956, a notice of proposed rule making was published in the FEDERAL REGISTER (21 F. R. 2662) regarding proposed amendments of the official United States standards (7 CFR 53.203, 53.204) for grades of certain slaughter cattle (steers, heifers, and cows) under the provisions of Sections 203 and 205 of the Agricultural Marketing Act of 1946 (7 U. S. C. 1622 and 1624) and the general language in the item for the Agricultural Marketing Service contained in the Department of Agriculture and Farm Credit Administration Appropriation Act, 1956 (69 Stat. 56–57).

After due consideration of all relevant material submitted pursuant to the notice and under the aforesaid sections of the Agricultural Marketing Act of 1946 and the item for the Agricultural Marketing Service contained in the Department of Agriculture and Farm Credit Appropriation Act, the standards for grades of slaughter cattle are amended as follows:

1. In § 53.203, paragraph (b) (2) is amended to read as follows:

(2) Since evidences of maturity in the beef carcass vary among animals of the same approximate age, only general age limitations can be used for descriptive standards for slaughter cattle. Approximate maximum age limitations for the specified grades of steers, heifers and cows are as follows: Prime—36 months; Choice—42 months; Good—48 months; and Standard—48 months. The Commercial grade for steers, heifers, and cows applies only to cattle over approximately 48 months. There are no age limitations for the Utility, Cutter and Canner grades of steers, heifers, and cows.

2. In § 53.204, paragraphs (d), (e), (f), and (g) are redesignated (e), (f), (g), and (h), respectively.

3. A new paragraph (d) is inserted in § 53.204, and redesignated paragraph (e) of § 53.204 is amended, to read, respectively, as follows:

(d) *Standard.* Cattle possessing the minimum qualifications for the Standard grade may differ somewhat in appearance because of the numerous possible combinations of age, conformation, finish, and quality. The maximum maturity for steers, heifers, and cows of the Standard grade is approximately 48 months. In conformation, Standard grade cattle tend to be slightly rangy, thin fleshed, slightly narrow through the crops, back, and loin, somewhat prominent at the hips, and shallow in the twist and quarter. The loin, rump, and rounds appear flat with no evidence of fullness. Cattle ranging from 30 to 48 months of age carry a slightly thin fat covering which is primarily in evidence over the back, loin, and ribs. The brisket, rear flanks, and cod or udder show only slight fullness. Cattle under 30 months of age carry only a thin covering of fat which is largely restricted to the back, loin, and upper rib. Standard grade cattle frequently have the heavy bone and prominent hips and shoulders associated with coarseness or the small bone, tight hide, and angularity denoting overrefinement.

(e) *Commercial.* The Commercial grade for steers, heifers, and cows is limited to cattle over approximately 48 months of age and, therefore, too advanced in maturity for the Good or Standard grades. Cattle possessing the minimum qualifications for Commercial grade may vary slightly in appearance because of different possible combinations of the grade factors. In conformation, Commercial grade cattle tend to be slightly rangy and slightly thin fleshed. They appear deep through the fore-rib and moderately wide over the back and loin. The hips and shoulders are prominent, and the quarters are thin and shallow with no apparent bulge or fullness. Cattle near the minimum maturity for the grade carry a slightly thick fat covering over the back, ribs, loin, and rump. Fully mature cattle usually carry at least a moderately thick fat covering

and considerable patchiness is evident about the tailhead. The brisket, flanks, and cod or udder appear slightly to moderately full. Commercial grade cattle tend to be rather coarse and rough with prominent shoulders and hips, slightly coarse bone, and moderately thick, heavy hide.

This order shall become effective June 1, 1956.

This order divides the Commercial grade for slaughter steers, heifers, and cows into two grades, Standard and Commercial, to conform with the revised standards for carcass beef which are to become effective on June 1, 1956. It is desirable that the revised standards for slaughter cattle and carcass beef become effective concurrently to avoid a variance between the market grade for slaughter cattle and the grade of beef derived from such cattle. Accordingly, good cause is found under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) for issuance of this order effective less than 30 days after its publication in the FEDERAL REGISTER.

(Sec. 205, 60 Stat. 1090; 7 U. S. C. 1624)

Done at Washington, D. C., this 21st day of May 1956.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 1]

### PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.524 *Plum Order 1*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 25, 1956. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until May 18, 1956; recommendation as to the need for, and the extent of regulation of shipments of such plums was made at the meeting of said committee on May 18, 1956, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about May 29, 1956; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefore which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., May 25, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship from any shipping point during any day any package or container of Beauty plums unless:

(i) Such plums grade at least U. S. No. 1;

(ii) The plums are, except to the extent otherwise permitted under this paragraph, of a size not smaller than a size that will pack a 4 x 5 standard pack; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided,* That a total of of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) During each day of the aforesaid period, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 5 standard pack but are not of a size smaller than a size that will pack a 5 x 5 standard pack if said quantity does not exceed one hundred (100) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 5 standard pack, as aforesaid.

(3) If any shipper, during any day of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 5 standard pack, the quantity of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next two succeeding calendar days in addition to the quantities of such plums of a size smaller than a size that will pack a 4 x 5 standard pack that such shipper could have shipped from such shipping point on such two succeeding calendar days if there had been no undershipment.

(4) Section 936.143 of the rules and regulations, as amended (§ 936.100 et seq.), sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(5) As used herein, "U. S. No. 1" and "serious damage" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard pack" shall have the applicable meanings of the terms "standard pack" and "equivalent size," and "diameter" shall have the meaning of that term as used in § 936.142 of the aforesaid amended rules and regulations; and all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 22, 1956.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56-4129; Filed, May 23, 1956; 9:07 a. m.]

[Plum Order 2]

### PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES

§ 936.525 *Plum Order 2*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the Burmosa, Earliana, Gros Hungarian, Laroda, Queen Ann, Red Heart, Standard, Satsuma, and Splendor varieties (hereinafter referred to as "miscellaneous varieties of plums"), in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 25, 1956. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until May 18, 1956; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on May 18, 1956, after consideration of all available

information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information were submitted to the Department; shipments of the current crop of the miscellaneous varieties of plums are expected to begin on or about May 29, 1956, and this section should be applicable, insofar as practicable, to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., May 25, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship any package or container of miscellaneous varieties of plums unless:

(i) Such plums grade at least U. S. No. 1.

(2) Section 936.143 of the rules and regulations, as amended (§ 936.100 et seq.) sets forth the requirements with respect to the inspection and certification of shipments of plums. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) §§ 51.1520 to 51.1530 of this title); and all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 22, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56-4130; Filed, May 23, 1956; 9:07 a. m.]

## TITLE 12—BANKS AND BANKING

### Chapter III—Federal Deposit Insurance Corporation

PART 327—ASSESSMENTS

ASSESSMENT DECISIONS

The following assessment decisions and amendments of assessment decisions have been adopted:

1. Section 327.102 is amended by adding Assessment Decision No. 2 and the section is revised to read as follows:

§ 327.102 *Assessment Decision No. 2; acceptances; deposits made prior to maturity.* Funds received by a bank to meet its acceptance at maturity, not in excess of the amount due on the acceptance, need not be included in the assessment base, provided they are not subject to withdrawal by the obligor and are carried in a special non-interest-bearing account designated to properly show their purposes or are credited to customers' liability account for acceptances. This includes funds received through charges made to the depositor's account.

2. Section 327.121 is amended by adding Assessment Decision No. 21 and the section is revised to read as follows:

§ 327.121 *Assessment Decision No. 21; cash funds received and held as security to indebtedness to the bank.* (a) Cash funds which are received and held solely for the purpose of securing a liability to the bank may be excluded from the assessment base provided all of the following requirements are met:

(1) The funds excluded are not in excess of the liability to the bank.

(2) The funds are not subject to withdrawal by the obligor.

(3) The funds are carried in a special non-interest-bearing account designated to properly show their purpose.

(b) Funds transferred by the reporting bank from an existing deposit account to such a special security account are "received" within the meaning of that term as used in this decision. However, the mere assignment or blocking of an existing deposit account, whether that account be a checking, savings, time, or other type of deposit account, does not come within the exemption. The special security account above described may be maintained in the form of a non-interest-bearing certificate of deposit, officer's check, or certified check, provided it otherwise meets the above requirements.

(c) Although the cash funds meeting the above requirements may be excluded from the reported deposits, the reporting bank may include the funds in the deposit liabilities on the Certified Statement and take a deduction for them as nonassessable items in the space provided on the Certified Statement with a brief description of their nature.

(d) Examples of cash funds held as security which are exempt from assessment, provided the above requirements are met, include the following:

(1) Repayments on installment loans held as security for later application on the indebtedness. (See § 327.225 Assessment Decision No. 125, Personal Loan Repayments.)

(2) Funds received and held to meet payment of an acceptance at its maturity. (See § 327.102 Assessment Decision No. 2, Acceptances, Deposits Made Prior to Maturity.)

(3) Funds received to secure a reimbursement agreement for the issuance of a commercial letter of credit. (See § 327.209 Assessment Decision No. 109, Letters of Credit, Commercial.)

(4) Proceeds from the sale of collateral and cash dividends received on such collateral held as security pending application on the indebtedness or the purchase of substitute collateral.

(5) Funds received and held as security in connection with discounted paper commonly known as "Dealers Reserves". (See § 327.152 Assessment Decision No. 52, Dealers Reserves.)

3. Section 327.139 is amended to read as follows:

§ 327.139 *Assessment Decision No. 39; checks and drafts received for the sale or other disposition of the bank's own assets.* (a) Checks, drafts, or instruments drawn on persons or banks other than the reporting bank, received by the reporting bank in payment for the sale or other disposition of any of its assets are not eligible for deduction by the reporting bank as cash items or otherwise. (See footnote 9.)

(b) The following are illustrations of items which are not eligible for deduction as cash items or otherwise:

(1) A check or draft received by the reporting bank in the sale of bonds, mortgages, or any of its other assets including a check or draft received for bonds owned by it which have been called for payment.

(2) A check or draft received from the Commodity Credit Corporation for the transfer of notes to it, or any sight draft drawn by the bank on the Commodity Credit Corporation for the amount of such notes.

(3) A check or draft received for tax anticipation warrants owned by the bank.

(c) Although no deduction may be claimed for instruments received for the sale or other disposition of an asset of the bank, it is permissible to claim a deduction for instruments drawn on other banks which are received as a payment on indebtedness to the bank. Thus, a check drawn on another bank received by the reporting bank to be applied on a promissory note to the reporting bank is eligible for deduction.

4. Section 327.148 is amended to read as follows and the note following the section is deleted:

§ 327.148 *Assessment Decision No. 48; construction loans.* (a) When granting construction loans or making commitments therefor, banks normally require the borrower to execute and deliver a note and mortgage for the estimated maximum amount of the loan before construction begins, and the amount of such loan or commitment is then credited to an account variously entitled "construction loans", "incomplete mortgage loans", or similar designation.

(b) If the balance in this account represents merely a commitment to make a loan and the borower is liable only for the amounts actually advanced from time to time with interest thereon from the date of such advancement, then the balance need not be included in the deposits for the assessment base.

(c) If the balance in this account represents the proceeds of a loan, then such balance must be included in the deposit liabilities for the assessment base and may not be claimed as a deduction, either in whole or in part, unless such balance is held solely for the purpose of securing a liability to the bank.

(d) Where the borrower has deposited his own funds to this or a like account, the balance representing such borrower's own funds must likewise be included in the deposit liabilities for the assessment base unless such funds are held solely for the purpose of securing a liability to the bank.

(e) The balance (or balances) mentioned in paragraphs (c) and (d) of this section may be excluded from the assessment base only if it is received and held solely for the purpose of securing a liability to the bank, is not subject to withdrawal by the obligor, and is carried in a special non-interest-bearing account designated to properly show its purpose, and then only in an amount not in excess of the liability which it secures. Upon the termination of the liability for which such balance is held as security, the funds in such an account must be included in the assessment base.

5. Section 327.150 is amended to read as follows:

§ 327.150 *Assessment Decision No. 50; coupons or bonds owned by the reporting bank.* (a) Coupons and bonds owned by the reporting bank which are forwarded for collection, or the checks and drafts received for the sale or redemption thereof, are not eligible for deduction as a cash item or otherwise. Thus, coupons owned by the reporting bank which are forwarded for collection on the base day or at any other time may not be included in the deductions. Similarly, bonds sold or called for redemption which are forwarded for collection or the check or draft received therefor are ineligible for deduction in any manner. (See § 327.139 Assessment Decision No. 39, Checks and Drafts Received for the Sale or Other Disposition of the Bank's Own Assets.)

(b) Only cash items which the bank pays or credits to a deposit account are eligible for deduction. Bonds and coupons owned by the reporting bank itself, or the remittance received in payment therefor, are not paid by the bank or credited to deposit accounts and are ineligible for deduction.

6. Section 327.169 is amended to read as follows:

§ 327.169 *Assessment Decision No. 69; drafts with bonds and coupons attached.* (a) Drafts with bonds and/or coupons attached payable upon presentation which are paid by the reporting bank or credited to deposit accounts are eligible for deduction as cash items.

(b) Drafts constituting or evidencing loans are not eligible for deduction as cash items or otherwise.

7. Section 327.174 is amended to read as follows:

§ 327.174 *Assessment Decision No. 74; drafts payable on presentation with bills of lading attached.* (a) Commodity drafts, that is, drafts with shipping documents attached, if payable upon presentation and if they have been paid or credited to deposit accounts subject to final payment, are eligible for deduction as cash items. For the purpose of claiming deductions, if the alternate (bb) method is used, they may be considered as uncollected for the time required to effect collection. If the collecting bank forwards a check or draft in payment, such check or draft received by the reporting bank is not a cash item eligible for deduction.

(b) Commodity drafts are known under many names, such as "livestock drafts", "cotton drafts", "documentary drafts", "peanut drafts", "fruits and vegetable drafts", etc. The procedure in handling all of these types of drafts is, nevertheless, the same.

(c) Only drafts payable upon presentation may be claimed as a deduction. Accordingly, drafts payable at some future date or upon arrival of a car, etc., are ineligible for deduction. (See § 327.168 Assessment Decision No. 68, Drafts With Bills of Lading Attached Not Payable Upon Presentation.)

(d) Drafts constituting or evidencing loans are not eligible for deduction as cash items or otherwise.

8. Section 327.177 is amended to read as follows:

§ 327.177 *Assessment Decision No. 77; due bills for local cash items.* (a) Cash Items Held for Clearings, Local Exchanges, consist of items paid or credited to deposit accounts by the reporting bank which are drawn on banks, persons, or corporations in the same city or local clearing area where the reporting bank is located which are held for clearings at the close of the books on the assessment base day. (See § 327.127 Assessment Decision No. 27, Cash Items Deductions, Local.)

(b) The settlement with other local banks is customarily made at some designated hour(s), such as 10:00 a. m., but the actual physical delivery of the cash items may have been made at an earlier hour and possibly in the evening of the preceding day. When the local cash items are thus delivered to the drawee bank prior to the actual settlement, the delivering bank may receive some type of ticket or instrument which is commonly referred to as a "due bill".

(c) The physical delivery of local cash items to the banks on which drawn does not preclude such items from being considered as held for clearings by the delivering bank, and thus eligible for deduction by it, provided the following factors are present:

(1) The items were received in the usual course of business on the base day before the close of the books on that day and paid or credited to deposit accounts.

(2) The due bill received constitutes in fact a trust receipt for the items and ownership of the items is retained by the delivering bank until settlement is made therefor.

(3) No change is made in the normal procedure on base days.

(d) Other types of instruments may be denominated "due bills" but these are not "due bills" within that term as used in this decision. For instance, an instrument given for a check returned from clearings because of insufficient funds is not a due bill eligible for deduction as a cash item (See § 327.236 Assessment Decision No. 136, Redemption Checks); nor is an instrument given by a clearing house for items received for collection eligible for deduction as a cash item. (See § 327.137 Assessment Decision No. 37, Checks or Drafts Received in Payment of Clearings.)

9. Section 327.178 is amended to read as follows:

§ 327.178 *Assessment Decision No. 78; escrow funds.* Funds held in escrow must be included in the assessment base unless they are held solely as security for a liability to the bank as provided in § 327.121 Assessment Decision No. 21, Cash Funds Received and Held as Security to Indebtedness to the Bank. Cash Funds Received and Held as Sepose and are in the nature of trust funds.

This includes all types of escrow funds.

10. Section 327.196 is amended to read as follows:

§ 327.196 *Assessment Decision No. 96; foreign exchange transactions; checks received.* (a) A check or draft received in payment for foreign currency delivered over the counter, if it otherwise complies with the requirements of a cash item as shown in § 327.123 Assessment Decision No. 23, Cash Items Eligible for Deduction as Exchanges, is eligible for deduction as a cash item.

(b) A check or draft is ineligible for deduction as a cash item or otherwise when received in payment for foreign exchange made available in a country outside of the States of the United States, the District of Columbia, any Territory of the United States, Puerto Rico, and the Virgin Islands. This is true whether the transaction is made in terms of foreign exchange or United States dollars and whether the method of establishing availability is by the issuance of a draft, bill of exchange, cable, letter, or other authorization. As denominated by the parties, such a transaction is essentially a purchase and sale of foreign currency or credits which is consummated in a foreign country.

11. Section 327.199 is amended to read as follows:

§ 327.199 *Assessment decision No. 99; guaranty deposit fund.* (a) Funds received and held by the reporting bank as a guaranty fund for and on behalf of any of its customers constitute special purpose funds and are deposits which must be included in the assessment base. An illustration of such a guaranty account is where a city furnishes water meters to consumers and requires the consumer to deposit a certain amount as a guaranty against loss or damage to the meter. Such funds paid into the bank by the consumer or city and carried in a guaranty account on behalf of the city are subject to assessment. For deposits on articles owned by the bank itself, see § 327.243 Assessment Decision No. 143, Safety Deposit Key Deposits.

(b) Funds received by the reporting bank and held solely as security for a liability of the customer to the bank upon its guaranty to others on behalf of the customer, need not be included in the assessment base provided the funds excluded (a) are not in excess of the liability they secure; (b) are not subject to withdrawal by the pledgor; and (c) are carried in a special non-interest-bearing account designated to properly show their purpose.

12. Section 327.207 is amended by adding Assessment Decision No. 107 and the section is revised to read as follows:

§ 327.207 *Assessment Decision No. 107; interest prepayment.* (a) Interest

* For the period from July 1, 1950, through the December 31, 1953, base day such items were eligible for deduction as cash items.

and discount paid to the reporting bank in accordance with the terms of the notes, mortgages, or other instruments held by the bank and credited to an account entitled "Interest Received", "Unearned Interest Collected", or a similar account, need not be included in the assessment base.

(b) Prepaid interest or discount received by the bank prior to the time when it is required to be paid under the terms of the notes, mortgages, or other instruments must be included in the assessment base. An example of such prepayment of interest which must be included in the assessment base is where the interest is payable at maturity, quarterly, or at other intervals and the obligor deposits with, or delivers to, the bank a sum of money for the payment of the interest when it becomes due under the terms of the instrument. Another example of such prepayment subject to assessment is where a renewal note together with cash funds for the payment of the discount thereon is received by the bank prior to the maturity of the note for which it is to be used as renewal.

13. Section 327.209 is amended by adding Assessment Decision No. 109 and the section is revised to read as follows:

§ 327.209 *Assessment Decision No. 109; letters of credit; commercial.* (a) Commercial letters of credit on which the reporting bank is primarily liable and which are sold for cash (that is, issued for a charge against a deposit account in the reporting bank or for money or its equivalent received by the reporting bank) are assessable deposits. A commercial letter of credit is regarded as being issued for the equivalent of money when issued in exchange for checks or drafts or for a promissory note upon which the person procuring the letter of credit is primarily or secondarily liable.

(b) Commercial letters of credit normally are not sold for cash but are issued against an agreement to reimburse the bank for payments to be made by the bank under the letter of credit. The agreement may be contained in a written contract or it may rest in custom and usage. (See Article 10 of the Uniform Customs and Practice for Commercial Documentary Credits Fixed by the Thirteenth Congress of the International Chamber of Commerce, effective January 1, 1952.) If such an agreement does not constitute a promissory note, the letter of credit issued upon such an agreement is not subject to assessment.

(c) When cash funds are received by the reporting bank as collateral security to the reimbursement agreement to protect the bank on its liability for issuing a commercial letter of credit, such funds not in excess of such liability need not be included in the assessment base if (1) they are received and held solely for the purpose of securing a liability to the bank; (2) they are not subject to withdrawal by the obligor; and (3) they are carried in a special non-interest-bearing account designated to properly show their purpose. Furthermore, under such circumstances the letter of credit itself need not be included in the assessment base.

(d) Funds transferred by the reporting bank from an existing deposit account to a special or collateral account are "received" within the meaning of paragraph (c) of this section. Funds are considered to be received and held "solely" for the purpose of securing a liability to the bank, within the meaning of paragraph (c) of this section, even though the customer thereby obtains the benefit of a waiver or reduction of the charges customarily made for the issuance or confirmation of commercial letters of credit.

(e) Funds received and held by the reporting bank in connection with letters of credit issued by other banks and not confirmed by the reporting bank must be included in the assessment base unless excludable under the provisions of § 327.211 Assessment Decision No. 111, Letters of Credit, Issued Through Another Bank.

14. Section 327.211 is amended to read as follows:

§ 327.211 *Assessment Decision No. 111; letters of credit; issued through another bank.* Some banks instead of issuing commercial letters of credit requested by their customers will cause them to be issued by another bank. Cash funds received by a bank and held by it as security for its liability to the issuing bank to meet drawings under commercial letters of credit so issued need not be included in the assessment base provided the funds so excluded (a) do not exceed the liability secured; (b) are received and held solely for the purpose of securing the liability to the bank incurred by the issuance of the commercial letter of credit; (c) are not subject to withdrawal by the obligor; and (d) are carried in a special non-interest-bearing account designated to properly show their purpose. (See § 327.209 Assessment Decision No. 109, Letters of Credit, Commercial.)

15. Section 327.239 is amended to read as follows:

§ 327.239 *Assessment Decision No. 139; rent security deposits.* (a) Cash funds received by a bank from a tenant as security for rent under a lease on real estate owned by the bank need not be included in the assessment base provided the cash funds excluded (1) do not exceed the liability to the bank under the lease; (2) are received and held solely for the purpose of securing a liability to the bank; (3) are not subject to withdrawal by the obligor; and (4) are carried in a special non-interest-bearing account designated to properly show their purpose.

(b) Deposits made with a bank by a tenant as security for rental due on real estate owned by others must be included in deposits for assessment purposes.

16. Section 327.247 is amended to read as follows:

§ 327.247 *Assessment Decision No. 147; securities purchased for customers.* Funds received by a bank to be used for the purchase of securities for the account of customers must be included in the deposit liabilities for assessment purposes until disbursed by the bank in payment for said securities. However, if the bank places the order and in doing so becomes liable for the purchase price and receives funds from the customer as security to protect it on that liability, the funds so received not in excess of the liability to the bank may be excluded from the assessment base provided they are not subject to withdrawal by the pledgor and are carried in a special non-interest-bearing account designated to properly show their purpose.

## TITLE 16—COMMERCIAL PRACTICES

### Chapter I—Federal Trade Commission

[Docket 6368]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

UNITED FISHERMEN OF ALASKA ET AL.

Subpart—*Coercing and intimidating:* § 13.350 *Customers or prospective customers:* To eliminate competitive purchasing; § 13.365 *Employees of competitors;* § 13.370 *Suppliers and sellers:* To limit sale and distribution to member or acceptable distributors. Subpart—*Combining or conspiring:* § 13.430 *To enhance, maintain or unify prices.* Subpart—*Controlling, unfairly, seller-suppliers:* § 13.535 *Controlling, unfairly, seller-suppliers.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, United Fishermen of Alaska (Kodiak, Alaska) et al., Docket 6368, May 3, 1956]

*In the Matter of United Fishermen of Alaska, an Unincorporated Association; and Eldon Lester, Individually, as President of United Fishermen of Alaska, and as Representative of All Members of Said Union, John Anderson, Individually, as Vice President of United Fishermen of Alaska, and as Representative of All Members of Said Union, and P. J. Kerrigan, Individually, as Secretary-Treasurer of United Fishermen of Alaska, and as Representative of All Members of Said Union; and Charles Warren, Russell Attwood, and Alfred Levine, Individually as Members of the Executive Board of United Fishermen of Alaska, and as Representative of All Members of Said Union; and Kodiak Fish Producers Association; and W. A. Cannon, Dal Valley, Barney Corgatelli, Jack Warren, A. J. Cichoski, Ray Heinrichs, and Thomas Clampffer, Individually, as Directors of Kodiak Fish Producers Association, and as Representative of All Members of Said Association; and Island Seafoods, Inc., a Corporation; King Crab, Inc., a Corporation; and Walter Muller and Mildred D. Muller, Individually and as Partners Doing Business Under the Trade Name of Kodiak Sea Foods Packing Company*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging two associations of independent fishermen and three canners of crab meat secured from King crab caught in waters adjacent to their packing plants in Kodiak, Alaska, with effectuating a conspiracy to restrain competition in the sale and distribution of King crab or crab meat in commerce, in the course of which they jointly fixed and maintained minimum prices for all King crab and crab meat caught in said area by means of annual contracts between the canners and the fishermen's associations, enforced by intimidation and threats of violence against canners and fishermen not parties to the agreement, and threats of black-listing fishermen who sought employment with other canners not paying the fixed minimum prices—and an agreement between two of said canners and counsel supporting the complaint providing for entry of a consent order.

On this basis, the hearing examiner made, as to those two canner respondents, his initial decision and order to cease and desist, which included a provision that the order cease to be of effect if the pending proceeding against respondent fishermen's associations be finally determined in any manner other than in an order to cease and desist from the same acts and practices.

Other provisos protected respondents' rights to bargain individually, to form bona fide business ventures which might determine prices of raw King crab and crab meat, and rights of any association of bona fide crab fishermen to perform any of the acts or practices permitted by the Fisheries Cooperative Marketing Act.

The initial decision and order to cease and desist became, on May 3, 1956, the decision of the Commission. The proceeding remains pending as to the two fishermen's associations and a third canner of King crab and crab meat.

Said order to cease and desist is as follows:

*It is ordered*, That respondents Island Seafoods, Inc., a corporation, and King Crab, Inc., a corporation, their respective officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the purchase, or offering to purchase, in commerce, as "commerce" is defined in the Federal Trade Commission Act, of raw king crab caught in waters bordering western and northwestern Alaska, including the waters adjacent to Kodiak, Alaska, do forthwith cease and desist from entering into, cooperating in or carrying out any planned common and concerted course of action, understanding or agreement between said respondents or between or among said respondents and one or more of the other respondents named in the complaint herein or between either of said respondents and others not parties hereto, to do or perform any of the following acts:

1. Fixing, establishing, maintaining or adhering to, or attempting to fix, establish or maintain, or cause adherence to, by any means or method, any prices for the purchase or sale of such raw king crab and king crab meat;

2. Jointly or collectively negotiating, bargaining or agreeing, by any means or method, as to the price or prices at which said raw king crab or king crab meat are proposed to be, or are, purchased or sold;

3. Authorizing or empowering any association, group, corporation or union to negotiate, bargain or agree as to the prices to be paid or received in the purchase of such king crab or king crab meat;

*Provided, however*, That nothing herein contained shall be construed or interpreted as preventing or prohibiting any respondent named herein, individually, from purchasing or selling, or bargaining for the purchase or sale of such raw king crab and king crab meat with any boat owner, boat captain, or other single seller or buyer.

*Provided further*, That nothing herein contained shall be deemed to prohibit the respondents herein from entering into a bona fide partnership, joint operation, or venture, or consolidation, for the purpose of operating one or more canneries and in which the prices of such raw king crab and king crab meat are determined by said partnership, joint operation, or venture, or consolidation, and where such determination is under the contract establishing such partnership, joint operation, or venture, or consolidation binding upon all members thereof. This proviso shall not be construed as either an approval or disapproval of any specific partnership, joint operation, or venture or consolidation, nor as permitting any such partnership, joint operation or venture or consolidation, to be continued or formed for the purpose, or with the effect, directly or indirectly, of rendering ineffective or unenforceable the inhibitions of this order and the purposes thereof.

*Provided further*, That nothing herein contained shall prevent any association of bona fide crab fishermen, acting pursuant to or in accordance with the provisions of the Fisheries Cooperative Marketing Act (15 U. S. C. A. sections 521 and 522) from performing any of the acts and practices permitted by said act; and

*Provided further*, That if the pending proceeding against respondents United Fishermen of Alaska and Kodiak Fish Producers Association is finally determined in any manner except by the issuance of an order to cease and desist, either (a) by consent, or (b) by final order of the Commission not subject to further review, or (c) by order of the Commission, which, although subject to further review, continues effective, requiring said respondents United Fishermen of Alaska and Kodiak Fish Producers Association to cease and desist from the same or similar acts or practices provided by the order contained herein, then this order shall terminate and cease to be of any effect.

By "Decision of the Commission," etc., report of compliance was required as follows:

*It is ordered*, That respondents Island Seafoods, Inc., and King Crab, Inc., corporations, herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 3, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[F. R. Doc. 56-4080; Filed, May 23, 1956; 8:50 a. m.]

[Docket 6441]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

HELENA RUBINSTEIN, INC.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment for services or facilities for processing or sale under 2 (d): § 13.825 *Allowances for services or facilities;* [*Discriminating in price under section 2, Clayton Act, as amended*]—Furnishing services or facilities for processing, handling, etc., under 2 (e): § 13.835 *"Demonstrators";* § 13.843 *Promotional enterprises.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Helena Rubinstein, Inc., New York, N. Y., Docket 6441, May 9, 1956]

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporate manufacturer of cosmetics, beauty aids, and toilet preparations, with principal place of business in New York City, with violating sections 2 (d) and 2 (e) of the Clayton Act as amended, by furnishing or paying demonstrator services or allowances, advertising facilities or allowances, and promotional allowances to certain competing customers in amounts determined on the basis of individual negotiations which resulted in different and arbitrary terms to different customers—and an agreement between the parties providing for entry of a consent order.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became, on May 9, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered*, That respondent Helena Rubinstein, Inc., a corporation, its officers, employees, agents and representatives, directly or through any corporate or other device, in connection with the sale or offering for sale, of cosmetics, beauty aids, and toilet preparations in commerce, as "commerce" is defined in the Clayton Act as amended, do forthwith cease and desist from:

1. Paying, or contracting to pay to, or for the benefit of, any customer, anything of value as compensation or in consideration for services or facilities furnished by or through such customer in connection with the handling, processing, sale or offering for sale of respondent's products unless such payment or consideration is made available on proportionally equal terms to all other customers competing in the distribution or resale of such products.

2. Furnishing or contributing to the furnishing of services or facilities in connection with the handling, processing, sale or offering for sale of respondent's products to any purchaser from respondent of such products bought for resale, when such services or facilities are not accorded on proportionally equal terms to all other purchasers from respondent who resell such products in competition with such purchasers who receive such services or facilities.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That the respondent herein shall within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: May 9, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[F. R. Doc. 56-4082; Filed, May 23, 1956; 8:50 a. m.]

[Docket 6483]

## PART 13—DIGEST OF CEASE AND DESIST ORDERS

### DAVID BECKER ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.155 *Prices:* Comparative; exaggerated as regular and customary; fictitious marking; retail or selling as wholesale, jobbing, factory distributors', etc., or discounted. Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition:* Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; Sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, David Becker et al. t. a. Becker & Burns Furriers, Philadelphia, Pa., Docket 6483, May 9, 1956]

*In the Matter of David Becker and Abraham Burns, Individually and as Copartners, Trading as Becker & Burns Furriers, Respondents*

This proceeding was heard by a hearing examiner on the complaint of the Commission — charging two partners with violating the Fur Products Labeling Act by advertisements in circulars, handbills, letters, and otherwise, which failed to disclose the names of animals producing the fur contained in fur products they sold, misrepresented prices of the products as wholesale and less, as reduced from purported regular prices which were in fact fictitious, and misrepresented savings possible to purchasers of their products by means of comparative prices not based on current market values—and an agreement between the parties providing for entry of a consent order.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist which became, on May 9, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondents David Becker and Abraham Burns (also known as Al Burns), individually and as copartners trading as Becker & Burns Furriers, or under any other trade name, and respondents' representatives, agents and employees, directly or through any corporate or other device in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of any fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of any fur product which is made in whole or in part of fur which had been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Falsely or deceptively labeling or otherwise identifying any such product as to the name or names of the animal or animals that produced the fur from which such garment was manufactured.

2. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur products as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations.

(b) That the fur product contains or is composed of used furs when such is a fact.

(c) That the fur product contains or is composed of bleached, dyed, or artificially colored fur when such is a fact.

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur when such is a fact.

(e) The name or other identification issued and registered by the Commission of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered for sale in commerce or transported or distributed it in commerce.

(f) The name of the country of origin of any imported furs used in the fur product.

3. Setting forth on labels attached to fur products the name or names of any animal or animals other than the name or names provided for in paragraph A (2) (a) above.

4. Setting forth on labels attached to fur products non-required information mingled with required information.

B. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly in the sale or offering for sale of fur products, and which:

1. Fails to disclose the name or names of the animal or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed by the rules and regulations.

2. Represents directly or by implication:

(a) That the prices at which said fur products are being offered for sale are as low or less than wholesale cost, when such is not a fact;

(b) That the regular or usual price of any fur product is any amount which is in excess of the price at which the respondents have usually and customarily sold such products in the recent regular course of their business;

(c) That comparative prices are other than current market values, unless the time of such compared price is given, as provided in Rule 44 (b) of the rules and regulations.

3. Makes pricing claims or representations of the type referred to in paragraph B (2) above unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based as required by Rule 44 (e) of the rules and regulations.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That respondents David Becker and Abraham Burns (also known as Al Burns), individually and as copartners herein, shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 9, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

# TITLE 24—HOUSING AND HOUSING CREDIT

## Chapter III — Public Housing Administration, Housing and Home Finance Agency

### PART 300—GENERAL PROCEDURAL PROVISIONS

Part 300 is revised to read as follows:

Sec.
300.1 PHA records.
300.2 Final PHA action.
300.3 Claims cognizable under Federal Tort Claims Act.

AUTHORITY: §§ 300.1 to 300.3 issued under sec. 8, 50 Stat. 891; 42 U. S. C. 1408.

§ 300.1 *PHA records*—(a) *Availability of records.* (1) Section 3 (c) of the Administrative Procedure Act, approved June 11, 1946, requires that matters of official record shall be made available to persons properly and directly concerned, except:

(i) Where otherwise required by statute.

(ii) Where the matter is held confidential for good cause found.

(iii) Where there is involved (*a*) any function of the United States requiring secrecy in the public interest or (*b*) any matter relating solely to the internal management of an agency.

(2) The responsibility for compliance with this provision is vested in the Director of the Production and Document Control Branch. Persons desiring to consult such records should apply, in writing, to the Director of the Production and Document Control Branch, PHA, Longfellow Building, Washington 25, D. C. Such applications shall identify as precisely as possible the official records which the applicant desires to consult, and shall set forth the facts bearing on the extent to which the applicant is a person properly and directly concerned with the matter involved. The Director of the Production and Document Control Branch shall advise the applicant in writing either (i) of the time and place at which the records will be available to him; or (ii) that the records are not available to the applicant, in which case the reasons shall be briefly stated.

(b) *Definition of official records.* The term "official records" as used in this part means documents which embody the official acts of the PHA and documents which are filed with the PHA pursuant to statute, PHA regulations, or contract with the PHA, as determined by the Director of the Production and Document Control Branch. It does not include memoranda and other reports which reflect research and analysis preliminary to official action or which are otherwise merely part of the background upon which official action is predicated.

§ 300.2 *Final PHA action*—(a) *Availability of final PHA actions.* Section 3 (b) of the Administrative Procedure Act, approved June 11, 1946, requires that every agency make available to public inspection all final opinions or orders in the adjudication of cases (except those required for good cause to be held confidential and not cited as precedents) and all rules, except where there is involved (1) any function of the United States requiring secrecy in the public interest or (2) any matter relating solely to the internal management of an agency. Except as hereinafter provided, the required information will be available at the Regional Office having jurisdiction over the project covered by the particular action. It is the responsibility of the Regional Director to assemble the actions in a form in which they may be readily consulted by members of the public. The only exceptions to the foregoing are the following:

(1) *Actions on applications for tenancy.* Information on final action on applications for tenancy shall be kept at the project office and made available to the public by the Housing Manager.

(2) *Project management procurement.* Information as to final action of Housing Managers in the procurement of supplies and materials for which such managers are authorized to contract shall be kept at the project office and made available to the public by the Housing Manager.

§ 300.3 *Claims cognizable under the Federal Tort Claims Act.* (a) The PHA will give consideration to claims brought under the Federal Tort Claims Act, as amended (28 U. S. C. A. Sections 2671–2680), if such claims meet all of the following conditions:

(1) They are for $1,000 or less;

(2) They are for injury or loss of property or personal injury or death;

(3) They result from the negligent or wrongful act or omission of an employee of the PHA acting within the scope of his employment;

(4) The PHA, if a private person, would be liable for the claim under the law of the place where the act or omission occurred.

(b) The following types of claims are excepted from the Federal Tort Claims Act by Section 421 (28 U. S. C. A. Section 2680) of that act and will not be considered by the PHA:

(1) Any claim based upon an act or omission of an employee, exercising due care, in the execution of a statute or regulation, whether or not such statute or regulation be valid;

(2) Any claim based upon the exercise or performance or the failure to exercise or perform a discretionary function or duty on the part of the PHA or an employee, whether or not the discretion involved be abused;

(3) Any claim arising out of the loss, miscarriage, or negligent transmission of letters or postal matter;

(4) Any claim arising out of assault, battery, false imprisonment, false arrest, malicious prosecution, abuse of process, libel, slander, misrepresentation, deceit, or interference with contract rights.

(c) A claim may be filed by:

(1) The person injured or the owner of the property lost or injured;

(2) His duly authorized agent or other legal representative if, by reason of death, disability, or other reasons deemed satisfactory by the PHA, he is unable to file a claim. In such cases, the claim shall show the capacity of the person signing and shall be accompanied by evidence of the appointment of such person as agent, executor, administrator, guardian, or other fiduciary. If an attorney representing a claimant claims a fee, he shall file a statement to that effect.

(d) A claim should be filed at the PHA project or Regional Office nearest the place where the damage or injury occurred. Claims may also be filed with the Central Office of the Public Housing Administration, Longfellow Building, Washington 25, D. C.

(e) The claim shall be presented to the PHA on Standard Form 95, "Claim for Damage or Injury," which will be furnished by the PHA upon request, and shall be accompanied by the substantiating evidence specified on the reverse side of the form. The claimant shall also fill in that portion of the Form on the reverse side thereof which is headed "Instructions Regarding Insurance Coverage." If the claim is not submitted on Standard Form 95, the claimant shall be furnished with copies of the Form and required to fill it out and submit it with the required evidence. An insurance company or other person who has compensated the claimant for all or part of the damage or injury on which the claim is based and who claims reimbursement from the Government must clearly establish its rights as a subrogee.

(f) A claim must be presented, in writing, to the PHA within two years after the claim has accrued. This requirement is satisfied by the claimant's presenting the claim in writing even though Standard Form 95 is not filled out in time. The date of filing of the claim (the date received by the PHA) will be made a matter of record on the face of the claim.

(g) Upon receipt of a Standard Form 95 in the PHA an investigation of the claim will be made by a PHA investigator. A report of the investigation will be submitted to the PHA counsel for an opinion which will include findings and a recommendation of award or denial.

(h) The Comptroller, for claims arising out of the acts or omissions of Central Office employees, and the Regional Directors, for claims arising out of acts or omissions of employees under their respective jurisdictions, will review the case and make the final determination. The claimant will be notified of the determination of his claim as soon as possible.

(i) If the determination is that the claimant is entitled to an award, he will be required to complete Standard Form 1145, a copy of which will be furnished him. If all or part of the award is in favor of a subrogee of the person who actually sustained the damage or injury, the subrogee, as well as the claimant, will be required to sign the Standard Form 1145. The claimant will be paid after he has properly executed and returned the necessary forms.

(j) If a claimant has been represented by an attorney who claims a fee, the counsel may recommend that fee be paid out of the award. If the award is $500 or more, the fee allowed may not exceed ten percent (10%) of the award. If the award is less than $500 a reasonable fee, not to exceed $50, may be allowed.

(k) There shall be no administrative appeal by the claimant from the determination of the Comptroller or Regional Directors set forth in paragraph (g) of this section.

Date approved: May 16, 1956.

CHARLES E. SLUSSER,
*Commissioner.*

[F. R. Doc. 56-4071; Filed, May 23, 1956; 8:48 a. m.]

# TITLE 39—POSTAL SERVICE

## Chapter I—Post Office Department

### PART 5—COMPLAINTS

Part 5 Complaints, is amended to read as follows:

Sec.
5.1 Postal service.
5.2 Postal law violations.

AUTHORITY: §§ 5.1 and 5.2 issued under R. S. 161, 396, as amended; 5 U. S. C. 22, 369.

§ 5.1 *Postal service.* Make complaints concerning the Postal Service to your postmaster. If you prefer, you may address your complaint to the Postmaster General, Washington 25, D. C.

§ 5.2 *Postal law violations.* Send information and complaints concerning postal law violations, such as use of mails for lotteries and schemes to defraud, mailing of obscene and scurrilous matters, extortion, and theft of mail to:

| *Postal Inspector in Charge at—* | *If you live in the State of—* |
|---|---|
| Atlanta 2, Ga. | Florida, Georgia, North Carolina, South Carolina, Puerto Rico, Virgin Islands. |
| Boston 7, Mass. | Connecticut, Maine, Massachusetts, New Hampshire, City of Fishers Island, New York, Rhode Island, Vermont. |
| Chattanooga 1, Tenn. | Alabama, Mississippi, Tennessee. |
| Chicago 7, Ill. | Illinois, Michigan, Wisconsin. |
| Cincinnati 1, Ohio | Indiana, Kentucky, Ohio. |
| Denver 1, Colo. | Arizona, Colorado, New Mexico, Utah, Wyoming. |
| Fort Worth 1, Tex. | Louisiana, Texas (except city of Texarkana). |
| Kansas City 42, Mo. | Kansas, County of Jackson, Mo., Nebraska, Oklahoma. |
| New York 1, N. Y. | New York, except city of Fishers Island. |
| Philadelphia 1, Pa. | New Jersey, Pennsylvania. |
| St. Louis 1, Mo. | Arkansas, Iowa, Missouri (except Jackson County), also city of Texarkana, Texas. |
| Saint Paul 1, Minn. | Minnesota, North Dakota, South Dakota. |
| San Francisco 1, Calif. | California, Canton Island, Guam, Hawaii Territory, Nevada, American Samoa, and Trust Territory, Pacific Islands. |
| Seattle 11, Wash. | Alaska Territory, Idaho, Montana, Oregon, Washington. |
| Washington 13, D. C. | Delaware, District of Columbia, Maryland, Virginia, West Virginia. |

ABE MCGREGOR GOFF,
*The Solicitor.*

## PROPOSED RULE MAKING

### DEPARTMENT OF AGRICULTURE

#### Agricultural Marketing Service

#### [ 7 CFR Part 28 ]

COTTON STANDARDS

PROPOSED REVISION OF REGULATIONS FOR U. S. COTTON LINTERS

Notice is hereby given that the United States Department of Agriculture is considering a revision of §§ 28.76 to 28.96 and 28.136 to 28.146 (7 CFR Part 28) of the regulations relating to licensed classifiers and the classification of United States cotton linters, pursuant to authority contained in the United States Cotton Standards Act, as amended (42 Stat. 1517; 7 U. S. C. 51 et seq.).

The proposed revision would amend present regulations or add new regulations relating to (1) types of cotton linters classification services available, (2) filing of classification requests, (3) drawing and submitting of samples, (4) method of classification, (5) terms used in classification, and (6) requirements for licensed linters classifiers as to classification and supervision. The Department proposes to make the revision effective July 1, 1956.

Any interested person who wishes to submit written data, views, or arguments concerning the proposed revision may do so by filing them with the Director, Cotton Division, Agricultural Marketing Service, United States Department of Agriculture not later than June 22, 1956.

The proposed amendment is as follows:

1. Section 28.83 would be amended to read:

§ 28.83 *Copies of class certificates; retention period; other requirements.* Each licensed classifier shall keep for a period of 1 year in a place accessible to interested persons a copy of each certificate issued by him as a licensed classifier under this subpart. The Administrator may require that a copy of each such certificate be forwarded to a supervising office of the Agricultural Marketing Service immediately after issuance of the certificate.

2. Section 28.85 would be amended to read:

§ 28.85 *Supervisory samples and reports.* The Administrator may require each licensed classifier to submit supervisory samples to a supervising office of the Agricultural Marketing Service in accordance with instructions furnished to licensed classifiers from time to time. The Administrator may also require each licensed classifier to make reports on forms furnished by the Agricultural Marketing Service, or otherwise, bearing upon his activities as such licensed classifier.

3. Section 28.92 (h) would be amended to read:

(h) A statement in accordance with the facts in each case, either (1) that the classifier has drawn the samples upon which his classification is based, or (2) that the samples were submitted to the classifier by another person, in which case the name and address of such person shall be stated.

4. Section 28.96 would be amended to read:

§ 28.96 *Inconsistent classifications.* In the event any licensed classifier or any employee of the Department of Agriculture shall find that any cotton has been inconsistently classified by two or more licensed classifiers, he shall thereupon bring the matter to the attention of the supervising office of the Agricultural Marketing Service, which shall review all the facts obtainable and, if possible, determine the classification of the cotton. The supervising office may examine or requisition such samples of the cotton in question as may be in the hands of such licensed classifiers, or, in the discretion of the supervising officer may request that new samples be drawn, if obtainable. In the event samples are not obtainable, the supervising officer may, if in his judgment sufficient facts are available, decide which of the inconsistent classifications shall be sustained. The records of the licensed cotton classifiers concerned shall be corrected to show the findings of the supervising office.

5. Sections 28.147, 28.148, and 28.149 would be re-numbered §§ 28.160, 28.161, and 28.162 respectively.

6. The center heading immediately preceding § 28.136 and §§ 28.136 through 28.146 would be deleted and the following substituted therefor: "United States Cotton Linters".

§ 28.136 *Applicability of other sections of regulations.* Insofar as applicable, and not inconsistent with §§ 28.136 to 28.152, the provisions of the foregoing subpart relating to cotton shall likewise apply to cotton linters.

§ 28.137 *Boards of cotton linters examiners.* There shall be located at Washington, D. C., and, when necessary in the opinion of the Administrator, at any other point that he shall designate for the purpose, a board of cotton linters examiners. The members of all such boards and the chairman of each shall be designated by the Administrator.

§ 28.138 *Classification and comparison; requests; memorandums and certificates.* For each lot or mark of linters which the applicant desires classified or compared separately he shall make a separate written request specifying which of the following forms of service is desired. Only one request within a 30 day period shall be made by the same owner for the classification or comparison of the same linters, except a request for a review determination. If the applicant desires that the samples be returned to him, at his expense, he must indicate this in the request for classification or comparison. If the return of samples is not requested they shall become the property of the Government and shall be disposed of in accordance with law and applicable regulations.

(a) *Form A determination.* The classification or comparison of samples of linters that have been freshly drawn by a licensed classifier and submitted direct to a Board of Cotton Linters Examiners without classification or further handling by such classifier. Such classification or comparison shall be evidenced by a Form A memorandum which shall be subject to review as provided in § 28.146. Composite samples composed of portions of linters drawn from more than one bale are not eligible for Form A determinations.

(b) *Form C determination.* The classification of bales of linters sampled under the supervision of an employee of the Department of Agriculture. The classification in such cases shall be evidenced by a Form C certificate which shall be subject to review as provided in § 28.146. Such certificate when it has been reviewed in accordance with § 28.146 shall be deemed to be a final certificate as to the classification shown, within the meaning of section 4 of the act (42 Stat. 1517; 7 U. S. C. 54).

(c) *Form D determination.* The classification or comparison of samples submitted for other than Form A or Form C determinations. Such classification or comparison shall be evidenced by a Form D memorandum which shall not be subject to review.

§ 28.139 *Filing of requests.* All requests for classification or comparison leading to Form A memoranda, Form D memoranda, or Form C certificates shall be filed with the secretary of the Board of Cotton Linters Examiners at Washington, D. C., unless otherwise directed by the Administrator.

§ 28.140 *Samples; weight; drawing.* Each sample submitted to a Board of Cotton Linters Examiners shall weigh not less than 8 ounces; shall be wrapped separately; shall contain a coupon or tag showing the bale number or identity of bale from which drawn; and shall be drawn in the following manner:

(a) *Condenser system linters.* Three separate portions shall be drawn from between different ties from each side of the bale, each portion to be approximately 6 by 8 inches in size. The six portions shall be placed in a single paper sack or wrapper together with an identifying tag stub or other identification. The six portions together shall constitute the sample representing one bale.

(b) *Flue and beater system linters.* A sample of not less than 8 ounces, consisting of equal portions drawn from the two heads of a bale or from two different sides of a bale shall be drawn.

§ 28.141 *Inspection of bales for special conditions.* A licensed classifier drawing samples for submission to a Board of Cotton Linters Examiners for Form A classification or comparison shall inspect each bale and shall specify on his sampler's certificate accompanying the samples any conditions not fully indicated by the samples.

§ 28.142 *Submission of samples.* All samples submitted to a Board of Cotton Linters Examiners for classification or comparison under this subpart shall be delivered or sent to the secretary of the board with all transportation charges incident thereto prepaid. All samples submitted by a licensed linters classifier for Form A classification must have been freshly drawn by such classifier, must be submitted direct to the board without classification or further handling, and must be accompanied by a sampler's certificate. Such certificate shall be on a form furnished by the Agricultural Marketing Service for this purpose.

§ 28.143 *Method of classification.* The classification of all cotton linters samples shall be in accordance with the official cotton linters standards of the United States and §§ 28.143 to 28.145. The grade, staple, and character of each sample shall be determined and designated separately, together with any special conditions of the sample or bale.

§ 28.144 *Samples falling between grades or staples.* In classification, a sample which is determined to be between two adjacent grades or between two adjacent staples shall be assigned the lower of the two grades or two staples.

§ 28.145 *Terms defined; linters classification.* For the purposes of classification of any cotton linters or comparison with a type or other samples, the following terms shall be construed, respectively, to mean:

(a) *Grade.* The term grade means the color and trash in cotton linters.

(b) *Staple.* The staple normal for each grade as illustrated in grades 1 through 7 (§§ 28.201 to 28.207) shall be designated as staples 1, 2, 3, 4, 5, 6, and 7, respectively.

(c) *Character.* The term character means the relative harshness of linters. In linters classification, character shall be described as follows: Soft (symbol S); Average (symbol A); Harsh (symbol H); or Extra Harsh (symbol EH).

(d) *Prime linters.* Prime linters are cotton linters which are equivalent in grade to the official grade standards and do not show evidence of excess trash, physical deterioration, the presence of objectionable odors, or other characteristics which prohibit its description in terms of the official grade standards.

(e) *Off grade linters.* Cotton linters which show evidence of physical deterioration, the presence of objectionable odors, or other characteristics which prohibit its description in terms of the official grade standards shall be designated as "Off Grade," and no specific grade assigned.

(f) *Excess trash.* Cotton linters that contain more trash than is represented in the grades described in §§ 28.201 to 28.208 shall be assigned that grade to which it is equal in color and further described by the term "Excess Trash." Such linters shall not be considered as prime linters.

(g) *Compound grades.* Cotton linters which in grade show a variation equal to that shown in any 2 or 3 adjacent grades of those described in §§ 28.201 to 28.208 shall be designated by the compounded name of such grades.

(h) *Compound staples.* Cotton linters which in staple show a variation equal to that shown in any 2 or 3 adjacent staples of those listed in § 28.209 shall be designated by the compounded name of such staples.

(i) *Mixed packed grades.* Cotton linters which in grade show a variation greater than that shown in any 3 adjacent grades of those described in §§ 28.201 to 28.208 shall be designated as "Mixed Packed" for grade on classification certificates and memoranda and the grade constituting the mixture shown.

(j) *Mixed-packed staples.* Cotton linters which in staple show a variation greater than that shown in any 3 adjacent staples of those listed in § 28.209 shall be designated as "Mixed Packed" for staple on classification certificates and memoranda and the staples constituting the mixture shown.

(k) *Weak staple.* Cotton linters in which the strength of staple is below that normally found in linters of otherwise comparable staple shall be designated by the term "Weak" and no specific staple assigned.

(l) *Below 7 staple.* Cotton linters which in staple is below that illustrated in Grade 7 (§ 28.207) shall be designated as "Below 7" staple.

(m) *False packed linters.* Linters in a bale (1) containing substances entirely foreign to linters; (2) containing damaged linters in the interior with or without any indication of such damage upon the exterior; (3) composed of good linters upon the exterior and decidedly inferior linters in the interior, in such manner as not to be detected by customary examination; or (4) containing motes, sweepings, or hull fiber worked into the bale.

(n) *Repacked linters.* Linters that is composed of factors', brokers', or other samples, or of loose or miscellaneous lots collected and rebaled, or linters in a bale which is composed of linters from two or more smaller bales or parts of bales.

(o) *Water-packed linters.* Linters in a bale that has been penetrated by water during the baling process, causing damage to the fiber, or a bale that through exposure to the weather or by other means, while apparently dry on the exterior, has been damaged by water in the interior.

§ 28.146 *Reviews.* A review of any Form A or Form C determination may be requested by the owner of the linters from which the sample was drawn, or his agent, within 30 days after the issu-

ance of the original memorandum or certificate. Such request shall be filed with the secretary of the Board of Cotton Linters Examiners at Washington, D. C., and shall be accompanied by the original classification memorandum or certificate if it is in the possession of the applicant. The application shall state the reason for failure to submit such document. Form D determinations are not subject to review.

(a) *Form A and Form C Reviews.* Redrawn samples will be required except in cases where the original samples have remained in the custody of the Board of Cotton Linters Examiners. When redrawn samples are necessary, they shall be drawn and submitted in accordance with the applicable provisions of §§ 28.138, 28.140, 28.141, and 28.142. A Form A memorandum or Form C certificate, as applicable, appropriately marked to indicate that it represents a review determination shall be issued to the applicant requesting the review. The review classification memorandum shall supersede the original classification memorandum.

(b) *Review of licensed classifier's certificate.* In case a review is desired of the classification of any linters represented in a valid certificate issued by a licensed linters classifier, the holder of such certificate shall surrender the same, together with samples of the linters involved, to the Board of Cotton Linters Examiners and receive in its stead a Form D memorandum signed by the chairman of such board. Such Form D memorandum shall be appropriately marked to show it represents a review of a licensed classifier's certificate. The Form D memorandum issued in lieu of the licensed classifier's certificate shall not be subject to further review. The provisions of this paragraph do not prohibit the drawing of new samples and filing of a request with the Board of Cotton Linters Examiners leading to a Form A or Form D memorandum or a Form C certificate.

§ 28.147 *Licensed classifiers.* Subject to the applicable terms and conditions of §§ 28.76 to 28.96, any person may, upon presentation of evidence of competency, be licensed to grade or classify linters, and to certificate the grade or class thereof in accordance with the official cotton linters standards of the United States.

(a) *Class certificates; form; mailing to board.* Each class certificate issued by a licensed linters classifier under this subpart shall be on a form furnished by the Department of Agriculture. A copy of each certificate shall be mailed to the Board of Cotton Linters Examiners at Washington, D. C., within 3 days after issuance.

(b) *Supervisory samples.* Some samples from each lot or mark of samples on which a licensed linters classifier issues a certificate under this subpart shall be sent to the Board of Cotton Linters Examiners for supervisory purposes. Such supervisory samples shall be submitted to the board in accordance with instructions furnished licensees by the Department of Agriculture from time to time.

§ 28.148 *Fees and costs; classification; reviews; other.* The fee for the classification, comparison, or review of linters with respect to grade, staple, and character, or any of these qualities, shall be at the rate of 20 cents for each bale or sample involved. The provisions of §§ 28.118 to 28.135 relating to other fees and costs shall, so far as applicable, apply to services performed with respect to linters.

§ 28.149 *Fees and costs; supervision of sampling.* For the supervision of sampling of bales of linters leading to a Form C certificate pursuant to § 28.138 (b), the person making the request for classification shall pay, in addition to the classification fee prescribed in § 28.148, the necessary traveling expenses and subsistence, or per diem in lieu of subsistence, incurred on account of such request, in accordance with the fiscal regulations of the Department of Agriculture, by the Department employee supervising the sampling.

§ 28.150 *Fee; licenses; renewals.* The fee for the examination of an applicant for a license to classify linters shall be $10. No additional charge shall be made for the issuance of a license to an applicant found to be properly qualified. The fee for each renewal of such a license shall be $5.

§ 28.151 *Cost of practical forms; period effective.* Practical forms of the official cotton linters standards of the United States will be furnished to any person subject to the applicable terms and conditions specified in § 28.115, and upon prepayment of the costs thereof: *Provided,* That no practical form of any of the official cotton linters standards of the United States shall be considered as representing any of said standards after the date of its cancellation in accordance with this subpart, or, in any event, after the expiration of 12 months following the date of its certification. The costs of the official standards shall be at the rate of $5 each, f. o. b., Washington, D. C., for shipments within the continental United States, and $6.50 each, delivered to destination, for shipments outside the continental United States.

§ 28.152 *Staple guide samples.* An actual sample of linters illustrating the staples as embraced in each of the grades 1 through 7 (§§ 28.201 to 28.207) shall be made available, to the extent that facilities permit, to purchasers of practical forms of the official standards, at the rate of $1 each, f. o. b., Washington, D. C., for shipments within the continental United States, and $1.50 each, delivered to destination, for shipments outside the continental United States.

Done at Washington, D. C., this 21st day of May 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator,*
*Agricultural Marketing Service.*

### VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

### NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO APPROVAL OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1955-56 FISCAL YEAR

Consideration is being given to the following proposals submitted by the Valencia Orange Administrative Committee, established under Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the terms and provisions thereof: (1) that the Secretary of Agriculture find that expenses not to exceed $176,022.00 will be necessarily incurred during the fiscal year November 1, 1955, through October 31, 1956, for the maintenance and functioning of the committee established under the aforesaid order, and (2) that the Secretary of Agriculture fix, as the share of such expenses which each handler who first handles oranges shall pay during the fiscal year in accordance with the aforesaid order, the rate of assessment of $0.0075 per carton of oranges handled by such handler as the first handler thereof during such fiscal year.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2077, South Building, Washington 25, D. C., not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate.

As used in this section, "handle," "handler," "oranges," and "fiscal year" shall have the same meaning as is given to each such term in said order; and "carton" shall mean the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 21, 1956.

## [ 7 CFR Part 936 ]

### FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

### NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO EXPENSES AND FIXING OF RATES OF ASSESSMENT FOR 1956-57 SEASON

Consideration is being given to the following proposals submitted by the Control Committee, established under the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the provisions thereof:

(a) That the Secretary of Agriculture find, with respect to Bartlett pears, early varieties of plums, late varieties of plums, and Elberta peaches, that expenses not to exceed the following amounts are likely to be incurred, during the season beginning March 1, 1956, and ending February 28, 1957, both dates inclusive, by the Control Committee for the maintenance and functioning of such committee and the respective commodity committee established under the aforesaid amended marketing agreement and order:

(1) Bartlett pears, $23,154.45;

(2) Early varieties of plums, $18,513.23;

(3) Late varieties of plums, $19,789.84; and

(4) Elberta peaches, $19,477.48.

(b) That the Secretary of Agriculture fix, as each handler's pro rata share of such expenses, the following rates of assessment which each handler shall pay in accordance with the provisions of said amended marketing agreement and order:

(1) 8½ mills ($0.0085) per standard western pear box of Bartlett pears, or its equivalent in other containers or in bulk;

(2) 9 mills ($0.009) per standard four-basket crate of early varieties of plums, or its equivalent in other containers or in bulk;

(3) 9 mills ($0.009) per standard four-basket crate of late varieties of plums, or its equivalent in other containers or in bulk; and

(4) 4 mills ($0.004) per California peach box of Elberta peaches, or its equivalent in other containers or in bulk.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposals may do so by submitting the same to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than the 10th day following publication of this notice in the FEDERAL REGISTER.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 21, 1956.

# NOTICES

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

ALASKA

### NOTICE OF FILING OF PLATS OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

MAY 17, 1956.

1. A plat of survey of the lands described below will be officially filed in the Anchorage Land Office, Anchorage, Alaska, effective at 10:00 a. m. June 22, 1956.

COPPER RIVER MERIDIAN

Township 4 North, Range 2 West,
Sections 25, 26, 27, 28 and 29.

The area described aggregate 3190.06 acres.

2. The above lands lie in the vicinity of Glenallen, Alaska, and are partially bordered on the North by the Glenn Highway. The terrain is generally level to rolling countryside. The major vegetative cover is a mixed stand of birch, aspen, and spruce. There are scattered patches of muskeg.

3. Lots 2, 3, 5, 7, 9, 11, 13, 15 and 17, Section 29, lie wholly within the Glenn Highway right-of-way as withdrawn by Public Land Order No. 601, as amended, and U. S. Survey No. 3197 is patented. Therefore these lands are not subject to disposition.

4. Subject to any existing valid rights and the requirements of applicable law, the lands described in paragraph 1 hereof, are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Alaska Homesite, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284 as amended), presented prior to 10:00 a. m. on June 8, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on September 21, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on September 21, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

5. Persons claiming veterans' preference rights under paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

6. Inquiries concerning these lands shall be addressed to the Manager, An-

chorage Land Office, P. O. Box 1740, Anchorage, Alaska.

VIRGIL O. SEISER,
*Manager.*

## Bureau of Reclamation

COLORADO RIVER STORAGE PROJECT, UTAH

FIRST FORM RECLAMATION WITHDRAWAL

APRIL 25, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby withdraw the following-described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat., 388):

SALT LAKE BASE AND MERIDIAN, UTAH

T. 40 S., R. 1 E. (unsurveyed), all.
Tps. 41, 42 and 43 S., R. 1 E., all.
T. 41 S., R. 2 E. (unsurveyed), all.
T. 42 S., R. 2 E., all.
T. 43 S., R. 2 E.,

Secs. 3 to 10, inclusive, secs. 15 to 22, inclusive, and secs. 27 to 34, inclusive, all.

The above areas aggregate approximately 153,600 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[71776]

MAY 18, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly. *Provided*, That this order shall be subject to valid existing rights and the provisions of existing withdrawals.

The Bureau of Land Management will administer the lands until they are needed for reclamation purposes.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

*Notice for Filing Objections to Order Withdrawing Public Lands for the Colorado River Storage Project, Utah*

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Utah for use in connection with the proposed Glen Canyon Unit, Colorado River Storage Project may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. G. NIELSEN,
*Assistant Commissioner.*

## Agricultural Marketing Service

CANNED RED TART PITTED CHERRIES

NOTICE OF PURCHASE PROGRAM WMP 89A

In order to encourage the domestic consumption of red tart cherries by diverting them from the normal channels of trade and commerce in accordance with section 32, Public Law 320, 74th Congress, approved August 24, 1935, as amended, the Agricultural Marketing Service offers to purchase canned red tart pitted cherries from growers, associations of growers, or canners on the offer and acceptance basis and will accept offers, to be received by the Department not later than 9:00 a. m., e. d. t., May 29, 1956, to the extent that industry marketing needs require, subject to the quantities and prices offered and to the limitations imposed by the amount of funds available for such purchases. Specifications of the purchase are contained in announcements which were issued by the Department on May 18, 1956. Information as to this purchase program may be obtained from the Fruit and Vegetable Division, Agricultural Marketing Service, Department of Agriculture, Washington 25, D. C.

(Sec. 32, 49 Stat. 774, as amended, 7 U. S. C. and Sup. 612c)

Done at Washington, D. C., this 21st day of May 1956.

# DEPARTMENT OF COMMERCE

## Bureau of Foreign Commerce

[Case No. 213A]

FLORENT M. L. SCHRIJVERS

ORDER REVOKING EXPORT LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of Florent M. L. Schrijvers, 84, Avenue D'Italie, Antwerp, Belgium, respondent; Case No. 213A.

Florent M. L. Schrijvers, the respondent herein, having been charged by the Director, Investigation Staff, Bureau of Foreign Commerce of the Department of Commerce, with having violated the Export Control Act of 1949, as amended, in that, as alleged, (1) he made and submitted false statements and representations for the purpose of causing to be effected exportations from the United States, and (2) he diverted or caused to be diverted and transshipped to an unauthorized destination commodities exported from the United States under export control documents limiting their shipment to the place named in such documents, duly answered the charges, admitted numerous facts, and offered various special defenses in mitigation.

The respondent did not demand an oral hearing but, in accordance with the practice, this case was referred to the Compliance Commissioner who notified him of the time when and the place where he would receive proof of the charges. Respondent did not appear at the time and place specified but wrote the Compliance Commissioner an additional letter of explanation. After the evidence was submitted, the Compliance Commissioner in due course made his report and recommendation, which, upon the facts as hereinafter found, appears to be fair and just and is therefore adopted.

Now, after considering the entire record consisting of the charges, the answer of the respondent, the evidence submitted in support of the charges and the report and recommendation of the Compliance Commissioner, I hereby make the following findings of fact:

1. At all times hereinafter mentioned, Florent M. L. Schrijvers, hereinafter referred to as respondent, was and now is engaged in the export and import business in Antwerp, Belgium.

2. In November 1954 the respondent opened negotiations with a firm in London for a sale of 50 tons of granular boric acid to be shipped to Hong Kong. These negotiations resulted in a contract wherein and whereby the respondent agreed to sell said boric acid to the London firm for ultimate shipment to Hong Kong.

3. Following the making of that contract and, with knowledge that it was to be submitted to the Bureau of Foreign Commerce in support of an application for an export license, respondent executed a Bureau of Foreign Commerce Form IT 842 (consignee-purchaser statement), in which he certified that 50 tons of boric acid to be exported from the United States to him were to be resold by him in Belgium to various consumers in the glassware, enamelware, and leather industries and that the end products were to be distributed in Belgium. In the same form he agreed not to dispose of the boric acid contrary to the statements made therein, that he would notify the American supplier of any change of facts or intentions related to the transaction and would secure U. S. Government approval prior to any such disposition. His American supplier then applied to the Bureau of Foreign Commerce for a license to export the boric acid to the respondent and, in support of that application, submitted respondent's IT 842. The license was granted on December 15, 1954.

4. On January 16, 1955, the American supplier exported 50 metric tons of granular boric acid to the respondent, under and pursuant to the authority of said license. In support of said exportation, it executed an export declaration and procured a bill of lading, in each of which there was endorsed a warning to the effect that the boric acid was being exported to Belgium as the country of ultimate destination and that diversion to another destination was prohibited by the laws of the United States. Schrijvers was therein named as the purchaser or ultimate consignee and Belgium was designated as the country of ultimate destination.

5. For the purpose of performing the contract, the respondent's London purchaser, in March of 1955, opened letters of credit in respondent's favor for 45 metric tons and provided him with markings for shipping to Hong Kong. The London purchaser requested that the remaining five tons be held for future disposition. Respondent accepted these instructions and invoiced his London purchaser for the 45 metric tons. When this boric acid arrived at Antwerp, respondent caused it to be transshipped to Hong Kong without prior notification to, or authorization from, the Bureau of Foreign Commerce.

6. The transshipment was discovered by American authorities and, upon the respondent's having been reminded that such transshipment was in contravention of U. S. export control regulations, respondent arranged for the return to Belgium, at his own expense, of all the boric acid unlawfully transshipped and he thereafter disposed of the entire 50 metric tons by selling them in Belgium or to previously approved consignees in other Western European countries.

7. Prior to the notification to the respondent that his conduct with respect to the 50 tons of granular boric acid was in contravention of U. S. export control regulations, respondent, in January 1955, entered into further negotiations with his London purchaser for the sale to it of an additional 50 tons of boric acid, in powder form, which boric acid he knew was ultimately destined for Hong Kong. His London purchaser accepted this offer.

8. Respondent then entered into negotiations for the purchase of this additional lot of 50 tons of powered boric acid from his American supplier and he again executed a Bureau of Foreign Commerce Form IT 842 containing the same representations and agreements as those contained in the previous form executed by him.

9. His American supplier then utilized this IT 842 to support its application for an export license which was duly issued on January 27, 1955. This license was used to load 50 metric tons of powdered boric acid upon a ship about to leave the United States. The American supplier at the same time executed an export declaration and procured a bill of lading in which were made statements similar to those contained in the previous export declaration and bill of lading. By action of the Department of Commerce, the license was suspended and the boric acid was removed from the vessel.

And, from the foregoing, the following are my conclusions.

A. That respondent knowingly made false statements and concealed material facts on Bureau of Foreign Commerce Forms IT 842 and caused false statements to be made and material facts to be concealed from the Bureau of Foreign Commerce on the export license applications and export declarations executed by his supplier in connection with the transactions involved herein, in violation of §§ 381.2 and 381.5 of the export control regulations.

B. That he failed to notify his American supplier and failed to secure approval from the United States Government before transshipping to Hong Kong 45 tons of granular boric acid in contravention of his agreement in the Bureau of Foreign Commerce Form IT 842 contained, thus violating § 381.5 (d) of the export control regulations.

C. That he made purchases of and sold commodities to be exported from the United States with the knowledge, at the time of such purchases and sales, that the export control regulations would be violated in connection with the transactions related to said purchases and sales, in violation of § 381.4 of the export control regulations.

D. That he knowingly transshipped commodities to persons and destinations and for uses not previously authorized by the Bureau of Foreign Commerce in violation of §§ 379.5, 381.2 and 381.6 of the export control regulations.

In his report, the Compliance Commissioner said:

This respondent points out that no transshipment was brought to a conclusion and that, at great expense to himself, he brought the granular boric acid back to Belgium and disposed of it to consignees approved by the American authorities. His expense in this connection far exceeded the very small profit he would have made and was quite large in proportion to the cost of the goods involved. He says that it was his assumption that even though the goods were ostensibly purchased for Belgium, if they were transshipped in accordance with a license obtained from the Belgian Government, such a transshipment was legal. This is a defense that has frequently been asserted in the past but it is not a good defense and does not relieve the respondent of his wrongful conduct. Whether he actually believed that his intended conduct was proper is not known but, by reason of his other conduct in this case, I am giving him the benefit of the doubt in that respect. In addition to his retrieving of the boric acid unlawfully transshipped, he has been most co-operative with the American authorities during the course of the investigation and, even after the hearing of this case, he has supplied his file relating to the first transshipment. • • • For all these reasons I have concluded that, whereas it would ordinarly be my recommendation that a transshipper of goods to Hong Kong or to a Communist destination, acting in contravention of U. S. export control regulations, should be denied export privileges so long as export controls are in effect, Schrijvers should be given unusual consideration. It is therefore my recommendation, without thereby setting a precedent, that he be denied export privileges for a period of two years but that, after the order has been in effect for three months, such privileges shall be restored to him upon condition that during the entire remaining term of the order he comply with all U. S. export control regulations.

Having concluded that the recommended action is fair, just and necessary to achieve effective enforcement of the law: *It is hereby ordered:*

I. All outstanding validated export licenses in which Florent M. L. Schrijvers, the respondent, appears or participates as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

II. Henceforth, and for a period of two years from the date hereof, the said respondent be and he hereby is suspended from and denied all privileges of participating, directly or indirectly, in any manner or capacity, in an exportation of any commodity or technical data from the

United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by him, directly or indirectly, in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control documents, (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

III. Such denial of export privileges shall extend not only to the respondent, but also to any person, firm, corporation, or business organization with which he may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith.

IV. Upon condition that the respondent complies in all respects with this order, and with all other requirements of the Export Control Act of 1949, as amended, and all regulations promulgated thereunder, commencing three months following the date hereof, he may engage in and enjoy all export privileges permitted by United States laws and regulations.

V. The privileges conditionally restored to the respondent, under Part IV hereof, may be revoked summarily and without notice upon a finding by the Director of the Office of Export Supply, or such other official as may at that time be exercising the duties now exercised by him, that the respondent has, at any time following the date hereof, knowingly failed to comply with any of the conditions or provisions upon which or whereby, by Part IV hereof, he has been permitted to engage in any phase of the export business otherwise denied to him under Part II hereof, without prejudice to any other action which may be taken by reason of any such new or additional violation. In the event that it be so determined that the respondent has breached the conditions of Part IV hereof, the suspension and denial of his export privileges shall be deemed to commence on the day of such determination and shall continue thereafter for a full term of twenty-one months.

VI. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, during any time when the respondent is prohibited under the terms hereof from engaging in any activity within the scope of Part II hereof, shall, without prior disclosure to, and specific authorization from, the Bureau of Foreign Commerce, directly or indirectly, in any manner or capacity, (a) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, (b) order, receive, buy, use, dispose of, finance, transport or forward, any commodity on behalf of or in any association with the respondent, or (c) do any of the foregoing acts with respect to any commodity or exportation in which the respondent may have any interest or benefit of any kind or nature, direct or indirect.

Dated: May 21, 1956.

JOHN C. BORTON,
*Director,*
*Office of Export Supply.*

# FEDERAL POWER COMMISSION

[Docket No. E-6680]

SOUTHERN NEVADA POWER CO.

NOTICE OF APPLICATION FOR ORDER AUTHORIZING STOCK ISSUANCE

MAY 18, 1956.

Take notice that on May 14, 1956, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Southern Nevada Power Company ("Applicant"), a corporation organized under the laws of the State of Nevada, and doing business in said State, with its principal business office at Las Vegas, Nevada, seeking an order authorizing the issuance of (1) such number of shares of Common Stock, par value $1.00 per share (hereinafter referred to as the "New Common Stock"), as may become issuable upon the exchange of shares of Common Stock, par value $5.00 per share (hereinafter referred to as the "Old Common Stock") now outstanding; (2) 4¾ percent Convertible Debentures due 1979, and Cumulative Preferred Stock, 4.80 percent Convertible Series, in exchange for the outstanding Convertible Debentures due 1979 and Cumulative Preferred Stock, 4.80 percent Convertible Series, except that there shall be issuable in each case upon conversion, the New Common Stock instead of the Old Common Stock; and (3) such number of shares of New Common Stock as may be issuable from time to time upon conversion of said Convertible Debentures due 1979 and said Cumulative Preferred Stock, 4.80 percent Convertible Series, and upon exercise of options heretofore issued to officers of Applicant.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 5th day of June 1956, file with the Federal Power Commission, Washington 25, D. C. a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

NOTICE OF APPLICATIONS AND DATE OF HEARING

MAY 18, 1956.

Take notice that Texas Gas Transmission Corporation (Applicant), a Delaware corporation with principal place of business at 416 West Third Street, Owensboro, Kentucky, filed, in Docket No. G-9957 on February 7, 1956, and in Docket No. G-10062 on March 7, 1956, as amended April 16, 1956, separate applications for certificates of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to render increased natural gas service to certain existing customers and to construct and operate certain natural gas facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

In Docket No. G-9957 Applicant proposes to sell and deliver on a firm basis commencing on or about December 1, 1956, in addition to the presently authorized volume of 91,800 Mcf per day, an additional volume of natural gas (viz. 5,100 Mcf per day at 14.73 p. s. i. a.) in interstate commerce to Louisville Gas and Electric Company (Louisville) for resale for the purpose of meeting the increased firm requirements of Louisville. No additional facilities are requested in Docket No. G-9957.

In Docket No. G-10062 Applicant proposes to sell and deliver on a firm basis, as shown below, additional volumes of natural gas in interstate commerce to certain of its existing customers for resale, and to construct and operate, as integral parts of its existing natural gas system, certain natural gas facilities as hereinafter described which are necessary to said delivery and sale of natural gas.

| Customer | Contract demand in Mcf at 14.73 p. s. i. a. | | |
|---|---|---|---|
| | Existing | Proposed increase | Total |
| Louisville Gas & Electric Co. | 91,800 | 15,300 | [1] 112,200 |
| West Tennessee Gas Co. | 26,418 | 3,652 | 30,070 |
| Gas Utilities Co. | 5,099 | 1,020 | 6,119 |
| Western Kentucky Gas Co. (Zone 2) | 13,515 | 530 | 14,045 |

[1] Includes 5,100 Mcf increase requested in Docket No. G-9957.

Applicant also seeks in Docket No. G-10062 the following authorization:

(1) To construct and operate approximately 11.37 miles of 16-inch O. D. pipeline which will loop Applicant's proposed 16-inch line [1] out of Lake Arthur Field, Louisiana.

(2) To construct and operate, southeast of Eunice, Louisiana, approximately 4 miles of 6⅝-inch O. D. pipeline which will cross-connect Applicant's 4-inch Bosco line with Applicant's proposed 20-inch E. Lake Palourde line.[1]

(3) To install and operate two additional 1,500 hp. compressor units at Applicant's proposed Pineville Louisiana Compressor Station [2] which is presently rated at 6,000 hp.

(4) To install and operate two 1,500 hp. compressor units at Applicant's Columbia Louisiana Compressor Station which is presently rated [3] at 6,000 hp.

(5) To install and operate one 2,000 hp. compressor unit at Applicant's Bastrop Louisiana Compressor Station which is presently rated [3] at 16,320 hp.

(6) To construct and operate, south of Applicant's Greenville Mississippi Compressor Station, approximately 5.99 miles of 30-inch pipeline which will extend in a southwesterly direction the proposed 30-inch line [1] looping on Applicant's 26-inch line in that location.

(7) To construct and operate, at and northward of Applicant's Greenville Mississippi Compressor Station, approximately 6.76 miles of 30-inch pipeline which will loop Applicant's 26-inch line at that point.

(8) To construct and operate, north of Applicant's Clarksdale Mississippi Compressor Station, approximately 7.56 miles of 30-inch pipeline which will extend in a northeasterly direction the proposed 30-inch line [1] looping Applicant's 26-inch line in that location.

(9) To install and operate one 1,500 hp. compressor unit at Applicant's Covington Tennessee Compressor Station which is presently rated [4] at 10,500 hp.

(10) To construct and operate, southeast of Robinson, Illinois, approximately 3 miles of 6⅝-inch O. D. pipeline which will extend the existing 6-inch line looping Applicant's 4-inch existing line at that point.

(11) To construct and operate at Hickory School Storage Field, Kentucky, approximately 1 mile of 6-inch loop pipeline.

(12) To install and operate one 1,500 hp. compressor unit at Applicant's Jeffersontown Kentucky Compressor Station which is presently rated at 9,000 hp.

(13) To install and operate one 1,320 hp. compressor unit at Applicant's Dillsboro Indiana Compressor Station which is presently rated at 7,920 hp.

(14) To remove, from Applicant's presently rated 560 hp. Niagara Kentucky Compressor Station, one 100 hp. compressor unit and to relocate and operate the same at Applicant's presently rated 590 hp. Oaktown Storage Field Compressor Station in Indiana.

The total capital cost of these facilities is estimated to be $6,233,000 to be financed through funds derived from short term bank loans, which will be repaid from permanent financing sometime prior to December 31, 1957.

The additional proposed pipeline capacity is required to enable Applicant to meet the estimated peak day demands of its existing aforementioned customers in the 1957-58 winter season, principally for residential and commercial use in markets presently being served.

Applicant desires to schedule the proposed construction coincidentally with the construction authorized in Docket No. G-8828 in order to make substantial savings in construction costs.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday, June 14, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protest or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 4, 1956. Failure of any

[1] The "proposed" natural gas facilities were authorized in Docket No. G-8828.

[2] Present rating includes one 1,500 hp. unit as authorized in Docket No. G-8828.

[3] Present rating includes one 2,000 hp. unit as authorized in Docket No. G-8828.

[4] Present rating includes one 1,500 hp. unit as authorized in Docket No. G-8828.

party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[Docket No. G-10005]

TRANS-CAROLINA PIPELINE CORP.

NOTICE OF APPLICATION FOR CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

MAY 18, 1956.

Trans-Carolina Pipeline Corporation (Trans-Carolina), a Delaware corporation with its principal place of business in Raleigh, North Carolina, filed an application on February 27, 1956, as supplemented on April 18, 1956, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing construction and operation of a natural-gas transmission system to serve portions of eastern North Carolina and South Carolina now without such service with gas purchased from Transcontinental Gas Pipe Line Corporation (Transco), as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application which is on file with the Commission and open for public inspection.

Trans-Carolina states that it proposes to construct and operate a total of approximately 840.1 miles of pipelines consisting of main transmission lines and laterals, extending from a point on Transco's main line near Moore, South Carolina, in a general easterly direction through portions of South Carolina and North Carolina to the Tidewater communities. Trans-Carolina also states that service would be rendered at retail and wholesale in 40 communities in the general area bounded by or adjacent to the communities of York, Chester, Sumter and Florence, South Carolina, and Wilmington, New Bern, Rocky Mount, Smithfield, Southern Pines, Albermarle and Monroe, North Carolina; also, direct industrial sales are proposed to be made to nine customers and the necessary meter and regulating stations are included in the project.

Trans-Carolina further states that the market proposed to be supplied with natural gas consists of 40 communities, of which the largest is Wilmington, North Carolina. Thirteen of these communities have existing manufactured-gas distribution systems, which would buy natural gas from Trans-Carolina, while the remaining 27 have no gas service other than "bottle gas." In its supplement, Trans-Carolina submitted evidence in support of the economic feasibility of constructing and operating distribution systems in each such community by its Distribution Division.

Trans-Carolina alleges that the estimated total peak day requirement for all the communities for the second year of operation is 40,882 Mcf, and for the fifth year is 87,734 Mcf. Corresponding annual requirements are 13,902,716 Mcf and 26,018,179 Mcf, and that Transco proposes to sell 40,000 Mcf per day to Trans-Carolina from the facilities covered by its application at Docket No. G-10000.

Trans-Carolina also alleges that the cost of the transmission facilities, including meter and regulator stations, is estimated to be $21,656,100. In addition, the estimated cost of distribution system in all of the 27 communities not having such systems is $8,132,000 for the first year of operations and $8,789,000 for the third year.

Trans-Carolina's plan of financing, as submitted in outline, calls for the issuance and sale of mortgage bonds equal to 75 percent of the estimated cost of the property. An additional 10 percent will be provided through sale of interim notes and the final 15 percent will be provided through sale of common shares.

Trans-Carolina further alleges that the calculated return on the transmission system, based on the estimated sales, is 6.35 percent in the third year. Revenues are calculated at a city gate rate of $3.80 per Mcf of Contract Demand and $.30 per Mcf of Commodity Charge. Excess gas would be sold at $.425 per Mcf; also, average revenue from direct industrial customers in the third year is $.382 per Mcf.

Trans-Carolina finally alleges that the cost of gas to it is calculated at Transco's currently effective rate schedule, which is about 37 cents at 65 percent load factor, and the estimated rate of return on the investment in the distribution division is 7.8 percent in the third year.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 8, 1956.

[Docket No. G-10061]

PIEDMONT GAS CO.

NOTICE OF APPLICATION FOR ORDER RE SALE AND DELIVERY OF NATURAL GAS

MAY 18, 1956.

On March 7, 1956, Piedmont Gas Company (Piedmont), a North Carolina corporation with its principal place of business located at Hickory, North Carolina, filed an application, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Transcontinental Gas Pipe Line Corporation (Transco) to establish physical connection and to sell and deliver natural gas to Piedmont for distribution in communities presently supplied with propane-air gas and in other communities without gas service in an area extending generally northwest from Stanley to Morganton, and Lenoir, together with other communities in Gaston, Lincoln, Catawba, Caldwell and Burke Counties, North Carolina, all as more fully described in its application which is on file with the Commission and open for public inspection.

Piedmont states that it proposes to construct and operate a new transmission system composed of approximately 78 miles of 8-, 6-, 4-, 3- and 2-inch pipeline extending from a point of connection with Transco near Stanley, North Carolina, in a generally northwesterly direction to Morgan, North Carolina. From this line natural gas service will be supplied to the existing distribution systems in the communities of Hickory, Conover, Newton, Lenoir and Granite Falls both directly and through an existing inter-city transmission line, and also to distribution systems to be constructed by Piedmont in the communities of Lincolnton, Maiden, Valdese and Morganton. Sales would also be made to industrial customers located adjacent to the new transmission line.

Piedmont also states that all transportation and deliveries of gas would be made within the State of North Carolina. The North Carolina Utilities Commission issued, on February 27, 1956, a certificate of public convenience and necessity authorizing the construction and operation of the proposed facilities.

Piedmont further states that it estimates its third year peak day requirements to be 5,953 Mcf, of which it would purchase 5,500 Mcf from Transco. The balance would be supplied by peak-shaving facilities and Transco proposes to sell and deliver 5,500 Mcf per day to Piedmont from the facilities applied for in Transco's Docket No. G-10000.

Piedmont alleges that the total cost of all facilities to be constructed, including new distribution systems, is $2,659,864 and it will issue $1,800,000 principal amount of 5 percent First Mortgage Bonds. In addition, $450,000 face value of 6 percent two-year interim notes will be issued, convertible into 6 percent stock or cash at maturity, at the option of Piedmont. Common stock sufficient to realize $150,000 will be sold to Piedmont's parent company, Carolina Natural Gas Corporation.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 8, 1956.

[SEAL] LEON M. FUQUAY,

[Docket No. G-1705, etc.]

PANHANDLE EASTERN PIPE LINE CO. ET AL.

ORDER SEVERING PROCEEDINGS AND DIRECTING SALE AND DELIVERY OF NATURAL GAS

In the matters of Panhandle Eastern Pipe Line Company, Docket Nos. G-1705, G-1937, G-2433, G-2475 and G-8665; Missouri Public Service Company, Docket No. G-2057; City of Montgomery, Missouri, Docket No. G-2932; Town Gas Company of Illinois, Docket No. G-3159; Missouri Central Natural Gas Company, Docket No. G-4611; Village of Westville, Illinois, Docket No. G-4666; Village of Pleasant Hill, Illinois, Docket No. G-4940; City of Waverly, Illinois, Docket No. G-5139; Village of Rossville, Illinois, Docket No. G-5979; Central Illinois Electric and Gas Company, Docket No. G-8428; City of Winchester, Illinois, Docket No. G-8431; Village of Franklin, Illinois, Docket No. G-8471; City of Hickman, Kentucky, Docket No. G-8526; Trunkline Gas Company, Docket No. G-8664; City of McLeansboro, Illinois, Docket No. G-8676; City of Vienna, Illinois, Docket No. G-8677; City of Clinton, Kentucky, Docket No. G-8771; City of LaCenter, Kentucky, Docket No. G-8888; City of Bardwell, Kentucky, Docket No. G-8939; City of Wickliffe, Kentucky, Docket No. G-8962; Lake County Utility District, Docket No. G-8963.

These consolidated proceedings, which arose on applications by Panhandle Eastern Pipe Line Company (Panhandle) and Trunkline Gas Company (Trunkline) for certificates of public convenience and necessity under section 7 (c) of the Natural Gas Act (act) involve, among other things, applications under section 7 (a) of the act by some 19 parties for orders directing Panhandle or Trunkline to establish connections with and sell natural gas to such parties. Twelve of the section 7 (a) applicants, namely Missouri Public Service Company, Docket No. G-2057; City of Montgomery, Missouri, Docket No. G-2932; Town Gas Company of Illinois, Docket No. G-3159; Missouri Central Natural Gas Company, Docket No. G-4611; Village of Westville, Illinois, Docket No. G-4666; Village of Pleasant Hill, Illinois, Docket No. G-4940; City of Waverly, Illinois, Docket No. G-5139; Village of Rossville, Illinois, Docket No. G-5979; Central Illinois Electric and Gas Company, Docket No. G-8428; City of Winchester, Illinois, Docket No. G-8431; City of McLeansboro, Illinois, Docket No. G-8676; and City of Vienna, Illinois, Docket No. G-8677, have filed motions to sever their applications from these consolidated proceedings and for immediate Commission decision thereon.

On the basis of the facts herein, we find that the public interest requires that the proceedings respecting the 12 section 7 (a) applicants enumerated above be severed from the above-entitled consolidated proceedings for the purpose of our rendering decision on the aforesaid applications. Some of these applications have been pending before us for a considerable time. Now, however, hearings have been concluded and the record is complete with respect thereto, as well as with respect to such other issues as have bearing on the question of the authorization sought by these applications. The Presiding Examiner has handed down his decision in which he determined that the aforementioned applications should be granted. No exceptions have been filed to these determinations of the Examiner, and time for filing exceptions has expired so that all objections thereto are waived.

Furthermore, many of the issues involving other than the section 7 (a) applications are complex and controversial and it cannot be said when they may be finally determined. No useful purpose would be served by postponement of decision on these applications until such uncertain future time as the other issues herein are finally determined. On the contrary, such action would be contrary to the public interest. Delay in final decision on the authorizations sought by the 12 section 7 (a) applicants would delay financing and construction of their facilities necessary to receive service and thereby perhaps delay applicant's usage of natural gas beyond the 1956–1957 heating season. This would postpone the initial revenues to be derived from the respective systems, and would deprive the communities involved, at least for a time, of the advantages of the natural-gas service which they want and can use.

Moreover, there is no obstacle to severing the proceedings respecting these applications and rendering final decision on them now. As mentioned, the record is complete with respect thereto, and all prerequisities to Commission authorization have been met. Panhandle and Trunkline have signified their willingness to supply volumes of gas to meet these parties' third-year peak demands. Also, Panhandle and Trunkline have been granted authority to construct the major pipeline facilities needed to serve applicants, and are willing and able to render the requested service. Decision now on the applications of the 12 parties in question will not prejudice any other party. In these and the other circumstances presented herein, we find that the applications of the 12 parties enumerated above should be severed from these consolidated proceedings and final decision on these applications be rendered forthwith.

*Applicants' proposals.* At the outset, it should be noted that the volumes of gas nominated by the section 7 (a) applicants constitute anticipated peak-day requirements for the fifth year of operation or later. However, in the circumstances of this case, applicants' estimates for the third year of operation constitute a sufficient and proper basis for our determinations hereinafter reached. This is so for the following reasons: an allotment of an applicant's peak-day requirements for the third year of operation should enable it to have a feasible project if the project is otherwise feasible; a greater volume allocation would tend to reserve to the applicant and correspondingly deprive other pipeline customers of the gas so allocated for an unreasonable length of time; and estimates covering a period beyond the third year of operation are correspondingly more speculative and uncertain. Also it is pertinent to observe that Panhandle is willing to deliver gas to the section 7 (a) applicants in question and in fact has entered into service agreements with Missouri Public Service Company and Missouri Central Natural Gas Company. Central Illinois Electric & Gas Company is an existing customer of Panhandle. Trunkline is willing to serve the cities of McLeansboro and Vienna.

Turning to applicants' separate proposals, Missouri Public Service Co. (Missouri Public Service), the applicant in Docket No. G-2057, is engaged in public utility operations in western and north-central Missouri. It supplies electric or gas service to approximately 148 incorporated municipalities and communities, and water service to a small number of municipalities. The company proposes to install a high pressure pipeline commencing at a point of connection with Panhandle's main pipeline system near New Franklin, Missouri, and extending in a northwesterly direction for a distance of approximately 109 miles. By means of this pipeline, applicant proposes to transport natural gas to 15 municipalities in Missouri now without natural gas service, namely: Glasgow, Dalton, Bucklin, Meadville, Utica, Salisbury, Brunswick, Brookfield, Wheeling, Chula, Keytesville, Marceline, Laclede, Chillicothe and Trenton. The 1950 U. S. census gives the total population of the 15 communities as 32,559. The two largest cities, Chillicothe and Trenton, have populations of 8,694, and 6,157, respectively. Missouri Public Service now serves propane air gas in Chillicothe and Trenton. The company proposes to rehabilitate and extend its distribution systems in these two cities, and to install and operate distribution systems in the remainder of the communities. The total estimated cost of the project, referred to as the "North Central Missouri Project," is $5,424,462. The company's outstanding securities as of October 31, 1954, amount to $7,304,041.

Missouri Public Service proposes to obtain additional financing in the amount of $11,800,000, part of which will be used to defray the cost of the project. Of the securities in such amount proposed to be issued, $8,000,000 will consist of first mortgage bonds covering substantially all of the properties of the company now owned or hereafter acquired, and the remainder will consist of common stock. The company estimates that its peak-day requirements in the third year of operation will be 18,208 Mcf, and its annual requirements in that year, 3,276,194 Mcf.

In Docket No. G-2932, applicant City of Montgomery, Missouri, proposes to install and operate a distribution system in Montgomery, and a lateral line, approximately eight miles in length, which will interconnect its system and a lateral line of the Panhandle system near Wellsville, Missouri. The estimated cost of the project is $320,000, to be financed by the issue and sale of gas revenue bonds. Montgomery has a population of approximately 2,000. This applicant estimates that its peakday requirements in the third year of operation will be 649 Mcf, and its annual requirements in such year, 61,010 Mcf.

In Docket No. G-4611, applicant Missouri Central Natural Gas Co. (Missouri Central) proposes to install and operate a lateral line commencing at a point of connection with a lateral line of Panhandle near Moberly, Missouri, and extending in a northerly direction for a distance of 23 miles to Macon, Missouri. The proposed lateral will pass adjacent to the unincorporated communities of Cairo, Jacksonville and Excello, Missouri. Missouri Central is now engaged in the distribution and sale of propane air gas at Macon. This company would serve Macon and the three unincorporated communities with natural gas. It would utilize and expand the existing distribution system at Macon, and would

construct distribution systems in the other three communities. In the first year, expenditures for construction work, franchises and permits would amount to $476,530; and in the four ensuing years there would be certain incidental expenditures. It is proposed that the necessary funds be raised by the issue and sale of $100,000 of common stock; $400,000 of 20-year first mortgage revenue bonds, payable from a sinking fund; and $50,000 of 15-year debentures—a total of $560,000. Of this sum, $65,000 will be used to liquidate outstanding obligations; and the remainder, $495,000, will be used to cover the construction costs and the other miscellaneous items. Macon has a population of approximately 5,000, and the three unincorporated communities a total population of some 541. This applicant's estimated peak day requirements in the third year of operation are 1,391 Mcf; and its estimated third year annual requirements, 196,684 Mcf.

In Docket No. G–4666, applicant Village of Westville, Illinois, proposes to install and operate distribution systems in Westville and in Unionville, an adjacent unincorporated community, and a one-mile lateral supply line which will interconnect with a Panhandle lateral line known as its Danville, Illinois, lateral. The estimated cost of the project is $459,156, to be financed by the issue and sale of gas revenue bonds: Westville and Unionville have a combined population of approximately 4,500. This applicant estimates that its peak-day requirements in the third year of operation will be 1,039 Mcf; and its annual requirements in that year, 90,095 Mcf.

In Docket No. G–4940, applicant Village of Pleasant Hill, Illinois, proposes to install and operate a distribution system in the village, and a lateral supply line, 1.6 miles in length, which will interconnect its system and Panhandle's main pipeline system. The estimated cost of the project is $160,000, to be financed by the issue and sale of gas revenue bonds. The population of Pleasant Hill is between 900 and 1,000. The estimated peak-day requirements in the third year of operation are 518 Mcf, and the annual requirements in that year, 38,143 Mcf.

In Docket No. G–5139, applicant City of Waverly, Illinois, proposes to install and operate a distribution system in Waverly and the contiguous area, and a lateral supply line, one-half mile in length, which will interconnect its system and Panhandle's main pipeline system. The total estimated cost of construction is $248,000, to be financed by the issue and sale of gas revenue bonds. Approximately 1,400 persons reside in the proposed service area. This applicant's estimated peak-day requirements in the third year of operation are 644 Mcf, and its estimated third-year annual requirements, 48,400 Mcf.

In Docket No. G–5979, applicant Village of Rossville, Illinois, proposes to construct and operate a distribution system in the village, and a stub line, 550 feet in length, which will connect its system and an adjacent Panhandle lateral line known as the Hoopeston Lateral. The proposed facilities will be constructed at an estimated cost of $208,195, and are to be financed by the issue and sale of gas revenue bonds in the amount of $210,000. The population of Rossville is approximately 1,500. This applicant estimates its peak-day requirements in the third year of operation as 643 Mcf, and its annual requirements in such year, 62,061 Mcf.

In Docket No. G–8428, Central Illinois Electric and Gas Co. (Central Illinois), proposes to construct and operate a distribution system in Delavan, Illinois, and a stub line 2,000 feet in length which will interconnect the system with Panhandle's Peoria lateral. The estimated cost of construction is $121,300. Central Illinois has long been engaged in a variety of utility services in Illinois, and will defray the cost from funds on hand. According to the U. S. census in 1950 the population of Delavan was 1,248. The estimated peak-day requirements for Delavan in the third year of operation are 626 Mcf, and the estimated annual requirements in that year, 63,630 Mcf. In addition, Central Illinois seeks an increase in the allocation of gas from Panhandle for natural-gas service which it now supplies to Lincoln, Illinois. The increase in winter contract demand requested is from 6,420 Mcf to 7,100 Mcf. By order issued October 5, 1955, the Commission granted this increase on a temporary basis, from December 1, 1955, to March 31, 1956.

In Docket No. G–8431, applicant City of Winchester, Illinois, proposes to construct and operate a distribution system in Winchester and the adjacent urban area, and a 4-inch lateral line 4½ miles in length which would connect that system and Panhandle's main pipeline system. The cost of the project, estimated by the applicant as $290,000, would be financed by the issue and sale of gas revenue bonds. The population in the proposed service area is approximately 2,000. This applicant estimates that its peak-day requirements in the third year of operation will be 613 Mcf, and its annual requirements in that year, 47,959 Mcf.

In Docket No. G–8676, applicant City of McLeansboro, Illinois, proposes to construct and operate a distribution system in McLeansboro and the adjacent urban area, and a lateral line approximately five miles in length which would interconnect its system and Trunkline's pipeline system. The estimated cost of the project is $405,000, to be financed by the issue and sale of gas revenue bonds. The population of McLeansboro is approximately 3,200. This applicant estimates that its peak-day requirements in the third year of operation will be 1,549 Mcf, and its annual requirements in such year, 203,658 Mcf.

In Docket No. G–8677, applicant City of Vienna, Illinois, proposes to construct and operate a distribution system in Vienna; and a lateral line, slightly less than a mile in length, which would interconnect its system and Trunkline's pipeline system. The estimated cost of the project is $115,000, to be financed by the issue and sale of gas revenue bonds. The population of Vienna is approximately 1,250. This applicant estimates that its peak-day requirements in the third year of operation will be 517 Mcf, and its annual requirements in such year, 67,073 Mcf.

In Docket No. G–3159, applicant Town Gas Co. of Illinois (Town Gas), a recently organized corporation, proposes to conduct business in two divisions, a Town Division and a Farm Tap Division. The Town Division only is the subject of Docket No. G–3159. In this Division, Town Gas proposes to supply natural-gas utility service in Virden, Girard and Thayer, Illinois, and the environs of each. The population of these communities is approximately 5,650. Applicant proposes to install and operate a lateral pipeline commencing at a point of connection with Panhandle's main pipeline system near Auburn Illinois, and extending southwardly for a distance of 11.2 miles, to terminate at Girard. Applicant proposes to install and operate distribution systems in the three communities. The estimated cost of the project is $416,747. Town Gas will finance its total initial capital requirement, estimated at $525,000 for both Town and Farm Tap Divisions, by the issue and sale of $275,000 principal amount of first mortgage sinking fund bonds having a 25-year maturity, $75,000 of preferred stock and $175,000 of common stock. The estimated Town Division peak-day requirements in the third year of operation are 778 Mcf, and the estimated annual requirements in that year, 90,167 Mcf.

*The Commission's determinations.* Section 7 (a) provides that the Commission may, if it "finds such action necessary or desirable in the public interest," direct a natural-gas company to establish physical connection and sell natural gas to "any person or municipality engaged or legally authorized to engage in the local distribution of natural or artificial gas to the public," if the Commission finds that no undue burden will be placed upon such natural-gas company thereby provided that such action would not impair the ability of the natural-gas company to render adequate service to its customers. The criteria to be applied under section 7 (a)'s prescription of "necessary or desirable in the public interest" include whether the pipeline company is the applicant's most feasible source of supply; whether there is a public need for, and will be a public benefit from, natural-gas service in the areas involved; whether the proposed project can be financed; and whether the project is economically feasible.

With respect to the 12 applicants enumerated above the evidence establishes that these requirements of section 7 (a) of the act are met. Certain of these requirements can be disposed of briefly, without particular reference to individual applicants. In all of these proceedings, the facts establish that each of these applicants is now engaged or legally authorized to engage in the local distribution of natural or artificial gas to the public. Likewise the evidence establishes that Panhandle or Trunkline, as the case may be, is the most feasible source of natural gas for the applicants. The evidence further establishes that there is a public need for and that there will be a public benefit from, public utility natural gas service in the cities, towns and villages which the applicants propose to serve. This need and benefit arise from the facts, among others, that all of the communities in question are without natural gas service; that natural gas is a clean, convenient and efficient fuel; that at the current prices of competing fuels, except that of coal in most instances, natural gas will afford a saving to the consumer, and generally will be attractive as compared with coal; and that other municipalities in the same general areas have natural-gas service, so that the communities in question may be placed at a disadvantage in attracting new residents and small industries.

Respecting the questions of financial and economic feasibility, as to which some fuller discussion is justified, the projects of Missouri Public Service and Central Illinois Electric and Gas may be considered separately from the projects of the remainder of applicants whose financing involves gas revenue bonds or sinking fund bonds.

As to Missouri Public Service, Docket No. G–2057, the evidence justifies the conclusion that its North Central Missouri Project can be financed. The record shows that Missouri Public Service has a favorable capital structure and record of earnings and dividends. The depreciated utility plant for 1955 was estimated by the company as $38,738,217. The total outstanding securities of the company, in the amount of $27,304,041, are in the ratio of 56 percent debt, and 44 percent equity. The total operating revenues for 1955 were estimated as $10,249,603. The present dividend rate on the common stock is $1.80 per share. The company proposes to increase the rate to $2.00 in 1956, and to $2.40 in 1960. The record further shows that said applicant has a history of ability to obtain money through mortgage, bonds, debentures and preferred and common stock. Also, the company's statement of anticipated cash flow indicates that the financing of the project is feasible. Letters from insurance companies and financial houses in evidence express interest in the proposed financing program.

Respecting economic feasibility, it appears that Missouri Public Service's estimate of the third-year-of-operation peak day requirements of 18,208 Mcf for its North Central Missouri Project is excessive. However, the estimate includes substantial "small industrial" sales in the interruptible category, which would be curtailable on a peak day and hence should not enter into a peak-day allocation, and is subject to other infirmities. Panhandle has entered into a contract with Missouri Public Service which provides for a contract demand of 11,000 Mcf for the first winter of operation. The Examiner considered that the volume allocated to Missouri Public Service should be 11,000 Mcf and we find that substantial evidence supports this conclusion which we adopt.

Missouri Public Service estimates that the rate of return on the North Central Missouri Project based on an 11,000 Mcf allocation will, in the first year of operation, be 1.42 percent. By this estimate, the revenue from the project will be sufficient for the operating expenses of the project and partial service on the debt related thereto. The testimony discloses that Missouri Public Service is willing to accept the fact that the project will not be fully self sustaining in the initial years. Furthermore, an existing public utility of the size and financial soundness of Missouri Public Service is in a far different position from most of the other section 7 (a) applicants in these proceedings. Missouri Public Service does not require the firm assurance of gas supplies beyond the initial year of operation, or the assurance of the project's economic feasibility, in order to enable it either readily to finance at low interest rates or to weather periods of low return, since the major portion of the existing and proposed future properties of the company consists of electric properties.

Judging from the company's operating income in the past, as contained in the record, there will continue to be an adequate system rate of return. The bonds to be issued under the financing contemplated will be general obligation bonds, covering practically all of the company's properties. With regard to the interests involved other than bondholders, there is no reason to think that the project, once it has been installed, will be abandoned. Finally, it is a responsibility of the Public Service Commission of the State of Missouri to determine whether the North Central Missouri Project should be authorized when the result will be that a portion of the return from the company's other operations must offset any low return on such project, and the Missouri Commission has granted a certificate of convenience and necessity for the construction and operation of the project. We conclude that the application of Missouri Public Service to this Commission should be granted provided the volume of gas allocated to the company is limited to 11,000 Mcf.

As to the financial and economic feasibility of the Central Illinois project, Docket No. G–8428, which would be financed from funds on hand, the estimated cost of the Delavan distribution system contained in the engineering report on behalf of Central Illinois seems to be reasonable, and the estimated operating income conservative. If limited to an allocation of gas consisting of the estimated peak day requirements in the third year of operation, the project appears to be economically feasible. The evidence further shows that there is a need for the increased allocation of gas which Central Illinois requests for Lincoln.

Turning to the question of the financial and economic feasibility of those applicants which propose to finance by means of revenue bonds, the Presiding Examiner concluded that where financing is to be accomplished by this means, the debt service coverage affords "the most practicable and perhaps the best gauge of the financial and economic feasibility of the project," subject to certain qualifications and safeguards. Because of the heavy reliance the Examiner placed on this factor, it is appropriate to set forth his views somewhat at length. He concluded that where the debt-service coverage is adequate, the economic potential of the project permits latitude in operation between that estimated and that actually experienced, without placing the project in critical economic jeopardy. In his view, the coverage affords a safeguard against such contingencies as over-estimation of revenues; under-estimation of cost of construction and operation expenses; emergencies; untimely exhaustion of gas supply; and in a measure, increases in the wholesale price of gas. He emphasized, however, that the coverage ratio is of value only to the extent that the engineering report upon which it is based is reasonable, sound and reliable.

The Presiding Examiner pointed out further that the debt-service coverage ratio varies with the length of the maturity schedule of the bond issue. He considered that in the cases of the projects to be supplied by the Panhandle system, the maturity schedules, on the one hand, should not necessarily be limited to the 20-year period upon which Panhandle specifically based its gas supply showing; and, on the other hand, should not be extended beyond a period of 30 years. And he concluded that where the maturity schedule of a gas revenue bond issue is 30 years, and where the engineering estimates are reasonably reliable, the minimum debt-service coverage in order for the project to be considered economically feasible is in the range of from 1.6 to 1.7. However, he concluded that where the gas supply warrants a 30-year amortization schedule, and where, as here, the allotments of gas will be limited to the peak-day estimates in the third year of operation, the minimum coverage may reasonably be reduced to 1.5. It was pointed out that the risk of want of a market for such volume of gas is less than the risk of want of a market for the estimated volume in, say, the fifth year of operation.

In the cases of the projects to be supplied by the Trunkline system in question here—City of McLeansboro and City of Vienna—the Examiner concluded that the maturity schedules of the bond issue should not exceed 20 years, because of a shortage in availability of Trunkline gas. Limiting the allotment of gas to the estimated peak-day volumes required for the third year of operation, he concluded that the minimum debt-service coverage, if the projects are to be deemed economically feasible, should be 1.5.

In addition to the factor of debt-service coverage the Presiding Examiner recognized that other factors are to be taken into account in the case of a municipal enterprise, including the general character of the community, its credit standing and freedom from default on previous bond issues, and the experience of the municipality in the operation of other utilities. He found that in all of these respects, the showing of each of the applicants here in question was satisfactory. He adverted to still other factors testified to by witnesses as bearing upon the feasibility of a municipal gas distribution project, such as distance of

the municipality from the interstate pipeline, and the consequent cost of the connection and population.

We consider that, in the circumstances of this case and with respect to the 12 section 7 (a) applicants here in question, the approach followed by the Presiding Examiner, as described in the foregoing, is reasonable and appropriate. The questions whether the factor of debt-service coverage should be given the weight the Presiding Examiner apparently accorded it here and whether the coverage ratios and amortization schedules determined upon here should or should not be the same in other cases, must depend upon the facts of such other cases.

By the engineering estimates, and based upon a 30-year maturity schedule for the bond issues and a third year allocation of gas, the debt-service coverages for the following projects to be served by the Panhandle system are as follows:

| Project | Debt-service coverage |
|---|---|
| City of Montgomery, Mo. (Docket No. G–2932) | 2.13 |
| Village of Westville, Ill. (Docket No. G–4666) | 1.80 |
| Village of Pleasant Hill, Ill. (Docket No. G–4940) | 2.01 |
| City of Waverly, Ill. (Docket No. G–5139) | 1.90 |
| Village of Rossville, Ill. (Docket No. G–5979) | 2.82 |
| City of Winchester, Ill. (Docket No. G–8431) | 1.51 |

It will be seen that all of these bond coverages exceed 1.5.

In the cases of Montgomery, Westville and Rossville, generally speaking the engineering reports from which the coverages are derived appear fairly and reasonably to reflect the economic and physical capabilities, and the requirements, of the communities, as well as the projected operation of the projects. We find that the coverages, along with the other facts of the case, are such as to indicate that the projects are economically feasible. Although in the instances of Pleasant Hill, Waverly and Winchester, the engineering reports are perhaps too optimistic in certain respects, specifically in the rates of space-heating customer attachment, taken as a whole the evidence relating to each of these projects is sufficiently persuasive to lead to the conclusion that their economic success is probable.

We find also that the Missouri Central project, Docket No. G–4611, to be served by Panhandle, appears economically feasible. It has been seen that the bonds involved are 20-year revenue bonds, payable from a sinking fund; and that a limited amount of stock and 15-year debentures are also to be issued. Here again, the estimates of income in the engineering report seem conservative, and the estimates of costs and expenses appear sound.

The Town Gas project, Docket No. G–3139, to be served by Panhandle, likewise appears to be economically feasible. It has been noted that the bonds involved are sinking fund bonds, maturing in 25 years, and that the financing will include the issue and sale of stock. On the basis of the gross income estimates in the engineering report, a 28-year period will elapse before all of the bonds are retired. However, the bond interest coverage is substantial, being 2.98 times based on a third heating season allocation of gas. The engineering report appears sound, and the estimates of income appear conservative.

Turning to the projects to be served by the Trunkline system, by the engineering estimates, and based upon a 20-year maturity schedule for the bond issues and a third-year allocation of gas, the debt service coverages for City of McLeansboro, Illinois, Docket No. G–8676, and City of Vienna, Illinois, Docket No. G–8677, are 2.35 and 2.74, respectively. These bond coverages are well above the minimum of 1.5, and the engineering estimates seem to be reasonably sound. Bond ordinances of the two municipalities will provide for a mandatory call and prepayment of bonds from surplus revenues; so that, if the earnings projections are realized, the bonds will be retired at the expiration of 20 years. On consideration of these and the other facts in the record, the projects thus appear to be economically feasible and we so find.[1]

The evidence of record herein justifies the conclusion that an order requiring Panhandle to render service as herein specified to the section 7 (a) applicants already enumerated, will place no undue burden upon Panhandle. Nor will Panhandle be required to enlarge its transportation facilities for such purpose. Nor will Panhandle's ability to render adequate service to its present customers be impaired.

The evidence likewise justifies the conclusion that an order requiring Trunkline to render service, as hereinafter specified, to the section 7 (a) applicants seeking service from it whose applications are hereinafter granted, will not place an undue burden upon Trunkline, or require Trunkline to enlarge its transportation facilities for such purpose, or impair its ability to render adequate service to its customers.

The Commission further finds:

(1) It is necessary and desirable in the public interest that the proceedings respecting the 12 section 7 (a) applicants hereinbefore enumerated, namely, Missouri Public Service Company, Docket No. G–2057; City of Montgomery, Missouri, Docket No. G–2932; Town Gas Company of Illinois, Docket No. G–3159; Missouri Central Natural Gas Company, Docket No. 4611; Village of Westville, Illinois, Docket No. G–4666; Village of Pleasant Hill, Illinois, Docket No. G–4940; City of Waverly, Illinois, Docket No. G–5139; Village of Rossville, Illinois, Docket No. G–5957; Central Illinois Electric and Gas Company; Docket No. G–8428; City of Winchester, Illinois, Docket No. G–8431; City of McLeansboro, Illinois, Docket No. G–8676; and City of Vienna, Illinois, Docket No. G–8677, be severed from these consolidated proceedings and final decision on these applications be rendered forthwith.

(2) Panhandle Eastern Pipe Line Company, a Delaware corporation having its principal office in Kansas City, Missouri, is a "natural-gas company" within the meaning of the Natural Gas Act, as heretofore found by the Commission (4 F. P. C. 1081, 1083).

(3) Trunkline Gas Company, a Delaware corporation having its principal office in Houston, Texas, is a "natural-gas company" within the meaning of the Natural Gas Act, as heretofore found by the Commission (9 F. P. C. 721, 737).

(4) It is necessary and desirable in the public interest that the Commission by order direct Panhandle to establish physical connection of its transportation facilities with those of each of the following applicants and direct the delivery and sale of natural gas by Panhandle to such applicants: Missouri Public Service Company; City of Montgomery, Missouri; Town Gas Company of Illinois; Missouri Central Natural Gas Company; Village of Westville, Illinois; Village of Pleasant Hill, Illinois; Village of Waverly, Illinois; Village of Rossville, Illinois; Central Illinois Electric and Gas Company; and City of Winchester, Illinois.

(5) Panhandle shall deliver and sell to each applicant its requirements of natural gas not to exceed the following stated amounts:

| Applicant | Maximum daily requirement (Mcf) |
|---|---|
| Missouri Public Service Co | 11,000 |
| City of Montgomery, Mo | 649 |
| Town Gas Co. of Illinois | 895 |
| Missouri Central Natural Gas Co | 1,391 |
| Village of Westville, Ill | 1,039 |
| Village of Pleasant Hill, Ill | 518 |
| City of Waverly, Ill | 644 |
| Village of Rossville, Ill | 643 |
| Central Illinois Electric & Gas Co. (for City of Delavan, Ill.) | 626 |
| City of Winchester, Ill | 613 |

(6) It is necessary and desirable in the public interest that the Commission by order direct Trunkline to establish physical connection of its transportation facilities with those of City of McLeansboro, Illinois, and City of Vienna, Illinois, and direct the delivery and sale by Panhandle to each applicant of its natural gas requirements not to exceed the following stated amounts:

| Applicant | Maximum daily requirement (Mcf) |
|---|---|
| City of McLeansboro, Ill | 1,549 |
| City of Vienna, Ill | 517 |

(7) The above-named applicants are persons or municipalities engaged or legally authorized to engage in the local distribution of natural or artificial gas to the public.

(8) The requirement that Panhandle and Trunkline serve applicants, as set forth above, will not place an undue burden upon Panhandle or Trunkline, or impair their ability to render adequate service to their existing customers.

The Commission orders:

(A) The proceedings respecting the 12 section 7 (a) applicants enumerated in paragraph (1) above be and the same are hereby severed from these consolidated proceedings.

(B) Panhandle Eastern Pipe Line Company be and it is hereby directed to establish and maintain physical connection of its transportation facilities with the facilities to be constructed by applicants Missouri Public Service Company; City of Montgomery, Missouri; Town Gas Company of Illinois; Missouri Central Natural Gas Company; Village of Westville, Illinois; Village of Pleasant Hill, Illinois; City of Waverly, Illinois; Village of Rossville, Illinois; Central Illinois Electric and Gas Company and City of Winchester, Illinois; and to deliver and sell to said applicants through such connections their natural-gas requirements as hereinbefore set forth in volumes not to exceed the amounts set forth in paragraph (5) above.

(C) Panhandle shall report to the Commission in writing and under oath the date of commencement of operations and service to the respective applicants enumerated in paragraph (B) above.

(D) Trunkline Gas Company be and it is hereby directed to establish and maintain physical connection of its transportation facilities with the facilities to be constructed by applicants, City of McLeansboro, Illinois, and City of Vienna, Illinois, at appropriate points of interconnection, and to deliver and sell to said applicants through such connections their natural-gas requirements as hereinbefore set forth, in volumes not to exceed the amounts set forth in paragraph (6) above.

(E) Trunkline shall report to the Commission in writing and under oath the date of commencement of operations and service to the applicants enumerated in paragraph (D) above.

(F) Unless the section 7 (a) applicants enumerated in paragraphs (B) and (D) above, within the period of one year from the date on which this order issues, shall have constructed and placed in operation their respective projects to the extent of being able to receive service from Panhandle or Trunkline as the case may be, unless otherwise shown for good cause, said paragraphs (B) and (D) shall have no force or effect as to such applicants who have failed, within such period of time, so to construct and place in operation their projects.

Issued: May 18, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56–4068; Filed, May 23, 1956; 8:47 a. m.]

[1] Of course, these findings do not constitute an endorsement of the foregoing projects, nor is endorsement given to any estimates, fees, or projected method or manner of operation contained in the engineering reports or shown by the testimony. Investors in the securities to be issued must exercise their own judgment upon these questions. As we stated In re Carolina Natural Gas Corp., 10 F. P. C. at page 515, "the Commission can assume no responsibility to potential buyers of securities with respect to the success or failure of a (local) distribution system."

## GENERAL SERVICES ADMINISTRATION

### Public Buildings Service

[Wildlife Order 36]

EAST POINT LIGHT STATION, HEISLERVILLE, CUMBERLAND COUNTY, NEW JERSEY

TRANSFER OF PROPERTY FROM UNITED STATES TO STATE OF NEW JERSEY

Pursuant to the provisions of section 2 of Public Law 537, Eightieth Congress, approved May 19, 1948 (16 U. S. C. 667c), notice is hereby given that:

1. By deed from the United States of America, dated April 10, 1956, that property known as East Point Light Station, Heislerville, Cumberland County, New Jersey, and more particularly described in said deed, has been transferred from the United States to the State of New Jersey.

2. The above described property is transferred to the State of New Jersey for wildlife conservation purposes (other than migratory birds) in accordance with the provisions of said Public Law 537.

F. MORAN MCCONIHE, *Commissioner of Public Buildings Service.*

MAY 17, 1956.

## HOUSING AND HOME FINANCE AGENCY

### Public Housing Administration

REGIONAL OFFICE ORGANIZATION

DESCRIPTION OF AGENCY AND PROGRAMS

Section I, Description of Agency and Programs, is amended as follows:

Paragraph F is amended to read as follows:

F. *Regional Office Organization.* The Commissioner, in administering the programs of the PHA, has established a decentralized organization, vesting primary responsibility for operating phases of the program in the Regional Offices wherever possible. Each Regional Office is headed by a Regional Director who is responsible to the Assistant Commissioner for Operations for the administration of all PHA activities in his area of jurisdiction. He is assisted by an Assistant to the Regional Director, who is responsible for activities relating to public relations and information, and by the following officials,[1] each of whom is responsible for the activities indicated in his title: Regional Attorney, Assistant Director for Development, Assistant Director for Management and Disposition, Regional Economist, Racial Relations Officer, Production Control Assistant, and Chief of Office Services. In the absence of the Regional Director, the following shall serve as Acting Regional Director in the Regional Office indicated: *Provided,* That in each Regional Office the second named shall so serve only in the absence of both the Regional Director and the first named:

Atlanta Regional Office:
1. John Jones Knudsen, Assistant Director for Development.
2. R. E. Bates, Assistant Director for Management and Disposition.

Chicago Regional Office:
1. Hugo C. Schwartz, Assistant Director for Management and Disposition.
2. Albert F. Muench, Regional Attorney.

Fort Worth Regional Office:
1. Clarence J. Stenzel, Assistant Director for Management and Disposition.
2. Karl Buster, Assistant Director for Development.

New York Regional Office:
1. Richard S. Pallesen, Assistant Director for Development.
2. John P. Prescott, Assistant Director for Management.

Puerto Rico Regional Office:
1. Alfredo T. Ramirez, Assistant Director for Development.
2. Theodore Goshen, Assistant Director for Management.

San Francisco Regional Office:
1. E. Stanton Foster, Deputy Regional Director.
2. Arthur L. Chladek, Assistant Director for Management and Disposition.

Washington Regional Office:
1. R. M. Little, Assistant Director for Management and Disposition.
2. Paul R. Boesch, Regional Attorney.

Date approved: May 16, 1956.

[SEAL] CHARLES E. SLUSSER, *Commissioner.*

[F. R. Doc. 56–4069; Filed, May 23, 1956; 8:48 a. m.]

[1] These officials will be found in a typical Regional Office. However, the organization of a Regional Office may vary according to its workload.

ASSISTANT DIRECTOR FOR DISPOSITION, CHICAGO FIELD OFFICE

DELETION FROM LIST OF OFFICIALS

Section II, Delegations of Final Authority, is amended as follows:

Effective April 30, 1956, paragraphs E12 and E13 are amended by deleting from the list of officials designated therein "Assistant Director for Disposition, Chicago Field Office" and by inserting in place thereof "Assistant Director for Management and Disposition, Chicago Regional Office."

Date approved: May 16, 1956.

[SEAL] CHARLES E. SLUSSER, *Commissioner.*

[F. R. Doc. 56–4070; Filed, May 23, 1956; 8:48 a. m.]

## OFFICE OF DEFENSE MOBILIZATION

[Expansion Goal 16, Rev. 2]

NICKEL

TOTAL ANNUAL SUPPLY

1. The expansion goal for the U. S. supply of nickel (including both domestic production and imports) is hereby re-

vised and set at a total annual supply of 440 million pounds.

Dated: May 18, 1956.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
*Director.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3471]

UTAH POWER & LIGHT CO.

ORDER AUTHORIZING BANK BORROWINGS

MAY 18, 1956.

Utah Power & Light Company ("Company"), a registered holding company which is also an operating utility company, has filed a declaration and an amendment thereto pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") regarding the following proposed transactions:

Pursuant to a Credit Agreement to be executed by the Company and seventeen lending banks, the Company proposes to borrow, during the period beginning June 1, 1956 and ending July 15, 1957, not to exceed $25,000,000, as follows:

| Name of lending bank | Amount of commitment |
|---|---|
| First Security Bank of Utah National Association | $1,750,000 |
| Bank of Utah | 75,000 |
| Cache Valley Banking Co. | 60,000 |
| Carbon Emery Bank | 60,000 |
| Commercial Security Bank | 175,000 |
| The Continental Bank & Trust Co. | 400,000 |
| First National Bank of Salt Lake City | 225,000 |
| Union Bank & Trust Co. | 60,000 |
| Utah Savings & Trust Co. | 150,000 |
| Valley State Bank | 60,000 |
| Walker Bank & Trust Co. | 750,000 |
| Zion's Savings Bank & Trust Co. | 450,000 |
| The Chase Manhattan Bank | 9,450,000 |
| Guaranty Trust Co. of New York | 2,700,000 |
| Harris Trust & Savings Bank | 935,000 |
| Mellon National Bank & Trust Co. | 7,200,000 |
| United States National Bank, of Denver | 500,000 |
| Total | 25,000,000 |

Under the terms of the Credit Agreement, the loans will be made from time to time during said period as the Company's construction program requires, and will be evidenced by notes payable on October 15, 1957, which may be paid in whole or in part at any time prior thereto. Each note will bear interest at the prime commercial rate of The Chase Manhattan Bank, New York City, prevailing on the fifth business day prior to the date of such note.

The proceeds from such loans, together with other available cash, will be used to carry forward the system's construction program, estimated to cost approximately $41,000,000 for the years 1956-57 inclusive. It is the Company's present intention to issue and sell, during the second half of 1957, such additional securities as may be required to discharge the aforesaid bank loans and to finance in part the remainder of the 1957 construction program and carry it forward into 1958, maintaining approximately the present debt-equity ratios.

The Idaho Public Utilities Commission, the regulatory commission of one of the three States in which the Company operates, has approved the proposed borrowings. It is stated that no other State commission, nor any Federal commission other than this Commission, has jurisdiction in the premises.

Due notice of the filing of said declaration having been given in the manner provided by Rule U-23, and no hearing having been requested of or ordered by the Commission; and the Commission finding that the applicable standards of the act and the rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the declaration as amended be permitted to become effective forthwith:

*It is ordered,* Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4074; Filed, May 23, 1956; 8:48 a. m.]

[File No. 70-3474]

PENNSYLVANIA POWER CO.

ORDER AUTHORIZING ISSUANCE OF BONDS FOR SINKING FUND PURPOSES

MAY 18, 1956.

Pennsylvania Power Company ("Company"), an electric utility subsidiary of Ohio Edison Company, a registered holding company, has filed an application and an amendment thereto pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") regarding the following proposed transactions:

In connection with satisfying the sinking fund requirements of its indenture, the Company will issue $397,000 principal amount of First Mortgage Bonds, 3¼ percent Series due 1982, under its Mortgage Indenture dated November 1, 1945, to The First National Bank of the City of New York (now The First National City Bank of New York) as amended and supplemented. Said bonds will be authenticated by the Trustee and delivered to the Company in two installments, on the basis of unfunded net property additions aggregating $661,667, and they will forthwith be surrendered to the Trustee for cancellation in consideration of the return by the Trustee to the Company from the mortgage sinking fund of a like amount of cash, as follows: $197,000 of the bonds will be issued and surrendered in May 1956 (to recover cash deposited in the sinking fund on December 1, 1955), and $200,000 of the bonds will be issued and surrendered within six months after December 1, 1956 (to recover cash to be deposited in the sinking fund on December 1, 1956).

It is stated that the bonds will never constitute an obligation for the payment of money and therefore they will not be reflected on the Company's books or published statements as a liability.

The Company proposes to include the released cash in its general funds, in partial reimbursement for moneys expended for new construction and property betterments during the years 1951-55 inclusive.

The proposed transactions have been expressly authorized by the Public Utility Commission of Pennsylvania, in which State the Company is organized and doing business.

Due notice of the filing of the application having been given in the manner provided by Rule U-23 promulgated under the act, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules thereunder have been satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application as amended be granted, to become effective forthwith:

*It is ordered,* Pursuant to Rule U-23 and the applicable provisions of the act, that said application as amended be, and hereby is granted, effective forthwith, subject to the provisions of Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4075; Filed, May 23, 1956; 8:48 a. m.]

[File No. 811-616]

WEBSTER INVESTMENT CO., INC.

NOTICE OF APPLICATION FOR ORDER DECLARING THAT COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

MAY 18, 1956.

Notice is hereby given that Webster Investment Company, Inc. ("Webster"), has filed an application under section 8 (f) of the Investment Company Act of 1940 for an order declaring that it has ceased to be an investment company.

The following representations are made:

Webster, a Pennsylvania corporation, filed its Notification of Registration under the act on October 29, 1952, as a closed-end, non-diversified management investment company.

On April 30, 1956, pursuant to a vote of its stockholders and prior action of its Board of Directors, Webster effected a merger with its wholly owned subsidiary, Webster Investors, Inc., a Delaware corporation. Under the terms of the Merger Agreement the outstanding shares of Webster were converted into and became a like number of shares of Webster Investors, Inc., which company has filed a Notification of Registration under the Act as a closed-end, non-diversified management investment company.

Following the merger Webster has not engaged in any business and has no assets.

Notice is further given that any interested person may, not later than June 11, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be converted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[File No. 812-1007]

ADAMS EXPRESS CO.

NOTICE OF APPLICATION FOR ORDER EXEMPTING ACQUISITION OF SECURITIES OF AN INVESTMENT COMPANY

MAY 18, 1956.

Notice is hereby given that The Adams Express Company ("Adams"), a closed-end, diversified investment company registered under the Investment Company Act of 1940, has filed an application pursuant to section 6 (c) of the act for an order exempting it from the provisions of section 12 (d) (1) of the act with respect to a proposed acquisition of certain shares of common stock of Petroleum Corporation of America ("Petroleum"), also a registered, closed-end, non-diversified investment company.

The investment policy of Petroleum is stated to be the concentration of investments in common stocks and other securities of corporations engaged in the oil industry or related industries or in interests in undeveloped or producing oil properties. Adams presently owns 16.52 percent (271,200 shares) of the common stock of Petroleum. On May 7, 1956, Petroleum informed its stockholders that it proposes to offer them transferable rights, represented by warrants, to subscribe for 328,400 additional shares of its common stock on the basis of one additional share for each five shares held. In addition, each holder of a warrant is entitled to the privilege of subscribing for additional shares of the Petroleum stock, subject to allotment, out of any shares not subscribed for pursuant to the exercise of the primary subscription rights. Such stock offering by Petroleum will not be underwritten and is expected to expire on or about June 11, 1956.

Adams desires and intends, subject to the granting of the instant application by the Commission, to exercise its rights as a stockholder to purchase shares of Petroleum together with subscription rights under any additional subscription privileges which may be available.

If all stockholders of Petroleum, including Adams, exercise their full rights pursuant to such stock offering the percentage of total outstanding stock of Petroleum owned by applicant will remain the same; 16.52 percent. If subscription rights of others are not exercised, however, the additional stock of Petroleum to be acquired by applicant, pursuant to its rights and additional subscription privileges which may be available, could result in the ownership by Adams of more than the 16.52 percent of the outstanding stock of Petroleum it presently holds.

Section 12 (d) (1) of the act, among other things, makes it unlawful for any registered investment company and any company controlled by it to purchase or otherwise acquire any security issued by any other investment company if such registered investment company and any company controlled by it own in the aggregate, or as a result of such purchase will own, more than 5 percent of the total outstanding stock of such other investment company if the policy of such other investment company is the concentration of investments in a particular industry or group of industries.

Adams has agreed that it will take immediate steps to divest itself of such of its shares of Petroleum as may be in excess of 16.52 percent of the total number of shares of capital stock of Petroleum issued and outstanding after completion of the offering of additional shares of Petroleum.

Section 6 (c) of the act provides, among other things, that the Commission, by order upon application, may conditionally or unconditionally exempt any person from any provision or provisions of the act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

Notice is further given that any interested person may, not later than May 28, 1956, submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

## INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

MAY 21, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32112: *Scrap iron and steel—Knoxville, Tenn., Group to Chattanooga, Tenn.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on scrap iron and steel, carloads from Knoxville, Tenn., and grouped points taking Knoxville rates to Chattanooga, Tenn.

Grounds for relief: Circuitous routes.

Tariff: Supplement 112 to Agent Spaninger's I. C. C. 1329.

FSA No. 32113: *Commodities from and between points in the South.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on various commodities, as described in exhibit A of the application from and to specified points in southern territory, and from specified points in southern territory to specified points in official territory.

Grounds for relief: Carrier competition and circuity.

FSA No. 32114: *Magnesite—Carlsbad and Loving, N. Mex., to Norton, Ala.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on magnesite, dead burned and or calcined, carloads from Carlsbad and Loving, N. Mex., to Norton, Ala.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 187 to Agent Kratzmeir's I. C. C. 4139.

FSA No. 32115: *Asphalt and road oil to Indiana.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on asphalt (asphaltum) and petroleum road oil, tank-car loads from specified points in Arkansas, Kansas, Louisiana, Missouri, New Mexico, Oklahoma, and Texas to specified points in Indiana, applicable only on traffic destined to Canadian points.

Grounds for relief: Origin grouping and circuitous routes. Supplement 61 to Agent Kratzmeir's I. C. C. 4150.

FSA No. 32116: *Lumber from El Paso, Tex., to Memphis, Tenn.* Filed by The Texas and Pacific Railway Company, for itself, and on behalf of the Illinois Central Railroad Company. Rates on lumber and lumber articles, carloads from El Paso, Texas to Memphis, Tenn.

Grounds for relief: Circuity.

Tariff: Supplement 10 to Texas and Pacific Ry. Co. tariff I. C. C. 4187.

FSA No. 32117: *Sugar between points in Official and Western Trunk Line Territories.* Filed by C. W. Boin and O. E. Swenson, Agents, for carriers parties to the Uniform Freight Classification No. A-3. Rates on returned shipments of sugar, beet or cane, liquid or invert, tank-car loads, or sugar, beet or cane, in bulk, carloads between points in official terri-

tory, including extended zone "C" in Wisconsin and western trunk line "Northwest" territory.

Grounds for relief: Rail competition, circuity, and to maintain grouping.

Tariffs: Supplement 399 to Agent Boin's tariff I. C. C. A–848 and ten other tariffs.

FSA No. 32118: *Potassium silicate from Cleveland, Ohio, to Baltimore, Md.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on potassium silicate, other than dry, tank-car loads from Cleveland, Ohio to Baltimore, Md.

Grounds for relief: Market competition and circuity.

Tariff: Supplement 172 to Agent Hinsch's I. C. C. 4542.

FSA No. 32119: *Petroleum coke from Illinois to Norton, Ala.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on petroleum coke, carloads from East St. Louis, Federal, Roxana, and Wood River, Ill., to Norton, Ala.

Grounds for relief—Short-line distance formula and circuity.

Tariff: Supplement 284 to Agent Spaninger's I. C. C. 1062.

FSA No. 32120: *Clay within Southern Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on clay, kaolin or pyrophyllite, carloads between points in southern territory.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 32 to Agent Spaninger's tariff I. C. C. 1491.

By the Commission.

[No. 31980]

ABILENE & SOUTHERN RAILWAY CO.

TEXAS INTRASTATE RATES ON SUGAR

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 9th day of May A. D. 1956.

It appearing that a petition has been filed on behalf of the Abilene & Southern Railway Company and other common carriers by railroad operating in the State of Texas averring that the Railroad Commission of Texas, in its Docket 8368–R, by order dated August 3, 1953, which was sustained by the Supreme Court of Texas, and became effective March 1, 1956, required petitioners to reduce its rates on sugar from Sugar Land, Texas and other Texas origins to Texas destinations;

It further appearing that said petitioners allege that the observance by them of the rates established by the said order of the Railroad Commission of Texas causes and results in undue and unreasonable advantage, preference, and prejudice as between persons and localities in intrastate commerce, on the one hand, and interstate commerce, on the other hand, and undue, unreasonable and unjust discrimination against interstate and foreign commerce;

And it further appearing that the said petition brings in issue freight rates and charges made or imposed by authority of the State of Texas:

*It is ordered,* That in response to the said petition an investigation be, and it is hereby, instituted, and that a hearing be held therein for the purpose of receiving evidence from the respondents hereinafter designated and any other persons interested to determine whether the rates and charges of the common carriers by railroad, or any of them, operating in the State of Texas, for the intrastate transportation of sugar, made or imposed by authority of the State of Texas cause any undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce, on the one hand, and interstate or foreign commerce, on the other hand, or any undue, unreasonable or unjust discrimination against interstate or foreign commerce; and to determine what rates and charges, if any, or what maximum, or minimum, or maximum and minimum rates and charges, shall be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination if any, that may be found to exist;

*It is further ordered,* That all common carriers by railroad operating within the State of Texas subject to the jurisdiction of this Commission be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of the said respondents; and that the State of Texas be notified of this proceeding by sending copies of this order and of said petition by registered mail to the Governor of the said State and to the Railroad Commission of Texas at Austin, Tex.;

*It is further ordered,* That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register, Washington, D. C.;

*And it is further ordered,* That this proceeding be assigned for hearing at such times and places as the Commission may hereafter direct.

By the Commission, Division 2.

[SEAL] HAROLD D. McCOY, *Secretary.*

## TITLE 6—AGRICULTURAL CREDIT

### Chapter III—Farmers Home Administration, Department of Agriculture

**Subchapter G—Miscellaneous Regulations**

[FHA Instruction 444.1]

PART 383—FARM HOUSING LOANS

**DIRECT FARM HOUSING LOANS UNDER SECTION 502 OF THE HOUSING ACT OF 1949, AS AMENDED**

Chapter III of this Title is amended by the addition of a new Part 383 as follows:

Sec.

383.1 General.
383.2 Objective.
383.3 Qualifications for Farm Housing loan.
383.4 Veterans' preference.
383.5 Loan purposes.
383.6 Special requirements.
383.7 Rates and terms.
383.8 Technical service.
383.9 Security.
383.10 Processing applications and county committee certification.
383.11 Preparation of loan docket.
383.12 Loan approval.
383.13 Actions subsequent to loan approval.
383.14 Subsequent Farm Housing loans.

AUTHORITY: §§ 383.1 to 383.14 issued under R. S. 161, sec. 510 (g), 63 Stat. 438; 5 U. S. C. 22, 42 U. S. C. 1480 (g). Statutory provisions interpreted or applied are cited to text in parentheses.

§ 383.1 *General.* This part prescribes the policies, authorities, and procedures for making direct Farm Housing loans under section 502 of the Housing Act of 1949, as amended.

(Sec. 501, 63 Stat. 432; 42 U. S. C. 1471)

§ 383.2 *Objective.* The basic objective of Farm Housing loans is to provide decent, safe, and sanitary farm dwellings, essential farm service buildings, and related facilities to farm owners who do not have sufficient resources to provide such housing and cannot secure credit from other sources on terms and conditions which they reasonably could be expected to fulfill.

(Sec. 501, 63 Stat. 432; 42 U. S. C. 1471)

§ 383.3 *Qualifications for Farm Housing loan*—(a) *Applicant.* In order to be eligible for Farm Housing loan, the applicant must:

(1) Be the owner of a farm.

(2) Have income from the farm and other sources sufficient to meet: farm operating and family living expenses, including necessary capital replacements, payments on any existing debts, and payments on the proposed Farm Housing loan.

(3) Be a citizen of the United States.

(4) Be without sufficient resources to provide on his own account the necessary housing, buildings, or repair and improvements thereto, and be unable to secure the necessary credit from other sources upon terms and conditions which he reasonably could be expected to fulfill.

(5) Possess the character, ability, and experience necessary to carry out successfully the farming operations, and satisfy the County Committee and loan approval official that he will endeavor honestly to carry out the undertakings and obligations required of him in connection with the Farm Housing loan.

(6) Possess legal capacity to contract for the repayment of the Farm Housing loan.

(b) *Farm.* For the purposes of this part, a farm as defined in the Housing Act of 1949, as amended, includes the total acreage of one or more tracts of land owned by the applicant and operated as an individual farm or ranch. In addition, the applicant's farm must be in agricultural production and be of such size and productive capacity that it (1) will produce agricultural commodities in sufficient quantities that the proceeds from their sale will be a substantial portion of the operator's total cash income, and (2) is recognized in the community as a farm rather than a rural residence.

(Secs. 501, 502, 508, 63 Stat. 432, 433, 436; 42 U. S. C. 1471, 1472, 1478)

§ 383.4 *Veterans' preference.* Veterans, as defined in § 301.22 of this chapter, and spouses and children of deceased servicemen, will be given preference for Farm Housing loans. When it appears that available funds will be inadequate to meet the needs of all applicants, the applications on hand from veterans, and spouses and children of deceased service-

men, will be processed first ("Deceased servicemen" means men or women who died in service during one of the periods specified in § 301.22 of this chapter.)

(Sec. 507, 63 Stat. 436, sec. 3, 67 Stat. 132; 42 U. S. C. 1477)

§ 383.5 *Loan purposes.* Farm Housing loans may be made to qualified applicants for the following purposes:

(a) *Dwellings and other farm buildings.* To construct, improve, alter, repair, replace, or relocate a dwelling(s) or other essential farm building(s) on the farm. This includes the purchase and transfer of an existing dwelling(s) or other building(s) to the borrower's farm. It also includes, in connection with such repair, alteration, new construction, or transfer, sewage disposal systems and the purchase and installation of essential equipment which upon installation becomes part of the real estate. Dwellings will be provided only when needed on the farm for the farm owner, manager, tenants, sharecroppers, or farm laborers. Any portable-type farm service buildings that do not become a part of the real estate, may nevertheless be provided, if (1) the buildings are necessary for the successful operation of the farm, and (2) the borrower's equity in the real estate is sufficient adequately to secure the loan.

(b) *Water.* To provide water supply for dwellings and other farm buildings, including such facilities as wells, pumps, and farmstead distribution systems, which are essential to the health and safety of the family or necessary to the successful operation of livestock enterprises.

(c) *Fees.* To pay fees and expenses incident to the making and closing of the loan which are required to be paid by the borrower and which he cannot pay from other funds.

(Sec. 501, 63 Stat. 432; 42 U. S. C. 1471)

§ 383.6 *Special requirements*—(a) *Loan limitations.* (1) Farm Housing loans will not be made to provide housing or other farm buildings which will be in excess of those economically essential to the operation of the farm, excessive when compared with similar accommodations in the community that are adequate and provide decent, safe, and sanitary farm housing, or significantly more expensive than similar buildings on farms in the community.

(2) Funds will not be included in a Farm Housing loan for line fencing, field fencing, or stock ponds.

(3) When a farm is owned by more than one person, such joint owners may qualify for a Farm Housing loan provided than individually and jointly they are without sufficient resources to finance the necessary improvements on their own account, and are unable to obtain the necessary credit from other sources upon terms and conditions which they reasonably could be expected to fulfill. In such a case, all the joint owners will be required to execute the Farm Housing mortgage so that their interests in the farm will be subjected to the mortgage lien. If the foregoing conditions are fulfilled, a loan may be made to one or more of the joint owners provided that each applicant, as distinguished from the owners who merely would execute the mortgage, otherwise is eligible for the loan.

(b) *Restrictions on loans.* Farm Housing loans will not be made to:

(1) A corporation or cooperative association.

(2) A homestead entryman prior to receipt of a patent on the farm.

(3) An applicant whose debts have been settled pursuant to §§ 364.1 to 364.10, 372.21 to 372.26, or 373.21 to 373.27 of this chapter, or where settlement under such sections is contemplated, unless (i) the applicant's failure to pay his loan indebtedness was the result of circumstances beyond his control, (ii) the causes which necessitated the debt settlement, other than weather hazards, disasters, or price fluctuations, have been removed, (iii) the borrower's operations will be sound and afford him a reasonable prospect of repaying the loan and meeting his other obligations, and (iv) the case is submitted to the National Office for review prior to approval.

(4) Pay debts incurred prior to the closing of a Farm Housing loan except fees for legal, engineering, and other technical services. The County Supervisor, not later than the time of planning farm improvements, will advise each applicant that construction work should not be started and debts for such work or materials should not be incurred before the loan is closed. If, nevertheless, the applicant incurs debts for materials or construction before the loan is closed, the State Director may authorize in writing the use of Farm Housing funds to pay such debts only when he finds that all the following conditions exist:

(i) The debts were incurred after the applicant filed a written application for a loan, or, in the case of a subsequent loan to complete improvements previously planned, the debts were incurred after the initial loan was closed.

(ii) The applicant is unable to pay such debts from his own resources and to obtain credit from other sources, and failure to authorize the use of Farm Housing funds to pay such debts would impair his financial position.

(iii) The debts were incurred for authorized Farm Housing loan purposes.

(iv) The construction or repair work conforms to that shown on Form FHA–643, "Farm Development Plan."

(c) *Loans to Indians who own land in trust or restricted status.* Farm Housing loans may be made to Indians who own land in trust or restricted status in accordance with regulations applicable to Farmers Home Administration real estate mortgage loans to such Indians.

(d) *Relationship of Farm Housing loans to Farm Ownership, and Soil and Water Conservation loans.* (1) If Farm Ownership funds are available, a Farm Housing loan will not be made to an applicant who can qualify for an initial Farm Ownership loan.

(2) A Farm Housing loan will not be made to a Farm Ownership borrower unless:

(i) The building credit needs of the applicant cannot be met with a subsequent Farm Ownership loan.

(ii) The building improvements to be financed are needed to develop the farm into an efficient family-type unit.

(iii) The unpaid balance of the Farm Ownership loan, plus the amount of the proposed Farm Housing loan, will not exceed the loan limit that would be applicable if a subsequent Farm Ownership loan were being made.

(3) If the applicant's total real estate credit needs can be met with a Soil and Water Conservation loan, a Farm Housing loan will not be made.

(Sec. 501, 63 Stat. 432; 42 U. S. C. 1471)

§ 383.7 *Rates and terms*—(a) *Interest rate.* Interest on Farm Housing loans will be charged at the rate of 4 percent per year on the unpaid principal.

(b) *Amortization period.* Each Farm Housing loan will be scheduled for repayment within the shortest period consistent with the ability of the borrower to pay. In no case will the repayment

period exceed 33 years from the date of the note.

(Sec. 502, 63 Stat. 433; 42 U. S. C. 1472)

§ 383.8 *Technical service*—(a) *Planning and performing farm development.* Farm development work will be planned and completed in accordance with §§ 324.1 to 324.2, 324.21 to 324.24, and 324.41 to 324.46 of this chapter.

(b) *Appraisal.* When the County Supervisor determines that a Farm Housing loan likely can be made, an appraisal will be made by the Farmers Home Administration employee authorized to appraise farms.

(c) *Title clearance and legal services in connection with Farm Housing loans.* Title clearance and legal services required for making and closing a Farm Housing loan will be obtained in the same manner as authorized for individual Soil and Water Conservation loans.

(Secs. 506, 509, 63 Stat. 435, 436; 42 U. S. C. 1476, 1479)

§ 383.9 *Security.* Each Farm Housing loan will be secured adequately by a real estate lien(s) to protect the interest of the Government during the period of the loan. Each Farm Housing loan will be secured by a mortgage on the farm being improved.

(a) *Additional security.* When the value of the farm after completion of the planned improvement, minus the amount of any existing liens, will be less than the amount of the proposed Farm Housing loan, such a loan will be made only when additional real estate security can be taken which, in the opinion of the loan approval official, has sufficient security value to compensate adequately for the lack of security represented by the farm to be improved with the Farm Housing loan.

(b) *Purchase contracts.* A mortgage on a farm owned by an applicant under a purchase contract may be taken as security for a Farm Housing loan, provided the purchase contract gives the applicant a mortgageable interest in the property, is not subject to summary cancellation upon default, and does not contain provisions which might jeopardize the Government's security position or the borrower's ability to repay the loan.

(c) *Loans subject to existing liens.* A junior mortgage may be taken as security for a Farm Housing loan, provided:

(1) The prior lien(s) does not contain undesirable future advance provisions, repayment schedules that the borrower cannot meet in addition to repaying his Farm Housing loan, or any provisions which might jeopardize the security position of the Government or the borrower's ability to repay the Farm Housing loan; or

(2) The holder(s) of the prior mortgage(s) agrees to modify, waive, or subordinate any undesirable features of the mortgage(s).

(Sec. 502, 63 Stat. 433; 42 U. S. C. 1472)

§ 383.10 *Processing applications and county committee certification*—(a) *Applications.* Applications for Farm Housing loans will be taken on Form FHA–197, "Application for FHA Services," and processed in accordance with §§301.1 to 301.3 of this chapter.

(b) *County committee certification.* No Farm Housing loan will be made unless the County Committee certifies (1) that the applicant is eligible for the loan and has the character, ability, and experience to carry out the undertakings required in connection with the loan, (2) that the farm is of such a character that the purpose of the loan will be carried out, and (3) as to the normal market value of the farm after the contemplated improvements are made. Form FHA–197A, "Operating Budget and Financial Statement," or farm and home plans, and Forms FHA–440 and FHA–643 will be presented to the County Committee for their consideration before they execute Form FHA–121, "County Committee Certification."

(Secs. 501, 508, 63 Stat. 432, 436; 42 U. S. C. 1471, 1478)

§ 383.11 *Preparation of loan docket*—(a) *Use of operating budget and financial statement, or farm and home plans.* Form FHA–197A will be prepared for each applicant who presently is not receiving supervisory assistance. If the application is being considered early in the crop year, Form FHA–197A will be based on the current year; however, if the crop year is well advanced or completed, Form FHA–197A will be for the ensuing year. If a Form FHA–197A recently was prepared in connection with another type of loan, this form will be revised to show changes in the financial statement and significant changes in the plan of operation. For an active supervised borrower, Form FHA–14A, "Long-Time Farm and Home Plan," and Form FHA–14, "Farm and Home Plan," will be used in lieu of Form FHA–197A. These forms will be revised to show changes in the financial statement and significant changes in the plan of operations.

(b) *Form FHA–446, "Agreement with Prior Lienholder."* Form FHA–446 will be used in connection with any Farm Housing loans made subject to an existing real estate lien when, because of the repayment terms of the prior lien, objectionable provisions in the prior lien such as future advance clauses, or other reasons, it would be hazardous for the Government to make a Farm Housing loan without the agreement.

(c) *Foreclosure notice agreements.* In States where a mortgage foreclosure without actual advance notice to junior lienholders will extinguish the junior liens, a junior lien on real estate will be taken as security for a Farm Housing loan only if the prior lienholder executes an agreement to give the Government actual advance notice of foreclosure or assignment of the mortgage. The State Director will prescribe an appropriate form of notice agreement and will issue a State Instruction regarding its use and prescribing the minimum acceptable period of notice. If recording is required, the cost will be paid by the borrower.

(d) *Form FHA–441B, "Farm Housing Supplementary Payment Agreement."* When repayment of the Farm Housing loan is dependent primarily upon wages or other off-farm income, or farm income received at frequent intervals throughout the year, consideration should be given to the use of Form FHA–441B, to be executed at the time of loan closing by the applicant and his wife as their names appear on the note.

(Secs. 501, 502, 63 Stat. 432, 433; 42 U. S. C. 1471, 1472)

§ 383.12 *Loan approval*—(a) *Authority.* The State Director is authorized to approve or disapprove Farm Housing loans in accordance with this part. He may redelegate this authority in writing to one or more of the following State Office employees: Chief, Farm Loan Operations; Chief, Program Operations; Program Loan Officer; Farm Loan Officer.

(b) *Loan approval action.* The loan approval official's action will be the same as those for a Soil and Water Conservation loan as prescribed in § 352.2 of this chapter.

(R. S. 161, sec. 510 (g), 63 Stat. 438; 5 U. S. C. 22, 42 U. S. C. 1480 (g))

§ 383.13 *Actions subsequent to loan approval*—(a) *Actions prior to loan closing.* The actions subsequent to approval and prior to closing a Farm Housing loan will be the same as for a direct Soil and Water Conservation loan as prescribed in § 352.3 of this chapter.

(b) *Supervised bank account.* The supervised bank account will be used for Farm Housing borrowers in the same manner as prescribed for Farm Ownership borrowers in §§ 303.1 to 303.6 of this chapter.

(c) *Loan closing.* The Farm Housing loan will be closed in accordance with the instructions outlined in § 352.4 (b), (d), and (e) of this chapter for a direct Soil and Water Conservation loan secured only by real estate except that:

(1) Form FHA–441, "Farm Housing Promissory Note," or Form FHA–441A, "Bond," will be used and prepared in the following manner:

(i) The date inserted in the note will be the date the loan is closed.

(ii) The amount of the first installment, which may be less but not more than a regular installment, will be determined by the County Supervisor after considering the debt-paying ability of the borrower.

(iii) The date of the first installment will be the first December 31 following the date of loan closing.

(iv) The number of "the next succeeding" installments will be one less than the number of years over which the loan is to be repaid.

(v) The amount of each succeeding installment will be computed by multiplying the total amount of the loan by the amortization factor for the number of years over which the loan is to be repaid.

(vi) The number of years over which the loan is to be repaid will be that prescribed by the loan approval official.

(vii) The note will be signed on the date of loan closing by the applicant and his wife, whether or not title to the farm is held in the name of only one of them, as their names appear in the title to the farm.

(2) Form FHA–447..., real estate mortgage for Farm Housing loans, will be used. If it does not contain a covenant reading, "That neither said property nor any interest therein will be assigned, sold, or transferred, voluntarily or otherwise, without the consent of the Government," such a covenant will be added before execution by the borrower.

(d) *After loan closing.* A conformed copy of the recorded mortgage will be delivered to the borrower by the County Supervisor.

(Secs. 501, 502, 63 Stat. 432, 433; 42 U. S. C. 1471, 1472)

§ 383.14 *Subsequent Farm Housing loans.* Subsequent Farm Housing loans may be made for the same purposes and under the same conditions as initial loans. The subsequent loan will be processed in the same manner as initial loans except that title evidence will cover only the period since the previous Farm Housing mortgage was filed for record. The mortgage securing the subsequent Farm Housing loan will contain (by typed insertion, if necessary) a provision to the effect that both the initial loan and the subsequent loan will be secured by both the initial mortgage and the subsequent mortgage and that default under either mortgage will be default under both.

(Secs. 501, 502, 63 Stat. 432, 433; 42 U. S. C. 1471, 1472)

Dated: May 21, 1956.

[SEAL] H. C. SMITH,
*Acting Administrator,*
*Farmers Home Administration.*

## Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

### Subchapter B—Loans, Purchases, and Other Operations

[1956 C. C. C. Cottonseed Bulletin 1]

### PART 443—OILSEEDS

### SUBPART—1956 COTTONSEED LOAN PROGRAM

This bulletin states the requirements with respect to loans under the 1956 Cottonseed Price Support Program formulated by Commodity Credit Corporation (hereinafter referred to as CCC) and the Commodity Stabilization Service (hereinafter referred to as CSS). A separate bulletin or bulletins will cover purchases of cottonseed under the 1956 Cottonseed Price Support Program. The program will be carried out by CSS under the general supervision and direction of the Executive Vice President, CCC.

Sec.
443.1201 Administration.
443.1202 Availability of loans.
443.1203 Approved lending agencies.
443.1204 Eligible producer.
443.1205 Eligible cottonseed.
443.1206 Approved storage.
443.1207 Approved forms.
443.1208 Determination of quantity.
443.1209 Liens.
443.1210 Service charges.
443.1211 Set-offs.
443.1212 Interest rate.
443.1213 Transfer of producer's equity.
443.1214 Safeguarding of the cottonseed.
443.1215 Insurance.
443.1216 Loss or damage to the cottonseed.
443.1217 Personal liability.
443.1218 Maturity and liquidation of loans.
443.1219 Release of the cottonseed under loan.
443.1220 Purchase of notes.
443.1221 Loan and settlement rates.
443.1222 Cooperative marketing associations.

AUTHORITY: §§ 443.1201 to 443.1222 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053, 1054; 15 U. S. C. 714c, 7 U. S. C. 1447, 1421.

§ 443.1201 *Administration.* In the field, the program will be administered through Agricultural Stabilization and Conservation (hereinafter referred to as "ASC") State and county committees (hereinafter referred to as "State" and "county committees") and the CSS Commodity Office located at Wirth Building, 120 Marais Street, New Orleans 16, Louisiana (hereinafter referred to as "the New Orleans office"). Forms will be distributed through the offices of State and county committees. County committees will determine or cause to be determined the quantity and grade of cottonseed, the amount of the loan, and the value of the cottonseed delivered under the loan. Loan documents will be completed in the county ASC office and copies of such documents will be retained there. All documents will be approved by the county office manager, or other employee of the county office designated by him to act in his behalf. Such designations shall be on file in the county office. County office managers, State and county committees and the New Orleans office do not have authority to modify or waive any of the provisions of this subpart or any amendments thereto.

§ 443.1202 *Availability of loans*—(a) *Area.* Farm-storage loans (hereinafter referred to as loans) shall be available on eligible cottonseed stored in approved storage in all cotton producing areas, except that loans will not be made in any area where the appropriate State committee determines that the damage hazard to farm-storage cottonseed would not warrant the making of loans.

(b) *Time.* Loans shall be available through January 31, 1957. Notes and chattel mortgages must be signed by the producer and delivered to the county office on or before such date.

(c) *Source.* Loans will be made available through the offices of county committees. Disbursements on loans will be made to producers through approved lending agencies under agreements with CCC or by ASC county offices by means of sight drafts drawn on CCC in accordance with instructions issued by CSS to the State and county committees. Disbursements on loans will be made not later than February 15, 1957, except where specifically approved by the New Orleans office in each instance. The producer shall not present the loan documents for disbursement unless the cottonseed are in existence and in good condition. If the cottonseed are not in existence and in good condition at the time of disbursement, the proceeds shall be promptly refunded by the producer.

§ 443.1203 *Approved lending agencies.* An approved lending agency shall be a bank, cooperative marketing association, corporation, partnership, individual, or other legal entity with which CCC has entered into a lending agency agreement (Form CCC–322).

§ 443.1204 *Eligible producer.* (a) An eligible producer shall be any individual, partnership, corporation, association, trust, estate, or other legal entity, or a State or political subdivision thereof or an agency of such State or political subdivision, producing cottonseed in 1956 in the capacity of landowner, landlord, tenant, or sharecropper.

(b) Eligible producers who are members of cooperative marketing associations may act collectively through their associations in obtaining loans in accordance with the provisions of § 443.1222.

§ 443.1205 *Eligible cottonseed.* Eligible cottonseed shall be cottonseed that meet the following requirements:

(a) The cottonseed must have been produced in the United States in 1956 by an eligible producer.

(b) Such cottonseed must have been produced by the person tendering them for a loan, or by the person who delivered the cottonseed to the cooperative association tendering the cottonseed for a loan, and the beneficial interest in the cottonseed must be in such person and must always have been in him or in him and a former producer whom he succeeded before the cottonseed were harvested. Cottonseed tendered by a cooperative association for a loan must have been produced and delivered to the association by its producer-members. Any person tendering cottonseed for a loan must have the legal right to mortgage the cottonseed as security for the loan.

(c) Cottonseed must be sound and clean and must not contain more than 11 percent moisture.

(d) No warehouse receipts shall be outstanding on the cottonseed.

§ 443.1206 *Approved storage.* Approved storage shall consist of storage structures located on or off the farm which, as determined by the county office manager, are of such construction as to afford safe storage of cottonseed and afford protection against weather damage, poultry, livestock and rodents, and reasonable protection against fire and theft.

§ 443.1207 *Approved forms.* (a) The documents named in this section, together with the provisions of this subpart and any supplements or amendments thereto, govern the rights and responsibilities of the producers under this program. Loan documents executed by an administrator, executor or trustee will be acceptable only where valid in law and must be accompanied by documentary evidence of the authority of the person executing such documents. Documents must have State and documentary revenue stamps affixed when required by law.

(b) The following documents must be delivered by the producer in support of every loan: Producer's Note and Supple-

mental Loan Agreement (Commodity Loan Form A) and Commodity Chattel Mortgage (Commodity Loan Form AA) covering the cottonseed tendered as security for the loan both executed and delivered within the period prescribed in § 443.1202, and such other forms as may be prescribed by CCC.

§ 443.1208 *Determination of quantity.* The quantity of cottonseed at the time a loan is made shall be determined by actual weight or by an estimate based upon measurements. When the weight of cottonseed to be placed under loan is estimated by measurement, 90 cubic feet of cottonseed shall be considered the equivalent of one ton. The quantity delivered in liquidation of the loan shall be the net weight, which shall be the gross weight of the cottonseed less a deduction for any foreign matter in excess of 1 percent of the gross weight.

§ 443.1209 *Liens.* The cottonseed must be free and clear of all liens and encumbrances including any claim the ginner may have against the cottonseed for his regular ginning charge. If liens, ginner's claims or encumbrances exist on the cottonseed, proper waivers must be obtained.

§ 443.1210 *Service charges.* The producer shall pay a service charge of 35 cents per ton on the number of tons placed under a loan, or $3.00, whichever is greater. State committees are authorized to require prepayment of $3.00 of the service charges. No refund of any service charge will be made.

§ 443.1211 *Set-offs.* (a) If the producer is indebted to CCC on any accrued obligation, or if any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are past due or are payable or prepayable, under the provisions of the note evidencing such loan, out of the proceeds of the price support loan, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the loan to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of service charges and amounts due prior lienholders.

(b) If the producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of amounts under paragraph (a) of this section.

(c) Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 443.1212 *Interest rate.* Loans will bear interest at the rate of 3½ percent per annum from the date of disbursement to the date of repayment except that in the case of default in satisfaction of loans, the deficiency will bear interest at the rate of 6 percent per annum from the date of default to the date of repayment.

§ 443.1213 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the cottonseed under loan or his remaining interest may be restricted by CCC.

§ 443.1214 *Safeguarding of the cottonseed.* The producer who places cottonseed under a loan is obligated to maintain the storage structure in good repair, and to keep the cottonseed in good condition.

§ 443.1215 *Insurance.* CCC will not require the producer to insure the cottonseed placed under a loan; however, if the producer does insure such cottonseed and an indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest after first satisfying the producer's equity in the cottonseed involved in the loss.

§ 443.1216 *Loss or damage to the cottonseed.* The producers shall be responsible for the quality and for any loss in quantity of the cottonseed placed under loan, except that, subject to the provisions of § 443.1215, any physical loss or damage other than shrinkage or natural deterioration, occurring after disbursement of the loan funds to the producer, without fault, negligence, or conversion on the part of the producer or any other person having control of the storage structure, and resulting solely from an external cause other than insect infestation or vermin will be assumed by CCC to the extent of the loan plus interest, provided the producer or other person having control of the storage structure has given the county office immediate written notice of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan. No physical loss or damage occurring prior to disbursement of the loan funds to the producer will be assumed by CCC. Where disbursement is made by check of draft the date of the check or draft shall constitute the date of disbursement of the funds.

§ 443.1217 *Personal liability.* The making of any fraudulent representations by the producer in the loan documents or in obtaining the loan, or the conversion or unlawful disposition by him of any portion of the cottonseed under loan, shall render the producer subject to criminal prosecution under Federal law and render him personally liable for the amount of the loan and for any resulting expense incurred by any holder of the note.

§ 443.1218 *Maturity and liquidation of loans.* (a) Settlement of loans, and delivery of the cottonseed covered by chattel mortgage shall be made in accordance with this section. All loans mature on demand but not later than March 1, 1957. If the producer does not repay his loan on or before maturity, the producer shall deliver the mortgaged cottonseed in accordance with instructions issued on behalf of the county committee. The producer may, however, pay off his loan and redeem his cottonseed at any time prior to the delivery of the cottonseed to CCC or removal of the cottonseed by CCC. In the event the farm is sold or there is a change of tenancy, the cottonseed may be delivered by the producer before the maturity date of the loan, after obtaining delivery instructions issued on behalf of the county committee, or may be delivered before the maturity date of the loan for other reasons upon prior approval of the Executive Vice President, CCC. After a complete grade determination by a cottonseed chemist licensed by the U. S. Department of Agriculture, credit will be given at the applicable settlement rate, according to grade and/or quality (see § 443.1221), for the total quantity delivered, provided it is the identical cottonseed on which the loan was made.

(b) If the producer is directed to deliver his cottonseed to a point other than the normal delivery point the producer shall be allowed compensation (as determined by CCC) for the additional cost of hauling the cottonseed any distance greater than the distance from the point where the cottonseed are stored by the producer to the normal delivery point.

(c) If the settlement value of the cottonseed delivered under a loan exceeds the amount due on the loan by more than $3.00, such amount will be paid to the producer on the basis of the settlement documents. To avoid administrative costs of making small payments, if the amount found due the producer in such settlement is $3.00 or less, such amount will be paid only upon his request. Payments will be made by sight drafts drawn on CCC by the county office.

(d) If the settlement value of the cottonseed is less than the amount due on the loan (excluding interest), the amount of the deficiency, plus interest, shall be paid to CCC by the producer and may be set off against any payment which would otherwise be due to the producer under any agricultural programs administered by the Secretary of Agriculture or any other payments which are due or may become due to the producer from CCC or any other agency of the United States: *Provided*, That, to avoid administrative costs of handling small accounts, a deficiency of $3.00 or less, including interest, may be disregarded unless demand therefor is made by CCC upon the producer.

(e) If the loan is not liquidated upon maturity by payment or delivery, the holder of the note may remove the cottonseed and sell them in accordance with the provisions of the chattel mortgage (Commodity Loan Form AA).

§ 443.1219 *Release of the cottonseed under loan.* A producer may at any time obtain the release of cottonseed remaining under loan by paying to the holder of the note the principal amount thereof, plus accrued interest and any charges that may be due. Upon payment of a loan, the county office should be requested to release the mortgage by filing an instrument of release or by executing a marginal release on the county records. Partial release of the cottonseed prior to maturity of the loan may be arranged with the county committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of the cottonseed to be released: *Provided, however,* No partial release of cottonseed shall include less than the total quantity of cottonseed stored in any single commingled mass unless the appropriate county committee determines that release of a portion of such commingled mass may be made.

§ 443.1220 *Purchase of notes.* CCC will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages. The purchase price to be paid by CCC will be the principal sum remaining due on such notes, plus an amount computed according to the lending agency agreement to cover interest. Lending agencies are required to submit Commodity Credit Corporation Form 500 or such other form as CCC may prescribe for all payments received on producers' notes held by them and are required to remit interest to CCC computed according to the lending agency agreement.

§ 443.1221 *Loan and settlement rates*—(a) *Loan rates.* Loans on cottonseed shall be made at the rate of $48.00 per ton of eligible cottonseed as defined in § 443.1205.

(b) *Basic settlement rate.* The basic settlement rate for "basis grade" (100) cottonseed shall be $48.00 per net ton f. o. b. railroad cars or trucks at delivery points designated by CCC. The settlement rate for cottonseed grading above or below "basis grade" (100) shall be $48.00 per ton plus or minus a percentage of such price equal to the percentage by which the grade of such cottonseed is above or below 100. In the case of "off quality" or "below grade" cottonseed, as defined in the United States Official Standards for Grades of Cottonseed, CCC will sell such cottonseed pursuant to the provisions of the chattel mortgage at the current market price and the settlement rate shall be the market price per ton determined on the basis of such sale.

§ 443.1222 *Cooperative marketing associations.* (a) Cooperative marketing associations shall be eligible for loans: *Provided*, That (1) the cottonseed placed under loan are delivered to the association by eligible producers who are members of the association; (2) the association has been granted by such producer-members the legal right to mortgage the cottonseed as security for a loan; (3) the association keeps any cottonseed covered by a chattel mortgage segregated from all cottonseed not covered by the mortgage; and (4) the association undertakes to pay CCC any amounts due it under the provisions of this program at the time of settlement.

(b) Cooperative associations desiring loans may obtain documents from the county office for the county in which the association is located. The loan and settlement rates to cooperative associations will be the same as those to individual producers, and loans with respect to such associations will otherwise be on substantially the same basis as loans with respect to individual producers.

Issued this 18th day of May 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President, Commodity Credit Corporation.*

## PART 443—OILSEEDS

### SUBPART—1956 COTTONSEED PURCHASE PROGRAM

Sec.
443.1238 General statement.
443.1239 Administration.
443.1240 Availability of purchases.
443.1241 Eligible producer.
443.1242 Eligible cottonseed.
443.1243 Purchase price.
443.1244 Approved forms.
443.1245 Determination of quantity.
443.1246 Liens.
443.1247 Set-offs.
443.1248 Grade reporting areas.

AUTHORITY: §§ 443.1238 to 443.1248 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053, 1054, 15 U. S. C. 714c, 7 U. S. C. 1447, 1421.

§ 443.1238 *General statement.* The purchase program provided for in this subpart is a part of the 1956 Cottonseed Price Support Program formulated by Commodity Credit Corporation (hereinafter referred to as "CCC") and the Commodity Stabilization Service (hereinafter referred to as "CSS"). This subpart states the terms and conditions (a) under which cotton ginners, who purchase 1956-crop cottonseed produced in the United States from producers, may sell such cottonseed to CCC in accordance with this subpart (such ginners will hereinafter be referred to as "participating ginners"), in cases where the refusal by oil millers to pay participating ginners at least the f. o. b. gin price to ginners for their cottonseed, which CCC agrees to pay as provided in § 443.1243 (b), makes purchases by CCC from participating ginners necessary, and (b) under which CCC will purchase 1956-crop cottonseed directly from producers in cases where nonparticipation by ginners under this subpart makes such purchases necessary. The program will be carried out by CSS under the general supervision and direction of the Executive Vice President, CCC. The requirements with respect to loans to producers are contained in the 1956 C. C. C. Cottonseed Bulletin 1.

§ 443.1239 *Administration.* (a) Operations under the program with respect to the purchase, transportation, handling, and storage of cottonseed prior to delivery of the cottonseed to an oil miller or to a storage facility approved by the New Orleans CSS Commodity Office (such storage facility will hereinafter be referred to as "approved storage facility") will be administered through Agricultural Stabilization and Conservation (hereinafter referred to as "ASC") State and county committees (hereinafter referred to as "State" and "county Committees"). All contracts in connection with such operations may be executed on behalf of CCC only by authorized CCC contracting officers.

(b) Contracts for the storage and handling of cottonseed subsequent to delivery of the cottonseed to an oil miller or an approved storage facility, for the sale, crushing and processing of cottonseed, and for the transportation, storage, handling and sale of the products derived therefrom, will be executed by CCC contracting officers in the New Orleans CSS Commodity Office, Wirth Building, 120 Marais Street, New Orleans 16, Louisiana (hereinafter referred to as "the New Orleans office").

(c) County office managers, State and county committees, and the New Orleans office do not have authority to modify or waive any of the provisions of this subpart or any amendments thereto.

§ 443.1240 *Availability of purchases*—(a) *Area.* The purchase program will be available in all cotton-producing areas of the United States.

(b) *Time.* Purchases will be made from the date of the issuance of this subpart through February 28, 1957.

(c) *Source.* (1) Purchases of cottonseed eligible for purchase by CCC will be made by participating ginners from producers. Purchases will also be made directly from producers by CCC through county committees in areas where ginners do not participate in the program and the appropriate State committee determines that such direct purchases are necessary in order to make the program effective. Payments to producers for cottonseed purchased by CCC and for any authorized transportation performed by the producers in accordance with § 443.1243, will be made by ASC county offices by means of sight drafts drawn on CCC.

(2) Purchases of eligible cottonseed will be made by oil millers from participating ginners and others. Purchases will also be made from participating ginners by CCC through ASC county offices in areas where oil millers refuse to pay such ginners at least the f. o. b. price to ginners for their cottonseed which CCC agrees to pay as provided in § 443.1243 (b), and the appropriate State committee determines that such purchases are necessary to make the program effective. Payments to participating ginners for cottonseed purchased by CCC will be made by ASC county offices by means of sight drafts drawn on CCC.

(3) Lists of participating ginners will be maintained in the State and county offices.

§ 443.1241 *Eligible producer.* (a) An eligible producer shall be any individual, partnership, corporation, association, trust, estate, or other legal entity, or a State or political subdivision thereof or an agency of such State or political subdivision, producing cottonseed in 1956 in the capacity of landowner, landlord, tenant, or sharecropper.

(b) A cooperative association that handles cottonseed for its producer-

members will be considered an eligible producer when selling eligible cottonseed delivered to the association and produced by eligible producers who are members of the association.

§ 443.1242 *Eligible cottonseed.* Eligible cottonseed shall be cottonseed which meet the following requirements:

(a) Such cottonseed must have been produced in the United States in 1956 by an eligible producer.

(b) Such cottonseed must have been produced by the person tendering them for purchase, or by the person who delivered the cottonseed to the cooperative association or ginner tendering the cottonseed for purchase, and the beneficial interest in the cottonseed must be in such person at the time he makes such tender or delivery and must always have been in him or in him and a former producer whom he succeeded before the cottonseed were harvested. Cottonseed tendered by a cooperative association for purchase must have been produced and delivered to the association by its producer-members. Any person tendering cottonseed for purchase must have the legal right to sell the cottonseed.

§ 443.1243 *Purchase price*—(a) *Price to producers.* (1) Any direct purchases by CCC from producers will be made at gin or other designated point of delivery at the rate of $44.00 per gross ton for basis grade (100) cottonseed, with premiums and discounts for other grades equal to the same percentage of such price as the percentage by which the grade of cottonseed purchased exceeds or is less than basis grade (100). The price per ton thus computed may be rounded to the nearest multiple of 10 cents. The grade of eligible cottonseed purchased by CCC directly from producers shall be considered to be the average grade of cottonseed for the area in which the purchase is made (see § 443.1248) as determined on the basis of the latest cottonseed grade report for the area published by CSS or as determined by such other method as the Executive Vice President, CCC, may approve. In areas where both upland and American-Egyptian cotton are grown, the CSS grade report for any such area shall specify the average grade for each such type of cottonseed, and the price to be paid producers in the area shall be determined on the basis of the average grade for the area for the type of cottonseed purchased. The average grade for Sea Island and Sealand cottonseed shall be considered to be that reported for cottonseed in the area in which such cottonseed are produced. Notwithstanding the requirements in this subparagraph, if, at any time while direct purchases are being made by CCC, the State ASC Administrative Officer determines that the average grade for an area, as determined on the basis of the latest cottonseed grade report for the area published by CSS, is higher than the grade of cottonseed being produced in any county in such area, where direct purchases are being made, the State ASC Administrative Officer may reduce the price paid to producers in such county below the price established on the basis of the average grade for the area: *Provided*, That no producer shall be paid, during the period such reduced prices are effective, less than $44.00 per gross ton basis grade (100) cottonseed with price adjustments computed upon the difference between the average grade of cottonseed produced in the county during such period and basis grade (100). The average grade of cottonseed produced in the county during such period shall be determined on the basis of official chemical analysis covering cottonseed produced in such county or on such other reasonable basis as may be determined by the approriate State ASC Administrative Officer.

(2) The grade of any cottonseed purchased before the first grade determination for an area is made shall be considered to be 90.

(3) If the producer, upon authorization by the County Office Manager, transports the cottonseed from (i) the point of delivery to CCC to (ii) an oil miller or approved storage facility or designated concentration point, the producer will be paid for such transportation at a rate not in excess of the commercial rate for such transportation service.

(b) *Price to ginners.* (1) (i) Any purchases by CCC from participating ginners will be at the rate of $48.00 per net ton for basis grade (100) cottonseed, f. o. b. conveyance or carrier at the gin, with premiums and discounts for other grades equal to the same percentage of such price as the percentage by which the grade of cottonseed purchased exceeds or is less than basis grade (100). Cottonseed which are "below grade" or "off quality", as defined in the U. S. Official Standards for Grades of Cottonseed, will be purchased from participating ginners by CCC at the market value of such cottonseed as determined by CCC. The grades of cottonseed purchased by CCC from such ginners shall be determined in accordance with the United States Official Standards for Grades of Cottonseed, by chemical analysis of samples drawn from the cottonseed by federally licensed cottonseed samplers or such other persons as are approved by CCC, and forwarded to and analyzed by federally licensed cottonseed chemists. A ginner tendering cottonseed for purchase by CCC must not have paid any producer for cottonseed purchased by the ginner on or after the date of filing notice of his intention to participate in the program, less than $44.00 per gross ton basis grade (100), plus or minus a percentage of such price equal to the percentage by which the average grade of cottonseed for the area in which the gin is located (see § 443.1248) exceeded or was less than basis grade (100). Such average grade shall be determined on the basis of the latest CSS grade report for the area at the time of purchase from such producer or by such other method as the Executive Vice President, CCC, may approve. In areas where both upland and American-Egyptian cotton are grown, the CSS grade report for any such area shall report the average grade for each such type of cottonseed and the price to be paid producers in the area shall be determined on the basis of the average grade for the area for the type of cottonseed purchased. The average grade for Sea Island and Sealand cottonseed shall be considered to be that reported for cottonseed in the area in which such cottonseed are produced. If it is determined by the county office manager and the State ASC Administrative Officer that any participating ginner paid any producer less than the prices he should have paid under the foregoing provisions of this section, such ginner shall not, without prejudice to any other rights which CCC may have, be eligible to make any further sales to CCC under the 1956 Cottonseed Price Support Program.

(ii) Notwithstanding the preceding requirements as to price, a participating ginner, after first notifying the County Office Manager for the county where the gin is located of his intention to do so, may reduce the price paid to producers below the price established on the basis of the average grade for the area: *Provided*, That the ginner shall not pay any producer, during the period he is paying such reduced price, less than $44.00 per gross ton basis grade (100) with price adjustments computed upon the difference between the average grade of cottonseed produced at the gin during such period and basis grade (100). The average grade of cottonseed produced at the gin during such period shall be determined on the basis of official chemical analysis or oil mill grade reports covering such cottonseed or on such other reasonable basis as may be approved by the county office manager. The ginner shall furnish the county office with certified copies of such chemical analyses, grade reports, or other evidence satisfactory to the county office manager, showing the average grade of cottonseed produced at the gin during such period. If it is determined by the State ASC Administrative Officer and county office manager that any participating ginner paid producers less than the prices he should have paid in accordance with the preceding three sentences, such ginner shall, without prejudice to any other rights which CCC may have, be ineligible to make any further sales to CCC under the 1956 Cottonseed Price Support Program unless he first pays all of such producers the difference between the price paid to producers and the price they should have received.

(iii) A ginner may round per ton prices for cottonseed purchased from producers to the nearest multiple of 10 cents.

(2) The grade of cottonseed purchased from a producer before the first grade determination for an area is made shall be considered to be 90.

(3) If the ginner, upon authorization by the county office manager, transports cottonseed from the gin to oil miller, or approved storage facility, or designated concentration point, the ginner will be paid for such transportation at a rate not in excess of the commercial rate for such transportation service.

§ 443.1244 *Approved forms.* The approved forms, together with the provisions of this subpart and any supplements and amendments thereto, shall govern the rights and responsibilities of producers and participating ginners. Approved forms may be obtained from ASC county offices. Any fraudulent representation made by a producer or ginner in executing an approved form may render him subject to criminal prosecution under Federal law and liable for any damages resulting from the purchase of the cottonseed involved. Documents executed by an administrator, executor or trustee will be acceptable only where valid in law and must be accompanied by documentary evidence of the authority of the person executing such documents. The approved forms consist of the following:

(a) *Producers.* Producer's Voucher (CCC Cottonseed Purchase Form 5) shall be executed by the producer when the cottonseed are purchased from the producer by CCC.

(b) *Cotton ginners.* (1) Each cotton ginner desiring to sell cottonseed to CCC pursuant to this subpart shall, prior to tender of any cottonseed for sale, file with the county office for the county in which each gin is located a Ginner's Notice of Intention to Participate (CCC Cottonseed Purchase Form 1). The filing of such notice does not obligate the ginner to sell any cottonseed to CCC, but all applicable provisions of this subpart must be complied with by the ginner if any cottonseed are offered by the ginner for sale to CCC under the 1956 Cottonseed Price Support Program.

(2) After the Ginner's Notice of Intention to Participate has been filed, a Ginner's Certificate (CCC Cottonseed Purchase Form 2) shall be completed and executed by the participating ginner to cover all cottonseed purchased by him from producers and the form shall be submitted by the ginner to the appropriate county office at such times and covering such periods of time as the State ASC Administrative Officer determines are necessary to make the program effective.

(3) If cottonseed are sold to CCC, the ginner shall prepare and execute a Ginner's Voucher and Certificate (CCC Cottonseed Purchase Form 4) covering the cottonseed and deliver the form to the county office. Each Ginner's Voucher and Certificate submitted by a ginner to the county office shall be supported by weight certificates or warehouse receipts covering the cottonseed purchased which have been issued by an oil miller or an approved storage facility or a representative of the county committee at a designated concentration point, and, in the absence of warehouse receipts guaranteeing grade, by official chemical analyses certificates covering the cottonseed and identifying such cottonseed by lot numbers and/or receipt numbers and weights.

§ 443.1245 *Determination of quantity.* The quantity of cottonseed purchased from the producer by CCC shall be the gross weight actually delivered to CCC as determined by a representative of the county committee, or by an approved storage facility, or by an oil miller. The quantity of cottonseed purchased from a producer by a participating ginner shall be the gross weight of the cottonseed as customarily determined by the ginner in his purchases of cottonseed from producers. The quantity of cottonseed purchased from a ginner by CCC shall be the net weight of the cottonseed at first destination after deduction of the weight of any foreign matter in excess of 1 percent.

§ 443.1246 *Liens.* If liens or encumbrances exist on the cottonseed, proper waivers must be obtained.

§ 443.1247 *Set-offs.* (a) If the cottonseed are purchased from a producer by CCC under this subpart and the producer is indebted to CCC on any accrued obligation, or if any installment or installments of any loan made available by CCC on farm-storage facilities or mobile drying equipment are past due, or are payable or prepayable, under the provisions of the note evidencing such loan, out of the proceeds of the purchase, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the purchase to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of service charges and amounts due prior lienholders.

(b) If the producer is indebted to any other agency of the United States, and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of amounts under paragraph (a) of this section.

(c) Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 443.1248 *Grade reporting areas.* Areas for grade reporting purposes will be established by the Director, Cotton Division, CSS, and a list of area delineations may be obtained from the applicable ASC State office or the Director of the Cotton Division, CSS, USDA, Washington 25, D. C.

Issued this 18th day of May 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President, Commodity Credit Corporation.*

## TITLE 7—AGRICULTURE

### Chapter III—Agricultural Research Service, Department of Agriculture

[P. Q. 608, Revised]

### PART 319—FOREIGN QUARANTINE NOTICES

### SUBPART—FRUITS AND VEGETABLES

### ADMINISTRATIVE INSTRUCTIONS PRESCRIBING METHOD OF TREATMENT OF MANGOES FROM WEST INDIES

On May 1, 1956, notice of proposed revision of administrative instructions now appearing as § 319.56–2i in Title 7, Code of Federal Regulations, 1954 Supp., was published in the FEDERAL REGISTER (21 F. R. 2846). After due consideration of all relevant matters presented, the Chief of the Plant Quarantine Branch, pursuant to the authority conferred on him by § 319.56–2 of the regulations supplemental to the Fruit and Vegetable Quarantine (Notice of Quarantine No. 56, 7 CFR and Supp. 319.56) under section 5 of the Plant Quarantine Act of 1912 (7 U. S. C. 159), hereby issues revised administrative instructions to appear as § 319.56–2i in Title 7, Code of Federal Regulations, as follows:

§ 319.56–2i *Administrative instructions prescribing method of treatment of mangoes from the West Indies*—(a) *Fumigation upon arrival.* Approved fumigation with ethylene dibromide at normal atmospheric pressure, in accordance with the following procedure, upon arrival, is hereby prescribed as a condition of entry under permit under § 319.56–2 for all shipments of mangoes from the West Indies other than those entered in accordance with the alternate procedure authorized in paragraph (b) of this section:

(1) *West Indies.* As used in this paragraph, the term "West Indies" means the foreign islands lying between North and South America, the Caribbean Sea, and the Atlantic Ocean, including, among others, Cuba, Jamaica, Dominican Republic, and the Bahama, Leeward and Windward Islands, but excluding the chain of islands adjacent and parallel to the north coast of South America (the largest of which are Aruba, Curacao, Bonaire, Tortuga, Margarita, Trinidad, and Tobago).

(2) *Ports of entry.* Mangoes to be offered for entry must be shipped direct from the country of origin to New York or such other North Atlantic ports as may be named in the permit.

(3) *Precooling of fruit.* Mangoes to be offered for entry must be cooled to a maximum temperature of 50° F. prior to unloading from the ship. The fruit may not be removed from the vessel until an inspector of the Plant Quarantine Branch has satisfied himself that this requirement has been complied with and that the fruit can be moved promptly to the fumigation chamber.

(4) *Approved fumigation.* (i) The approved fumigation shall consist of fumigation with ethylene dibromide at normal atmospheric pressure, in a fumigation chamber which has been approved for that purpose by the Plant Quarantine Branch. The dosage shall be applied at the following rates:

6 ounces of ethylene dibromide per 1,000 cubic feet of space for 2 hours at 80° F.
8 ounces of ethylene dibromide per 1,000 cubic feet of space for 2 hours at 70° F.

Cubic feet of space shall include the load. The 2-hour period of exposure shall begin when all of the fumigant has been introduced into the chamber. The required temperatures apply to both air and fruit. The ethylene dibromide must be applied in the liquid state and volatilized within the sealed fumigation chamber by direct contact with a highly heated metal surface over an electric hot plate or other suitable heating medium. The gas shall be circulated within the chamber continuously for the 2-hour period by an electric fan or blower.

(ii) Mangoes to be fumigated may be packed in crates with shredded packing material. When fruits are individually wrapped in paper the wrappings must be removed before fumigation. When loaded in the fumigation chamber the crates or other containers shall be separated at least 2 inches on all sides by wooden strips or other means. The chamber shall not be loaded to more than 50 percent of capacity.

(5) *Other conditions.* The unloading of fruit from the vessel, its delivery to an approved fumigation plant, and the fumigation procedure will be under the supervision of an inspector of the Plant Quarantine Branch. The unloading and delivery shall be conducted in accordance with such safeguard requirements as the inspector may impose to prevent the dissemination of injurious insects. Final release of the fruit for entry into the United States will be conditioned upon compliance with such safeguard requirements and the prescribed regulations.

(6) *Costs.* All costs of treatment and required safeguards and supervision, other than the services of the supervising inspector during regularly assigned hours of duty and at the usual place of duty, shall be borne by the owner of the mangoes, or his representative.

(7) *Department not responsible for damage.* The treatment prescribed in subparagraph (4) of this paragraph is judged from experimental tests to be safe for use with mangoes. However, the Department assumes no responsibility for any damage sustained through or in the course of treatment, or compliance with requirements under subparagraph (5) of this paragraph or in the precooling of fruit required prior to unloading from the vessel.

(b) *Alternate procedure.* Mangoes produced in Cuba if satisfactorily treated in Cuba and otherwise handled and certified as provided in this paragraph will be eligible for entry under permit under § 319.56–2.

(1) *Approved fumigation.* The mangoes shall be fumigated at approved plants in Cuba in accordance with paragraph (a) (4) of this section.

(2) *Approval of fumigation plants; costs of supervision.* Fumigation in Cuba will be contingent upon the availability of a fumigation plant approved by the Chief of the Plant Quarantine Branch to apply the treatment prescribed in paragraph (a) (4) of this section and upon the availability of qualified personnel for assignment to approve the plant and to supervise the treatment and post-treatment handling of the mangoes in Cuba. Those in interest must make advance arrangements for approval of the fumigation plant and for supervision, and furnish the Chief of the Plant Quarantine Branch with acceptable assurances that they will provide, without cost to the United States Department of Agriculture, all transportation, per diem, and other incidental expenses of such personnel and compensation for such personnel for their services in excess of 40 hours weekly, in connection with such approval and supervision, according to the rates established for the payment of inspectors of the Plant Quarantine Branch.

(3) *Supervision of fumigation and subsequent handling.* The fumigation prescribed in this paragraph and the subsequent handling of the mangoes so fumigated must be under the supervision of a representative of the Plant Quarantine Branch. The treated fruit must be safeguarded against reinfestation during the period prior to shipment from Cuba, in a manner required by such representative.

(4) *Certification.* Mangoes will be certified by a representative of the Plant Quarantine Branch in Cuba for entry into the United States upon the basis of treatment under this paragraph and compliance with the post-treatment safeguard requirements imposed by such representative. The final release of the fruit for entry into the United States will be conditioned upon compliance with such requirements and upon satisfactory inspection on arrival to determine efficacy of treatment.

(5) *Costs.* All costs incident to fumigation, including those for constructing, equipping, maintaining and operating fumigation plants and facilities, and carrying out requirements of post-treatment safeguards, and all costs as indicated in subparagraph (2) of this paragraph incident to plant approval and supervision of treatment and subsequent handling of the mangoes in Cuba shall be borne by the owner of the fruit or his representative.

(6) *Department not responsible for damage.* The treatment prescribed in paragraph (a) (4) of this section is judged from experimental tests to be safe for use with mangoes. However, the Department assumes no responsibility for any damage sustained through or in the course of treatment, or because of post-treatment safeguards.

(7) *Ports of entry.* Mangoes to be offered for entry in accordance with the alternate procedure provided for in this paragraph may be entered under permit at any United States port where an inspector is stationed.

(8) *Ineligible shipments.* Any shipments of mangoes produced in Cuba that are not eligible for certification under the alternate procedure provided for in this paragraph may enter only upon compliance with paragraph (a) of this section.

The purpose of this revision is to authorize an alternate procedure for the fumigation of mangoes grown in Cuba and their entry into the United States when they have been certified by a representative of the Plant Quarantine Branch as having been fumigated and safeguarded at point of origin under his supervision. Final release of the fruit for entry is conditioned upon compliance with specified safeguards. All transportation, per diem, and other incidental expenses and overtime salaries of the inspectors in connection with the procedure will be borne by the owners or shippers of the mangoes.

Since the revised administrative instructions relieve restrictions, they are within the exception in section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)) and may properly be made effective less than 30 days after their publication in the FEDERAL REGISTER.

These administrative instructions shall be effective May 25, 1956, when they shall supersede 7 CFR 1954 Supp. 319.56–21, issued March 2, 1954, effective March 6, 1954.

(Sec. 9, 37 Stat. 318; 7 U. S. C. 162. Interprets or applies sec. 5, 37 Stat. 316; 7 U. S. C. 159)

Done at Washington, D. C. this 22d day of May, 1956.

[SEAL] H. S. DEAN,
*Acting Chief,*
*Plant Quarantine Branch.*

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 3]

### PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.526 *Plum Order 3*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 1, 1956. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until May 18, 1956; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on May 18, 1956, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 5, 1956; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 1, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship any package or container of Santa Rosa plums unless:

(i) Such plums grade at least U. S. No. 1;

(ii) The plums are of a size not smaller than a size that will pack a 4 x 5 standard pack; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided,* That a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1" and "serious damage" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard pack" shall have the applicable meanings of the terms "standard pack" and "equivalent size," and "diameter" shall have the meaning of that term, as used in § 936.142 and all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 22, 1956.

[Plum Order 4]

### PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.527 *Plum Order 4*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 1, 1956. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until May 18, 1956; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on May 18, 1956, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 5, 1956; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 1, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship any package or container of Santa Rosa plums unless:

(i) Such plums grade at least U. S. No. 1;

(ii) The plums are of a size not smaller than a size that will pack a 4 x 5 standard pack; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided,* That a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1" and "serious damage" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard pack" shall have the applicable meanings of the terms "standard pack" and "equivalent size," and "diameter" shall have the meaning of that term, as used in § 936.142 and all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 22, 1956.

[Plum Order 5]

### PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.528 *Plum Order 5*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 1, 1956. A reasonable determination as to the supply of, and the demand for,

such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until May 18, 1956; recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on May 18, 1956, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about June 10, 1956, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 1, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship any package or container of Climax plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of five (5) percent for defects not considered serious damage in addition to the tolerances permitted for such grade;

(ii) The plums are of a size not smaller than a size that will pack a 4 x 5 standard pack; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided,* That a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1" and "serious damage" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard pack" shall have the applicable meanings of the terms "standard pack" and "equivalent size," and "diameter" shall have the meaning of that term, as used in § 936.142 and all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 22, 1956.

[Avocado Order 13]

## PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

### QUALITY REGULATION

§ 969.313 *Avocado Order 13*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969; 20 F. R. 4177) regulating the handling of avocados grown in south Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 1, 1956. Shipments of avocados, grown in south Florida, are currently prohibited until 12:01 a. m., e. s. t., June 1, 1956, under the maturity regulation (§ 969.312; 21 F. R. 3307) issued May 16, 1956; shipments of such avocados are expected to begin on or soon after June 1, 1956, and this section should be applicable to all such shipments in order to prevent the shipment of avocados of undesirable quality and appearance; a reasonable determination as to the quality, the supply of, and demand for, such avocados must await the development of the crop thereof, and adequate information thereon was not available to the Avocado Administrative Committee until May 17, 1956; recommendation as to the need for, and the extent of, regulation of the quality of shipments of such avocados on and after June 1, 1956, was made at a telephone meeting of said committee on May 17, 1956, after consideration of all available information as to the quality, the supply of, and demand for, such avocados, at which time the recommendations and supporting information for quality regulation in the manner and for the period herein set forth were submitted to the Department; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 1, 1956, and ending at 12:01 a. m., e. s. t., April 30, 1957, no handler shall handle any avocados, grown in south Florida, unless such avocados (i) grade at least No. 2 Grade, and (ii) meet the requirements of Standard Pack.

(c) As used in this section, "No. 2 Grade" and "Standard Pack" shall have the same meaning as in paragraphs (c) and (f), respectively, of § 969.130 of the supplementing rules and regulations, as amended (21 F. R. 2409).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c; 68 Stat. 906, 1047)

Dated: May 22, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

## PART 1010—MILK IN WILMINGTON, DELAWARE, MARKETING AREA

### ORDER REGULATING HANDLING

Sec.
1010.0 Findings and determinations.

DEFINITIONS

1010.1 Act.
1010.2 Secretary.
1010.3 Department of Agriculture.
1010.4 Person.
1010.5 Wilmington, Delaware, milk marketing area.
1010.6 Cooperative association.
1010.7 Fluid milk plant.
1010.8 Nonfluid milk plant.
1010.9 Handler.
1010.10 Producer.
1010.11 Producer milk.
1010.12 Other source milk.
1010.13 Producer-handler.

MARKET ADMINISTRATOR

1010.20 Designation.
1010.21 Powers.
1010.22 Duties.

REPORTS, RECORDS AND FACILITIES

1010.30 Reports of receipts and utilization.
1010.31 Other reports.
1010.32 Records and facilities.
1010.33 Retention of records.

CLASSIFICATION

1010.40 Skim milk and butterfat to be classified.
1010.41 Classes of utilization.
1010.42 Shrinkage.
1010.43 Responsibility of handlers and reclassification of milk.
1010.44 Transfers.
1010.45 Computation of skim milk and butterfat in each class.
1010.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

1010.50 Class prices.
1010.51 Butterfat differential to handlers.
1010.52 Location differential to handlers.
1010.53 Equivalent prices or indexes.

APPLICATION OF PROVISIONS

1010.60 Producer-handlers.
1010.61 Plants subject to other Federal orders.

DETERMINATION OF UNIFORM PRICES

1010.70 Net obligation of handlers.
1010.71 Computation of uniform prices for handlers.

PAYMENTS

1010.80 Payments to producers.
1010.81 Butterfat differential to producers.
1010.82 Location differential to producers.
1010.83 Adjustment of accounts.
1010.84 Expense of administration.
1010.85 Termination of obligations.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

1010.90 Effective time.
1010.91 Suspension or termination.
1010.92 Continuing obligations.
1010.93 Liquidation.

MISCELLANEOUS PROVISIONS

1010.100 Agents.
1010.101 Separability of provisions.

AUTHORITY: §§ 1010.0 to 1010.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 1010.0 *Findings and determinations—(a) Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Wilmington, Delaware, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, five cents per hundredweight or such amount not exceeding five cents per hundredweight, as the Secretary may prescribe with respect to all: (a) Receipts of producer milk including such handler's own production, and (b) other source milk at a fluid milk plant which is classified as Class I milk.

(b) *Additional findings.* It is necessary in the public interest to make the order partially effective not later than June 1, 1956, and fully effective not later than June 16, 1956. Any delay beyond these dates will seriously threaten the orderly marketing of milk in the Wilmington, Delaware, marketing area. The provisions of this order are well known to handlers, the public hearing upon which this order is based having been conducted September 12–23, 1955, the recommended decision having been issued on January 17, 1956 (21 F. R. 486; F. R. Doc. 56–514) and the final decision having been issued on April 11, 1956 (21 F. R. 2478; F. R. Doc. 56–2941). Thus, handlers have known of these impending requirements for some time and should be prepared. Furthermore, producers continue to lose substantial income and marketing conditions continue to remain unstabilized each day the effective date of the order is delayed. In view of the foregoing, it is hereby found and determined that good cause exists for making this order partially effective June 1, 1956, and fully effective June 16, 1956, and that it would be contrary to the public interest to delay the effective date of this order for thirty days after its publication in the FEDERAL REGISTER. (See section 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order) of more than 50 percent of the milk covered by the order, which is marketed within the Wilmington, Delaware, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order is approved or favored by at least three-fourths of the producers who participated in a referendum thereon and who, during the determined representative period (January 1956), were engaged in the production of milk for sale in the said marketing area.

*Order relative to handling.* It is therefore ordered, that on and after the effective date hereof the handling of milk in the Wilmington, Delaware, marketing area shall be in conformity to and in compliance with the following terms and conditions:

### DEFINITIONS

§ 1010.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1010.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 1010.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency as may be authorized by Act of Congress, or by Executive order, to perform the price reporting functions of the United States Department of Agriculture.

§ 1010.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 1010.5 *Wilmington, Delaware, milk marketing area.* "Wilmington, Delaware, Marketing Area," hereinafter called "the marketing area," means all of that territory situated within and bounded on the north, east and west by the boundary line of the State of Delaware, and on the south by the Chesapeake and Delaware Canal, all of which area lies within New Castle County, Delaware.

§ 1010.6 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 1010.7 *Fluid milk plant.* "Fluid milk plant" means (a) any pasteurizing or bottling plant from which milk is disposed of during the month as Class I milk in the marketing area on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except other fluid milk plants); (b) any plant during the months of January through August, from which shipments of Grade A milk or skim milk classified as Class I milk, are made during the month to a plant qualified pursuant to paragraph (a) of this section, and (c) any plant during the months of September through December from which shipments of Grade A milk or skim milk, classified as Class I, are made on more than ten days during the month to a plant qualified pursuant to paragraph (a) of this section.

§ 1010.8 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing or bottling plant other than a fluid milk plant.

§ 1010.9 *Handler.* "Handler" means any person in his capacity as the operator of one or more fluid milk plants.

§ 1010.10 *Producer.* "Producer" means any person, except a producer-handler, who produces milk which is received at a fluid milk plant: *Provided,* That if such milk is diverted for his account by a handler from a fluid milk plant to a nonfluid milk plant it shall be deemed to have been received by the diverting handler at a fluid milk plant at

the location of the plant from which it was diverted.

§ 1010.11 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at a fluid milk plant directly from producers, or (b) diverted from a fluid milk plant to a nonfluid milk plant in accordance with the conditions set forth in § 1010.10.

§ 1010.12 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid cream and of products designated as Class I milk pursuant to § 1010.41 (a) (1) except such products received from another fluid milk plant (other than that of a producer-handler), or as producer milk; and

(b) Products designated as Class II milk pursuant to § 1010.41 (b) (1) (other than fluid cream as provided in subparagraph (a) of this paragraph) from any source (including those from a plant's own production) which are reprocessed or converted to another product during the month.

§ 1010.13 *Producer-handler.* "Producer-handler" means any person who operates both a dairy farm and fluid milk plant from which Class I milk is disposed of in the marketing area, but who receives no milk from other dairy farmers.

MARKET ADMINISTRATOR

§ 1010.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1010.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1010.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 1010.84, (1) the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and, upon request by the Secretary, surrender the same to his successor or to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, at his discretion, the name of any person who, within five days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 1010.30 and 1010.31, or (2) payments pursuant to §§ 1010.80 through 1010.84;

(g) Submit his books and records to examination by the Secretary, and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information concerning the operation of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends;

(j) On or before the date specified, publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the following: (1) The 8th day of each month, the Class II price and the handler butterfat differential, both for the preceding month; (2) the 15th day of the month preceding the start of each calendar quarter, the Class I price for such calendar quarter; and (3) the 12th day after the end of each month, the uniform price for each handler, computed pursuant to § 1010.71 and the producer butterfat differential both for the preceding month; and

(k) Publicly announce each month such information regarding the names and plant locations of all plants applying other source milk to the market as does not reveal confidential information on the operations of individual handlers.

REPORTS, RECORDS AND FACILITIES

§ 1010.30 *Reports of receipts and utilization.* On or before the 8th day after the end of each month each handler, except a producer-handler, shall report for each of his fluid milk plants for such month to the market administrator in the detail and on forms prescribed by the market administrator;

(a) The quantities of skim milk and butterfat contained in receipts of producer milk (including such handler's own production);

(b) The quantites of skim milk and butterfat contained in receipts from other fluid milk plants in the form of fluid cream and products designated as Class I in § 1010.41 (a) (1);

(c) The quantities of skim milk and butterfat contained in receipts of other source milk;

(d) Inventories of fluid cream and products designated as Class I milk pursuant to § 1010.41 (a) (1) on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section.

§ 1010.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(b) Each handler, except a producer-handler, shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(1) On or before the 20th day after the end of the month for each of his fluid milk plants his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, (iii) the average butterfat content of such milk, and (iv) the net amount of such handler's payment, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of milk or fluid skim milk, at his fluid milk plant(s), his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such milk;

(3) Such other information with respect to the receipts and utilization of butterfat and skim milk as the market administrator may prescribe; and

(4) Promptly after milk is first received from any producer, (a) the name and address of such producer, (b) the date upon which such milk was first received, and (c) the plant at which such milk was received.

§ 1010.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data for each month with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and butterfat and other content of all milk, skim milk, cream, and other milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers, and disbursement of money so deducted.

§ 1010.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if within such three-year

period the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation, or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1010.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month at fluid milk plants and which is required to be reported pursuant to § 1010.30 shall be classified by the market administrator pursuant to the provisions of §§1010.41 through 1010.46.

§ 1010.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1010.43 and 1010.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including that used to produce concentrated and reconstituted or fortified skim milk) and butterfat (1) disposed of in fluid form as milk, skim milk, buttermilk, cultured buttermilk, flavored milk, flavored milk drinks, concentrated milk, milk shake mix, and any other mixture of cream and milk or skim milk (other than ice cream, ice cream mixes, eggnog, and sterilzed products in hermetically sealed containers) containing less than 18 percent butterfat; and (2) not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those designated as Class I milk pursuant to paragraph (a) of this section; (2) disposed of for livestock feed; (3) contained in skim milk dumped, provided the market administrator is notified in advance and given opportunity to verify such dumping; (4) contained in inventory of fluid cream and of products designated as Class I milk pursuant to paragraph (a) of this section on hand at the end of the month; (5) in actual plant shrinkage not to exceed two percent of skim milk and butterfat, respectively, in producer milk; and (6) in shrinkage of other source milk.

§ 1010.42 *Shrinkage.* The market administrator shall allocate shrinkage at the fluid milk plant(s) of each handler as follows:

(a) Compute the shrinkage of skim milk and butterfat;

(b) Allocate the resulting amounts pro rata to the handler's receipts of skim milk and butterfat, respectively, in producer milk and in other source milk.

§ 1010.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 1010.44 *Transfers.* Skim milk or butterfat disposed of each month from a fluid milk plant shall be classified:

(a) As Class I milk if transferred in the form of fluid cream or products designated as Class I milk in § 1010.41 (a) (1) to a fluid milk plant of another handler, except a producer-handler, unless utilization as Class II milk is claimed by both handlers in their reports submitted for the month to the market administrator pursuant to § 1010.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of inventory pursuant to § 1010.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk: *And provided further,* That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I milk utilization to the producer milk of both handlers;

(b) As Class I milk if transferred to a producer-handler in the form of products designated as Class I milk in § 1010.41 (a) (1);

(c) As Class I milk if transferred or diverted in bulk form as milk or skim milk to a nonfluid plant unless:

(1) The handler claims Class II on the basis of utilization mutually indicated in writing to the market administrator by both buyer and seller on or before the 8th day after the end of the month within which such transaction occurred;

(2) The buyer maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available, if requested by the market administrator for the purpose of verification; and

(3) Not less than an equivalent amount of skim milk and butterfat was actually used as Class II milk in such buyer's plant.

§ 1010.45 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and other obvious errors the reports of each handler submitted pursuant to § 1010.30 and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk in the fluid milk plant(s) of such handler.

§ 1010.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 1010.45 the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk in producer milk classified pursuant to § 1010.41 (b) (5);

(2) Subtract from the pounds of skim milk in Class I milk the pounds of skim milk contained in milk and milk products specified in § 1010.41 (a) received in consumer packages from a regulated plant under another order issued by the Secretary at which plant only producer milk was allocated to Class I milk;

(3) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk in other source milk: *Provided,* That if the pounds of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II milk, an amount equal to the excess shall be subtracted from the pounds of skim milk in Class I milk;

(4) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk contained in inventory of fluid cream and Class I products on hand at the beginning of the month: *Provided,* That if the pounds of skim milk in such inventory are greater than the remaining pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(5) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk received from the fluid milk plants of other handlers in the form of fluid cream and products designated as Class I milk in § 1010.41 (a) (1) according to the classification thereof as determined pursuant to § 1010.44 (a);

(6) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(7) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage".

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section; and

(c) Add the pounds of skim milk and the pounds of butterfat allocated to producer milk in each class, pursuant to paragraphs (a) and (b) of this section, and determine the weighted average butterfat content of each class.

MINIMUM PRICES

§ 1010.50 *Class prices.* Subject to the provisions of § 1010.51 and § 1010.52 each handler shall pay, at the time and in the manner set forth in § 1010.80 for each hundredweight of milk containing 4.0 percent of butterfat received at his fluid milk plant(s) during the month from producers or a cooperative association, not less than the following prices:

(a) *Class I milk.* For each month from the effective date of this order through August 1957 the price per hundredweight of Class I milk shall be the price computed pursuant to subparagraphs 1 through 6 of this paragraph:

(1) Compute an index of wholesale commodity prices by averaging the four latest weekly index figures of wholesale

commodity prices published by the Bureau of Labor Statistics, United States Department of Labor, and convert the result to a 1936–1940 base period by dividing by 0.5108.

(2) Compute an index of prices paid by Pennsylvania farmers per hundredweight for 20 percent protein mixed dairy feed, using a 1936–1940 base period, by dividing by 0.01776 the monthly price for such feed published by the Pennsylvania Federal-State Crop Reporting Service.

(3) Compute an index of prices received by Pennsylvania farmers for farm products except dairy, in a 1936–1940 base period, by dividing the monthly index published by the Pennsylvania Federal-State Crop Reporting Service on a 1910–1914 base by 1.0915, and adjust the result for seasonal variation by dividing by the applicable figure indicated below for each month:

| | |
|---|---|
| January, February, March | 0.96 |
| April, May, June | 1.00 |
| July, August, September | 1.04 |
| October, November, December | 1.00 |

(4) Compute an index of prices paid for milk by 13 Midwest condenseries, using a 1936–40 base period, by dividing by 0.013945 the monthly average price paid by 13 Midwest condenseries as reported by the United States Department of Agriculture, and adjust the result for seasonal variation by dividing by the applicable figure indicated below for each month:

| | | | |
|---|---|---|---|
| January | 1.02 | July | 0.97 |
| February | 1.02 | August | 1.00 |
| March | 1.01 | September | 1.00 |
| April | 0.99 | October | 1.00 |
| May | 0.98 | November | 1.02 |
| June | 0.96 | December | 1.03 |

(5) Compute an index of average daily pounds of Class I milk sold by all handlers under Order 61 regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area during the previous month, except that milk which is moved to plants outside of New Jersey and Delaware from which no routes are operated in the Philadelphia marketing area, using a 1936–40 base period, by dividing the monthly figure by 16.640, and adjust the result for seasonal variation by dividing by the applicable figure indicated below for each month:

| | | | |
|---|---|---|---|
| January | 0.98 | July | 0.99 |
| February | 0.99 | August | 0.99 |
| March | 1.00 | September | 1.04 |
| April | 0.99 | October | 1.05 |
| May | 0.98 | November | 1.02 |
| June | 0.98 | December | 0.99 |

(6) Divide the sum of the indexes calculated in subparagraphs (1) through (5) of this paragraph by 5. This figure shall be the formula index, and shall determine the Class I price for each calendar quarter in accordance with the following table. If such index value is not within a bracket, the price for the calendar quarter shall be determined by the adjacent index bracket which is the same as or nearest to the bracket equivalent to the price in the previous quarter.

CLASS I PRICE SCHEDULE—CLASS I PRICE PER HUNDREDWEIGHT

| Formula index | January, February, March, July, August, September | April, May, June | October, November, December |
|---|---|---|---|
| 116.3–120.3 | 3.29 | 2.89 | 3.69 |
| 124.1–128.1 | 3.49 | 3.09 | 3.89 |
| 131.9–135.9 | 3.69 | 3.29 | 4.09 |
| 139.6–143.6 | 3.89 | 3.49 | 4.29 |
| 147.4–151.4 | 4.09 | 3.69 | 4.49 |
| 155.2–159.2 | 4.29 | 3.89 | 4.69 |
| 163.0–167.0 | 4.49 | 4.09 | 4.89 |
| 170.8–174.8 | 4.69 | 4.29 | 5.09 |
| 178.5–182.5 | 4.89 | 4.49 | 5.29 |
| 186.3–190.3 | 5.09 | 4.69 | 5.49 |
| 194.1–198.1 | 5.29 | 4.89 | 5.69 |
| 201.9–205.9 | 5.49 | 5.09 | 5.89 |
| 209.7–213.7 | 5.69 | 5.29 | 6.09 |
| 217.5–221.5 | 5.89 | 5.49 | 6.29 |
| 225.2–229.2 | 6.09 | 5.69 | 6.49 |
| 233.0–237.0 | 6.29 | 5.89 | 6.69 |
| 240.8–244.8 | 6.49 | 6.09 | 6.89 |
| 248.6–252.6 | 6.69 | 6.29 | 7.09 |
| 256.4–260.4 | 6.89 | 6.49 | 7.29 |

If the formula index is more than 260.4, this table shall be extended at the same rate as in the three highest index brackets shown above.

(b) *Class II milk.* The price per hundredweight of Class II milk during each month shall be the sum of the plus values calculated by the market administrator pursuant to subparagraphs (1) and (2) of this paragraph.

(1) *Butterfat.* Add all market quotations (using the midpoint of any weekly range as one quotation) of prices per 40-quart can of fresh sweet cream of bottling quality of 40 percent butterfat content, not including prices for cream carrying special municipal approvals, reported at Philadelphia for each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract $2.00 and divide by 8.50: *Provided,* That such butterfat value shall not be less than 4.0 times 120 percent of the average of the daily wholesale selling prices for Grade A (92-score) butter at New York as reported by the United States Department of Agriculture for the month for which payment is to be made, less 19.0 cents.

(2) *Skim milk.* From the average of all the prices per pound for nonfat dry milk solids made by roller process, sold as "other brands" for human consumption in bags or barrels by carlots (using midpoint of any range as one quotation), published during such month in "Producer's Price Current," subtract 5 cents, multiply by 0.90 and multiply by 7.5.

§ 1010.51 *Butterfat differential to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices for the month calculated pursuant to § 1010.50 shall be increased or decreased, respectively, for each one-tenth percent variation in butterfat content at the appropriate rate determined as follows:

(a) *Class I milk.* Five cents per hundredweight: *Provided,* That in the case of milk containing less than 3.0 percent or more than 6.0 percent butterfat the Class II differential computed pursuant to paragraph (b) of this section shall apply.

(b) *Class II milk.* Divide by 40 the butterfat value computed pursuant to § 1010.50 (b) (1).

§ 1010.52 *Location differential to handlers.*—(a) *Class I milk.* For that milk received from producers at a fluid milk plant located 45 miles from the City Hall in Wilmington, Delaware, by shortest highway distance, as determined by the market administrator, and classified as Class I milk, the Class I price set forth in § 1010.50 (a) shall be reduced 20 cents per hundredweight plus one cent for each additional 10-mile distance, or fraction thereof, which such plant is located from the City Hall in Wilmington: *Provided,* That for purpose of calculating such location differential, products designated as Class I milk which are transferred between fluid milk plants shall first be assigned to any remainder of Class II milk in the transferee-plant after making the calculation prescribed in § 1010.46 (a) (1) and (2) and the comparable steps in (b) for such plant. The assignment of such shipment to the transferor plants shall be made in sequence starting with the plant located farthest from the City Hall in Wilmington.

(b) *Class II milk.* For that milk received from producers at a fluid milk plant located 70 miles from the City Hall in Wilmington, Delaware, by shortest highway distance, as determined by the market administrator, and classified as Class II milk, the Class II price set forth in § 1010.50 (b) shall be reduced 5 cents plus one cent for each additional 70-mile distance, or fraction thereof, which such plant is located from the City Hall in Wilmington.

§ 1010.53 *Equivalent prices or indexes.* If for any reason a price or index specified by this order for use in computing class prices or for other purposes is not reported or published in the manner described in this order, the market administrator shall use a price or index determined by the Secretary to be equivalent to or comparable with the factor which is specified.

APPLICATION OF PROVISIONS

§ 1010.60 *Producer-handlers.* Sections 1010.40 through 1010.46, 1010.50 through 1010.52, 1010.70 through 1010.71 and 1010.80 through 1010.85, shall not apply to a producer-handler.

§ 1010.61 *Plants subject to other Federal orders.* Any plant which meets the requirements for a fluid milk plant set forth in § 1010.7 (a), (b), or (c) and which is fully subject to the classification and pricing provisions of another order issued pursuant to the act shall be considered as a nonfluid milk plant except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 1010.30), and allow verification of such reports by the market administrator.

DETERMINATION OF UNIFORM PRICES

§ 1010.70 *Net obligation of handlers.* The net obligation of each handler for producer milk received at his fluid milk plant(s) each month shall be a sum of money computed by the market administrator as follows: (a) Multiply the total hundredweight of such milk in each class by the applicable class price; (b) add together the resulting amounts; (c) add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 1010.46 (a) (6) and (b) by the applicable class price; (d) add or subtract, as the case may be, an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months; (e) add the amount computed by multiplying the difference between the Class II price for the preceding month and the appropriate Class I price for the current month by the hundredweight of producer milk classified in Class II during the preceding month, or the hundredweight of milk subtracted from Class I pursuant to § 1010.46 (a) (4) and (b), whichever is less.

§ 1010.71 *Computation of uniform prices for handlers.* For each month the market administrator shall compute a uniform price for the producer milk received by each handler as follows:

(a) Add to the amount computed pursuant to § 1010.70 the total of the location differential deductions to be made pursuant to § 1010.82.

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk received by such handler is less or more, respectively, than 4.0 percent, an amount computed by multiplying such difference by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk.

(c) Add the amount represented by any deductions made for eliminating fractions of a cent in computing the uniform price(s) for such handler for the preceding month.

(d) Divide the resulting amount by the total hundredweight of producer milk received by such handler. The result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for milk of 4.0 percent butterfat content, f. o. b. market.

PAYMENTS

§ 1010.80 *Payments to producers.* Each handler shall make payment to each producer for milk received from such producer as follows: *Provided,* That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall, if requested in writing by the cooperative association, pay such association an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this section.

(a) On or before the last day of each month for milk received during the first 15 days of such month at not less than such handler's estimate of his uniform price per hundredweight but in no event less than the price per hundredweight for Class II milk for the preceding month: *Provided,* That for the first month after the effective date of this order such payment shall be at not less than the Class II price reported for the previous month under Order 61.

(b) On or before the 15th day after the end of each month for milk received during such month at not less than the uniform price per hundredweight, computed for such handler pursuant to § 1010.71, subject to the butterfat differential computed pursuant to § 1010.81 and the location differential computed pursuant to § 1010.82 less proper deductions authorized in writing by such producer and less payment made pursuant to paragraph (a) of this section.

§ 1010.81 *Butterfat differential to producers.* The applicable uniform prices to be paid each producer pursuant to § 1010.80 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk of such handler allocated to the several subclasses of Class I and Class II milk pursuant to § 1010.46 (b) by the respective butterfat differential for each subclass or class computed pursuant to § 1010.51, dividing the sum of such value by the total pounds of such butterfat and rounding the resultant figure to the nearest half cent.

§ 1010.82 *Location differential to producers.* In making payments to producers pursuant to § 1010.80, the applicable uniform prices to be paid for producer milk received at a fluid milk plant located at least 45 miles from the City Hall in Wilmington, Delaware, by shortest highway distance, as determined by the market administrator, shall be reduced 20 cents plus one cent for each additional 10 miles distance, or fraction thereof, which such plant is located from the City Hall in Wilmington.

§ 1010.83 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, accounts, or verification of weights and butterfat tests of milk or milk products discloses errors, resulting in money due a producer or the market administrator from such handler, or due such handler from the market administrator, the market administrator shall notify such handler of any amount so due, and payment thereof shall be made on or before the next date for making payments, as set forth in the provisions under which such error occurred.

§ 1010.84 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 15th day after the end of the month for such month five cents per hundredweight, or such amount not exceeding five cents per hundredweight as the Secretary may prescribe, with respect to all (a) receipts of producer milk including such handler's own production, and (b) other source milk at a fluid milk plant which is classified as Class I milk.

§ 1010.85 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator received the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 1010.90 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 1010.91.

§ 1010.91 *Suspension or termination.* The Secretary may suspend or terminate this part or any provisions of this part whenever he finds this part or any provisions of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 1010.92 *Continuing obligations.* If upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1010.93 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignment or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1010.100 *Agents.* The Secretary may by designation in writing, name any officer or employee of the United States to act as his Agent or Representative in connection with any of the provisions of this part.

§ 1010.101 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 22d day of May 1956, to be effective as follows: §§ 1010.1 through 1010.13; 1010.20 through 1010.22; 1010.30 through 1010.33; 1010.40 through 1010.46; 1010.60, 1010.61, 1010.84, 1010.85, 1010.90 through 1010.93, 1010.100 and 1010.101 shall be effective on and after the 1st day of June 1956 and the entire order (§§ 1010.1 through 1010.101) shall be effective on and after the 16th day of June 1956.

[SEAL] EARL L. BUTZ,
*Assistant Secretary.*

PART 8—REOPENING AND RECONSIDERATION

*Correction*

In F. R. Doc. 56-4026, appearing at page 3335 of the issue for Tuesday, May 22, 1956, "§ 3.11", in item 2 under Part 8, should read "§ 8.11".

# TITLE 14—CIVIL AVIATION

## Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 8]

PART 600—DESIGNATION OF CIVIL AIRWAYS

CIVIL AIRWAY ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.263 is amended to read:

§ 600.263 *Red civil airway No. 63 (Bangor, Mich., to Jackson, Mich.).* From the intersection of the southwest course of the Grand Rapids, Mich., radio range and the west course of the Battle Creek, Mich., radio range via the Battle Creek, Mich., radio range station to the Jackson, Mich., nondirectional radio beacon.

2. Section 600.603 *Blue civil airway No. 3 (Miami, Fla., to Sault Ste. Marie, Mich.)* is amended between Miami, Fla., and Fort Myers, Fla., to read: "From the Miami, Fla., radio range station via the Tamiami, Fla., nondirectionl radio beacon; Fort Myers, Fla., nondirectional radio beacon;".

3. *Section 600.6011 VOR civil airway No. 11 (Memphis, Tenn., to Detroit, Mich.)* is amended by changing the words "Indianapolis omnirange 232° True radials;" to read: "Indianapolis omnirange 230° True radials;".

4. Section 600.6012 *VOR civil airway No. 12 (Santa Barbara, Calif., to Philadelphia, Pa.)* is amended by changing the portion which reads: "Wichita, Kans., omnirange station, including a north alternate from the Gage omirange station to the Wichita omnirange station via the intersection of the Gage omirange 044° True and the Wichita omnirange 245° True radials and also a south alternate from the Anthony omnirange station to the Wichita omnirange station via the intersection of the Anthony omnirange 078° True and the Wichita omnirange 194° True radials;" to read: "Wichita, Kans., omnirange station, including a north alternate from the Gage omnirange station to the Wichita omnirange station via the intersection of the Gage omnirange 044° True and the Wichita omnirange 245° True radials and also a south alternate from the Anthony omnirange station to the Wichita omnirange station via the intersection of the Anthony omnirange 060° True and the Wichita omnirange 190° True radials;".

5. Section 600.6014 *VOR civil airway No. 14 (Roswell, N. Mex., to Boston, Mass.)* is amended by changing the portion which reads: "Tulsa, Okla., omnirange station, including a north alternate and also a south alternate via the intersection of the Oklahoma City omnirange 100° True and the Tulsa omnirange 207° True radials;" to read: "Tulsa, Okla., omnirange station, including a north alternate via the intersection of the Oklahoma City omnirange 040° True and the Tulsa omnirange 257° True radials, and also a south alternate via the intersection of the Oklahoma City omnirange 107° True and the Tulsa omnirange 222° True radials;" and by changing the portion which reads: "Indianapolis, Ind., omnirange station, including a south alternate via the intersection of the Terre Haute omnirange 082° True and the Indianapolis omnirange 232° True radials;" to read: "Indianapolis, Ind., omnirange station, including a south alternate via the intersection of the Terre Haute omnirange 082° True and the Indianapolis omnirange 230° True radials;".

6. Section 600.6015 *VOR civil airway No. 15 (Galveston, Tex., to Minot, N. Dak.)* is amended by changing the portion which reads: "Ardmore, Okla., omnirange station, including a west alternate from the Dallas, Tex., omnirange station to the Ardmore, Okla., omnirange station via the intersection of the Dallas omnirange 324° True and the Ardmore omnirange 176° True radials to the Tulsa, Okla., omnirange station, including an east alternate." to read: "Ardmore, Okla., omnirange station, including a west alternate from the Dallas, Tex., omnirange station to the Ardmore, Okla., omnirange station via the intersection of the Dallas omnirange 324° True and the Ardmore omnirange 176° True radials; to the Tulsa, Okla., omnirange station, including an east alternate and also a west alternate via the point of intersection of the Oklahoma City, Okla., omnirange 107° True and the Tulsa omnirange 222° True radials."

7. Section 600.6016 *VOR civil airway No. 16 (Los Angeles, Calif., to Boston, Mass.)* is amended by changing the portion which reads: "Hassayampa, Ariz., omnirange station;" to read: "Hassayampa, Ariz., omnirange station, including a north alternate via the intersection of the Blythe omnirange 079° True and the Hassayampa omnirange 291° True radials;".

8. Section 600.6020 *Vor civil airway No. 20 (Laredo, Tex., to Richmond, Va.)*, is amended by changing the portion which reads: "That airspace over United States territory from Laredo, Tex., omnirange station via the Corpus Christi, Tex., omnirange station;" to read: "That airspace over United States territory from the Laredo, Tex., omnirange station via the Alice, Tex., omnirange station; Corpus Christi, Tex., omnirange station;".

9. Section 600.6038 is amended to read:

§ 600.6038 *VOR civil airway No. 38 (Chicago, Ill., to Elkins, W. Va.).* From the Peotone, Ill., omnirange station via the Fort Wayne, Ind., omnirange station; intersection of the Fort Wayne omnirange 099° True and the Findlay omnirange 276° True radials; Findlay, Ohio, omnirange station; Columbus, Ohio, omnirange station; Parkersburg, W. Va., omnirange station; to the Elkins, W. Va., omnirange station.

10. Section 600.6050 is amended to read:

§ 600.6050 *VOR civil airway No. 50 (Kirksville, Mo., to Indianapolis, Ind.).* From the Kirksville, Mo., omnirange station via the Quincy, Ill., omnirange station, including a south alternate via the intersection of the Kirksville omnirange 121° True and the Quincy omnirange 258° True radials; Springfield, Ill., omnirange station; Terre Haute, Ind., omnirange station; to the point of intersection of the Terre Haute omnirange 082° True radial and the Indianapolis, Ind., Wier Cook Airport ILS localizer 225° True course.

11. Section 600.6068 *VOR civil airway No. 68 (Albuquerque, N. Mex., to Brownsville, Tex.)* is amended by changing all after the San Angelo, Tex., omnirange to read: "San Angelo, Tex., omnirange station, including a south alternate; Junction, Tex., omnirange station, including a south alternate via the intersection of the San Angelo omnirange 181° True and the Junction omnirange 310° True radials; San Antonio, Tex., omnirange station; intersection of the San Antonio omnirange 169° True and the Corpus Christi omnirange 321° True radials; Corpus Christi, Tex., omnirange station; intersection of the Corpus Christi omnirange 236° True and the Alice, Tex., omnirange 171° True radials; intersection of the Alice omnirange 171° True and the Brownsville omnirange 339° True radials; to the Brownsville, Tex., omnirange station. The portions of this airway which conflict with the Corpus Christi Restricted Area (R-227) are excluded."

12. Section 600.6069 is amended to read:

§ 600.6069 *VOR civil airway No. 69 (Pine Bluff, Ark., to Chicago, Ill.).* From the Pine Bluff, Ark., omnirange station via the point of intersection of the Little Rock, Ark., omnirange 062° True and the Memphis, Tenn., omnirange 276° True radials; Walnut Ridge, Ark., omnirange station; Farmington, Mo., omnirange station; intersection of the Farmington omnirange 351° True and the Troy omnirange 215° True radials; Troy, Ill., omnirange station; Springfield, Ill., omnirange station; Pontiac, Ill., omnirange station; Joliet, Ill., omnirange station; to the Chicago, Ill., Midway Airport terminal omnirange station.

13. Section 600.6077 *VOR civil airway No. 77 (San Angelo, Tex., to Des Moines, Iowa)* is amended by changing all after the Ponca City, Okla., omnirange station to read: "Ponca City, Okla., omnirange station; intersection of the Ponca City omnirange 327° True and the Wichita omnirange 226° True radials; Wichita, Kans., omnirange station; Topeka, Kans., omnirange station; St. Joseph, Mo., omnirange station; Lamoni, Iowa, omnirange station; to the Des Moines, Iowa, omnirange station."

14. Section 600.6099 is added to read:

§ 600.6099 *VOR civil airway No. 99 (Newport, Oreg., to Vancouver, British Columbia).* That airspace over United States territory from the Newport, Oreg., omnirange station via the intersection of the Newport omnirange 023° True and the Newberg omnirange 251° True radials; Newberg, Oreg., omnirange station; intersection of the Newberg omnirange 359° True and the Olympia omnirange 184° True radials; Olympia, Wash., omnirange station; point of intersection of the Seattle, Wash., omnirange 359° True and the Bellingham omnirange 169° True radials; Bellingham, Wash., omnirange station; to the Vancouver, British Columbia, radio range station, excluding the portion which overlaps the Ft. Lewis restricted area.

15. Section 600.6123 *VOR civil airway No. 123 (Newport, Oreg., to Newberg, Oreg.)* is revoked.

16. Section 600.6137 is amended to read:

§ 600.6137 *VOR civil airway No. 137 (Thermal, Calif., to Salinas, Calif.)* From the Thermal, Calif., omnirange station via the Palmdale, Calif., omnirange station; point of intersection of the Bakersfield, Calif., omnirange 210° True and the Coalinga omnirange 153° True radials; Coalinga, Calif., omnirange station; to the Salinas, Calif., omnirange station.

17. Section 600.6144 *VOR civil airway No. 144 (Chicago, Ill., to Washington, D. C.)* is amended by changing the portion which reads: "Fort Wayne, Ind., omnirange station; Findlay, Ohio, omnirange station;" to read: "Fort Wayne, Ind., omnirange station; intersection of the Fort Wayne omnirange 099° True and the Findlay omnirange 276° True radials; Findlay, Ohio, omnirange station;".

18. Section 600.6163 is amended to read:

§ 600.6163 *VOR civil airway No. 163 (Waco, Tex., to Oklahoma City, Okla.).* From the Waco, Tex., omnirange station via the Mineral Wells, Tex., omnirange station; Ardmore, Okla., omnirange station; intersection of the Ardmore omnirange 350° True and the Oklahoma City omnirange 137° True radials; to the Oklahoma City, Okla., omnirange station, including an east alternate from the Ardmore omnirange station to the Oklahoma City omnirange station via the point of intersection of the Oklahoma City omnirange 107° True and the Tulsa, Okla., omnirange 222° True radials and also a west alternate from the Ardmore omnirange station to the Oklahoma City omnirange station via the intersection of the Ardmore omnirange 332° True and the Oklahoma City omnirange 175° True radials.

19. Section 600.6165 is amended to read:

§ 600.6165 *VOR civil airway No. 165 (Long Beach, Calif., to Coalinga, Calif.).* From the Long Beach, Calif., omnirange station via the intersection of the Long Beach omnirange 346° True and the Palmdale omnirange 200° True radials; Palmdale, Calif., omnirange station; point of intersection of the Palmdale omnirange direct radial to the point of intersection of the Bakersfield, Calif., omnirange 210° True and the Coalinga, Calif., omnirange 153° True radials with the Bakersfield omnirange 149° True radials; Bakersfield, Calif., omnirange station; to the Coalinga, Calif., omnirange station.

20. Section 600.6233 is amended to read:

§ 600.6233 *VOR civil airway No. 233 (Springfield, Ill., to Moline, Ill.)* From the Springfield, Ill., omnirange via the Peoria, Ill., omnirange station; Bradford, Ill., omnirange station; to the Moline, Ill., omnirange station.

21. Section 600.6238 is amended to read:

§ 600.6238 *VOR civil airway No. 238 (Philadelphia, Pa., to Atlantic City, N. J.).* From the point of intersection of the West Chester, Pa., omnirange 120° True radial and the Philadelphia, Pa., International Airport ILS localizer 256° True course via the Woodstown, N. J., omnirange station; to the point of intersection of the Woodstown omnirange 106° True and Coyle, N. J., omnirange 203° True radials.

(Sec. 205, 52 Stat. 984, amended; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001, e. s. t., June 28, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 56-4098; Filed, May 24, 1956; 8:45 a. m.]

[Amdt. 8]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the

Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.263 is amended to read:

§ 601.263 *Red civil airway No. 63 control areas (Bangor, Mich., to Jackson, Mich.).* All of Red civil airway No. 63.

2. Section 601.1091 *Control area extension (Detroit, Mich.)* is amended by changing the words which read: "on the north by Red civil airway No. 63," to read: "on the north by VOR civil airway No. 84."

3. Section 601.1117 *Control area extension (Grosse Ile, Mich.)* is amended by changing the words which read: "bounded on the northwest by VOR civil airway No. 96," to read: "bounded on the west by VOR civil airway No. 197."

4. Section 601.1265 *Control area extension (Golva, N. Dak.)* is revoked.

5. Section 601.1266 *Control area extension (Litchfield, Mich.)* is amended by changing the words which read: "on the northeast by VOR civil airway No. 45," to read: "on the northeast by VOR civil airway No. 47."

6. Section 601.1334 is amended to read:

§ 601.1334 *Control area extension (Del Rio, Tex.).* That airspace over United States territory within a 25-mile radius of Laughlin Air Force Base, Del Rio, Tex.

7. Section 601.1360 is amended to read:

§ 601.1360 *Control area extension (Abilene, Tex.).* That airspace within a 35-mile radius of the Abilene omnirange station.

8. Section 601.1361 *Control area extension (Cotulla, Tex.)* is amended by adding the following portion to present control area extension: "and within 5 miles either side of the 40° True radial of the Cotulla omnirange extending from the omnirange station to the perimeter of the San Antonio control area extension."

9. Section 601.1984 *Five-mile radius zones* is amended by deleting the following airport:

Altus, Okla.: Altus Air Force Base.

10. Section 601.2030 is amended to read:

§ 601.2030 *Galveston, Tex., control zone.* Within a 5-mile radius of Galveston Airport and within 2 miles either side of the northwest and southeast courses of the Galveston radio range extending from the 5-mile radius zone to a point 3 miles northwest of the radio range station.

11. Section 601.2380 is added to read:

§ 601.2380 *Altus, Okla., control zone.* Within a 5-mile radius of Altus Air Force Base and within 2 miles either side of lines bearing 180° and 360° True extending from the Air Force Base to points 10 miles north and south.

12. Section 601.4227 is amended to read:

§ 601.4227 *Red civil airway No. 27 (Atlanta, Ga., to Detroit, Mich.).* Corbin, Ky., VHF VAR radio range station.

13. Section 601.4263 is amended to read:

§ 601.4263 *Red civil airway No. 63 (Bangor, Mich., to Jackson, Mich.).* No reporting point designation.

14. Section 601.6050 is amended to read:

§ 601.6050 *VOR civil airway No. 50 control areas (Kirksville, Mo., to Indianapolis, Ind.).* All of VOR civil airway No. 50, including a south alternate.

15. Section 601.6069 is amended to read:

§ 601.6069 *VOR civil airway No. 69 control areas (Pine Bluff, Ark., to Chicago, Ill.).* All of VOR civil allway No. 69.

16. Section 601.6077 is amended to read:

§ 601.607 *VOR civil airway No. 77 control areas (San Angelo, Tex., to Des Moines, Iowa).* All of VOR civil airway No. 77 including east alternates, but excluding the airspace between the main airway and its east alternate between the San Angelo, Tex., omnirange station and the Abilene, Tex., omnirange station.

17. Section 601.6099 is added to read:

§ 601.6099 *Vor civil airway No. 99 control areas (Newport, Oreg., to Vancouver, B. C.).* All of VOR civil airway No. 99.

18. Section 601.6123 *VOR civil airway No. 123 control areas (Newport, Oreg., to Newberg, Oreg.)* is revoked.

19. Section 601.6137 is amended to read:

§ 601.6137 *VOR civil airway No. 137 control areas (Thermal, Calif., to Salinas, Calif.).* All of VOR civil airway No. 137.

20. Section 601.6163 is amended to read:

§ 601.6163 *VOR civil airway No. 163 control areas (Waco, Tex., to Oklahoma City, Okla.).* All of VOR civil airway No. 163 including an east alternate and a west alternate.

21. Section 601.6165 is amended to read:

§ 601.6165 *VOR civil airway No. 165 control areas (Long Beach, Calif., to Coalinga, Calif.).* All of VOR civil airway No. 165.

22. Section 601.6233 is amended to read:

§ 601.6233 *VOR civil airway No. 233 control areas (Springfield, Ill., to Moline, Ill.).* All of VOR civil airway No. 233.

23. Section 601.7001 *VOR Domestic reporting points* is amended by adding the following reporting points:

Greenville Intersection: The intersection of the Tallahassee, Fla., omnirange 091° True; the Valdosta, Ga., omnirange 236° True radials, and the Cross City, Fla., omnirange 333° True radials.

Jackson Intersection: The intersection of the Litchfield, Mich., omnirange 050° True and the Salem, Mich., omnirange 257° True radials.

Gill Intersection: The intersection of the Carleton, Mich., omnirange 100° True and the Cleveland, Ohio, omnirange 024° True radials.

Leslie Intersection: The intersection of the Lansing, Mich., omnirange 148° True and the Salem, Mich., omnirange 272° True radials.

and by changing the following reporting points to read:

Radnor Intersection: The intersection of the Lafayette, Ind., omnirange 089° True and the Indianapolis, Ind., omnirange 341° True radials.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1107, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001, e. s. t., June 28, 1956:

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 56-4099; Filed, May 24, 1956; 8:45 a. m.]

[Amdt. 164]

## PART 608—RESTRICTED AREAS

### ALTERATIONS

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, and effective date, provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.12, a Gila Bend, Arizona, area No. 2 (R-501), is added to read:

| Name and location (chart) | Description by geographical coordinates | Designated altitudes | Time of designation | Controlling agency |
|---|---|---|---|---|
| Gila Bend, Ariz., No. 2 (R-501) (Phoenix). | Beginning at latitude 32°50'25", longitude 112°49'00"; thence to latitude 32°50'52", longitude 112°42'53"; thence to latitude 32°49'00", longitude 112°39'00"; thence to latitude 32°29'00", longitude 112°43'00"; thence to latitude 32°29'00", longitude 112°53'30"; thence to point of beginning. | Unlimited | Unlimited | Luke Air Force Base, Ariz. |

2. In § 608.30, a Sturgeon Bay, Michigan, area (R-502) is added to read:

| Name and location (chart) | Description by geographical coordinates | Designated altitudes | Time of designation | Controlling agency |
|---|---|---|---|---|
| Sturgeon Bay, Mich. (R-502) (Green Bay). | From latitude 44°48'00", longitude 87°16'00"; thence to latitude 45°23'00", longitude 86°47'00"; thence to latitude 45°18'00", longitude 86°28'00"; thence to latitude 45°10'00", longitude 86°17'00"; thence to latitude 44°39'00", longitude 86°42'00"; thence to latitude 44°28'00", longitude 86°47'00"; thence to latitude 44°34'00", longitude 87°23'00", to point of beginning. | Surface to 45,000 feet mean sea level. | Sunrise to sunset, 7 days a week. | Commander, 37th Air Division, Truax Field, Madison, Wis. |

3. In § 608.30, the Lower Lake Huron, Michigan, area (R-60 formerly D-60), published on July 16, 1949, in 14 F. R. 4287, is redesignated as follows:

| Name and location (chart) | Description by geographical coordinates | Designated altitudes | Time of designation | Controlling agency |
|---|---|---|---|---|
| Lower Lake Huron, Mich. (R-60) (Detroit). | From latitude 43°33'00", longitude 82°34'30"; thence to latitude 44°00'00", longitude 82°40'00"; thence to latitude 44°00'00", longitude 82°12'00"; thence to latitude 43°34'30", longitude 82°07'30"; thence to point of beginning. | Surface to 45,000 feet mean sea level. | Sunrise to sunset, 7 days a week. | Commander, 4708th Air Defense Wing, Selfridge Air Force Base, Mich. |

4. In § 608.30, the Lower Lake Huron, Michigan, area (R-59 formerly D-59), published on July 16, 1949, in 14 F. R. 4287, is rescinded.

5. In § 608.39, the Melrose, New Mexico, area (R-185), amended on May 11, 1955, in 20 F. R. 3187, is further amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at latitude 34°28'00", longitude 103°43'15"; thence to latitude 34°25'25", longitude 103°40'00"; thence to latitude 34°10'00", longitude 103°40'00"; thence to latitude 34°10'00", longitude 103°55'00"; thence to latitude 34°28'00", longitude 103°55'00"; thence to point of beginning.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on June 14, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 56-4100; Filed, May 24, 1956; 8:45 a. m.]

[Amdt. 165]

## PART 608—RESTRICTED AREAS

### ALTERATION

The restricted area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Panel and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.58, a Guernsey, Wyoming, Temporary Area is added to read:

| Name and location (chart) | Description by geographical coordinates | Designated altitudes | Time of designation | Controlling agency |
|---|---|---|---|---|
| Guernsey, Wyo. (Casper). | Beginning at latitude 42°28'00", longitude 104°54'00"; thence to latitude 42°28'00", longitude 104°50'00"; thence to latitude 42°20'00", longitude 104°44'00"; thence to latitude 42°18'00", longitude 104°44'00"; thence to latitude 42°18'00", longitude 104°50'30"; thence to latitude 42°22'00", longitude 104°53'30"; thence to point of beginning. | Surface to 16,000 feet mean sea level. | Daily 0700-2200 hours (m. s. t.), June 12 through June 22, 1956. | Adjutant General, Wyoming National Guard, Cheyenne, Wyo. |

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on June 12, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

# TITLE 21—FOOD AND DRUGS

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

### MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR 1955 Edition, Parts 146, 146a, 146b, 146c, 146e; 21 F. R. 609, 2788) are amended as indicated below.

1. Section 146.26 *Animal feed containing penicillin* * * * is amended in the following respects:

a. Paragraph (b) (3) (iii) is deleted.

b. Paragraph (b) is amended by changing subparagraphs (15), (16), and (17) to read as follows:

(15) It is intended for use solely as an aid in the prevention or treatment or to lessen the morbidity in poultry in outbreaks of fowl typhoid, pullorum, the paratyphoids, infectious arthritis due to a filterable agent, histomoniasis (blackhead), and hexamitiasis; its labeling bears adequate directions and warnings for such use; and it contains the following quantities of furazolidone, by weight of feed, for the conditions indicated:

(i) For the prevention of fowl typhoid, pullorum, and the paratyphoids in birds older than 2 weeks: 0.0055 percent.

(ii) For the prevention of the diseases listed in subdivision (i) of this subparagraph in birds younger than 2 weeks, and for the treatment of these same conditions in birds regardless of age: 0.011 percent.

(iii) For the prevention of histomoniasis (blackhead) and infectious arthritis due to a filterable agent, and for the prevention and treatment of hexamitiasis: 0.011 percent.

(iv) For the treatment of histomoniasis (blackhead), and to lessen the morbidity in outbreaks of infectious arthritis due to a filterable agent: 0.022 percent.

(16) (i) It is intended for use solely in the prevention of chronic respiratory disease (air-sac infection); its labeling bears adequate directions and warnings for such use; and it contains not less than 50 grams of chlortetracycline or oxytetracycline or a combination of these two drugs per ton of feed. When intended for such use, it may also contain the equivalent of not less than 50 grams of bacitracin per ton of feed.

(ii) It is also intended for the prevention or treatment of the diseases of poultry specified in subparagraph (15) of this paragraph; it contains one of the ingredients in the amount and under the conditions set forth in subdivision (i) of this subparagraph; and it contains furazolidone in the amount specified in subparagraph (15) of this paragraph.

(17) (i) It is intended for use solely as an aid in the treatment of chronic respiratory disease (air-sac infection), infectious sinusitis, blue comb (nonspecific infectious enteritis, mud fever) in poultry; its labeling bears adequate directions and warnings for such use; and it contains not less than 100 grams of chlortetracycline or oxytetracycline or a combination of these two drugs per ton of feed. When intended for such use, it may also contain the equivalent of not less than 100 grams of bacitracin per ton of feed.

(ii) It is also intended for the prevention or treatment of the diseases of poultry specified in subparagraph (15) of this paragraph; it contains one of the ingredients in the amount and under the conditions set forth in subdivision (i) of this subparagraph; and it contains furazolidone in the amount specified in subparagraph (15) of this paragraph.

2. In § 146a.111 *Procaine penicillin-neomycin-polymyxin ointment* * * *, paragraph (b) (2) is amended by changing the parenthetical phrase "(for potency and toxicity)" to read "(for potency, toxicity, moisture, and pH)" and by changing the parenthetical phrase "(for potency, toxicity, moisture, and pH)" to read "(for potency and toxicity)."

3. In § 146b.101 *Streptomycin sulfate.* * * *, paragraph (c) (1) (iii) is amended by changing the colon after the word "certified" to a comma and adding the following new clause: "except that the blank may be filled in with the date that is 60 months after the month during which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section:".

4. In § 146b.124 *Streptomycin-polymyxin-neomycin ointment* * * *, paragraph (c) (v) is amended by changing the words "12 months" to read "18 months".

5. In § 146c.206 *Chlortetracycline ophthalmic* * * *, paragraph (a) *Standards of identity* * * * is amended by changing the words "2 days" to read "7 days" and by changing "pH 8.2, ±0.2" to read "pH 7.9, ±0.2".

6. In § 146c.219 *Crude chlortetracycline oral veterinary*, paragraph (a) *Standards of identity* * * * is amended by changing the words "10 grams" to read "2 grams".

7. In § 146e.403 *Bacitracin tablets* * * *, paragraph (c) (1) (iii) is amended by changing the words "24 months" to read "24 months or 36 months".

Notice and public procedure are not necessary to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it relaxes existing requirements, and since it would be against public interest to delay providing for the amendments set forth above.

I further find that animal feeds containing antibiotic drugs need not comply with the requirements of sections 502 (l) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure their safety and efficacy, provided they are used in the amounts and for the purposes specified in these amendments.

*Effective date.* This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply, sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: May 18, 1956.

[SEAL] JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

[F. R. Doc. 56-4109; Filed, May 24, 1956; 8:47 a. m.]

# TITLE 22—FOREIGN RELATIONS

## Chapter I—Department of State

[Dept. Reg. 108.288]

## PART 75—UNITED STATES MUNITIONS LIST: ENUMERATION OF ARMS, AMMUNITION, AND IMPLEMENTS OF WAR, INCLUDING TECHNICAL DATA RELATING THERETO; AND REGULATIONS GOVERNING SAME

### MISCELLANEOUS AMENDMENTS

The regulations of the Secretary of State, issued August 26, 1955, are amended as follows:

1. Section 75.28 is amended to read as follows:

§ 75.28 *Maintenance of records by persons required to register as manufacturers, importers or exporters of United States Munitions List articles.* (a) Persons required to register shall maintain, subject to the inspection of the Secretary of State or any person designated by him, records for a period of six years on the importation and exportation of articles enumerated in the United States Munitions List. The Secretary may prescribe a longer or shorter period in individual cases, as he deems necessary. Records of imports shall contain information on the consignor and the country of origin. Records of exports shall contain information as to the source of supply, consignee, purchaser, and the initial and ultimate destination of the shipments. Retention records for both import and export shipments shall, in addition, include statistics on quantities shipped and the estimated values thereof.

(b) Special agents of the Department of State and United States Customs agents are hereby designated as the representatives of the Secretary of State for the purpose of this section.

2. Section 75.49 is amended to read as follows:

§ 75.49 *Licenses filed with collectors of customs.* (a) Export or import licenses shall be filed prior to exportation or importation with the collector of customs at the port through which the shipment authorized is being made. Shippers' export declarations (United States Department of Commerce Form 7525–V) must also be filed with and authenticated by the collector before the commodities are exported or imported. (See also § 75.51.).

(b) Photostatic copies of licenses shall not be made unless this is specifically authorized on the face of the license or otherwise authorized by the Department of State.

3. Section 75.51 is amended to read as follows:

§ 75.51 *Shipment by mail.* Export licenses for articles which are being transported by mail shall be filed with the postmaster at the post office where the article is mailed. Import licenses shall be filed with the collector of customs at the porty of entry. (See also § 75.49.)

4. Paragraph (a) of § 75.52 is amended to read:

(a) The provisions of this part shall be considered as binding in addition to and not in lieu of those established under the provisions of the National Firearms Act, approved by the President June 26, 1934, as amended, now known as ch. 53, Internal Revenue Code of 1954 (26 U. S. C. 5801–5862); under the provisions of the Federal Firearms Act, approved by the President June 30, 1938 (52 Stat. 1250; 15 U. S. C. sections 901–909), as amended March 10, 1947 (61 Stat. 11), August 6, 1939 (53 Stat. 1222), and February 7, 1950 (64 Stat. 3); and under the provisions of the Federal Explosives Act, approved by the President October 6, 1917 (40 Stat. 385; 50 U. S. C. ch. 8), as amended December 26, 1941 (55 Stat. 863; 50 U. S. C. ch. 8).

5. Section 75.53 is amended to read as follows:

§ 75.53 *Foreign trade zones.* For the purpose of this part, the foreign trade zones of the United States are considered as an integral part of the United States. Accordingly, persons who intend to ship articles into foreign trade zones of the United States (established pursuant to 19 U. S. C. 81c, supp. 5) shall submit an application for import license described in § 75.40 and obtain a license prior to the entry of such articles. Persons who intend to ship such articles from foreign trade zones to foreign destinations shall submit an application for export license, as described in § 75.40, and obtain a license prior to shipment. The provisions of § 75.43 with respect to intransit licenses are applicable to intransit shipments through a foreign trade zone.

6. Section 75.70 is amended to read as follows:

§ 75.70 *Shipment by or to the United States Government.* The exportation or importation of arms, ammunition, and implements of war by the United States Government is not subject to the provisions of section 414 of the Mutual Security Act. A license to import and export such articles is not required, therefore, when the United States Government or an agency thereof is the consignor or consignee unless a private individual or firm is involved in the shipping procedures.

7. Section 75.72 is amended by the addition of paragraph (d) as follows:

(d) The provisions of paragraph (a) of this section do not apply to shipments of arms, ammunition, and implements of war which were imported into Canada from a third country within one year.

8. Section 75.73 *Cathode ray tubes being shipped with radar,* is renumbered as § 75.84.

9. The new § 75.73 reads as follows:

§ 75.73 *Certain helium gas exports for medical purposes.* Collectors of customs are authorized to permit shipments of miniature cylinders containing helium gas in fractional cubic foot quantities mixed with other gases without requiring the presentation of an individual export or import license provided:

(a) The ultimate destination is not a country named in § 75.83;

(b) The company has arranged with the Department of State to furnish it with periodic reports of such shipments;

(c) The shipment to any consignee does not exceed ten cubic feet of "contained helium", as defined in § 75.4;

(d) The gas is being exported for medical use.

10. Paragraph (d) of § 75.74 is amended to read as follows:

(d) When an affidavit is required, it must be submitted in the following form:

AFFIDAVIT OF TEMPORARY SOJOURN

COUNTY OF }
STATE OF } ss.

The undersigned, being duly sworn, says that he is the (owner) (operator) of an aircraft identified as a _____; bearing markings _____; that it is departing from the United States on a temporary sojourn abroad not to exceed six (6) months; that he is the holder of CAA letter of registration for this aircraft dated _____; that the aircraft's ultimate destination outside the United States is _____; that it will reenter the United States through the port of _____ on or about _____; that he will not dispose of the aircraft, its parts, components, or accessories in any foreign country nor permit its use in military activities; that it will be operated by a United States licensed pilot (except in demonstration flights) while abroad; that he will not change its United States registration while abroad; that if the aircraft or any of its parts is to be sold or disposed of in a foreign country, it will be immediately returned to the United States and an export license obtained; that he will not transport in such aircraft arms, ammunition, or implements of war enumerated in the United States Munitions List unless authorized by the Secretary of State; and that the purpose of the temporary sojourn abroad is as follows:

_____

This statement is given to United States Customs authority at _____ or the Secretary of State pursuant to regulations of the Secretary of State, Title 22, Code of Federal Regulations, Section 75.74, in support of claim for exemption from the Department of State requirements relating to licenses to export aircraft enumerated in the United States Munitions List.

Signed _____
(Owner-operator)

Address _____
_____

Subscribed and sworn to before me at _____ this _____ day of _____, 19 ____.

_____
(Signature and title of officer)

11. Section 75.76 is amended by the addition of paragraph (c) as follows:

(c) Under the provisions of this section, collectors of customs also may permit aircraft of a country contiguous to the United States to transit the United States for a temporary sojourn in another country contiguous to the United States not to exceed six (6) months' duration.

12. Section 75.77 is amended to read as follows:

§ 75.77 *Articles returned to the United States for repair or overhaul and re-export.* Collectors of customs are authorized to permit arms, ammunition, and implements of war which have been legally exported from the United States and which are returned to the United States worn or damaged for repair and re-export to the country of origin to enter the United States without requiring the presentation of an import license (subject to the provisions of § 75.83). An individual export license, however, is required before such articles may be re-exported.

13. Section 75.78 is amended to read as follows:

§ 75.78 *Antique arms and implements of war.* Collectors of customs are authorized on presentation of satisfactory evidence to permit antique arms and implements of war, components, parts, accessories and attachments therefor, designated in the United States Munitions List, which are more than one hundred years old to enter the United States or to depart therefrom without requiring the presentation of a license (subject to the provisions of § 75.83).

14. Section 75.79 is amended to read as follows:

§ 75.79 *Arms carried on person or in baggage.* Collectors of customs are authorized to permit rifles, carbines, revolvers, or pistols, and ammunition therefor, to enter the United States or depart therefrom without requiring the presentation of a license (subject to the provisions of § 75.83) when these articles enter or leave the United States on the person of an individual or in his baggage, and are intended exclusively for the personal use of that individual for sporting or scientific purposes or for personal protection. No more than three arms and no more than five hundred cartridges shall in any case be carried from or into the United States by an individual under the provisions of this section.

15. Section 75.80 is amended to read as follows:

§ 75.80 *Ammunition for personal use of consignee.* Licenses will not be required for the exportation or importation of ammunition for rifles, carbines, revolvers, or pistols, provided the quantity does not exceed five hundred rounds in any shipment and the ammunition is for the personal use of the consignee and not for resale (subject to the provisions of § 75.83). A license is required, however, for the exportation of such ammunition to Bahrein, Kuwait, Qatar, the Trucial States, and Muscat-and-Oman.

16. Paragraphs (b) and (c) of § 75.82 are amended to read as follows:

(b) Collectors of customs are authorized to permit rifles, carbines, revolvers, pistols, and parts of such weapons to leave the United States without a license, provided they are consigned to servicemen's clubs overseas or to individual members of the Armed Forces of the United States, accompanied by a written authorization from the commanding officer and the parcel is plainly marked as to content.

(c) Collectors of customs are authorized to permit parts, components, and accessories of rifles, carbines, pistols, and revolvers to enter or leave the United States without a license when the shipment does not exceed $25 in value, is consigned to individual members of the Armed Forces of the United States, is for the consignee's own use and not for resale, and the parcel is plainly marked as to content.

17. Section 75.81 is renumbered § 75.83 and is amended to read as follows:

§ 75.83 *Shipments to or from certain countries.* The exemptions provided by §§ 75.73, 75.74, 75.76, 75.77, 75.78, 75.79, and 75.80 do not apply to shipments destined for or originating in the Soviet Union, Soviet bloc countries, Communist China, North Korea, and that part of Viet-Nam which lies north of the 17th parallel and any of the territories of free Viet-Nam or Laos which are under de facto control of the Communists, or any other area that may come under Communist control.

18. Section 75.84 is amended to read as follows:

§ 75.84 *Cathode ray tubes being shipped with radar.* Applications for license to ship radar equipment may include cathode ray tubes installed in or intended for use in such equipment, provided the tubes are being shipped with such equipment. (If shipped separately, information concerning licensing requirements for cathode ray tubes should be obtained from the Bureau of Foreign Commerce, Department of Commerce.)

19. Section 75.110 is amended to read as follows:

§ 75.110 *Exportation of technical data.* (a) A license issued by the Secretary of State is required in all cases for the export of unclassified technical data to any of the destinations referred to in § 75.140 (f). (See also § 75.2.)

(b) A license is also required for the export of such data to all other destinations except when otherwise exempted by §§ 75.111 to 75.160 or when it is in published form and is (1) sold at newsstands or bookstores; (2) available by subscription or purchase to any individual without restriction; (3) granted second class mailing privilege by the United States Government; or (4) freely available at public libraries.

(c) When classified technical data is involved, except for releases of classified military information made directly to a foreign government by the Department of Defense or one of its agencies, special clearance from the Department of State is required in each case. Full details should be submitted to the Department by letter, accompanied by any additional documents that might assist in the consideration of the proposal. All documents should be submitted in quadruplicate. If the subject matter is disclosed in a patent application subject to a secrecy order issued by the Patent Office under 35 U. S. C. 181, the letter to the Department should state this fact and identify the patent application.

20. Section 75.111 is amended to read as follows:

§ 75.111 *Shipment by the United States Government.* The exportation by the United States Government of technical data relating to arms, ammunition, and implements of war is not subject to the provisions of section 414 of the Mutual Security Act. A license to export documents and information of this kind, therefore, is not required when the United States Government or an agency thereof is the consignor unless a private individual or firm is involved in the shipping or mailing procedures.

21. Section 75.114 is amended to read as follows:

§ 75.114 *Exportation of technical data with patent applications.* The exportation of technical data relating to arms, ammunition, and implements of war with any patent application for foreign patents is subject to the jurisdiction of the Secretary of State. A Department of State export license is required for the exportation of unclassified technical data included as part of or with an application for a foreign patent unless the exporter has a currently valid United States Patent Office license for foreign filing. The Patent Office may issue such a license prior to the expiration of six months following the filing of an application for patent in the United States. If the subject matter is covered by a secrecy order, the provisions of § 75.110 (c) are applicable.

22. Paragraph (f) of § 75.140 is amended to read as follows:

(f) Under any of the above exemptions, the exporter must also certify that the technical data is not intended for the Soviet Union, Soviet bloc countries, Communist China, North Korea, and that part of Viet-Nam which lies north of the 17th parallel and any of the territories of free Viet-Nam or Laos which are under de facto control of the Communists, or any other area that may come under Communist control.

23. Section 75.180 is amended to read as follows:

§ 75.180 *Violations in general.* It shall be unlawful for any person to export or attempt to export from the United States any of those articles designated by the United States Munitions List or regulations as arms, ammunition, and implements of war or to import or attempt to import such articles into the United States without first having obtained a license therefor unless an exemption from this requirement is authorized by this part.

(Sec. 414, 68 Stat. 848; 22 U. S. C. 1934. Sec. 103, E. O. 10575, 19 F. R. 7251, 3 CFR, 1954 Supp.)

Dated: May 15, 1956.

For the Secretary of State.

SCOTT MCLEOD,
*Administrator,*
*Bureau of Security*
*and Consular Affairs.*

## TITLE 26—INTERNAL REVENUE, 1954

### Chapter I—Internal Revenue Service, Department of the Treasury

**Subchapter A—Income Tax**

[T. D. 6175]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

PARTNERS AND PARTNERSHIPS

On August 12, 1955, notice of proposed rulemaking regarding the regulations under subchapter K of chapter 1 of the Internal Revenue Code of 1954 (Public Law 591, 83d Congress) approved August 16, 1954, was published in the FEDERAL REGISTER (20 F. R. 5854). After consideration of such relevant suggestions as were presented by interested persons regarding the proposals, the following regulations are hereby adopted:

Sec.
1.701 Statutory provisions; partners, not partnership, subject to tax.
1.701-1 Partners, not partnership, subject to tax.
1.702 Statutory provisions; income and credits of partner.
1.702-1 Income and credits of partner.
1.702-2 Net operating loss deduction of partner.
1.703 Statutory provisions; partnership computations.
1.703-1 Partnership computations.
1.704 Statutory provisions; partner's distributive share.
1.704-1 Partner's distributive share.
1.705 Statutory provisions; determination of basis of partner's interest.
1.705-1 Determination of basis of partner's interest.
1.706 Statutory provisions; taxable years of partner and partnership.
1.706-1 Taxable years of partner and partnership.
1.707 Statutory provisions; transactions between partner and partnership.
1.707-1 Transactions between partner and partnership.
1.708 Statutory provisions; continuation of partnership.
1.708-1 Continuation of partnership.
1.721 Statutory provisions; nonrecognition of gain or loss on contribution.
1.721-1 Nonrecognition of gain or loss on contribution.
1.722 Statutory provisions; basis of contributing partner's interest.
1.722-1 Basis of contributing partner's interest.
1.723 Statutory provisions; basis of property contributed to partnership.
1.723-1 Basis of property contributed to partnership.
1.731 Statutory provisions; extent of recognition of gain or loss on distribution.
1.731-1 Extent of recognition of gain or loss on distribution.
1.732 Statutory provisions; basis of distributed property other than money.
1.732-1 Basis of distributed property other than money.
1.732-2 Special partnership basis of distributed property.
1.733 Statutory provisions; basis of distributee partner's interest.
1.733-1 Basis of distributee partner's interest.
1.734 Statutory provisions; optional adjustment to basis of undistributed partnership property.
1.734-1 Optional adjustment to basis of undistributed partnership property.

Sec.
1.734-2 Adjustment after distribution to transferee partner.
1.735 Statutory provisions; character of gain or loss on disposition of distributed property.
1.735-1 Character of gain or loss on disposition of distributed property.
1.736 Statutory provisions; payments to a retiring partner or a deceased partner's successor in interest.
1.736-1 Payments to a retiring partner or a deceased partner's successor in interest.
1.741 Statutory provisions; recognition and character of gain or loss on sale or exchange.
1.741-1 Recognition and character of gain or loss on sale or exchange.
1.742 Statutory provisions; basis of transferee partner's interest.
1.742-1 Basis of transferee partner's interest.
1.743 Statutory provisions; optional adjustment to basis of partnership property.
1.743-1 Optional adjustment to basis of partnership property.
1.751 Statutory provisions; unrealized receivables and inventory items.
1.751-1 Unrealized receivables and inventory items.
1.752 Statutory provisions; treatment of certain liabilities.
1.752-1 Treatment of certain liabilities.
1.753 Statutory provisions; partner receiving income in respect of decedent.
1.753-1 Partner receiving income in respect of decedent.
1.754 Statutory provisions; manner of electing optional adjustment to basis of partnership property.
1.754-1 Time and manner of making election to adjust basis of partnership property.
1.755 Statutory provisions; rules for allocation of basis.
1.755-1 Rules for allocation of basis.
1.761 Statutory provisions; terms defined.
1.761-1 Terms defined.
1.771 Statutory provisions; effective date.
1.771-1 Effective date.

AUTHORITY: §§ 1.701 to 1.771-1 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805. Interpret or apply secs. 701-708, 721-723, 731-736, 741-743, 751-755, 761, 771, 68A Stat. 239-254; 26 U. S. C. 701-708, 721-723, 731-736, 741-743, 751-755, 761, 771.

PARTNERS AND PARTNERSHIPS

DETERMINATION OF TAX LIABILITY

§ 1.701 *Statutory provisions; partners, not partnership, subject to tax.*

SEC. 701. *Partners, not partnership, subject to tax.* A partnership as such shall not be subject to the income tax imposed by this chapter. Persons carrying on business as partners shall be liable for income tax only in their separate or individual capacities.

§ 1.701-1 *Partners, not partnership, subject to tax.* Partners are liable for income tax only in their separate capacities. Partnerships as such are not subject to the income tax imposed by subtitle A but are required to make returns of income under the provisions of section 6031 and the regulations thereunder. For definition of the terms "partner" and "partnership", see sections 761 and 7701 (a) (2), and the regulations thereunder. For provisions relating to the election of certain partnerships to be taxed as domestic corporations, see section 1361 and the regulations thereunder.

§ 1.702 *Statutory provisions; income and credits of partner.*

SEC. 702. *Income and credits of partner—*

(a) *General rule.* In determining his income tax, each partner shall take into account separately his distributive share of the partnership's—

(1) Gains and losses from sales or exchanges of capital assets held for not more than 6 months,

(2) Gains and losses from sales or exchanges of capital assets held for more than 6 months,

(3) Gains and losses from sales or exchanges of property described in section 1231 (relating to certain property used in a trade or business and involuntary conversions),

(4) Charitable contributions (as defined in section 170 (c)),

(5) Dividends with respect to which there is provided a credit under section 34, an exclusion under section 116, or a deduction under part VIII of subchapter B,

(6) Taxes, described in section 901, paid or accrued to foreign countries and to possessions of the United States,

(7) Partially tax-exempt interest on obligations of the United States or on obligations of instrumentalities of the United States as described in section 35 or section 242 (but, if the partnership elects to amortize the premiums on bonds as provided in section 171, the amount received on such obligations shall be reduced by the reduction provided under section 171 (a) (3)),

(8) Other items of income, gain, loss, deduction, or credit, to the extent provided by regulations prescribed by the Secretary or his delegate, and

(9) Taxable income or loss, exclusive of items requiring separate computation under other paragraphs of this subsection.

(b) *Character of items constituting distributive share.* The character of any item of income, gain, loss, deduction, or credit included in a partner's distributive share under paragraphs (1) through (8) of subsection (a) shall be determined as if such item were realized directly from the source from which realized by the partnership, or incurred in the same manner as incurred by the partnership.

(c) *Gross income of a partner.* In any case where it is necessary to determine the gross income of a partner for purposes of this title, such amount shall include his distributive share of the gross income of the partnership.

§ 1.702-1 *Income and credits of partner—*(a) *General rule.* Each partner is required to take into account separately in his return his distributive share, whether or not distributed, of each class or item of partnership income, gain, loss, deduction, or credit described in subparagraphs (1) through (9) of this paragraph. (For the taxable year in which a partner includes his distributive share of partnership taxable income, see section 706 (a) and § 1.706-1 (a). Such distributive share shall be determined as provided in section 704 and § 1.704-1). Accordingly, in determining his income tax:

(1) Each partner shall take into account, as part of his gains and losses from sales or exchanges of capital assets held for not more than six months, his distributive share of the combined net amount of such gains and losses of the partnership.

(2) Each partner shall take into account, as part of his gains and losses from sales or exchanges of capital assets held for more than six months, his distributive share of the combined net amount of such gains and losses of the partnership.

(3) Each partner shall take into account, as part of his gains and losses from sales or exchanges of property described in section 1231 (relating to property used in the trade or business and involuntary conversions), his distributive share of the combined net amount of such gains and losses of the partnership . The partnership shall not combine such items with items set forth in subparagraph (1) or (2) of this paragraph.

(4) Each partner shall take into account, as part of the charitable contributions paid by him, his distributive share of each class of charitable contributions paid by the partnership within the partnership's taxable year. Section 170 determines the extent to which such amount may be allowed as a deduction to the partner. For the definition of the term "charitable contribution", see section 170 (c).

(5) Each partner shall take into account, as part of the dividends received by him from domestic corporations, his distributive share of dividends received by the partnership, with respect to which the partner is entitled to a credit under section 34, an exclusion under section 116, or a deduction under part VIII of subchapter B.

(6) Each partner shall take into account, as part of his taxes described in section 901 which have been paid or accrued to foreign countries or to possessions of the United States, his distributive share of such taxes which have been paid or accrued by the partnership, according to its method of treating such taxes. A partner may elect to treat his total amount of such taxes, including his distributive share of such taxes of the partnership, as a deduction under section 164 or as a credit under section 901, subject to the provisions of sections 901 through 905.

(7) Each partner shall take into account, as part of the partially tax-exempt interest received by him on obligations of the United States or on obligations of instrumentalities of the United States, as described in section 35 or section 242, his distributive share of such partially tax-exempt interest received by the partnership. However, if the partnership elects to amortize premiums on bonds as provided in section 171, the amount received on such obligations by the partnership shall be reduced by the amortizable bond premium applicable to such obligations as provided in section 171 (a) (3).

(8) (i) Each partner shall take into account separately, as part of any class of income, gain, loss, deduction, or credit, his distributive share of the following items: recoveries of bad debts, prior taxes, and delinquency amounts (section 111); gains and losses from wagering transactions (section 165 (d)); soil and water conservation expenditures (section 175); nonbusiness expenses as described in section 212; medical, dental, etc., expenses (section 213); expenses for care of certain dependents (section 214); alimony, etc., payments (section 215); amounts representing taxes and

interest paid to cooperative housing corporations (section 216); intangible drilling and developments costs (section 263 (c)); exploration expenditures (section 615); income, gain, or loss to the partnership under section 751 (b); and any items of income, gain, loss, deduction, or credit subject to a special allocation under the partnership agreement which differs from the allocation of partnership taxable income or loss generally.

(ii) Each partner must also take into account separately his distributive share of any partnreship item which if separately taken into account by any partner would result in an income tax liability for that partner different from that which would result if that partner did not take the item into account separately. Thus, if any partner would qualify for the retirement income credit under section 37 if the partnership pensions and annuities, interest, rents, dividends, and earned income were separately stated, such items must be separately stated for all partners. Under section 911 (a), if any partner is a bona fide resident of a foreign country who may exclude from his gross income the part of his distributive share which qualifies as earned income as defined in section 911 (b), the earned income of the partnership for all partners must be separately stated. Similarly, all relevant items of income or deduction of the partnership must be separately stated for all partners in determining the applicability of section 270 (relating to "hobby losses") and the recomputation of tax thereunder for any partner.

(iii) Each partner shall aggregate the amount of his separate deductions or exclusions and his distributive share of partnership deductions or exclusions separately stated in determining the amount allowable to him of any deduction or exclusion under subtitle A as to which a limitation is imposed. For example, partner A has individual exploration expenditures of $75,000. He is also a member of the AB partnership which has exploration expenditures of $120,000. A's distributive share of this item is $60,000. However, the total amount that A can deduct as exploration expenditures under section 615 (a) is limited to $100,000. Therefore, the excess of $35,000 ($135,000 minus $100,000) is not deductible by A.

(9) Each partner shall also take into account separately his distributive share of the taxable income or loss of the partnership, exclusive of items requiring separate computations under subparagraphs (1) through (8) of this paragraph. For limitation on allowance of a partner's distributive share of partnership losses, see section 704 (d) and § 1.704–1 (d).

(b) *Character of items constituting distributive share.* The character in the hands of a partner of any item of income, gain, loss, deduction, or credit described in section 702 (a) (1) through (8) shall be determined as if such item were realized directly from the source from which realized by the partnership or incurred in the same manner as incurred by the partnership. For example, a partner's distributive share of gain from the sale of depreciable property used in the trade or business of the partnership shall be considered as gain from the sale of such depreciable property in the hands of the partner. Similarly, a partner's distributive share of partnership "hobby losses" (section 270) or his distributive share of partnership charitable contributions to churches, educational organizations, or hospitals (section 170 (b) (1) (A)) retains such character in the hands of the partner.

(c) *Gross income of a partner.* (1) Where it is necessary to determine the amount or character of the gross income of a partner, his gross income shall include the partner's distributive share of the gross income of the partnership, that is, the amount of gross income of the partnership from which was derived the partner's distributive share of partnership taxable income or loss (including items described in section 702 (a) (1) through (8)). For example, a partner is required to include his distributive share of partnership gross income:

(i) In computing his gross income for the purpose of determining the necessity of filing a return (section 6012 (a));

(ii) In determining the application of the provision permitting the spreading of income for services rendered over a 36-month period (section 1301);

(iii) In computing the amount of gross income received from sources within possessions of the United States (section 931); and

(iv) In determining a partner's "gross income from farming" (sections 175 and 6073).

(2) In determining the applicability of the 6-year period of limitation on assessment and collection provided in section 6501 (e) (relating to omisssion of more than 25 percent of gross income), a partner's gross income includes his distributive share of partnership gross income (as described in section 6501 (e) (1) (A) (i)). In this respect, the amount of partnership gross income from which was derived the partner's distributive share of any item of partnership income, gain, loss, deduction, or credit (as included or disclosed in the partner's return) is considered as an amount of gross income stated in the partner's return for the purposes of section 6501 (e). For example, A, who is entitled to one-fourth of the profits of the ABCD partnership, which has $10,000 gross income and $2,000 taxable income, reports only $300 as his distributive share of partnership profits. A should have shown $500 as his distributive share of profits, which amount was derived from $2,500 of partnership gross income. However, since A included only $300 on his return without explaining in the return the difference of $200, he is regarded as having stated in his return only $1,500 ($300/$500 of $2,500) as gross income from the partnership.

(d) *Partners in community property States.* If separate returns are made by a husband and wife domiciled in a community property State, and only one spouse is a member of the partnership, the part of his or her distributive share of any item or items listed in paragraph (a) (1) through (9) of this section which is community property, or which is derived from community property, should be reported by the husband and wife in equal proportions.

§ 1.702–2 *Net operating loss deduction of partner.* For the purpose of determining a net operating loss deduction under section 172, a partner shall take into account his distributive share of items of income, gain, loss, deduction, or credit of the partnership. The character of any such item shall be determined as if such item were realized directly from the source from which realized by the partnership, or incurred in the same manner as incurred by the partnership. See section 702 (b) and § 1.702–1 (b). To the extent necessary to determine the allowance under section 172 (d) (4) of the nonbusiness deductions of a partner (arising from both partnership and nonpartnership sources), the partner shall separately take into account his distributive share of the deductions of the partnership which are not attributable to a trade or business and combine such amount with his nonbusiness deductions from nonpartnership sources. Such partner shall also separately take into account his distributive share of the gross income of the partnership not derived from a trade or business and combine such amount with his nonbusiness income from nonpartnership sources. See section 172 and the regulations thereunder.

§ 1.703 *Statutory provisions; partnership computations.*

SEC. 703. *Partnership computations*—(a) *Income and deductions.* The taxable income of a partnership shall be computed in the same manner as in the case of an individual except that—

(1) The items described in section 702 (a) shall be separately stated, and

(2) The following deductions shall not be allowed to the partnership:

(A) The standard deduction provided in section 141,

(B) The deductions for personal exemptions provided in section 151,

(C) The deduction for taxes provided in section 164 (a) with respect to taxes, described in section 901, paid or accrued to foreign countries and to possessions of the United States,

(D) The deduction for charitable contributions provided in section 170,

(E) The net operating loss deduction provided in section 172, and

(F) The additional itemized deductions for individuals provided in part VII of subchapter B (sec. 211 and following).

(b) *Elections of the partnership.* Any election affecting the computation of taxable income derived from a partnership shall be made by the partnership, except that the election under section 901, relating to taxes of foreign countries and possessions of the United States, shall be made by each partner separately.

§ 1.703–1 *Partnership computations*—(a) *Income and deductions.* (1) The taxable income of a partnership shall be computed in the same manner as the taxable income of an individual, except as otherwise provided in this section. A partnership is required to state separately in its return the items described in section 702 (a) (1) through (7) and, in addition, to attach to its return a statement setting forth separately those items described in section 702 (a) (8) which the partner is required to take into account separately in determining his income tax. See § 1.702–1 (a) (8). The partnership is further required to compute and to state separately in its return:

(i) As taxable income under section 702 (a) (9), the total of all other items of gross income (not separately stated) over the total of all other allowable deductions (not separately stated), or

(ii) As loss under section 702 (a) (9), the total of all other allowable deductions (not separately stated) over the total of all other items of gross income (not separately stated).

The taxable income or loss so computed shall be accounted for by the partners in accordance with their partnership agreement.

(2) The partnership is not allowed the following deductions:

(i) The standard deduction provided in section 141.

(ii) The deduction for personal exemptions provided in section 151.

(iii) The deduction provided in section 164 (a) for taxes, described in section 901, paid or accrued to foreign countries or possessions of the United States. Each partner's distributive share of such taxes shall be accounted for separately by him as provided in section 702 (a) (6).

(iv) The deduction for charitable contributions provided in section 170. Each partner is considered as having paid within his taxable year his distributive share of any contribution or gift, payment of which was actually made by the partnership within its taxable year ending within or with the partner's taxable year. This item shall be accounted for separately by the partners as provided in section 702 (a) (4). See also § 1.702–1 (b).

(v) The net operating loss deduction provided in section 172. See § 1.702–2.

(vi) The additional itemized deductions for individuals provided in part VII of subchapter B, as follows: expenses for production of income (section 212), medical, dental, etc., expenses (section 213); expenses for care of certain dependents (section 214); alimony, etc., payments (section 215); and amounts representing taxes and interest paid to cooperative housing corporation (section 216). However, see § 1.702–1 (a) (8) (iv).

(vii) The deduction for capital gains provided by section 1202 and the deduction for capital loss carryover provided by section 1212.

(b) *Elections of the partnership*—(1) *General rule.* Any elections (other than the election with respect to foreign taxes) affecting the computation of income derived from a partnership shall be made by the partnership. For example, elections of methods of accounting, of computing depreciation, of treating soil and water conservation expenditures, of treating exploration expenditures, and the option to deduct as expenses intangible drilling and development costs, shall be made by the partnership and not by the partners separately. All partnership elections are applicable to all partners equally, but any election made by a partnership shall not apply to any partner's nonpartnership interests.

(2) *Exception.* Each partner shall add his distributive share of taxes described in section 901 paid or accrued by the partnership to foreign countries or possessions of the United States (according to its method of treating such taxes) to any such taxes paid or accrued by him (according to his method of treating such taxes), and may elect to use the total amount either as a credit against tax or as a deduction from income.

§ 1.704 *Statutory provisions; partner's distributive share.*

SEC. 704. *Partner's distributive share*—(a) *Effect of partnership agreement.* A partner's distributive share of income, gain, loss, deduction, or credit shall, except as otherwise provided in this section, be determined by the partnership agreement.

(b) *Distributive share determined by income or loss ratio.* A partner's distributive share of any item of income, gain, loss, deduction, or credit shall be determined in accordance with his distributive share of taxable income or loss of the partnership, as described in section 702 (a) (9), for the taxable year, if—

(1) The partnership agreement does not provide as to the partner's distributive share of such item, or

(2) The principal purpose of any provision in the partnership agreement with respect to the partner's distributive share of such item is the avoidance or evasion of any tax imposed by this subtitle.

(c) *Contributed property*—(1) *General rule.* In determining a partner's distributive share of items deseribed in section 702 (a), depreciation, depletion, or gain or loss with respect to property contributed to the partnership by a partner shall, except to the extent otherwise provided in paragraph (2) or (3), be allocated among the partners in the same manner as if such property had been purchased by the partnership.

(2) *Effect of partnership agreement.* If the partnership agreement so provides, depreciation, depletion, or gain or loss with respect to property contributed to the partnership by a partner shall, under regulations prescribed by the Secretary or his delegate, be shared among the partners so as to take account of the variation between the basis of the property to the partnership and its fair market value at the time of contribution.

(3) *Undivided interests.* If the partnership agreement does not provide otherwise, depreciation, depletion, or gain or loss with respect to undivided interests in property contributed to a partnership shall be determined as though such undivided interests had not been contributed to the partnership. This paragraph shall apply only if all the partners had undivided interests in such property prior to contribution and their interests in the capital and profits of the partnership correspond with such undivided interests.

(d) *Limitation on allowance of losses.* A partner's distributive share of partnership loss (including capital loss) shall be allowed only to the extent of the adjusted basis of such partner's interest in the partnership at the end of the partnership year in which such loss occurred. Any excess of such loss over such basis shall be allowed as a deduction at the end of the partnership year in which such excesa is repaid to the partnership.

(e) *Family partnerships*—(1) *Recognition of interest created by purchase or gift.* A person shall be recognized as a partner for purposes of this subtitle if he owns a capital interest in a partnership in which capital is a material income-producing factor, whether or not such interest was derived by purchase or gift from any other person.

(2) *Distributive share of donee includible in gross income.* In the case of any partnership interest created by gift, the distributive share of the donee under the partnership agreement shall be includible in his gross income, except to the extent that such share is determined without allowance of reasonable compensation for services rendered to the partnership by the donor, and except to the extent that the portion of such share attributable to donated capital is proportionately greater than the share of the donor attributable to the donor's capital. The distributive share of a partner in the earnings of the partnership shall not be diminished because of absence due to military service.

(3) *Purchase of interest by member of family.* For purposes of this section, an interest purchased by one member of a family from another shall be considered to be created by gift from the seller, and the fair market value of the purchased interest shall be considered to be donated capital. The "family" of any individual shall include only his spouse, ancestors, and lineal descendants, and any trusts for the primary benefit of such persons.

§ 1.704–1 *Partner's distributive share*—(a) *Effect of partnership agreement.* A partner's distributive share of any item or class of items of income, gain, loss, deduction, or credit of the partnership shall be determined by the partnership agreement, unless otherwise provided by section 704 and paragraphs (b) through (e) of this section. For definition of partnership agreement see section 761 (c).

(b) *Distributive share determined by income or loss ratio.* (1) If the partnership agreement makes no specific provision for the manner of sharing one or more items or classes of items, a partner's distributive share of such items shall be determined in accordance with the provisions of the partnership agreement for the division of the general profits or losses (that is, the taxable income or loss of the partnership as described in section 702 (a) (9)). In applying this rule, the manner in which the net profit or loss (computed after excluding any item subject to a recognized special allocation) is actually credited on the partnership books to the accounts of the partners will generally determine each partner's share of taxable income or loss as described in section 702 (a) (9).

(2) If the principal purpose of any provision in the partnership agreement determining a partner's distributive share of a particular item is to avoid or evade the Federal income tax, the provision shall be disregarded and the partners' distributive shares of that item shall be determined in accordance with the ratio in which the partners divide the general profits or losses of the partnership (as described in section 702 (a) (9)). In determining whether the principal purpose of any provision in the partnership agreement for a special allocation is the avoidance or evasion of Federal income tax, the provision must be considered in relation to all the surrounding facts and circumstances. Among the relevant circumstances are the following: Whether the partnership or a partner individually has a business purpose for the allocation; whether the allocation has "substantial economic effect", that is, whether the allocation may actually affect the dollar amount of the

partners' shares of the total partnership income or loss independently of tax consequences; whether related items of income, gain, loss, deduction, or credit from the same source are subject to the same allocation; whether the allocation was made without recognition of normal business factors and only after the amount of the specially allocated item could reasonably be estimated; the duration of the allocation; and the overall tax consequences of the allocation. The application of the provisions of this subparagraph may be illustrated by the following examples:

*Example (1).* The provisions of a partnership agreement for a year in which the partnership incurs losses on the sale of depreciable property used in the trade or business are amended to allocate such losses to one partner who has no such gains individually. An equivalent amount of partnership loss or deduction of a different character is allocated to other partners who individually have gains from the sale of depreciable property used in the trade or business. Since the purpose and effect of this allocation is solely to reduce the taxes of certain partners without actually affecting their shares of partnership income, such allocation will not be recognized. Under section 704 (b) (2), those items will be allocated to all the partners in accordance with the provisions of the partnership agreement for sharing partnership income or loss generally.

*Example (2).* The provisions of a partnership agreement allocate to a partner who is a resident of a foreign country a percentage of the profit derived from operations conducted by him within such country, which percentage is greater than his distributive share of partnership income generally. Such allocation has substantial economic effect and will be recognized in the absence of other circumstances showing that the principal purpose was tax avoidance or evasion.

*Example (3).* Rather than impair the credit standing of the AB partnership by a distribution, the partners agree to invest surplus partnership funds in an equal dollar amount of municipal bonds and corporate stock. The partners further agree that A is to receive all the interest income and gain or loss from tax-exempt bonds and B is to receive all the dividend income and gain or loss from corporate stock. Such allocation has substantial economic effect and will be recognized in the absence of other circumstances showing that the principal purpose was tax avoidance or evasion. On the other hand, under an agreement with respect to partnership CD, it is provided that C's distributive share of income shall be the first $10,000 of tax-exempt income, and D's distributive share of income shall be the first $10,000 of dividend income, the balances to be divided equally. Since the principal purpose of this provision is to allocate tax-exempt interest to C, who is in a higher income tax bracket than D, it will be disregarded. Each partner's distributive share of such interest and dividends will then be allocated in accordance with the provisions of the partnership agreement for sharing partnership income or loss generally.

*Example (4).* KL is a brokerage partnership with assets consisting of securities with a basis of $20,000 and a value of $50,000. M makes a $25,000 cash contribution to the partnership in order to become an equal partner. Subsequently, when the value of the securities has appreciated to $74,000, they are sold. Of the $54,000 taxable gain on the sale of the securities, $24,000 (appreciation in value occurring after M became a partner) is allocated in equal shares to K, L, and M, in accordance with the ratio for sharing profits and losses generally. The $30,000 balance is allocated to K and L in the profit and loss ratio existing before M became a partner. This latter allocation attributes to K and L the appreciation in value of the securities occurring before M became a partner, even though the cash proceeds are a partnership asset in which all three partners share equally. This allocation has substantial economic effect and will be recognized in the absence of other circumstances showing that the principal purpose of the allocation was tax avoidance or evasion.

*Example (5).* G and H enter into a partnership agreement to develop and market an electronic device. H, an electronics engineer, contributes $2,500 cash and agrees to devote his full-time services to the partnership. G contributes $100,000 cash and agrees to obtain a loan for the partnership of any additional capital needed. The partnership agreement provides that the full amount of any research and experimental expenditures and any interest on partnership loans are to be charged to G. It also provides that G's distributive share is to be 90 percent of partnership income or loss computed without reduction by such research and experimental expenditures and such interest, until all loans have been repaid and G has received through his 90 percent share of income an amount equal to the full amount of such research and experimental expenditures, of such interest, and his share of any partnership operating losses. During this time H's distributive share will be 10 percent. Thereafter, G and H will share profits and losses equally. Since all of the research and experimental expenditures and interest specially allocated to G are in fact borne by G, the allocation will be recognized in the absence of other circumstances showing that its principal purpose was tax avoidance or evasion.

(c) *Contributed property*—(1) *In general.* Where property has actually been contributed by a partner to a partnership (so as to become partnership property as among the partners and not merely property subject to the claims of partnership creditors), section 704 (c) and this paragraph provide rules for determining a partner's distributive share of depreciation, depletion, or gain or loss with respect to such contributed property. These rules do not apply to property, only the use of which is permitted the partnership by the partner who owns it. Section 704 (c) and this paragraph provide certain alternatives in determining the partners' distributive shares of such items in order to account for precontribution appreciation or diminution in value of the property contributed. When the partnership agreement is silent as to the treatment of such items with respect to contributed property (and if such property is not an undivided interest as described in section 704 (c) (3)), depreciation, depletion, or gain or loss with respect to such property shall be treated in the same manner as though such items arose with respect to property purchased by the partnership. The application of this provision may be illustrated by the following examples:

*Example (1).* A and B form an equal partnership. A contributes $1,000 cash and B contributes inventory with an adjusted basis to him of $800 and a fair market value of $1,000. Under section 723, the basis of the inventory to the partnership is also $800. During the year, the inventory is sold for $1,100. There is no provision in the partnership agreement for treatment of items with respect to contributed property. Under section 704 (c) (1), the $300 profit on the sale of the inventory is treated as if it were gain on property that had been purchased by the partnership and subsequently sold. Therefore, each partner's distributive share of such profit on the inventory is $150.

*Example (2).* C and D form an equal partnership. C contributes machinery worth $10,000 with an adjusted basis to him of $4,000. D contributes $10,000 cash. Under the provisions of section 722, the basis of A's partnership interest is $4,000 and the basis of B's interest is $10,000. There is no provision in the partnership agreement relating to contributed property. If the contributed property depreciates at an annual rate of 10 percent, the partnership will have an annual depreciation deduction of $400, which will result in a reduction of $200 in each partner's distributive share of partnership income. Thus, at the end of the first year, the adjusted basis of the contributed property will be $3,600. If the partnership has no other taxable income or loss for that year, each partner will have a deduction of $200, representing his distributive share of partnership loss for the year. C's adjusted basis for his interest will be $3,800 ($4,000, the original basis of his interest, reduced by $200); D's adjusted basis will be $9,800 ($10,000, reduced by $200).

*Example (3).* Assume that the property in example (2) of this subparagraph is sold at the beginning of the second year of partnership operation for $9,000. The partnership gain will be $5,400 ($9,000, the amount realized, less the adjusted basis of $3,600). Each partner's share of the $5,400 gain will be $2,700. If the partnership has no other taxable income or loss for that year, each partner will have a gain from the partnership of $2,700, representing his distributive share of gain from the sale of property used in the partnership business. C's adjusted basis for his interest will then be $6,500 (the basis of $3,800, increased by the gain of $2,700). D's adjusted basis will be $12,500 (the basis of $9,800, increased by the gain of $2,700). If the partnership is then terminated, and its assets consisting of $19,000 in cash are distributed to the partners pro rata in liquidation of their entire interests, C will have a capital gain of $3,000 ($9,500, the amount received, less $6,500, the adjusted basis of his interest). D will have a capital loss of $3,000 (D's adjusted basis, $12,500, reduced by the amount received, $9,500).

(2) *Effect of partnership agreement.* (i) If the partners so provide in the partnership agreement, depreciation, depletion, or gain or loss with respect to contributed property may be allocated among the partners in a manner which takes into account all or any portion of the difference between the adjusted basis and the fair market value of contributed property at the time of contribution. The allocation may apply to all contributed property or to specific items. The appreciation or diminution in value represented by the difference between the adjusted basis and the fair market value of contributed property at the time of contribution may thus be attributed to the contributing partner upon a subsequent sale or exchange of the property by the partnership. Such appreciation or diminution also may be used in allocating the allowable depreciation or depletion with respect to such property among the contributing partner and the noncontributing partners. In any case, however, the total depreciation, depletion, or gain or loss allocated to the partners is limited to a "ceiling" which cannot exceed the amount of gain or loss realized by the partnership or the depreciation or depletion allowable to it. The application of this subdivision may be illustrated by the following examples:

*Example (1).* Assume that partners C and D, in examples (2) and (3) of subparagraph (1) of this paragraph, agree under section 704 (c) (2) to attribute to C, the contributor of the machinery, the potential gain of $6,000 represented by the difference between its adjusted basis of $4,000 and its fair market value of $10,000. With his contribution of $10,000 cash, D has, in effect, purchased an undivided one-half interest in the property for $5,000. Since the property depreciates at an annual rate of 10 percent, D would have been entitled to a depreciation deduction of $500 per year. However, since under the "ceiling" approach the partnership is allowed only $400 per year (10 percent of $4,000), no more than $400 may be allocated between the partners, i. e., the partnership cannot allocate $500 of depreciation to D and thereby treat C as if C had received an additional $100 of income. Therefore, the partners allocate the $400 deduction for depreciation entirely to D and none to C, the contributor. At the end of the first year, the adjusted basis of the contributed property will be $3,600. Since the $400 deduction is allocated entirely to D, if the partnership has no other taxable income or loss, C will have no income or loss, and D will have a deduction of $400. C's basis for his interest will remain $4,000. D's adjusted basis for his interest will be $9,600 ($10,000, the original basis of his interest, reduced by the deduction of $400).

*Example (2).* Assume that the partners in example (1) of this subdivision also agree under section 704 (c) (2) that, upon a sale of the contributed property, the portion of the proceeds attributable to the excess of the fair market value of the property at date of contribution (less accumulated depreciation on such value) over its basis at date of contribution (less accumulated depreciation on such basis) shall result in gain to the contributing partner only. If the property is sold at the beginning of the second year of partnership operation for $9,000, the partnership gain of $5,400 ($9,000, the amount realized, less the adjusted basis of $3,600) must be allocated to the partners under the terms of the agreement. The fair market value of the property as depreciated is $9,000 ($10,000, the value on contribution, less $1,000, the accumulated depreciation on such value). Under section 704 (c) (2) and the terms of the partnership agreement, the $5,400 difference between $9,000, the fair market value as depreciated, and $3,600, the adjusted basis of the property, represents the portion of the gain to be allocated to C. None of this gain is allocated to D. (If the property were sold for more than $9,000, the portion of the gain in excess of $5,400 would be allocated equally between the partners in accordance with their agreement for sharing gains. If the property were sold for less than $9,000, the entire gain would be allocated to C and nothing to D.) If the partnership and partners engaged in no other transactions that year, C will report a gain of $5,400, and D, no income or loss. C's adjusted basis for his interest will then be $9,400 ($4,000, his original basis, increased by the gain of $5,400). D's adjusted basis will be $9,600 ($10,000, his original basis, less $400 depreciation deduction in the first partnership year). If the partnership is then terminated, and its assets consisting of $19,000 in cash are distributed to the partners pro rata in liquidation of their interests, C will have a capital gain of $100 ($9,500, the amount received, less $9,400, the adjusted basis of his interest). D will have a capital loss of $100 (the excess of D's adjusted basis, $9,600, over the amount received, $9,500).

(ii) For the effect of an agreement under section 704 (c) (2) on undivided interests in property contributed to the partnership where the partners' interests in the capital and profits of the partnership do not correspond with such undivided interests, see subparagraph (3) (ii) of this paragraph.

(3) *Undivided interests.* (i) Section 704 (c) (3) provides a special rule for the allocation of depreciation, depletion, or gain or loss with respect to undivided interests in property contributed by the partners to a partnership where the partnership agreement does not provide otherwise. This provision applies only to property contributed to a partnership by all of its partners and only where the relative undivided interests of the partners in the property prior to the contribution are in the same ratio as their interests in the capital and in the profits of the partnership (except for depreciation, depletion, or gain or loss with respect to the contributed undivided interest) after the contribution. Where these conditions are met, depreciation, depletion, or gain or loss with respect to the undivided interests in contributed property shall be determined in the same manner as though such undivided interests continued to be held by the partners outside the partnership. The rule stated in section 704 (c) (3) applies only to the case where persons actually contribute undivided interests to a partnership. The provisions of this subdivision may be illustrated by the following examples:

*Example (1).* A and B are tenants in common owning undivided one-half interests in improved real estate consisting of land on which a factory is situated. They each contribute their respective undivided interests in the real estate to a partnership in which the profits are to be divided equally and, because the partners have equal shares in the capital, the assets will be divided equally on dissolution. A's basis for his undivided one-half interest is $4,000, of which $1,000 is allocable to the land and $3,000 to the factory. B's basis for his undivided one-half interest is $10,000, of which $3,000 is allocable to the land and $7,000 to the factory. The partnership agreement contains no provisions as to the allocation of depreciation or gain or loss on disposition of the property by the partnership. The factory depreciates at a rate of 5 percent a year. The annual partnership allowance for depreciation of $500 (5 percent of $10,000) will be allocated between the partners by allowing A a deduction of $150 (5 percent of $3,000, his basis for his undivided interest in the factory), and by allowing B a deduction of $350 (5 percent of $7,000, his basis for his undivided interest in the factory). At the end of the first year of partnership operation, A's adjusted basis for his undivided interest in the factory is $2,850 ($3,000 less $150), and B's adjusted basis is $6,650 ($7,000 less $350).

*Example (2).* If, in example (1) of this subdivision, the partnership at the end of the first year's operation sells the factory and land for $12,000, each partner's share of the gain or loss would be determined as follows: Since the undivided interests in the factory and the land are to be treated as though held by the partners outside the partnership, A's share of the proceeds of the sale is $6,000. His adjusted basis in the contributed property is $3,850 ($1,000 for the land and $2,850 for the factory). Therefore, his gain from the sale is $2,150. Since B's share of the proceeds is also $6,000, and his adjusted basis in the contributed property is $9,650 ($3,000 for the land and $6,650 for the factory), his loss is $3,650.

*Example (3).* Assume the same facts as in examples (1) and (2) of this subdivision, except that A and B do not enter into a partnership agreement. Assume further that they are found to be a partnership for income tax purposes because of their joint business activity, but that the factory and the land are not actually contributed by them to the partnership. Although A and B have permitted the partnership to use such properties, they continue to own the factory and the land in their individual capacities (as tenants in common), and the same tax consequences result as in examples (1) and (2) of this subdivision.

(ii) The allocation illustrated in subdivision (i) of this subparagraph will not be affected by the contribution, either at the time of the original contribution or subsequent thereto, of additional property not held as undivided interests if the partners' respective interests in the capital and in the profits of the partnership (except for depreciation, depletion, or gain or loss with respect to the contributed undivided interests) remain the same as their undivided interests in the property previously contributed to the partnership. If the partners' interests in the capital and profits of the partnership are changed from their undivided interests in the property previously contributed to the partnership, the method of allocation of depreciation, depletion, or gain or loss with respect to such property no longer applies. Such a change of the partner's interests in capital and profits may result from a modification of the agreement, or from a change in a partner's respective interest in capital either as a result of a further contribution or as a result of a distribution. (However, drawings made throughout the year against profits, and loans will be disregarded.) Where such a change takes place, the partners may agree under section 704 (c) (2) that depreciation, depletion, or gain or loss with respect to the property formerly held as undivided interests shall continue to be allocated in the same manner as prior to the change. These provisions may be illustrated by the following examples:

*Example (1).* C and D are tenants in common, each owning an undivided one-half interest in certain unimproved land. Each contributes his respective undivided interest in the land to a partnership in which each has an equal interest in capital and profits. C's basis for his one-half interest is $4,000; D's basis is $10,000. The fair market value of the land is $20,000. Subsequently, C contributes $5,000 cash to his share of partnership capital. As a result of C's additional contribution, he now has a 60-percent interest in partnership capital and D, a 40-percent interest, although profits and losses still are to be shared equally. Since the interests of the partners in the capital and profits of the partnership no longer correspond to their undivided interests in the land, the method of allocation prescribed by section 704 (c) (3) no longer applies. Therefore, if the land is sold for $12,000, the partnership will have a loss of $2,000 ($14,000 partnership basis minus $12,000). Since the partnership agreement contains no special allocation for gain or loss with respect to contributed property, the $2,000 loss is allocated as if such property had been purchased by the partnership, i. e., $1,000 to each partner.

*Example (2).* Assume in example (1) of this subdivision that the partners agree that,

because of C's additional contribution of $5,000 cash, he is to have a 60-percent interest in partnership capital. Profits and losses still are to be shared equally, except that gain or loss with respect to the land is, under section 704 (c) (2), to continue to be allocated in the same manner as it had been allocated under section 704 (c) (3) prior to the additional contribution. The land is sold for $12,000. C's share of the proceeds is $6,000. His basis for the land is $4,000. Therefore, he has a $2,000 gain. D's loss is $4,000 ($10,000 basis less $6,000 proceeds).

(d) *Limitation on allowance of losses.* (1) A partner's distributive share of partnership loss will be allowed only to the extent of the adjusted basis (before reduction by current year's losses) of such partner's interest in the partnership at the end of the partnership taxable year in which such loss occurred. A partner's share of loss in excess of his adjusted basis at the end of the partnership taxable year will not be allowed for that year. However, any loss so disallowed shall be allowed as a deduction at the end of the first succeeding partnership taxable year, and subsequent partnership taxable years, to the extent that the partner's adjusted basis for his partnership interest at the end of any such year exceeds zero (before reduction by such loss for such year).

(2) In computing the adjusted basis of a partner's interest for the purpose of ascertaining the extent to which a partner's distributive share of partnership loss shall be allowed as a deduction for the taxable year, the basis shall first be increased under section 705 (a) (1) and decreased under section 705 (a) (2), except for losses of the taxable year and losses previously disallowed. If the partner's distributive share of the aggregate of items of loss specified in section 702 (a) (1), (2), (3), (8), and (9) exceeds the basis of the partner's interest computed under the preceding sentence, the limitation on losses under section 704 (d) must be allocated to his distributive share of each such loss. This allocation shall be determined by taking the proportion that each loss bears to the total of all such losses. For purposes of the preceding sentence, the total losses for the taxable year shall be the sum of his distributive share of losses for the current year and his losses disallowed and carried forward from prior years.

(3) For the treatment of certain liabilities of the partner or partnership, see section 752 and § 1.752–1.

(4) The provisions of this paragraph may be illustrated by the following examples:

*Example (1).* At the end of the partnership taxable year 1955, partnership AB has a loss of $20,000. Partner A's distributive share of this loss is $10,000. At the end such year, A's adjusted basis for his interest in the partnership (not taking into account his distributive share of the loss) is $6,000. Under section 704 (d), A's distributive share of partnership loss is allowed to him (in his taxable year within or with which the partnership taxable year ends) only to the extent of his adjusted basis of $6,000. The $6,000 loss allowed for 1955 decreases the adjusted basis of A's interest to zero. Assume that, at the end of partnership taxable year 1956, A's share of partnership income has increased the adjusted basis of A's interest in the partnership to $3,000 (not taking into account the $4,000 loss disallowed in 1955). Of the $4,000 loss disallowed for the partnership taxable year 1955, $3,000 is allowed A for the partnership taxable year 1956, thus again decreasing the adjusted basis of his interest to zero. If, at the end of partnership taxable year 1957, A has an adjusted basis of his interest of at least $1,000 (not taking into account the disallowed loss of $1,000), he will be allowed the $1,000 loss previously disallowed.

*Example (2).* At the end of partnership taxable year 1955, partnership CD has a loss of $20,000. Partner C's distributive share of this loss is $10,000. The adjusted basis of his interest in the partnership (not taking into account his distributive share of such loss) is $6,000. Therefore, $4,000 of the loss is disallowed. At the end of partnership taxable year 1956, the partnership has no taxable income or loss, but owes $8,000 to a bank for money borrowed. Since C's share of this liability is $4,000, the basis of his partnership interest is increased from zero to $4,000. (See sections 752 and 722, and § 1.752–1 and 1.722–1. C is allowed the $4,000 loss, disallowed for the preceding year under section 704 (d), for his taxable year within or with which partnership taxable year 1956 ends.

*Example (3).* At the end of partnership taxable year 1955, partner C has the following distributive share of partnership items described in section 702 (a): long-term capital loss, $4,000; short-term capital loss, $2,000; income as described in section 702 (a) (9), $4,000. Partner C's adjusted basis for his partnership interest at the end of 1955, before adjustment for any of the above items, is $1,000. As adjusted under section 705 (a) (1) (A), C's basis is increased from $1,000 to $5,000 at the end of the year. C's total distributive share of partnership loss is $6,000. Since without regard to losses, C has a basis of only $5,000, C is allowed only $5,000/$6,000 of each loss, that is, $3,333 of his long-term capital loss, and $1,667 of his short-term capital loss. C must carry forward to succeeding taxable years $667 as a long-term capital loss and $333 as a short-term capital loss.

(e) *Family partnerships*—(1) *In general*—(i) *Introduction.* The production of income by a partnership is attributable to the capital or services, or both, contributed by the partners. The provisions of subchapter K are to be read in the light of their relationship to section 61, which requires, inter alia, that income be taxed to the person who earns it through his own labor and skill and the utilization of his own capital.

(ii) *Recognition of donee as partner.* With respect to partnerships in which capital is a material income-producing factor, section 704 (e) (1) provides that a person shall be recognized as a partner for income tax purposes if he owns a capital interest in such a partnership whether or not such interest is derived by purchase or gift from any other person. If a capital interest in a partnership in which capital is a material income-producing factor is created by gift, section 704 (e) (2) provides that the distributive share of the donee under the partnership agreement shall be includible in his gross income, except to the extent that such distributive share is determined without allowance of reasonable compensation for services rendered to the partnership by the donor, and except to the extent that the portion of such distributive share attributable to donated capital is proportionately greater than the share of the donor attributable to the donor's capital. For rules of allocation in such cases, see subparagraph (3) of this paragraph.

(iii) *Requirement of complete transfer to donee.* A donee or purchaser of a capital interest in a partnership is not recognized as a partner under the principles of section 704 (e) (1) unless such interest is acquired in a bona fide transaction, not a mere sham for tax avoidance or evasion purposes, and the donee or purchaser is the real owner of such interest. To be recognized, a transfer must vest dominion and contol of the partnership interest in the transferee. The existence of such dominion and control in the donee is to be determined from all the facts and circumstances. A transfer is not recognized if the transferor retains such incidents of ownership that the transferee has not acquired full and complete ownership of the partnership interest. Transactions between members of a family will be closely scrutinized, and the circumstances, not only at the time of the purported transfer but also during the periods preceding and following it, will be taken into consideration in determining the bona fides or lack of bona fides of the purported gift or sale. A partnership may be recognized for income tax purposes as to some partners but not as to others.

(iv) *Capital as a material income-producing factor.* For purposes of section 704 (e) (1), the determination as to whether capital in a material income-producing factor must be made by reference to all the facts of each case. Capital is a material income-producing factor if a substantial portion of the gross income of the business is attributable to the employment of capital in the business conducted by the partnership. In general, capital is not a material income-producing factor where the income of the business consists principally of fees, commissions, or other compensation for personal services performed by members or employees of the partnership. On the other hand, capital is ordinarily a material income-producing factor if the operation of the business requires substantial inventories or a substantial investment in plant, machinery, or other equipment.

(v) *Capital interest in a partnership.* For purposes of section 704 (e), a capital interest in a partnership means an interest in the assets of the partnership, which is distributable to the owner of the capital interest upon his withdrawal from the partnership or upon liquidation of the partnership. The mere right to participate in the earnings and profits of a partnership is not a capital interest in the partnership.

(2) *Basic tests as to ownership*—(i) *In general.* Whether an alleged partner who is a donee of a capital interest in a partnership is the real owner of such capital interest, and whether the donee has dominion and control over such interest, must be ascertained from all the facts and circumstances of the particular case. Isolated facts are not determinative; the reality of the donee's ownership is to be determined in the light of the transaction as a whole. The execution of legally sufficient and irrevocable deeds or other instruments of gift under State law is a factor to be taken into account but is not determinative of ownership by the donee for the purposes of section 704 (e). The reality of the transfer and of the donee's ownership of the property attributed to him are to be ascertained from the conduct of the parties with respect to the alleged gift and not by any mechanical or formal test. Some of the more important factors to be considered in determining whether the donee has acquired ownership of the capital interest in a partnership are indicated in subdivisions (ii) to (x), inclusive, of this subparagraph.

(ii) *Retained controls.* The donor may have retained such controls of the interest which he has purported to transfer to the donee that the donor should be treated as remaining the substantial owner of the interest. Controls of particular significance include, for example, the following:

(*a*) Retention of control of the distribution of amounts of income or restrictions on the distributions of amounts of income (other than amounts retained in the partnership annually with the consent of the partners, including the donee partner, for the reasonable needs of the business). If there is a partnership agreement providing for a managing partner or partners, then amounts of income may be retained in the partnership without the acquiescence of all the partners if such amounts are retained for the reasonable needs of the business.

(*b*) Limitation of the right of the donee to liquidate or sell his interest in the partnership at his discretion without financial detriment.

(*c*) Retention of control of assets essential to the business (for example, through retention of assets leased to the alleged partnership).

(*d*) Retention of management powers inconsistent with normal relationships among partners. Retention by the donor of control of business management or of voting control, such as is common in ordinary business relationships, is not by itself to be considered as inconsistent with normal relationships among partners, provided the donee is free to liquidate his interest at his discretion without financial detriment. The donee shall not be considered free to liquidate his interest unless, considering all the facts, it is evident that the donee is independent of the donor and has such maturity and understanding of his rights as to be capable of deciding to exercise, and capable of exercising, his right to withdraw his capital interest from the partnership.

The existence of some of the indicated controls, though amounting to less than substantial ownership retained by the donor, may be considered along with other facts and circumstances as tending to show the lack of reality of the partnership interest of the donee.

(iii) *Indirect controls.* Controls inconsistent with ownership by the donee may be exercised indirectly as well as directly, for example, through a separate business organization, estate, trust, individual, or other partnership. Where such indirect controls exist, the reality of the donee's interest will be determined as if such controls were exercisable directly.

(iv) *Participation in management.* Substantial participation by the donee in the control and management of the business (including participation in the major policy decisions affecting the business) is strong evidence of a donee partner's exercise of dominion and control over his interest. Such participation presupposes sufficient maturity and experience on the part of the donee to deal with the business problems of the partnership.

(v) *Income distributions.* The actual distribution to a donee partner of the entire amount or a major portion of his distributive share of the business income for the sole benefit and use of the donee is substantial evidence of the reality of the donee's interest, provided the donor has not retained controls inconsistent with real ownership by the donee. Amounts distributed are not considered to be used for the donee's sole benefit if, for example, they are deposited, loaned, or invested in such manner that the donor controls or can control the use or enjoyment of such funds.

(vi) *Conduct of partnership business.* In determining the reality of the donee's ownership of a capital interest in a partnership, consideration shall be given to whether the donee is actually treated as a partner in the operation of the business. Whether or not the donee has been held out publicly as a partner in the conduct of the business, in relations with customers, or with creditors or other sources of financing, is of primary significance. Other factors of significance in this connection include:

(*a*) Compliance with local partnership, fictitious names, and business registration statutes.

(*b*) Control of business bank accounts.

(*c*) Recognition of the donee's rights in distributions of partnership property and profits.

(*d*) Recognition of the donee's interest in insurance policies, leases, and other business contracts and in litigation affecting business.

(*e*) The existence of written agreements, records, or memoranda, contemporaneous with the taxable year or years concerned, establishing the nature of the partnership agreement and the rights and liabilities of the respective partners.

(*f*) Filing of partnership tax returns as required by law.

However, despite formal compliance with the above factors, other circumstances may indicate that the donor has retained substantial ownership of the interest purportedly transferred to the donee.

(vii) *Trustees as partners.* A trustee may be recognized as a partner for income tax purposes under the principles relating to family partnerships generally as applied to the particular facts of the trust-partnership arrangement. A trustee who is unrelated to and independent of the grantor, and who participates as a partner and receives distribution of the income distributable to the trust, will ordinarily be recognized as the legal owner of the partnership interest which he holds in trust unless the grantor has retained controls inconsistent with such ownership. However, if the grantor is the trustee, or if the trustee is amenable to the will of the grantor, the provisions of the trust instrument (particularly as to whether the trustee is subject to the responsibilities of a fiduciary), the provisions of the partnership agreement, and the conduct of the parties must all be taken into account in determining whether the trustee in a fiduciary capacity has become the real owner of the partnership interest. Where the grantor (or person amenable to his will) is the trustee, the trust may be recognized as a partner only if the grantor (or such other person) in his participation in the affairs of the partnership actively represents and protects the interests of the beneficiaries in accordance with the obligations of a fiduciary and does not subordinate such interests to the interests of the grantor. Furthermore, if the grantor (or person amenable to his will) is the trustee, the following factors will be given particular consideration:

(*a*) Whether the trust is recognized as a partner in business dealings with customers and creditors, and

(*b*) Whether, if any amount of the partnership income is not properly retained for the reasonable needs of the business, the trust's share of such amount is distributed to the trust annually and paid to the beneficiaries or reinvested with regard solely to the interests of the beneficiaries.

(viii) *Interests (not held in trust) of minor children.* Except where a minor child is shown to be competent to manage his own property and participate in the partnership activities in accordance with his interest in the property, a minor child generally will not be recognized as a member of a partnership unless control of the property is exercised by another person as fiduciary for the sole benefit of the child, and unless there is such judicial supervision of the conduct of the fiduciary as is required by law. The use of the child's property or income for support for which a parent is legally responsible will be considered a use for the parent's benefit. "Judicial supervision of the conduct of the fiduciary" includes filing of such accountings and reports as are required by law of the fiduciary who participates in the affairs of the partnership on behalf of the minor. A minor child will be considered as competent to manage his own property if he actually has sufficient maturity and experience to be treated by disinterested persons as competent to enter business dealings and otherwise to conduct his affairs on a basis of equality with adult persons, notwithstanding legal disabilities of the minor under State law.

(ix) *Donees as limited partners.* The recognition of a donee's interest in a limited partnership will depend, as in the case of other donated interests, on whether the transfer of property is real and on whether the donee has acquired dominion and control over the interest purportedly transferred to him. To be recognized for Fedeal income tax purposes, a limited partnership must be organized and conducted in accordance with the requirements of the applicable

State limited-partnership law. The absence of services and participation in management by a donee in a limited partnership is immaterial if the limited partnership meets all the other requirements prescribed in this paragraph. If the limited partner's right to transfer or liquidate his interest is subject to substantial restrictions (for example, where the interest of the limited partner is not assignable in a real sense or where such interest may be required to be left in the business for a long term of years), or if the general partner retains any other control which substantially limits any of the rights which would ordinarily be exercisable by unrelated limited partners in normal business relationships, such restrictions on the right to transfer or liquidate, or retention of other control, will be considered strong evidence as to the lack of reality of ownership by the donee.

(x) *Motive.* If the reality of the transfer of interest is satisfactorily established, the motives for the transaction are generally immaterial. However, the presence or absence of a tax-avoidance motive is one of many factors to be considered in determining the reality of the ownership of a capital interest acquired by gift.

(3) *Allocation of family partnership income*—(i) *In general.* (a) Where a capital interest in a partnership in which capital is a material income-producing factor is created by gift, the donee's distributive share shall be includible in his gross income, except to the extent that such share is determined without allowance of reasonable compensation for services rendered to the partnership by the donor, and except to the extent that the portion of such distributive share attributable to donated capital is proportionately greater than the distributive share attributable to the donor's capital. For the purpose of section 704, a capital interest in a partnership purchased by one member of a family from another shall be considered to be created by gift from the seller, and the fair market value of the purchased interest shall be considered to be donated capital. The "family" of any individual, for the purpose of the preceding sentence, shall include only his spouse, ancestors, and lineal descendants, and any trust for the primary benefit of such persons.

(*b*) To the extent that the partnership agreement does not allocate the partnership income in accordance with (*a*) of this subdivision, the distributive shares of the partnership income of the donor and donee shall be reallocated by making a reasonable allowance for the services of the donor and by attributing the balance of such income (other than a reasonable allowance for the services, if any, rendered by the donee) to the partnership capital of the donor and donee. The portion of income, if any, thus attributable to partnership capital for the taxable year shall be allocated between the donor and donee in accordance with their respective interests in partnership capital.

(*c*) In determining a reasonable allowance for services rendered by the partners, consideration shall be given to all the facts and circumstances of the business, including the fact that some of the partners may have greater managerial responsibility than others. There shall also be considered the amount that would ordinarily be paid in order to obtain comparable services from a person not having an interest in the partnership.

(*d*) The distributive share of partnership income, as determined under (*b*) of this subdivision, of a partner who rendered services to the partnership before entering the Armed Forces of the United States shall not be diminished because of absence due to military service. Such distributive share shall be adjusted to reflect increases or decreases in the capital interest of the absent partner. However, the partners may by agreement allocate a smaller share to the absent partner due to his absence.

(ii) *Special rules.* (a) The provisions of subdivision (i) of this subparagraph, relating to allocation of family partnership income, are applicable where the interest in the partnership is created by gift, indirectly or directly. Where the partnership interest is created indirectly, the term "donor" may include persons other than the nominal transferor. This rule may be illustrated by the following examples:

*Example (1).* A father gives property to his son who shortly thereafter conveys the property to a partnership consisting of the father and the son. The partnership interest of the son may be considered created by gift and the father may be considered the donor of the son's partnership interest.

*Example (2).* A father, the owner of a business conducted as a sole proprietorship, transfers the business to a partnership consisting of his wife and himself. The wife subsequently conveys her interest to their son. In such case, the father, as well as the mother, may be considered the donor of the son's partnership interest.

*Example (3).* A father makes a gift to his son of stock in the family corporation. The corporation is subsequently liquidated. The son later contributes the property received in the liquidation of the corporation to a partnership consisting of his father and himself. In such case, for purposes of section 704, the son's partnership interest may be considered created by gift and the father may be considered the donor of his son's partnership interest.

(*b*) The allocation rules set forth in section 704 (e) and subdivision (i) of this subparagraph apply in any case in which the transfer or creation of the partnership interest has any of the substantial characteristics of a gift. Thus, allocation may be required where transfer of a partnership interest is made between members of a family (including collaterals) under a purported purchase agreement, if the characteristics of a gift are ascertained from the terms of the purchase agreement, the terms of any loan or credit arrangements made to finance the purchase, or from other relevant data.

(*c*) In the case of a limited partnership, for the purpose of the allocation provisions of subdivision (i) of this subparagraph, consideration shall be given to the fact that a general partner, unlike a limited partner, risks his credit in the partnership business.

(4) *Purchased interest*—(i) *In general.* If a purported purchase of a capital interest in a partnership does not meet the requirements of subdivision (ii) of this subparagraph, the ownership by the transferee of such capital interest will be recognized only if it qualifies under the requirements applicable to a transfer of a partnership interest by gifts. In a case not qualifying under subdivision (ii) of this subparagraph, if payment of any part of the purchase price is made out of partnership earnings, the transaction may be regarded in the same light as a purported gift subject to deferred enjoyment of income. Such a transaction may be lacking in reality either as a gift or as a bona fide purchase.

(ii) *Tests as to reality of purchased interests.* A purchase of a capital interest in a partnership, either directly or by means of a loan or credit extended by a member of the family, will be recognized as bona fide if:

(*a*) It can be shown that the purchase has the usual characteristics of an arm's-length transaction, considering all relevant factors, including the terms of the purchase agreement (as to price, due date of payment, rate of interest, and security, if any) and the terms of any loan or credit arrangement collateral to the purchase agreement; the credit standing of the purchaser (apart from relationship to the seller) and the capacity of the purchaser to incur a legally binding obligation; or

(*b*) It can be shown, in the absence of characteristics of an arm's-length transaction, that the purchase was genuinely intended to promote the success of the business by securing participation of the purchaser in the business or by adding his credit to that of the other participants.

However, if the alleged purchase price or loan has not been paid or the obligation otherwise discharged, the factors indicated in subdivisions (*a*) and (*b*) of this subdivision shall be taken into account only as an aid in determining whether a bona fide purchase or loan obligation existed.

§ 1.705 *Statutory provisions; determination of basis of partner's interest.*

SEC. 705. *Determination of basis of partner's interest*—(a) *General rule.* The adjusted basis of a partner's interest in a partnership shall, except as provided in subsection (b), be the basis of such interest determined under section 722 (relating to contributions to a partnership) or section 742 (relating to transfers of partnership interests)—

(1) Increased by the sum of his distributive share for the taxable year and prior taxable years of—

(A) Taxable income of the partnership as determined under section 703 (a),

(B) Income of the partnership exempt from tax under this title, and

(C) The excess of the deductions for depletion over the basis of the property subject to depletion; and

(2) Decreased (but not below zero) by distributions by the partnership as provided in section 733 and by the sum of his distributive share for the taxable year and prior taxable years of—

(A) Losses of the partnership, and

(B) Expenditures of the partnership not deductible in computing its taxable income and not properly chargeable to capital account.

(b) *Alternative rule.* The Secretary or his delegate shall prescribe by regulations the circumstances under which the adjusted basis of a partner's interest in a partnership may be determined by reference to his proportionate share of the adjusted basis of partnership property upon a termination of the partnership.

§ 1.705–1 *Determination of basis of partner's interest*—(a) *General rule.* (1) Section 705 and this section provide rules for determining the adjusted basis of a partner's interest in a partnership. A partner is required to determine the adjusted basis of his interest in a partnership only when necessary for the determination of his tax liability or that of any other person. The determination of the adjusted basis of a partnership interest is ordinarily made as of the end of a patnership taxable year. Thus, for example, such year-end determination is necessary in ascertaining the extent to which a partner's distributive share of partnership losses may be allowed. See section 704 (d). However, where there has been a sale or exchange of all or a part of a partnership interest or a liquidation of a partner's entire interest in a partnership, the adjusted basis of the partner's interest should be determined as of the date of sale or exchange or liquidation. The adjusted basis of a partner's interest in a partnership is determined without regard to any amount shown in the partnership books as the partner's "capital", equity", or similar account. For example, A contributes property with an adjusted basis to him of $400 (and a value of $1,000) to a partnership. B contributes $1,000 cash. While under their agreement each may have a "capital account" in the partnership of $1,000, the adjusted basis of A's interest is only $400 and B's interest $1,000.

(2) The original basis of a partner's interest in a partnership shall be determined under section 722 (relating to contributions to a partnership) or section 742 (relating to transfers of partnership interests). Such basis shall be increased under section 722 by any further contributions to the partnership and by the sum of the partner's distributive share for the taxable year and prior taxable years of—

(i) Taxable income of the partnership as determined under section 703 (a),

(ii) Tax-exempt receipts of the partnership, and

(iii) The excess of the deductions for depletion over the basis of the depletable property.

(3) The basis shall be decreased (but not below zero) by distributions from the partnership as provided in section 733 and by the sum of the partner's distributive share for the taxable year and prior taxable years of—

(i) Partnership losses (including capital losses), and

(ii) Partnership expenditures which are not deductible in computing partnership taxable income or loss and which are not capital expenditures.

(4) For the effect of liabilities in determining the amount of contributions made by a partner to a partnership or the amount of distributions made by a partnership to a partner, see section 752 and § 1.752–1, relating to the treatment of certain liabilities. In determining the basis of a partnership interest on the effective date of subchapter K or any of the sections thereof, the partner's share of partnership liabilities on that date shall be included.

(b) *Alternative rule.* In certain cases, the adjusted basis of a partner's interest in a partnership may be determined by reference to the partner's share of the adjusted basis of partnership property which would be distributable upon termination of the partnership. The alternative rule may be used to determine the adjusted basis of a partner's interest where circumstances are such that the partner cannot practicably apply the general rule set forth in section 705 (a) and paragraph (a) of this section, or where, from a consideration of all the facts, it is, in the opinion of the Commissioner, reasonable to conclude that the result produced will not vary substantially from the result obtainable under the general rule. Where the alternative rule is used, adjustments may be necessary in determining the adjusted basis of a partner's interest in a partnership. Adjustments would be required, for example, in order to reflect in a partner's share of the adjusted basis of partnership property any significant discrepancies arising as a result of contributed property, transfers of partnership interests, or distributions of property to the partners. The operation of the alternative rules may be illustrated by the following examples:

*Example (1).* The ABC partnership, in which A, B, and C are equal partners, owns various properties with a total adjusted basis of $1,500 and has earned and retained an additional $1,500. The total adjusted basis of partnership property is thus $3,000. Each partner's share in the adjusted basis of partnership property is one-third of this amount, or $1,000. Under the alternative rule, this amount represents each partner's adjusted basis for his partnership interest.

*Example (2).* Assume that partner A in example (1) of this paragraph sells his partnership interest to D for $1,250 at a time when the partnership property with an adjusted basis of $1,500 had appreciated in value to $3,000, and when the partnership also had $750 in cash. The total adjusted basis of all partnership property is $2,250 and the value of such property is $3,750. D's basis for his partnership interest is his cost, $1,250. However, his one-third share of the adjusted basis of partnership property is only $750. Therefore, for the purposes of the alternative rule, D has an adjustment of $500 in determining the basis of his interest. This amount represents the difference between the cost of his partnership interest and his share of partnership basis at the time of his purchase. If the partnership subsequently earns and retains an additional $1,500, its property will have an adjusted basis of $3,750. D's adjusted basis for his interest under the alternative rule is $1,750, determined by adding $500, his basis adjustment to $1,250 (his one-third share of the $3,750 adjusted basis of partnership property). If the partnership distributes $250 to each partner in a current distribution, D's adjusted basis for his interest will be $1,500 ($1,000, his one-third share of the remaining basis of partnership property, $3,000, plus his basis adjustment of $500).

*Example (3).* Assume that BCD partnership in example (2) of this paragraph continues to operate. In 1960, D proposes to sell his partnership interest and wishes to evaluate the tax consequences of such sale. It is necessary, therefore, to determine the adjusted basis of his interest in the partnership. Assume further that D cannot determine the adjusted basis of his interest under the general rule. The balance sheet of the BCD partnership is as follows:

| Assets | Adjusted basis per books | Market value |
|---|---|---|
| Cash | $3,000 | $3,000 |
| Receivables | 4,000 | 4,000 |
| Depreciable property | 5,000 | 5,000 |
| Land held for investment | 18,000 | 30,000 |
| Total | 30,000 | 42,000 |

| Liabilities and capital | Per books |
|---|---|
| Liabilities | $6,000 |
| Capital accounts: | |
| B | 4,500 |
| C | 4,500 |
| D | 15,000 |
| Total | 30,000 |

The $15,000 representing the amount of D's capital account does not reflect the $500 basis adjustment arising from D's purchase of his interest. See example (2) of this paragraph. The adjusted basis of D's partnership interest determined under the alternative rule is as follows:

| | |
|---|---|
| D's share of the adjusted basis of partnership property (reduced by the amount of liabilities) at time of proposed sale | $15,000 |
| D's share of partnership liabilities (under the partnership agreement liabilities are shared equally) | 2,000 |
| D's basis adjustment from example (2) | 500 |
| Adjusted basis of D's interest at the time of proposed sale, as determined under alternative rule | 17,500 |

§ 1.706 *Statutory provisions; taxable years of partner and partnerships.*

SEC. 706. *Taxable years of partner and partnership*—(a) *Year in which partnership income is includible.* In computing the taxable income of a partner for a taxable year, the inclusions required by section 702 and section 707 (c) with respect to a partnership shall be based on the income, gain, loss, deduction, or credit of the partnership for any taxable year of the partnership ending within or with the taxable year of the partner.

(b) *Adoption of taxable year*—(1) *Partnership's taxable year.* The taxable year of a partnership shall be determined as though the partnership were a taxpayer. A partnership may not change to, or adopt, a taxable year other than that of all its principal partners unless it establishes, to the satisfaction of the Secretary or his delegate, a business purpose therefor.

(2) *Partner's taxable year.* A partner may not change to a taxable year other than that of a partnership in which he is a principal partner unless he establishes, to the satisfaction of the Secretary or his delegate, a business purpose therefor.

(3) *Principal partner.* For the purpose of this subsection, a principal partner is a partner having an interest of 5 percent or more in partnership profits or capital.

(c) *Closing of partnership year*—(1) *General rule.* Except in the case of a termination of a partnership and except as provided in paragraph (2) of this subsection, the taxable year of a partnership shall not close as the result of the death of a partner, the entry of a new partner, the liquidation of a part-

ner's interest in the partnership, or the sale or exchange of a partner's interest in the partnership.

(2) *Partner who retires or sells interest in partnership*—(A) *Disposition of entire interest.* The taxable year of a partnership shall close—

(1) With respect to a partner who sells or exchanges his entire interest in a partnership, and

(ii) With respect to a partner whose interest is liquidated, except that the taxable year of a partnership with respect to a partner who dies shall not close prior to the end of the partnership's taxable year.

Such partner's distributive share of items described in section 702 (a) for such year shall be determined, under regulations prescribed by the Secretary or his delegate, for the period ending with such sale, exchange, or liquidation.

(B) *Disposition of less than entire interest.* The taxable year of a partnership shall not close (other than at the end of a partnership's taxable year as determined under subsection (b) (1)) with respect to a partner who sells or exchanges less than his entire interest in the partnership or with respect to a partner whose interest is reduced, but such partner's distributive share of items described in section 702 (a) shall be determined by taking into account his varying interests in the partnership during the taxable year.

§ 1.706–1 *Taxable years or partner and partnership*—(a) *Year in which partnership income is includible.* (1) In computing his taxable income for a taxable year, a partner is required to include his distributive share of partnership items set forth in section 702 for any partnership year ending within or with his taxable year. A partner shall also include in his taxable income for a taxable year "guaranteed payments" under section 707 (c) which are made to him in a partnership taxable year ending within or with his taxable year. The provisions of this subparagraph may be illustrated by the following example:

*Example.* Partner A reports his income for a calendar year, while the partnership of which he is a member reports its income for a fiscal year ending May 31. During the partnership taxable year ending May 31, 1956, A received guaranteed payments of $1,200 for services and for the use of capital. Of this amount, $700 was received by A between June 1 and December 31, 1955, and the remaining $500 was received by him between January 1 and May 31, 1956. This entire $1,200 received by A is includible in his taxable income for the calendar year 1956 (together with his distributive share of partnership items set forth in section 702 for the partnership taxable year ending May 31, 1956).

(2) If a partner receives distributions under section 731 or sells or exchanges all or part of his partnership interest, any gain or loss arising therefrom does not constitute partnership income and is includible in the partner's gross income for his taxable year in which the payment is made. See sections 451 and 461.

(b) *Adoption or change in taxable year*—(1) *Partnership taxable year.* (i) The taxable year of a partnership shall be determined as though the partnership were a taxpayer.

(ii) A newly formed partnership may adopt a taxable year which is the same as the taxable year of all its principal partners (or the same as the taxable year to which all of its principal partners are concurrently changing) without securing prior approval from the Commissioner, or it may adopt a calendar year without securing prior approval from the Commissioner if all its principal partners are not on the same taxable year. In any other case, a newly formed partnership must secure prior approval from the Commissioner for the adoption of a taxable year.

(iii) An existing partnership may not change its taxable year without securing prior approval from the Commissioner, unless all its principal partners have the same taxable year to which the partnership changes, or unless all its principal partners concurrently change to such taxable year.

(2) *Partner's taxable year.* A partner may not change his taxable year without securing prior approval from the Commissioner. See section 442 and the regulations thereunder.

(3) *Principal partner.* For the purpose of this paragraph, a principal partner is a partner having an interest of 5 percent or more in partnership profits or capital.

(4) *Application for approval*—(i) *Change.* Application for a change in a taxable year shall be filed on Form 1128 with the Commissioner on or before the last day of the month following the close of the short period for which a return is required to effect the change of taxable year.

(ii) *Adoption.* Where a newly formed partnership is required to secure prior approval from the Commissioner for the adoption of a taxable year, the partnership shall file an application on Form 1128 with the Commissioner on or before the last day of the month following the close of the taxable year to be adopted. The partnership shall modify Form 1128 to the extent necessary to indicate that it is an application for adoption of a taxable year.

(iii) *Business purpose.* Where prior approval is required under this paragraph, the applicant must establish a business purpose to the satisfaction of the Commissioner. For example, partnership AB, which is on a calendar year, is engaged in a business which has a natural business year (the annual accounting period encompassing all related income and expenses) ending on September 30th. The intention of the partnership to make its tax year coincide with such natural business year constitutes a sufficient business purpose.

(5) *Returns*—(i) *Partner.* A partner who changes his taxable year shall make his return for a short period in accordance with section 443, and shall attach to the return a copy of the letter from the Commissioner granting approval for the change of taxable year.

(ii) *Partnership.* (a) A partnership which changes its taxable year shall make its return for a short period in accordance with section 443, but shall not annualize the partnership taxable income. The partnership shall attach to the return either a copy of the letter from the Commissioner granting approval of the change of taxable year, or a statement indicating that the partnership is changing its taxable year to the same taxable year as that of all its principal partners or to the same taxable year as that to which all its principal partners are concurrently changing.

(b) Any newly formed partnership shall file with its first return either:

(*1*) A copy of the letter from the Commissioner approving the adoption of a partnership taxable year which is not the same as the taxable year of all its principal partners; or

(2) A statement indicating that the taxable year it has adopted is the same as the taxable year of all its principal partners, or that all its principal partners are concurrently changing to the taxable year it has adopted; or

(3) A statement that all its principal partners are not on the same taxable year and that it is adopting a calendar year without prior approval.

(6) *Effective date.* Section 706 (b) applies to any partnership which adopts or changes to a taxable year beginning on or after April 2, 1954, and to any partner who changes to a taxable year beginning on or after that date. For the purpose of applying this provision, section 708 (relating to the continuation of a partnership) applies to any such taxable year. See section 771 (b) (1) and § 1.771–1 (b) (1). If a partnership has changed to or adopted, or if a partner has changed to, a taxable year beginning on or after April 2, 1954, without obtaining prior approval of the Commissioner, and if, under the provisions of this paragraph, prior approval is required for the change or adoption, such annual accounting period will not be accepted as a taxable year until approval thereof is secured. Under these circumstances, an application to change to or adopt the desired taxable year will be considered timely if filed within 90 days following the promulgation of the regulations under section 706.

(c) *Closing of partnership year*—(1) *General rule.* Section 706 (c) and this paragraph provide rules governing the closing of partnership years. The closing of a partnership taxable year or a termination of a partnership for Federal income tax purposes is not necessarily governed by the "dissolution", "liquidation", etc., of a partnership under State or local law. The taxable year of a partnership shall not close as the result of the death of a partner, the entry of a new partner, the liquidation of a partner's entire interest in the partnership (as defined in section 761 (d)), or the sale or exchange of a partner's interest in the partnership, except in the case of a termination of a partnership and except as provided in subparagraph (2) of this paragraph. In the case of termination, the partnership taxable year closes for all partners as of the date of termination. See section 708 (b) and § 1.708–1 (b).

(2) *Partner who retires or sells interest in partnership*—(i) *Disposition of entire interest.* A partnership taxable year shall close with respect to a partner who sells or exchanges his entire interest in a partnership, and with respect to a partner whose entire interest is liquidated. However, a partnership taxable year with respect to a partner who dies shall not close prior to the end of such partnership taxable year, or the time

when such partner's interest (held by his estate or other successor) is liquidated or sold or exchanged, whichever is earlier. See subparagraph (3) of this paragraph.

(ii) *Inclusions in taxable income.* In the case of a sale, exchange, or liquidation of a partner's entire interest in a partnership, the partner shall include in his taxable income for his taxable year within or with which his membership in the partnership ends, his distributive share of items described in section 702 (a), and any guaranteed payments under section 707 (c), for his partnership taxable year ending with the date of such sale, exchange, or liquidation. In order to avoid an interim closing of the partnership books, such partner's distributive share of items described in section 702 (a) may, by agreement among the partners, be estimated by taking his pro rata part of the amount of such items he would have included in his taxable income had he remained a partner until the end of the partnership taxable year. The proration may be based on the portion of the taxable year that has elapsed prior to the sale, exchange, or liquidation, or may be determined under any other method that is reasonable. Any partner who is the transferee of such partner's interest shall include in his taxable income, as his distributive share of items described in section 702 (a) with respect to the acquired interest, the pro rata part (determined by the method used by the transferor partner) of the amount of such items he would have included had he been a partner from the beginning of the taxable year of the partnership. The application of this subdivision may be illustrated by the following example:

*Example.* Assume that a partner selling his partnership interest on June 30, 1955, has an adjusted basis for his interest of $5,000 on that date; that his pro rata share of partnership income up to June 30 is $15,000; and that he sells his interest for $20,000. Under the provisions of section 706 (c) (2), the partnership year with respect to him closes at the time of the sale. The $15,000 is includible in his income as his distributive share and, under section 705, it increases the basis of his partnership interest to $20,000, which is also the selling price of his interest. Therefore, no gain is realized on the sale of his partnership interest. The purchaser of this partnership interest shall include in his income as his distributive share his pro rata part of partnership income for the remainder of the partnership taxable year.

(3) *Partner who dies.* (i) When a partner dies, the partnership taxable year shall not close with respect to such partner prior to the end of the partnership taxable year. The partnership taxable year shall continue both for the remaining partners and the decedent partner. Where the death of a partner results in the termination of the partnership, the partnership taxable year shall close for all partners on the date of such termination under section 708 (b) (1) (A). See also § 1.708–1 (b) (1) (i) (*b*) for the continuation of a 2-member partnership under certain circumstances after the death of a partner. However, if the decedent partner's estate or other successor sells or exchanges its entire interest in the partnership, or if its entire interest is liquidated, the partnership taxable year with respect to the estate or other succession in interest close on the date of such sale or exchange, or the date of completion of the liquidation.

(ii) The last return of a decedent partner shall include only his share of partnership taxable income for any partnership taxable year or years ending within or with the last taxable year for such decedent partner (i. e., the year ending with the date of his death). The distributive share of partnership taxable income for a partnership taxable year ending after the decedent's last taxable year is includible in the return of his estate or other successor in interest. If the estate or other successor in interest of a partner continues to share in the profits or losses of the partnership business, the distributive share thereof is includible in the taxable year of the estate or other successor in interest within or with which the taxable year of the partnership ends. See also § 1.736–1 (a) (1) (ii). Where the estate or other successor in interest receives distributions, any gain or loss on such distributions is includible in its gross income for its taxable year in which the distribution is made.

(iii) If a partner (or a retiring partner), in accordance with the terms of the partnership agreement, designates a person to succeed to his interest in the partnership after his death, such designated person shall be regarded as a successor in interest of the deceased for purposes of this chapter. Thus, where a partner designates his widow as the successor in interest, her distributive share of income for the taxable year of the partnership ending within or with her taxable year may be included in a joint return in accordance with the provisions of sections 2 and 6013 (a) (2) and (3).

(iv) If, under the terms of an agreement existing at the date of death of a partner, a sale or exchange of the decedent partner's interest in the partnership occurs upon that date, then the taxable year of the partnership with respect to such decedent partner shall close upon the date of death. See section 706 (c) (2) (A) (i). The sale or exchange of a partnership interest does not, for the purpose of this rule, include any transfer of a partnership interest which occurs at death as a result of inheritance or any testamentary disposition.

(v) To the extent that any part of a distributive share of partnership income of the estate or other successor in interest of a deceased partner is attributable to the decedent for the period ending with the date of his death, such part of the distributive share is income in respect of the decedent under section 691. See section 691 and the regulations thereunder.

(vi) The provisions of this subparagraph may be illustrated by the following examples:

*Example (1).* B has a taxable year ending December 31 and is a member of partnership ABC, the taxable year of which ends on June 30. B dies on October 31, 1955. His estate (which as a new taxpayer may, under section 441 and the regulations thereunder, adopt any taxable year) adopts a taxable year ending October 31. The return of the decedent for the period January 1 to October 31, 1955, will include only his distributive share of taxable income of the partnership for its taxable year ending June 30, 1955. The distributive share of taxable income of the partnership for its taxable year ending June 30, 1956, arising from the interest of the decedent, will be includible in the return of the estate for its taxable year ending October 31, 1956. That part of the distributive share attributable to the decedent for the period ending with the date of his death (July 1 through October 31, 1955) is income in respect of a decedent under section 691.

*Example (2).* Assume the same facts as in example (1) of this subdivision, except that, prior to B's death, B and D had agreed that, upon B's death, D would purchase B's interest for $10,000. When B dies on October 31, 1955, the partnership taxable year beginning July 1, 1955, closes with respect to him. Therefore, the return for B's last taxable year (January 1 to October 31, 1955) will include his distributive share of taxable income of the partnership for its taxable year ending June 30, 1955, plus his distributive share of partnership taxable income for the period July 1 to October 31, 1955. See subdivision (iv) of this subparagraph.

*Example (3).* H is a member of a partnership having a taxable year ending December 31. Both H and his wife W are on a calendar year and file joint returns. H dies on March 31, 1955. Administration of the estate is completed and the estate, including the partnership interest, is distributed to W as legatee on November 30, 1955. Such distribution by the estate is not a sale or exchange of H's partnership interest. No part of the taxable income of the partnership for the taxable year ending December 31, 1955, which is allocable to H, will be included in H's taxable income for his last taxable year (January 1 through March 31, 1955) or in the taxable income of H's estate for the taxable year April 1 through November 30, 1955. The distributive share of partnership taxable income for the full calendar year that is allocable to H will be includible in the taxable income of W for her taxable year ending December 31, 1955, and she may file a joint return under sections 2 and 6013 (a) (3). That part of the distributive share attributable to the decedent for the period ending with the date of his death (January 1 through March 31, 1955) is income in respect of a decedent under section 691.

*Example (4).* M is a member of partnership JKM which operates on a calendar year. M and his wife S file joint returns for calendar years. In accordance with the partnership agreement, M designated S to succeed to his interest in the partnership upon his death. M, who had withdrawn $10,000 from the partnership before his death, dies on October 20, 1955. S's distributive share of income for the taxable year 1955 is $15,000 ($10,000 of which represents the amount withdrawn by M). S shall include $15,000 in her income, even though M received $10,000 of this amount before his death. S may file a joint return with M for the year 1955 under sections 2 and 6013 (a). That part of the $15,000 distributive share attributable to the decedent for the period ending with the date of his death (January 1 through October 20, 1955) is income in respect of a decedent under section 691.

(4) *Disposition of less than entire interest.* If a partner sells or exchanges a part of his interest in a partnership, or if the interest of a partner is reduced, the partnership taxable year shall continue to its normal end. In such case, the partner's distributive share of items which he is required to include in his taxable income under the provisions of section 702 (a) shall be determined by taking into account his varying interests

in the partnership during the partnership taxable year in which such sale, exchange, or reduction of interest occurred.

(5) *Transfer of interest by gift.* The transfer of a partnership interest by gift does not close the partnership taxable year with respect to the donor. However, the income up to the date of gift attributable to the donor's interest shall be allocated to him under section 704 (e) (2).

§ 1.707 *Statutory provisions; transactions between partner and partnership.*

SEC. 707. *Transactions between partner and partnership*—(a) *Partner not acting in capacity as partner.* If a partner engages in a transaction with a partnership other than in his capacity as a member of such partnership, the transaction shall, except as otherwise provided in this section, be considered as occurring between the partnership and one who is not a partner.

(b) *Certain sales or exchanges of property with respect to controlled partnerships*—(1) *Losses disallowed.* No deduction shall be allowed in respect of losses from sales or exchanges of property (other than an interest in the partnership), directly or indirectly, between—

(A) A partnership and a partner owning, directly or indirectly more than 50 percent of the capital interest, or the profits interest, in such partnership, or

(B) Two partnerships in which the same persons own, directly or indirectly, more than 50 percent of the capital interests or profits interests.

In the case of a subsequent sale or exchange by a transferee described in this paragraph, section 267 (d) shall be applicable as if the loss were disallowed under section 267 (a) (1).

(2) *Gains treated as ordinary income.* In the case of a sale or exchange, directly or indirectly, of property, which in the hands of the transferee, is property other than a capital asset as defined in section 1221—

(A) Between a partnership and a partner owning, directly or indirectly, more than 80 percent of the capital interest, or profits interest, in such partnership, or

(B) Between two partnerships in which the same persons own, directly or indirectly, more than 80 percent of the capital interests or profits interests,

any gain recognized shall be considered as gain from the sale or exchange of property other than a capital asset.

(3) *Ownership of a capital or profits interest.* For purposes of paragraphs (1) and (2) of this subsection, the ownership of a capital or profits interest in a partnership shall be determined in accordance with the rules for constructive ownership of stock provided in section 267 (c) other than paragraph (3) of such section.

(c) *Guaranteed payments.* To the extent determined without regard to the income of the partnership, payments to a partner for services or the use of capital shall be considered as made to one who is not a member of the partnership, but only for the purposes of section 61 (a) (relating to gross income) and section 162 (a) (relating to trade or business expenses).

§ 1.707–1 *Transactions between partner and partnership*—(a) *Partner not acting in capacity as partner.* A partner who engages in a transaction with a partnership other than in his capacity as a partner shall be treated as if he were not a member of the partnership with respect to such transaction. Such transactions include, for example, loans of money or property by the partnership to the partner or by the partner to the partnership, the sale of property by the partner to the partnership, the purchase of property by the partner from the partnership, and the rendering of services by the partnership to the partner or by the partner to the partnership. Where a partner retains the ownership of property but allows the partnership to use such separately owned property for partnership purposes (for example, to obtain credit or to secure firm creditors by guaranty, pledge, or other agreement) the transaction is treated as one between a partnership and a partner not acting in his capacity as a partner. However, transfers of money or property by a partner to a partnership as contributions, or transfers of money or property by a partnership to a partner as distributions, are not transactions included within the provisions of this section. In all cases, the substance of the transaction will govern rather than its form. See § 1.731–1 (c) (3).

(b) *Certain sales or exchanges of property with respect to controlled partnerships*—(1) *Losses disallowed.* (i) No deduction shall be allowed for a loss on a sale or exchange of property (other than an interest in the partnership), directly or indirectly, between a partnership and a partner who owns, directly or indirectly, more than 50 percent of the capital interest or profits interest in such partnership. A loss on a sale or exchange of property, directly or indirectly, between two partnerships in which the same persons own, directly or indirectly, more than 50 percent of the capital interest or profits interests in each partnership shall not be allowed.

(ii) If a gain is realized upon the subsequent sale or exchange by a transferee of property with respect to which a loss was disallowed under the provisions of subdivision (i) of this subparagraph, section 267 (d) (relating to amount of gain where loss previously disallowed) shall apply as though the loss were disallowed under section 267 (a) (1).

(2) *Gains treated as ordinary income.* Any gain recognized upon the sale or exchange, directly or indirectly, of property which, in the hands of the transferee immediately after the transfer, is property other than a capital asset, as defined in section 1221, shall be ordinary income if the transaction is between a partnership and a partner who owns, directly or indirectly, more than 80 percent of the capital interest or profits interest in the partnership. This rule also applies where such a transaction is between partnerships in which the same persons own, directly or indirectly, more than 80 percent of the capital interests or profits interests in each partnership. The term "property other than a capital asset" includes (but is not limited to) trade accounts receivable, inventory, stock in trade, and depreciable or real property used in the trade or business.

(3) *Ownership of capital or profits interest.* For the purpose of section 707 (b) and this paragraph, the ownership of a capital interest or profits interest in a partnership shall be determined in accordance with the rules for constructive ownership of stock provided in section 267 (c) (1), (2), (4), and (5). Under these rules, ownership of a capital or profits interest in a partnership may in certain circumstances be attributed to a person who is not a partner as defined in section 761 (b).

(c) *Guaranteed payments.* Payments made by a partnership to a partner for services or for the use of capital are considered as made to a person who is not a partner, to the extent such payments are determined without regard to the income of the partnership. However, a partner must include such payments as ordinary income for his taxable year within or with which ends the partnership taxable year in which the partnership deducted such payments as paid or accrued under its method of accounting. See section 706 (a) and § 1.706–1 (a). Guaranteed payments are considered as made to one who is not a member of the partnership, only for the purposes of section 61 (a) (relating to gross income) and section 162 (a) (relating to trade or business expenses). They do not constitute an interest in partnership profits for purposes of sections 706 (b) (3), 707 (b), and 708 (b). For the purposes of other provisions of the internal revenue laws, guaranteed payments are regarded as a partner's distributive share of ordinary income. Thus, a partner who receives guaranteed payments for a period during which he is absent from work because of personal injuries or sickness is not entitled to exclude such payments from his gross income under section 105 (d). Similarly, a partner who receives guaranteed payments is not regarded as an employee of the partnership for the purposes of withholding of tax at source, deferred compensation plans, etc. The provisions of this paragraph may be illustrated by the following examples:

*Example (1).* Under the ABC partnership agreement, partner A is entitled to a fixed annual payment of $10,000 for services, without regard to the income of the partnership. His distributive share is 10 percent. After deducting the guaranteed payment, the partnership has $50,000 ordinary income. A must include $15,000 as ordinary income for his taxable year within or with which the partnership taxable year ends ($10,000 guaranteed payment plus $5,000 distributive share).

*Example (2).* Partner C in the CD partnership is to receive 30 percent of partnership income as determined before taking into account any guaranteed payments, but not less than $10,000. The income of the partnership is $60,000, and C is entitled to $18,000 (30 percent of $60,000) as his distributive share. No part of this amount is a guaranteed payment. However, if the partnership had income of $20,000 instead of $60,000, $6,000 (30 percent of $20,000) would be partner C's distributive share, and the remaining $4,000 payable to C would be a guaranteed payment.

*Example (3).* Partner X in the XY partnership is to receive a payment of $10,000 for services, plus 30 percent of the taxable income or loss of the partnership. After deducting the payment of $10,000 to partner X, the XY partnership has a loss of $9,000. Of this amount, $2,700 (30 percent of the loss) is X's distributive share of partnership loss and, subject to section 704 (d), is to be taken into account by him in his return. In addition, he must report as ordinary income the guaranteed payment of $10,000 made to him by the partnership.

*Example (4).* Assume the same facts as in example (3) of this paragraph except that, instead of a $9,000 loss, the partnership has $30,000 in capital gains and no other items of income or deduction except the $10,000 paid X as a guaranteed payment. Since the items of partnership income or loss must be segregated under section 702 (a), the partnership has a $10,000 ordinary loss and $30,000 in capital gains. X's 30 percent distributive shares of these amounts are $3,000 ordinary loss and $9,000 capital gain. In addition, X has received a $10,000 guaranteed payment which is ordinary income to him.

§ 1.708 *Statutory provisions; continuation of partnership.*

SEC. 708. *Continuation of partnership*—(a) *General rule.* For purposes of this subchapter, an existing partnership shall be considered as continuing if it is not terminated.

(b) *Termination*—(1) *General rule.* For purposes of subsection (a), a partnership shall be considered as terminated only if—

(A) No part of any business, financial operation, or venture of the partnership continues to be carried on by any of its partners in a partnership, or

(B) Within a 12-month period there is a sale or exchange of 50 percent or more of the total interest in partnership capital and profits.

(2) *Special rules*—(A) *Merger or consolidation.* In the case of the merger or consolidation of two or more partnerships, the resulting partnership shall, for purposes of this section, be considered the continuation of any merging or consolidating partnership whose members own an interest of more than 50 percent in the capital and profits of the resulting partnership.

(B) *Division of a partnership.* In the case of a division of a partnership into two or more partnerships, the resulting partnerships (other than any resulting partnership the members of which had an interest of 50 percent or less in the capital and profits of the prior partnership) shall, for purposes of this section, be considered a continuation of the prior partnership.

§ 1.708–1 *Continuation of partnership*—(a) *General rule.* For purposes of subchapter K, an existing partnership shall be considered as continuing if it is not terminated.

(b) *Termination*—(1) *General rule.* (i) A partnership shall terminate when the operations of the partnership are discontinued and no part of any business, financial operation, or venture of the partnership continues to be carried on by any of its partners in a partnership. For example, on November 20, 1956, A and B, each of whom is a 20-percent partner in partnership ABC, sell their interests to C, who is a 60-percent partner. Since the business is no longer carried on by any of its partners in a partnership, the ABC partnership is terminated as of November 20, 1956. However, where partners DEF agree on April 30, 1957, to dissolve their partnership, but carry on the business through a winding up period ending September 30, 1957, when all remaining assets, consisting only of cash, are distributed to the partners, the partnership does not terminate because of cessation of business until September 30, 1957.

(*a*) Upon the death of one partner in a 2-member partnership, the partnership shall not be considered as terminated if the estate or other successor in interest of the deceased partner continues to share in the profits or losses of the partnership business.

(*b*) For the continuation of a partnership where payments are being made under section 736 (relating to payments to a retiring partner or a deceased partner's successor in interest), see § 1.736–1 (a) (6).

(ii) A partnership shall terminate when 50 percent or more of the total interest in partnership capital and profits is sold or exchanged within a period of 12 consecutive months. Such sale or exchange includes a sale or exchange to another member of the partnership. However, a disposition of a partnership interest by gift (including assignment to a successor in interest), bequest, or inheritance, or the liquidation of a partnership interest, is not a sale or exchange for purposes of this subparagraph. Furthermore, the contribution of property to a partnership does not constitute such a sale or exchange. See, however, § 1.731–1 (c) (3). Fifty percent or more of the total interest in partnership capital and profits means 50 percent or more of the total interest in partnership capital plus 50 percent or more of the total interest in partnership profits. Thus, the sale of a 30-percent interest in partnership capital and a 60-percent interest in partnership profits is not the sale or exchange of 50 percent or more of the total interest in partnership capital and profits. If one or more partners sell or exchange interests aggregating 50 percent or more of the total interest in partnership capital and 50 percent or more of the total interest in partnership profits within a period of 12 consecutive months, such sale or exchange is considered as being within the provisions of this subparagraph. When interests are sold or exchanged on different dates, the percentages to be added are determined as of the date of each sale. For example, with respect to the ABC partnership, the sale by A on May 12, 1956, of a 30-percent interest in capital and profits to D, and the sale by B on March 27, 1957, of a 30-percent interest in capital and profits to E, is a sale of a 50-percent or more interest. Accordingly, the partnership is terminated as of March 27, 1957. However, if, on March 27, 1957, D instead of B, sold his 30-percent interest in capital and profits to E, there would be no termination since only one 30-percent interest would have been sold or exchanged within a 12-month period.

(iii) For purposes of subchapter K, a partnership taxable year closes with respect to all partners on the date on which the partnership terminates. See section 706 (c) (1) and § 1.706–1 (c) (1). The date of termination is:

(*a*) For purposes of section 708 (b) (1) (A), the date on which the winding up of the partnership affairs is completed.

(*b*) For purposes of section 708 (b) (1) (B), the date of the sale or exchange of a partnership interest which, of itself or together with sales or exchanges in the preceding 12 months, transfers an interest of 50 percent or more in both partnership capital and profits.

(iv) If a partnership is terminated by a sale or exchange of an interest, the following is deemed to occur: The partnership distributes its properties to the purchaser and the other remaining partners in proportion to their respective interests in the partnership properties; and, immediately thereafter, the purchaser and the other remaining partners contribute the properties to a new partnership, either for the continuation of the business or for its dissolution and winding up. In the latter case, the new partnership terminates in accordance with subdivision (i) of this subparagraph. See sections 731 and 732 and §§ 1.731–1 and 1.732–1. For election of basis adjustments by the purchaser and other remaining partners, see sections 732 (d) and 743 (b) and §§ 1.732–1 (d) and 1.743–1 (b).

(2) *Special rules*—(i) *Merger or consolidation.* If two or more partnerships merge or consolidated into one partnership, the resulting partnership shall be considered a continuation of the merging or consolidating partnership the members of which own an interest of more than 50 percent in the capital and profits of the resulting partnership. If the resulting partnership can, under the preceding sentence, be considered a continuation of more than one of the merging or consolidating partnerships, it shall, unless the Commissioner permits otherwise, be considered the continuation of that partnership which is credited with the contribution of the greatest dollar value of assets to the resulting partnership. Any other merging or consolidating partnerships shall be considered as terminated. If the members of none of the merging or consolidating partnerships have an interest of more than 50 percent in the capital and profits of the resulting partnership, all of the merged or consolidated partnerships are terminated, and a new partnership results. The taxable years of such merging or consolidating partnerships which are considered terminated shall be closed in accordance with the provisions of section 706 (c), and such partnerships shall file their returns for a taxable year ending upon the date of termination, i. e., the date of merger or consolidation. The resulting partnership shall file a return for the taxable year of the merging or consolidating partnership that is considered as continuing. The return shall state that the resulting partnership is a continuation of such merging or consolidating partnership and shall include the names and addresses of the merged or consolidated partnerships. The respective distributive shares of the partners for the periods prior to and subsequent to the date of merger or consolidation shall be shown as a part of the return. The provisions of this subdivision may be illustrated by the following example:

*Example.* Partnership AB, in whose capital and profits A and B each own a 50-percent interest, and partnership CD, in whose capital and profits C and D each own a 50-percent interest, merge on September 30, 1955, and form partnership ABCD. Partners A, B, C, and D are on a calendar year; partnership AB is also on a calendar year; and partnership CD is on a fiscal year ending June 30th. After the merger, the partners have capital and profits interests as follows: A, 30 percent; B, 30 percent; C, 20 percent; and D, 20 percent. Since A and B together own an interest of more than 50 percent in the capital and profits of partnership ABCD, such partnership shall be

considered a continuation of partnership AB and shall continue to file returns on a calendar year basis. Since C and D own an interest of less than 50 percent in the capital and profits of partnership ABCD, the taxable year of partnership CD closes as of September 30, 1955, the date of the merger, and CD partnership is terminated as of that date. Partnership ABCD is required to file a return for the taxable year January 1 to December 31, 1955, indicating thereon that, until September 30, 1955, it was partnership AB. Partnership CD is required to file a return for its final taxable year, July 1 through September 30, 1955.

(ii) *Division of a partnership.* Upon the division of a partnership into two or more partnerships, any resulting partnership or partnerships shall be considered a continuation of the prior partnership if its members had an interest of more than 50 percent in the capital and profits of the prior partnership. Any other resulting partnership will not be considered a continuation of the prior partnership but will be considered a new partnership. If the members of none of the resulting partnerships owned an interest of more than 50 percent in the capital and profits of the divided partnership, the divided partnership is terminated. Where members of a partnership which has been divided into two or more partnerships do not become members of a resulting partnership which is considered a continuation of the prior partnership, such partner's interests shall be considered liquidated as of the date of the division. The resulting partnership that is regarded as continuing shall file a return for the taxable year of the partnership that has been divided. The return shall state that the partnership is a continuation of the divided partnership and shall set forth separately the respective distributive shares of the partners for the periods prior to and subsequent to the date of division. The provisions of this subdivision may be illustrated by the following example:

*Example.* Partnership ABCD is in the real estate and insurance business. A owns a 40-percent interest, and B, C, and D each owns a 20-percent interest, in the capital and profits of the partnership. The partnership and the partners report their income on a calendar year. They agree to separate the real estate and insurance business as of November 1, 1955, and to form two partnerships; partnership AB to take over the real estate business, and partnership CD to take over the insurance business. Since members of resulting partnership AB owned more than a 50-percent interest in the capital and profits of partnership ABCD (A, 40 percent, and B, 20 percent), partnership AB shall be considered a continuation of partnership ABCD. Partnership AB is required to file a return for the taxable year January 1 to December 31, 1955, indicating thereon that until November 1, 1955, it was partnership ABCD. In forming partnership CD, partners C and D may contribute the property distributed to them in liquidation of their entire interests in divided partnership ABCD. Partnership CD will be required to file a return for the taxable year it adopts pursuant to section 706 (b) and § 1.706–1 (b).

CONTRIBUTIONS, DISTRIBUTIONS, AND TRANSFERS

*Contributions to a Partnership*

§ 1.721 *Statutory provisions; nonrecognition of gain or loss on contribution.*

SEC. 721. *Nonrecognition of gain or loss on contribution.* No gain or loss shall be recognized to a partnership or to any of its partners in the case of a contribution of property to the partnership in exchange for an interest in the partnership.

§ 1.721–1 *Nonrecognition of gain or loss on contribution.* (a) No gain or loss shall be recognized either to the partnership or to any of its partners upon a contribution of property, including installment obligations, to the partnership in exchange for a partnership interest. This rule applies whether the contribution is made to a partnership in the process of formation or to a partnership which is already formed and operating. Section 721 shall not apply to a transaction between a partnership and a partner not acting in his capacity as a partner since such a transaction is governed by section 707. Rather than contributing property to a partnership, a partner may sell property to the partnership or may retain the ownership of property and allow the partnership to use it. In all cases, the substance of the transaction will govern, rather than its form. See § 1.731–1 (c) (3). Thus, if the transfer of property by the partner to the partnership results in the receipt by the partner of money or other consideration, including a promissory obligation fixed in amount and time for payment, the transaction will be treated as a sale or exchange under section 707 rather than as a contribution under section 721. For the rules governing the treatment of liabilities to which contributed property is subject, see section 752 and § 1.752–1.

(b) (1) Normally, under local law, each partner is entitled to be repaid his contributions of money or other property to the partnership (at the value placed upon such property by the partnership at the time of the contribution) whether made at the formation of the partnership or subsequent thereto. To the extent that any of the partners gives up any part of his right to be repaid his contributions (as distinguished from a share in partnership profits) in favor of another partner as compensation for services (or in satisfaction of an obligation), section 721 does not apply. The value of an interest in such partnership capital so transferred to a partner as compensation for services constitutes income to the partner under section 61. The amount of such income is the fair market value of the interest in capital so transferred, either at the time the transfer is made for past services, or at the time the services have been rendered where the transfer is conditioned on the completion of the transferee's future services. The time when such income is realized depends on all the facts and circumstances, including any substantial restrictions or conditions on the compensated partner's right to withdraw or otherwise dispose of such interest. To the extent that an interest in capital representing compensation for services rendered by the decedent prior to his death is transferred after his death to the decedent's successor in interest, the fair market value of such interest is income in respect of a decedent under section 691.

(2) To the extent that the value of such interest is: (i) compensation for services rendered to the partnership, it is a guaranteed payment for services under section 707 (c); (ii) compensation for services rendered to a partner, it is not deductible by the partnership, but is deductible only by such partner to the extent allowable under this chapter.

§ 1.722 *Statutory provisions; basis of contributing partner's interest.*

SEC. 722. *Basis of contributing partner's interest.* The basis of an interest in a partnership acquired by a contribution of property, including money, to the partnership shall be the amount of such money and the adjusted basis of such property to the contributing partner at the time of the contribution.

§ 1.722–1 *Basis of contributing partner's interest.* The basis to a partner of a partnership interest acquired by a contribution of property, including money, to the partnership shall be the amount of money contributed plus the adjusted basis at the time of contribution of any property contributed. If the acquisition of an interest in partnership capital results in taxable income to a partner, such income shall constitute an addition to the basis of the partner's interest. See § 1.721–1 (b). If the contributed property is subject to indebtedness or if liabilities of the partner are assumed by the partnership, the basis of the contributing partner's interest shall be reduced by the portion of the indebtedness assumed by the other partners, since the partnership's assumption of his indebtedness is treated as a distribution of money to the partner. Conversely, the assumption by the other partners of a portion of the contributor's indebtedness is treated as a contribution of money by them. See section 752 and § 1.752–1. The provisions of this section may be illustrated by the following examples:

*Example (1).* A acquired a 20-percent interest in a partnership by contributing property. At the time of A's contribution, the property had a fair market value of $10,000, an adjusted basis to A of $4,000, and was subject to a mortgage of $2,000. Payment of the mortgage was assumed by the partnership. The basis of A's interest in the partnership is $2,400, computed as follows:

| | |
|---|---|
| Adjusted basis to A of property contributed | $4,000 |
| Less portion of mortgage assumed by other partners which must be treated as a distribution (80 percent of $2,000) | 1,600 |
| Basis of A's interest | 2,400 |

*Example (2).* If, in example (1) of this section, the property contributed by A was subject to a mortgage of $6,000, the basis of A's interest would be zero, computed as follows:

| | |
|---|---|
| Adjusted basis to A of property contributed | $4,000 |
| Less portion of mortgage assumed by other partners which must be treated as a distribution (80 percent of $6,000) | 4,800 |
| | (800) |

Since A's basis cannot be less than zero, the $800 in excess of basis, which is considered as a distribution of money under section 752 (b), is treated as capital gain from the sale or exchange or a partnership interest. See section 731 (a).

§ 1.723 *Statutory provisions; basis of property contributed to partnership.*

SEC. 723. *Basis of property contributed to partnership.* The basis of property contributed to a partnership by a partner shall be the adjusted basis of such property to the contributing partner at the time of the contribution.

§ 1.723–1 *Basis of property contributed to partnership.* The basis to the partnership of property contributed to it by a partner is the adjusted basis of such property to the contributing partner at the time of the contribution. Since such property has the same basis in the hands of the partnership as it had in the hands of the contributing partner, the holding period of such property for the partnership includes the period during which it was held by the partner. See section 1223 (2). For elective adjustments to the basis of partnership property arising from distributions or transfers of partnership interests, see sections 732 (d), 734 (b), and 743 (b).

*Distributions by a Partnership*

§ 1.731 *Statutory provisions; extent of recognition of gain or loss on distribution.*

SEC. 731. *Extent of recognition of gain or loss on distribution.*—(a) *Partners.* In the case of a distribution by a partnership to a partner—

(1) Gain shall not be recognized to such partner, except to the extent that any money distributed exceeds the adjusted basis of such partner's interest in the partnership immediately before the distribution, and

(2) Loss shall not be recognized to such partner, except that upon a distribution in liquidation of a partner's interest in a partnership where no property other than that described in subparagraph (A) or (B) is distributed to such partner, loss shall be recognized to the extent of the excess of the adjusted basis of such partner's interest in the partnership over the sum of—

(A) Any money distributed, and

(B) The basis to the distributee, as determined under section 732, of any unrealized receivables (as defined in section 751 (c)) and inventory (as defined in section 751 (d) (2)).

Any gain or loss recognized under this subsection shall be considered as gain or loss from the sale or exchange of the partnership interest of the distributee partner.

(b) *Partnerships.* No gain or loss shall be recognized to a partnership on a distribution to a partner of property, including money.

(c) *Exceptions.* This section shall not apply to the extent otherwise provided by section 736 (relating to payments to a retiring partner or a deceased partner's successor in interest) and section 751 (relating to unrealized receivables and inventory items).

§ 1.731–1 *Extent of recognition of gain or loss on distribution.*—(a) *Recognition of gain or loss to partner.*—(1) *Recognition of gain.* (i) Where money is distributed by a partnership to a partner, no gain shall be recognized to the partner except to the extent that the amount of money distributed exceeds the adjusted basis of the partner's interest in the partnership immediately before the distribution. This rule is applicable both to current distributions (i. e., distributions other than in liquidation of an entire interest) and to distributions in liquidation of a partner's entire interest in a partnership. Thus, if a partner with a basis for his interest of $10,000 receives a distribution of cash of $8,000 and property with a fair market value of $3,000, no gain is recognized to him. If $11,000 cash were distributed, gain would be recognized to the extent of $1,000. No gain shall be recognized to a distributee partner with respect to a distribution of property (other than money) until he sells or otherwise disposes of such property, except to the extent otherwise provided by section 736 (relating to payments to a retiring partner or a deceased partner's successor in interest) and section 751 (relating to unrealized receivables and inventory items). See section 731 (c) and paragraph (c) of this section.

(ii) For the purposes of sections 731 and 705, advances or drawings of money or property against a partner's distributive share of income shall be treated as current distributions made on the last day of the partnership taxable year with respect to such partner.

(2) *Recognition of loss.* Loss is recognized to a partner only upon liquidation of his entire interest in the partnership, and only if the property distributed to him consists solely of money, unrealized receivables (as defined in section 751 (c)), and inventory items (as defined in section 751 (d) (2)). The term "liquidation of a partner's interest", as defined in section 761 (d), is the termination of the partner's entire interest in the partnership by means of a distribution or a series of distributions. Loss is recognized to the distributee partner in such cases to the extent of the excess of the adjusted basis of such partner's interest in the partnership at the time of the distribution over the sum of—

(i) Any money distributed to him, and

(ii) The basis to the distributee, as determined under section 732, of any unrealized receivables and inventory items that are distributed to him.

If the partner whose interest is liquidated receives any property other than money, unrealized receivables, or inventory items, then no loss will be recognized. Application of the provisions of this subparagraph may be illustrated by the following examples:

*Example (1).* Partner A has a partnership interest in partnership ABC with an adjusted basis to him of $10,000. He retires from the partnership and receives, as a distribution in liquidation of his entire interest, his share of partnership property. This share is $5,000 cash and inventory with a basis to him (under section 732) of $3,000. Partner A realizes a capital loss of $2,000, which is recognized under section 731 (a) (2).

*Example (2).* Partner B has a partnership interest in partnership BCD with an adjusted basis to him of $10,000. He retires from the partnership and receives, as a distribution in liquidation of his entire interest, his share of partnership property. This share is $4,000 cash, real property (used in the trade or business) with an adjusted basis to the partnership of $2,000, and unrealized receivables having a basis to him (under section 732) of $3,000. No loss will be recognized to B on the transaction because he received property other than money, unrealized receivables, and inventory items. As determined under section 732, the basis to B for the real property received is $3,000.

(3) *Character of gain or loss.* Gain or loss recognized under section 731 (a) on a distribution is considered gain or loss from the sale or exchange of the partnership interest of the distributee partner, that is, capital gain or loss.

(b) *Gain or loss recognized by partnership.* A distribution of property (including money) by a partnership to a partner does not result in recognized gain or loss to the partnership under section 731. However, recognized gain or loss may result to the partnership from certain distributions which, under section 751 (b), must be treated as a sale or exchange of property between the distributee partner and the partnership.

(c) *Exceptions.* (1) Section 731 does not apply to the extent otherwise provided by—

(i) Section 736 (relating to payments to a retiring partner or to a deceased partner's successor in interest), and

(ii) Section 751 (relating to unrealized receivables and inventory items).

For example, payments under section 736 (a), which are considered as a distributive share or guaranteed payment, are taxable as such under that section.

(2) The receipt by a partner from the partnership of money or property under an obligation to repay the amount of such money or to return such property does not constitute a distribution subject to section 731 but is a loan governed by section 707 (a). To the extent that such an obligation is canceled, the obligor partner will be considered to have received a distribution of money or property at the time of cancellation.

(3) If there is a contribution of property to a partnership and within a short period:

(i) Before or after such contribution other property is distributed to the contributing partner and the contributed property is retained by the partnership, or

(ii) After such contribution the contributed property is distributed to another partner,

such distribution may not fall within the scope of section 731. Section 731 does not apply to a distribution of property, if, in fact, the distribution was made in order to effect an exchange of property between two or more of the partners or between the partnership and a partner. Such a transaction shall be treated as an exchange of property.

§ 1.732 *Statutory provisions; basis of distributed property other than money.*

SEC. 732. *Basis of distributed property other than money.*—(a) *Distributions other than in liquidation of a partner's interest.*—(1) *General rule.* The basis of property (other than money) distributed by a partnership to a partner other than in liquidation of the partner's interest shall, except as provided in paragraph (2), be its adjusted basis to the partnership immediately before such distribution.

(2) *Limitation.* The basis to the distributee partner of property to which paragraph (1) is applicable shall not exceed the adjusted basis of such partner's interest in the

partnership reduced by any money distributed in the same transaction.

(b) *Distribution in liquidation.* The basis of property (other than money) distributed by a partnership to a partner in liquidation of the partner's interest shall be an amount equal to the adjusted basis of such partner's interest in the partnership reduced by any money distributed in the same transaction.

(c) *Allocation of basis.* The basis of distributed properties to which subsection (a) (2) or subsection (b) is applicable shall be allocated—

(1) First to any unrealized receivables (as defined in section 751 (c)) and inventory items (as defined in section 751 (d) (2)) in an amount equal to the adjusted basis of each such property to the partnership (or if the basis to be allocated is less than the sum of the adjusted bases of such properties to the partnership, in proportion to such bases), and

(2) To the extent of any remaining basis, to any other distributed properties in proportion to their adjusted bases to the partnership.

(d) *Special partnership basis to transferee.* For purposes of subsections (a), (b), and (c), a partner who acquired all or a part of his interest by a transfer with respect to which the election provided in section 754 is not in effect, and to whom a distribution of property (other than money) is made with respect to the transferred interest within 2 years after such transfer, may elect, under regulations prescribed by the Secretary or his delegate, to treat as the adjusted partnership basis of such property the adjusted basis such property would have if the adjustment provided in section 743 (b) were in effect with respect to the partnership property. The Secretary or his delegate may by regulations require the application of this subsection in the case of a distribution to a transferee partner, whether or not made within 2 years after the transfer, if at the time of the transfer the fair market value of the partnership property (other than money) exceeded 110 percent of its adjusted basis to the partnership.

(e) *Exception.* This section shall not apply to the extent that a distribution is treated as a sale or exchange of property under section 751 (b) (relating to unrealized receivables and inventory items).

§ 1.732–1 *Basis of distributed property other than money*—(a) *Distributions other than in liquidation of a partner's interest.* The basis of property (other than money) received by a partner in a distribution from a partnership, other than in liquidation of his entire interest, shall be its adjusted basis to the partnership immediately before such distribution. However, the basis of the property to the partner shall not exceed the adjusted basis of the partner's interest in the partnership, reduced by the amount of any money distributed to him in the same transaction. The provisions of this paragraph may be illustrated by the following examples:

*Example (1).* Partner A, with an adjusted basis of $15,000 for his partnership interest, receives in a current distribution property having an adjusted basis of $10,000 to the partnership immediately before distribution, and $2,000 cash. The basis of the property in A's hands will be $10,000. Under sections 733 and 705, the basis of A's partnership interest will be reduced by the distribution to $3,000 ($15,000, less $2,000 cash, less $10,000, the basis of the distributed property to A).

*Example (2).* Partner R has an adjusted basis of $10,000 for his partnership interest. He receives a current distribution of $4,000 cash and property with an adjusted basis to the partnership of $6,000. The basis of the distributed property to partner R is limited to $6,000 ($10,000, the adjusted basis of his interest, reduced by $4,000, the cash distributed).

(b) *Distribution in liquidation.* Where a partnership distributes property (other than money) in liquidation of a partner's entire interest in the partnership, the basis of such property to the partner shall be an amount equal to the adjusted basis of his interest in the partnership reduced by the amount of any money distributed to him in the same transaction. Application of this rule may be illustrated by the following example:

*Example.* Partner B, with a partnership interest having an adjusted basis to him of $12,000, retires from the partnership and receives cash of $2,000, and real property with an adjusted basis to the partnership of $6,000 and a fair market value of $14,000. The basis of the real property to B is $10,000 (B's basis for his partnership interest, $12,000, reduced by $2,000, the cash distributed).

(c) *Allocation of basis among properties distributed to a partner.* (1) Under section 732 (a) (2) or (b), the basis to be allocated to properties distributed to a partner shall be allocated first to any unrealized receivables (as defined in section 751 (c)) and inventory items (as defined in section 751 (d) (2)) included in the distribution. However, such receivables or inventory items may not take a higher basis in the hands of the partner than their common adjusted basis to the partnership immediately before the distribution, unless such distribution is treated as a sale or exchange under section 751 (b), or unless the distributee partner has a special basis adjustment for the distributed property under sections 732 (d) or 743 (b). Any basis not allocated to unrealized receivable or inventory items shall be allocated to any other properties distributed to the partner in the same transaction, in proportion to the bases of such other properties in the hands of the partnership before distribution. The provisions of this subparagraph may be illustrated by the following example:

*Example.* Partner A, whose partnership interest in partnership ABC has an adjusted basis of $15,000, receives as a distribution in liquidation of his entire interest inventory items having a basis to the partnership of $6,000. In addition, he receives cash of $5,000, and two parcels of real property with adjusted bases to the partnership of $6,000 and $2,000, respectively. Basis in the amount of $10,000 ($15,000 basis, less $5,000 cash received) is allocated $6,000 to inventory items, and $3,000 (6,000/8,000 x $4,000) and $1,000 (2,000/8,000 x $4,000), respectively, to the two parcels of real property.

(2) If the adjusted basis to the partnership of the unrealized receivables and inventory items distributed to a partner is greater than the partner's adjusted basis of his interest (reduced by the amount of money distributed to him in the same transaction), the amount of the basis to be allocated to such unrealized receivables and inventory items shall be allocated in proportion to the adjusted bases of such properties in the hands of the partnership. If the basis of the partner's interest to be allocated upon a distribution in liquidation of his entire interest is in excess of the adjusted basis to the partnership of the unrealized receivables and inventory items distributed, and if there is no other property distributed to which such excess can be allocated, the distributee partner sustains a capital loss under section 731 (a) (2) to the extent of the unallocated basis of his partnership interest. The provisions of this subparagraph may be illustrated by the following examples:

*Example (1).* Partner C, whose interest in partnership ABC has an adjusted basis to him of $9,000, receives as a distribution in liquidation cash of $6,000, inventory items having an adjusted basis to the partnership of $6,000, and real property having a basis to the partnership of $4,000. The cash payment reduces C's basis to $3,000, which is allocated entirely to inventory items. The real property has a zero basis in C's hands. The partnership bases not carried over to C for the distributed properties are lost unless an election under section 754 is in effect requiring the partnership to adjust the bases of remaining partnership properties under section 734 (b).

*Example (2).* Partner B, whose interest in partnership ABC has an adjusted basis to him of $9,000, receives as a distribution in liquidation cash of $1,000 and inventory items having a basis to the partnership of $6,000. The cash payment reduces B's basis to $8,000, which can be allocated only to the extent of $6,000 to the inventory items. The remaining $2,000 basis, not allocable to distributed property, constitutes a capital loss in that amount to partner B under section 731 (a) (2). If the election under section 754 is in effect, see section 734 (b) for adjustment of the basis of undistributed partnership property.

(d) *Special partnership basis to transferee under section 732 (d).* (1) (i) A transfer of a partnership interest occurs upon a sale or exchange of an interest or upon the death of a partner. Section 732 (d) provides a special rule for the determination of the basis of property distributed to a transferee partner who acquired any part of his partnership interest in a transfer with respect to which the election under section 754 (relating to the optional adjustment to basis of partnership property) was not in effect.

(ii) Where an election under section 754 is in effect, see section 743 (b) and §§ 1.743–1 (b) and 1.732–2.

(iii) If a transferee partner receives a distribution of property (other than money) from the partnership within 2 years after he acquired his interest or part thereof in the partnership by a transfer with respect to which the election under section 754 was not in effect, he may elect to treat as the adjusted partnership basis of such property the adjusted basis such property would have if the adjustment provided in section 743 (b) were in effect.

(iv) If an election under section 732 (d) is made upon a distribution of property to a transferee partner, the amount of the adjustment with respect to the transferee partner is not diminished by any depletion or depreciation of that portion of the basis of partnership property which arises from the special basis adjustment under section 732 (d), since depletion or depreciation on such portion

for the period prior to distribution is allowed or allowable only if the optional adjustment under section 743 (b) is in effect.

(v) If property is distributed to transferee partner who elects under section 732 (d), and if such property is not the same property which would have had a special basis adjustment, then such special basis adjustment shall apply to any like property received in the distribution, provided that the transferee, in exchange for the property distributed, has relinquished his interest in the property with respect to which he would have had a special basis adjustment. This rule applies whether the property in which the transferee has relinquished his interest is retained or disposed or by the partnership. (For shift of transferee's special basis adjustment to like property, see § 1.743–1 (b) (2) (ii).)

(vi) The provisions of this subparagraph may be illustrated by the following example:

*Example.* The basis to transferee partner K of his one-fourth interest in partnership WJKS is $17,000. At the time he acquired such interest by purchase, the election under section 754 was not in effect and the partnership inventory had a basis to the partnership of $14,000 and a value of $16,000. K's purchase price reflected $500 of this difference. Thus, $4,000 of the $17,000 paid by K for his one-fourth interest was attributable to his share of partnership inventory with a basis of $3,500. Within 2 years after acquiring his interest, K retired from the partnership and received in liquidation of his entire interest cash of $1,500, inventory with a basis to the partnership of $3,500, property X (a capital asset), with an adjusted basis to the partnership of $2,000, and property Y (a depreciable asset), with an adjusted basis to the partnership of $4,000. The value of the inventory received by K was one-fourth of the value of all partnership inventory and was his share of such property. It is immaterial whether the inventory K received was on hand when K acquired his interest. In accordance with K's election under section 732 (d), the amount of his share of partnership basis which is attributable to partnership inventory is increased by $500 (one-fourth of the $2,000 difference between the value of such property, $16,000, and its $14,000 basis to the partnership at the time K acquired his interest). This adjustment under section 732 (d) applies only for purposes of distributions to partner K, and not for purposes of partnership depreciation, depletion, or gain or loss on disposition. Thus, the amount to be allocated among the properties received by K in the liquidating distribution is $15,500 ($17,000, K's basis for his interest, reduced by the amount of cash received, $1,500). This amount is allocated as follows: The basis of the inventory items received is $4,000, consisting of the $3,500 common partnership basis for such items, plus the special basis adjustment of $500 which K would have had under section 743 (b). The remaining basis of $11,500 ($15,500 minus $4,000) is to be allocated to the remaining property distributed to K in proportion to their adjusted bases to the partnership. Since the adjusted basis to the partnership of property X is $2,000, and that of property Y is $4,000, the $11,500 is allocated $3,833 (2,000/6,000×$11,500) to X, and $7,667 (4,000/6,000×$11,500) to Y.

(2) A transferee partner who wishes to elect under section 732 (d) shall make the election with his tax return—

(i) For the year of the distribution, if the distribution includes any property subject to the allowance for depreciation, depletion, or amortization, or

(ii) For any taxable year no later than the first taxable year in which the basis of any of the distributed property is pertinent in determining his income tax, if the distribution does not include any such property subject to the allowance for depreciation, depletion or amortization.

(3) A taxpayer making an election under section 732 (d) shall submit with the return in which the election is made a schedule setting forth the following:

(i) That under section 732 (d) he elects to adjust the basis of property received in a distribution; and

(ii) The computation of the special basis adjustment for the property distributed and the properties to which the adjustment has been allocated. For rules of allocation, see section 755.

(4) A partner who acquired any part of his partnership interest in a transfer to which the election provided in section 754 was not in effect, is required to apply the special basis rule contained in section 732 (d) to a distribution to him, whether or not made within 2 years after the transfer, if at the time of his acquisition of the transferred interest—

(i) The fair market value of all partnership property (other than money) exceeded 110 percent of its adjusted basis to the partnership,

(ii) An allocation of basis under section 732 (c) upon a liquidation of his interest immediately after the transfer of the interest would have resulted in a shift of basis from property not subject to an allowance for depreciation, depletion, or amortization, to property subject to such an allowance, and

(iii) A special basis adjustment under section 743 (b) would change the basis to the transferee partner of the property actually distributed.

The application of this rule may be illustrated by the following examples:

*Example (1).* Partnership ABC owns three parcels of land, each of which has an adjusted basis to the partnership of $5,000 and is worth $55,000, and depreciable property with an adjusted basis and value of $150,000. D purchases A's partnership interest for $105,000 when the election under section 754 is not in effect. At the time of D's purchase, the fair market value of all partnership property (other than money) is $315,000, which exceeds 110 percent of $165,000, its adjusted basis to the partnership. Four years later, the partnership is dissolved. D receives one of the three parcels of land which has a basis to the partnership of $5,000, and one-third of the depreciable property with an adjusted basis to the partnership at that time of $45,000, one-third of $135,000 ($150,000 basis, minus $15,000 depreciation computed on the partnership basis. See subparagraph (1) (iv) of this paragraph.) If D's adjusted basis for his interest at the time of the distribution was $100,000 and was allocated under section 732 (c) to the property received by him in proportion to their respective bases to the partnership, the basis to him for the distributed land would be $10,000 (5,000/50,000×$100,000) and the basis of the depreciable property would be $90,000 (45,000/50,000×$100,000). In effect, D would be attributing to the basis of the depreciable property a portion of the cost of his partnership interest properly attributable to appreciation in nondepreciable property. The application of section 743 (b) to the transfer of the interest would have resulted in a different basis to D for the property actually distributed. Therefore, the special basis adjustment under section 732 (d) must be made so that D must increase the basis of the land by a special basis adjustment of $50,000 ($55,000 fair market value less $5,000 partnership basis), making the basis of his interest therein $55,000 (55,000/100,000× $100,000). D's basis for the depreciable property will then be $45,000 (45,000/100,000 ×$100,000).

*Example (2).* Assume the same facts as in example (1) of this subparagraph, except that the partnership does not dissolve but distributes one parcel of land to each of the partners in a current distribution. Since the conditions of this subparagraph have been met, D's basis for the distributed land is the adjusted basis such land would have if the adjustment provided in section 743 (b) were in effect with respect to the partnership property. Therefore, D's basis for the land is $55,000 ($5,000 basis of the land to the partnership, plus $50,000 special basis adjustment under section 732 (d)). D's basis for his partnership interest is reduced by $55,000, his basis for the property distributed.

(e) *Exception.* When a partnership distributes unrealized receivables (as defined in section 751 (c)) or substantially appreciated inventory items (as defined in section 751 (d)) in exchange for any part of a partner's interest in other partnership property (including money), or, conversely, partnership property (including money) other than unrealized receivables or substantially appreciated inventory items in exchange for any part of a partner's interest in the partnership's unrealized receivables or substantially appreciated inventory items, the distribution will be treated as a sale or exchange of property under the provisions of section 751 (b). In such case, section 732 (including subsection (d) thereof) applies in determining the partner's basis of the property which he is treated as having sold to or exchanged with the partnership (as constituted after the distribution). The partner is considered as having received such property in a current distribution and, immediately thereafter, as having sold or exchanged it. See section 751 (b) and § 1.751–1 (b). However, section 732 does not apply in determining the basis of that part of property actually distributed to a partner which is treated as received by him in a sale or exchange under section 751 (b). Consequently, the basis of such property shall be its cost to the partner.

§ 1.732–2 *Special partnership basis of distributed property*—(a) *Adjustments under section 734 (b).* In the case of a distribution of property to a partner, the partnership bases of the distributed properties shall reflect any increases or decreases to the basis of partnership property which have been made previously under section 734 (b) (relating to the optional adjustment to basis of undistributed partnership property) in connection with previous distributions.

(b) *Adjustments under section 743 (b).* In the case of a distribution of property to a partner who acquired any part of his interest in a transfer as to which an election under section 754 was in effect, then, for the purposes of section 732 (other than subsection (d)),

the adjusted partnership bases of the distributed property shall take into account, in addition to any adjustments under section 734 (b), the transferee's special basis adjustment for the distributed property under section 743 (b). The application of this paragraph may be illustrated by the following example:

*Example.* Partner D acquired his interest in partnership ABD from a previous partner. Since the partnership had made an election under section 754, a special basis adjustment with respect to D is applicable to the basis of partnership property in accordance with section 743 (b). One of the assets of the partnership at the time D acquired his interest was property X, which is later distributed to D in a current distribution. Property X has an adjusted basis to the partnership of $1,000 and with respect to D it has a special basis adjustment of $500. Therefore, for purposes of section 732 (a) (1), the adjusted basis of such property to the partnership with respect to D immediately before its distribution is $1,500. However, if property X is distributed to partner A, a nontransferee partner, its adjusted basis to the partnership for purposes of section 732 (a) (1) is only $1,000. In such case, D's $500 special basis adjustment may shift over to other property. See § 1.743–1 (b) (2) (ii).

(c) *Adjustments to basis of distributed inventory and unrealized receivables.* Under section 732, the basis to be allocated to distributed properties shall be allocated first to any unrealized receivables and inventory items. If the distributee partner is a transferee of a partnership interest and has a special basis adjustment for unrealized receivables or inventory items under either section 743 (b) or section 732 (d), then the partnership adjusted basis immediately prior to distribution of any unrealized receivables or inventory items distributed to such partner shall be determined as follows: If the distributee partner receives his entire share of the fair market value of the inventory items or unrealized receivables of the partnership, the adjusted basis of such distributed property to the partnership, for the purposes of section 732, shall take into account the entire amount of any special basis adjustment which the distributee partner may have for such assets. If the distributee partner receives less than his entire share of the fair market value of partnership inventory items or unrealized receivables, then, for purposes of section 732, the adjusted basis of such distributed property to the partnership shall take into account the same proportion of the distributee's special basis adjustment for unrealized receivables or inventory items as the value of such items distributed to him bears to his entire share of the total value of all such items of the partnership. The provisions of this paragraph may be illustrated by the following example:

*Example.* Partner C acquired his 40-percent interest in partnership AC from a previous partner. Since the partnership had made an election under section 754, C has a special basis adjustment to partnership property under section 743 (b). C retires from the partnership when the adjusted basis of his partnership interest is $3,000. He receives from the partnership in liquidation of his entire interest, $1,000 cash, certain capital assets, depreciable property, and certain inventory items and unrealized receivables. C has a special basis adjustment of $800 with respect to partnership inventory items and of $200 with respect to unrealized receivables. The common partnership basis for the inventory items distributed to him is $500 and for the unrealized receivables is zero. If the value of inventory items and the unrealized receivables distributed to C in his 40 percent share of the total value of all partnership inventory items and unrealized receivables, then, for purposes of section 732, the adjusted basis of such property in C's hands will be $1,300 for the inventory items ($500 plus $800) and $200 for the unrealized receivables (zero plus $200). The remaining basis of $500, which constitutes the basis of the capital assets and depreciable property distributed to C, is determined as follows: $3,000 (total basis) less $1,000 cash, or $2,000 (the amount to be allocated to the basis of all distributed property), less $1,500 ($800 and $200 special basis adjustments, plus $500 common partnership basis, the amount allocated to inventory items and unrealized receivables). However, if the value of the inventory items and unrealized receivables distributed to C consisted of only 20 percent of the total fair market value of such property (i. e., only one-half of C's 40-percent share), then only one-half of C's special basis adjustment of $800 for partnership inventory items and $200 for unrealized receivables would be taken into account. In that case, the basis of the inventory items in C's hands would be $650 ($250, the common partnership basis for inventory items distributed to him, plus $400, one-half of C's special basis adjustment for inventory items). The basis of the unrealized receivables in C's hands would be $100 (zero plus $100, one-half of C's special basis adjustment for unrealized receivables).

§ 1.733 *Statutory provisions; basis of distributee partner's interest.*

SEC. 733. *Basis of distributee partner's interest.* In the case of a distribution by a partnership to a partner other than in liquidation of a partner's interest, the adjusted basis to such partner of his interest in the partnership shall be reduced (but not below zero) by—

(1) The amount of any money distributed to such partner, and

(2) The amount of the basis to such partner of distributed property other than money, as determined under section 732.

§ 1.733–1 *Basis of distributee partner's interest.* In the case of a distribution by a partnership to a partner other than in liquidation of a partner's entire interest, the adjusted basis to such partner of his interest in the partnership shall be reduced (but not below zero) by the amount of any money distributed to such partner and by the amount of the basis to him of distributed property other than money as determined under section 732 and §§ 1.732–1 and 1.732–2.

§ 1.734 *Statutory provisions; optional adjustment to basis of undistributed partnership property.*

SEC. 734. *Optional adjustment to basis of undistributed partnership property*—(a) *General rule.* The basis of partnership property shall not be adjusted as the result of a distribution of property to a partner unless the election, provided in section 754 (relating to optional adjustment to basis of partnership property), is in effect with respect to such partnership.

(b) *Method of adjustment.* In the case of a distribution of property to a partner, a partnership, with respect to which the election provided in section 754 is in effect, shall—

(1) Increase the adjusted basis of partnership property by—

(A) The amount of any gain recognized to the distributee partner with respect to such distribution under section 731 (a) (1), and

(B) In the case of distributed property to which section 732 (a) (2) or (b) applies, the excess of the adjusted basis of the distributed property to the partnership immediately before the distribution (as adjusted by section 732 (d)) over the basis of the distributed property to the distributee, as determined under section 732, or

(2) Decrease the adjusted basis of partnership property by—

(A) The amount of any loss recognized to the distributee partner with respect to such distribution under section 731 (a) (2), and

(B) In the case of distributed property to which section 732 (b) applies, the excess of the basis of the distributed property to the distributee, as determined under section 732, over the adjusted basis of the distributed property to the partnership immediately before such distribution (as adjusted by section 732 (d)).

(c) *Allocation of basis.* The allocation of basis among partnership properties where subsection (b) is applicable shall be made in accordance with the rules provided in section 755.

§ 1.734–1 *Optional adjustment to basis of undistributed partnership property*—(a) *General rule.* A partnership shall not adjust the basis of partnership property as the result of a distribution of property to a partner, unless the election provided in section 754 (relating to optional adjustment to basis of partnership property) is in effect.

(b) *Method of adjustment*—(1) *Increase in basis.* Where an election under section 754 is in effect and a distribution of partnership property is made, whether or not in liquidation of the partner's entire interest in the partnership, the adjusted basis of the remaining partnership assets shall be increased by—

(i) The amount of any gain recognized under section 731 (a) (1) to the distributee partner, or

(ii) The excess of the adjusted basis to the partnership immediately before the distribution of any property distributed (including adjustments under section 743 (b) or section 732 (d) when applied) over the basis under section 732 (including such special basis adjustments) of such property to the distributee partner.

The provisions of this subparagraph may be illustrated by the following examples:

*Example (1).* Partner A has a basis of $10,000 for his one-third interest in partnership ABC. The partnership has no liabilities and has assets consisting of cash of $11,000 and property with a partnership basis of $19,000 and a value of $22,000. A receives $11,000 in cash in liquidation of his entire interest in the partnership. He has a gain of $1,000 under section 731 (a) (1). If the election under section 754 is in effect, the partnership basis for the property becomes $20,000 ($19,000 plus $1,000).

*Example (2).* Partner D has a basis of $10,000 for his one-third interest in partnership DEF. The partnership balance sheet before the distribution shows the following:

ASSETS

| | Adjusted basis | Value |
|---|---|---|
| Cash | $4,000 | $4,000 |
| Property X | 11,000 | 11,000 |
| Property Y | 15,000 | 18,000 |
| Total | 30,000 | 33,000 |

LIABILITIES AND CAPITAL

| | | |
|---|---|---|
| Liabilities | $0 | $0 |
| Capital: | | |
| D | 10,000 | 11,000 |
| E | 10,000 | 11,000 |
| F | 10,000 | 11,000 |
| Total | 30,000 | 33,000 |

In liquidation of his entire interest in the partnership, D received property X with a partnership basis of $11,000. D's basis for property X is $10,000 under section 732 (b). Where the election under section 754 is in effect, the excess of $1,000 (the partnership basis before the distribution less D's basis for property X after distribution) is added to the basis of property Y. The basis of property Y becomes $16,000 ($15,000 plus $1,000). If the distribution is made to a transferee partner who elects under section 732 (d), see § 1.734–2.

(2) *Decrease in basis.* Where the election provided in section 754 is in effect and a distribution is made in liquidation of a partner's entire interest, the partnership shall decrease the adjusted basis of the remaining partnership property by—

(i) The amount of loss, if any, recognized under section 731 (a) (2) to the distributee partner, or

(ii) The excess of the basis of the distributed property to the distributee, as determined under section 732 (including adjustments under section 743 (b) or section 732 (d) when applied) over the adjusted basis of such property to the partnership (including such special basis adjustments) immediately before such distribution.

The provisions of this subparagraph may be illustrated by the following examples:

*Example (1).* Partner G has a basis of $11,000 for his one-third interest in partnership GHI. Partnership assets consist of cash of $10,000 and property with a basis of $23,000 and a value of $20,000. There are no partnership liabilities. In liquidation of his entire interest in the partnership, G receives $10,000 in cash. He has a loss of $1,000 under section 731 (a) (2). If the election under section 754 is in effect, the partnership basis for the property becomes $22,000 ($23,000 less $1,000).

*Example (2).* Partner J has a basis of $11,000 for his one-third interest in partnership JKL. The partnership balance sheet before the distribution shows the following:

ASSETS

| | Adjusted basis | Value |
|---|---|---|
| Cash | $5,000 | $5,000 |
| Property X | 10,000 | 10,000 |
| Property Y | 18,000 | 15,000 |
| Total | 33,000 | 30,000 |

LIABILITIES AND CAPITAL

| | Adjusted basis | Value |
|---|---|---|
| Liabilities | $0 | $0 |
| Capital: | | |
| J | 11,000 | 10,000 |
| K | 11,000 | 10,000 |
| L | 11,000 | 10,000 |
| Total | 33,000 | 30,000 |

In liquidation of his entire interest in the partnership, J receives property X with a partnership basis of $10,000. J's basis for property X under section 732 (b) is $11,000. Where the election under section 754 is in effect, the excess of $1,000 ($11,000 basis of property X to J, the distributee, less its $10,000 adjusted basis to the partnership immediately before the distribution) decreases the basis of property Y in the partnership. Thus, the basis of property Y becomes $17,000 ($18,000 less $1,000). If the distribution is made to a transferee partner who elects under section 732 (d), see § 1.734–2.

(c) *Allocation of basis.* For allocation among the partnership properties of basis adjustments under section 734 (b) and paragraph (b) of this section, see section 755 and § 1.755–1.

(d) *Returns.* A partnership which must adjust the bases of partnership properties under section 734 shall attach a statement to the partnership return for the year of the distribution setting forth the computation of the adjustment and the partnership properties to which the adjustment has been allocated.

§ 1.734–2 *Adjustment after distribution to transferee partner.* (a) In the case of a distribution of property by the partnership to a partner who has obtained all or part of his partnership interest by transfer, the adjustments to basis provided in section 743 (b) and section 732 (d) shall be taken into account in applying the rules under section 734 (b). For determining the adjusted basis of distributed property to the partnership immediately before the distribution where there has been a prior transfer of a partnership interest with respect to which the election provided in section 754 or section 732 (d) is in effect, see §§ 1.732–1 and 1.732–2.

(b) (1) If a transferee partner, in liquidation of his entire partnership interest, receives a distribution of property (including money) with respect to which he has no special basis adjustment, in exchange for his interest in property with respect to which he has a special basis adjustment, and does not utilize his entire special basis adjustment in determining the basis of the distributed property to him under section 732, the unused special basis adjustment of the distributee shall be applied as an adjustment to the partnership basis of the property retained by the partnership and as to which the distributee did not use his special basis adjustment. The provisions of this subparagraph may be illustrated by the following example:

*Example.* Upon the death of his father, partner S acquires by inheritance a half-interest in partnership ACS. Partners A and C each have a one-quarter interest. The assets of the partnership consist of $10,000 cash and land used in farming worth $10,000 with a basis of $1,000 to the partnership. Since the partnership had made the election under section 754 at the time of transfer, partner S had a special basis adjustment of $4,500 under section 743 (b) with respect to his undivided half-interest in the real estate. The basis of S's partnership interest, in accordance with section 742, is $10,000. S retires from the partnership and receives $10,000 in cash in exchange for his entire interest. Since S has received no part of the real estate, his special basis adjustment of $4,500 will be allocated to the real estate, the remaining partnership property, and will increase its basis to the partnership to $5,500.

(2) The provisions of this paragraph do not apply to the extent that certain distributions are treated as sales or exchanges under section 751 (b) (relating to unrealized receivables and substantially appreciated inventory items). See section 751 (b) and § 1.751–1 (b).

§ 1.735 *Statutory provisions; character of gain or loss on disposition of distributed property.*

SEC. 735. *Character of gain or loss on disposition of distributed property*—(a) *Sale or exchange of certain distributed property*—(1) *Unrealized receivables.* Gain or loss on the disposition by a distributee partner of unrealized receivables (as defined in section 751 (c)) distributed by a partnership, shall be considered gain or loss from the sale or exchange of property other than a capital asset.

(2) *Inventory items.* Gain or loss on the sale or exchange by a distributee partner of inventory items (as defined in section 751 (d) (2)) distributed by a partnership shall, if sold or exchanged within 5 years from the date of the distribution, be considered gain or loss from the sale or exchange of property other than a capital asset.

(b) *Holding period for distributed property.* In determining the period for which a partner has held property received in a distribution from a partnership (other than for purposes of subsection (a) (2)), there shall be included the holding period of the partnership, as determined under section 1223, with respect to such property.

§ 1.735–1 *Character of gain or loss on disposition of distributed property*—(a) *Sale or exchange of distributed property*—(1) *Unrealized receivables.* Any gain realized or loss sustained by a partner on a sale or exchange or other disposition of unrealized receivables (as defined in section 751 (c)) received by him in a distribution from a partnership shall be considered gain or loss from the sale or exchange of property other than a capital asset.

(2) *Inventory items.* Any gain realized or loss sustained by a partner on a sale or exchange of inventory items (as defined in section 751 (d) (2)) received in a distribution from a partnership shall be considered gain or loss from the sale or exchange of property other than a capital asset if such inventory items are sold or exchanged within 5 years from the date of the distribution by the partnership. The character of any gain or loss from a sale or exchange by the distributee partner of such inventory items after 5 years from the date

of distribution shall be determined as of the date of such sale or exchange by reference to the character of the assets in his hands at that date (inventory items, capital assets, property used in a trade or business, etc.).

(b) *Holding period for distributed property.* A partner's holding period for property distributed to him by a partnership shall include the period such property was held by the partnership. The provisions of this paragraph do not apply for the purpose of determining the 5-year period described in section 735 (a) (2) and paragraph (a) (2) of this section. If the property has been contributed to the partnership by a partner, then the period that the property was held by such partner shall also be included. See section 1223 (2). For a partnership's holding period for contributed property, see § 1.723–1.

(c) *Effective date.* Section 735 (a) applies to any property distributed by a partnership to a partner after March 9, 1954. See section 771 (b) (2) and § 1.771–1 (b) (2). However, see section 771 (c).

§ 1.736 *Statutory provisions; payments to a retiring partner or a deceased partner's successor in interest.*

SEC. 736. *Payments to a retiring partner or a deceased partner's successor in interest*—(a) *Payments considered as distributive share or guaranteed payment.* Payments made in liquidation of the interest of a retiring partner or a deceased partner shall, except as provided in subsection (b), be considered—

(1) As a distributive share to the recipient of partnership income if the amount thereof is determined with regard to the income of the partnership, or

(2) As a guaranteed payment described in section 707 (c) if the amount thereof is determined without regard to the income of the partnership.

(b) *Payments for interest in partnership*—(1) *General rule.* Payments made in liquidation of the interest of a retiring partner or a deceased partner shall, to the extent such payments (other than payments described in paragraph (2)) are determined, under regulations prescribed by the Secretary or his delegate, to be made in exchange for the interest of such partner in partnership property, be considered as a distribution by the partnership and not as a distributive share or guaranteed payment under subsection (a).

(2) *Special rules.* For purposes of this subsection, payments in exchange for an interest in partnership property shall not include amounts paid for—

(A) Unrealized receivables of the partnership (as defined in section 751 (c)), or

(B) Good will of the partnership, except to the extent that the partnership agreement provides for a payment with respect to good will.

§ 1.736–1 *Payments to a retiring partner or a deceased partner's successor in interest*—(a) *Payments considered as distributive share or guaranteed payment.* (1) (i) Section 736 and this section apply only to payments made to a retiring partner or to a deceased partner's successor in interest in liquidation of such partner's entire interest in the partnership. See section 761 (d). Section 736 and this section do not apply if the estate or other successor in interest of a deceased partner continues as a partner in its own right under local law. Section 736 and this section apply only to payments made by the partnership and not to transactions between the partners. Thus, a sale by partner A to partner B of his entire one-fourth interest in partnership ABCD would not come within the scope of section 736.

(ii) A partner retires when he ceases to be a partner under local law. However, for the purposes of subchapter K, a retired partner or a deceased partner's successor will be treated as a partner until his interest in the partnership has been completely liquidated.

(2) When payments (including assumption of liabilities treated as a distribution of money under section 752) are made to a withdrawing partner, that is, a retiring partner or the estate or other successor in interest of a deceased partner, the amounts paid may represent several items. In part, they may represent the fair market value at the time of his death or retirement of the withdrawing partner's interest in all the assets of the partnership (including inventory) unreduced by partnership liabilities. Also, part of such payments may be attributable to his interest in unrealized receivables and part to an arrangement among the partners in the nature of mutual insurance. When a partnership makes such payments, whether or not related to partnership income, to retire the withdrawing partner's entire interest in the partnership, the payments must be allocated between (i) payments for the value of his interest in assets, except unrealized receivables and, under some circumstances, good will (section 736 (b)), and (ii) other payments (section 736 (a)). The amounts paid for his interest in assets are treated in the same manner as a distribution in complete liquidation under sections 731, 732, and, where applicable, 751. See § 1.751–1 (b) (4) (ii). The remaining partners are allowed no deduction for these payments since they represent either a distribution or a purchase of the withdrawing partner's capital interest by the partnership (composed of the remaining partners).

(3) Under section 736 (a), the portion of the payments made to a withdrawing partner for his share of unrealized receivables, good will (in the absence of an agreement to the contrary), or otherwise not in exchange for his interest in assets under the rules contained in paragraph (b) of this section will be considered either—

(i) A distributive share of partnership income, if the amount of payment is determined with regard to income of the partnership; or

(ii) A guaranteed payment under section 707 (c), if the amount of the payment is determined without regard to income of the partnership.

(4) Payments, to the extent considered as a distributive share of partnership income under section 736 (a) (1), are taken into account under section 702 in the income of the withdrawing partner and thus reduce the amount of the distributive shares of the remaining partners. Payments, to the extent considered as guaranteed payments under section 736 (a) (2), are deductible by the partnership under section 162 (a) and are taxable as ordinary income to the recipient under section 61 (a). See section 707 (c).

(5) The amount of any payments under section 736 (a) shall be included in the income of the recipient for his taxable year with or within which ends the partnership taxable year for which the payment is a distributive share, or in which the partnership is entitled to deduct such amount as a guaranteed payment. On the other hand, payments under section 736 (b) shall be taken into account by the recipient for his taxable year in which such payments are made. See paragraph (b) (4) of this section.

(6) A retiring partner or a deceased partner's successor in interest receiving payments under section 736 is regarded as a partner until the entire interest of the retiring or deceased partner is liquidated. Therefore, if one of the members of a 2-man partnership retires under a plan whereby he is to receive payments under section 736, the partnership will not be considered terminated, nor will the partnership year close with respect to either partner, until the retiring partner's entire interest is liquidated, since the retiring partner continues to hold a partnership interest in the partnership until that time. Similarly, if a partner in a 2-man partnership dies, and his estate or other successor in interest receives payments under section 736, the partnership shall not be considered to have terminated upon the death of the partner but shall terminate as to both partners only when the entire interest of the decedent is liquidated. See section 708 (b).

(b) *Payments for interest in partnership.* (1) Payments made in liquidation of the entire interest of a retiring partner or deceased partner shall, to the extent made in exchange for such partner's interest in partnership property (except for unrealized receivables and good will as provided in subparagraphs (2) and (3) of this paragraph), be considered as a distribution by the partnership (and not as a distributive share or guaranteed payment under section 736 (a)). Generally, the valuation placed by the partners upon a partner's interest in partnership property in an arm's length agreement will be regarded as correct. If such valuation reflects only the partner's net interest in the property (i. e., total assets less liabilities), it must be adjusted so that both the value of the partner's interest in property and the basis for his interest take into account the partner's share of partnership liabilities. Gain or loss with respect to distributions under section 736 (b) and this paragraph will be recognized to the distributee to the extent provided in section 731 and, where applicable, section 751.

(2) Payments made to a retiring partner or to the successor in interest of a deceased partner for his interest in unrealized receivables of the partnership in excess of their partnership basis, including any special basis adjustment for them to which such partner is entitled, shall not be considered as made in exchange for such partner's interest in partnership property. Such payments shall be treated as payments under section 736 (a) and paragraph (a) of this section. For definition of unrealized receivables, see section 751 (c).

(3) For the purposes of section 736 (b) and this paragraph, payments made to a retiring partner or to a successor in interest of a deceased partner in exchange for the interest of such partner in partnership property shall not include any amount paid for the partner's share of good will of the partnership in excess of its partnership basis, including any special basis adjustments for it to which such partner is entitled, except to the extent that the partnership agreement provides for a reasonable payment with respect to such good will. Such payments shall be considered as payments under section 736 (a). To the extent that the partnership agreement provides for a reasonable payment with respect to good will, such payments shall be treated under section 736 (b) and this paragraph. Generally, the valuation placed upon good will by an arm's length agreement of the partners, whether specific in amount or determined by a formula, shall be regarded as correct.

(4) Payments made to a retiring partner or to a successor in interest of a deceased partner for his interest in inventory shall be considered as made in exchange for such partner's interest in partnership property for the purposes of section 736 (b) and this paragraph. However, payments for an interest in substantially appreciated inventory items, as defined in section 751 (d), are subject to the rules provided in section 751 (b) and § 1.751–1 (b). The partnership basis in inventory items as to a deceased partner's successor in interest does not change because of the death of the partner unless the partnership has elected the optional basis adjustment under section 754. But see § 1.751–1 (b) (3) (iii).

(5) Where payments made under section 736 are received during the taxable year, the recipient must segregate that portion of each such payment which is determined to be in exchange for the partner's interest in partnership property and treated as a distribution under section 736 (b) from that portion treated as a distributive share or guaranteed payment under section 736 (a). Such allocation shall be made as follows—

(i) If a fixed amount (whether or not supplemented by any additional amounts) is to be received over a fixed number of years, the portion of each payment to be treated as a distribution under section 736 (b) for the taxable year shall bear the same ratio to the total fixed agreed payment for such year (as distinguished from the amount actually received) as the total fixed agreed payments under section 736 (b) bear to the total fixed agreed payments under section 736 (a) and (b). The balance, if any, of such amount received in the same taxable year shall be treated as a distributive share or a guaranteed payment under section 736 (a) (1) or (2). However, if the total amount received in any one year is less than the amount considered as a distribution under section 736 (b) for that year, then any unapplied portion shall be added to the portion of the payments for the following year or years which are to be treated as a distribution under section 736 (b). For example, retiring partner W who is entitled to an annual payment of $6,000 for 10 years for his interest in partnership property, receives only $3,500 in 1955. In 1956, he receives $10,000. Of this amount, $8,500 ($6,000 plus $2,500 from 1955) is treated as a distribution under section 736 (b) for 1956; $1,500, as a payment under section 736 (a).

(ii) If the retiring partner or deceased partner's successor in interest receives payments which are not fixed in amount, such payments shall first be treated as payments in exchange for his interest in partnership property under section 736 (b) to the extent of the value of that interest and, thereafter, as payments under section 736 (a).

(iii) In lieu of the rules provided in subdivisions (i) and (ii) of this subparagraph, the allocation of each annual payment between section 736 (a) and (b) may be made in any manner to which all the remaining partners and the withdrawing partner or his successor in interest agree, provided that the total amount allocated to property under section 736 (b) does not exceed the fair market value of such property at the date of death or retirement.

(6) Except to the extent section 751 (b) applies, the amount of any gain or loss with respect to payments under section 736 (b) for a retiring or deceased partner's interest in property for each year of payment shall be determined under section 731. However, where the total of section 736 (b) payments is a fixed sum, a retiring partner or a deceased partner's successor in interest may elect (in his tax return for the first taxable year for which he receives such payments), to report and to measure the amount of any gain or loss by the difference between—

(i) The amount treated as a distribution under section 736 (b) in that year, and

(ii) The portion of the adjusted basis of the partner for his partnership interest attributable to such distribution (i. e., the amount which bears the same proportion to the partner's total adjusted basis for his partnership interest as the amount distributed under section 736 (b) in that year bears to the total amount to be distributed under section 736 (b)).

A recipient who elects under this subparagraph shall attach a statement to his tax return for the first taxable year for which he receives such payments, indicating his election and showing the computation of the gain included in gross income.

(7) The provisions of this paragraph may be illustrated by the following examples:

*Example (1)* Partnership ABC is a personal service partnership and its balance sheet is as follows:

ASSETS

| | Adjusted basis per books | Market value |
|---|---|---|
| Cash | $13,000 | $13,000 |
| Unrealized receivables | 0 | 30,000 |
| Capital and section 1231 assets | 20,000 | 23,000 |
| Total | 33,000 | 66,000 |

LIABILITIES AND CAPITAL

| | Per books | Value |
|---|---|---|
| Liabilities | $3,000 | $3,000 |
| Capital: | | |
| A | 10,000 | 21,000 |
| B | 10,000 | 21,000 |
| C | 10,000 | 21,000 |
| Total | 33,000 | 66,000 |

Partner A retires from the partnership in accordance with an agreement whereby his share of liabilities ($1,000) is assumed. In addition he is to receive $9,000 in the year of retirement plus $10,000 in each of the two succeeding years. Thus, the total that A receives for his partnership interest is $30,000 ($29,000 in cash and $1,000 in liabilities assumed). Under the agreement terminating A's interest, the value of A's interest in section 736 (b) partnership property is $12,000 (one-third of $36,000, the sum of $13,000 cash and $23,000, the fair market value of capital and section 1231 assets). A's share in unrealized receivables is not included in his interest in partnership property described in section 736 (b). Since the basis of A's interest is $11,000 ($10,000 plus $1,000, his share of partnership liabilities), he will realize a capital gain of $1,000 ($12,000 minus $11,000) from the disposition of his interest in partnership property. The remaining $18,000 ($30,000 minus $12,000) will constitute payments under section 736 (a) (2) which are taxable to A as guaranteed payments under section 707 (c). The payment for the first year is $10,000, consisting of $9,000 in cash, plus $1,000 in liability assumed (section 752 (b)). Thus, unless the partners agree otherwise under subparagraph (5) (iii) of this paragraph, each annual payment of $10,000 will be allocated as follows: $6,000 (18,000/30,000 of $10,000) is a section 736 (a) (2) payment and $4,000 (12,000/30,000 of $10,000) is a payment for an interest in section 736 (b) partnership property. (The partnership may deduct the $6,000 guaranteed payment made to A in each of the 3 years.) The gain on the payments for partnership property will be determined under section 731, as provided in subparagraph (6) of this paragraph. A will treat only $4,000 of each payment as a distribution in a series in liquidation of his entire interest and, under section 731, will have a capital gain of $1,000 when the last payment is made. However, if A so elects, as provided in subparagraph (6) of this paragraph, he may treat such gain as follows: Of each $4,000 payment attributable to A's interest in partnership property, $333 is capital gain (one-third of the total capital gain of $1,000), and $3,667 is a return of capital.

*Example (2).* Assume the same facts as in example (1) of this subparagraph except that the agreement between the partners provides for payments to A for 3 years of a percentage of annual income instead of a fixed amount. Unless the partners agree otherwise under subparagraph (5) (iii) of this paragraph, all payments received by A up to $12,000 shall be treated under section 736 (b) as payments for A's interest in partnership property. His gain of $1,000 will be taxed only after he has received his full basis under section 731. Since the payments are not fixed in amount, the election provided in subparagraph (6) of this paragraph is not available. Any payments in excess of $12,000 shall be treated as a distributive share of partnership income to A under section 736 (a) (1).

*Example (3).* Assume the same facts as in example (1) of this subparagraph except that the partnership agreement provides that the payment for A's interest in partnership property shall include payment for his interest in the good will of the partnership. At the time of A's retirement, the partners determine the value of partnership good will to be $9,000. The value of A's interest in partnership property described in section 736 (b)

is thus $15,000 (one-third of $45,000, the sum of $13,000 cash, plus $23,000, the value of capital and section 1231 assets, plus $9,000 good will). From the disposition of his interest in partnership property, A will realize a capital gain of $4,000 ($15,000, minus $11,000) the basis of his interest. The remaining $15,000 ($30,000 minus $15,000) will constitute payments under section 736 (a) (2) which are taxable to A as guaranteed payments under section 707 (c).

(c) *Cross reference.* See section 753 for treatment of payments under section 736 (a) as income in respect of a decedent under section 691.

*Transfers of Interests in a Partnership*

§ 1.741 *Statutory provisions; recognition and character of gain or loss on sale or exchange.*

SEC. 741. *Recognition and character of gain or loss on sale or exchange.* In the case of a sale or exchange of an interest in a partnership, gain or loss shall be recognized to the transferor partner. Such gain or loss shall be considered as gain or loss from the sale or exchange of a capital asset, except as otherwise provided in section 751 (relating to unrealized receivables and inventory items which have appreciated substantially in value).

§ 1.741–1 *Recognition and character of gain or loss on sale or exchange.* (a) The sale or exchange of an interest in a partnership shall, except to the extent section 751 (a) applies, be treated as the sale or exchange of a capital asset, resulting in capital gain or loss measured by the difference between the amount realized and the adjusted basis of the partnership interest, as determined under section 705. For treatment of selling partner's distributive share up to date of sale, see section 706 (c) (2). Where the provisions of section 751 require the recognition of ordinary income or loss with respect to a portion of the amount realized from such sale or exchange, the amount realized shall be reduced by the amount attributable under section 751 to unrealized receivables and substantially appreciated inventory items, and the adjusted basis of the transferor partner's interest in the partnership shall be reduced by the portion of such basis attributable to such unrealized receivables and substantially appreciated inventory items. See section 751 and § 1.751–1.

(b) Section 741 shall apply whether the partnership interest is sold to one or more members of the partnership or to one or more persons who are not members of the partnership. Section 741 shall also apply even though the sale of the partnership interest results in a termination of the partnership under section 708 (b). Thus, the provisions of section 741 shall be applicable (1) to the transferor partner in a 2-man partnership when he sells his interest to the other partner, and (2) to all the members of a partnership when they sell their interests to one or more persons outside the partnership.

(c) See section 351 for nonrecognition of gain or loss upon transfer of a partnership interest to a corporation controlled by the transferor.

§ 1.742 *Statutory provisions; basis of transferee partner's interest.*

SEC. 742. *Basis of transferee partner's interest.* The basis of an interest in a partnership acquired other than by contribution shall be determined under part II of subchapter O (sec. 1011 and following).

§ 1.742–1 *Basis of transferee partner's interest.* The basis to a transferee partner of an interest in a partnership shall be determined under the general basis rules for property provided by part II of subchapter O (sections 1011 to 1022, inclusive). Thus, the basis of a purchased interest will be its cost. The basis of a partnership interest acquired from a decedent is the fair market value of the interest at the date of his death or at the alternate valuation date, increased by his estate's or other successor's share of partnership liabilities, if any, on that date, and reduced to the extent that such value is attributable to items constituting income in respect of a decedent (see section 753 and §§ 1.706–1 (c) (3) (v) and 1.753–1 (b)) under section 691. See section 1014 (c). For basis of contributing partner's interest, see section 722. The basis so determined is then subject to the adjustments provided in section 705.

§ 1.743 *Statutory provisions; optional adjustment to basis of partnership property.*

SEC. 743. *Optional adjustment to basis of partnership property.*—(a) *General rule.* The basis of partnership property shall not be adjusted as the result of a transfer of an interest in a partnership by sale or exchange or on the death of a partner unless the election provided by section 754 (relating to optional adjustment to basis of partnership property) is in effect with respect to such partnership.

(b) *Adjustment to basis of partnership property.* In the case of a transfer of an interest in a partnership by sale or exchange or upon the death of a partner, a partnership with respect to which the election provided in section 754 is in effect shall—

(1) Increase the adjusted basis of the partnership property by the excess of the basis to the transferee partner of his interest in the partnership over his proportionate share of the adjusted basis of the partnership property, or

(2) Decrease the adjusted basis of the partnership property by the excess of the transferee partner's proportionate share of the adjusted basis of the partnership property over the basis of his interest in the partnership.

Under regulations prescribed by the Secretary or his delegate, such increase or decrease shall constitute an adjustment to the basis of partnership property with respect to the transferee partner only. A partner's proportionate share of the adjusted basis of partnership property shall be determined in accordance with his interest in partnership capital and, in the case of an agreement described in section 704 (c) (2) (relating to effect of partnership agreement on contributed property), such share shall be determined by taking such agreement into account. In the case of an adjustment under this subsection to the basis of partnership property subject to depletion, any depletion allowable shall be determined separately for the transferee partner with respect to his interest in such property.

(c) *Allocation of basis.* The allocation of basis among partnership properties where subsection (b) is applicable shall be made in accordance with the rules provided in section 755.

§ 1.743–1 *Optional adjustment to basis of partnership property.*—(a) *General rule.* The basis of partnership property shall not be adjusted as the result of a transfer of an interest in a partnership, either by sale or exchange or as a result of the death of a partner, unless the election provided by section 754 (relating to optional adjustment to basis of partnership property) is in effect with respect to the partnership. However, whether or not the election provided in section 754 is in effect, the basis of partnership property shall not be adjusted as the result of a contribution of property, including money, to the partnership.

(b) *Adjustment to basis of partnership property.*—(1) *Determination of adjustment.* In the case of a transfer of an interest in a partnership, either by sale or exchange or as a result of the death of a partner, a partnership as to which the election under section 754 is in effect shall—

(i) Increase the adjusted basis of partnership property by the excess of the transferee's basis for his partnership interest over his share of the adjusted basis to the partnership of all partnership property, or

(ii) Decrease the adjusted basis of partnership property by the excess of the transferee partner's share of the adjusted basis of all partnership property over his basis for his partnership interest.

The amount of the increase or decrease constitutes an adjustment affecting the basis of partnership property with respect to the transferee partner only. Thus, for purposes of depreciation, depletion, gain or loss, and distributions, the transferee partner will have a special basis for those partnership properties which are adjusted under section 743 (b) and this paragraph. This special basis in his share of the common partnership basis (i. e., the adjusted basis of such properties to the partnership without regard to any special basis adjustments of any transferee) plus or minus his special basis adjustments. A partner's share of the adjusted basis of partnership property is equal to the sum of his interest as a partner in partnership capital and surplus, plus his share of partnership liabilities. Where an agreement with respect to contributed property is in effect under section 704 (c) (2), such agreement shall be taken into account in determining a partner's share of the adjusted basis of partnership property. Generally, if a partner's interest in partnership capital and profits is ⅓, his share of the adjusted basis of partnership property will be ⅓ of such basis. The provisions of this paragraph may be illustrated by the following examples:

*Example (1).* A is a member of partnership ABC in which the partners have equal interests in capital and profits. The partnership has made the election under section 754, relating to the optional adjustment to the basis of partnership property. A sells his interest to P for $22,000. The balance sheet of the partnership at the date of sale shows the following:

ASSETS

| | Adjusted basis per books | Market value |
|---|---|---|
| Cash | $5,000 | $5,000 |
| Accounts receivable | 10,000 | 10,000 |
| Inventory | 20,000 | 21,000 |
| Depreciable assets | 20,000 | 40,000 |
| Total | 55,000 | 76,000 |

LIABILITIES AND CAPITAL

| | Adjusted basis per books | Value |
|---|---|---|
| Liabilities | $10,000 | $10,000 |
| Capital: | | |
| A | 15,000 | 22,000 |
| B | 15,000 | 22,000 |
| C | 15,000 | 22,000 |
| Total | 55,000 | 76,000 |

The amount of the adjustment under section 743 (b) is the difference between the basis of the transferee's interest in the partnership and his share of the adjusted basis of partnership property. Under section 742, the basis of P's interest is $25,333 (the cash paid for A's interest, $22,000, plus $3,333, P's share of partnership liabilities). P's share of the adjusted basis of partnership property is $18,333, i. e., $15,000 plus $3,333. The amount to be added to the basis of partnership property is, therefore, $7,000, the difference between $25,333 and $18,333. This amount will be allocated to partnership properties in accordance with the rules set forth in section 755 and § 1.755–1.

*Example (2).* D is a member of partnership DEF in which the partners have equal interests in profits, but not in capital. The partnership has made the election under section 754. D dies and his interest passes to W, his widow. The balance sheet of the partnership at the date of D's death shows the following:

ASSETS

| | Adjusted basis per books | Market value |
|---|---|---|
| Cash | $7,000 | $7,000 |
| Accounts receivable | 10,000 | 10,000 |
| Inventory | 20,000 | 24,000 |
| Depreciable assets | 20,000 | 40,000 |
| Total | 57,000 | 81,000 |

LIABILITIES AND CAPITAL

| | Adjusted basis per books | Value |
|---|---|---|
| Liabilities | $10,000 | $10,000 |
| Capital: | | |
| D | 18,000 | 26,000 |
| E | 15,000 | 23,000 |
| F | 14,000 | 22,000 |
| Total | 57,000 | 81,000 |

The amount of the adjustment under section 743 (b) is the difference between the basis of the transferee's interest in the partnership and her share of the adjusted basis of partnership property. Under section 742, the basis of W's interest is $29,333 (the fair market value of D's interest at his death, $26,000, plus $3,333, his share of partnership liabilities). W's share of the adjusted basis of partnership property is $21,333 (i. e., $18,000 plus $3,333, per share of partnership liabilities). The amount to be added to the basis of partnership property is, therefore, $8,000, the difference between $29,333 and $21,333. This amount will be allocated to partnership properties in accordance with the rules set forth in section 755 and § 1.755–1.

Note that in examples (1) and (2) of this subparagraph the amount of the adjustment does not depend upon the adjusted basis to the transferor for his interest in partnership capital.

(2) *Determination of partner's share of adjusted basis of partnership property.* (i) Under the provisions of section 743 (b), a partner's share of the adjusted basis of partnership property shall be determined by taking into account the effect of any partnership agreement with respect to contributed property as described in section 704 (c) (2), or the effect of the contribution of undivided interests under section 704 (c) (3). This rule may be illustrated by the following examples:

*Example (1).* A, B, and C form partnership ABC, to which A contributes land worth $1,000 (property X) with an adjusted basis to him of $400, and B and C each contributes $1,000 cash. Each partner has $1,000 credited to him on the books of the partnership as his capital contribution. The partners share in profits equally. During the partnership's first taxable year, property X appreciates in value to $1,300. A sells his one-third interest in the partnership to D for $1,100, when the election under section 754 is in effect. No agreement under section 704 (c) (2) is in effect. The adjusted basis of the partnership property is increased with respect to D by the excess of his basis for his partnership interest, $1,100, over his share of the adjusted basis of partnership property, $800 (⅓ of $2,400, the total adjusted basis of partnership property). The amount of the adjustment, therefore, is $300 ($1,100 minus $800), which is an increase in the basis of partnership property with respect to D only. This special basis adjustment will be allocated to property X. (See section 755 and § 1.755–1.) If property X is sold for $1,600, the gain to the partnership is $1,200 ($1,600 received, less the adjusted common partnership basis of $400 for property X). Thus, each partner's distributive share of the gain on the sale is $400. However, D's recognized gain is only $100 (his $400 distributive share of the gain, reduced by $300, his special basis adjustment with respect to property X). If D purchased his interest from B or C, the partners who contributed cash, D's adjustment under section 743 (b) would also be $300, computed in exactly the same manner as in the case of a purchase from A.

*Example (2).* Assume that partnership ABC described in example (1) of this subdivision has an agreement under section 704 (c) (2) with respect to property X, stating that upon the sale of that property any gain, to the extent attributable to the precontribution appreciation of $600 (the difference between its value, $1,000, and its basis, $400, at the time of the contribution) is to be allocated entirely to A, who contributed property X. Upon the purchase of A's interest by D for $1,100, the computation of D's special basis would differ from that indicated in example (1) of this subdivision as follows: Under the partnership agreement, A's share of the $2,400 adjusted basis of partnership property is only $400 (his basis for property X prior to its contribution to the partnership), and B's and C's share is $1,000 each (the amount of the cash investment of each). The amount of the increase to D in the adjusted basis of partnership property under section 743 (b) (1) is $700 (the excess of $1,100, D's cost basis for his interest, over $400, A's share of the adjusted basis of partnership property to which D succeeds). This amount constitutes an adjustment to the basis of partnership property with respect to D only. If X is sold by the partnership for $1,600, the gain is $1,200 ($1,600 received less the adjusted common partnership basis of $400). Under the partnership agreement, $600 of this gain, which is attributable to precontribution appreciation in value, is allocable to D, who is A's successor. The remaining $600 gain is not subject to the agreement and is allocable to the partners equally, $200 each. D's distributive share of the partnership gain is thus $600 plus $200, or $800. However, D has a special basis adjustment of $700 under section 743 (b) (1), which reduces his gain from $800 to $100. B and C each has a gain of $200, which is unaffected by the transfer of A's interest to D.

*Example (3).* Assume the same facts as in example (2) of this subdivision, except that D has purchased his interest from B instead of from A. His special basis adjustment for partnership property in this case differs from that where he had purchased his interest from A, because of the effect of the agreement under section 704 (c) (2). In this case, D is a successor to B, whose share of the adjusted basis of partnership property is $1,000, instead of A, whose share is only $400. As a result, the adjustment under section 743 (b) (1) is the excess of D's cost basis for his interest, $1,100, over his share of the adjusted basis of partnership property, $1,000, or $100. In this case, if property X is sold for $1,600, the partnership gain is $1,200 ($1,600 less the adjusted partnership basis of $400). Of this gain, $600, representing precontribution appreciation, is allocable to A under the partnership agreement. The remaining $600 is allocable in the amount of $200 to each partner. Since D as a transferee has a special basis adjustment of $100 under section 743 (b) (1), his gain is reduced from $200 to $100.

(ii) If a partner receives a distribution of property with respect to which another partner has a special basis adjustment, the distributee shall not take into account the special basis adjustment of the other partner. However, the partner with the special basis adjustment will reallocate it under section 755 to remaining partnership property of a like kind or, if he receives a distribution of like property, to such distributed property. If a partner receives a distribution of property with respect to which he has a special basis adjustment, such basis adjustment will be taken into account when relevant under section 732. See § 1.732–2 (b). If, at the time a partner receives property (whether or not he has a special basis adjustment with respect to such property), he relinquishes his interest in other property of a like kind with respect to which he has a special basis adjustment, the adjusted basis to the partnership of the distributed property shall include his special basis adjustment for the property in which he relinquished his interest. For the purposes of the preceding sentence, a partner will be considered as having relinquished his interest in any remaining partnership properties when his interest has been completely liquidated; however, when a partner receives a distribution not in liquidation, he will be considered as relinquishing his interest only in property distributed to other partners. For the purposes of this subdivision, like property means property of the same class, that is, stock in trade, property used in the trade or business, capital

assets, etc. For certain adjustments to the basis of remaining partnership property after a distribution to a transferee partner, see § 1.734–2 (b). The provisions of this subdivision may be illustrated by the following examples:

*Example (1).* C is a transferee partner in partnership BC. The partnership owns, among other assets, X, a depreciable asset with a common basis to the partnership of $1,000 and a special basis adjustment to C of $200, and Y, another depreciable asset with a common basis of $800 and a special basis adjustment to C of $300. B and C agree that B will receive a distribution of property Y, and C will receive a distribution of property X, with all other property to remain in the partnership. With respect to B, the partnership basis of property Y is $800, the common partnership basis. Y will, therefore, have a basis of $800 in B's hands under section 732 (a) which provides for the use of a carryover basis in the case of current distributions. With respect to C, however, the partnership basis of property X is $1,500, the common partnership basis of $1,000, plus C's special basis adjustment of $200 for property X, plus C's additional special basis adjustment of $300 for property Y, in which he has relinquished his interest.

*Example (2).* (a) Partner D acquired his one-third interest in partnership BCD for $14,000 from a previous partner when an election under section 754 was in effect. Therefore, under section 743 (b), D has a special basis adjustment for certain partnership property. Assume that at the time of the distribution in paragraph (b) of this example, the partnership assets consist of cash and rental property and that such assets and D's special basis adjustments under section 743 (b) are as follows:

| Item | Fair market value | Common partnership basis | D's share | D's special basis adjustment | Partnership basis to D |
|---|---|---|---|---|---|
| Cash | $12,000 | $12,000 | $4,000 | -------- | $4,000 |
| House: | | | | | |
| U | 9,000 | 1,200 | 400 | -------- | 400 |
| V | 6,000 | 4,500 | 1,500 | -------- | 1,500 |
| W | 8,000 | 1,500 | 500 | -------- | 500 |
| X | 9,000 | 4,800 | 1,600 | $2,000 | 3,600 |
| Y | 9,000 | 6,000 | 2,000 | -------- | 2,000 |
| Z | 7,000 | 3,000 | 1,000 | 1,000 | 2,000 |
| Total | 60,000 | 33,000 | 11,000 | 3,000 | 14,000 |

(b) Assume further that D receives $4,000 in cash and houses Y and Z in complete liquidation of his interest in partnership BCD. In determining the basis to D of houses Y and Z under section 732 (b) and (c), D must allocate $10,000 basis ($14,000 basis for his interest, less $4,000 cash received) to houses Y and Z in proportion to their adjusted bases to the partnership. For purposes of section 732 (c), the adjusted basis of house Y is $7,200. ($6,000 common partnership basis, plus $1,200, allocated share of D's special basis adjustment of $2,000 for house X, in which D relinquished his interest). The adjusted basis of house Z is $4,800 ($3,000 common partnership basis, plus $1,000, D's special basis for house Z, plus $800, allocated share of D's special basis of $2,000 for house X, in which D relinquished his interest). See subparagraph (2) (ii) of this paragraph under which 6,000/10,000 of the $2,000 special basis adjustment for X is allocated to Y and 4,000/10,000 of such amount to Z. Therefore, $6,000 basis (7,200/12,000 of $10,000) is allocated to house Y and $4,000 basis (4,800/12,000 of $10,000) to house Z.

(c) Since houses Y and Z had $12,000 basis to the partnership, as computed in paragraph (b) of this example, and only $1,000 basis to D, as determined under section 732, the partnership, under section 734 (b) (1) (B), must increase the basis of remaining partnership property (houses U, V, W, and X) by $2,000 (excess of $12,000 over $10,000). For allocation of this amount, see section 755 and § 1.755–1.

(iii) Where an adjustment is made under section 743 (b) to the basis of partnership property subject to depletion, any depletion allowable shall be determined separately for each partner, including the transferee partner, based on his interest in such property. See § 1.702–1 (a) (8). This rule may be illustrated by the following example:

*Example.* A, B, and C each contributes $5,000 cash to form partnership ABC, which purchases oil property for $15,000. C subsequently sells his partnership interest to D for $100,000 when the election under section 754 is in effect. D has a special basis adjustment for the oil property of $95,000 (the difference between D's basis, $100,000, and his share of the basis of partnership property, $5,000). Assume that the depletion allowance computed under the percentage method would be $21,000 for the taxable year so that each partner would be entitled to $7,000 as his share of the deduction for depletion. However, under the cost depletion method, at an assumed rate of 10 percent, the allowance with respect to D's one-third interest which has a basis to him of $100,000 ($5,000, plus his special basis adjustment of $95,000) is $10,000, although the cost depletion allowance with respect to the one-third interest of A and B in the oil property, each of which has a basis of $5,000, is only $500. For partners A and B, the percentage depletion is greater than cost depletion and each will deduct $7,000 based on the percentage depletion method. However, as to D, the transferee partner, the cost depletion method results in a greater allowance and D will, therefore, deduct $10,000 based on cost depletion. See section 613 (a).

(iv) Where there has been more than one transfer of partnership interests, the last transferee's special basis adjustment, if any, under section 743 (b) shall be determined by reference to the partnership common basis for its property without regard to any prior transferee's special basis adjustment. For example, A, B, and C form a partnership. A and B each contributes $1,000 cash and C contributes land with a basis and value of $1,000. When the land has appreciated in value to $1,300, A sells his interest to D for $1,100 (⅓ of $3,300, the value of the partnership property). The election under section 754 is in effect; therefore, D has a special basis adjustment of $100 with respect to the land under section 743 (b). After the land has further appreciated in value to $1,600, D sells his interest to E for $1,200 (⅓ of $3,600, the value of the partnership property). Under section 743 (b), E has a special basis adjustment of $200. This amount is determined without regard to any special basis adjustment that D may have had in the partnership assets.

(3) *Returns.* A transferee partner who has a special basis adjustment under section 743 (b) shall attach a statement to his income tax return for the first taxable year in which the basis of any partnership property subject to the adjustment is pertinent in determining his income tax, showing the computation of the adjustment and the partnership properties to which the adjustment has been allocated.

(c) *Allocation of basis.* For the allocation of basis among partnership properties where section 743 (b) applies, see section 755 and § 1.755–1.

*Provisions Common to Other Subparts*

§ 1.751 *Statutory provisions; unrealized receivables and inventory items.*

SEC. 751. *Unrealized receivables and inventory items—*(a) *Sale or exchange of interest in partnership.* The amount of any money, or the fair market value of any property, received by a transferor partner in exchange for all or a part of his interest in the partnership attributable to—

(1) Unrealized receivables of the partnership, or

(2) Inventory items of the partnership which have appreciated substantially in value,

shall be considered as an amount realized from the sale or exchange of property other than a capital asset.

(b) *Certain distributions treated as sales or exchanges—*(1) *General rule.* To the extent a partner receives in a distribution—

(A) Partnership property described in subsection (a) (1) or (2) in exchange for all or a part of his interest in other partnership property (including money), or

(B) Partnership property (including money) other than property described in subsection (a) (1) or (2) in exchange for all or a part of his interest in partnership property described in subsection (a) (1) or (2),

such transactions shall, under regulations prescribed by the Secretary or his delegate, be considered as a sale or exchange of such property between the distributee and the partnership (as constituted after the distribution).

(2) *Exceptions.* Paragraph (1) shall not apply to—

(A) A distribution of property which the distributee contributed to the partnership, or

(B) Payments, described in section 736 (a), to a retiring partner or successor in interest of a deceased partner.

(c) *Unrealized receivables.* For purposes of this subchapter, the term "unrealized receivables" includes, to the extent not previously includible in income under the method of accounting used by the partnership, any rights (contractual or otherwise) to payment for—

(1) Goods delivered, or to be delivered, to the extent the proceeds therefrom would be treated as amounts received from the sale or exchange of property other than a capital asset, or

(2) Services rendered, or to be rendered.

(d) *Inventory items which have appreciated substantially in value—*(1) *Substantial appreciation.* Inventory items of the partnership shall be considered to have appreciated substantially in value if their fair market value exceeds—

(A) 120 percent of the adjusted basis to the partnership of such property, and

(B) 10 percent of the fair market value of all partnership property, other than money.

(2) *Inventory items.* For purposes of this subchapter the term "inventory items" means—

(A) Property of the partnership of the kind described in section 1221 (1),

(B) Any other property of the partnership which, on sale or exchange by the partnership, would be considered property other than a capital asset and other than property described in section 1231, and

(C) Any other property held by the partnership which, if held by the selling or distributee partner, would be considered property of the type described in subparagraph (A) or (B).

§ 1.751–1 *Unrealized receivables and inventory items—*(a) *Sale or exchange of interest in a partnership—*(1) *Character of amount realized.* To the extent that money or property received by a partner in exchange for all or part of his partnership interest is attributable to his share of the value of partnership unrealized receivables or substantially appreciated inventory items, the money or fair market value of the property received shall be considered as an amount realized from the sale or exchange of property other than a capital asset. The remainder of the total amount realized on the sale or exchange of the partnership interest is realized from the sale or exchange of a capital asset under section 741. For definition of "unrealized receivables" and "inventory items which have appreciated substantially in value", see section 751 (c) and (d). Unrealized receivables and substantially appreciated inventory items are hereafter in this section referred to as "section 751 property". See paragraph (e) of this section.

(2) *Determination of gain or loss.* The income or loss realized by a partner upon the sale or exchange of his interest in section 751 property is the difference between (i) the portion of the total amount realized for the partnership interest allocated to section 751 property, and (ii) the portion of the selling partner's basis for his entire interest allocated to such property. Generally, the portion of the total amount realized which the seller and the purchaser allocate to section 751 property in an arm's length agreement will be regarded as correct. The portion of the partner's adjusted basis for his partnership interest to be allocated to section 751 property shall be an amount equal to the basis such property would have had under section 732 (including subsection (d) thereof) if the selling partner had received his share of such properties in a current distribution made immediately before the sale. See §§ 1.732–1 and 1.733–2. Such basis shall reflect the rules of section 704 (c) (3), if applicable, or any agreement under section 704 (c) (2). Any gain or loss recognized which is attributable to section 751 property will be ordinary gain or loss. The difference between the remainder, if any, of the partner's adjusted basis for his partnership interest and the balance, if any, of the amount realized is the transferor's capital gain or loss on the sale of his partnership interest.

(3) *Statement required.* A transferor partner selling or exchanging any part of his interest in a partnership which has any section 751 property at the time of sale or exchange shall submit with his income tax return for the taxable year in which the sale or exchange occurs a statement setting forth separately the following information:

(i) The date of the sale or exchange, the amount of the transferor partner's adjusted basis for his partnership interest, and the portion thereof attributable to section 751 property under section 732; and

(ii) The amount of any money and the fair market value of any other property received or to be received for the transferred interest in the partnership, and the portion thereof attributable to section 751 property.

(iii) If the transferor partner computes his adjusted basis for section 751 property under the provisions of section 732 (d), he must also include in the statement the information required by § 1.732–1 (d) (3).

(iv) If the transferor partner has a special basis adjustment under section 743 (b), he must also include in the statement the computation of his special basis adjustment and the partnership properties to which the adjustment has been allocated.

(b) *Certain distributions treated as sales or exchanges—*(1) *In general.* (i) Certain distributions to which section 751 (b) applies are treated in part as sales or exchanges of property between the partnership and the distributee partner, and not as distributions to which sections 731 through 736 apply. A distribution treated as a sale or exchange under section 751 (b) is not subject to the provisions of section 707 (b). Section 751 (b) applies whether or not the distribution is in liquidation of the distributee partner's entire interest in the partnership. However, section 751 (b) applies only to the extent that a partner either receives section 751 property in exchange for his relinquishing any part of his interest in other property, or receives other property in exchange for his relinquishing any part of his interest in section 751 property.

(ii) Section 751 (b) does not apply to a distribution to a partner which is not in exchange for his interest in other partnership property. Thus, section 751 (b) does not apply to the extent that a distribution consists of the distributee partner's share of section 751 property or his share of other property. Similarly, section 751 (b) does not apply to current drawings or to advances against the partner's distributive share, or to a distribution which is, in fact, a gift or payment for services or for the use of capital. In determining whether a partner has received only his share of either section 751 property or of other property, his interest in such property remaining in the partnership immediately after a distribution must be taken into account. For example, the section 751 property in partnership ABC has a fair market value of $100,000 in which partner A has an interest of 30 percent, or $30,000. If A receives $20,000 of section 751 property in a distribution, and continues to have a 30-percent interest in the $80,000 of section 751 property remaining in the partnership after the distribution, only $6,000 ($30,000 minus $24,000 (30 percent of $80,000)) of the section 751 property received by him will be considered to be his share of such property. The remaining $14,000 ($20,000 minus $6,000) received is in excess of his share.

(iii) If a distribution is, in part, a distribution of the distributee partner's share of section 751 property, or of other property (including money) and, in part, a distribution in exchange of such properties, the distribution shall be divided for the purpose of applying section 751 (b). The rules of section 751 (b) shall first apply to the part of the distribution treated as a sale or exchange of such properties, and then the rules of sections 731 through 736 shall apply to the part of the distribution not treated as a sale or exchange. See paragraph (b) (4) (ii) of this section for treatment of payments under section 736 (a).

(2) *Distribution of section 751 property (unrealized receivables or substantially appreciated inventory items).* (i) To the extent that a partner receives section 751 property in a distribution in exchange for any part of his interest in partnership property (including money) other than section 751 property, the transaction shall be treated as a sale or exchange of such properties between the distributee partner and the partnership (as constituted after the distribution).

(ii) At the time of the distribution, the partnership (as constituted after the distribution) realizes ordinary income or loss on the sale or exchange of the section 751 property. The amount of the income or loss to the partnership will be measured by the difference between the adjusted basis to the partnership of the section 751 property considered as sold to or exchanged with the partner, and the fair market value of the distributee partner's interest in other partnership property which he relinquished in the exchange. In computing the partners' distributive shares of such ordinary income or loss, the income or loss shall be allocated only to partners other than the distributee and separately taken into account under section 702 (a) (8).

(iii) At the time of the distribution, the distributee partner realizes gain or loss measured by the difference between his adjusted basis for the property relinquished in the exchange (including any special basis adjustment which he may have) and the fair market value of the section 751 property received by him in exchange for his interest in other property which he has relinquished. The distributee's adjusted basis for the property relinquished is the basis such property would have had under section 732 (including subsection (d) thereof) if the distributee partner had received such property in a current distribution immediately before the actual distribution which is treated wholly or partly as a sale or exchange under section 751 (b). The character of the gain or loss to the distributee partner shall be determined by the character of the property in which he relinquished his interest.

(3) *Distribution of partnership property other than section 751 property.* (i) To the extent that a partner receives a distribution of partnership property (including money) other than section 751 property in exchange for any part of his interest in section 751 property of the partnership, the distribution shall be treated as a sale or exchange of such properties between the distributee partner and the partnership (as constituted after the distribution).

(ii) At the time of the distribution, the partnership (as constituted after the

distribution) realizes gain or loss on the sale or exchange of the property other than section 751 property. The amount of the gain to the partnership will be measured by the difference between the adjusted basis to the partnership of the distributed property considered as sold to or exchanged with the partner, and the fair market value of the distributee partner's interest in section 751 property which he relinquished in the exchange. The character of the gain or loss to the partnership is determined by the character of the distributed property treated as sold or exchanged by the partnership. In computing the partners' distributive shares of such gain or loss, the gain or loss shall be allocated only to partners other than the distributee and separately taken into account under section 702 (a) (8).

(iii) At the time of the distribution, the distributee partner realizes ordinary income or loss on the sale or exchange of the section 751 property. The amount of the distributee partner's income or loss shall be measured by the difference between his adjusted basis for the section 751 property relinquished in the exchange (including any special basis adjustment which he may have), and the fair market value of other property (including money) received by him in exchange for his interest in the section 751 property which he has relinquished. The distributee partner's adjusted basis for the section 751 property relinquished is the basis such property would have had under section 732 (including subsection (d) thereof) if the distributee partner had received such property in a current distribution immediately before the actual distribution which is treated wholly or partly as a sale or exchange under section 751 (b).

(4) *Exceptions.* (i) Section 751 (b) does not apply to the distribution to a partner of property which the distributee partner contributed to the partnership. The distribution of such property is governed by the rules set forth in sections 731 through 736, relating to distributions by a partnership.

(ii) Section 751 (b) does not apply to payments made to a retiring partner or to a deceased partner's successor in interest to the extent that, under section 736 (a), such payments constitute a distributive share of partnership income or guaranteed payments. Payments to a retiring partner or to a deceased partner's successor in interest for his interest in unrealized receivables of the partnership in excess of their partnership basis, including any special basis adjustment for them to which such partner is entitled, constitute payments under section 736 (a) and, therefore, are not subject to section 751 (b). However, payments under section 736 (b) which are considered as made in exchange for an interest in partnership property are subject to section 751 (b) to the extent that they involve an exchange of substantially appreciated inventory items for other property. Thus, payments to a retiring partner or to a deceased partner's successor in interest under section 736 must first be divided between payments under section 736 (a) and section 736 (b). The section 736 (b) payments must then be divided, if there is an exchange of substantially appreciated inventory items for other property, between the payments treated as a sale or exchange under section 751 (b) and payments treated as a distribution under sections 731 through 736. See subparagraph (1) (iii) of this paragraph, and section 736 and § 1.736–1.

(5) *Statement required.* A partnership which distributes section 751 property to a partner in exchange for his interest in other partnership property, or which distributes other property in exchange for any part of the partner's interest in section 751 property, shall submit with its return for the year of the distribution a statement showing the computation of any income, gain, or loss to the partnership under the provisions of section 751 (b) and this paragraph. The distributee partner shall submit with his return a statement showing the computation of any income, gain, or loss to him. Such statement shall contain information similar to that required under paragraph (a) (3) of this section.

(c) *Unrealized receivables.* (1) The term "unrealized receivables", as used in subchapter K, means any rights (contractual or otherwise) to payment for—

(i) Goods delivered or to be delivered to the extent that such payment would be treated as received for property other than a capital asset), or

(ii) Services rendered or to be rendered,

to the extent that income arising from such rights to payment was not previously includible in income under the method of accounting employed by the partnership. Such rights must have arisen under contracts or agreements in existence at the time of sale or distribution, although the partnership may not be able to enforce payment until a later time. For example, the term includes trade accounts receivable of a cash method taxpayer, and rights to payment for work or goods begun but incomplete at the time of the sale or distribution.

(2) The basis for such unrealized receivables shall include all costs or expenses attributable thereto paid or accrued but not previously taken into account under the partnership method of accounting.

(3) In determining the amount of the sale price attributable to unrealized receivables, or their value in a distribution treated as a sale or exchange, any arm's length agreement between the buyer and the seller, or between the partnership and the distributee partner, will generally establish the amount or value. In the absence of such an agreement, full account shall be taken not only of the estimated cost of completing performance of the contract or agreement, but also of the time between the sale or distribution and the time of payment.

(d) *Inventory items which have substantially appreciated in value*—(1) *Substantial appreciation.* Partnership inventory items shall be considered to have appreciated substantially in value if, at the time of the sale or distribution, the total fair market value of all the inventory items of the partnership exceeds 120 percent of the aggregate adjusted basis for such property in the hands of the partnership (without regard to any special basis adjustment of any partner) and, in addition, exceeds 10 percent of the fair market value of all partnership property other than money. The terms "inventory items which have appreciated substantially in value" or "substantially appreciated inventory items" refer to the aggregate of all partnership inventory items. These terms do not refer to specific partnership inventory items or to specific groups of such items. For example, any distribution of inventory items by a partnership the inventory items of which as a whole are substantially appreciated in value shall be a distribution of substantially appreciated inventory items for the purposes of section 751 (b), even though the specific inventory items distributed may not be appreciated in value. Similarly, if the aggregate of partnership inventory items are not substantially appreciated in value, a distribution of specific inventory items, the value of which is more than 120 percent of their adjusted basis, will not constitute a distribution of substantially appreciated inventory items. For the purpose of this paragraph, the "fair market value" of inventory items has the same meaning as "market" value in the regulations under section 471, relating to general rule for inventories.

(2) *Inventory items.* The term "inventory items" as used in subchapter K includes the following types of property:

(i) Stock in trade of the partnership, or other property of a kind which would properly be included in the inventory of the partnership if on hand at the close of the taxable year, or property held by the partnership primarily for sale to customers in the ordinary course of its trade or business. See section 1221 (1).

(ii) Any other property of the partnership which, on sale or exchange by the partnership, would be considered property other than a capital asset and other than property described in section 1231. Thus, accounts receivable acquired in the ordinary course of business for services or from the sale of stock in trade constitute inventory items (see section 1221 (4)), as do any unrealized receivables.

(iii) Any other property retained by the partnership which, if held by the partner selling his partnership interest or receiving a distribution described in section 751 (b), would be considered property described in subdivisions (i) or (ii) of this subparagraph. Property actually distributed to the partner does not come within the provisions of section 751 (d) (2) (C) and this subdivision.

(e) *Section 751 property and other property.* For the purposes of this section, "section 751 property" means unrealized receivables or substantially appreciated inventory items, and "other property" means all property (including money) except section 751 property.

(f) *Effective date.* Section 751 applies to gain or loss to a seller, distributee, or partnership in the case of a sale, exchange, or distribution occurring after March 9, 1954. For the purpose of applying this paragraph in the case of a taxable year beginning before January 1, 1955, a partnership or a partner may elect to treat as applicable any other section of subchapter K. Any such election shall be made by a statement submitted not later than the time prescribed by law for the filing of the return for such taxable year, or submitted within 90 days after the promulgation of the regulations under this section, whichever date is later (but not later than 6 months after the time prescribed by law for the filing of the return for such year). See section 771 (b) (3) and § 1.771–1 (b) (3). See also section 771 (c) and § 1.771–1 (c).

(g) *Examples.* Application of the provisions of section 751 may be illustrated by the following examples:

*Example (1).* C buys B's interest in personal service partnership AB for $15,000, when the balance sheet of the firm (reflecting a cash receipts and disbursements method of accounting) is as follows:

ASSETS

| | Adjusted basis per books | Market value |
|---|---|---|
| Cash | $3,000 | $3,000 |
| Loans receivable | 10,000 | 10,000 |
| Other assets | 7,000 | 7,000 |
| Unrealized receivables | 0 | 12,000 |
| Total | 20,000 | 32,000 |

LIABILITIES AND CAPITAL

| | Per books | Value |
|---|---|---|
| Liabilities | $2,000 | $2,000 |
| Capital: | | |
| A | 9,000 | 15,000 |
| B | 9,000 | 15,000 |
| Total | 20,000 | 32,000 |

Section 751 (a) applies to the sale. The total amount realized by B is $16,000, consisting of the cash received, $15,000, plus $1,000, B's share of the partnership liabilities assumed by C. See section 752. B's undivided half interest in the partnership property includes a half-interest in the partnership's unrealized receivables which are worth $12,000. Consequently, $6,000 of the $16,000 realized by B shall be considered received in exchange for B's interest in the partnership attributable to its unrealized receivables. The remaining $10,000 realized by B is in exchange for a capital asset. B's basis for his partnership interest is $10,000 ($9,000, plus $1,000, B's share of partnership liabilities). No portion of this basis is attributable to B's share of the unrealized receivables of the partnership since such property has a zero basis in the hands of the partnership; therefore, B has a basis of zero for the unrealized receivables because the partnership basis for such receivables would have carried over to him under section 732 had they been distributed to him. The difference between the zero basis and the $6,000 B realized for the unrealized receivables is ordinary income to him. The entire $10,000 of B's basis is the basis for his interest in partnership property other than unrealized receivables and is applied against the remaining $10,000 ($16,000 minus $6,000) received from the sale of his interest. Therefore, B has no capital gain or loss. (If B's basis for his interest in partnership property, other than unrealized receivables, were $9,000, he would realize capital gain of $1,000. If his basis were $11,000, he would sustain a capital loss of $1,000.)

*Example (2).* (a) *Facts.* Partnership ABC makes a distribution to partner C in liquidation of his entire one-third interest in the partnership. At the time of the distribution, the balance sheet of the partnership, which uses the accrual method of accounting, is as follows:

ASSETS

| | Adjusted basis per books | Market value |
|---|---|---|
| Cash | $15,000 | $15,000 |
| Accounts receivable | 9,000 | 9,000 |
| Inventory | 21,000 | 30,000 |
| Depreciable property | 42,000 | 48,000 |
| Land | 9,000 | 9,000 |
| Total | 96,000 | 111,000 |

LIABILITIES AND CAPITAL

| | Per books | Value |
|---|---|---|
| Current liabilities | $15,000 | $15,000 |
| Mortgage payable | 21,000 | 21,000 |
| Capital: | | |
| A | 20,000 | 25,000 |
| B | 20,000 | 25,000 |
| C | 20,000 | 25,000 |
| Total | 96,000 | 111,000 |

The distribution received by C consists of $10,000 cash and depreciable property with a fair market value of $15,000 and an adjusted basis to the partnership of $15,000.

(b) *Presence of section 751 property.* The partnership has no unrealized receivables, but the dual test provided in section 751 (d) (1) must be applied to determine whether the inventory items of the partnership, in the aggregate, have appreciated substantially in value. The fair market value of all partnership inventory items, $39,000 (inventory $30,000, and accounts receivable $9,000), exceeds 120 percent of the $30,000 adjusted basis of such items to the partnership. The fair market value of the inventory items, $39,000, also exceeds 10 percent of the fair market value of all partnership property other than money (10 percent of $96,000 or $9,600). Therefore, the partnership inventory items have substantially appreciated in value.

(c) *The properties exchanged.* Since C's entire partnership interest is to be liquidated, the provisions of section 736 are applicable. No part of the payment, however, is considered as a distributive share or as a guaranteed payment under section 736 (a) because the entire payment is made for C's interest in partnership property. Therefore, the entire payment is for an interest in partnership property under section 736 (b), and, to the extent applicable, subject to the rules of section 751. In the distribution, C received his share of cash ($5,000) and $15,000 in depreciable property ($1,000 less than his $16,000 share). In addition, he received other partnership property ($5,000 cash and $12,000 liabilities assumed, treated as money distributed under section 752 (b)) in exchange for his interest in accounts receivable ($3,000), inventory ($10,000), land ($3,000), and the balance of his interest in depreciable property ($1,000). Section 751 (b) applies only to the extent of the exchange of other property for section 751 property (i. e., inventory items, which include trade accounts receivable). The section 751 property exchanged has a fair market value of $13,000 ($3,000 in accounts receivable and $10,000 in inventory). Thus, $13,000 of the total amount C received is considered as received for the sale of section 751 property.

(d) *Distributee partner's tax consequences.* C's tax consequences on the distribution are as follows:

(1) *The section 751 (b) sale or exchange.* C's share of the inventory items is treated as if he received them in a current distribution, and his basis for such items is $10,000 ($7,000 for inventory and $3,000 for accounts receivable) as determined under paragraph (b) (3) (iii) of this section. Then C is considered as having sold his share of inventory items to the partnership for $13,000. Thus, on the sale of his share of inventory items, C realizes $3,000 of ordinary income.

(2) *The part of the distribution not under section 751 (b).* Section 751 (b) does not apply to the balance of the distribution. Before the distribution, C's basis for his partnership interest was $32,000 ($20,000 plus $12,000, his share of partnership liabilities). See section 752 (a). This basis is reduced by $10,000, the basis attributed to the section 751 property treated as distributed to C and sold by him to the partnership. Thus, C has a basis of $22,000 for the remainder of his partnership interest. The total distribution to C was $37,000 ($22,000 in cash and liabilities assumed, and $15,000 in depreciable property). Since C received no more than his share of the depreciable property, none of the depreciable property constitutes proceeds of the sale under section 751 (b). C did receive more than his share of money. Therefore, the sale proceeds, treated separately in subparagraph (1) of this paragraph of this example, must consist of money and therefore must be deducted from the money distribution. Consequently, in liquidation of the balance of C's interest, he receives depreciable property and $9,000 in money ($22,000 less $13,000). Therefore, no gain or loss is recognized to C on the distribution. Under section 732 (b), C's basis for the depreciable property is $13,000 (the remaining basis of his partnership interest, $22,000, reduced by $9,000, the money received in the distribution).

(e) *Partnership's tax consequences.* The tax consequences to the partnership on the distribution are as follows:

(1) *The section 751 (b) sale or exchange.* The partnership consisting of the remaining members has no ordinary income on the distribution since it did not give up any section 751 property in the exchange. Of the $22,000 money distributed (in cash and the assumption of C's share of liabilities), $13,000 was paid to acquire C's interest in inventory ($10,000 fair market value) and in accounts receivable ($3,000). Since under section 751 (b) the partnership is treated as buying these properties, it has a new cost basis for the inventory and accounts receivable acquired from C. Its basis for C's share of inventory and accounts receivable is $13,000, the amount which the partnership is considered as having paid C in the exchange. Since the partnership is treated as having distributed C's share of inventory and accounts receivable to him, the partnership must decrease its basis for inventory and accounts receivable ($30,000) by $10,000, the basis of C's share treated as distributed to him, and then increase the basis for inventory and accounts receivable by $13,000 to reflect the purchase prices of the items acquired. Thus, the basis of the partnership inventory is increased from $21,000 to $24,000 in the transaction. (Note that the basis of property acquired in a section 751 (b) exchange is determined under section 1012 without regard to any elections of the partnership. See § 1.732–1 (e).) Further, the partnership realizes no capital gain or loss on the portion of the distribution treated as a sale under section 751 (b) since, to acquire C's interest in the inventory and accounts receivable, it gave up money and assumed C's share of liabilities.

(2) *The part of the distribution not under section 751 (b).* In the remainder of the distribution to C which was not in exchange for C's interest in section 751 property, C received only other property as follows: $15,000 in depreciable property (with a basis to the partnership of $15,000) and $9,000 in

money ($22,000 less $13,000 treated under subparagraph (1) of this paragraph of this example). Since this part of the distribution is not an exchange of section 751 property for other property, section 751 (b) does not apply. Instead, the provisions which apply are sections 731 through 736, relating to distributions by a partnership. No gain or loss is recognized to the partnership on the distribution. (See section 731 (b).) Further, the partnership makes no adjustment to the basis of remaining depreciable property unless an election under section 754 is in effect. (See section 734 (a).) Thus, the basis of the depreciable property before the distribution, $42,000, is reduced by the basis of the depreciable property distributed, $15,000, leaving a basis for the depreciable property in the partnership of $27,000. However, if an election under section 754 is in effect, the partnership must make the adjustment required under section 734 (b) as follows: Since the adjusted basis of the distributed property to the partnership had been $15,000, and is only $13,000 in C's hands (see paragraph (d) (2) of this example), the partnership will increase the basis of the depreciable property remaining in the partnership by $2,000 (the excess of the adjusted basis to the partnership of the distributed depreciable property immediately before the distribution over its basis to the distributee). Whether or not an election under section 754 is in effect, the basis for each of the remaining partner's partnership interests will be $38,000 ($20,000 original contribution, plus $12,000, each partner's original share of the liabilities, plus $6,000, the share of C's liabilities each assumed).

(f) *Partnership trial balance.* A trial balance of the AB partnership after the distribution in liquidation of C's entire interest would reflect the results set forth in the schedule below. Column I shows the amounts to be reflected in the records if an election is in effect under section 754 with respect to an optional adjustment under section 734 (b) to the basis of undistributed partnership property. Column II shows the amounts to be reflected in the records where an election under section 754 is not in effect. Note that in column II, the total bases for the partnership assets do not equal the total of the bases for the partnership interests.

| | I Sec. 754, Election in effect | | II Sec. 754, Election not in effect | |
|---|---|---|---|---|
| | Basis | Fair market value | Basis | Fair market value |
| Cash | $5,000 | $5,000 | $5,000 | $5,000 |
| Accounts receivable | 9,000 | 9,000 | 9,000 | 9,000 |
| Inventory | 24,000 | 30,000 | 24,000 | 30,000 |
| Depreciable property | 29,000 | 33,000 | 27,000 | 33,000 |
| Land | 9,000 | 9,000 | 9,800 | 9,000 |
| | 76,000 | 86,000 | 74,000 | 86,000 |
| Current liabilities | 15,000 | 15,000 | 15,000 | 15,000 |
| Mortgage | 21,000 | 21,000 | 21,000 | 21,000 |
| Capital: | | | | |
| A | 20,000 | 25,000 | 20,000 | 25,000 |
| B | 20,000 | 25,000 | 20,000 | 25,000 |
| | 76,000 | 86,000 | 76,000 | 86,000 |

*Example* (3). (a) *Facts.* Assume that the distribution to partner C in example (2) of this paragraph in liquidation of his entire interest in partnership ABC consists of $5,000 in cash and $20,000 worth of partnership inventory with a basis of $14,000.

(b) *Presence of section 751 property.* For the same reason as stated in paragraph (b) of that example, the partnership inventory items have substantially appreciated in value.

(c) *The properties exchanged.* In the distribution, C received his share of cash ($5,000) and his share of appreciated inventory items ($13,000). In addition, he received appreciated inventory with a fair market value of $7,000 (and with an adjusted basis to the partnership of $4,900) and $12,000 in money (liabilities assumed). C has relinquished his interest in $16,000 of depreciable property and $3,000 of land. Although C relinquished his interest in $3,000 of accounts receivable, such accounts receivable are inventory items and, therefore, that exchange was not an exchange of section 751 property for other property. Section 751 (b) applies only to the extent of the exchange of other property for section 751 property (i. e., depreciable property or land for inventory items). Assume that the partners agree that the $7,000 of inventory in excess of C's share was received by him in exchange for $7,000 of depreciable property.

(d) *Distributee partner's tax consequences.* C's tax consequence on the distributions are as follows:

(1) *The section 751 (b) sale or exchange.* C is treated as if he had received his 7/16ths share of the depreciable property in a current distribution. His basis for that share is $6,125 (42,000/48,000 of $7,000), as determined under paragraph (b) (2) (iii) of this section. Then C is considered as having sold his 7/16ths share of depreciable property to the partnership for $7,000, realizing a gain of $875.

(2) *The part of the distribution not under section 751 (b).* Section 751 (b) does not apply to the balance of the distribution. Before the distribution, C's basis for his partnership interest was $32,000 ($20,000, plus $12,000, his share of partnership liabilities). See section 752 (a). This basis is reduced by $6,125, the basis of property treated as distributed to C and sold by him to the partnership. Thus, C will have a basis of $25,875 for the remainder of his partnership interest. Of the $37,000 total distribution to C, $30,000 ($17,000 in money, including liabilities assumed, and $13,000 in inventory) is not within section 751 (b). Under section 732 (b), C's basis for the inventory with a fair market value of $13,000 (which had an adjusted basis to the partnership of $9,100) is limited to $8,875, the amount of the remaining basis for his partnership interest, $25,875, reduced by $17,000, the money received. Thus, C's total aggregate basis for the inventory received is $15,875 ($7,000 plus $8,875), and not its $14,000 basis in the hands of the partnership.

(e) *Partnership's tax consequences.* The tax consequences to the partnership on the distribution are as follows:

(1) *The section 751 (b) sale or exchange.* The partnership consisting of the remaining members has $2,100 of ordinary income on the sale of the $7,000 of inventory which had a basis to the partnership of $4,900 (21,000/30,000 of $7,000). This $7,000 of inventory was paid to acquire 7/16ths of C's interest in the depreciable property. Since, under section 751 (b), the partnership is treated as buying this property from C, it has a new cost basis for such property. Its basis for the depreciable property is $42,875 ($42,000 less $6,125, the basis of the 7/16ths share considered as distributed to C, plus $7,000, the partnership purchase price for this share).

(2) *The part of the distribution not under section 751 (b).* In the remainder of the distribution to C which was not a sale or exchange of section 751 property for other property, the partnership realizes no gain or loss. See section 731 (b). Further, under section 734 (a), the partnership makes no adjustment to the basis of the accounts receivable or the 9/16ths interest in depreciable property which C relinquished. However, if an election under section 754 is in effect, the partnership must make the adjustment required under section 734 (b) since the adjusted basis to the partnership of the inventory distributed had been $9,100, and C's basis for such inventory after distribution is only $8,875. The basis of the inventory remaining in the partnership must be increased by $225. Whether or not an election under section 754 is in effect, the basis for each of the remaining partnership interests will be $39,050 ($20,000 original contribution, plus $12,000, each partner's original share of the liabilities, plus $6,000, the share of C's liabilities now assumed, plus $1,050, each partner's share of ordinary income realized by the partnership upon that part of the distribution treated as a sale or exchange).

*Example* (4). (a) *Facts.* Assume the same facts as in example (3) of this paragraph, except that the partners did not identify the property which C relinqushed in exchange for the $7,000 of inventory which he received in excess of his share.

(b) *Presence of section 751 property.* For the same reasons stated in paragraph (b) of example (2) of this paragraph, the partnership inventory items have substantially appreciated in value.

(c) *The properties exchanged.* The analysis stated in paragraph (c) of example (3) of this paragraph is the same in this example, except that, in the absence of a specific agreement among the partners as to the properties exchanged, C will be presumed to have sold to the partnership a proportionate amount of each property in which he relinquished an interest. Thus, in the absence of an agreement, C has received $7,000 of inventory in exchange for his release of 7/19ths of the depreciable property and 7/19ths of the land. ($7,000, fair market value of property released, over $19,000, the sum of the fair market values of C's interest in the land and C's interest in the depreciable property.)

(d) *Distributee partner's tax consequences.* C's tax consequences on the distribution are as follows:

(1) *The section 751 (b) sale or exchange.* C is treated as if he had received his 7/19ths shares of the depreciable property and land in a current distribution. His basis for those shares is $6,263 (51,000/57,000 of $7,000, their fair market value), as determined under paragraph (b) (2) (iii) of this section. Then C is considered as having sold his 7/19ths shares of depreciable property and land to the partnership for $7,000, realizing a gain of $737.

(2) *The part of the distribution not under section 751 (b).* Section 751 (b) does not apply to the balance of the distribution. Before the distribution C's basis for his partnership interest was $32,000 ($20,000 plus $12,000, his share of partnership liabilities). See section 752 (a). This basis is reduced by $6,263, the bases of C's shares of depreciable property and land treated as distributed to him and sold by him to the partnership. Thus, C will have a basis of $25,737 for the remainder of his partnership interest. Of the total $37,000 distributed to C, $30,000 ($17,000 in money, including liabilities assumed, and $13,000 in inventory) is not within section 751 (b). Under section 732 (b), C's basis for the inventory (with a fair market value of $13,000 and an adjusted basis to the partnership of $9,100) is limited to $8,737, the amount of the remaining basis for his partnership interest ($25,737 less $17,000, money received. Thus, C's total aggregate basis for the inventory he received is $15,737 ($7,000 plus $8,737), and not the $14,000 basis it had in the hands of the partnership.

(e) *Partnership's tax consequences.* The tax consequences to the partnership on the distribution are as follows:

(1) *The section 751 (b) sale or exchange.* The partnership consisting of the remaining members has $2,100 of ordinary income on the sale of $7,000 of inventory which had a basis to the partnership of $4,900 (21,000/30,000 of $7,000). This $7,000 of inventory was paid to acquire 7/19ths of C's interest in the depreciable property and land. Since, under section 751 (b), the partnership is treated as buying this property from C, it has a new cost basis for such property. The bases of the depreciable property and land would be $42,737 and $9,000, respectively. The basis for the depreciable property is computed as follows: The common partnership basis of $42,000 is reduced by the $5,158 basis (42,000/48,000 of $5,895) for C's 7/19ths interest constructively distributed and increased by $5,895 (16,000/19,000 of $7,000), the part of the purchase price allocated to the depreciable property. The basis of the land would be computed in the same way. The $9,000 original partnership basis is reduced by $1,105 basis ($9,000/9,000 of $1,105) of land constructively distributed to C, and increased by $1,105 (3,000/19,000 of $7,000), the portion of the purchase price allocated to the land.

(2) *The part of the distribution not under section 751 (b).* In the remainder of the distribution to C which was not a sale or exchange of section 751 property for other property, the partnership realizes no gain or loss. See section 731 (b). Further, under section 734 (a), the partnership makes no adjustment to the basis of the accounts receivable or the 12/19ths interests in depreciable property and land which C relinquished. However, if an election under section 754 is in effect, the partnership must make the adjustment required under section 734 (b) since the adjusted basis to the partnership of the inventory distributed had been $9,100 and C's basis for such inventory after the distribution is only $8,737. The basis of the inventory remaining in the partnership must be increased by the difference of $363. Whether or not an election under section 754 is in effect, the basis for each of the remaining partnership interests will be $39,050 ($20,000 original contribution plus $12,000, each partner's original share of the liabilities, plus $6,000, the share of C's liabilities assumed, plus $1,050, each partner's share of ordinary income realized by the partnership upon the part of the distribution treated as a sale or exchange).

*Example* (5). (a) *Facts.* Assume that partner C in example (2) of this paragraph agrees to reduce his interest in capital and profits from 1/3 to 1/5 for a current distribution consisting of $5,000 in cash, and $7,500 of accounts receivable with a basis to the partnership of $7,500. At the same time, the total liabilities of the partnership are not reduced. Therefore, after the distribution, C's share of the partnership liabilities has been reduced by $4,800 from $12,000 (1/3 of $36,000) to $7,200 (1/5 of $36,000).

(b) *Presence of section 751 property.* For the same reasons as stated in paragraph (b) of example (2) of this paragraph, the partnership inventory items have substantially appreciated in value.

(c) *The properties exchanged.* C's interest in the fair market value of the partnership properties before and after the distribution can be illustrated by the following table:

| Item | C's interest | | C received | | C relinquished |
|---|---|---|---|---|---|
| | Fair market, one-third before | Value, one-fifth after | Distribution of share | In excess of share | |
| Cash | $5,000 | $2,000 | $3,000 | $2,000 | |
| Liabilities assumed | (12,000) | (7,200) | | 4,800 | |
| Inventory items: | | | | | |
| Accounts receivable | 3,000 | 300 | 2,700 | 4,800 | |
| Inventory | 10,000 | 6,000 | | | $4,000 |
| Depreciable property | 16,000 | 9,600 | | | 6,400 |
| Land | 3,000 | 1,800 | | | 1,200 |
| Total | 25,000 | 12,500 | 5,700 | 11,600 | 11,600 |

Although C relinquished his interest in $4,000 of inventory and received $4,800 of accounts receivable, both items constitute section 751 property and C has received only $800 of accounts receivable for $800 worth of depreciable property or for an $800 undivided interest in land. In the absence of an agreement identifying the properties exchanged, it is presumed C received $800 for proportionate shares of his interests in both depreciable property and land. To the extent that inventory was exchanged for accounts receivable, or to the extent cash was distributed for the release of C's interest in the balance of the depreciable property and land, the transaction does not fall within section 751 (b) and is a current distribution under section 732 (a). Thus, the remaining $6,700 of accounts receivable are received in a current distribution.

(d) *Distributee partner's tax consequences.* C's tax consequences on the distribution are as follows:

(1) *The section 751 (b) sale or exchange.* Assuming that the partners paid $800 worth of accounts receivable for $800 worth of depreciable property, C is treated as if he received the depreciable property in a current distribution, and his basis for the $800 worth of depreciable property is $700 (42,000/48,000 of $800, its fair market value), as determined under paragraph (b) (2) (iii) of this section. Then C is considered as having sold his $800 share of depreciable property to the partnership for $800. On the sale of the depreciable property, C realizes a gain of $100. If, on the other hand, the partners had agreed that C exchanged an $800 interest in the land for $800 worth of accounts receivable, C would realize no gain or loss, because under paragraph (b) (2) (iii) of this section his basis for the land sold would be $800. In the absence of an agreement, the basis for the depreciable property and land (which C is considered as having received in a current distribution and then sold back to the partnership) would be $716 (51,000/57,000 of $800). In that case, on the sale of the balance of the $800 share of depreciable property and land, C would realize $84 of gain ($800 less $716).

(2) *The part of the distribution not under section 751 (b).* Section 751 (b) does not apply to the balance of the distribution. Under section 731, C does not realize either gain or loss on the balance of the distribution. The adjustments to the basis of C's interest are illustrated in the following table:

| | If accounts receivable received for depreciable property | If accounts receivable received for land | If there is no agreement |
|---|---|---|---|
| Original basis for C's interest | $32,000 | $32,000 | $32,000 |
| Less basis of property distributed prior to sec. 751 (b) sale or exchange | −700 | −800 | −716 |
| | 31,300 | 31,200 | 31,284 |
| Less money received in distribution | −9,800 | −9,800 | −9,800 |
| | 21,500 | 21,400 | 21,484 |
| Less basis of property received in a current distribution under sec. 732 | −6,700 | −6,700 | −6,700 |
| Resulting basis for C's interest | 14,800 | 14,700 | 14,784 |

C's basis for the $7,500 worth of accounts receivable which he received in the distribution will be $7,500, composed of $800 for the portion purchased in the section 751 (b) exchange, plus $6,700, the basis carried over under section 732 (a) for the portion received in the current distribution.

(e) *Partnership's tax consequences.* The tax consequences to the partnership on the distribution are as follows:

(1) *The section 751 (b) sale or exchange.* The partnership realizes no gain or loss in the section 751 sale or exchange because it had a basis of $800 for the accounts receivable for which it received $800 worth of other property. If the partnership agreed to purchase $800 worth of depreciable property, the partnership basis of depreciable property becomes $42,100 ($42,000 less $700 basis of property constructively distributed to C, plus $800, price of property purchased). If the partnership purchased land with the accounts receivable, there would be no change in the basis of the land to the partnership because the basis of land distributed was equal to its purchase price. If there were no agreement, the basis of the depreciable property and land would be $51,084 (depreciable property, $42,084 and land $9,000). The basis for the depreciable property is computed as follows: The common partnership basis of $42,000 is reduced by the $590 basis (42,000/48,000 of $674) for C's $674 interest constructively distributed, and increased by $674 (6,400/7,600 of $800), the part of the purchase price allocated to the depreciable property. The basis of the land would be computed in the same way. The $9,000 original partnership basis is reduced by $126 basis (9,000/9,000 of $126) of the land constructively distributed to C, and increased by $126 (1,200/7,600 of $800), the portion of the purchase price allocated to the land.

(2) *The part of the distribution not under section 751 (b).* The partnership will realize no gain or loss in the balance of the distribution under section 731. Since the property in C's hands after the distribution will have the same basis it had in the partnership, the basis of partnership property remaining in the partnership after the distribution will not be adjusted (whether or not an election under 754 is in effect).

### § 1.752 *Statutory provisions; treatment of certain liabilities.*

SEC. 752. *Treatment of certain liabilities.*—(a) *Increase in partner's liabilities.* Any in-

crease in a partner's share of the liabilities of a partnership, or any increase in a partner's individual liabilities by reason of the assumption by such partner of partnership liabilities, shall be considered as a contribution of money by such partner to the partnership.

(b) *Decrease in partner's liabilities.* Any decrease in a partner's share of the liabilities of a partnership, or any decrease in a partner's individual liabilities by reason of the assumption by the partnership of such individual liabilities, shall be considered as a distribution of money to the partner by the partnership.

(c) *Liability to which property is subject.* For purposes of this section, a liability to which property is subject shall, to the extent of the fair market value of such property, be considered as a liability of the owner of the property.

(d) *Sale or exchange of an interest.* In the case of a sale or exchange of an interest in a partnership, liabilities shall be treated in the same manner as liabilities in connection with the sale or exchange of property not associated with partnerships.

§ 1.752–1 *Treatment of certain liabilities*—(a) *Increase in partner's liabilities.* (1) Where the liabilities of a partnership are increased, and each partner's share of such liabilities is thereby increased, the amount of each partner's increase shall be treated as a contribution of money by that partner to the partnership. For example, partnership AB borrows $1,000. If A and B are equal partners, the basis of the partnership interest of each is increased by $500 since each is considered under section 752 (a) to have contributed that amount of money to the partnership.

(2) Any increase in a partner's individual liabilities because of the assumption by him of partnership liabilities shall also be considered as a contribution of money by him to the partnership. For example, equal partnership AB owns real property with an adjusted basis to the partnership of $1,000, a fair market value of $800, and which is subject to a mortgage of $400 which the partnership has not assumed. The mortgage is considered as a liability of the partnership under section 752 (c). Since A and B each share one-half thereof, under section 752 (a) the liability of each has been increased $200. Under section 722 such $200 increase is reflected in the basis of each partner for his interest. The real property is distributed by the partnership to A. Under the provisions of section 733 (2), there is a net decrease of $800 in A's basis for his partnership interest. This amount is computed as follows: The basis of A's partnership interest is decreased in the distribution by $1,000 (the partnership basis for the distributed property) and further decreased under section 752 (b) by $200 (the decrease in A's share of partnership liabilities) and increased under section 752 (a) by $400 (the increase in A's individual liability by reason of section 752 (c)). Conversely, the basis of B's partnership interest is decreased by $200 since the distribution of the real property to A resulted in a decrease in B's share of the partnership liability under section 752 (b).

(b) *Decrease in partner's liabilities.* (1) Where the liabilities of a partnership are decreased, and each partner's share of such liabilities is thereby decreased, the amount of the decrease shall be treated as a distribution of money to the partner by the partnership. For example, partnership AB, in which A and B are equal partners, repays an obligation of $10,000. The repayment reduces each partner's share of partnership liabilities by $5,000 and is considered a distribution of money which reduces the basis of each partner's interest in the partnership by that amount. For the effect of a discharge of indebtedness on the basis of partnership property, see sections 108 and 1017.

(2) Where a partnership assumes the separate liabilities of a partner or a liability to which property owned by such partner is subject (see paragraph (c) of this section), the amount of the decrease in such partner's liabilities is treated as a distribution of money by the partnership to such partner. For example, partner A contributes property with a basis of $1,000 to partnership ABC in exchange for a one-third interest in the partnership. The property is subject to a mortgage of $150. (It is immaterial whether the mortgage is assumed by the partnership. See section 752 (c).) The basis of A's partnership interest is $900, computed as follows: $1,000, A's basis for the contributed property, reduced by $100, two-thirds of A's original liability of $150 now attributable to partners B and C and reflected in their bases under the provisions of paragraph (a) of this section.

(c) *Liability to which property is subject.* Where property subject to a liability is contributed by a partner to a partnership, or distributed by a partnership to a partner, the amount of the liability, to an extent not exceeding the fair market value of the property at the time of the contribution or distribution, shall be considered as a liability assumed by the transferee. For example, A contributes property with a basis to him of $1,000 to equal partnership AB. The property is subject to a mortgage of $2,500 and its value exceeds $2,500. Under paragraph (b) of this section, A will be treated as receiving a distribution in money of $1,250, one-half of the liability of $2,500 assumed by the partnership. Since the basis of A's partnership interest is $1,000 (the basis of the property contributed by him), the distribution to him of $1,250 results in his realizing a capital gain of $250 under section 731 (a). A's basis for his partnership interest is zero. Although as a partner A has a $1,250 share of the $2,500 partnership liability, this $1,250 is not added to the basis of A's partnership interest since it does not represent an increase in liabilities as to him.

(d) *Sale or exchange of a partnership interest.* Where there is a sale or exchange of an interest in a partnership, liabilities shall be treated in the same manner as liabilities in connection with the sale or exchange of property not associated with partnerships. For example, if a partner sells his interest in a partnership for $750 cash and at the same time transfers to the purchaser his share of partnership liabilities amounting to $250, the amount realized by the seller on the transaction is $1,000.

(e) *Partner's share of partnership liabilities.* A partner's share of partnership liabilities shall be determined in accordance with his ratio for sharing losses under the partnership agreement. In the case of a limited partnership, a limited partner's share of partnership liabilities shall not exceed the difference between his actual contribution credited to him by the partnership and the total contribution which he is obligated to make under the limited partnership agreement. However, where none of the partners have any personal liability with respect to a partnership liability (as in the case of a mortgage on real estate acquired by the partnership without the assumption by the partnership or any of the partners of any liability on the mortgage), then all partners, including limited partners, shall be considered as sharing such liability under section 752 (c) in the same proportion as they share the profits. The provisions of this paragraph may be illustrated by the following example:

*Example.* G is a general partner and L is a limited partner in partnership GL. Each makes equal contributions of $20,000 cash to the partnership upon its formation. Under the terms of the partnership agreement, they are to share profits equality but L's liabilities are limited to the extent of his contribution. Subsequently, the partnership pays $10,000 for real property which is subject to a mortgage of $5,000. Neither the partnership nor any of the partners assume any liability on the mortgage. The basis of such property to the partnership is $15,000. The basis of G and L for their partnership interests is increased by $2,500 each, since each partner's share of the partnership liability (the $5,000 mortgage) has increased by that amount. However, if the partnership had assumed the mortgage so that G had become personally liable thereunder, G's basis for his interest would have been increased by $5,000 and L's basis would remain unchanged.

(f) *Limitation.* In determining the amount of liabilities for the purposes of section 752 and this section, the amount of an indebtedness is to be taken into account only once, even though a partner (in addition to his liability for such indebtedness as a partner) may be separately liable therefor in a capacity other than as a partner.

§ 1.753 *Statutory provisions; partner receiving income in respect of decedent.*

SEC. 753. *Partner receiving income in respect of decedent.* The amount includible in the gross income of a successor in interest of a deceased partner under section 736 (a) shall be considered income in respect of a decedent under section 691.

§ 1.753–1 *Partner receiving income in respect of decedent*—(a) *Income in respect of a decedent under section 736 (a).* All payments coming within the provisions of section 736 (a) made by a partnership to the estate or other successor in interest of a deceased partner are considered income in respect of the decedent under section 691. The estate or other successor in interest of a deceased partner shall be considered to have received income in respect of a decedent to the extent that amounts are paid by a third person in exchange for rights to future payments from the partnership under section 736 (a). When a partner who is receiving payments under section 736 (a) dies, section 753 applies to any remaining payments under section 736 (a) made to his estate or other successor in interest.

(b) *Other income in respect of a decedent.* When a partner dies, the entire portion of the distributive share which is attributable to the period ending with the date of his death and which is taxable to his estate or other successor constitutes income in respect of a decedent under section 691. This rule applies even though that part of the distributive share for the period before death which the decedent withdrew is not included in the value of the decedent's partnership interest for estate tax purposes. See § 1.706–1 (c) (3).

(c) *Example.* The provisions of this section may be illustrated by the following example:

*Example.* A and the decedent B were equal partners in a business having assets (other than money) worth $40,000 with an adjusted basis of $10,000. Certain partnership business was well advanced towards completion before B's death, and after B's death but before the end of the partnership year, payment of $10,000 was made to the partnership for such work. The partnership agreement provided that, upon the death of one of the partners, all partnership property, including unfinished work, would pass to the surviving partner, and that the surviving partner would pay the estate of the decedent the undrawn balance of his share of partnership earnings to the date of death, plus $10,000 in each of the three years after death. B's share of earnings to the date of his death was $4,000, of which he had withdrawn $3,000. B's distributive share of partnership income of $4,000 to the date of his death is income in respect of a decedent (although only the $1,000 undrawn at B's death will be reflected in the value of B's partnership interest on B's estate tax return). Assume that the value of B's interest in partnership property at the date of his death was $22,000, composed of the following items: B's one-half share of the assets of $40,000, plus $2,000, B's interest in partnership cash. It should be noted that B's $1,000 undrawn share of earnings to the date of his death is not a separate item but will be paid from partnership assets. Under the partnership agreement, A is to pay B's estate a total of $31,000. The difference of $9,000 between the amount to be paid by A ($31,000) and the value of B's interest in partnership property ($22,000) comes within section 736 (a) and, thus, also constitutes income in respect of a decedent. (However, the $17,000 difference between the $5,000 basis for B's share of the partnership property and its $22,000 value at the date of his death does not constitute income in respect of a decedent.) If, before the close of the partnership taxable year, A pays B's estate $11,000, of which they agree to allocate $3,000 as the payment under section 736 (a), B's estate will include $7,000 in its gross income (B's $4,000 distributive share plus $3,000 payment under section 736 (a)). In computing the deduction under section 691 (c), this $7,000 will be considered as the value for estate tax purposes of such income in respect of a decedent, even though only $4,000 ($1,000 of distributive share not withdrawn, plus $3,000, payment under section 736 (a)) of this amount can be identified on the estate tax return as part of the partnership interest.

(d) *Effective date.* The provisions of section 753 apply only in the case of payments made with respect to decedents whose death occurred after December 31, 1954. See section 771 (b) (4) and § 1.771 (b) (4).

§ 1.754 *Statutory provisions; manner of electing optional adjustment to basis of partnership property.*

SEC. 754. *Manner of electing optional adjustment to basis of partnership property.* If a partnership files an election, in accordance with regulations prescribed by the Secretary or his delegate, the basis of partnership property shall be adjusted, in the case of a distribution of property, in the manner provided in section 734 and, in the case of a transfer of a partnership interest, in the manner provided in section 743. Such an election shall apply with respect to all distributions of property by the partnership and to all transfers of interests in the partnership during the taxable year with respect to which such election was filed and all subsequent taxable years. Such election may be revoked by the partnership, subject to such limitations as may be provided by regulations prescribed by the Secretary or his delegate.

§ 1.754–1 *Time and manner of making election to adjust basis of partnership property*—(a) *In general.* A partnership may adjust the basis of partnership property under sections 734 (b) and 743 (b) if it files an election in accordance with the rules set forth in paragraph (b) of this section. An election may not be filed to make the adjustments provided in either section 734 (b) or section 743 (b) alone, but such an election must apply to both sections. An election made under the provisions of this section shall apply to all property distributions and transfers of partnership interests taking place in the partnership taxable year for which the election is made and in all subsequent partnership taxable years unless the election is revoked pursuant to paragraph (c) of this section.

(b) *Method of making election.* An election under this section to adjust the basis of partnership property under sections 734 (b) and 743 (b) shall be made in a written statement filed with the partnership return for the first taxable year to which the election applies (or within 90 days after the promulgation of the regulations under section 754). The statement shall (1) set forth the name and address of the partnership making the election, (2) be signed by any one of the partners, and (3) contain a declaration that the partnership elects to apply the provisions of section 734 (b) and section 743 (b).

(c) *Revocation of election.* A partnership having an election in effect under this section may revoke such election with the approval of the district director for the district in which the partnership return is required to be filed. A partnership which wishes to revoke such an election shall file with the district director for the district in which the partnership return is required to be filed an application setting forth the grounds on which the revocation is desired. The application shall be filed not later than 30 days after the close of the partnership taxable year with respect to which revocation is intended to take effect and shall be signed by any one of the partners. Examples of situations which may be considered sufficient reason for approving an application for revocation include a change in the nature of the partnership business, a substantial increase in the assets of the partnership, a change in the character of partnership assets, or an increased frequency of retirements or shifts of partnership interests, so that an increased administrative burden would result to the partnership from the election. However, no application for revocation of an election shall be approved when the purpose of the revocation is primarily to avoid stepping down the basis of partnership assets upon a transfer or distribution.

§ 1.755 *Statutory provisions; rules for allocation of basis.*

SEC. 755. *Rules for allocation of basis*—(a) *General rule.* Any increase or decrease in the adjusted basis of partnership property under section 734 (b) (relating to the optional adjustment to the basis of undistributed partnership property) or section 743 (b) (relating to the optional adjustment to the basis of partnership property in the case of a transfer of an interest in a partnership) shall, except as provided in subsection (b), be allocated—

(1) In a manner which has the effect of reducing the difference between the fair market value and the adjusted basis of partnership properties, or

(2) In any other manner permitted by regulations prescribed by the Secretary or his delegate.

(b) *Special rule.* In applying the allocation rules provided in subsection (a), increases or decreases in the adjusted basis of partnership property arising from a distribution of, or a transfer of an interest attributable to, property consisting of—

(1) Capital assets and property described in section 1231 (b), or

(2) Any other property of the partnership,

shall be allocated to partnership property of a like character except that the basis of any such partnership property shall not be reduced below zero. If, in the case of a distribution, the adjustment to basis of property described in paragraph (1) or (2) is prevented by the absence of such property or by insufficient adjusted basis for such property, such adjustment shall be applied to subsequently acquired property of a like character in accordance with regulations prescribed by the Secretary or his delegate.

§ 1.755–1 *Rules for allocation of basis*—(a) *General rule.* (1) (i) A partnership which has elected under section 754 must adjust the basis of partnership property under the provisions of section 734 (b) (relating to the optional adjustment to the basis of undistributed partnership property) and section 743 (b) (relating to the optional adjustment to the basis of partnership property where a partnership interest is transferred). The amount of the increase or decrease (as determined in those sections) in the adjusted basis of the partnership property shall first be divided, under paragraph (b) of this section, between the two classes of property described in section 755 (b). Then, the portion of the increase or decrease allocated to each class shall be further allocated to the bases of the properties within the class in a manner which will reduce the difference between the fair market value and the adjusted basis of partnership properties. In the alternative, any increase or decrease may be allocated in any other manner approved

by the district director under subparagraph (2) of this paragraph.

(ii) If there is an increase in basis to be allocated to partnership assets, such increase must be allocated only to assets whose values exceed their bases and in proportion to the difference between the value and basis of each. No increase shall be made to the basis of any asset the adjusted basis of which equals or exceeds its fair market value.

(iii) If there is a decrease in basis to be allocated to partnership assets, such decrease must be allocated to assets whose bases exceed their value and in proportion to the difference between the basis and value of each. No decrease shall be made to the basis of any asset, the fair market value of which equals or exceeds its adjusted basis.

(iv) The application of the rules with respect to the allocation of an adjustment in basis under subdivisions (ii) and (iii) of this subparagraph requires that a portion of such adjustment be allocated to partnership good will, to the extent that good will exists and is reflected in the value of the property distributed, the price at which the partnership interest is sold, or the basis of the partnership interest determined under section 1014, in accordance with the difference between such value of the good will and its adjusted basis at the time of the transaction.

(2) If a partnership (or a partner electing under section 732 (d)) desires to adjust the basis of assets under section 734 (b) or 743 (b) in a manner other than that prescribed in subparagraph (1) of this paragraph, it must file an application for permission to use such method with the district director no later than 30 days after the close of the partnership taxable year in which the proposed adjustment is to be made. The application must describe the proposed adjustments in detail and set forth the reasons for the desired use of the other method. Under section 755 (a) (2), the district director may permit the partnership to increase the bases of some partnership properties and decrease the bases of other partnership properties under section 734 (b) or 743 (b). Each increase or decrease to the basis of an asset must reduce or eliminate the difference between such basis and the value of the asset. The net amount of all such adjustments must equal the amount of the adjustment under section 734 (b) or 743 (b). Adjustments that both increase and decrease the basis of partnership assets will be permitted by the district director only upon a satisfactory showing of the values for partnership assets used by the parties to determine the price at which a partnership interest was sold, the value of the decedent's partnership interest at date of death (or at the alternate valuation date, if used), or the amount of a distribution.

(b) *Special rules.* For the purposes of applying section 755, all partnership property shall be classified into two categories: capital assets and property described in section 1231 (b) (certain property used in the trade or business), or any other property of the partnership.

(1) *Distributions.* (i) Where there is a distribution of partnership property resulting in an adjustment to the basis of undistributed partnership property under section 734 (b) (1) (B) or (b) (2) (B), such adjustment must be allocated to remaining partnership property of a character similar to that of the distributed property with respect to which the adjustment arose. Thus, when the partnership adjusted basis of distributed capital assets and section 1231 (b) property immediately prior to distribution exceeds the basis of such property to the distributee partner (as determined under section 732), the basis of the undistributed capital assets and section 1231 (b) property remaining in the partnership shall be increased by an amount equal to such excess. Conversely, when the basis to the distributee partner (as determined under section 732) of distributed capital assets and section 1231 (b) property exceeds the partnership adjusted basis of such property immediately prior to the distribution, the basis of the undistributed capital assets and section 1231 (b) property remaining in the partnership shall be decreased by an amount equal to such excess. Similarly, where there is a distribution of partnership property other than capital assets and section 1231 (b) property, and the basis of such other property to the distributee partner (as determined under section 732) is not the same as the partnership adjusted basis of such property immediately prior to distribution, the adjustment shall be made only to undistributed property of the same category remaining in the partnership.

(ii) Where there is a distribution resulting in an adjustment under section 734 (b) (1) (A) or (b) (2) (A) to the basis of undistributed partnership property, such adjustment must be allocated only to capital assets or section 1231 (b) property.

(2) *Transfers.* Where there is a basis adjustment under section 743 (b) arising from a transfer of an interest in a partnership by sale or exchange or upon the death of a partner, the amount of the adjustment shall be allocated between the two classes of property described in section 755 (b) and then the amount allocated to each class shall be further allocated under the rules of paragraph (a) (1) of this section. Thus, to the extent that an amount paid by a purchaser of a partnership interest (or the basis of the partnership interest to the estate or other successor in interest of a deceased partner) is attributable to the value of capital assets and section 1231 (b) property, any difference between the amount so attributable and the transferee partner's share of the partnership basis of such property shall constitute a special basis adjustment with respect to partnership capital assets and section 1231 (b) property. Similarly, any such difference attributable to any other property of the partnership shall constitute a special basis adjustment with respect to such property.

(3) *Limitation on decrease of basis.* Where a decrease in the basis of partnership assets is required under section 734 (b) (2) and the amount of the decrease exceeds the adjusted basis to the partnership of property of the required character, the basis of such property shall be reduced to zero (but not below zero), and the balance of the decrease in basis shall be made when the partnership subsequently acquires property of a like character to which an adjustment can be made.

(4) *Carryover of adjustment.* Where, in the case of a distribution, an increase or decrease required under paragraph (a) of this section in the basis of undistributed partnership property cannot be made because the partnership owns no property of the character required to be adjusted, or because the adjustment has been limited under subparagraph (3) of this paragraph, the adjustment shall be made when the partnership subsequently acquires property of a like character to which an adjustment can be made.

(c) *Examples.* The provisions of this section may be illustrated by the following examples:

*Example (1).* Assume that partnership ABC has three assets: X, a capital asset with an adjusted basis of $1,000 and a value of $1,500; Y, a depreciable asset with an adjusted basis of $1,000 and a value of $900; and Z, inventory items with an adjusted basis of $700 and a value of $600. A sells his interest to D (when an election under 754 is in effect) for $1,000 (⅓ of $3,000, the total value of partnership assets). D's share of the adjusted basis of partnership property is $900 (⅓ of $2,700). Therefore, under section 743 (b), D has a special basis adjustment of $100 ($1,000 minus $900). This adjustment must be allocated entirely to property X, since such allocation will have the effect of reducing the difference between the value and basis of such asset. Therefore, D has a special basis adjustment of $100 with respect to property X, which now has a special basis to him of $1,100. No part of the adjustment is made to depreciable property Y or inventory items Z, since any such adjustment would increase the difference between the basis and value of each such asset.

*Example (2).* Assume the same facts as in example (1) of this paragraph except that capital asset X has a value of $1,500, depreciable property Y has a value of $1,100, and inventory items Z have a value of only $400. Therefore, under section 743 (b), D has a special basis adjustment of $100, the excess of D's basis for his interest in the partnership ($1,000) over his share of the adjusted basis of partnership property ($900). This $100 adjustment must be allocated entirely to capital asset X and depreciable property Y in proportion to the difference between the value and basis of each since such alloeation has the effect of reducing the difference between the value and basis of each such asset. Therefore, D has a special basis adjustment of $83 ($500/$600 of $100) with respect to capital asset X, which now has a special basis to him of $1,083, and of $17 ($100/$600 of $100) with respect to depreciable property Y, which now has a special basis to him of $1,017. No part of the adjustment is made to inventory items Z, since any such adjustment would increase the difference between the basis of such asset and its value.

*Example (3).* Assume that partnership EFG has three assets: X, a capital asset with an adjusted basis of $1,000 and a value of $1,500; Y, a depreciable asset with an adjusted basis of $1,000 and a value of $700; and Z, inventory items with an adjusted basis of $700 and a value of $800. E sells his interest to H (when an election under section 754 is in effect) for $1,000 (⅓ of $3,000, the total value of the partnership assets). H's share of the adjusted basis of partnership is $900 (⅓ of $2,700). Therefore, H has a special basis adjustment of $100 ($1,000 minus $900) under section 743 (b). Since, of the total $300 difference between the value and the adjusted basis of all partnership property, $200 ($500, appreciation in value of X, minus $300, depreciation in value of Y) is attributable to the class of capital assets and depreciable property, and $100 (appreciation in value of inventory items Z) to the class of other property, H's special basis adjustment of $100 must be allocated ⅔ to capital assets and depreciable property and ⅓ to other property (inventory). The $67 increase (⅔ of $100) to be allocated to capital assets and depreciable property must further be allocated so as to reduce the difference between the value and basis of such assets. This can be done only by allocating the entire $67 increase to capital asset X (the basis of which is less than its value), and no part of the increase to depreciable property Y (the basis of which exceeds its value). Therefore, H has a special basis adjustment of $67 for capital asset X, which now has a special basis to him of $1,067; he has no special basis adjustment for depreciable property Y. H also has a special basis adjustment of $33 (⅓ of $100) for inventory items Z, the special basis of which is now $733.

DEFINITIONS

§ 1.761 *Statutory provisions; terms defined.*

SEC. 761. *Terms defined*—(a) *Partnership.* For purposes of this subtitle, the term "partnership" includes a syndicate, group, pool, joint venture, or other unincorporated organization through or by means of which any business, financial operation, or venture is carried on, and which is not, within the meaning of this title, a corporation or a trust or estate. Under regulations the Secretary or his delegate may, at the election of all the members of an unincorporated organization, exclude such organization from the application of all or part of this subchapter, if it is availed of—

(1) For investment purposes only and not for the active conduct of a business, or

(2) For the joint production, extraction, or use of property, but not for the purpose of selling services or property produced or extracted,

if the income of the members of the organization may be adequately determined without the computation of partnership taxable income.

(b) *Partner.* For purposes of this subtitle, the term "partner" means a member of a partnership.

(c) *Partnership agreement.* For purposes of this subchapter, a partnership agreement includes any modifications of the partnership agreement made prior to, or at, the time prescribed by law for the filing of the partnership return for the taxable year (not including extensions) which are agreed to by all the partners, or which are adopted in such other manner as may be provided by the partnership agreement.

(d) *Liquidation of a partner's interest.* For purposes of this subchapter, the term "liquidation of a partner's interest" means the termination of a partner's entire interest in a partnership by means of a distribution, or a series of distributions, to the partner by the partnership.

§ 1.761–1 *Terms defined*—(a) *Partnership*—(1) *In general.* The term "partnership" includes a syndicate, group, pool, joint venture, or other unincorporated organization through or by means of which any business, financial operation, or venture is carried on, and which is not a corporation or a trust or estate within the meaning of the Internal Revenue Code of 1954. The term "partnership" is broader in scope than the common law meaning of partnership, and may include groups not commonly called partnerships. See section 7701 (a) (2). See regulations under section 7701 (a) (1), (2), and (3) for the description of those unincorporated organizations taxable as corporations or trusts. A joint undertaking merely to share expenses is not a partnership. For example, if two or more persons jointly construct a ditch merely to drain surface water from their properties, they are not partners. Mere coownership of property which is maintained, kept in repair, and rented or leased does not constitute a partnership. For example, if an individual owner, or tenants in common, of farm property lease it to a farmer for a cash rental or a share of the crops, they do not necessarily create a partnership thereby. Tenants in common, however, may be partners if they actively carry on a trade, business, financial operation, or venture and divide the profits thereof. For example, a partnership exists if coowners of an apartment building lease space and in addition provide services to the occupants either directly or through an agent.

(2) *Exclusion of certain partnerships from provisions of subchapter K*—(i) *In general.* Under the conditions set forth in this paragraph, an unincorporated organization described in subdivision (ii) or (iii) of this subparagraph may be excluded from the application of all or a part of the provisions of subchapter K. Such organization must be availed of for investment purposes only and not for the active conduct of a business, or for the joint production, extraction, or use of property, but not for the purpose of selling services or property produced or extracted. The members of such organization must be able to compute their income without the necessity of computing partnership taxable income. Any syndicate, group, pool, or joint venture which is classifiable as an association, or any group operating under an agreement which creates an organization classifiable as an association, does not fall within these provisions.

(ii) *Investing partnership.* Where the participants in the joint purchase, retention, sales, or exchange of investment property—

(a) Own the property as coowners,

(b) Reserve the right separately to take or dispose of their shares of any property acquired or retained, and

(c) Do not actively conduct business for joint profit, or irrevocably authorize some person or persons acting in a representative capacity to purchase, sell, or exchange such investment property, although each separate participant may delegate authority to purchase, sell, or exchange his share of any such investment property for the time being for his account, but not for a period of more than a year, then

such group may be excluded from the application of the provisions of subchapter K under the rules set forth in subdivision (iv) of this subparagraph.

(iii) *Operating agreements.* Where the participants in the joint production, extraction, or use of property—

(a) Own the property as coowners, either in fee or under a lease or other form of contract granting exclusive operating rights, and

(b) Reserve the right separately to take in kind or dispose of their shares of any property produced, extracted, or used, and

(c) Do not jointly sell services or the property produced or extracted, although each separate participant may delegate authority to sell his share of the property produced or extracted for the time being for his account, but not for a period of time in excess of the minimum needs of the industry, and in no event for more than one year, then

such group may be excluded from the application of the provisions of subchapter K under the rules set forth in subdivision (iv) of this subparagraph. However, the preceding sentence does not apply to any unincorporated organization one of whose principal purposes is cycling, manufacturing, or processing for persons who are not members of the organization.

(iv) *Method of election*—(a) *Complete exclusion from subchapter K.* An unincorporated organization which wishes to be excluded from all of subchapter K must make the election provided in section 761 (a) in a statement attached to a partnership return filed with the district director for the district in which the organization has its principal office or place of business. Such return shall be properly executed and shall contain, in lieu of the information required thereon, only the name and address of the organization. The statement attached to the return shall include the names and addresses of all the members of the organization; a statement that the organization qualifies under subdivisions (i) and either (ii) or (iii) of § 1.761–1 (a) (2) and elects to be excluded from all of subchapter K; and a copy of the agreement under which the organization operates if written (or a summary thereof if oral). Unless, within 90 days after the formation of the organization (or after the promulgation of the regulations under subchapter K, whichever is later), any member of the organization notifies the Commissioner that the member desires subchapter K to apply to such organization, and also advises the Commissioner that he has so notified all other members of the organization by registered or certified mail, the election to be excluded will be approved. Such election is irrevocable as long as the organization remains qualified under subdivisions (i) and either (ii) or (iii) of this subparagraph.

(b) *Partial exclusion from subchapter K.* An unincorporated organization which wishes to be excluded from only certain sections of subchapter K must submit to the Commissioner, no later than 90 days after the beginning of the first taxable year for which partial exclusion is desired, a request for permission to be excluded from certain provisions of subchapter K. The request shall set forth the sections of subchapter K

from which exclusion is sought and shall state that such organization qualifies under subdivisions (i) and either (ii) or (iii) of § 1.761–1 (a) (2), and that the members of the organization elect to be excluded to the extent indicated. Such exclusion shall be effective only upon approval of the election by the Commissioner and subject to the conditions he may impose.

(v) *Information to be filed by organizations excluded under section 761.* (*a*) An organization excluded from all of subchapter K shall file annually with the Commissioner of Internal Revenue, Midwest Service Center, Kansas City, Missouri, a Form 1099 for each person who was a member of the organization during any part of the calendar year. Such form shall show the name and address of the member (under "To Whom Paid") and the name and address of the organization (under "By Whom Paid"). In lieu of "Kind and Amount of Income Paid", each such form shall state "Filed under section 761 (a)" and the principal activity of the orgnization. Such organization need not file Form 1065 annually.

(*b*) Organizations partially excluded from subchapter K shall file partnership returns containing such information as the Commissioner may require upon the granting of the partial exclusion under section 761 (a).

(b) *Partner.* The term "partner" means a member of a partnership.

(c) *Partnership agreement.* For the purposes of subchapter K, a partnership agreement includes the original agreement and any modifications thereof agreed to by all the partners or adopted in any other manner provided by the partnership agreement. Such agreement or modifications can be oral or written. A partnership agreement may be modified with respect to a particular taxable year subsequent to the close of such taxable year, but not later than the date (not including any extension of time) prescribed by law for the filing of the partnership return. As to any matter on which the partnership agreement, or any modification thereof, is silent, the provisions of local law shall be considered to constitute a part of the agreement.

(d) *Liquidation of partner's interest.* The term "liquidation of a partner's interest" means the termination of a partner's entire interest in a partnership by means of a distribution, or a series of distributions, to the partner by the partnership. A series of distributions will come within the meaning of this term whether they are made in one year or in more than one year. Where a partner's interest is to be liquidated by a series of distributions, the interest will not be considered as liquidated until the final distribution has been made. For the basis of property distributed in one liquidating distribution, or in a series of distributions in liquidation, see section 732 (b). A distribution which is not in liquidation of a partner's entire interest, as defined in this paragraph, is a current distribution. Current distributions, therefore, include distributions in partial liquidation of a partner's interest, and distributions of the partner's distributive share. See § 1.731–1 (a) (1) (ii).

EFFECTIVE DATE FOR SUBCHAPTER

§ 1.771 *Statutory provisions; effective date.*

SEC. 771. *Effective date*—(a) *General rule*—(1) *Taxable years beginning after December 31, 1954.* Except as provided in subsection (b), this subchapter shall apply with respect to—

(A) Any partnership taxable year beginning after December 31, 1954, and

(B) Any part of a partner's taxable year falling within such partnership taxable year.

(2) *Application of prior provisions.* Except as provided in subsection (b), sections 113 (a) (13), 181 to 191 (inclusive), and 3797 (a) (2) of the Internal Revenue Code of 1939 shall apply with respect to—

(A) Any partnership taxable year beginning before January 1, 1955, and

(B) Any part of a partner's taxable year falling within such partnership taxable year.

(b) *Special rules*—(1) *Adoption of taxable year.* Section 706 (b) (relating to the adoption of a taxable year by a partnership or partner) shall apply to—

(A) Any partnership which adopts, or changes to, a taxable year beginning after April 1, 1954, and

(B) Any partner who changes to a taxable year beginning after April 1, 1954.

For the purpose of applying this paragraph, section 708 (relating to the continuation of a partnership) shall be effective for taxable years beginning after April 1, 1954.

(2) *Property distributed by a partnership.* Section 735 (a) (relating to the character of gain or loss on the disposition of property distributed by a partnership) shall apply only to property distributed by a partnership after March 9, 1954.

(3) *Unrealized receivables and inventory items.* Section 751 (relating to unrealized receivables and inventory items) shall apply with respect to gain or loss to a seller, distributee, or partnership in the case of a sale, exchange, or distribution occurring after March 9, 1954. For the purpose of applying this paragraph in the case of a taxable year beginning before January 1, 1955, the other sections of this subchapter shall be applicable to the extent provided by regulations prescribed by the Secretary or his delegate.

(4) *Partner receiving income in respect of decedent.* Section 753 (relating to income in respect of a decedent) shall apply only in the case of payments made with respect to decedents dying after December 31, 1954.

(c) *Optional treatment of certain distributions.* In the case of a partnership taxable year beginning after December 31, 1953, and before January 1, 1955, a partnership may elect, under regulations prescribed by the Secretary or his delegate, with respect to distributions made during such year to any partner, other than in liquidation of the partner's interest, to apply the rules in sections 731, 732 (a), (c), and (e), 733, 735, and 751 (b), (c), and (d) (and, to the extent applicable, the rules provided in sections 705, 752, and 761 (d)). If a partnership so elects, such rules shall be effective for the partnership and all members of such partnership with respect to such distributions.

§ 1.771–1 *Effective date*—(a) *General rule.* Except as provided in paragraph (b) or (c) of this section, the provisions of subchapter K shall apply to any taxable year of a partnership beginning after December 31, 1954, and to any part of a partner's taxable year falling within such partnership taxable year. The provisions of the Internal Revenue Code of 1939 relating to partnerships shall apply to any taxable year of a partnership beginning before January 1, 1955, and to any part of a partner's taxable year falling within such partnership taxable year. If a partnership and the partners are on different taxable years, subchapter K shall become effective at the same time both for the partnership and for the partners.

(b) *Special rules.* Certain provisions of section 771 apply after specific dates in 1954, as follows:

(1) *Adoption of taxable year.* Section 706 (b) (relating to the adoption of taxable years by partners and partnerships), shall apply to any partnership which adopts or changes to, and any partner who changes to, a taxable year beginning on or after April 2, 1954. For the purpose of applying this subparagraph, the rules of section 708 (relating to the continuation of partnerships) shall apply. For example, if two or more partnerships merge after April 1, 1954, and the new partnership uses the taxable year of the partnership of which it is deemed to be the successor under section 708 (b) (2) (A), it will not need prior approval to continue to use such taxable year even though such year may be different from the taxable years of the partners. Such a partnership is not "adopting" or "changing" its taxable year.

(2) *Property distributed by a partnership.* Section 735 (a), relating to the character of gain or loss on disposition of property distributed by a partnership to a partner, shall apply only to property distributed after March 9, 1954. Although a partnership whose taxable year begins before January 1, 1955, generally will be subject to the provisions of the Internal Revenue Code of 1939; any unrealized receivables or inventory items distributed by any such partnership after March 9, 1954, will be subject to the provisions of section 735 (a), and the gain or loss on the subsequent disposition of such property will be ordinary gain or loss rather than capital gain or loss. In the case of property distributed before March 10, 1954, section 735 (a) will not apply, even though the property is disposed of by the distributee partner after that date, unless the partnership elects under paragraph (c) of this section to apply section 735.

(3) *Unrealized receivables and inventory items.* Section 751 (providing for the realization of ordinary income on certain transfers or distributions of unrealized receivables or substantially appreciated inventory items) shall be applicable to any such transfer or distribution occurring after March 9, 1954. For the purpose of applying section 751 in the case of a taxable year beginning before January 1, 1955, a partnership or partner may elect to treat as applicable any other section of subchapter K. See § 1.751–1 (f).

(4) *Partner receiving income in respect of a decedent.* Section 753, which provides that the amount includible in the gross income of a successor in interest of a deceased partner under section 736 (a) shall be considered income in respect of a decedent under section 691, shall apply only in the case of payments made with respect to decedents whose death occurred after December 31, 1954.

(c) *Optional treatment of certain distributions.* (1) For a partnership taxable year beginning after December 31, 1953, and before January 1, 1955, a partnership may elect to apply the rules of certain sections of subchapter K with respect to current distributions made by the partnership in such year. These sections are 731, 732 (a), (c), and (e), 733, 735, and 751 (b), (c), and (d). If an election is made, it shall apply to the partnership and all its members for all current distributions made by the partnership during the taxable year. Such distributions shall also be subject to the rules of sections 705 (relating to determination of basis of a partner's interest), 752 (relating to treatment of certain liabilities), and 761 (d) (relating to the definition of liquidation of a partner's interest), to the extent that such sections apply to current distributions.

(2) An election under this paragraph shall be made by a statement filed with the partnership return for the taxable year to which such election applies, or filed within 90 days after the promulgation of the regulations under section 771, whichever date is later. The statement shall be signed by all members of the partnership and the election once made shall be binding on the partnership and on all of its members.

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

Approved: May 23, 1956.

DAN THROOP SMITH,
*Special Assistant to the Secretary in Charge of Tax Policy.*

## TITLE 27—INTOXICATING LIQUORS

### Chapter I—Internal Revenue Service, Department of the Treasury

[T. D. 6174]

[Reg. 5]

PART 5—LABELING AND ADVERTISING OF DISTILLED SPIRITS

MISCELLANEOUS AMENDMENTS

Notice of public hearing to be held in Washington, D. C., on December 1, 1955, with respect to certain proposals to amend Regulations No. 5, Relating to Labeling and Advertising of Distilled Spirits, was published in the FEDERAL REGISTER on November 19, 1955 (20 F. R. 8574). Upon the conclusion of the said hearing and after consideration of all relevant material submitted by interested persons in connection therewith regarding the proposals, the following amendments to Regulations No. 5 (27 CFR, Part 5) are hereby adopted:

PARAGRAPH 1. Section 21, class 4 (a) (27 CFR 5.21 (d) (1)), by adding the following proviso at the end of the second sentence: *"Provided,* That in the case of any fruit brandy, other than neutral brandy, pomace brandy, marc brandy or grappa brandy distilled from the fermented juice, mash, or wine of grapes, or the residue thereof, which has been aged for less than two years, the statement of the class (and type, if any) shall be preceded by the word 'immature' appearing in the same size and kind of type and as a part thereof, e. g., 'immature brandy' or 'immature grape brandy'."

PAR. 2. The proviso at the end of section 39 (b) (1) (27 CFR 5.39 (b) (1)) is amended to read as follows: *"Provided,* That an appropriate statement with respect to age shall appear on the brand label in the case of brandy (other than immature brandies) not aged for a period of at last two years."

PAR. 3. Section 39 (e) (5) (27 CFR 5.39 (e) (5)) is amended by inserting immediately after the word "brandies" appearing in the proviso at the end of the first sentence thereof, the following: "(except immature brandies)".

PAR. 4. Section 64 (c) (27 CFR 5.64 (c)) is amended by inserting in the last sentence immediately after the word "brandy", the following: "(except immature brandies)".

This Treasury decision shall become effective thirty days after publication in the FEDERAL REGISTER.

(53 Stat. 375; 26 U. S. C. 3176. Interpret or apply sec. 5, 49 Stat. 981, as amended; 27 U. S. C. 205)

[SEAL] HARRY J. TRAINOR,
*Acting Commissioner.*

## TITLE 43—PUBLIC LANDS: INTERIOR

### Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1300]

[Utah 010927, 010931]

UTAH

MODIFYING THE EXECUTIVE ORDER OF APRIL 4, 1922, WHICH CREATED PUBLIC WATER RESERVE NO. 82

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The Executive order of April 4, 1922, establishing Public Water Reserve No. 82, is hereby modified to the extent necessary to permit disposal of the following-described lands under applicable public-land laws by a State exchange or a State selection:

SALT LAKE MERIDIAN

T. 17 S., R. 21 E.,
Sec. 15, SW¼SW¼;
Sec. 22, N½NW¼;
Sec. 27, SW¼SE¼;
Sec. 28, NE¼NW¼;
Sec. 33, SE¼SW¼;
Sec. 34, W½NW¼;
Sec. 35, SW¼NW¼.
T. 18 S., R. 21 E.,
Sec. 1, lot 4;
Sec. 9, N½SE¼;
Sec. 10, NE¼SE¼;
Sec. 11, SW¼SW¼, SW¼SE¼;
Sec. 14, NW¼NE¼, SW¼NW¼, NW¼SW¼;
Sec. 15, NE¼NE¼, NE¼SW¼;
Sec. 17, SE¼NE¼;
Sec. 20, S½NE¼, SW¼SW¼;
Sec. 29, SW¼SE¼.

The areas described aggregate 985.98 acres.

WESLEY A. D'EWART,
*Assistant Secretary of the Interior.*

MAY 21, 1956.

## TITLE 46—SHIPPING

### Chapter I—Coast Guard, Department of the Treasury

Subchapter N—Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels

[CGFR 56–21]

PART 146—TRANSPORTATION OR STOWAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

MISCELLANEOUS STORAGE REQUIREMENTS

A notice regarding proposed changes in the navigation and vessel inspection regulations was published in the FEDERAL REGISTER dated March 1, 1956 (21 F. R. 1350–1356), as Items I through XVI on the Agenda to be considered by the Merchant Marine Council, and a public hearing was held on April 24, 1956, at Washington, D. C. This document is the first of a series of documents covering the regulations considered at this public hearing. Another document will be published containing all the miscellaneous amendments regarding Dangerous Cargo Regulations in Item XIII on the Agenda.

After the public hearing held on April

24, 1956, written and oral requests were received petitioning that the amendments concerning motor fuel antiknock compound, oakum, chromic acid, and chlorate and borate mixtures be placed in effect immediately and prior to publication of all the miscellaneous amendments contained in the Agenda. Since these changes were not commented on at the public hearing, and since these amendments will relax present stowage requirements, these changes shall be placed in effect immediately.

The amendment to 46 CFR 146.25–200 Table H, will permit stowage of authorized tank cars containing motor fuel antiknock compound "under deck away from heat" in addition to the presently authorized stowage "on deck in open" and "on deck under cover."

The amendment to 46 CFR 146.27–100 Table K, will permit oakum to be shipped in fiberboard boxes in addition to presently authorized bound bales and wooden boxes.

The amendment to 46 CFR 146.22–100 Table E, will exempt chlorate and borate mixtures containing 25 percent or less chlorate and no other hazardous additives from the regulations, as well as provide for the use of multi-wall paper bags (ICC–44C, 44D), for shipment of chlorate mixtures containing more than 25 percent and less than 50 percent chlorate.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and Treasury Department Order 167–14, dated November 26, 1954 (19 F. R. 8026), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments are prescribed and shall become effective on the date of publication of this document in the FEDERAL REGISTER:

SUBPART—DETAILED REGULATIONS GOVERNING INFLAMMABLE SOLIDS AND OXIDIZING MATERIALS

Section 146.22–100 *Table E—Classification: Inflammable solids and oxidizing materials* is amended by revising the requirements regarding certain articles as follows:

a. For "chlorate and borate mixtures" and "chlorate and magnesium chloride mixtures" as follows:

1. In column 1 the note is revised to read as follows:

NOTE: Such mixtures containing 25 percent or less chlorate and no other hazardous additives are not subject to the regulations in this part.

2. In column 4 under "mixtures containing more than 25 percent chlorate but less than 50 percent may also be accepted in:" add:

"Multi-wall paper bags: (ICC–44C, 44D) not over 50 lb. net wt."

b. For "chromic acid," "chromic anhydride," and "chromium trioxide" as follows:

1. In column 4 under "Stowage" add: "Tween decks readily accessible."

SUBPART—DETAILED REGULATIONS GOVERNING POISONOUS ARTICLES

Section 146.25–200 *Table H—Classification: Class B; Less dangerous poisons* is amended by changing requirements for the article "motor fuel antiknock compound" as follows:

a. In column 4 change "tank cars (ICC–105A300, 105A300W)" etc., to read as follows: "tank cars (ICC–105A300, 105A300W) stenciled on both sides 'for motor fuel antiknock compound only.' In addition to stowages listed, authorized tank cars may be stowed 'under deck away from heat.'"

SUBPART—DETAILED REGULATIONS GOVERNING HAZARDOUS ARTICLES

Section 146.27–100 *Table K—Classification: Hazardous articles* is amended by changing requirements for the article "Oakum" "Twisted jute packing (rope) (treated or untreated)" as follows:

a. In columns 4, 5, 6, and 7, under "Outside containers," add: "Fiberboard boxes."

(R. S. 4405, as amended, 4462, as amended, and 4472, as amended; 46 U. S. C. 375, 416, 170. Interpret or apply sec. 3, 68 Stat. 675; 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

Dated: May 18, 1956.

[SEAL] A. C. RICHMOND,
*Vice Admiral, U. S. Coast Guard, Commandant.*

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Parts 927, 990 ]

[Docket Nos. AO–71–A–32, AO–284]

HANDLING OF MILK IN THE NEW YORK METROPOLITAN MARKETING AREA AND IN NORTHERN NEW JERSEY

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Hotel Robert Treat, Newark, New Jersey, beginning on June 18, 1956, at 10:00 a. m., e. d. t., and also at the following times and places, beginning in each instance at 10:00 a. m., e. d. t.: July 10, Alfred E. Smith State Office Building, Albany, New York; July 12, Nelson House, Poughkeepsie, New York; July 17, Arlington Hotel, Binghamton, New York; July 19, Mark Twain Hotel, Elmira, New York; July 24, Utica Hotel, Utica, New York; July 26, Syracuse Hotel, Syracuse, New York.

*Purpose of hearing and issues involved.* On February 23, 1956, following an extensive investigation, the Secretary of Agriculture announced and published in the FEDERAL REGISTER (21 F. R. 1418), his decision that a public hearing should be called on proposals for a separate new milk marketing order for Northern New Jersey, together with proposals to amend present provisions of the New York milk marketing order (No. 27) designed to coordinate the two orders. It also was announced by the Secretary of Agriculture on December 15, 1955, and published in the FEDERAL REGISTER (20 F. R. 10167) that the proximity of Northern New Jersey to metropolitan New York, and the fact that there is to a considerable degree a common source of supply, make the marketing and pricing of milk in this region closely interdependent.

In accordance with these announcements, this public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions relating to the handling of milk in a proposed Northern New Jersey milk marketing area, and with respect to issuance of a marketing agreement and order regulating the handling of milk in the said marketing area, and also for the purpose of receiving evidence with respect to the proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area (7 CFR Part 927 et seq.).

For purposes of this hearing, the said Northern New Jersey milk marketing area means all or a portion of the territory within the New Jersey counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union, and Warren, and the New York counties of Dutchess, Orange, Putnam, Rockland, Sullivan, and Ulster.

Evidence will be received with respect to expansion of the present New York metropolitan milk marketing area to include all or a portion of the additional territory in the State of New York within the counties of Albany, Rensselaer, Schenectady, Saratoga, Montgomery, Fulton, Oneida, Herkimer, Madison, Onondaga, Cayuga, Oswego, Tompkins, Chemung, Tioga, Broome, Sullivan, Ulster, Orange, Rockland, Putnam and Dutchess, and as to whether all or a part of the territory within the New York counties of Dutchess, Orange, Putnam, Rockland, Sullivan, and Ulster should be included within the New York marketing area or within the boundaries of a Northern New Jersey milk marketing area.

Evidence will be received at the hearing with respect to the proposed terms and provisions hereinafter set forth, or appropriate modifications thereof, of a proposed marketing agreement and order for Northern New Jersey, including evidence as to whether (1) the handling of milk in the area proposed to be regulated is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects interstate or foreign commerce, (2) there is justification for issuance of a marketing agreement and order for the area proposed to be regulated, and (3) the terms and provisions of the proposed marketing agreement and order hereinafter set forth, or some other appropriate terms and provisions will best tend to effectuate the declared policy of the Agricultural Marketing Agreement Act, as amended.

The proposals for a marketing agreement and order for Northern New Jersey and for amendment of the New York metropolitan milk marketing order hereinafter set forth have not received the approval of the Secretary of Agriculture.

Proposals for a marketing agreement and order for Northern New Jersey and for amendment of the New York metropolitan milk marketing order are as follows:

Provisions of a State and Federal milk marketing order regulating the handling of milk in the Northern New Jersey milk marketing area; proposed by The Governor's Milk Committee of New Jersey, United Milk Producers of New Jersey, and Eastern Milk Producers Cooperative Association, Inc.:

DEFINITIONS

Sec.
990.1 Act.
990.2 Secretary of U. S. D. A.
990.3 Statute.
990.4 Director.
990.5 Marketing area.
990.6 Person.
990.7 Producer.
990.8 Handler.
990.9 Order milk plant.
990.10 Non-order milk plant.
990.11 Market Administrator.
990.12 Producer handler.

MARKET ADMINISTRATOR

990.20 Designation.
990.21 Powers.
990.22 Duties.

CLASSIFICATION OF MILK

990.30 Classes of utilization.
990.31 Transfers of milk.
990.32 Allocation of milk.

MINIMUM PRICES

990.40 Class I price.
990.41 Class II price.
990.42 Butterfat differentials.
990.43 Zone price differentials.
990.44 Application to uniform prices.
990.45 Milk disposed of outside the marketing area.
990.46 Base ratings.
990.47 Location differentials.

REPORT OF HANDLERS

990.50 Periodic reports.
990.51 Reports of handlers who receive no milk from producers.
990.52 Reports as to producers.
990.53 Reports of payments to producers.
990.54 Outside cream purchases.
990.55 Verification of reports.
990.56 Retention of records.

APPLICATION OF PROVISIONS

990.60 Handlers who receive no milk from producers.
990.61 Computation of the value of milk for each handler.
990.62 Computation and announcement of uniform price for each handler.

PAYMENTS FOR MILK

990.70 Time and method of payment.
990.71 Errors in payment.

EXPENSE OF ADMINISTRATION

990.80 Payment by handlers.
990.81 Deductions for members of an association of producers.

MISCELLANEOUS PROVISIONS

990.90 Termination of obligations.
990.91 Effective time.
990.92 Suspension or termination.
990.93 Continuing obligations.
990.94 Liquidation.
990.95 Equivalent prices or indices.
990.96 Agents.
990.97 Separability of provisions.
990.98 Compensatory payments.

DEFINITIONS

§ 990.1 *Act.* Act means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 as amended.

§ 990.2 *Secretary of U. S. D. A.* Secretary of U. S. D. A. means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

§ 990.3 *Statute.* Statute means the Milk Control Act of the State of New Jersey Chapter 274, P.L. 1941 as amended by Chapter 447 P. L. 1948.

§ 990.4 *Director.* Director of the Office of Milk Industry means the Director of the Office of Milk Industry of the State of New Jersey, or any officer or employee of the State of New Jersey who is, or who may hereafter be, authorized to exercise the powers and to perform the duties of the office.

§ 990.5 *Marketing area.* Northern New Jersey milk marketing area, hereinafter called, "the marketing area," means all of the territory within the boundaries of the New Jersey Counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union and Warren.

§ 990.6 *Person.* Person means any individual, partnership, corporation, association or any other business unit.

§ 990.7 *Producer.* Producer means any person who operates a dairy farm from which milk is delivered to an order milk plant.

§ 990.8 *Handler.* Handler means any person who (a) operates or controls the operation of an order milk plant or plants, or (b) packages Class I milk for sale in the marketing area.

§ 990.9 *Order milk plant.* Order milk plant means any plant not subject to another Federal Milk Order that meets the following requirements:

(a) *Permanent—Permit.* (1) The plant holds a permit from the New Jersey State Health Authority for the sale or distribution of Class I milk in New Jersey.

(2) *Designation of order plants.* Any plant, which is qualified in accordance with subparagraph (1) of this paragraph may apply for designation as an order plant any time during the first 12 months of the order and thereafter during June or July of any year for designation on the following August 1.

(3) *Requirements for retaining pool plant designation.* Any plant or plants operated as a unit shall meet the following percentages of total producer receipts as Class I sales in the marketing area.

(i) During August, September, October and November 60 percent of total receipts from producers: *Provided, however,* That such percentage of total producer receipts as Class I sales in the marketing area shall be 50 percent or more in each of these months.

(ii) During December, January, February and March, 25 percent each month.

(iii) During April, May and June, no percentage shipment.

(iv) During July, 35 percent.

(b) *Temporary.* During any month a plant not subject to another Federal order and qualified under paragraph (a) (1) of this section, which has shipped 55 percent of its receipts from producers to the marketing area for sale or distribution as fluid milk, shall be an order plant for that month.

(c) *Cancellation.* Any "order milk plant" shall have its status as a permanent order milk plant cancelled if it fails to meet the basic requirements of this section and the designation of any plant may be cancelled upon application of the handlers but such plants shall be eligible to apply for redesignation as an order plant during the second succeeding months of June or July to become effective on August 1, following such application.

§ 990.10 *Non order milk plant.* (a) Any plant not meeting the requirements for order plants as set forth in § 990.9 shall be a "non order plant."

(b) A plant under the provisions of another Federal Milk Order shall be a "non order plant": *Provided, however,* That receipts of milk from such plants shall be subject to the provisions of § 990.80.

§ 990.11 *Market Administrator.* The term "Market Administrator" means the person designated pursuant to § 990.20 as the agency for the administration of this order.

§ 990.12 *Producer handler.* Producer handler means any person who operates a dairy farm and a plant from which Class I milk is distributed in the marketing area not in excess of 1,000 pounds of milk per day.

MARKET ADMINISTRATOR

§ 990.20 *Designation.* The Secretary and the Director shall utilize one and the same agency for the administration of the joint and complementary orders which shall be a Market Administrator who is approved and designated as such by both the Secretary and the Director.

§ 990.21 *Powers.* The Market Administrator of this part shall have power:

(a) To administer its terms and provisions.

(b) To receive, investigate, and report to the Secretary and the Director complaints of violations.

(c) To make rules and regulations to effectuate its terms and provisions.

(d) To recommend amendments to the Secretary and the Director.

§ 990.22 *Duties.* The Market Administrator shall:

(a) Keep such books and records as will clearly reflect the transactions provided for in this part and shall surrender the same to his successor or to such other person as the Secretary and Director may designate;

(b) Submit his books and records to examination by the Secretary and the Director at all times.

(c) Furnish such information and verified reports as the Secretary and the Director may request;

(d) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary and the Director copies of a bond, conditioned upon the faithful performance of his duties in an amount and with surety thereon satisfactory to the Secretary and Director;

(e) Publicly disclose to handlers and to producers, unless otherwise directed by the Secretary and the Director, the name of any person who, within 15 days after the date upon which he is required to perform such acts, has not (1) made reports pursuant to §§ 990.50, 990.51 and 990.53 or (2) made payments pursuant to §§ 990.70 and 990.71;

(f) Prepare and disseminate for the benefit of producers, consumers and handlers such statistics and information concerning the operation of the order as do not reveal confidential information;

(g) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this part;

(h) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the Market Administrator;

(i) Pay, out of the funds provided by § 990.80, (1) the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the Market Administrator, (2) his own compensation, (3) all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties;

(j) Promptly verify the information contained in the reports submitted by handlers.

CLASSIFICATION OF MILK

§ 990.30 *Classes of utilization.* Subject to § 990.31, all milk and milk products received by a handler shall be classified as Class I or Class II.

(a) Class I milk shall be (1) all that milk purchased, received or handled which is marketed as fluid milk, concentrated or other form of fluid milk, flavored milk, buttermilk, skim milk or flavored skim milk drink and (2) all fluid milk, the utilization of which is not established.

(b) Class II milk shall be, (1) all milk disposed of in products other than those included in paragraph (a) of this section, and (2) all milk accounted for as actual plant shrinkage but not to exceed two percent of the total pounds of milk, skim milk and cream received by a handler at all of his order milk plants.

§ 990.31 *Transfers of milk.* Milk transferred from an order plant to another plant shall be classified at the plant where it was received from producers.

(a) Milk which is designated for disposition as Class II milk may be transferred from an order plant to another plant or from another plant to an order plant and be classified as Class II milk, if:

(1) The transaction is carried out under a written agreement between the operator of the shipping plant and the operator of the receiving plant.

(2) Prior to the transfers of such milk the written agreement, referred to in subparagraph (1) of this paragraph (1), has been submitted to the Market Administrator.

(3) The receiving plant has used in Class II products a quantity of milk equivalent to the milk received from the other plant under such agreement.

(b) Milk transferred from a non-order plant, not subject to Federal Orders No. 27 or No. 61, to an order plant, where the volume so transferred is not in excess of the total quantity of Class II milk handled at the receiving order plant, shall in any event be Class II milk.

(c) Milk transferred from an order plant to a non-order plant not subject to Federal Orders No. 27 or No. 61, and the transaction is not carried out under the agreement described in paragraph (a) of this section, shall be Class I milk up to the full quantity of Class I milk used at the non-order plant.

(d) Milk transferred from an order plant to a plant subject to Federal Order No. 27 shall be classified in accordance with its classification by the Market Administrator of Order No. 27: *Provided, however,* That such transfers which have been moved into the marketing area of Order No. 27, and upon which milk, compensatory payment has been made as prescribed in Order 27, then such transfers in the computation of the handlers uniform price shall be classified as Class II milk.

(e) Milk transferred from an order plant to a plant subject to Federal Order No. 61 shall be classified in accordance with its classification by the Administrator of Order No. 61.

§ 990.32 *Allocation of milk.* For the purpose of computing the milk received from producers in computing the uniform prices, there shall be deducted from the handlers total disposition of Class I milk, the milk received from other order plants that has been classified as Class I at the plant where it was received from producers; and milk received from non-order plants that has been classified as Class I and to the remainder there shall be added all milk the utilization of which is not established and there shall be deducted from the handlers total disposition of Class II, all milk not classified as Class I which has been received from other plants or from non-producer sources.

MINIMUM PRICES

§ 990.40 *Class I price.* The administrator shall determine a basic Class I price computed under Order 27 without the seasonal adjustment and add to such basic Class I price $.08 to adjust to a 3.7 percent butterfat content and $.58 the zone price differential of this order in the marketing area or within 50 miles from the City Hall in Newark, New Jersey. The Class I price for each month shall be on a quarterly basis as shown in the following table:

TABLE A

| Range of basic Class I price + $0.66, 0-50 mi. zone falls between— | When such basic Class I price is in the ranges indicated the Class I price for the month and the succeeding 2 months shall be— | | | |
|---|---|---|---|---|
| | January | April | July | October |
| 4.05–4.249 | $4.15 | $3.75 | $4.15 | $4.55 |
| 4.25–4.449 | 4.35 | 3.95 | 4.35 | 4.75 |
| 4.45–4.649 | 4.55 | 4.15 | 4.55 | 4.95 |
| 4.65–4.849 | 4.75 | 4.35 | 4.75 | 5.15 |
| 4.85–5.049 | 4.95 | 4.55 | 4.95 | 5.35 |
| 5.05–5.245 | 5.15 | 4.75 | 5.15 | 5.55 |
| 5.25–5.445 | 5.35 | 4.95 | 5.35 | 5.75 |
| 5.45–5.645 | 5.55 | 5.15 | 5.55 | 5.95 |
| 5.65–5.849 | 5.75 | 5.35 | 5.75 | 6.15 |
| 5.85–6.049 | 5.95 | 5.55 | 5.95 | 6.35 |
| 6.05–6.249 | 6.15 | 5.75 | 6.15 | 6.55 |
| 6.25–6.449 | 6.35 | 5.95 | 6.35 | 6.75 |
| 6.45–6.649 | 6.55 | 6.15 | 6.55 | 6.95 |

and so on at the same rate.

§ 990.41 *Class II milk.* The price for Class II milk shall be the New York Order 27 price for Class III milk adjusted to 3.7 percent butterfat content and plus the six cents zone differential to the marketing area.

§ 990.42 *Butterfat differentials.* The price for Class I and Class II milk shall be subject to a butterfat differential for each one-tenth of one percent variation above or below 3.7 percent, computed as follows: From the Class II price subtract the value of skim as provided under the Class III formula Order 27 and divide by 37 to the nearest full cent.

§ 990.43 *Zone price differentials.* There shall be deducted from the Class I price set forth in § 990.40 and from the prices for Class II milk set forth in § 990.41 zone price differentials as described in the following table.

TABLE B

| Mileage distance from City Hall, Newark Marketing Area, or— | Minus deduction cents per hundredweight, from Class I price for base price | Minus in cents per hundredweight Class II prices and price for excess milk |
|---|---|---|
| 0–50 | 0 | 0 |
| 51–60 | 10 | 1 |
| 61–70 | 19 | 1 |
| 71–80 | 27 | 1 |
| 81–90 | 34 | 2 |
| 91–100 | 40 | 2 |
| 101–110 | 44 | 2 |
| 111–120 | 45.4 | 3 |
| 121–130 | 46.8 | 3 |
| 131–140 | 48.2 | 3 |
| 141–150 | 49.6 | 4 |
| 151–160 | 51 | 4 |
| 161–170 | 52.4 | 4 |
| 171–180 | 53.8 | 5 |
| 181–190 | 55.2 | 5 |
| 191–200 | 56.6 | 5 |
| 201–210 | [1] 58 | [2] 6 |

[1] Plus 1.4 cents each 10 miles thereafter.
[2] Plus 1 cent each 30 miles thereafter.

The distance from market shall be the shortest distance on highways over which the Highway Department of the several states permit milk tank trucks to move, or if no such distance is recognized the distance shall be that ascertained and announced by the Market Administrator. These distances shall be from the handler's plant where the milk is received from producers to the City Hall in Newark.

§ 990.44 *Application to uniform prices.* There should be deducted from payments to producers delivering milk to a plant located in a mileage zone set forth in § 990.43 differentials for base milk those shown in column 1 and for excess milk equal to those shown in column 2.

§ 990.45 *Milk disposed of outside the marketing area.* The class prices to be paid by handlers for milk disposed of outside the marketing area shall be the same as for milk sold in the marketing area.

§ 990.46 *Base ratings*—(a) *Determination of bases.* (1) Daily producer bases to be effective in each month under the order until February 1 after the order has been effective during an entire August-November period shall be calculated each month by multiplying each producer's average daily deliveries in that month by 120 percent of the handler's percentage utilization in Class I: *Provided,* That in no event shall any producer's base exceed average daily deliveries in that month, and that in making the calculations the percentage utilization shall be used to one decimal point (e. g., 68.6%), and each producer's base shall be calculated to the nearest full pound.

(2) Daily producer bases to be effective in each month beginning February 1 following an entire August-November period during which the order has been effective shall be calculated for the first 12 months of their use by dividing deliveries at pool plants by each producer in August, September, October, and November by 122, to the nearest full pound. In each succeeding year, bases shall be calculated by adding one-third of each producer's former base to two-thirds of a newly calculated base determined by each producer's deliveries at pool plants in the immediately preceding August-November period divided by 122.

(b) *Provision for new producers and hardship cases.* A new producer shall receive an excess price for milk deliveries in his first two months under the order. Except for this, each producer shall have a minimum base in each month, notwithstanding the other provisions of the order, of the following percentages of his deliveries:

| | | | |
|---|---|---|---|
| January | 40 | July | 35 |
| February | 35 | August | 45 |
| March | 30 | September | 45 |
| April | 30 | October | 45 |
| May | 25 | November | 45 |
| June | 25 | December | 40 |

(c) *Ownership and transfer of bases.*

(1) A base shall be held in the name of the producer and may be transferred only at his option.

(2) The milk to which the transferred base shall apply must be produced on the same farm from which such base was earned, and the transferor must notify the Market Administrator in writing on or before the last day of the month that such base is to be transferred indicating the name of the transferee, the amount of base transferred, the effective date of the transfer, and in the event of a producer's death his base may be so transferred upon written notice to the Market Administrator from any member of the producer's immediate family.

(d) *Notification to producers and handlers.* (1) On or before February 1 of each year following an August-November period under the order, the Market Administrator shall notify each producer of his base, and shall notify each handler of the base of each of the producers delivering to the handler's plant or plants.

(e) *Applicability of bases in paying producers.* (1) If in any month the percent utilization in Class I equals or exceeds 90.0 for all milk under the order, the use of base and excess prices shall be suspended for that month.

(2) In all other months, payments for base and excess milk shall be as prescribed in § 990.62.

§ 990.47 *Location differentials.* Location differentials in addition to the blend price for base milk shall be paid to producers delivering to individual handlers plants. The rate of payment shall be on

base milk only and shall be adjusted to the percentages that Class I sales of each handler are of his total receipts from producers and by the zone differential applicable to the plant where the milk is delivered according to the accompanying table. *Provided, however,* That the zone location differential for milk delivered in bulk tank pick-ups shall be the center of the bulk pick-up route as determined by the administrator.

(a) *Basic rate.* The basic location differential rate shall be 25 percent of the difference between the Class I and the Class II prices at the 0–50 mile zone.

(b) The basic rate shall be adjusted for the producers delivering to each handler at all of his plants by multiplying by the percentage that net Class I sales are of the total receipts of milk from producers.

(c) The net location differential shall be adjusted to zones as shown in the following schedule: On can deliveries paid on basis of plant location for bulk tank deliveries the location differentials to be paid on central point of the pick-up area.

| Location differential zones distance from City Hall, Newark, N. J.[1] | Adjusted basic rate less cents per hundredweight |
|---|---|
| 0–50 miles | 0 |
| 51–60 miles | 5 |
| 61–70 miles | 10 |
| 71–80 miles | 15 |
| 81–90 miles | 20 |
| 91–100 miles | 25 |
| 101–110 miles | [2] 29 |

[1] All plants in New Jersey are deemed to be in the 0–50 mile zone.

[2] 4 cents additional for each 10 miles.

NOTE: Eastern Milk Producers Co-operative Association, Inc., has reservations as to the need for location differentials to be paid to nearby producers believing that the base rating plan, revised transportation and the other provision of the proposed order could adequately protect the interests of these nearby producers.

REPORT OF HANDLERS

§ 990.50 *Periodic reports.* On or before the 8th day after the end of each month each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(a) The receipts at each plant from producers who are not handlers;

(b) The receipts at each plant from any other handler, including any handler who is also a producer;

(c) The quantity, if any, produced by such handlers;

(d) The receipts at each plant from any other source, including receipts from a plant subject to another Federal order;

(e) The respective quantities of milk and milk products disposed of on hand at each plant, with the butterfat content thereof, and

(f) The shipment of milk from each plant.

§ 990.51 *Reports of handlers who received no milk from producers.* Handlers who receive no milk from producers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

§ 990.52 *Reports as to producers.* Each handler shall report to the market administrator:

(a) Within 10 days after the market administrator's request, with respect to any producer for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator, (1) the name and address, (2) the total pounds of milk received, (3) the average butterfat test of milk received, and (4) the number of days upon which milk was received; and

(b) within 10 days after first receiving milk from any producer, (1) the name and address of such producer, (2) the date upon which such milk was first received and (3) the plant at which such milk was received.

§ 990.53 *Reports of payments to producers.* Each handler shall submit to the market administrator on or before the 25th day after the end of each month his producer payroll for such month which shall show for each producer (a) the net amount of such producer's payment with the prices, deductions, and charges involved, and (b) the total delivery of milk with the average butterfat test thereof.

§ 990.54 *Outside cream receipts.* Each handler shall report as requested by the market administrator his receipts, if any, of sweet and sour cream, showing the quantity and source of each such receipt and the cost thereof f. o. b. marketing area.

§ 990.55 *Verification of reports.* Each handler shall permit the market administrator or his agent, or such other person as the secretary and director may designate, during the usual hours of business, to (a) verify the information contained in reports submitted in accordance with this section.

§ 990.56 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That, if within such three year period, the market administrator notifies the handler in writing that longer retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (a) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

APPLICATION OF PROVISIONS

§ 990.60 *Handlers who receive no milk from producers.* The provisions of this part, except those set forth in §§ 990.50 through 990.56 and 990.30 shall not apply to a producer-handler who receives no milk from producers nor to handler whose sole source of milk supply consists of receipts from other handlers. A producer handler shall account to the pool at the Class I price for any milk purchased from producers.

§ 990.61 *Computation of the value of milk for each handler.* For each month the market administrator shall compute, subject to the provisions of § 990.60 the value of milk of producers disposed of by each handler, by (a) multiplying the hundredweight of such milk in each class, computed pursuant to §§ 990.30 through 990.32 by the price applicable pursuant to §§ 990.40 through 990.45, and (b) adding together the resulting values.

§ 990.62 *Computation and announcement of price for base and excess milk.* The market administrator shall compute and announce for each handler the uniform price per hundredweight of base milk received by him at each plant from producers during each month in the following manner:

Using the computation made in § 990.61:

(a) From the total receipts of milk from producers deduct the quantity that was excess milk up to but not more than the total quantity of Class II milk, and from the total of the resulting values deduct the value of the excess milk used above at the Class II price, and compute a preliminary uniform base price. If the total Class I sales are greater than in amount than the total delivered bases the amount and the value of such over base Class I milk shall be included in the computation of the price for excess milk.

(b) Pursuant to the provisions of § 990.47 compute the appropriate location differential rates and the totals payable to producers at all plants. Divide this total by the total quantity of delivered bases and subtract the resultant quotient from the preliminary uniform base price determined in paragraph (a) of this section. The result shall be the uniform base price.

(c) Adjust such uniform base price by the applicable differentials: *Provided, however,* That the location differential rate in each case shall not result in a final base price at any plant greater than the Zone Class I price at that plant. Any such surplus that may result from this rule shall be added to the total value of excess milk.

(d) The price for excess milk shall be computed by adding:

(1) The amount and value at the Class II price of excess milk not greater in volume than the total of Class II milk.

(2) The amount and value at the Class I price of any over base milk that is greater in volume than the total of Class II milk.

(3) Add any sums that may result from the location differential calculations where the base price at any plant must be limited to the Class I price.

(4) Divide the sum of the above values by the total amounts of excess milk. The result shall be the blend or uniform price for excess milk.

(e) On or before the 15th day after the end of each month, notify each handler and publicly announce the uniform price for base milk and for excess milk computed for each plant pursuant to this section.

PAYMENTS FOR MILK

§ 990.70 *Time and method of payment*—(a) *Semimonthly payment.* On or before the 5th day after the end of each month each handler shall make an advance payment for the approximate value of milk received during the first 15 days of the month.

(b) *Final payment.* On or before the 20th day after the end of each month each handler shall make full payment, subject to butterfat, location and zone price receipt differentials, to each producer for the total value of milk received from such producer during such month, at not less than the base price per hundredweight for base milk and at not less than the excess price for excess milk after taking credit for payment made pursuant to paragraph (a) of this section.

§ 990.71 *Errors in payment.* Errors in making payment for milk shall be corrected not later than the date for making payments next following the determination of such errors.

EXPENSE OF ADMINISTRATION

§ 990.80 *Payment by handlers.* As his pro rata share of the expense of the administration of this part, each handler on or before the 20th day after the end of each month shall pay to the market administrator, with respect to all milk received by such handler directly from producers, and all milk received from non-order milk plants including plants subject to another Federal order which is allocated to Class I under § 990.32 an amount not exceeding three cents per hundredweight, the exact amount to be determined by the market administrator subject to review by the secretary and director.

§ 990.81 *Deductions for members of an association of producers.* In the case of producers who are members of an established association of producers each handler shall make such deductions from payments made pursuant to § 990.70 as may be authorized by such producers and pay, on or before the 25th day after the end of each month, such deductions to such association together with a detailed statement of the amount deducted from each producer.

MISCELLANEOUS PROVISIONS

§ 990.90 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for this payment of money irrespective of when such obligation arose. The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraph (c) (2) and (3) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to the following information.

(a) The amount of obligation;

(b) The month(s) during which the milk, with respect to which the obligation exists, was received or handled, and

(c) (1) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

(2) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representative(s) all books and records required by this part to be made available, the market administrator may, within the two year period provided for in subparagraph (1) of this paragraph, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligations are made available to the market administrator or his representative(s).

(3) Notwithstanding the provisions of subparagraph (1) and (2) of this paragraph, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(4) Any obligation on the part of the market administrator to pay handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8C (15) (a) of the act, a petition claiming such money.

§ 990.91 *Effective time.* The provisions of this part or any amendment thereto shall become effective at such time as the secretary may declare and shall continue in force until suspended or terminated pursuant to § 990.92.

§ 990.92 *Suspension or termination.* The secretary may suspend or terminate this part or any provision hereof whenever he finds this part or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 990.93 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 990.94 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the secretary may designate, shall, if so directed by the secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

§ 990.95 *Equivalent prices or indices.* If for any reason a price or index specified by this part for use in computing class prices or other purposes is not reported or published in the manner described in this part, the market administrator shall use a price or index determined by the secretaries to be equivalent or comparable with the factor which is specified.

§ 990.96 *Agents.* The secretary and director may each by designation in writing, name any officer or employee of the State of New Jersey or the United States or name any bureau or division of the New Jersey Department of Agriculture or the United States Department of Agriculture to act as their agent(s) or representative(s) in connection with any of the provisions hereof.

§ 990.97 *Separability of provisions.* If any provisions of this part, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 990.98 *Compensatory payments.* (a) Class I sales from plants which are subject to another Federal order shall be subject to payments into the North Jersey pool of the difference between the North Jersey Class I and the other order Class I price if lower. Class I sales from plants not subject to another Federal order, on route sales up to 25 percent of the receipts of milk at such plant shall be subject to payments into the North Jersey pool at a rate on Class I sales calculated by determining a utilization price at North Jersey class prices for the plant times milk received at the plant less actual payments to patrons divided by the volume of Class I sales in the marketing area, or the difference between the New Jersey Class I and Class II prices, whichever is lower.

(b) Class I sales from plants not pool plants under another Federal order, on sales in excess of 25 percent of the producer receipts at the plant shall be subject to payments into the New Jersey pool the difference between the North Jersey Class I and Class II prices.

Proposed amendments to Order No. 27; proposed by The Governor's Milk Committee of New Jersey, United Milk Producers of New Jersey and Eastern

Milk Producers Cooperative Association, Inc.:

POOL REQUIREMENTS FOR PLANTS AND PRODUCERS

A. Delete §§ 927.20 through 927.27.

B. Insert as § 927.20 the following:

§ 927.20 *Temporary pool plants.* For any month a plant from which during such month Class I–A milk, either directly or through other plants, is sold or distributed in or shipped to the marketing area, which quantity of milk during the month of July through March, is equal to more than 25 percent of the milk received directly from dairy farmers, or during the months of April through June is equal to more than 10 percent of the milk received directly from dairy farmers, shall be designated a pool plant: *Provided,* That for the months of April, May, or June no plant at which milk was received from dairy farmers during the preceding months of July, August, September, October, November or December shall be a pool plant on this basis, unless at least 60 percent of such milk was classified in each month in Class I–A, and either directly, or through other plants, was sold or distributed in or shipped to the marketing area in the form of milk: *Provided further,* That no plant shall be a pool plant on this basis unless the person operating such plant has kept such control over the sanitary conditions under which milk received at the plant is produced and handled, that the plant can meet the requirements of a source of milk for the marketing area: *Provided further,* That approval by a health authority of the plant as a source of milk for the marketing area shall constitute sufficient evidence that this requirement is being met even though such approval is restricted to prohibit shipment to the marketing area of milk for specified periods during which permission is given by such health authority for receiving unapproved milk or skim milk at the plant or for shipment of approved skim milk from such plant.

C. Add a new § 927.21, as follows:

§ 927.21 *Regular pool plants*—(a) *Carry-over designation.* Any plant for which the report of milk received from dairy farmers was used in the computation of the uniform price for November 1951 and for July 1956 is hereby designated as a pool plant until such designation is cancelled pursuant to § 927.22.

(b) *Submission of application.* Any person who operates a plant which is located in New York State, Vermont, Massachusetts, Connecticut, New Jersey or Pennsylvania, and which is either approved as a source of milk by a health authority in the marketing area at the time of application and under the sanitary supervision of such authority may apply to the Secretary prior to August 1 of any year to have such plant designated as a pool: *Provided,* That if 50 percent or more of the dairy farmers delivering milk at such plant deliver such milk for the account of a cooperative association which does not operate the plant but for which milk such association receives payment, an application must be made by such cooperative association as well as by the person operating the plant. Applications shall be addressed to the Secretary and filed at the office of the Market Administrator.

(c) *Designation upon application.* Any plant for which an application has been made pursuant to paragraph (b) of this section shall be designated as a pool plant upon the determination that the requirements of paragraph (e) of this section are being met. Such designation shall be effective as of the first of the month following the date of such determination. If, based upon the information contained in the application filed pursuant to paragraph (b) of this section, the Secretary determines that the requirements of paragraph (e) of this section are not being met, the applicant or applicants shall be so notified. Within 15 days after receipt of such notice, the applicant or applicants may submit additional information and request further consideration. Prior to the issuance of the determination of the Secretary, an application may be withdrawn by written request of the applicant or applicants.

(d) *Computation of plant uniform price.* The market administrator shall, for the purpose of carrying out the provisions of this section, compute for each plant submitting an application pursuant to paragraph (b) of this section an average uniform price for such plant for the appropriate 12-month period in the following manner:

(1) Compute for each month, pursuant to § 927.60, the net pool obligation of such plant;

(2) Subtract an appropriate proportional share of the total of payments required to be made for such month by § 927.76;

(3) Add an appropriate proportional share of the total of payments required to be made for such month pursuant to §§ 927.78 and 927.79;

(4) Add an appropriate proportional share of the unreserved cash in the producer settlement fund;

(5) Subtract per hundredweight of milk the amount arrived at in § 927.61 (e) for all milk received at such plant;

(6) Subtract the Class I–C milk at such plant from total milk received from producers at such plant;

(7) Divide the result obtained in subparagraph (5) of this paragraph by the result obtained in subparagraph (6) of this paragraph; and

(8) Compute, for the appropriate 12-month period referred to in paragraph (e) of this section, an average of the monthly results obtained pursuant to the preceding subparagraph.

(e) *Requirements.* In order to qualify as a pool plant under this section, the plant shall meet one of the following requirements: *Provided,* That no plant shall be a pool plant on this basis unless the person operating such plant has kept such control over the sanitary conditions under which milk received at the plant is produced and handled, that the plant can meet the requirements of a source of milk for the marketing area: *Provided further,* That approval by a health authority of the plant as source of milk for the marketing area shall constitute sufficient evidence that this requirement is being met even though such approval is restricted to prohibit shipment to the marketing area of milk for specified periods during which permission is given by such health authority for receiving unapproved milk or skim milk at the plant or for shipment of approved skim milk from such plant.

(1) The report of milk received from dairy farmers at such plant shall have been used in the computation of the uniform price for July 1956: *Provided,* That the average uniform price computed pursuant to paragraph (d) of this section for such plant for the 12-month period ending July 31, 1956, shall have been higher than the average of the uniform prices computed pursuant to § 927.61 for the same period, or

(2) The report of milk received from dairy farmers shall have been used in the computation of the uniform price for July 1956: *Provided,* That the qualification of any plant qualifying under this subparagraph shall terminate on July 31, 1957, unless the average uniform price computed pursuant to paragraph (d) of this section for the 12-month period ending July 31, 1957, shall have been higher than the average of the uniform prices computed pursuant to § 927.61 for the same period. The qualification of any such plant shall terminate on July 31, of any subsequent 12-month period unless the average uniform price for such plant for such 12-month period shall have been higher than the average of the uniform prices computed pursuant to § 927.61 for the same period; or

(3) The proportion of Class I–A milk to total milk received at such plant during the period October, November, and December shall have been equal to or higher in each of the three consecutive years preceding the designation of such plant than the proportion of total Class I–A milk of all handlers to total milk received by all such handlers for each such respective period: *Provided,* That if the applicant operates more than one pool plant, no plant operated by him shall be qualified under this subparagraph unless the average of the uniform prices for all plants operated by such applicant for the 12-month period ending with the preceding July 31 shall have been higher than the average of the uniform prices computed pursuant to § 927.61 for the same period.

D. Insert as § 927.22 the following:

§ 927.22 *Cancellation of designation.* The designation of a pool plant pursuant to paragraphs (a) and (c) of § 927.21, or pursuant to § 927.23 may be cancelled under either of the following provisions:

(a) The designation shall be cancelled upon application to the market administrator by the handler operating the plant effective at any time during the months of April through July of any year but not sooner than 30 days after receipt of such application: *Provided,* That such application for cancellation shall be accompanied by proof that the handler, if not a cooperative association qualified pursuant to § 927.76, has notified any qualified cooperative association which has any members who deliver milk to such plant, and has notified individually all producers delivering to such plant who are not members of such qualified cooperative association, of his intention to make such application: *Provided further,* That if 50 percent or more of the producers delivering milk at such plant deliver such milk for the account of a cooperative association which does not operate the plant, but for which milk such association receives payment, an application must be made by such cooperative association as well as by the handler operating the plant.

(b) The designation of any plant which on June 15 of any year is not approved by a health authority as a source of milk for the marketing area shall be automatically cancelled effective on August 1 of such year unless the absence of such approval is a temporary condition covering a period of not more than 15 days: *Provided,* That the designation of a plant approved by a health authority as a source of milk for the marketing area even though such approval is restricted to prohibit shipment to the marketing area of milk for specified periods during which permission is given by such health authority for receiving unapproved milk or skim milk at the plant or for shipment of approved skim milk from such plant, shall not be cancelled pursuant to this provision. This provision does not prevent a handler from applying pursuant to § 927.21, for a new designation.

E. Insert as § 927.23 the following:

§ 927.23 *Plant replacement.* A plant may be designated at any time as a pool plant upon application made by the person operating the plant to the Secretary showing that the plant is a replacement for one or more pool plants designated pursuant to paragraphs (a) and (c) of § 927.21 or pursuant to this section which are operated by him and that substantially all of the dairy farmers delivering milk at the plant previously delivered milk to the pool plant or plants replaced. Upon designation of a plant pursuant to this section, the designation of the plant or plants which it replaced shall be automatically cancelled.

F. Insert as § 927.24 the following:

§ 927.24 *Change of operator.* The designation of pool plants pursuant to paragraphs (a) and (c) of § 927.21 and pursuant to § 927.23 shall be considered as applicable to the plant as such, and subject to cancellation only pursuant to §§ 927.22 and 927.23 regardless of change in the person owning or operating the plant. The market administrator shall be notified, by the handlers involved, of any transfer from one person to another of ownership or operation of a pool plant.

SEASONAL VARIATIONS IN PRODUCTION

A. Add a new § 927.12, as follows:

§ 927.12 *Base, base milk and excess milk*— (a) *Base.* "Base" means a quantity of milk expressed in pounds per day computed pursuant to § 927.56.

(b) *Base milk.* "Base milk" means a quantity of milk received from a producer by a handler during each of the months of April, May and June which is not in excess of such producer's base multiplied by the number of days such milk was delivered during each such month.

(c) *Excess milk.* "Excess milk" means milk received from a producer by a handler during each of the months of April, May and June which is in excess of the base milk received from such producer.

B. Add a new paragraph (b) in § 927.50 as follows, and re-letter existing paragraphs (b) to (e) accordingly:

(b) For the delivery periods of April through June, the total quantity of base milk and the total quantity of excess milk received from producers.

C. Add the following words at the end of § 927.51 (b) (1): "and for the delivery periods of August through November, and April through June, the number of days on which milk was delivered."

D. Add a new § 927.56, as follows:

§ 927.56 *Computation of base and base rules.* (a) Subject to the conditions set forth in paragraph (b) of this section, the market administrator shall compute for each of the months of April, May and June, a base for each producer as follows:

(1) Divide the total pounds of milk received by a handler from each producer during the months of August, September, October and November immediately preceding by the number of days such milk was delivered (not to be less than 90 days).

(b) Any base computed pursuant to paragraph (a) (1) of this section shall be subject to the following rules:

(1) A base shall be held in the name of the producer for whose account the milk was delivered during the base-forming period.

(2) Bases may be transferred in whole or in part by written notice from the producer to the handler(s) receiving milk from such producer, and from the handler(s) to the market administrator submitted on or before the first day of the month for which such base is to be transferred, indicating the name of the transferee, the amount of base transferred, and the effective date of such transfer.

(3) On or before April 1 of each year, the market administrator shall notify each handler of the base of each of the producers delivering milk to the handler's plant(s).

E. Add a new § 927.62 as follows, and renumber the existing § 927.62 as § 927.64:

§ 927.62 *Computation of excess milk price.* For each of the months of April, May and June, the excess milk price shall be the Class III price.

F. Add a new § 927.63, as follows:

§ 927.63 *Computation of uniform price for base milk.* For each of the months of April, May and June, the market administrator shall compute a uniform price for base milk in the following manner:

(a) Multiply the total milk received from producers by all handlers by the result obtained in paragraph (g) of § 927.61;

(b) Multiply the total of excess milk received from producer's by all handlers by the excess milk price;

(c) Subtract the result obtained in paragraph (b) of this section from the result obtained in paragraph (a) of this section; and

(d) Divide the result obtained in paragraph (c) of this section by the total of base milk received from producers by all handlers. The result shall be known as the uniform price for base milk containing 3.5 percent butterfat received from producers at plants in the 1–10 mile zone.

G. Amend § 927.66 to read as follows:

§ 927.66 *Transportation and location differentials.* (a) The uniform price at any plant, and for the months of April, May and June, the uniform price for base milk at any plant shall be reduced by the differential shown in column B of the schedule contained in § 927.42 for the zone of the plant in effect pursuant to § 927.42.

(b) For the months of April, May and June, the excess milk price at any plant shall be reduced by the differential shown in column C of the schedule contained in § 927.42 for the zone of the plant in effect pursuant to § 927.42.

PRICING OF CLASS I–A MILK

A. Delete § 927.40 (a) and substitute therefor the following:

(a) For Class I–A milk the price during each month shall be a price computed by multiplying the base price of $5.23 by the seasonal adjustment factor for each respective month given in the following schedule:

| | | | |
|---|---|---|---|
| January | 1.05 | July | 0.95 |
| February | 1.03 | August | 1.00 |
| March | 1.00 | September | 1.04 |
| April | 0.94 | October | 1.07 |
| May | 0.88 | November | 1.09 |
| June | 0.88 | December | 1.07 |

DEFINITION OF CLASS I–B MILK

A. Amend § 927.37 (b) by changing the words "outside of the State of New York and outside of Northern New Jersey", where they occur, to read "outside the counties of Dutchess, Orange, Putnam, Rockland, Sullivan and Ulster in the State of New York."

DEFINITION AND PRICING OF CLASS I–C MILK

A. Amend § 927.37 (c) by changing the words "State of New York or Northern New Jersey", where they occur, to read "counties of Dutchess, Orange, Putnam, Rockland, Sullivan and Ulster in the State of New York."

B. Amend § 927.40 (d) by deleting the phrase "20 cents" and substituting therefor "40 cents."

FLUID SKIM DIFFERENTIAL

A. Amend § 927.44 by changing the words "Deduct the price of Class II milk computed pursuant to § 927.40 (e)" where they occur to read "Deduct the price of Class III milk computed pursuant to § 927.40 (f)."

PRICING OF NON-FLUID CLASSES

A. Amend § 927.40 (f) by deleting the first proviso thereof and substituting therefor the following: "*Provided further,* That for the months of July

through March an additional 10 cents shall be added to such sum."

B. Amend § 927.43 by inserting, after the initial words "For milk received from producer," the words "during the months of April, May and June"; and by deleting, in the second proviso, the words "during any of the months of March through July."

LOCATION DIFFERENTIALS

A. Delete paragraph (f) of § 927.60, and re-letter paragraph (g) as paragraph (f). (This proposal is not concurred in by the United Milk Producers of New Jersey, or the Governor's Committee of New Jersey, who propose that a provision be adopted similar to the one proposed for Northern New Jersey.)

TRANSPORTATION DIFFERENTIALS

A. Amend § 927.42 by deleting the schedule contained in such section and substituting therefor the following:

| A | B | C |
|---|---|---|
| Freight zone (miles) | Class I–A, I–B and I–C and skim milk subject to the fluid skim differential | Class II and III |
| | Cents per hundredweight | Cents per hundredweight |
| 1–10 | +28.0 | +4.0 |
| 11–20 | +26.6 | +3.8 |
| 21–25 | +25.2 | +3.6 |
| 26–30 | +24.5 | +3.5 |
| 31–40 | +23.8 | +3.4 |
| 41–50 | +22.4 | +3.2 |
| 51–60 | +21.0 | +3.0 |
| 61–70 | +19.6 | +2.8 |
| 71–75 | +18.2 | +2.6 |
| 76–80 | +17.5 | +2.5 |
| 81–90 | +16.8 | +2.4 |
| 91–100 | +15.4 | +2.2 |
| 101–110 | +14.0 | +2.0 |
| 111–120 | +12.6 | +1.8 |
| 121–125 | +11.2 | +1.6 |
| 126–130 | +10.5 | +1.5 |
| 131–140 | +9.8 | +1.4 |
| 141–150 | +8.4 | +1.2 |
| 151–160 | +7.0 | +1.0 |
| 161–170 | +5.6 | +0.8 |
| 171–175 | +4.2 | +0.6 |
| 176–180 | +3.5 | +0.5 |
| 181–190 | +2.8 | +0.4 |
| 191–200 | +1.4 | +0.2 |
| 201–210 | 0 | 0 |
| 211–220 | −1.4 | −0.2 |
| 221–225 | −2.1 | −0.3 |
| 226–230 | −2.8 | −0.4 |
| 231–240 | −4.2 | −0.6 |
| 241–250 | −5.6 | −0.8 |
| 251–260 | −7.0 | −1.0 |
| 261–270 | −8.4 | −1.2 |
| 271–275 | −9.1 | −1.3 |
| 276–280 | −9.8 | −1.4 |
| 281–290 | −11.2 | −1.6 |
| 291–300 | −12.6 | −1.8 |
| 301–310 | −14.0 | −2.0 |
| 311–320 | −15.4 | −2.2 |
| 321–325 | −16.1 | −2.3 |
| 326–330 | −16.8 | −2.4 |
| 331–340 | −18.2 | −2.6 |
| 341–350 | −19.6 | −2.8 |
| 351–360 | −21.0 | −3.0 |
| 361–370 | −22.4 | −3.2 |
| 371–375 | −23.1 | −3.3 |
| 376–380 | −23.8 | −3.4 |
| 381–390 | −25.2 | −3.6 |
| 391–400 | −26.6 | −3.8 |
| 401–410 | −28.0 | −4.0 |
| 411 and over | −29.4 | −4.2 |

CONFORMING AMENDMENT

A. Make such other changes as may be required to make the entire order conform with the amendments proposed above.

Terms and provisions of a proposal for a coordinated milk marketing program for the New York-New Jersey marketing area; proposed by Mutual Federation of Independent Cooperatives, Inc.: Terms and provisions of proposed Northern New Jersey order.

DEFINITIONS

SECTION 1. *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

SEC. 2. *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

SEC. 3. *Marketing area.* "Northern New Jersey milk marketing area" (hereinafter called the "marketing area") means all territory within the State of New Jersey defined as follows:

Beginning at the point on the line separating Rockland County, New York, from the State of New Jersey at the western edge of the Hudson River, northwesterly along the New Jersey-New York State Line to Sloatsburg Road;

Then south on Sloatsburg Road in New Jersey to its intersection with Passaic County, New Jersey, Highway 511 (Also known as Greenwood Lake Road);

Then left in a southerly direction on said highway to its intersection with the Northern boundary of the Borough of Wanaque;

Then, starting westerly, along the boundary between the Boroughs of Wanaque and Ringwood to the junction with the boundary of the Borough of Bloomingdale;

Then along the boundary between the Boroughs of Bloomingdale and Ringwood to the junction with the boundary of West Milford Township;

Then south along the boundary between the Borough of Bloomingdale and West Milford Township to the junction with the Passaic and Morris County Line;

Then west along the Passaic-Morris County Line to its junction with the boundary between Kinnelon Borough and Rockaway Township;

Then south along the boundary between Kinnelon Borough and Rockaway Township to the junction with the boundary of Boonton Township;

Then southwest along the boundary between Boonton and Rockaway Townships to the junction with the Denville Township boundary;

Then, continuing westerly along the boundary between Rockaway and Denville Townships to the junction with the northern boundary of Rockaway Borough;

Then, starting northwest, along the boundary between Rockaway Borough and Rockaway Township to its junction with Mt. Pleasant Turnpike;

Then westerly along Mt. Pleasant Turnpike to its junction with the boundary between Rockaway Township and Wharton Borough;

Then northwesterly along the boundary between Rockaway Township and Wharton Borough to the junction with the tracks of the D. L. & W. Railroad;

Then westerly along this railroad track to the point where it crosses Ledgewood-Mt. Arlington Road;

Then southwest along this road to its junction at S. Route 46;

Then to the left along U. S. Route 46 to its junction with New Jersey Route 10;

Then southeasterly on New Jersey Route 10 to its junction with the boundary between Denville and Randolph Townships;

Then south along the boundary between Denville and Randolph Townships to the junction with the boundary between Parsippany-Troy Hills and Morris Townships;

Then in the same direction along the boundary between Morris and Randolph Townships to the junction with Mendham Township;

Then in the same direction along the boundary between Morris and Mendham Townships to the junction with the boundary between Morris and Harding Townships;

Then southeast along the boundary between Morris and Harding townships to the junction with U. S. Highway 202;

Then south along U. S. Highway 202 to the junction with the Morris-Somerset County Line;

Then to the right and westerly along the Morris-Somerset County Line to the junction with U. S. Highway 206;

Then southerly and to the left along U. S. Highway 206 to the junction with the boundary between Bedminster and Bridgewater townships;

Then to the right and westerly along the boundary between Bedminster and Bridgewater townships (which follows Chambers Brook) to the junction with the north branch of the Raritan River;

Then southerly along the north branch of the Raritan River to its junction with the south branch of the Raritan River;

Then to the left along the Raritan River easterly to its junction with the boundary between Hillsboro Township and Manville Borough;

Then south along the boundary between Manville Borough and Hillsboro Township to the junction with Somerset County Highway 533;

Then south and to the right along Somerset County Highway 533 to the junction with the northern boundary of Millstone Borough;

Then to the right and west along the Millstone boundary around to the point of intersection again with Somerset County Highway 533 on the south side of Millstone Borough;

Then south again along Somerset County Highway 533 to the causeway over the Millstone River;

The to the left and to the east over said causeway to Griggstown Canal Road;

Then to the right and southerly along Griggstown Canal Road to Suydam Road;

Then left and east along Suydam Road to Franklin Park Road;

Then continuing in the same direction along Franklin Park Road across the Somerset-Middlesex County Boundary to the junction with U. S. Highway No. 1;

Then right on U. S. Highway No. 1 to the junction with Dean's Lane;

Then left off U. S. Highway No. 1 along Dean's Lane to George's Road;

Then to the left on George's Road to Dean's-Rhodehall Road;

Then right on Dean's-Rhodehall Road to the New Jersey Turnpike;

Then south to the right on the New Jersey Turnpike to the intersection with an overpass over the Turnpike carrying Hoffman Station Road at Stults Corner;

Then to the left and east along Hoffman Station Road (through Deys Corner and Stults Corner) to the intersection with the Jamesburg and Englishtown Road;

Then to the right and southeast along the Jamesburg and Englishtown Road to the Monmouth-Middlesex County Line;

Then northeast and to the left along the Monmouth-Middlesex County Line to the point of intersection with U. S. Highway No. 9;

Then to the right and south along U. S. Highway No. 9 (including Lakewood Township) to its junction with the New Jersey Garden State Parkway;

Then south along the Garden State Parkway to Cedar Creek in Ocean County;

Thence east on Cedar Creek to the Atlantic Ocean;

Then north along the New Jersey coast and the west bank of the Hudson River to the point of beginning (including all islands and outer bank territories considered a part of the State of New Jersey and adjacent to the area described).

Together with all piers, docks, and wharves connected therewith and all crafts moored thereat, and including territory within such boundaries which is occupied by government (Municipal, State, Federal, or International) reservations, installations, institutions, or other establishments.

SEC. 4. *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

SEC. 5. *Dairy farmer.* "Dairy farmer" means any person who produces milk.

SEC. 6. *Producer.* "Producer" means any dairy farmer whose milk is delivered direct from farm to a pool plant.

SEC. 7. *Handler.* "Handler" means (a) any person who engages in the handling of milk or products therefrom, which milk was received at a pool plant, or at a plant approved by any health authority as a source of milk for the marketing area, (b) any person who engages in the handling of milk, concentrated fluid milk, cultured or flavored milk drinks, cream, half and half, or skim milk, all or a portion of which is shipped to, or received in, the marketing area, or (c) any cooperative association of dairy farmers with respect to any milk which it causes to be delivered from dairy farmers to a pool plant of any other handler for the account of such association and for which such association receives payment.

SEC. 8. *Plant.* "Plant" means the land, building, surroundings, facilities, and equipment or vehicle whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, and sampling and handling, or processing of milk or milk products as determined by the market administrator.

SEC. 9. *Pool plant.* "Pool plant" means any plant which is designated as a pool plant pursuant to sections 20, 22, 25 or 27 provided a vehicle shall not be designated as a "pool plant" unless operated by a person who is defined as a "handler" because of other operations.

SEC. 10. *Market administrator.* "Market administrator" means the agency, which is described in sections 15 through 18, for the administration of this subpart.

SEC. 11. *Northern New Jersey.* "Northern New Jersey" means the following counties in the state of New Jersey:

| | |
|---|---|
| Hunterdon. | Passaic. |
| Middlesex. | Somerset. |
| Monmouth. | Sussex. |
| Morris. | Warren. |

or such parts thereof as are not in the marketing area.

SEC. 11. *New York order.* "New York order" means Order 27, as amended, regulating the handling of milk in the New York Metropolitan milk marketing area.

MARKET ADMINISTRATOR

SEC. 15. *Selection, removal, and bond.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected and subject to removal by the Secretary. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.

SEC. 16. *Compensation.* The market administrator shall be entitled to such reasonable compensation as shall be determined by the Secretary.

SEC. 17. *Powers.* The market administrator shall have the following powers:

(a) To administer the terms and provisions of this subpart; including joint administration with the market administrator of the New York order of sections 35, 36, 47, 54, 61, 70 and 73 of this subpart and §§ 927.35, 927.36, 927.47, 927.54, 927.61, 927.70 and 927.73 of the New York order.

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

SEC. 18. *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Keep such books and records as will clearly reflect the transactions provided for in this subpart;

(b) Submit his books and records to examination by the Secretary at any and all times;

(c) Furnish such information and such verified reports as the Secretary may request;

(d) Obtain a bond with reasonable security thereon covering each employee who handles funds entrusted to the market administrator;

(e) Publicly disclose, after reasonable notice, the name of any person who has not made reports pursuant to sections 50, 51, and 53, or made payments required by sections 65, 66, 67, 72, 75, 77, 78, 79, and 80;

(f) Prepare and disseminate for the benefit of producers, consumers, and handlers such statistics and information concerning the operation of this subpart, as amended, as do not reveal confidential information;

(g) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this subpart;

(h) Pay out of the funds received pursuant to § 927.80 the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties;

(i) Maintain a main office and such branch offices as may be necessary;

(j) Promptly notify a handler, upon receipt of the handler's written request therefor, of his determination: as to whether one or more plants exist at a specified location, as to whether any specified item constitutes a part of the handler's plant, or as to which plant a specified item is a part in the event that the particular premises in question constitutes more than one plant: *Provided,* That if the request of the handler is for revision or affirmation of a previous determination, there is set forth in the request a statement of what the handler believes to be the changed conditions which make a new determination necessary. If a handler has been notified in writing of a determination with respect to an establishment operated by him, any revision of such determination shall not be effective prior to the date on which such handler is notified of the revised determination; and

(k) Cooperate with the market administrator of the New York order to achieve coordination of this order and the North Jersey order and to effectuate the declared purposes of the act.

POOL PLANTS

Sec. 20. *Initial designation.* Plants shall be designated by the market administrator as pool plants under this order, beginning with the effective date of this order and continuing until such designation is cancelled pursuant to section 24 or 25, if they had, in November, 1955, approval as a source of milk for fluid purposes by a health authority in the marketing area, continue to have such approval and such designation is requested by the operator of the plant, except that plants which are pool plants under federal milk orders other than the New York Order shall not be so designated: Applications shall be addressed to the Secretary and filed at the office of the market administrator.

SEC. 21. *Eligible applicants.* Any person who operates a plant which is either approved as a source of milk by a health authority in the marketing area at the time of application and under the sanitary supervision of such authority, or was a pool plant during the preceding October, November, and December, and which had 80 percent of the milk it received from producers in each of the preceding months of July, August, October, November and December classified as I–A by actual utilization, rather than assignment or selection of classification and without displacing other milk, may apply to the Secretary prior to January 1 of any year to have such a plant designated as a pool plant: *Provided,* That if 50 percent or more of the dairy farmers delivering milk at such plant deliver such milk for the account of a cooperative association which does not operate the plant but for which milk such association receives payment, an application must be made by such cooperative association as well as by the person operating the plant.

SEC. 22. *Designation upon application.* Any plant for which an application has been made pursuant to section 21 shall be designated as a pool plant upon determination by the Secretary that the

requirements of section 23 are being met. Such designation shall be effective as of February 1 following the date of application and until cancelled pursuant to section 24. If, based upon the information contained in an application filed pursuant to section 21, the Secretary determines that the requirements of section 23 are not being met, the applicant or applicants shall be so notified. Within 15 days after receipt of such notice, the applicant or applicants may submit additional information and request further consideration. Prior to the issuance of the determination of the Secretary, an application may be withdrawn by written request of the applicant or applicants In the event that no determination is made by the Secretary prior to February 1, the effective date of the designation, upon written request of the applicant or applicants prior to the issuance of a determination, shall be deferred until the first of the month following the date of such determination. If the application is not so withdrawn, or the effective date of designation is not so deferred, the plant shall be treated as a pool plant as of February 1: *Provided*, That all payments into or out of the producer settlement fund (except such payments which are made on the basis of operations during a month in which a plant meets the requirements of section 27) shall be held in reserve by the market administrator until a determination is made.

SEC. 23. *Requirements.* In order to qualify as a pool plant pursuant to sections 20, 22, or 25, the person operating the plant shall meet each of the following requirements:

(a) Be willing to ship in the form of milk to the marketing area, milk received at the plant from dairy farmers;

(b) Keep such control over the sanitary conditions under which milk received at the plant is produced and handled, that the plant can meet the requirements of a source of milk for the marketing area: *Provided*, That approval by a health authority of the plant as a source of milk for the marketing area shall constitute sufficient evidence that this requirement is being met even though such approval is restricted to prohibit shipment to the marketing area of milk for specified periods during which permission is given by such health authority for receiving unapproved milk or skim milk at the plant or for shipment of approved skim milk from such plant; and

(c) Have no commitments for disposition of milk that prevent him from utilizing milk as set forth in section 24 (g).

(d) In the case of plants designated pursuant to section 22, such plants continue to ship 80 percent of the milk received at the plant each year in accordance with the classification requirements of section 21.

SEC. 24. *Suspension and cancellation of designation.* The designation of a pool plant pursuant to sections 20, 22, or 25 may be suspended or cancelled under any of the following provisions:

(a) The designation shall be cancelled upon application to the market administrator by the handler operating the plant effective at any time but not sooner than 30 days after receipt of such application: *Provided*, That such application for cancellation shall be accompanied by proof that the handler, if not a cooperative association qualified pursuant to section 76, has notified any qualified cooperative association which has any members who deliver milk to such plant, and has notified individually all producers delivering to such plant who are not members of such qualified cooperative association, of his intention to make such application: *Provided further*, That if 50 percent or more of the producers delivering milk at such plant deliver such milk for the account of a cooperative association which does not operate the plant, but for which milk such association receives payment, an application must be made by such cooperative association as well as by the handler operating the plant.

(b) The designation of any plant which on December 15 of any year is not approved by a health authority as a source of milk for the marketing area shall be automatically cancelled effective on February 1 of such year unless the absence of such approval is a temporary condition covering a period of not more than 15 days: *Provided*, That the designation of a plant approved by a health authority as a source of milk for the marketing area, even though such approval is restricted to prohibit shipment to the marketing area of milk for specified periods during which permission is given by such health authority for receiving unapproved milk or skim milk at the plant or for shipment of approved skim milk from such plant, shall not be cancelled pursuant to this provision. This provision does not prevent a handler from applying pursuant to § 927.21 for a new designation effective on December 1 of the same year.

(c) The designation of any plant shall be suspended, effective no sooner than 10 days nor later than 20 days after the date of mailing of notice, by registered letter, to the handler, whenever the market administrator, subject to the limitations set forth in paragraph (g) of this section, finds on the basis of available information that the handler operating the plant is not meeting the requirements set forth in section 23: *Provided*, That if the handler operating the plant is not a cooperative association qualified pursuant to section 76, the market administrator shall also notify any qualified cooperative association which has any members who deliver milk to such plant, and shall notify individually all producers delivering to such plant who are not members of such qualified cooperative association, of such suspension of designation.

(d) In the case of the suspension pursuant to this section of the designation of one or more plants for failure to meet the requirements of section 23 (a) or (c), the handler operating such plant may select, prior to the effective date of such suspension, some other pool plant or plants to be substituted for the plant or plants suspended if, during the preceding month, the quantity of milk received from producers at such substituted plant or plants was not less than the quantity of milk received from producers at the suspended plant or plants. The handler may also select the order in which plant designations are to be canceled in the event of a later determination by the Secretary cancelling the designation of some but not all of the plants suspended.

(e) Not later than 10 days after the effective date of suspension of designation pursuant to this section, the handler operating the plant may apply to the Secretary for a review. If the handler fails to so apply for such review, the designation of the plant as a pool plant shall be cancelled as of the effective date of the suspension. If the handler does so apply, the Secretary shall, after review, either determine that the requirements set forth in section 23 have been met and order the suspension revoked, or determine that such requirements have not been met and order the designation canceled as of the effective date of the suspension: *Provided*, That if the Secretary has made no determination within two months after the end of the month in which the suspension was made effective, celled as of the effective date of the susbut later orders the designation cancelled, such cancellation shall be effective as of the first of the month following the date of such determination.

(f) Beginning with the effective date of a suspension pursuant to this section, and until the Secretary has either ordered the designation cancelled or ordered the suspension revoked, the plant shall be treated as a pool plant: *Provided*, That all payments into or out of the producer settlement fund (except such payments on the basis of operations during a month in which the plant meets the requirements of section 27), shall be held in reserve by the market administrator until an order is issued by the Secretary, but not longer than two months after the end of the month in which the suspension was made effective.

(g) No pool plant designation shall be suspended for failure to meet the requirements of section 23 (a) except under the following conditions:

(1) A meeting has been held, no sooner than three days after notice by the market administrator to all handlers operating pool plants designated pursuant to sections 20, 22, or 25, for consideration of the desirable utilization of milk received from producers during a period ending not later than the end of the second month after the month during which such meeting is held.

(2) There has been issued by the market administrator, following such meeting, and mailed to all handlers operating pool plants designated pursuant to sections 20, 22, or 25 the market administrator's determination of the desirable utilization of milk received from producers each month during all or a part of the period set forth in subparagraph (1) of this paragraph. Such determination shall include a schedule setting forth, by months, the desired minimum percentage of milk received from producers to be utilized in specified classes. Such specified classes shall include Class I–A, and Class I–C to the extent of 50 percent of the milk received by a handler from producers which is ultimately distributed in the state of New York, in New Jersey, in Fairfield County, Connecticut, or in Pennsylvania outside the counties of Allegheny, Beaver, Fayette, Greene, Washington, and Westmoreland. In addition, such specified classes may include all or a part of Class II and other I–C.

(3) The market administrator finds on the basis of available information that the handler operating a plant or the cooperative reporting a plant is not utilizing milk received from producers in accordance with the minimum percentage set forth in the determination of the market administrator previously announced pursuant to subparagraph (2) of this paragraph: *Provided*, That the suspension of the pool plant designation of a plant may be made effective during the months of November and December if the market administrator finds that the handler is utilizing any milk received from producers in classes other than those set forth in the determination of the market administrator announced pursuant to subparagraph (2) of this paragraph.

(h) The cancellation of pool plant designations for failure to meet the requirements of section 23 (a) shall be subject to the following conditions:

(1) No pool plant designation shall be cancelled if the handler operating the plant utilized the milk received by him at all pool plants from producers during the month in which the suspension is made effective in accordance with the minimum percentage set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section.

(2) No pool plant designation shall be cancelled if the handler operating the plant utilized in the specified classes set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section a percentage of the total milk received by him at all pool plants from producers during the month in which the suspension is made effective which is not less than the percentage of the total milk reported by all handlers to have been received from producers during such month which was reported to have been used in the specified classes: *Provided*, That the limitations as to quantity and area set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section shall apply in computing the utilization percentage of the individual handler but shall not apply in computing the utilization percentage of all handlers.

(3) In the event that all milk received from producers at a plant is reported to the market administrator by a cooperative association qualified pursuant to section 76, and such association pays the producers for such milk, the pool plant designation of such plant shall not be cancelled if a percentage of all milk reported by such cooperative association is utilized in accordance with the minimum percentage set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section, or in accordance with the percentage set forth in subparagraph (2) of this paragraph.

(4) Cancellation of designations shall be limited to those plants necessary to result in a utilization of milk received at the remaining pool plants operated by the handler, or reported by the cooperative, as the case may be, in accordance with the minimum percentage set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section.

(i) Loss of approval by health authorities of a plant as a source of milk for the marketing area may in itself constitute adequate reason for the market administrator to suspend the designation of a plant for failure to meet the requirements of section 23 (b), only if the absence of such approval continues for more than 15 days.

SEC. 25. *Plant replacements.* A plant may be designated at any time as a pool plant upon application made by the person operating the plant to the Secretary showing that the plant is a replacement for one or more pool plants designated pursuant to sections 20, 22, or this section which are operated by him and that substantially all of the dairy farmers delivering milk at the plant previously delivered milk to the pool plant or plants replaced. Upon designation of a plant pursuant to this section, the designation of the plant or plants which is replaced shall be automatically cancelled.

SEC. 26. *Change of operator.* The designation of pool plants pursuant to sections 20, 22, and 25 shall be considered as applicable to the plant as such, and subject to cancellation only pursuant to sections 24 and 25, regardless of change in the person owning or operating the plant. The market administrator shall be notified, by the handlers involved, of any transfer from one person to another of ownership or operation of a pool plant.

SEC. 27. *Plants shipping Class I–A milk to the marketing area.* For any month a plant from which during such month Class I–A milk, either directly or through other plants, is sold or distributed in or shipped to the marketing area, which quantity of milk during the months of July through March, is equal to more than 25 percent of the milk received directly from dairy farmers, or during the months of April through June is equal to more than 10 percent of the milk received directly from dairy farmers, shall automatically be designated a pool plant: *Provided*, That for the months of April, May, or June no plant at which milk was received from dairy farmers during the preceding period of October, November, and December shall be a pool plant on this basis, unless at least 60 percent of such milk was classified in Class I–A, and either directly, or through other plants, was sold or distributed in or shipped to the marketing area in the form of milk: *Provided further*, That no plant shall be a pool plant on this basis during the months of January through July, if the designation of the plant as a pool plant was cancelled for failure to meet the requirements of section 23 (a) during the preceding year: *Provided further*, That this section shall not be in effect at any time later than twelve months after the effective date of this subpart unless and until the utilization of Class I–A milk under the subpart exceeds 75 percent of the milk included in the computation of the Producer Settlement Fund, in which event this section shall again be in effect starting with the second month following the month in which such classification condition occurs and continue in effect for eleven months thereafter. At the time of announcing the uniform price for each month, the market administrator shall make public the location and name of the operator of any plant for which a report of receipts from dairy farmers was used pursuant to this section in the computation of that uniform price.

SEC. 28. *Pool Plant transfer.* Any plant designated as a pool plant under §§ 927.20 and 927.22 of the New York order may, prior to January 1, apply to the Secretary for transfer to this order provided the plant is approved as a source of milk by a health authority in the marketing area at the time of application and under the sanitary supervision of such authority and continues to meet the requirements set forth in § 927.23 applicable to such plant in accordance with its prior designation under §§ 927.20 or 927.22 of the New York order, whichever applies. Such designation shall be effective as of February 1 following the date of application and until cancelled pursuant to § 927.24 or § 927.25.

CLASSIFICATION

SEC. 30. *Basis of classification.* All milk the butterfat from which is received at a plant at which the classification of milk received from producers is to be determined pursuant to section 33, and all milk entering the marketing area in the form of milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, half and half, fluid cream products, or skim milk, shall be classified in accordance with the form in which it is held at, or moved from, the plant at which classification is determined. Such classification shall be subject to the conditions set forth in sections 31 through 35.

SEC. 31. *Burden of proof.* In establishing the classification of milk received from producers, the burden rests upon the handler who received the milk from producers to show that the milk should not be classified as Class I–A, and that the skim milk in Class II and Class III milk should not be subject to the fluid skim differential. The burden rests upon the handler who receives in the marketing area or at a pool plant, or distributes in the marketing area, milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, half and half, fluid cream products, or fluid skim milk to establish the source of all of his milk and milk products, and in the absence of such proof such milk and the milk equivalent of such enumerated products shall be subject to the provisions of section 79.

SEC. 32. *Period for establishing classification.* A period ending with the last day of the month following the month during which the milk was received from dairy farmers shall be allowed for handling such milk as a basis for establishing the classification as other than Class I–A: *Provided*, That the holding of milk in the form of cream in a licensed cold

storage warehouse for at least 7 days shall constitute that portion of the handling of such cream required pursuant to section 37 (e) (2) that is required to be performed during the month following its receipt from dairy farmers.

SEC. 33. *Plant at which classification is to be determined.* Classification shall be determined at the plant at which milk is received from dairy farmers: *Provided,* That if such milk is shipped in the form of milk or cream to another plant or other plants, it shall be classified, subject to the provisions of paragraphs (a) through (e) of this section, at the plant or plants to which it is shipped, and there shall be no limit on the number of interplant movements in the form of milk or cream except as set forth in paragraphs (a) through (e) of this section: *Provided further,* That for the purpose of applying subsections (a), (b) and (c) of this section, "marketing area" means the marketing area under this order or the marketing area under the New York order.

(a) The classification of milk shipped in the form of milk to a plant in the marketing area shall be determined at the plant from which such milk is shipped to the plant in the marketing area.

(b) Except as set forth in paragraph (c) of this section, the classification of milk the butterfat from which is shipped in the form of cream to a plant in the marketing area shall be determined at the plant from which such cream is shipped to the plant in the marketing area.

(c) The classification of milk the butterfat from which is shipped in the form of cream to a plant in the marketing area shall be determined, if such cream is moved in the form of frozen desserts or homogenized mixtures, whipped topping mixtures, or cream cheese either from the plant at which cream is first received in the marketing area or from the first plant to which cream is shipped from the plant where first received in the marketing area, at the first plant from which the frozen desserts or homogenized mixtures, whipped topping mixtures, or cream cheese are so moved.

(d) Except as set forth in paragraph (e) of this section, the classification of milk the butterfat from which is shipped in the form of cream to a non-pool plant shall be determined at the non-pool plant, unless the handler operating the pool plant from which such shipments are made to the non-pool plant elects in writing on his monthly reports to have classification of all milk or cream received during the month at such handler's pool plant and shipped as milk or cream to the non-pool plant determined at the pool plant from which the milk or cream is shipped to the non-pool plant: *Provided,* That non-pool plant for the purpose of applying this subsection shall be limited to plants which are not pool plants under either this order or the New York order.

(e) The classification of milk the butterfat from which is shipped in the form of cream more than 65 miles from the plant where the milk was separated to a plant outside Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York State, Ohio, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, or the District of Columbia shall be determined at the plant from which cream is so shipped.

SEC. 34. *Plant loss.* Allowances for plant loss not to exceed 5 percent of the butterfat in the product resulting from any specific plant operation, which plant loss may be classified the same as the milk equivalent of the butterfat in the product, shall be determined by the market administrator pursuant to section 36.

SEC. 35. *Accounting procedure.* The accounting procedure for classifying milk pursuant to sections 30 through 37 and in section 42 shall be set up by the market administrator pursuant to section 36. Such accounting procedure shall include methods of making determinations under section 42 and individual determinations made in accordance with such methods and conversion factors to be used in the absence of specfic weights and tests, specific definitions of products, and such methods for assignment of milk to classes according to source and form as may be necessary to effectuate the provisions of sections 30 through 37 and which are not inconsistent with the following general principles:

(a) Milk, concentrated fluid milk, fluid milk products, cream, half and half, fluid cream products, and skim milk received from pool plants or from producers shall be assigned, as far as possible, to Class I-A, Class II, or to skim milk subject to the fluid skim milk differential: *Provided,* That at a plant in the marketing area milk received directly from producers by tank truck shall be assigned to Class I-A prior to the assignment of milk from other plants to Class I-A.

(b) After the assignments prescribed in paragraph (a) of this section, the remaining whole milk received at a plant from producers or from pool plants and in like form from dairy farmers not producers or from non-pool plants shall be assigned pro rata to the total classification of all milk on hand at or leaving such plant as whole milk: *Provided,* That fluid milk shipped from a pool plant to a non-pool plant in the area in which I–C classification is permitted, and when milk from such non-pool plant is shipped in the same month either directly or indirectly to an area where I–B classification applies, and there used for fluid purposes, such shipment shall be assigned as far as possible to Class I–B.

(c) After the assignments prescribed in paragraphs (a) and (b) of this section, the then remaining milk or cream received from producers or from pool plants and the milk or cream received from dairy farmers not producers or from non-pool plants shall be assigned pro rata to the total remaining classification of such products received in like form.

(d) After the assignment of skim milk prescribed in paragraph (a) of this section, skim milk received from non-pool plants shall be assigned to the remaining skim milk subject to the fluid skim differential.

(e) The milk received from producers which is eliminated from the computation of the handler's net pool obligation pursuant to Sec. 60 shall be assigned pro rata to the total classification of all milk from producers and pool plants.

SEC. 36. *Rules and regulations.* The rules and regulations to effectuate the terms and provisions of sections 30 through 37 and in section 42 shall be made, and may from time to time be amended by the market administrator in accordance with the procedure set forth in this section: *Provided,* That at any time upon a determination by the Secretary that an emergency exists which requires the immediate adoption of rules and regulations, the market administrator may issue, with the approval of the Secretary, temporary rules and regulations without regard to the following procedure: *Provided further,* That if any interested person makes written request for the issuance, amendment, or repeal of any rule, the market administrator shall within 30 days either issue notice of meeting pursuant to paragraph (a) of this section or deny such request, and except in affirming a prior denial, or where the denial is self-explanatory, shall state the grounds for such denial.

(a) All proposed rules and regulations and amendments thereto shall be the subject of a meeting called by the market administrator, at which time all interested persons shall have opportunity to be heard. Notice of such meeting shall be given by the market administrator, and a copy of the proposed rules and regulations shall be sent at least five days prior to the date of the meeting to all handlers operating pool plants. A stenographic record shall be made at all such meetings and such record shall be public information available for inspection at the office of the market administrator. All such meetings shall be conducted jointly with the administrator of the New York order and handlers under this order and the New York order shall be considered interested parties.

(b) A period of at least five days after the meeting held pursuant to paragraph (a) of this section shall be allowed for the filing of briefs. Such briefs shall be public information available for inspection at the office of the market administrator.

(c) Not later than 30 days after a meeting held pursuant to paragraph (a) of this section, the market administrator shall issue and send to all handlers operating pool plants the tentative rules and regulations or amendments thereto relating to the issues considered at such meetings, or a tentative notice that no rules or regulations or amendments thereto are to be issued prior to further consideration at another meeting. The tentative rules and regulations, or tentative notice, together with copies of the stenographic record and briefs, shall also at the same time be forwarded by the market administrator to the Secretary. The tentative rules and regulations shall, in substance, be the same as issued by the New York market administrator.

(d) Not later than 30 days after issuance by the market administrator, the Secretary shall either approve the tentative rules and regulations or tentative notice as issued, or direct the market administrator to reconsider. In which latter event, the market administrator shall within 30 days either issue revised tentative rules and regulations or tentative notice, or call another meeting pursuant to paragraph (a) of this section.

(e) The tentative rules and regulations and amendments thereto or tentative notice issued pursuant to paragraph (c) of this section shall be effective as of the first of the month following approval by the Secretary, but not sooner than ten days after issuance by the market administrator.

SEC. 37. *Classes of utilization.* Subject to all of the conditions set forth in sections 30 through 36, milk shall be classified at the plant at which classification is to be determined as follows:

(a) Class I–A milk shall be all milk, except as provided in paragraphs (b) and (c) of this section and in subparagraphs (3) and (5) of paragraph (e) of this section, the butterfat from which leaves or is on hand at the plant in the form of milk, concentrated fluid milk, fluid milk products, or as cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and all milk the classification of which is not established in some other class named in this section.

(b) Class I–B milk shall be all milk, except as provided in subparagraphs (3) and (5) of paragraph (e) of this section, the butterfat from which leaves the plant in the form of milk, concentrated fluid milk, fluid milk products, or of cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and which is delivered to a plant or a purchaser outside of the state of New York and outside of Northern New Jersey, but which at no time (1) is received, other than directly from the producers, at a plant in the marketing area of this order or the marketing area of the New York order or (2) otherwise enters such marketing areas, except as an incident to its transportation and delivery to a point outside of the marketing area: *Provided,* That use aboard a ship or other carrier shall not constitute such delivery.

(c) Class I–C milk shall be all milk, except as provided in subparagraphs (3) and (5) of paragraph (e) of this section, the butterfat from which leaves the plant in the form of milk, concentrated fluid milk, fluid milk products, or as cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and which is delivered to a plant or a purchaser in the state of New York or Northern New Jersey, but which at no time (1) is received, other than directly from producers, at a plant in the marketing area of this order or the marketing area of the New York order or (2) otherwise enters such marketing areas, except as an incident to its transportation and delivery to a point outside of the marketing area: *Provided,* That use aboard a ship or other carrier shall not constitute such delivery.

(d) Class II milk shall be all milk the butterfat from which leaves or is on hand at the plant in the form of cream, sweet or sour, half and half, fluid cream products, or in the form of cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent of butterfat, which is delivered to a plant or a purchaser in the marketing area of the New York order, unless such cream, half and half, fluid cream products, or cultured or flavored milk drinks are established to have been so handled or marketed as to classify such milk in some other class named in this section.

(e) Class III milk shall be all milk which meets the conditions set forth in any one of the following subparagraphs:

(1) All milk the butterfat from which leaves or is on hand at the plant in the form of cream, sweet or sour, fluid cream products or in the form of cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent of butterfat which is delivered to a plant or a purchaser in the marketing area, unless such cream, fluid cream products, or cultured or flavored milk drinks are established to have been so handled or marketed as to classify such milk in some other class named in this section.

(2) All milk the butterfat from which leaves or is on hand at the plant in the form of cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent of butterfat or in the form of cream, half and half, or fluid cream products which cream, half and half, fluid cream products, or cultured or flavored milk drinks is delivered to a plant or a purchaser outside the marketing area, but which at no time (1) is received at a plant in the marketing area, or (2) otherwise enters the marketing area except as an incident to its transportation and delivery to a point outside of the marketing area: *Provided,* That use aboard a ship or other carrier shall not constitute such delivery.

(3) All milk the butterfat from which leaves or is on hand at the plant in the form of cream which is subsequently held in a licensed cold storage warehouse for at least 28 days, and which is subject at all times until utilization of such cream to being inspected by a representative of the market administrator to determine the physical presence of the cream. After the first 7 days, such cream may be moved from one licensed cold storage warehouse to another: *Provided,* That the market administrator receives notice of such removal within 7 days thereafter. Any handler whose report claimed the original classification of milk pursuant to this subparagraph shall be liable under the provisions of section 75 for the difference between the Class II and Class III prices for the month in which the Class III classification was claimed on any such milk if the storage of cream does not comply with all the requirements of this subparagraph.

(4) All milk the butterfat from which leaves the plant in the form of products named in paragraphs (a), (b) (c), or (d) of this section if such products have been sterilized and leave the plant in hermetically sealed containers.

(5) All milk received during the months of March through July the butterfat from which leaves the plant in the form of milk which is delivered in bulk to an establishment outside the marketing area (other than a plant as defined in section 8), at which food products are processed and packed in hermetically sealed containers and at which establishment there is no disposition of milk or milk products specified in paragraphs (a), (b), (c), or (d) of this section other than milk or milk products received in consumer packages for consumption on the premises.

(6) All milk the butterfat from which leaves or is on hand at the plant in the form of concentrated fluid milk which is established not to have been packaged in consumer packages either before or after leaving the plant.

(7) All milk the butterfat from which leaves or is on hand at the plant in the form of some product the classification of which is not established in some other class named in this section.

MINIMUM PRICES

SEC. 40. *Class prices.* For milk received during each month from producers or cooperative associations of producers, each handler shall pay per hundredweight not less than the prices set forth in this section, subject to the differentials and adjustments in sections 41 through 44. Any handler who purchases or receives, during any month, milk from a cooperative association of producers which is also a handler shall, on or before the 15th day of the following month, pay such cooperative association in full for such milk at not less than the minimum class prices applicable pursuant to this section, subject to the differentials and adjustments in sections 41 through 44.

(a) For Class I–A milk the price during each month shall be the New Jersey-New York basic Class I-A price per hundredweight determined for each month pursuant to section 47.

(b) For Class I–B milk the price during each month shall be the price for Class I-A milk.

(c) For Class I–C milk the price shall be the uniform price computed by the market administrator pursuant to § 927.61 plus 20 cents per hundredweight.

(d) For Class II milk the price during each month shall be the sum of the amounts computed to subparagraphs (1) and (2) of this paragraph.

| U. S. Grade A or U. S. 92-score butter, wholesale, at New York, average price announced pursuant to sec. 46 (a) (4) for the period ending on the 24th of the preceding month (cents per pound) | Class II price | |
|---|---|---|
| | March through July | August through February |
| | *Dollars per hundredweight* | *Dollars per hundredweight* |
| Under 21.5 | 1.35 | 1.50 |
| 21.5 or over, but under 25.0 | 1.50 | 1.65 |
| 25.0 or over, but under 28.5 | 1.65 | 1.80 |
| 28.5 or over, but under 32.0 | 1.80 | 1.95 |
| 32.0 or over, but under 35.5 | 1.95 | 2.10 |
| 35.5 or over, but under 39.0 | 2.10 | 2.25 |
| 39.0 or over, but under 42.5 | 2.25 | 2.40 |
| 42.5 or over, but under 46.0 | 2.40 | 2.55 |
| 46.0 or over, but under 49.5 | 2.55 | 2.70 |
| 49.5 or over, but under 53.0 | 2.70 | 2.85 |
| 53.0 or over, but under 56.5 | 2.85 | 3.00 |
| 56.5 or over, but under 60.0 | 3.00 | 3.15 |
| 60.0 or over, but under 63.5 | 3.15 | 3.30 |
| 63.5 or over, but under 67.0 | 3.30 | 3.45 |
| 67.0 or over, but under 70.5 | 3.45 | 3.60 |
| 70.5 or over, but under 74.0 | 3.60 | 3.75 |
| 74.0 or over, but under 77.5 | 3.75 | 3.90 |
| 77.5 or over, but under 81.0 | 3.90 | 4.05 |

Should the average butter price set forth above be 81.0 cents or more, the Class II price shall be the price which would result from further extension of this table at the same rate to cover such average butter price.

(2) Multiply by 7.5 the average of all the rot roller process dry skim milk or nonfat dry milk solids quotations for "other brands, human consumption, carlots, bags, or barrels" (using midpoint of any range as one quotation), published for the delivery period in "The Producers' Price-Current," and subtract 48 cents.

(e) For Class III milk, the price shall be the sum of the amounts computed pursuant to subparagraphs (1) and (2) of this paragraph minus 80 cents: *Provided*, That for the months of May and June 1954 an additional 10 cents shall be subtracted from such sum.

(1) To the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) reported during such month by the United States Department of Agriculture for Grade A (92-score) bulk creamery butter in the New York City market, add two cents, multiply by 1.22, and then multiply by 3.5: *Provided*, That for any of the months from August through February for which the utilization adjustment percentage announced pursuant to section 46 (a) (2) is 92 or larger, there shall be an additional three cents added to such average butter price.

(2) Multiply by 7.8 the weighted average, as computed by the market administrator using a weight of 70 for roller process prices and a weight of 30 for spray process prices, of the prices per pound of roller process and spray process nonfat dry milk solids, for human consumption in carlots, f. o. b. manufacturing plants in the Chicago area, as published by the United States Department of Agriculture for the period from the 26th day of the immediately preceding month through the 25th day of the current month.

SEC. 41. *Butterfat differentials.* The minimum price for Class I–A, Class I–B, and Class I–C milk shall be plus or minus four cents for each one-tenth of 1 percent of butterfat therein above or below 3.5 percent. The minimum price for Class II and Class III milk shall be plus or minus, for each one-tenth of 1 percent of butterfat therein above or below 3.5 percent, an amount computed as follows: subtract from the respective class prices an amount pursuant to section 40 (d) (2), and divide by 35.

SEC. 42. *Transportation differentials.* The Market Administrator shall determine and publicly announce a freight zone for each pool plant and each reloading point and he shall determine the freight zone for each plant at which milk or milk products, subject to the provisions of sections 78 or 79 is received from dairy farmers or is first found. Such freight zone shall be based on the shortest highway mileage usable throughout the year for milk transportation from the plant or reloading point to the New York-New Jersey state line in the Lincoln Tunnel. The freight zone for producers delivering to bulk tank trucks which is reloaded into another tank truck before entering a plant shall be at the point of reloading. The freight zone for producers delivering milk to bulk tank trucks which is not so reloaded shall be the freight zone of the pool plant to which milk is delivered. The class prices set forth in section 40 and the fluid skim differential set forth in section 44 shall be plus or minus and the payments to producers under section 66 shall be plus or minus the respective amount set forth in the following schedule:

| A | B | C | D |
|---|---|---|---|
| Freight zone (miles) | Classes IA, IB, IC and skim milk subject to the fluid skim differential | Classes II and III | Producer payment |
| | *Cents per hundredweight* | *Cents per hundredweight* | *Cents per hundredweight* |
| 1–10 | 23.8 | 10 | 23.8 |
| 11–20 | 23.8 | 10 | 23.8 |
| 21–25 | 23.8 | 10 | 23.8 |
| 26–30 | 23.8 | 10 | 23.8 |
| 31–40 | 23.8 | 10 | 23.8 |
| 41–50 | 22.4 | 10 | 22.4 |
| 51–60 | 21.0 | 8 | 21.0 |
| 61–70 | 19.6 | 8 | 19.6 |
| 71–75 | 18.2 | 8 | 18.2 |
| 76–80 | 17.5 | 6 | 17.5 |
| 81–90 | 16.8 | 6 | 16.8 |
| 91–100 | 15.4 | 6 | 15.4 |
| 101–110 | 14.0 | 4 | 14.0 |
| 111–120 | 12.6 | 4 | 12.6 |
| 121–125 | 11.2 | 4 | 11.2 |
| 126–130 | 10.5 | 3 | 10.5 |
| 131–140 | 9.8 | 3 | 9.8 |
| 141–150 | 8.4 | 3 | 8.4 |
| 151–160 | 7.0 | 2 | 7.0 |
| 161–170 | 5.6 | 2 | 5.6 |
| 171–175 | 4.2 | 2 | 4.2 |
| 176–180 | 3.5 | 1 | 3.5 |
| 181–190 | 2.8 | 1 | 2.8 |
| 191–200 | 1.4 | 1 | 1.4 |
| 201–210 | 0.0 | 0 | 0.0 |
| 211–220 | −1.4 | 0 | −1.0 |
| 221–225 | −2.1 | 0 | −1.0 |

| 491 and over | −15.6 | −11 | −14.0 |

SEC. 43. *Butter-cheese adjustment.* For milk received from producers which is classified as Class III pursuant to section 37 (e) (6), and which leaves or is on hand at the plant at which classification is determined in the form of butter or Cheddar, American Cheddar, Colby, washed curd, or part skim Cheddar cheese, or is assigned to plant loss which pursuant to section 34 is associated with such products, there shall be credited to the handler receiving the milk from producers four cents per pound of butterfat in such milk: *Provided*, That the amount so credited shall be reduced one cent per pound of butterfat for each one-tenth by which the ratio of 2.5 exceeds a ratio computed as follows: Add to the New York 92-score butter price for the month announced pursuant to section 46 (b) (5) the amount obtained by multiplying by 1.83 the weighted nonfat dry milk solids price for the period ending with the 25th day of the month as announced pursuant to section 46 (b) (7); divide this sum by the price of Cheddar cheese for the month as announced pursuant to section 46 (b) (8) and round the result to the nearest tenth: *Provided further*, That for milk received from producers during any of the months of March through July which is classified on the basis of one of the types of cheese named in this section, the amount so credited shall be increased one cent per pound of butterfat for each full five hundredths by which the ratio of 2.5 is lower than the ratio computed pursuant to the first proviso of this section, except that, for purposes of this proviso, the ratio computed shall be rounded to the nearest hundredth: *Provided further*, That for such milk received from producers at a plant in a freight zone farther from New York City than the 321–325 mile zone, there shall be deducted from the amount so credited the following amounts per hundredweight of milk:

| Zones of plant: | *Cents per hundredweight* |
|---|---|
| 326–350 | 1 |
| 351–375 | 2 |
| 376–400 | 3 |
| 401–425 | 4 |
| 426–450 | 5 |
| 451–475 | 6 |
| 476–500 | 7 |

With respect to each plant at which milk received from producers is reported by the handler operating the plant to have been utilized (either at the plant where received or at another plant), in an amount exceeding an average of 4,000 pounds per day in the manufacture of butter or of Cheddar, American Cheddar, Colby, washed curd, or part skim Cheddar cheese, the market administrator shall publicly disclose (a) the location of the plant at which the milk was received from producers, and (b) the name of the handler operating such plant. Such public disclosure shall be made monthly on the basis of handlers' monthly reports, and may be made more frequently on the basis of such other utilization reports as may be required by the market administrator.

SEC. 44 *Fluid skim differential.* For skim milk derived from Class II or Class III milk which skim milk enters the marketing area in the form of milk, fluid skim milk, half and half, cream, or cultured milk drinks and there utilized or disposed of in the form of milk, fluid skim milk, half and half, or cultured milk drinks, and for all other skim milk derived from Class II or Class III milk which is not established to have been otherwise utilized or disposed of, the handler shall pay a fluid skim differential per hundredweight computed as follows: Deduct the price of Class III milk from which the butterfat was used in the manufacture of butter and priced in accordance with the preceding section from the price for Class I–A milk computed pursuant to section 40 (a), and divide by 0.9125: *Provided*, That with respect to skim milk so utilized or disposed of in half and half, this differential shall apply only to that quantity of skim milk in excess of 4.5 times the quantity of butterfat in such half and half.

SEC. 45. *Use of equivalent price or index.* If for any reason a price or index specified in sections 40 through 46 for use in computing and announcing class prices or for any other purpose is not reported or published in the manner therein described, the market administrator shall use a price or index determined by the Secretary to be equivalent to or comparable with the price or index specified.

SEC. 46. *Announcement of prices.* The market administrator shall publicly announce the following:

(a) Not later than the 25th day of each month, or the next succeeding workday in any month in which the 25th day is a Sunday or holiday:

(1) The monthly wholsale price index for all commodities in the preceding month as reported on a 1947–1949 base by the Bureau of Labor Statistics, United States Department of Labor, and the resulting index determined pursuant to § 927.40 (a) (1) multiplied by 100.

(2) The utilization adjustment percentage computed pursuant to section 47 for the following month.

(3) The preliminary Class I–A price computed pursuant to section 47 for the following month.

(4) The average, for the period beginning with the 25th of the immediately preceding month and ending with the 24th of the current month of the highest prices reported daily by the United States Department of Agriculture for U. S. Grade A or U. S. 92-score butter at wholesale in the New York market.

(5) The preliminary calculation for the following month pursuant to section 40 (d) (1).

(6) The index of the cost of production for the preceding month computed by the market administrator as follows:

(i) Combine the index numbers for the States of New York, Pennsylvania, and Vermont with weights of 84 for New York, 13 for Pennsylvania, and 3 for Vermont. The index numbers of cost of production for New York shall be index numbers computed by the New York State College of Agriculture at Cornell University (1910–14 base), converted to a 1948 base.

(ii) The index numbers of cost of production for Pennsylvania shall be computed by combining the index (using a base of 54 cents and a weight of 50) of hourly composite wage rates, reported for Pennsylvania by the United States Department of Agriculture; the index (using a base of $4.53 and a weight of 30) of all purchases of mixed dairy feeds, reported for Pennsylvania by the United States Department of Agriculture; and the index (using a base of $23.31 and a weight of 20) of prices received by farmers for all hay, baled per ton, reported for Pennsylvania by the United States Department of Agriculture.

(iii) The index numbers of cost of production for Vermont shall be computed by combining the index (using a base of 69 cents and a weight of 50) of hourly composite wage rates, reported for Vermont by the United States Department of Agriculture; the index (using a base of $4.63 and a weight of 30) of all purchases of mixed dairy feeds, reported for Vermont by the United States Department of Agriculture; and the index (using a base of $25.42 and a weight of 20) of prices received by farmers for all hay, baled per ton, reported for Vermont by the United States Department of Agriculture.

(7) The index computed by dividing the Class I–A formula price, prior to the seasonal adjustment, for the following month by $5.66.

(8) Other statistics relating to economic conditions affecting the market supply and demand for milk.

(b) Not later than the 5th day of each month for the preceding month:

(1) The minimum class prices pursuant to section 40.

(2) The butterfat differentials pursuant to section 41.

(3) The butter and cheese adjustment pursuant to section 43.

(4) The fluid skim differential pursuant to section 44.

(5) The simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) reported by the United States Department of Agriculture for Grade A or 92-score bulk creamery butter in New York City.

(6) The average of the prices (using midpoint of any range as one quotation) reported daily in "The Producers' Price-Current," for hot roller process dry skim milk or nonfat dry milk solids "other brands, human consumption, carlots, bags, or barrels."

(7) The respective averages of the carlot prices per pound of spray process and of roller process nonfat dry milk solids for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the second preceding month through the 25th day of the preceding month by the United States Department of Agriculture, and the weighted average of such two averages using a weight of 70 for roller prices and a weight of 30 for spray prices.

(8) The average selling prices per pound reported by the United States Department of Agriculture for Wisconsin State Brand Cheddars, cars or truckloads, f. o. b. Wisconsin assembly points.

(9) The average of prices paid in the preceding month by 18 mid-western condenseries as reported by the United States Department of Agriculture.

SEC. 47. *New Jersey-New York basic Class I–A price formula.* The New Jersey-New York basic Class I–A price per hundredweight of milk containing 3.5 percent butterfat shall be a price computed pursuant to paragraphs (a) through (k) of this section:

(a) Divide (with the result expressed to three decimal places) the monthly wholesale price index for all commodities in the second preceding month as reported on a 1947–1949 base by the Bureau of Labor Statistics, United States Department of Labor, by the average of the monthly indexes reported on the same base for the year 1948.

(b) Multiply the base price of $5.66 by the result determined pursuant to paragraph (a) of this section. Express the result to the nearest cent.

(c) For each month during the 3 year period ending with the second preceding month, calculate to one decimal place the percentage that the total volume of milk in Classes I–A, I–B, and I–C under this order, and under the New York order was of the total volume of reported receipts from producers and from unrevealed sources under both of such orders (these percentages to be referred to as utilization percentages): *Provided, however*, That in using the above formula for the first thirty-nine months after the effective date of this subpart, the figures used in such computation for any period of time previous to the effective date of this subpart shall be figures derived from the operation of the New York order except that the figure computed in accordance with this section for each of the three months previous to the effective date of any federal order regulating the handling of milk in the North Jersey marketing area shall have added to it the respective percentage point from the following list:

| | | | |
|---|---|---|---|
| January | 4.2 | July | 3.8 |
| February | 4.5 | August | 3.2 |
| March | 4.9 | September | 3.7 |
| April | 5.0 | October | 2.7 |
| May | 4.8 | November | 2.6 |
| June | 4.9 | December | 3.1 |

(d) Calculate the average of the 36 monthly utilization percentages for the 3 year period ending with the second preceding month.

(e) Calculate the average of the 6 utilization percentages for the second and third preceding months and for the same months of the 2 preceding years.

(f) Divide the result determined pursuant to paragraph (e) of this section by the result determined pursuant to paragraph (d) of this section expressing the result to three decimal places.

(g) Calculate the average of the 2 utilization percentages in the second and third preceding months.

(h) Divide the result determined pursuant to paragraph (g) of this section by the result determined pursuant to paragraph (f) of this section. Express the result to one decimal place and add 100.

(i) Calculate a utilization adjustment percentage by subtracting the base utilization percentages of 63.6 from the result determined pursuant to paragraph (h) of this section.

(j) Multiply the result determined pursuant to paragraph (b) of this section by the utilization adjustment percentage determined pursuant to paragraph (i) of this section.

(k) Multiply the result determined pursuant to paragraph (j) of this section by the following seasonal adjustment factor for the month for which the Class I–A price is being determined:

| | | | |
|---|---|---|---|
| January | 1.05 | July | 0.95 |
| February | 1.03 | August | 1.00 |
| March | 1.00 | September | 1.04 |
| April | 0.94 | October | 1.07 |
| May | 0.88 | November | 1.09 |
| June | 0.88 | December | 1.07 |

(l) Whenever any of the following conditions exist for 3 consecutive months,

the Secretary shall call a public hearing promptly to consider those and other economic conditions, or promptly announce his determination that such a hearing should not be held, together with reasons for such determination;

(1) There is a difference of more than 6 points for each of 3 consecutive months between the index of the cost of production announced pursuant to section 46 (a) (6) and the index of wholesale prices (1948 base) announced pursuant to section 46 (a) (7).

(2) There is a difference of more than 15 points for each of 3 consecutive months between 90 percent of the index of the cost of production announced pursuant to section 46 (a) (6) and the index of the Class I–A price announced pursuant to section 46 (a) (7).

(3) The Class I–A price for each of 3 consecutive months is less than $1.00 higher than the condensery price announced pursuant to section 46 (a) (8) for such months or more than $2.50 higher than such condensery price.

REPORTS OF HANDLERS

SEC. 50. *Monthly reports.* On or before the 10th day of each month, each handler shall report to the market administrator, for the preceding month, in the manner and on forms prescribed by the market administrator, with respect to milk or milk products received at each of his pool plants, and at each of his plants where milk or milk products subjected to payments under sections 78 and 79 were handled, the following:

(a) The total quantity of milk and of each milk product with the average butterfat content thereof, received from dairy farmers, from other plants, from such handler's own farm, from other handlers, and from other sources;

(b) The total quantity of milk and of each milk product moved out of, or on hand at, such plant, the average butterfat content thereof, and the destination of any milk or milk product the classification of which wholly or partially depends upon its destination, moved out of such plant;

(c) The disposition of milk or milk products at each other plant at which the disposition of any milk or milk products is claimed as the basis of classification;

(d) The computation pursuant to section 60 of such handler's net pool obligation; and

(e) The computation of the amount of any payments pursuant to sections 78 and 79.

(f) The amount of milk to be paid for to producers at the Class III price pursuant to the fourth and fifth provisos of section 65.

SEC. 51. *Producer payroll reports.* Each handler shall report with respect to producers as follows:

(a) On or before the 10th day after the end of each month, the information required by the market administrator with respect to producer additions, producer withdrawals, and changes in names of farm operators; and

(b) On or before the last day of each month, such handler's producer payroll for the preceding month, which shall show for each producer:

(1) The total delivery of milk with the average butterfat test thereof,

(2) The amount of payment due such producer,

(3) Any deductions and charges made by the handler,

(4) The net amount of payment to such producer made pursuant to sections 65 through 67, and

(5) Such other information with respect thereto as the market administrator may require.

SEC. 52. *Storage cream reports.* (a) On or before the last day of the period for establishing classification pursuant to section 32, or, if earlier, not later than 15 days prior to the date of final removal of the cream from storage, each handler who separates milk the cream from which is stored as a basis for Class III classification pursuant to section 37 (e) (2) shall report to the market administrator on forms prescribed by the market administrator information with respect to the storage of cream. Failure to make such report shall result in the disallowance of Class III classification pursuant to section 37 (e) (2).

(b) The handler who made such reports shall report to the market administrator, not later than the end of the second month following the month during which frozen cream is utilized, information with respect to the utilization of such cream. Failure to make such reports shall result in the disallowance of storage cream payments pursuant to section 77 (b).

(c) With respect to notices of transfer of cream filed pursuant to section 37 (e) (2) and with respect to storage cream reports filed pursuant to this section, a receipt form acknowledging receipt of such notice or report shall be mailed by the market administrator to the handler within 48 hours after such notice or report is received by the market administrator.

SEC. 53. *Other reports.* At such time as the market administrator may request, each handler shall report to the market administrator in the manner and on forms prescribed by the market administrator:

(a) The total quantity of milk and of each milk product received at his non-pool plants, with the average butterfat content thereof, from dairy farmers, from other plants, from such handler's own farm, from other handlers, and from other sources;

(b) The total quantity of milk and of each milk product moved out of, or on hand at, his non-pool plants, the average butterfat content thereof, and the destination of any milk or milk product moved out of such plants;

(c) Information concerning land, buildings, surrounding, facilities, and equipment at any of his plants;

(d) The current receipts and utilization of milk at each of his pool plants; and

(e) Such other information as may be necessary for the administration of the provisions of this subpart.

SEC. 54. *Verification of reports and payments.* The market administrator shall promptly verify all reports and payments of each handler by audit of such handler's records and of the records of any handler or person upon whose disposition of milk such handler claims classification, and each such handler shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities, of his own or other persons, as will enable the market administrator to:

(a) Verify the receipts and disposition of all milk required to be reported pursuant to sections 50 through 53, and, in case of errors or omissions, ascertain the correct figures;

(b) Weigh, sample, and test for butterfat content the milk received from producers and any product of milk upon which classification depends;

(c) Verify the payments to producers prescribed in sections 65 through 67; and

(d) Verify all claims for payments pursuant to sections 76 and 77.

(e) Make inspection of buildings and their surroundings, facilities, and equipment for verification purposes and to ascertain what constitutes a plant: *Provided,* That in making verification pursuant to all paragraphs of this section, in case such verification depends on audit of records of handlers under the New York order, the market administrator may rely on audits made by the administrator of the New York order in lieu of audit under this section.

SEC. 55. *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

SEC. 56. *Base rating plan.* The base milk of each producer, for the purpose of computing the uniform price in section 61 and determining rates of payments to producers in section 65 shall be determined by the market administrator, starting with the first year this subpart has been in effect since the previous August 1, in accordance with the following rules:

(a) *Daily base.* Each producer's daily base to be applied in March, April, May and June shall, except as provided in (d) of this section, be his deliveries of milk to a handler during the previous year in the months of August, September, October and November divided by 122, expressed to the nearest pound. The respective handler shall calculate each daily base and notify producers, or in the case of a cooperative association qualified under section 65, shall notify the cooperative association of the daily bases not later than 45 days after the end of the base making period.

(b) *Base milk.* During each of the months of March, April, May and June, the base milk of each producer shall be his deliveries of milk to a handler up to the quantity obtained by multiplying his daily base by the number of days in the month: *Provided,* That upon request in writing to the market administrator made not later than December 31, if a producer does not deliver milk during part of the base making period because of extreme hardship in production conditions on his farm beyond his control, his daily base shall be determined by dividing his total deliveries of milk during the base making period by the number of days on which deliveries were made except that such number of days shall not be less than 30.

(c) *Excess milk.* Excess milk shall be all milk delivered by producers to handlers in excess of deliveries of base milk.

(d) *Transfer of daily bases.* A daily base of a producer determined under paragraph (a) of this section shall be considered attached to the producer, the farm and the herd of cows involved in producing such base, but may be transferred by the market administrator, upon request by such producer, made in writing not later than 15 days prior to the desired date of such transfer, under the following conditions:

(1) If the producer moves his herd to another farm his daily base may be used on such other farm.

(2) If the producer moves to another farm without the herd of cows which made the daily base, the base remains with the farm.

(3) If the producer sells or otherwise disposes of his farm or leases or rents it, together with the herd of cows which produced the daily base, the base may only be transferred to such other operator of the farm and herd.

DETERMINATION OF UNIFORM PRICE

SEC. 60. *Net pool obligation of handlers.* Milk received from handler's own farm up to 1000 pounds per day if the handler receives no milk from other producers or plants, shall not be included in the determination of the uniform price, and such milk shall be deemed excluded by the phrase "milk received from producers" as such phrase is used in this section and in sections 43, 61, 74, 76, 77 and 80.

(a) Determine the classification pursuant to sections 30 through 37 of milk received from producers at each pool plant;

(b) Subject to adjustment for appropriate differentials pursuant to sections 41 and 42, multiply the Class I–C milk by 20 cents per hundredweight, multiply the remaining milk in each class by the class price, multiply the skim milk subject to the fluid skim differential by the fluid skim differential per hundredweight, add together the resulting values;

(c) Deduct, in the case of each plant where the average butterfat content of all milk received from producers is in excess of 3.5 percent, and add, in the case of each plant where the butterfat content of all milk received from producers is less than 3.5 percent, the total value of the butterfat differential applicable pursuant to section 67;

(d) Deduct, in the case of each plant nearer the midpoint of the Lincoln Tunnel than the 201–210 mile zone, and add, in the case of each plant farther from the mid-point of the Lincoln Tunnel than the 201–210 mile zone, the sum obtained by multiplying the milk received from producers by the zone differential set forth in column C of the schedule in section 42 applicable to the plant;

(e) Deduct the total amount of the butter-cheese adjustment computed pursuant to section 43;

(f) With respect to milk received from producers, deduct 10 cents per hundredweight at plants located at Honesdale, Milanville, and Lookout, Pennsylvania; 20 cents per hundredweight at plants in the marketing area and at plants located at Accord, Ellenville, Gardiner, Kyserike, New Paltz, Phinney's Crossing, Wallkill, and West Coxsackie, New York, and in the following counties:

New Jersey: Burlington, Hunterdon, Morris, Passaic, Somerset, Sussex, Warren.
New York: Columbia.
Connecticut: Litchfield.
Massachusetts: Berkshire.

*Provided,* That with regard to the payments specified in this section, no producer shall be entitled to such payments if the milk house on his farm is located outside the above specified counties and if such milk house is nearer to a pool plant outside such counties than it is to a pool plant within such counties or to one of the plants individually named in such subdivisions.

(g) Add together the handler's net pool obligation for all plants at which milk was received from producers.

SEC. 61. *Computation of the uniform price.* The market administrator shall, on or before the 14th day of each month, audit for mathematical correctness and obvious errors the report submitted for the preceding month by each handler. If the unreserved cash balance in the producer settlement fund to be included in the computation is less than two cents per hundredweight of milk received from producers on all reports, the report of any handler who has not made payment of the last monthly pool debit account rendered pursuant to section 71 shall not be included in the computation of the uniform price. The report of such handler shall not be included in the computation for succeeding months until he has made full payment of outstanding monthly pool debits. Subject to the aforementioned conditions, the market administrator of this order and the market administrator of the New York order, shall jointly compute the uniform price in the following manner:

(a) Combine into one total the net pool obligations of all handlers under this order and the New York order;

(b) Subtract the total of payments required to be made for such month by section 76 and § 927.76 of the New York order;

(c) Add to the total payments required to be made by handlers for such month pursuant to sections 78 and 79 and the New York order;

(d) Add the amount of unreserved cash in the producer settlement fund;

(e) Subtract an amount equal to not less than eight cents nor more than nine cents per hundredweight of milk received from producers to provide against the contingency of errors in reports and payments or of delinquencies in payments by handlers; under this order and the New York order;

(f) Subtract the amounts payable to producers under the fourth and fifth provisos of section 65 and the New York order;

(g) Subtract the amount of milk on which the payments were made to producers under the fourth and fifth provisos of section 65 and the New York order;

(h) Subtract the Class I–C milk of all handlers whose reports are included in this computation from the total milk received from producers by all such handlers under this order and the New York order; and

(i) Divide the result obtained in paragraph (f) of this section by the result obtained in paragraph (h) of this section. The result shall be known as the uniform price for milk containing 3.5 percent butterfat received from producers at plants in the 201–210 mile zone.

SEC. 62. *Announcement of uniform price and weighted average butterfat differential.* The market administrator shall announce, not later than the 14th day of each month, the uniform price computed pursuant to section 61 and, not later than the 5th day of each month, the weighted average butterfat differential pursuant to section 67.

PAYMENT BY HANDLERS DIRECTLY TO PRODUCERS

SEC. 65. *Time and rate of payments.* On or before the 25th day of each month each handler shall make payment to each producer for all milk delivered by such producer during the preceding month at not less than the uniform price subject to differentials set forth in sections 66 and 67: *Provided,* That each handler which is also a cooperative marketing association determined by the Secretary to be qualified under the Capper-Volstead Act may, with respect to producers who are members of and under contract with such association, make distribution, in accordance with the contract between the association and such members, of the net proceeds of all its sales in all markets in all use classifications. Whenever verification by the market administrator of the payment to any producer or cooperative association of producers for milk delivered to any handler discloses payment of less than is required by this subpart, the handler shall make up such payment to the producer or cooperative association of producers not later than the time of making payment next following such disclosure: *Provided further,* That if a handler claims that he cannot make the required payment because the producer is deceased or cannot be lo-

cated, or because the cooperative association or its lawful successor or assignee is no longer in existence, such payment shall be made to the producer settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make such payment from the producer settlement fund to the handler or to the lawful claimant as the case may be: *Provided further*, That if not later than the date when such payment is required to be made, legal proceedings have been instituted by the handler for the purpose of administrative or judicial review of the market administrator's findings upon verification as provided above, such payment shall be made to the producer settlement fund and shall be held in reserve until such time as the above-mentioned proceedings have been completed, or until the handler submits proof to the market administrator that the required payment has been made to the producer or association of producers, in which latter event the payment shall be refunded to the handler: *Provided further*, That in paying producers for milk for each of the months of March through June, the amount of excess milk delivered by each producer defined in accordance with section 56 shall be paid for at the Class III price, subject to the same differentials as provided in sections 66 and 67: *Provided further*, That in paying any producer who did not regularly sell milk during a period of thirty days next preceding the effective date of this subpart for consumption in the marketing area covered hereby, payments to such producer, for the period beginning with the first regular delivery by such producer and continuing until the end of two full calendar months following the first day of the next succeeding calendar month shall be at the price set forth in section 40 (c) less the largest adjustment set forth in section 43.

SEC. 66. *Transportation and location differentials.* The uniform price at any plant shall be:

(a) Plus or minus the differential shown in column D of the schedule contained in section 42 for the zone of the plant in effect pursuant to section 42; and

(b) Plus the differentials, if any, applicable pursuant to § 927.60 (f) plus five cents.

SEC. 67. *Butterfat differential.* The uniform price shall be plus or minus, as the case may be, for each one-tenth of 1 percent above or below 3.5 percent of average butterfat content of milk delivered by any producer during any month, an amount equivalent to the average of the butterfat differentials determined pursuant to section 41, for each class weighted by the pounds of butterfat in the milk in each such class used in the computation of the uniform price for the preceding month. Such differential shall be computed to the nearest even tenth of a cent.

SEC. 68. *Direct delivery differential.* The uniform price for milk delivered by producers to any plant within the mileage zones hereinafter specified and from which milk is delivered either to stores or consumers or both without passing through any other plant shall be plus the respective amount set forth for each of such zones:

| Mileage zone (miles): | Direct delivery differential (cents per hundredweight) |
|---|---|
| 1–10 | 15 |
| 11–20 | 13½ |
| 21–30 | 12 |
| 31–40 | 10½ |
| 41–50 | 9 |
| 51–60 | 7½ |
| 61–70 | 6 |
| 71–80 | 4½ |
| 81–90 | 3 |
| 91–100 | 1½ |

PRODUCER SETTLEMENT FUND AND ITS OPERATION

SEC. 70. *Producer settlement fund.* The market administrator of this order shall, and the market administrator of the New York order, shall jointly establish and maintain a separate fund known as "the producer settlement fund" into which they shall deposit all payments and out of which they shall make all payments pursuant to sections 72 through 79 and the New York order.

SEC. 71. *Handlers' accounts.* The market administrator shall establish an account for each handler who is required to make payments to the producer settlement fund or who received payments from the producer settlement fund. After computing the uniform price and each handler's pool debit or credit each month, and at such times as he deems appropriate, the market administrator shall render each handler a statement of his account showing the debit or credit balance, together with all debits or credits entered on such handler's account since the previous statement was rendered.

SEC. 72. *Payment to the producer settlement fund.* On or before the 18th day of each month each handler shall make full payment of the debit balance, if any, of such handler shown on the last statement of account rendered pursuant to section 71.

SEC. 73. *Payments out of producer settlement fund.* On or before the 20th day of each month the market administrators of this subpart and the New York order shall jointly make payment to each handler under this subpart and the New York order of the credit balance, if any, of such handler shown on the last statement of account rendered pursuant to section 71 or § 927.71 of the New York order. If, at any such time, the balance in the producer settlement fund is insufficient to make full payment due to each handler, the market administrator shall reduce uniformly the payments to each handler and shall complete such payments as soon as the necessary funds are available. No handler who, on the 25th day of the month, has not received such payments in full from the market administrator shall be deemed to be in violation of sections 65 through 67 if he reduces his total payments to producers for milk delivered by such producers during the preceding month by not more than the amount of the reduction in payment from the producer settlement fund.

SEC. 74. *Handlers' pool debit or credit.* After computing the uniform price for each month, the market administrator shall compute each handler's pool debit or pool credit as follows:

(a) Add to each handler's net pool obligations the value of his Class I-C milk at the uniform price.

(b) Multiply the quantity of milk received by each handler from producers by the uniform price.

(c) If the result obtained in paragraph (b) of this section is less than the result in paragraph (a) of this section, the difference shall be entered on the handler's producer settlement fund account as such handler's pool debit.

(d) If the result obtained in paragraph (b) of this section is greater than the result in paragraph (a) of this section, the difference shall be entered on the handler's producer settlement fund account as such handler's pool credit.

SEC. 75. *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to or from the producer settlement fund, the market administrator shall debit the handler's producer settlement fund account for any unpaid amount. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall credit the handler's producer settlement fund account for any such amount.

SEC. 76. *Cooperative payments for market-wide services.* Payments shall be made to qualified cooperatives or to federations under the conditions, in the manner, and at the rates set forth in this section.

(a) *Definitions.* As used in this section the following terms shall have the following meanings:

(1) "Cooperative" means a cooperative association of producers which is duly incorporated under the cooperative corporation laws of a State; is qualified under the Capper-Volstead Act (7 U. S. C. 291 et seq.); has all its activities under the control of its members; and has full authority in the sale of its members' milk.

(2) "Federation" means a federation of cooperatives.

(3) "Federated cooperative" means a cooperative which is a member of a federation and on whose membership the federation is an applicant for or receives payments under subparagraph (2) of paragraph (f) of this section.

(4) "Member" means, when used with respect to a member of a cooperative or of a federated cooperative, only a member who is also a producer, as defined in section 6 or § 927.6 of the N. Y. Order.

(b) *Qualified cooperatives and federations.* A cooperative or federation may submit an application to the market administrator for payments under the provisions of this section. In accordance with the requirements of the rules and regulations issued by the market administrator, any such application shall include a written description of the applicant's program for the performance of market-wide services, including evidence that adequate facilities and personnel will be maintained by it so as to enable it to perform the market-wide services; and the application shall contain a statement by the applicant that it will perform the required market-wide services for which it is applying for payments. The application shall set forth all necessary data so as to enable the market administrator to determine whether it meets the qualification requirements with respect to the payments for which the application is submitted. For the purpose of meeting the minimum membership requirements of 4,000 and 6,000 specified in this paragraph, members shall include the members who are producers as defined in section 76 and section 76 of the New York order. An application shall be approved by the market administrator only if he determines that:

(1) In the case of a cooperative:

(i) It has not less than 4,000 members and receives from its members not less than 1 cent per hundredweight of milk delivered by them: *Provided*, That no person shall be counted in this respect as a member if he is a member of another cooperative which is an applicant for or which receives cooperative payments, or if he is a member of a federated cooperative.

(ii) If the application is also for an additional payment under subparagraph (3) of paragraph (f) of this section, it has not less than 6,000 members and receives from its members not less than 1 cent per hundredweight of milk delivered by them, subject to the proviso in subdivision (i) of this subparagraph.

(iii) If the application is also for an additional payment under subparagraph (4) of paragraph (f) of this section, the cooperative is an operating cooperative which operates marketing facilities, i. e., pool plant(s), at which it receives at least 25 per centum, by weight, of the milk marketed by its members: *Provided*, That in determining whether the 25 per centum minimum requirement is complied with, there shall be excluded the milk delivered by a member of the cooperative who is a member of another cooperative which is an applicant for or which receives cooperative payments on the same milk or which is a federated cooperative in a federation which is an applicant for or receiving cooperative payments on the same milk.

(2) In the case of a federation:

(i) It is duly incorporated under the laws of a State.

(ii) It has contracts with each of its federated cooperatives under which the cooperatives agree to remain in the federation for at least one year, and such contracts cover or will be renewed for a yearly period for every subsequent year for which the federated cooperatives are to be included within the membership of the federation for cooperative payment purposes.

(iii) Its federated cooperatives have an aggregate of not less than 4,000 members and the federated cooperatives receive from their members not less than 1 cent per hundredweight of milk delivered by them; and its federated cooperatives will pay to the federation, when required by rules and regulations issued by the market administrator, the minimum monthly payment specified in the rules and regulations to finance the activities of the federation that are not market-wide in character: *Provided*, That no person shall be counted in this respect as a member if he is a member of a cooperative which is an applicant for or which receives cooperative payments, or if he is a member of another federated cooperative.

(iv) If the application is also for an additional payment under subparagraph (3) of paragraph (f) of this section, the aggregate membership of the federated cooperatives is not less than 6,000 members and the federated cooperatives receive from their members not less than 1 cent per hundredweight of milk delivered by their members, subject to the proviso in subdivision (iii) of this subparagraph.

(v) If the application is also for an additional payment unedr subparagraph (5) of paragraph (f) of this section, the federation operates marketing facilities, i. e., pool plant(s), or the federated cooperatives operate marketing facilities, at which is received at least 25 per centum, by weight, of the milk marketed by the members of the federated cooperatives: *Provided*, That in determining whether the 25 per centum minimum requirement is complied with, there shall be excluded the milk delivered by members of a cooperative which is an applicant for or which receives cooperative payments on the same milk, or which is a federated cooperative in another federation which is an applicant for or receiving cooperative payments on the same milk, or which is not meeting the requirements of this section applicable to it.

(3) The applicant cooperative or federation demonstrates that it has the ability to perform the market-wide services for which application is made, and that such services will be performed.

(4) The applicant cooperative or the federated cooperatives of an applicant federation are in no way precluded from arranging for the utilization of milk under their respective control so as to yield the highest available net return to all producers without displacing an equivalent quantity of other producer milk in the preferred classification.

(c) *Notice of qualification or denial; effective date.* Upon determination by the market administrator that a cooperative or a federation is qualified to receive payment for performance of the market-wide services, he shall transmit such determination to the applicant cooperative or federation and publicly announce the issuance of the determination. The determination shall be effective with respect to milk delivered on and after the first day of the month following issuance of the determination. If, after consideration of an application for payments for market-wide services, the market administrator determines that the cooperative or federation is not qualified to receive such payments, he shall promptly notify the applicant and specifically set forth in such notice his reasons for denial of the application.

(d) *Requirements for continued qualification.* From time to time and in accordance with rules and regulations which may be issued by the market administrator, each qualified cooperative or federation must demonstrate to the market administrator that it continues to meet the qualification requirements for the payments and is fully performing the market-wide services for which it is being paid.

(e) *Market-wide services.* Each cooperative or federation shall perform the market-wide services enumerated in this paragraph. Such services are: (1) Analyzing milk marketing problems and their solutions, conducting market research and maintaining current information as to all market developments, preparing and assembling statistical data relative to prices and marketing conditions, and making an economic analysis of all such data; (2) determining the need for the formulation of amendments to the order and proposing such amendments or requesting other appropriate action by the Secretary or the market administrator in the light of changing conditions; (3) participating in proceedings with respect to amendments to the order, including the preparation and presentation of evidence at public hearings, the submission of appropriate briefs and exceptions, and also participating, by voting or otherwise, in the referenda relative to amendments; (4) participating in the meetings called by the market administrator, such as meetings with respect to rules and regulations issued under the order, including activities such as the preparation and presentation of data at such meetings and briefs for submission thereafter; (5) conducting a comprehensive education program among producers—i. e., members and non-members of cooperatives—and keeping such producers well informed for participation in the activities under the regulatory order and, as a part of such program, issuing publications that contain relevant data and information about the order and its operation, and the distribution of such publications to members and, on the same subscription basis, to non-members who request it, and holding meetings at which members and non-members may attend; and (6) in the case of a cooperative or federation which receives an additional payment under subparagraph (4) or (5) of paragraph (f) of this section, operating marketing facilities, or having within its membership federated cooperatives operating marketing facilities, i. e., pool plant(s), at which is received at least 25 per centum, by weight, of the milk marketed by all the members of the cooperative or by all the members of the federated cooperatives' members.

(f) *Rate, computation, time, and method of payment.* (1) Subject to the provisions of paragraph (g) of this section, the market administrator, on or before the 25th day of each month, shall make payment out of the producer settlement fund, or issue equivalent credit therefor, to each cooperative or federation which is qualified for such payments for market-wide services. The payment to a cooperative shall be based upon the

milk reported by cooperative or proprietary handlers to have been received during the preceding month from its members, and the payment to a federation shall be based upon the milk reported by cooperative or proprietary handlers to have been received during the preceding month from the members of its federated cooperatives, subject in both instances to adjustment upon verification by the market administrator.

(2) Such payment or credit shall be at the rate of 2 cents per hundredweight of milk in accordance with subparagraph (1) of this paragraph: *Provided*, That in computing payment to a cooperative, there shall be excluded all of the milk of its members who belong to another cooperative which is an applicant for or which receives cooperative payments on the same milk or which is a federated cooperative in a federation which is an applicant for or receiving cooperative payments on the same milk: *Provided further*, That in computing payment to a federation there shall be excluded all of the milk of members of a cooperative which is an applicant for or which receives cooperative payments on the same milk, or which is a federated cooperative in another federation which is an applicant for or receiving cooperative payments on the same milk, or which is not meeting the requirements of this section applicable to it.

(3) Any cooperative that has at least 6,000 members and any federation which has an aggregate membership of its federated cooperatives of at least 6,000 members shall receive a payment, in addition to the payment provided for in subparagraph (2) of this paragraph, of 1 cent per hundredweight of milk in accordance with subparagraph (1) of this paragraph and subject to the provisos contained in subparagraph (2) of this paragraph.

(4) Any cooperative that operates marketing facilities, i. e., pool plant(s) at which is received at least 25 per centum, by weight, of the milk marketed by its members shall receive a payment, in addition to the payment provided for in subparagraph (2) or (3) of this paragraph of 1 cent per hundredweight of all milk marketed by its members in accordance with subparagraph (1) of this paragraph: *Provided*, That in computing the payment under this subparagraph there shall be excluded the milk delivered by a member of the cooperative who is a member of another cooperative which is an applicant for or which receives cooperative payments on the same milk or which is a federated cooperative in a federation which is an applicant for or receiving cooperative payments on the same milk.

(5) Any federation that operates marketing facilities, i. e., pool plant(s), or whose members include one or more federated cooperatives that operate marketing facilities, at which is received at least 25 per centum, by weight, of the milk marketed by the members of its federated cooperatives shall receive a payment, in addition to the payment provided for in subparagraph (2) or (3) of this paragraph, of 1 cent per hundredweight of all milk marketed by such members in accordance with subparagraph (1) of this paragraph: *Provided*, That in computing the payment under this subparagraph there shall be excluded the milk delivered by members of a cooperative which is an applicant for or which receives cooperative payments on the same milk, or which is a federated cooperative in another federation which is an applicant for or receiving cooperative payments on the same milk, or which is not meeting the requirements of this section applicable to it.

(6) If an individually qualified cooperative is affiliated with a federation, the cooperative payment shall be made to such cooperative unless its contract with the federation specifies in writing that the federation is to receive the payments. Any such contract must authorize the federation to receive the payments for at least one year and such agreement must cover or be renewed for a yearly period for every subsequent year for which the federation is to receive the payments.

(g) *Disqualification.* (1) The market administrator shall issue an order wholly or partly disqualifying a previously qualified cooperative or federation for payments authorized pursuant to this section and such payments shall not thereafter be made to it if he determines that:

(i) The cooperative or federation no longer complies with the requirements of this section: *Provided*, That in the case of the federation if one of its federated cooperatives has failed to comply with the requirements of this section applicable to it or has failed, promptly after demand by the market administrator, to arrange for the utilization of milk under its control so as to yield the highest available net return to all producers without displacing an equivalent quantity of other producer milk in the preferred classification; the federation shall be disqualified only to the extent that its qualification for payments or the amount of its payments are based upon the membership, milk, or operations of such non-complying federated cooperatives;

(ii) The cooperative or federation has failed to make reports or furnish records pursuant to this section or pursuant to rules and regulations issued by the market administrator; or

(iii) In the case of the cooperative, it has failed, promptly after demand by the market administrator, to arrange for the utilization of milk under its control so as to yield the highest available net return to all producers without displacing an equivalent quantity of other producer milk in the preferred classification.

(2) An order of the market administrator wholly or partly disqualifying a cooperative or federation shall not be issued until after the cooperative or federation has had opportunity for hearing thereon following not less than 15 days' notice to it specifying the reasons for the proposed disqualifications. If the cooperative or federation fails to file a written request for hearing with the market administrator within such period of 15 days the market administrator may issue an order of disqualification without further notice; but if within such period a request for hearing is filed, the market administrator shall promptly proceed to hold such hearing pursuant to rules and regulations issued by him under paragraph (i) of this section.

(3) A disqualification order issued by the market administrator shall set forth the findings and conclusions on the basis of which it is issued.

(h) *Appeals*—(1) *From denials of application.* Any cooperative or federation whose application for qualification has been denied by the market administrator may, within 30 days after notice of such denial, file with the Secretary a written petition for review. But the failure to file such petition shall not bar the cooperative or federation from again applying to the market administrator for qualification.

(2) *From disqualification orders.* A disqualification order by the market administrator shall become final 30 days after its service on the cooperative or federation unless within such 30-day period the cooperative or federation files a written petition with the Secretary for review thereof. If such petition for review is filed, payments for which the cooperative or federation has been disqualified by the order shall be held in reserve by the market administrator pending ruling of the Secretary, after which the sums so held in reserve shall either be returned to the producer settlement fund or paid over to the cooperative or federation depending on the Secretary's ruling on the petition. If such petition for review is not filed, any payments which otherwise would be made within the 30-day period following issuance of the disqualification order shall be held in reserve until such order becomes final and shall then be returned to the producer settlement fund.

(3) *Record on appeal.* If an appeal is taken under subparagraph (1) or (2) of this paragraph, the market administrator shall promptly certify to the Secretary the ruling or order appealed from and the evidence upon which it was issued: *Provided*, That if a hearing was held the complete record thereof, including the applications, petitions, and all exhibits or other documentary material submitted in evidence shall be the record so certified. Such certified material shall constitute the sole record upon which the appeal shall be decided by the Secretary.

(i) *Regulations.* The market administrator is authorized to issue regulations and amendments thereto to effectuate the provisions of this section and to facilitate and implement the administration of its provisions. Such regulations shall be issued in accordance with the following procedure:

(1) All proposed rules and regulations and amendments thereto shall be the subject of a meeting called by the market administrator, at which all interested persons shall have opportunity to be heard. Not less than five days prior to the meeting, notice thereof and of the proposed regulations or amendments shall be published in the FEDERAL REGISTER and mailed to qualified cooperatives and federations. A stenographic record shall be made at such meetings which shall be public information and be available for inspection at the office of the market administrator.

(2) A period of at least five days after the meeting shall be allowed for the filing of briefs.

(3) All regulations and amendments thereto issued by the market administrator pursuant to this section must be submitted in tentative form to the Secretary for approval, shall not be effective without such approval, and shall be published in the FEDERAL REGISTER following such approval. The regulations or amendments in tentative form shall be forwarded also to cooperatives and federations qualified under this section and to other persons upon request in writing. The Secretary shall either approve the regulations or amendments thereto submitted by the market administrator or direct the market administrator to reconsider the tentative rules or amendments. In the event the market administrator is directed to give reconsideration to the matter, the market administrator shall either issue revised tentative regulations or amendments or call another meeting pursuant to this section for additional consideration of the rules or amendments.

(j) *Reports and records.* A qualified cooperative or federation and any federated cooperative in a qualified federation shall make such reports to the market administrator as may be requested by him for the administration of the provisions of this section, and shall maintain and make available to the market administrator or his representative such records as will enable the market administrator to verify such reports.

(k) *Notices, demands, orders, etc.* All notices, demands, orders, or other papers required by this section to be given to or served upon a cooperative or federation shall be deemed to have been given or served as of the time when mailed to the last known secretary of the cooperative or federation at his last known address.

SEC. 77. *Cream payments.* (a) For milk received from producers which is classified as Class III pursuant to section 37 (e) (2) the butterfat from which is subsequently assigned in accordance with the provisions of the rules and regulations issued by the market administrator pursuant to section 36 to sour cream, half and half, or reconstituted cream shipped to, received in, or distributed in the marketing area, or is not established to have been otherwise utilized, or to be still in storage, the handler required to file reports pursuant to section 52 shall pay to the producer settlement fund or be issued debits against balances due to such handler from the producer settlement fund an amount equal to 9 cents per pound of butterfat if the milk was separated in the months of March through July, and 10 cents per pound of butterfat if the milk was separated in the months of August through February.

(b) On the basis of reports pursuant to section 52 of the utilization of frozen cream and the market administrator's investigation and audit of such reports, the market administrator shall make payment out of the producer settlement fund to the handler filing such reports, or issue credit against balances due from such handler to the producer settlement fund, an amount equal to the butter-cheese adjustment on each pound of butterfat in such cream which was separated in the months of April through September from milk received from producers and was assigned, in accordance with the provisions of the rules and regulations issued by the market administrator pursuant to section 36, to butter in the months of January through March.

(c) With respect to Class II milk the butterfat from which is on hand at the plant in the form of cream, or having left the plant in the form of cream had not been delivered to a plant or purchaser by the end of the period for establishing classification, but subsequent to the end of the period for establishing classification such cream is so handled that it would have been classified at a plant outside the marketing area in Class III pursuant to section 37 (e) (1), (3), (5), or (6) had such handling occurred during the period for establishing classification, the handler who received the milk from producers may claim a refund by filing a report giving the facts with respect to such handling. On the basis of verification of such report, the market administrator shall make payment out of the producer settlement fund to such handler or issue credit against any balance due from such handler to the producer settlement fund in an amount equal to the difference between the Class II and Class III prices applicable for the month when the milk was received from producers.

SEC. 78. *Payments on milk received from dairy farmers at non-pool plants.* Payments shall be made by handlers to producers, through the producer settlement fund, for milk and milk products under conditions, in amounts, and by the handler pursuant to paragraphs (a) through (d) of this section: *Provided*, That for any month in which the volume of Class III milk used in the computation of the uniform price is less than 15 percent of the combined volume of the Class I–A and Class II milk used in such computation, the payments set forth in this section shall not be required: *And provided further*, That in the case of milk received by a handler under this subpart from a plant which is a pool plant under the New York order, the payments set forth in this section shall not be required.

(a) Payments shall be made for milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, half and half, fluid cream products, and skim milk, which milk or milk products meets each of the following conditions:

(1) It was derived from milk received at a non-pool plant from dairy farmers other than the plant operator.

(2) It was shipped to, received in, or distributed in the marketing area, or was received at a pool plant outside the marketing area.

(3) The milk or milk equivalent of the butterfat is classified as Class I–A or Class II, or the skim milk would be subject to the fluid skim differential if it were derived from pool milk.

(b) The amounts of payment for the products set forth in paragraph (a) of this section shall be as follows:

(1) If the milk or the milk equivalent of the butterfat, or the skim milk is classified and paid for under another order issued pursuant to the act, the amount of payment on such products, except skim milk, shall be any plus amount obtained by subtracting the value of the milk or the milk equivalent of the butterfat at the class price or prices under such order from the value computed in accordance with the classification and pricing set forth in this subpart: *Provided*, That the payment shall be at the rates set forth in subparagraph (2) of this paragraph if the other order permits the deduction of such payment from the amount otherwise due for such milk pursuant to such other order. The amount of payments on skim milk shall be an amount computed pursuant to section 44 adjusted for the location of the plant.

(2) If the milk or milk product is derived from milk received from dairy farmers at a non-pool plant in the 421–425 mile zone, or in some other zone nearer the marketing area, the handling of which is not regulated by an order issued pursuant to the act or is regulated by another order as specified in the proviso of subparagraph (1) of this paragraph, the amount of payment, except as otherwise specified in subparagraph (4) of this paragraph, shall be the differences between its classified value at the Class I–A or the Class II price, depending upon its classification, and its value at the Class III price, such class prices to be adjusted for butterfat test and the location of the plant at which the non-pool milk was originally received from farmers: *Provided*, That for concentrated fluid milk, cream, half and half, fluid cream products, and cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent butterfat, the payment shall be computed on the milk equivalent thereof as so classified. The amount of the payment on skim milk (either as skim milk, half and half, or in cultured milk drinks) shall be the amount computed pursuant to section 44 as similarly adjusted for location.

(3) If the milk or milk product is derived from milk received from dairy farmers at a non-pool plant farther from the marketing area than the 421–425 mile zone, the handling of which is not regulated by another order issued pursuant to the act, or is regulated by another order as specified in the proviso of subparagraph (1) of this paragraph, the amount of payments shall be the difference between the value of its milk equivalent at the Class I–A or Class II price, depending upon its classification, and the value of such milk at the midwestern condensery price announced pursuant to section 46 (b) (9), such class prices to be adjusted for the location of the plant at which the non-pool milk was originally received from dairy farmers: *Provided*, That for milk, fluid milk products, and cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent

of butterfat, the payment shall be the difference between the value of such milk or milk product at the Class I–A price for milk containing 3.5 percent butterfat, adjusted for location of the plant, and the condensery price. The amount of the payment on skim milk (either as skim milk, half and half, or in cultured milk drinks) shall be the amount computed pursuant to section 44 similarly adjusted for location.

(4) For any month in which the volume of milk subject to the butter-cheese adjustment used in the computation of the uniform price is more than 15 percent of the combined volume of the Class I–A and Class II milk used in such computation, the payment required by subparagraph (2) of this paragraph shall be increased by the value of the milk or milk equivalent at the rate of the butter-cheese adjustment at the plant where the milk was received from dairy farmers.

(5) In computing the milk equivalent value of milk or milk products as specified in this paragraph, such value shall be computed on the basis of milk containing 3.5 percent of butterfat.

(c) Payment for any milk or milk product pursuant to this section shall be made, on behalf of the handler receiving the milk from dairy farmers, by the appropriate handler as set forth in subparagraphs (1) through (3) of this paragraph: *Provided*, That if the milk is received from a handler under another order issued pursuant to the act, which order provides that the payment to the producer settlement fund may be deducted from the handler's obligation under the other order, the payment shall be made by the handler subject to the other order regardless of the provisions of subparagraphs (1) through (3) of this paragraph:

(1) By the handler first receiving the milk or milk product at a pool plant outside the marketing area.

(2) By the handler operating the plant where the milk or milk product is first received in the marketing area if the milk or milk product is not received at a pool plant outside the marketing area.

(3) By the handler operating the plant from which the milk or milk product was moved into the marketing area if such milk or milk product is neither received at a pool plant outside the marketing area nor at a plant in the marketing area.

(d) The amount due pursuant to this section shall be entered on the handler's account as a debit immediately after the filing of the report pursuant to section 50, or if the handler fails to file such report, such amount shall be entered on the handler's account in accordance with section 75.

SEC. 79. *Payments on milk or milk products the source of which is not established.* Payments shall be made by handlers to producers through the producer settlement fund, for milk and milk products under conditions, in amounts, and by the handler pursuant to paragraphs (a) through (d) of this section.

(a) Payments shall be made for milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, half and half, fluid cream products, and skim milk which milk or milk product meets each of the following conditions:

(1) It was derived from milk for which the farm source is not established.

(2) It was shipped to, received in, or distributed in the marketing area, or was received at a pool plant.

(3) If first found at a non-pool plant, the milk or milk equivalent of the butterfat is classified as Class I–A or Class II, or the skim milk is subject to the fluid differential.

(b) The amounts of payment for the product set forth in paragraph (a) of this section shall be as follows:

(1) For milk, concentrated fluid milk, fluid milk products, or cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, the value of such milk, fluid milk products, cultured or flavored milk drinks, or the milk equivalent of such concentrated fluid milk at the class price at the plant where first found.

(2) For cream, half and half, fluid cream products, or cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent of butterfat, the value of the milk equivalent of such product at a rate per hundredweight computed pursuant to section 40 (e) (1) adjusted by the differential set forth in column C in the table in section 42 for the zone of the plant at which first found.

(3) For skim milk in a form subject to the fluid skim milk differential, the value at a rate per hundredweight computed as follows: divide the amount computed pursuant to section 40 (e) (2) by 0.9125, add an amount computed pursuant to section 44, and adjust the result by the differential set forth in column B in the table in section 42 for the zone of the plant where first found.

(4) For skim milk in a form not subject to the fluid skim milk differential, the value at a rate per hundredweight computed as follows: divide the amount computed pursuant to section 40 (e) (2) by 0.9125.

(5) In computing the milk equivalent value of products as specified in this paragraph, such value shall be computed on the basis of milk containing 3.5 percent of butterfat.

(c) Payment for any milk or milk product pursuant to this section shall be made, on behalf of the handler receiving the milk from dairy farmers, by the appropriate handler as set forth in the subparagraphs (1) through (3) of this paragraph:

(1) By the handler first receiving the milk or milk product at a pool plant outside the marketing area.

(2) By the handler operating the plant where the milk or milk product is first received in the marketing area if the milk or milk product is not received at a pool plant outside the marketing area.

(3) By the handler operating the plant from which the milk or milk product was moved into the marketing area if such milk or milk product is neither received at a pool plant outside the marketing area nor at a plant in the marketing area.

(d) The amount due pursuant to this section shall be entered on the handler's account as a debit immediately after the filing of the report pursuant to section 50, or if the handler fails to file such report, such amount shall be entered on the handler's account in accordance with section 75.

EXPENSE OF ADMINISTRATION

SEC. 80. *Payment by handlers.* As his pro rata share of the expense of administration of this subpart, each handler shall, on or before the 18th day of each month, pay to the market administrator a sum not exceeding 4 cents per hundredweight on the total quantity of milk which was received from producers at plants operated by such handler, directly or at the instance of a cooperative association of producers, the exact amount to be determined by the market administrator subject to review by the Secretary. This section shall not be deemed to duplicate any similar payment by any handler under an order issued by (appropriate authorities of the State of New Jersey), with respect to the marketing area. Whenever verification by the market administrator discloses an error in the payment made by any handler, such error shall be adjusted not later than the date next following such disclosure on which payments are due pursuant to this section.

MISCELLANEOUS

SEC. 85. *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money irrespective of when such obligation arose, except an obligation involved in an action before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received (or with respect to storage cream payments pursuant to section 77 (b), two years after the end of the calendar month during which such cream is utilized) if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable periods of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

SEC. 86. *Continuing obligation of handlers.* Unless otherwise provided by the Secretary in any notice of amendment, termination, or suspension of any or all of the provisions of this subpart, such amendment, termination, or suspension shall not affect, waive, or terminate any right, duty, obligation, or liability which shall have risen or may thereafter arise in connection with any provision of this subpart; release or waive any violation of this subpart occurring prior to the effective date of such amendment, termination, or suspension; or affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

SEC. 87. *Continuing power and duty of market administrator.* The market administrator shall (a) continue in such capacity until discharged by the Secretary; (b) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, to such person as the Secretary shall direct; and (c) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator pursuant to this subpart.

SEC. 88. *Liquidation.* Upon the termination or suspension of this subpart, the market administrator shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such termination or suspension. Any funds collected for expenses pursuant to the provisions of this subpart over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator in liquidating the business of the market administrator's office shall be distributed by the market administrator to handlers in an equitable manner.

SEC. 89. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

SEC. 90. Whenever the Secretary calls a public hearing to consider amendments to this subpart he shall also simultaneously call a public hearing to consider the same amendments to the New York order or promptly announce his determination that such a hearing with respect to the New York order should not be held, together with reasons for such determination.

Terms and provisions of New York Order No. 27, as amended, including proposed amendments to coordinate with proposed Northern New Jersey order.

DEFINITIONS

§ 927.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

§ 927.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 927.3 *Marketing area.* "New York metropolitan milk marketing area" (hereinafter called the "marketing area") means all territory within the boundaries of the city of New York, the counties of Nassau, Rockland, Orange, Sullivan, Ulster, Dutchess, Putnam, Suffolk (except Fisher's Island), and Westchester, all in the state of New York together with all piers, docks, and wharves connected therewith and all craft moored thereat, and including territory within such boundaries which is occupied by government (Municipal, State, Federal, or International) reservations, installations, institutions, or other establishments.

§ 927.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 927.5 *Dairy farmer.* "Dairy farmer" means any person who produces milk.

§ 927.6 *Producer.* "Producer" means any dairy farmer whose milk is delivered direct from farm to a pool plant.

§ 927.7 *Handler.* "Handler" means (a) any person who engages in the handling of milk or products therefrom, which milk was received at a pool plant, or at a plant approved by any health authority as a source of milk for the marketing area, (b) any person who engages in the handling of milk, concentrated fluid milk, cultured or flavored milk drinks, cream, half and half, or skim milk, all or a portion of which is shipped to, or received in, the marketing area, or (c) any cooperative association of dairy farmers with respect to any milk which it causes to be delivered from dairy farmers to a pool plant of any other handler for the account of such association and for which such association receives payment.

§ 927.8 *Plant.* "Plant" means the land, building, surroundings, facilities, and equipment, or vehicle whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, and sampling and handling, or processing of milk or milk products as determined by the market administrator.

§ 927.9 *Pool plant.* "Pool plant" means any plant which is designated as a pool plant pursuant to sections 20, 22, 25 or 27 provided a vehicle shall not be designated as a "pool plant" unless operated by a person who is defined as a "handler" because of other operations.

§ 927.10 *Market administrator.* "Market administrator" means the agency, which is described in §§ 927.15 through 927.18, for the administration of this subpart.

§ 927.11 *Northern New Jersey.* "Northern New Jersey" means the following counties in the State of New Jersey:

| | |
|---|---|
| Hunterdon. | Passaic. |
| Middlesex. | Somerset. |
| Monmouth. | Sussex. |
| Morris. | Warren. |

or such parts thereof as are not in the North Jersey marketing area, defined under the federal order regulating the handling of milk in the Northern New Jersey Marketing Area.

§ 927.11 *North Jersey order.* "North Jersey order" means any order issued by the Secretary regulating the handling of milk in the Northern New Jersey marketing area.

MARKET ADMINISTRATOR

§ 927.15 *Selection, removal, and bond.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected and subject to removal by the Secretary. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.

§ 927.16 *Compensation.* The market administrator shall be entitled to such reasonable compensation as shall be determined by the Secretary.

§ 927.17 *Powers.* The market administrator shall have the following powers:

(a) To administer the terms and provisions of this subpart; including joint administration with the market administrator of the North Jersey order of §§ 927.35, 927.36, 927.47, 927.54, 927.61, 927.70 and 927.73 and sections 35, 36, 47,

54, 61, 70 and 73 of the North Jersey order;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 927.18 *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Keep such books and records as will clearly reflect the transactions provided for in this subpart;

(b) Submit his books and records to examination by the Secretary at any and all times;

(c) Furnish such information and such verified reports as the Secretary may request;

(d) Obtain a bond with reasonable security thereon covering each employee who handles funds entrusted to the market administrator;

(e) Publicly disclose, after reasonable notice, the name of any person who has not made reports pursuant to §§ 927.50, 927.51, and 927.53, or made payments required by §§ 927.65, 927.66, 927.67, 927.72, 927.75, 927.77, 927.78, 927.79, and 927.80;

(f) Prepare and disseminate for the benefit of producers, consumers, and handlers such statistics and information concerning the operation of this subpart, as amended, as do not reveal confidential information;

(g) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this subpart;

(h) Pay out of the funds received pursuant to § 927.80 the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties;

(i) Maintain a main office and such branch offices as may be necessary;

(j) Promptly notify a handler, upon receipt of the handler's written request therefor, of his determination: as to whether one or more plants exist at a specified location, as to whether any specified item constitutes a part of the handler's plant, or as to which plant a specified item is a part in the event that the particular premises in question constitutes more than one plant: *Provided,* That if the request of the handler is for revision or affirmation of a previous determination, there is set forth in the request a statement of what the handler believes to be the changed conditions which make a new determination necessary. If a handler has been notified in writing of a determination with respect to an establishment operated by him, any revision of such determination shall not be effective prior to the date on which such handler is notified of the revised determination; and

(k) Cooperate with the market administrator of the North Jersey order to achieve coordination of this order and the New York order and to effectuate the declared purposes of the act.

POOL PLANTS

§ 927.20 *Initial designation.* Any plant for which the report of milk received from dairy farmers was used in the computation of the uniform price for November 1955 and which was a pool plant by designation under §§ 927.20 through 927.26 of Order No. 27 is hereby designated as a pool plant until such designation is cancelled pursuant to sections 24 or 25. In addition any plant which had 80 percent of the milk it received in each of the preceding months of July, August, October, November and December used as fluid milk in the marketing area shall be so designated subject to the same cancellation. Applications shall be addressed to the Secretary and filed at the office of the market administrator.

§ 927.21 *Eligible applicants.* Any person who operates a plant which is either approved as a source of milk by a health authority in the marketing area at the time of application and under the sanitary supervision of such authority, or was a pool plant during the preceding October, November, and December, and which had 80 percent of the milk it received from producers in each of the preceding months of July, August, October, November and December classified as I–A by actual utilization, rather than assignment or selection of classification and without displacing other milk, may apply to the Secretary prior to January 1 of any year to have such a plant designated as a pool plant: *Provided,* That if 50 percent or more of the dairy farmers delivering milk at such plant deliver such milk for the account of a cooperative association which does not operate the plant but for which milk such association receives payment, an application must be made by such cooperative association as well as by the person operating the plant.

§ 927.22 *Designation upon application.* Any plant for which an application has been made pursuant to § 927.21 shall be designated as a pool plant upon determination by the Secretary that the requirements of § 927.23 are being met. Such designation shall be effective as of February 1 following the date of application and until cancelled pursuant to § 927.24. If, based upon the information contained in an application filed pursuant to § 927.21, the Secretary determines that the requirements of § 927.23 are not being met, the applicant or applicants shall be so notified. Within 15 days after receipt of such notice, the applicant or applicants may submit additional information and request further consideration. Prior to the issuance of the determination of the Secretary, an application may be withdrawn by written request of the applicant or applicants. In the event that no determination is made by the Secretary prior to February 1, the effective date of the designation, upon written request of the applicant or applicants prior to the issuance of a determination, shall be deferred until the first of the month following the date of such determination. If the application is not so withdrawn, or the effective date of designation is not so deferred, the plant shall be treated as a pool plant as of February 1: *Provided,* That all payments into or out of the producer settlement fund (except such payments which are made on the basis of operations during a month in which a plant meets the requirements of § 927.27) shall be held in reserve by the market administrator until a determination is made.

§ 927.23 *Requirements.* In order to qualify as a pool plant pursuant to §§ 927.20, 927.22, or 927.25, the person operating the plant shall meet each of the following requirements:

(a) Be willing to ship in the form of milk to the marketing area, milk received at the plant from dairy farmers;

(b) Keep such control over the sanitary conditions under which milk received at the plant is produced and handled, that the plant can meet the requirements of a source of milk for the marketing area: *Provided,* That approval by a health authority of the plant as a source of milk for the marketing area shall constitute sufficient evidence that this requirement is being met even though such approval is restricted to prohibit shipment to the marketing area of milk for specified periods during which permission is given by such health authority for receiving unapproved milk or skim milk at the plant or for shipment of approved skim milk from such plant; and

(c) Have no commitments for disposition of milk that prevent him from utilizing milk as set forth in § 927.24 (g).

(d) In the case of plants designated pursuant to § 927.22, such plants continue to ship 80 percent of the milk received at the plant each year in accordance with the classification requirements of § 927.21.

§ 927.24 *Suspension and cancellation of designation.* The designation of a pool plant pursuant to §§ 927.20, 927.22, or 927.25 may be suspended or cancelled under any of the following provisions:

(a) The designation shall be cancelled upon application to the market administrator by the handler operating the plant effective at any time but not sooner than 30 days after receipt of such application: *Provided,* That such application for cancellation shall be accompanied by proof that the handler, if not a cooperative association qualified pursuant to § 927.76, has notified any qualified cooperative association which has any members who deliver milk to such plant, and has notified individually all producers delivering to such plant who are not members of such qualified cooperative association, of his intention to make such application: *Provided further,* That if 50 percent or more of the producers delivering milk at such plant deliver such milk for the account of a cooperative association which does not operate the plant, but for which milk such association receives payment, an application must be made by such cooperative association as well as by the handler operating the plant.

(b) The designation of any plant which on December 15 of any year is not approved by a health authority as a source of milk for the marketing area shall be automatically cancelled effective on February 1 of such year unless the absence of such approval is a temporary condition covering a period of not more than 15 days: *Provided,* That the designation of a plant approved by a health authority as a source of milk for the marketing area, even though such approval is restricted to prohibit shipment to the marketing area of milk for specified periods during which permission is given by such health authority for receiving unapproved milk or skim milk at the plant or for shipment of approved skim milk from such plant, shall not be cancelled pursuant to this provision. This provision does not prevent a handler from applying pursuant to § 927.21 for a new designation effective on December 1 of the same year.

(c) The designation of any plant shall be suspended, effective no sooner than 10 days nor later than 20 days after the date of mailing of notice, by registered letter, to the handler, whenever the market administrator, subject to the limitations set forth in paragraph (g) of this section, finds on the basis of available information that the handler operating the plant is not meeting the requirements set forth in § 927.23: *Provided,* That if the handler operating the plant is not a cooperative association qualified pursuant to § 927.76, the market administrator shall also notify any qualified cooperative association which has any members who deliver milk to such plant, and shall notify individually all producers delivering to such plant who are not members of such qualified cooperative association, of such suspension of designation.

(d) In the case of the suspension pursuant to this section of the designation of one or more plants for failure to meet the requirements of § 927.23 (a) or (c), the handler operating such plant may select, prior to the effective date of such suspension, some other pool plant or plants to be substituted for the plant or plants suspended if, during the preceding month, the quantity of milk received from producers at such substituted plant or plants was not less than the quantity of milk received from producers at the suspended plant or plants. The handler may also select the order in which plant designations are to be cancelled in the event of a later determination by the Secretary cancelling the designation of some but not all of the plants suspended.

(e) Not later than 10 days after the effective date of suspension of designation pursuant to this section, the handler operating the plant may apply to the Secretary for a review. If the handler fails to so apply for such review, the designation of the plant as a pool plant shall be cancelled as of the effective date of the suspension. If the handler does so apply, the Secretary shall, after review, either determine that the requirements set forth in § 927.23 have been met and order the suspension revoked, or determine that such requirements have not been met and order the designation cancelled as of the effective date of the suspension: *Provided,* That, if the Secretary has made no determination within two months after the end of the month in which the suspension was made effective, but later orders the designation cancelled, such cancellation shall be effective as of the first of the month following the date of such determination.

(f) Beginning with the effective date of a suspension pursuant to this section, and until the Secretary has either ordered the designation cancelled or ordered the suspension revoked, the plant shall be treated as a pool plant: *Provided,* That all payments into or out of the producer settlement fund (except such payments on the basis of operations during a month in which the plant meets the requirements of § 927.27), shall be held in reserve by the market administrator until an order is issued by the Secretary, but not longer than two months after the end of the month in which the suspension was made effective.

(g) No pool plant designation shall be suspended for failure to meet the requirements of § 927.23 (a) except under the following conditions:

(1) A meeting has been held, no sooner than three days after notice by the market administrator to all handlers operating pool plants designated pursuant to §§ 927.20, 927.22, or 927.25, for consideration of the desirable utilization of milk received from producers during a period ending not later than the end of the second month after the month during which such meeting is held.

(2) There has been issued by the market administrator, following such meeting, and mailed to all handlers operating pool plants designated pursuant to §§ 927.20, 927.22, or 927.25 the market administrator's determination of the desirable utilization of milk received from producers each month during all or a part of the period set forth in subparagraph (1) of this paragraph. Such determination shall include a schedule setting forth, by months, the desired minimum percentage of milk received from producers to be utilized in specified classes. Such specified classes shall include Class I–A, and Class I–C to the extent of 50 percent of the milk received by a handler from producers which is ultimately distributed in the State of New York, in New Jersey, in Fairfield County, Connecticut, or in Pennsylvania outside the counties of Allegheny, Beaver, Fayette, Greene, Washington, and Westmoreland. In addition, such specified classes may include all or a part of Class II and other I–C.

(3) The market administrator finds on the basis of available information that the handler operating a plant or the cooperative reporting a plant is not utilizing milk received from producers in accordance with the minimum percentage set forth in the determination of the market administrator previously announced pursuant to subparagraph (2) of this paragraph: *Provided,* That the suspension of the pool plant designation of a plant may be made effective during the months of November and December if the market administrator finds that the handler is utilizing any milk received from producers in classes other than those set forth in the determination of the market administrator announced pursuant to subparagraph (2) of this paragraph.

(h) The cancellation of pool plant designations for failure to meet the requirements of § 927.23 (a) shall be subject to the following conditions:

(1) No pool plant designation shall be cancelled if the handler operating the plant utilized the milk received by him at all pool plants from producers during the month in which the suspension is made effective in accordance with the minimum percentage set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section.

(2) No pool plant designation shall be cancelled if the handler operating the plant utilized in the specified classes set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section a percentage of the total milk received by him at all pool plants from producers during the month in which the suspension is made effective which is not less than the percentage of the total milk reported by all handlers to have been received from producers during such month which was reported to have been used in the specified classes: *Provided,* That the limitation as to quantity and area set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section shall apply in computing the utilization percentage of the individual handler but shall not apply in computing the utilization percentage of all handlers.

(3) In the event that all milk received from producers at a plant is reported to the market administrator by a cooperative association qualified pursuant to § 927.76, and such association pays the producers for such milk, the pool plant designation of such plant shall not be cancelled if a percentage of all milk reported by such cooperative association is utilized in accordance with the minimum percentage set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section, or in accordance with the percentage set forth in subparagraph (2) of this paragraph.

(4) Cancellation of designations shall be limited to those plants necessary to result in a utilization of milk received at the remaining pool plants operated by the handler, or reported by the cooperative, as the case may be, in accordance with the minimum percentage set forth in the determination of the market administrator announced pursuant to paragraph (g) (2) of this section.

(i) Loss of approval by health authorities of a plant as a source of milk for the marketing area may in itself constitute adequate reason for the market administrator to suspend the designation of a plant for failure to meet the requirements of § 927.23 (b), only if the absence of such approval continues for more than 15 days.

§ 927.25 *Plant replacements.* A plant may be designated at any time as a pool plant upon application made by the per-

son operating the plant to the Secretary showing that the plant is a replacement for one or more pool plants designated pursuant to §§ 927.20, 927.22, or this section which are operated by him and that substantially all of the dairy farmers delivering milk at the plant previously delivered milk to the pool plant or plants replaced. Upon designation of a plant pursuant to this section, the designation of the plant or plants which is replaced shall be automatically cancelled.

§ 927.26 *Change of operator.* The designation of pool plants pursuant to §§ 927.20, 927.22, and 927.25 shall be considered as applicable to the plant as such, and subject to cancellation only pursuant to §§ 927.24 and 927.25, regardless of change in the person owning or operating the plant. The market administrator shall be notified, by the handlers involved, of any transfer from one person to another of ownership or operation of a pool plant.

§ 927.27 *Plants shipping Class I–A milk to the marketing area.* For any month a plant from which during such month Class I–A milk, either directly or through other plants, is sold or distributed in or shipped to the marketing area, which quantity of milk during the months of July through March, is equal to more than 25 percent of the milk received directly from dairy farmers, or during the months of April through June is equal to more than 10 percent of the milk received directly from dairy farmers, shall automatically be designated a pool plant: *Provided*, That for the months of April, May, or June no plant at which milk was received from dairy farmers during the preceding period of October, November, and December shall be a pool plant on this basis, unless at least 60 percent of such milk was classified in Class I–A, and either directly, or through other plants, was sold or distributed in or shipped to the marketing area in the form of milk: *Provided further*, That no plant shall be a pool plant on this basis during the months of January through July, if the designation of the plant as a pool plant was cancelled for failure to meet the requirements of § 927.23 (a) during the preceding year: *Provided further*, That this section shall not be in effect at any time later than twelve months after the effective date of this subpart unless and until the utilization of Class I–A milk under the subpart exceeds 75 percent of the milk included in the computation of the Producer Settlement Fund, in which event this section shall again be in effect starting with the second month following the month in which such classification condition occurs and continue in effect for eleven months thereafter. At the time of announcing the uniform price for each month, the market administrator shall make public the location and name of the operator of any plant for which a report of receipts from dairy farmers was used pursuant to this section in the computation of that uniform price.

§ 927.28 *Pool plant transfer.* Any plant designated as a pool plant under sections 20 and 22 of the North Jersey order may, prior to January 1, apply to the Secretary for transfer to this order provided the plant is approved as a source of milk by a health authority in the marketing area at the time of application and under the sanitary supervision of such authority and continues to meet the requirements set forth in section 23 applicable to such plant in accordance with its prior designation under section 20 or 22 of the North Jersey order, which ever applies. Such designation shall be effective as of February 1 following the date of application and until cancelled pursuant to section 24 or 25.

CLASSIFICATION

§ 927.30 *Basis of classification.* All milk the butterfat from which is received at a plant at which the classification of milk received from producers is to be determined pursuant to § 927.33, and all milk entering the marketing area in the form of milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, half and half, fluid cream products, or skim milk, shall be classified in accordance with the form in which it is held at, or moved from, the plant at which classification is determined. Such classification shall be subject to the conditions set forth in §§ 927.31 through 927.35.

§ 927.31 *Burden of proof.* In establishing the classification of milk received from producers, the burden rests upon the handler who received the milk from producers to show that the milk should not be classified as Class I-A, and that the skim milk in Class II and Class III milk should not be subject to the fluid skim differential. The burden rests upon the handler who receives in the marketing area or at a pool plant or distributes in the marketing area, milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, half and half, fluid cream products, or fluid skim milk to establish the source of all of his milk and milk products, and in the absence of such proof such milk and the milk equivalent of such enumerated products shall be subject to the provisions of § 927.79.

§ 927.32 *Period for establishing classification.* A period ending with the last day of the month following the month during which the milk was received from dairy farmers shall be allowed for handling such milk as a basis for establishing the classification as other than Class I–A: *Provided*, That the holding of milk in the form of cream in a licensed cold storage warehouse for at least 7 days shall constitute that portion of the handling of such cream required pursuant to § 927.37 (e) (2) that is required to be performed during the month following its receipt from dairy farmers.

§ 927.33 *Plant at which classification is to be determined.* Classification shall be determined at the plant at which milk is received from dairy farmers: *Provided*, That if such milk is shipped in the form of milk or cream to another plant or other plants, it shall be classified, subject to the provisions of paragraphs (a) through (e) of this section, at the plant or plants to which it is shipped, and there shall be no limit on the number of interplant movements in the form of milk or cream except as set forth in paragraphs (a) through (e) of this section: *Provided further*, That for the purpose of applying paragraphs (a), (b) and (c) of this section, "marketing area" means the marketing area under this order or the marketing area under the North Jersey order.

(a) The classification of milk shipped in the form of milk to a plant in the marketing area shall be determined at the plant from which such milk is shipped to the plant in the marketing area.

(b) Except as set forth in paragraph (c) of this section, the classification of milk the butterfat from which is shipped in the form of cream to a plant in the marketing area shall be determined at the plant from which such cream is shipped to the plant in the marketing area.

(c) The classification of milk the butterfat from which is shipped in the form of cream to a plant in the marketing area shall be determined, if such cream is moved in the form of frozen desserts or homogenized mixtures, whipped topping mixtures, or cream cheese either from the plant at which cream is first received in the marketing area or from the first plant to which cream is shipped from the plant where first received in the marketing area, at the first plant from which the frozen desserts or homogenized mixtures, whipped topping mixtures, or cream cheese are so moved.

(d) Except as set forth in paragraph (e) of this section, the classification of milk the butterfat from which is shipped in the form of cream to a non-pool plant shall be determined at the non-pool plant, unless the handler operating the pool plant from which such shipments are made to the non-pool plant elects in writing on his monthly reports to have classification of all milk or cream received during the month at such handler's pool plant and shipped as milk or cream to the non-pool plant determined at the pool plant from which the milk or cream is shipped to the non-pool plant: *Provided*, That non-pool plant for the purpose of applying this paragraph shall be limited to plants which are not pool plants under either this order or the North Jersey order.

(e) The classification of milk the butterfat from which is shipped in the form of cream more than 65 miles from the plant where the milk was separated to a plant outside Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York State, Ohio, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, or the District of Columbia shall be determined at the plant from which cream is so shipped.

§ 927.34 *Plant loss.* Allowances for plant loss not to exceed 5 percent of the butterfat in the product resulting from any specific plant operation, which plant loss may be classified the same as the milk equivalent of the butterfat in the product, shall be determined by the market administrator pursuant to § 927.36.

§ 927.35 *Accounting procedure.* The accounting procedure for classifying milk pursuant to §§ 927.30 through 927.37 and in § 927.42 shall be set up by the market administrator pursuant to § 927.36. Such accounting procedure shall include methods of making determinations under § 927.42 and individual determinations made in accordance with such methods and conversion factors to be used in the absence of specific weights and tests, specific definitions of products, and such methods for assignment of milk to classes according to source and form as may be necessary to effectuate the provisions of §§ 927.30 through 927.37 and which are not inconsistent with the following general principles:

(a) Milk, concentrated fluid milk, fluid milk products, cream, half and half, fluid cream products, and skim milk received from pool plants or from producers shall be assigned, as far as possible, to Class I–A, Class II, or to skim milk subject to the fluid skim milk differential: *Provided*, That at a plant in the marketing area milk received directly from producers by tank truck shall be assigned to Class I–A prior to the assignment of milk from other plants to Class I–A.

(b) After the assignments prescribed in paragraph (a) of this section, the remaining whole milk received at a plant from producers or from pool plants and in like form from dairy farmers not producers or from non-pool plants shall be assigned pro rata to the total classification of all milk on hand at or leaving such plant as whole milk: *Provided*, That fluid milk shipped from a pool plant to a non-pool plant in the area in which I–C classification is permitted, and when milk from such non-pool plant is shipped in the same month either directly or indirectly to an area where I–B classification applies, and there used for fluid purposes, such shipment shall be assigned as far as possible to Class I–B.

(c) After the assignments prescribed in paragraphs (a) and (b) of this section, the then remaining milk or cream received from producers or from pool plants and the milk or cream received from dairy farmers not producers or from non-pool plants shall be assigned pro rata to the total remaining classification of such products received in like form.

(d) After the assignment of skim milk prescribed in paragraph (a) of this section, skim milk received from non-pool plants shall be assigned to the remaining skim milk subject to the fluid skim differential.

(e) The milk received from producers which is eliminated from the computation of the handler's net pool obligation pursuant to § 927.60 shall be assigned pro rata to the total classification of all milk from producers and pool plants.

§ 927.36 *Rules and regulations.* The rules and regulations to effectuate the terms and provisions of §§ 927.30 through 927.37 and in § 927.42 shall be made, and may from time to time be amended by the market administrator in accordance with the procedure set forth in this section: *Provided*, That at any time upon a determination by the Secretary that an emergency exists which requires the immediate adoption of rules and regulations, the market administrator may issue, with the approval of the Secretary, temporary rules and regulations without regard to the following procedure: *Provided further*, That if any interested person makes written request for the issuance, amendment, or repeal of any rule, the market administrator shall within 30 days either issue notice of meeting pursuant to paragraph (a) of this section or deny such request, and except in affirming a prior denial, or where the denial is self-explanatory, shall state the grounds for such denial.

(a) All proposed rules and regulations and amendments thereto shall be the subject of a meeting called by the market administrator, at which time all interested persons shall have opportunity to be heard. Notice of such meeting shall be given by the market administrator, and a copy of the proposed rules and regulations shall be sent at least five days prior to the date of the meeting to all handlers operating pool plants. A stenographic record shall be made at all such meetings and such record shall be public information available for inspection at the office of the market administrator. All such meetings shall be conducted jointly with the administrator of the North Jersey order and handlers under this order and the North Jersey order shall be considered interested parties.

(b) A period of at least five days after the meeting held pursuant to paragraph (a) of this section shall be allowed for the filing of briefs. Such briefs shall be public information available for inspection at the office of the market administrator.

(c) Not later than 30 days after a meeting held pursuant to paragraph (a) of this section, the market administrator shall issue and send to all handlers operating pool plants the tentative rules and regulations or amendments thereto relating to the issues considered at such meeting, or a tentative notice that no rules or regulations or amendments thereto are to be issued prior to further consideration at another meeting. The tentative rules and regulations, or tentative notice, together with copies of the stenographic record and briefs, shall also at the same time be forwarded by the market administrator to the Secretary. The tentative rules and regulations shall, in substance, be the same as issued by the North Jersey market administrator.

(d) Not later than 30 days after issuance by the market administrator, the Secretary shall either approve the tentative rules and regulations or tentative notice as issued, or direct the market administrator to reconsider. In which latter event, the market administrator shall within 30 days either issue revised tentative rules and regulations or tentative notice, or call another meeting pursuant to paragraph (a) of this section.

(e) The tentative rules and regulations and amendments thereto or tentative notice issued pursuant to paragraph (c) of this section shall be effective as of the first of the month following approval by the Secretary, but not sooner than ten days after issuance by the market administrator.

§ 927.37 *Classes of utilization.* Subject to all of the conditions set forth in §§ 927.30 through 927.36, milk shall be classified at the plant at which classification is to be determined as follows:

(a) Class I–A milk shall be all milk, except as provided in paragraphs (b) and (c) of this section and in subparagraphs (3) and (5) of paragraph (e) of this section, the butterfat from which leaves or is on hand at the plant in the form of milk, concentrated fluid milk, fluid milk products, or as cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and all milk the classification of which is not established in some other class named in this section.

(b) Class I–B milk shall be all milk, except as provided in subparagraphs (3) and (5) of paragraph (e) of this section, the butterfat from which leaves the plant in the form of milk, concentrated fluid milk, fluid milk products, or of cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and which is delivered to a plant or a purchaser outside of the state of New York and outside of Northern New Jersey, but which at no time (1) is received, other than directly from producers, at a plant in the marketing area of this subpart or the marketing area of the North Jersey order or (2) otherwise enters such marketing areas, except as an incident to its transportation and delivery to a point outside of the marketing area: *Provided*, That use aboard a ship or other carrier shall not constitute such delivery.

(c) Class I–C milk shall be all milk, except as provided in subparagraph (3) and (5) of paragraph (e) of this section, the butterfat from which leaves the plant in the form of milk, concentrated fluid milk, fluid milk products, or as cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, and which is delivered to a plant or a purchaser in the state of New York or Northern New Jersey, but which at no time (1) is received, other than directly from producers, at a plant in the marketing area of this subpart or the marketing area of the North Jersey order or (2) otherwise enters such marketing areas, except as an incident to its transportation and delivery to a point outside of the marketing area: *Provided*, That use aboard a ship or other carrier shall not constitute such delivery.

(d) Class II milk shall be all milk the butterfat from which leaves or is on hand at the plant in the form of cream, sweet or sour, half and half, fluid cream products, or in the form of cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent of butterfat, unless such cream, half and half, fluid cream products, or cultured or flavored milk drinks are established to have been so handled or marketed as to classify such milk in some other class named in this section.

(e) Class III milk shall be all milk which meets the conditions set forth in any one of the following subparagraphs:

(1) All milk the butterfat from which leaves or is on hand at the plant in the form of cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent of butterfat or in the form of cream, half and half, or fluid cream products which cream, half and half, fluid cream products, or cultured or flavored milk drinks is delivered to a plant or a purchaser outside the marketing area, but which at no time (i) is received at a plant in the marketing area, or (ii) otherwise enters the marketing area except as an incident to its transportation and delivery to a point outside of the marketing area: *Provided*, That use aboard a ship or other carrier shall not constitute such delivery.

(2) All milk the butterfat from which leaves or is on hand at the plant in the form of cream which is subsequently held in a licensed cold storage warehouse for at least 28 days, and which is subject at all times until utilization of such cream to being inspected by a representative of the market administrator to determine the physical presence of the cream. After the first 7 days, such cream may be moved from one licensed cold storage warehouse to another: *Provided*, That the market administrator receives notice of such removal within 7 days thereafter. Any handler whose report claimed the original classification of milk pursuant to this subparagraph shall be liable under the provisions of § 927.75 for the difference between the Class II and Class III prices for the month in which the Class III classification was claimed on any such milk if the storage of cream does not comply with all the requirements of this subparagraph.

(3) All milk the butterfat from which leaves the plant in the form of products named in paragraphs (a), (b), (c), or (d) of this section if such products have been sterilized and leave the plant in hermetically sealed containers.

(4) All milk received during the months of March through July the butterfat from which leaves the plant in the form of milk which is delivered in bulk to an establishment outside the marketing area (other than a plant as defined in § 927.8), at which food products are processed and packed in hermetically sealed containers and at which establishment there is no disposition of milk or milk products specified in paragraphs (a), (b), (c), or (d) of this section other than milk or milk products received in consumer packages for consumption on the premises.

(5) All milk the butterfat from which leaves or is on hand at the plant in the form of concentrated fluid milk which is established not to have been packaged in consumer packages either before or after leaving the plant.

(6) All milk the butterfat from which leaves or is on hand at the plant in the form of some product the classification of which is not established in some other class named in this section.

MINIMUM PRICES

§ 927.40 *Class prices.* For milk received during each month from producers or cooperative associations of producers, each handler shall pay per hundredweight not less than the prices set forth in this section, subject to the differentials and adjustments in §§ 927.41 through 927.44. Any handler who purchases or receives, during any month, milk from a cooperative association of producers which is also a handler shall, on or before the 15th day of the following month, pay such cooperative association in full for such milk at not less than the minimum class prices applicable pursuant to this section, subject to the differentials and adjustments in §§ 927.41 through 927.44.

(a) For Class I–A milk the price during each month shall be the New Jersey-New York basic Class I–A price per hundredweight determined for each month pursuant to § 927.47.

(b) For Class I–B milk the price during each month shall be the price for Class I–A milk.

(c) For Class I–C milk the price shall be the uniform price computed by the market administrator pursuant to § 927.61 plus 20 cents per hundredweight.

(d) For Class II milk the price during each month shall be the sum of the amounts computed pursuant to subparagraphs (1) and (2) of this paragraph.

(1)

| U. S. Grade A or U. S. 92-score butter, wholesale, at New York, average price announced pursuant to sec. 927.46 (a) (4) for the period ending on the 24th of the preceding month (cents per pound) | Class II price | |
|---|---|---|
| | March through July | August through February |
| | *Dollars per hundredweight* | *Dollars per hundredweight* |
| Under 21.5 | 1.35 | 1.50 |
| 21.5 or over, but under 25.0 | 1.50 | 1.65 |
| 25.0 or over, but under 28.5 | 1.65 | 1.80 |
| 28.5 or over, but under 32.0 | 1.80 | 1.95 |
| 32.0 or over, but under 35.5 | 1.95 | 2.10 |
| 35.5 or over, but under 39.0 | 2.10 | 2.25 |
| 39.0 or over, but under 42.5 | 2.25 | 2.40 |
| 42.5 or over, but under 46.0 | 2.40 | 2.55 |
| 46.0 or over, but under 49.5 | 2.55 | 2.70 |
| 49.5 or over, but under 53.0 | 2.70 | 2.85 |
| 53.0 or over, but under 56.5 | 2.85 | 3.00 |
| 56.5 or over, but under 60.0 | 3.00 | 3.15 |
| 60.0 or over, but under 63.5 | 3.15 | 3.30 |
| 63.5 or over, but under 67.0 | 3.30 | 3.45 |
| 67.0 or over, but under 70.5 | 3.45 | 3.60 |
| 70.5 or over, but under 74.0 | 3.60 | 3.75 |
| 74.0 or over, but under 77.5 | 3.75 | 3.90 |
| 77.5 or over, but under 81.0 | 3.90 | 4.05 |

Should the average butter price set forth above be 81.0 cents or more, the Class II price shall be the price which would result from further extension of this table at the same rate to cover such average butter price.

(2) Multiply by 7.5 the average of all the hot roller process dry skim milk or nonfat dry milk solids quotation for "other brands, human consumption, carlots, bags, or barrels" (using midpoint of any range as one quotation), published for the delivery period in "The Producers' Price-Current," and subtract 48 cents.

(e) For Class III milk, the price shall be the sum of the amounts computed pursuant to subparagraphs (1) and (2) of this paragraph minus 80 cents: *Provided*, That for the months of May and June 1954 an additional 10 cents shall be subtracted from such sum.

(1) To the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) reported during such month by the United States Department of Agriculture for Grade A (92-score) bulk creamery butter in the New York City market, add two cents, multiply by 1.22, and then multiply by 3.5: *Provided*, That for any of the months from August through February for which the utilization adjustment percentage announced pursuant to § 927.46 (a) (2) is 92 or larger, there shall be an additional three cents added to such average butter price.

(2) Multiply by 7.8 the weighted average, as computed by the market administrator using a weight of 70 for roller process prices and a weight of 30 for spray process prices, of the prices per pound of roller process and spray process nonfat dry milk solids, for human consumption in carlots, f. o. b. manufacturing plants in the Chicago area, as published by the United States Department of Agriculture for the period from the 26th day of the immediately preceding month through the 25th day of the current month.

§ 927.41 *Butterfat differentials.* The minimum price for Class I–A, Class I–B, and Class I–C milk shall be plus or minus four cents for each one-tenth of 1 percent of butterfat therein above or below 3.5 percent. The minimum price for Class II and Class III milk shall be plus or minus, for each one-tenth of 1 percent of butterfat therein above or below 3.5 percent, an amount computed as follows: subtract from the respective class prices an amount computed pursuant to § 927.40 (d) (2), and divide by 35.

§ 927.42 *Transportation differentials.* The Market Administrator shall determine and publicly announce a freight zone for each pool plant and each reloading point and he shall determine the freight zone for each plant at which milk or milk products, subject to the provisions of §§ 927.78 or 927.79 is received from dairy farmers or is first found. Such freight zone shall be based on the shortest highway mileage usable throughout the year for milk transportation from the plant or reloading point to the New York-New Jersey state line in the Lincoln Tunnel. The freight zone for producers delivering to bulk tank trucks which is reloaded into another tank truck before entering a plant shall be at the point of reloading. The freight zone for producers delivering milk to bulk tank trucks which is not so reloaded shall be the freight zone of the pool plant to which milk is delivered. The class prices set forth in § 927.40 and the fluid skim differential set forth in § 927.44 shall be plus or minus and the payments to producers under § 927.66 shall be plus or minus the respective amount set forth in the following schedule:

| A | B | C | D |
|---|---|---|---|
| Freight zone (miles) | Classes I–A, I–B, I–C and skim milk subject to the fluid skim differential | Classes II and III | Producer payment |
| | *Cents per hundredweight* | *Cents per hundredweight* | *Cents per hundredweight* |
| 1–10 | 23.8 | 10 | 21.8 |
| 11–20 | 23.8 | 10 | 23.8 |
| 21–25 | 23.8 | 10 | 23.8 |
| 26–30 | 23.8 | 10 | 23.8 |
| 31–40 | 23.8 | 10 | 23.8 |

| A | B | C | D |
|---|---|---|---|
| Freight zone (miles) | Classes I–A, I–B, I–C and skim milk subject to the fluid skim differential | Classes II and III | Producer payment |
| | *Cents per hundredweight* | *Cents per hundredweight* | *Cents per hundredweight* |
| 41–50 | 22.4 | 10 | 22.4 |
| 51–60 | 21.0 | 8 | 21.0 |
| 61–70 | 19.6 | 8 | 19.6 |
| 71–75 | 18.2 | 8 | 18.2 |
| 76–80 | 17.5 | 6 | 17.5 |
| 81–90 | 16.8 | 6 | 16.8 |
| 91–100 | 15.4 | 6 | 15.4 |
| 101–110 | 14.0 | 4 | 14.0 |
| 111–120 | 12.6 | 4 | 12.6 |
| 121–125 | 11.2 | 4 | 11.2 |
| 126–130 | 10.5 | 3 | 10.5 |
| 131–140 | 9.8 | 3 | 9.8 |
| 141–150 | 8.4 | 3 | 8.4 |
| 151–160 | 7.0 | 2 | 7.0 |
| 161–170 | 5.6 | 2 | 5.6 |
| 171–175 | 4.2 | 2 | 4.2 |
| 176–180 | 3.5 | 1 | 3.5 |
| 181–190 | 2.8 | 1 | 2.8 |
| 191–200 | 1.4 | 1 | 1.4 |
| 201–210 | 0.0 | 0 | 0.0 |
| 211–220 | −1.4 | 0 | −1.0 |
| 221–225 | −2.1 | 0 | −1.0 |
| 226–230 | −2.8 | −1 | −1.0 |
| 231–240 | −4.2 | −1 | −2.0 |
| 241–250 | −5.6 | −1 | −2.0 |
| 251–260 | −6.6 | −2 | −3.5 |
| 261–270 | −6.6 | −2 | −3.5 |
| 271–275 | −6.6 | −2 | −3.5 |
| 276–280 | −7.6 | −3 | −3.5 |
| 281–290 | −7.6 | −3 | −4.5 |
| 291–300 | −7.6 | −3 | −5.5 |
| 301–310 | −8.6 | −4 | −5.5 |
| 311–320 | −8.6 | −4 | −5.5 |
| 321–325 | −8.6 | −4 | −7.0 |
| 326–330 | −9.6 | −5 | −7.0 |
| 331–340 | −9.6 | −5 | −7.0 |
| 341–350 | −9.6 | −5 | −8.0 |
| 351–360 | −10.6 | −6 | −8.0 |
| 361–370 | −10.6 | −6 | −8.0 |
| 371–375 | −10.6 | −6 | −9.0 |
| 376–380 | −11.6 | −7 | −9.0 |
| 381–390 | −11.6 | −7 | −9.0 |
| 391–400 | −11.6 | −7 | −9.0 |
| 401–410 | −12.6 | −8 | −10.5 |
| 411–420 | −12.6 | −8 | −10.5 |
| 421–425 | −12.6 | −8 | −10.5 |
| 426–430 | −13.6 | −9 | −10.5 |
| 431–440 | −13.6 | −9 | −11.5 |
| 441–450 | −13.6 | −9 | −11.5 |
| 451–460 | −14.6 | −10 | −11.5 |
| 461–470 | −14.6 | −10 | −12.5 |
| 471–475 | −14.6 | −10 | −12.5 |
| 476–480 | −15.6 | −11 | −12.5 |
| 481–490 | −15.6 | −11 | −14.0 |
| 491 and over | −15.6 | −11 | −14.0 |

§ 927.43 *Butter-cheese adjustment.* For milk received from producers which is classified as Class III pursuant to § 927.37 (e) (6), and which leaves or is on hand at the plant at which classification is determined in the form of butter or Cheddar, American Cheddar, Colby, washed curd, or part skim Cheddar cheese, or is assigned to plant loss which pursuant to § 927.34 is associated with such products, there shall be credited to the handler receiving the milk from producers four cents per pound of butterfat in such milk: *Provided*, That the amount so credited shall be reduced one cent per pound of butterfat for each one-tenth by which the ratio of 2.5 exceeds a ratio computed as follows: Add to the New York 92-score butter price for the month announced pursuant to § 927.46 (b) (5) the amount obtained by multiplying by 1.83 the weighted nonfat dry milk solids price for the period ending with the 25th day of the month as announced pursuant to § 927.46 (b) (7); divide this sum by the price of Cheddar cheese for the month as announced pursuant to § 927.46 (b) (8) and round the result to the nearest tenth: *Provided further*, That for milk received from producers during any of the months of March through July which is classified on the basis of one of the types of cheese named in this section, the amount so credited shall be increased one cent per pound of butterfat for each full five hundredths by which the ratio of 2.5 is lower than the ratio computed pursuant to the first proviso of this section, except that, for purposes of this proviso, the ratio computed shall be rounded to the nearest hundredth: *Provided further*, That for such milk received from producers at a plant in a freight zone farther from New York City than the 321-325 mile zone, there shall be deducted from the amount so credited the following amounts per hundredweight of milk:

| Zones of plant: | *Cents per hundredweight* |
|---|---|
| 326–350 | 1 |
| 351–375 | 2 |
| 376–400 | 3 |
| 401–425 | 4 |
| 426–450 | 5 |
| 451–475 | 6 |
| 476–500 | 7 |

With respect to each plant at which milk received from producers is reported by the handler operating the plant to have been utilized (either at the plant where received or at another plant), in an amount exceeding an average of 4,000 pounds per day in the manufacture of butter or of Cheddar, American Cheddar, Colby, washed curd, or part skim Cheddar cheese, the market administrator shall publicly disclose (a) the location of the plant at which the milk was received from producers, and (b) the name of the handler operating such plant. Such public disclosure shall be made monthly on the basis of handlers' monthly reports, and may be made more frequently on the basis of such other utilization reports as may be required by the market administrator.

§ 927.44 *Fluid skim differential.* For skim milk derived from Class II or Class III milk which skim milk enters the marketing area in the form of milk, fluid skim milk, half and half, cream, or cultured milk drinks and there utilized or disposed of in the form of milk, fluid skim milk, half and half, or cultured milk drinks, and for all other skim milk derived from Class II or Class III milk which is not established to have been otherwise utilized or disposed of, the handler shall pay a fluid skim differential per hundredweight computed as follows: Deduct the price of Class III milk from which the butterfat was used in the manufacture of butter and priced in accordance with the preceding section from the price for Class I–A milk computed pursuant to § 927.40 (a), and divide by 0.9125: *Provided*, That with respect to skim milk so utilized or disposed of in half and half, this differential shall apply only to that quantity of skim milk in excess of 4.5 times the quantity of butterfat in such half and half.

§ 927.45 *Use of equivalent price or index.* If for any reason a price or index specified in §§ 927.40 through 927.46 for use in computing and announcing class prices or for any other purpose is not reported or published in the manner therein described, the market administrator shall use a price or index determined by the Secretary to be equivalent to or comparable with the price or index specified.

§ 927.46 *Announcement of prices.* The market administrator shall publicly announce the following:

(a) Not later than the 25th day of each month, or the next succeeding workday in any month in which the 25th day is a Sunday or holiday:

(1) The monthly wholesale price index for all commodities in the preceding month as reported on a 1947–1949 base by the Bureau of Labor Statistics, United States Department of Labor, and the resulting index determined pursuant to § 927.40 (a) (1) multiplied by 100.

(2) The utilization adjustment percentage computed pursuant to § 927.47 for the following month.

(3) The preliminary Class I–A price computed pursuant to § 927.47 for the following month.

(4) The average, for the period beginning with the 25th of the immediately preceding month and ending with the 24th of the current month of the highest prices reported daily by the United States Department of Agriculture for U. S. Grade A or U. S. 92-score butter at wholesale in the New York market.

(5) The preliminary calculation for the following month pursuant to § 927.40 (d) (1).

(6) The index of the cost of production for the preceding month computed by the market administrator as follows:

(i) Combine the index numbers for the states of New York, Pennsylvania, and Vermont with weights of 84 for New York, 13 for Pennsylvania, and 3 for Vermont. The index numbers of cost of production for New York shall be index numbers computed by the New York State College of Agriculture at Cornell University (1910–14 base), converted to a 1948 base.

(ii) The index numbers of cost of production for Pennsylvania shall be computed by combining the index (using a base of 54 cents and a weight of 50) of hourly composite wage rates, reported for Pennsylvania by the United States Department of Agriculture; the index (using a base of $4.53 and a weight of 30) of all purchases of mixed dairy feeds, reported for Pennsylvania by the United States Department of Agriculture; and the index (using a base of $23.31 and a weight of 20) of prices received by farmers for all hay, baled per ton, reported for Pennsylvania by the United States Department of Agriculture.

(iii) The index numbers of cost of production for Vermont shall be computed by combining the index (using a base of 69 cents and a weight of 50) of hourly composite wage rates, reported for Vermont by the United States Department of Agriculture; the index (using a base of $4.63 and a weight of 30) of all purchases of mixed dairy feeds, reported for Vermont by the United States Department of Agriculture; and the index (using a base of $25.42 and a weight of 20) of prices received by farmers for all hay, baled per ton, reported for Ver-

mont by the United States Department of Agriculture.

(7) The index computed by dividing the Class I–A formula price, prior to the seasonal adjustment, for the following month by $5.66.

(8) Other statistics relating to economic conditions affecting the market supply and demand for milk.

(b) Not later than the 5th day of each month for the preceding month:

(1) The minimum class prices pursuant to § 927.40.

(2) The butterfat differentials pursuant to § 927.41.

(3) The butter and cheese adjustment pursuant to § 927.43.

(4) The fluid skim differential pursuant to § 927.44.

(5) The simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) reported by the United States Department of Agriculture for Grade A or 92-score bulk creamery butter in New York City.

(6) The average of the prices (using midpoint of any range as one quotation) reported daily in "The Producers' Price-Current," for hot roller process dry skim milk or nonfat dry milk solids "other brands, human consumption, carlots, bags, or barrels."

(7) The respective averages of the carlot prices per pound of spray process and of roller process nonfat dry milk solids for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the second preceding month through the 25th day of the preceding month by the United States Department of Agriculture, and the weighted average of such two averages using a weight of 70 for roller prices and a weight of 30 for spray prices.

(8) The average selling prices per pound reported by the United States Department of Agriculture for Wisconsin State Brand Cheddars, cars or truckloads, f. o. b. Wisconsin assembly points.

(9) The average of prices paid in the preceding month by 18 midwestern condenseries as reported by the United States Department of Agriculture.

§ 927.47 *New Jersey-New York basic Class I–A price formula.* The New Jersey-New York basic Class I–A price per hundredweight of milk containing 3.5 percent butterfat shall be a price computed pursuant to paragraphs (a) through (k) of this section:

(a) Divide (with the result expressed to three decimal places) the monthly wholesale price index for all commodities in the second preceding month as reported on a 1947–1949 base by the Bureau of Labor Statistics, United States Department of Labor, by the average of the monthly indexes reported on the same base for the year 1948.

(b) Multiply the base price of $5.66 by the result determined pursuant to paragraph (a) of this section. Express the result to the nearest cent.

(c) For each month during the 3 year period ending with the second preceding month, calculate to one decimal place the percentage that the total volume of milk in Classes I-A, I-B, and I-C under this order, and under the North Jersey order was of the total volume of reported receipts from producers and from unrevealed sources under both of such orders (these percentages to be referred to as utilization percentages): *Provided, however,* That in using the above formula for the first thirty-nine months after the effective date of this subpart, the figures used in such computation for any period of time previous to the effective date of this subpart shall be figures derived from the operation of the New York order except that the figure computed in accordance with this section for each of the three months previous to the effective date of any federal order regulating the handling of milk in the North Jersey marketing area shall have added to it the respective percentage point from the following list:

| | | | |
|---|---|---|---|
| January | 4.2 | July | 3.8 |
| February | 4.5 | August | 3.2 |
| March | 4.9 | September | 3.7 |
| April | 5.0 | October | 2.7 |
| May | 4.8 | November | 2.6 |
| June | 4.9 | December | 3.1 |

(d) Calculate the average of the 36 monthly utilization percentages for the 3 year period ending with the second preceding month.

(e) Calculate the average of the 6 utilization percentages for the second and third preceding months and for the same months of the 2 preceding years.

(f) Divide the result determined pursuant to subsection (e) of this paragraph by the result determined pursuant to paragraph (d) of this section expressing the result to three decimal places.

(g) Calculate the average of the 2 utilization percentages in the second and third preceding months.

(h) Divide the result determined pursuant to paragraph (g) of this section by the result determined pursuant to paragraph (f) of this section. Express the result to one decimal place and add 100.

(i) Calculate a utilization adjustment percentage by subtracting the base utilization percentages of 63.6 from the result determined pursuant to paragraph (h) of this section.

(j) Multiply the result determined pursuant to subsection (b) of this paragraph by the utilization adjustment percentage determined pursuant to paragraph (i) of this section.

(k) Multiply the result determined pursuant to paragraph (j) of this section by the following seasonal adjustment factor for the month for which the Class I-A price is being determined:

| | | | |
|---|---|---|---|
| January | 1.05 | July | 0.95 |
| February | 1.03 | August | 1.00 |
| March | 1.00 | September | 1.04 |
| April | 0.94 | October | 1.07 |
| May | 0.88 | November | 1.09 |
| June | 0.88 | December | 1.07 |

(l) Whenever any of the following conditions exist for 3 consecutive months, the Secretary shall call a public hearing promptly to consider those and other economic conditions, or promptly announce his determination that such a hearing should not be held, together with reasons for such determination:

(1) There is a difference of more than 6 points for each of 3 consecutive months between the index of the cost of production announced pursuant to § 927.46 (a) (6) and the index of wholesale prices (1948 base) announced pursuant to § 927.45 (a) (7).

(2) There is a difference of more than 15 points for each of 3 consecutive months between 90 percent of the index of the cost of production announced pursuant to § 927.46 (a) (6) and the index of the Class I–A price announced pursuant to § 927.46 (a) (7).

(3) The Class I–A price for each of 3 consecutive months is less than $1.00 higher than the condensery price announced pursuant to § 927.46 (a) (8) for such months or more than $2.50 higher than such condensery price.

REPORTS OF HANDLERS

§ 927.50 *Monthly reports.* On or before the 10th day of each month, each handler shall report to the market administrator, for the preceding month, in the manner and on forms prescribed by the market administrator, with respect to milk or milk products received at each of his pool plants, and at each of his plants where milk or milk products subjected to payments under §§ 927.78 and 927.79 were handled, the following:

(a) The total quantity of milk and of each milk product with the average butterfat content thereof, received from dairy farmers, from other plants, from such handler's own farm, from other handlers, and from other sources;

(b) The total quantity of milk and of each milk product moved out of, or on hand at, such plant, the average butterfat content thereof, and the destination of any milk or milk product the classification of which wholly or partially depends upon its destination, moved out of such plant;

(c) The disposition of milk or milk products at each other plant at which the disposition of any milk or milk products is claimed as the basis of classification;

(d) The computation pursuant to § 927.60 of such handler's net pool obligation; and

(e) The computation of the amount of any payments pursuant to §§ 927.78 and 927.79.

(f) The amount of milk to be paid for to producers at the Class III price pursuant to the fourth and fifth provisos of § 927.65.

§ 927.51 *Producer payroll reports.* Each handler shall report with respect to producers as follows:

(a) On or before the 10th day after the end of each month, the information required by the market administrator with respect to producer additions, producer withdrawals, and changes in names of farm operators; and

(b) On or before the last day of each month, such handler's producer payroll for the preceding month, which shall show for each producer:

(1) The total delivery of milk with the average butterfat test thereof,

(2) The amount of payment due such producer,

(3) Any deductions and charges made by the handler,

(4) The net amount of payment to such producer made pursuant to §§ 927.65 through 927.67, and

(5) Such other information with respect thereto as the market administrator may require.

§ 927.52 *Storage cream reports.* (a) On or before the last day of the period for establishing classification pursuant to § 927.32, or, if earlier, not later than 15 days prior to the date of final removal of the cream from storage, each handler who separates milk and cream from which is stored as a basis for Class III classification pursuant to § 927.37 (e) (2) shall report to the market administrator on forms prescribed by the market administrator information with respect to the storage of cream. Failure to make such report shall result in the disallowance of Class III classification pursuant to § 927.37 (e) (2).

(b) The handler who made such report shall report to the market administrator, not later than the end of the second month following the month during which frozen cream is utilized, information with respect to the utilization of such cream. Failure to make such reports shall result in the disallowance of storage cream payments pursuant to § 927.77 (b).

(c) With respect to notices of transfer of cream filed pursuant to § 927.37 (e) (2) and with respect to storage cream reports filed pursuant to this section, a receipt form acknowledging receipt of such notice or report shall be mailed by the market administrator to the handler within 48 hours after such notice or report is received by the market administrator.

§ 927.53 *Other reports.* At such time as the market administrator may request, each handler shall report to the market administrator in the manner and on forms prescribed by the market administrator:

(a) The total quantity of milk and of each milk product received at his non-pool plants, with the average butterfat content thereof, from dairy farmers, from other plants, from such handler's own farm, from other handlers, and from other sources;

(b) The total quantity of milk and of each milk product moved out of, or on hand at, his non-pool plants, the average butterfat content thereof, and the destination of any milk or milk product moved out of such plants;

(c) Information concerning land, buildings, surroundings, facilities, and equipment at any of his plants;

(d) The current receipts and utilization of milk at each of his pool plants; and

(e) Such other information as may be necessary for the administration of the provisions of this subpart.

§ 927.54 *Verification of reports and payments.* The market administrator shall promptly verify all reports and payments of each handler by audit of such handler's records and of the records of any handler or person upon whose disposition of milk such handler claims classification, and each such handler shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities, of his own or other persons, as will enable the market administrator to:

(a) Verify the receipts and disposition of all milk required to be reported pursuant to §§ 927.50 through 927.53, and, in case of errors or omissions, ascertain the correct figures;

(b) Weigh, sample, and test for butterfat content the milk received from producers and any product of milk upon which classification depends;

(c) Verify the payments to producers prescribed in §§ 927.65 through 927.67; and

(d) Verify all claims for payments pursuant to §§ 927.76 and 927.77.

(e) Make inspection of buildings and their surroundings, facilities, and equipment for verification purposes and to ascertain what constitutes a plant. *Provided,* That in making verification pursuant to all paragraphs of this section, in case such verification depends on audit of records of handlers under the North Jersey order, the market administrator may rely on audits made by the administrator of the North Jersey order in lieu of audit under this section.

§ 927.55 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain, except that all such books and records pertaining to transactions before August 1, 1946, shall be retained until October 1, 1949: *Provided,* That if, within such three-year period, or before October 1, 1949, whichever is applicable, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 927.56 *Base rating plan.* The base milk of each producer for the purpose of computing the uniform price in § 927.61 and determining rates of payments to producers in § 927.65 shall be determined by the market administrator, starting with the first year this subpart has been in effect since the previous August 1, in accordance with the following rules:

(a) *Daily base.* Each producer's daily base to be applied in March, April, May and June shall, except as provided in paragraph (d) of this section, be his deliveries of milk to a handler during the previous year in the months of August, September, October and November divided by 122, expressed to the nearest pound. The respective handler shall calculate each daily base and notify producers, or in case of a cooperative association qualified under § 927.65, shall notify the cooperative association of the daily bases not later than 45 days after the end of the base making period.

(b) *Base milk.* During each of the months of March, April, May and June, the base milk of each producer shall be his deliveries of milk to a handler up to the quantity obtained by multiplying his daily base by the number of days in the month: *Provided,* That upon request in writing to the market administrator made not later than December 31, if a producer does not deliver milk during part of the base making period because of extreme hardship in production conditions on his farm beyond his control, his daily base shall be determined by dividing his total deliveries of milk during the base making period by the number of days on which deliveries were made except that such number of days shall not be less than 30.

(c) *Excess milk.* Excess milk shall be all milk delivered by producers to handlers in excess of deliveries of base milk.

(d) *Transfer of daily bases.* A daily base of a producer determined under paragraph (a) of this section shall be considered attached to the producer, the farm and the herd of cows involved in producing such base, but may be transferred by the market administrator, upon request by such producer, made in writing not later than 15 days prior to the desired date of such transfer, under the following conditions:

(1) If the producer moves his herd to another farm his daily base may be used on such other farm.

(2) If the producer moves to another farm without the herd of cows which made the daily base, the base remains with the farm.

(3) If the producer sells or otherwise disposes of his farm or leases or rents it, together with the herd of cows which produced the daily base, the base may only be transferred to such other operator of the farm and herd.

DETERMINATION OF UNIFORM PRICE

§ 927.60 *Net pool obligation of handlers.* Milk received from handler's own farm up to 1,000 pounds per day if the handler receive no milk from other producers or plants, shall not be included in the determination of the uniform price, and such milk shall be deemed excluded by the phrase "milk received from producers" as such phrase is used in this section and in §§ 927.43, 927.61, 927.74, 927.76, 927.77, and 927.80.

(a) Determine the classification pursuant to §§ 927.30 through 927.37 of milk received from producers at each pool plant;

(b) Subject to adjustment for appropriate differentials pursuant to §§ 927.41 and 927.42, multiply the Class I-C milk by 20 cents per hundredweight, multiply the remaining milk in each class by the class price, multiply the skim milk subject to the fluid skim differential by the fluid skim differential per hundredweight, and add together the resulting values;

(c) Deduct, in the case of each plant where the average butterfat content of all milk received from producers is in

excess of 3.5 percent, and add, in the case of each plant where the butterfat content of all milk received from producers is less than 3.5 percent, the total value of the butterfat differential applicable pursuant to § 927.67;

(d) Deduct, in the case of each plant nearer the midpoint of the Lincoln Tunnel than the 201–210 mile zone, and add, in the case of each plant farther from the midpoint of the Lincoln Tunnel than the 201–210 mile zone, the sum obtained by multiplying the milk received from producers by the zone differential set forth in column C of the schedule in § 927.42 applicable to the plant;

(e) Deduct the total amount of the butter-cheese adjustment computed pursuant to § 927.43;

(f) With respect to milk received from producers, deduct 10 cents per hundredweight at plants located at Honesdale, Milanville, and Lookout, Pennsylvania; 20 cents per hundredweight at plants in the marketing area and at plants located at Accord, Ellenville, Gardiner, Kyserike, New Paltz, Phinney's Crossing, Wallkill, and West Coxsackie, New York, and in the following counties:

New Jersey: Burlington, Hunterdon, Morris, Passaic, Somerset, Sussex, Warren.
New York: Columbia.
Connecticut: Litchfield.
Massachusetts: Berkshire.

*Provided,* That with regard to the payments specified in this section, no producer shall be entitled to such payments if the milk house on his farm is located outside the above specified counties and if such milk house is nearer to a pool plant outside such counties than it is to a pool plant within such counties or to one of the plants individually named in such subdivisions.

(g) Add together the handler's net pool obligation for all plants at which milk was received from producers.

§ 927.61 *Computation of the uniform price.* The market administrator shall, on or before the 14th day of each month, audit for mathematical correctness and obvious errors the report submitted for the preceding month by each handler. If the unreserved cash balance in the producer settlement fund to be included in the computation is less than two cents per hundredweight of milk received from producers on all reports, the report of any handler who has not made payment of the last monthly pool debit account rendered pursuant to § 927.71 shall not be included in the computation of the uniform price. The report of such handler shall not be included in the computation for succeeding months until he has made full payment of outstanding monthly pool debits. Subject to the aforementioned conditions, the market administrator of this subpart and the market administrator of the North Jersey order, shall, jointly compute the uniform price in the following manner:

(a) Combine into one total the net pool obligations of all handlers under this order and the North Jersey order;

(b) Subtract the total of payments required to be made for such month by § 927.76 of this order and § 927.76 of the North Jersey order;

(c) Add to the total payments required to be made by handlers for such month pursuant to §§ 927.78 and 927.79 of this order and the North Jersey order;

(d) Add the amount of unreserved cash in the producer settlement fund;

(e) Subtract an amount equal to not less than eight cents nor more than nine cents per hundredweight of milk received from producers to provide against the contingency of errors in reports and payments or of delinquencies in payments by handlers; under this order and the North Jersey order;

(f) Subtract the amounts payable to producers under the fourth and fifth provisos of § 927.65 of this order and the North Jersey order;

(g) Subtract the amount of milk on which the payments were made to producers under the fourth and fifth provisos of § 927.65 of this order and the North Jersey order;

(h) Subtract the Class I–C milk of all handlers whose reports are included in this computation from the total milk received from producers by all such handlers under this order and the North Jersey order; and

(i) Divide the result obtained in paragraph (f) of this section by the result obtained in paragraph (h) of this section. The result shall be known as the uniform price for milk containing 3.5 percent butterfat received from producers at plants in the 201–210 mile zone.

§ 927.62 *Announcement of uniform price and weighted average butterfat differential.* The market administrator shall announce, not later than the 14th day of each month, the uniform price computed pursuant to § 927.61 and, not later than the 5th day of each month, the weighted average butterfat differential pursuant to § 927.67.

PAYMENT BY HANDLERS DIRECTLY TO PRODUCERS

§ 927.65 *Time and rate of payments.* On or before the 25th day of each month each handler shall make payment to each producer for all milk delivered by such producer during the preceding month at not less than the uniform price subject to differentials set forth in §§ 927.66 and 927.67: *Provided,* That each handler which is also a cooperative marketing association determined by the Secretary to be qualified under the Capper-Volstead Act may, with respect to producers who are members of and under contract with such association, make distribution, in accordance with the contract between the association and such members, of the net proceeds of all its sales in all markets in all use classifications. Whenever verification by the market administrator of the payment to any producer or cooperative association of producers for milk delivered to any handler discloses payment of less than is required by this subpart, the handler shall make up such payment to the producer or cooperative association of producers not later than the time of making payment next following such disclosure: *Provided further,* That if a handler claims that he cannot make the required payment because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, such payment shall be made to the producer settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make such payment from the producer settlement fund to the handler or to the lawful claimant as the case may be: *Provided further,* That if not later than the date when such payment is required to be made, legal proceedings have been instituted by the handler for the purpose of administrative or judicial review of the market administrator's findings upon verification as provided above, such payment shall be made to the producer settlement fund and shall be held in reserve until such time as the above-mentioned proceedings have been completed, or until the handler submits proof to the market administrator that the required payment has been made to the producer or association of producers, in which latter event the payment shall be refunded to the handler: *Provided further,* That in paying producers for milk for each of the months of March through June, the amount of excess milk delivered by each producer defined in accordance with § 927.56 shall be paid for at the Class III price, subject to the same differentials as provided in §§ 927.66 and 927.67: *Provided further,* That in paying any producer who did not regularly sell milk during a period of thirty days next preceding the effective date of this subpart for consumption in the marketing area covered hereby, payments to such producer, for the period beginning with the first regular delivery by such producer and continuing until the end of two full calendar months following the first day of the next succeeding calendar month shall be at the price set forth in § 927.40 (c) less the largest adjustment set forth in § 927.43.

§ 927.66 *Transportation and location differentials.* The uniform price at any plant shall be:

(a) Plus or minus the differential shown in column D of the schedule contained in § 927.42 for the zone of the plant in effect pursuant to § 927.42; and

(b) Plus the differentials, if any, applicable pursuant to § 927.60 (f) plus five cents.

§ 927.67 *Butterfat differential.* The uniform price shall be plus or minus, as the case may be, for each one-tenth of 1 percent above or below 3.5 percent of average butterfat content of milk delivered by any producer during any month, an amount equivalent to the average of the butterfat differentials determined pursuant to § 927.41, for each class weighted by the pounds of butterfat in the milk in each such class used in the computation of the uniform price for the preceding month. Such differential shall be computed to the nearest even tenth of a cent.

§ 927.68 *Direct delivery differential.* The uniform price for milk delivered by producers to any plant within the mile-

age zones hereinafter specified and from which milk is delivered either to stores or consumers or both without passing through any other plant shall be plus the respective amount set forth for each of such zones:

| Mileage zone (miles): | *Direct delivery differential (cents per hundredweight)* |
|---|---|
| 1–10 | 15 |
| 11–20 | 13½ |
| 21–30 | 12 |
| 31–40 | 10½ |
| 41–50 | 9 |
| 51–60 | 7½ |
| 61–70 | 6 |
| 71–80 | 4½ |
| 81–90 | 3 |
| 91–100 | 1½ |

PRODUCER SETTLEMENT FUND AND ITS OPERATION

§ 927.70 *Producer settlement fund.* The market administrator of this subpart shall, and the market administrator of the North Jersey order, shall jointly establish and maintain a separate fund known as "the producer settlement fund" into which they shall deposit all payments and out of which they shall make all payments pursuant to § 927.72 through 927.79 of this order and the North Jersey order.

§ 927.71 *Handlers' accounts.* The market administrator shall establish an account for each handler who is required to make payments to the producer settlement fund or who received payments from the producer settlement fund. After computing the uniform price and each handler's pool debit or credit each month, and at such times as he deems appropriate, the market administrator shall render each handler a statement of his account showing the debit or credit balance, together with all debits or credits entered on such handler's account since the previous statement was rendered.

§ 927.72 *Payment to the producer settlement fund.* On or before the 18th day of each month each handler shall make full payment of the debit balance, if any, of such handler shown on the last statement of account rendered pursuant to § 927.71.

§ 927.73 *Payments out of producer settlement fund.* On or before the 20th day of each month the market administrators of this subpart and the North Jersey order shall jointly make payment to each handler under this subpart and the North Jersey order of the credit balance, if any, of such handler shown on the last statement of account rendered pursuant to § 927.71 of this order or section 71 of the North Jersey order. If, at any such time, the balance in the producer settlement fund is insufficient to make full payment due to each handler, the market administrator shall reduce uniformly the payments to each handler and shall complete such payments as soon as the necessary funds are available. No handler who, on the 25th day of the month, has not received such payments in full from the market administrator shall be deemed to be in violation §§ 927.65 through 927.67 if he reduces his total payments to producers for milk delivered by such producers during the preceding month by not more than the amount of the reduction in payment from the producer settlement fund.

§ 927.74 *Handlers' pool debit or credit.* After computing the uniform price for each month, the market administrator shall compute each handler's pool debit or pool credit as follows:

(a) Add to each handler's net pool obligations the value of his Class I–C milk at the uniform price.

(b) Multiply the quantity of milk received by each handler from producers by the uniform price.

(c) If the result obtained in paragraph (b) of this section is less than the result in paragraph (a) of this section, the difference shall be entered on the handler's producer settlement fund account as such handler's pool debit.

(d) If the result obtained in paragraph (b) of this section is greater than the result in paragraph (a) of this section, the difference shall be entered on the handler's producer settlement fund account as such handler's pool credit.

§ 927.75 *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to or from the producer settlement fund, the market administrator shall debit the handler's producer settlement fund account for any unpaid amount. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall credit the handler's producer settlement fund account for any such amount.

§ 927.76 *Cooperative payments for market-wide services.* Payments shall be made to qualified cooperatives or to federation under the conditions, in the manner, and at the rates set forth in this section.

(a) *Definitions.* As used in this section the following terms shall have the following meanings:

(1) "Cooperative" means a cooperative association of producers which is duly incorporated under the cooperative corporation laws of a state; is qualified under the Capper-Volstead Act (7 U. S. C. 291 et seq.); has all its activities under the control of its members; and has full authority in the sale of its members' milk.

(2) "Federation" means a federation of cooperatives.

(3) "Federated cooperative" means a cooperative which is a member of a federation and on whose membership the federation is an applicant for or receives payments under subparagraph (2) of paragraph (f) of this section.

(4) "Member" means, when used with respect to a member of a cooperative or of a federated cooperative, only a member who is also a producer, as defined in § 927.6 or section 6 of the North Jersey Order.

(b) *Qualified cooperatives and federations.* A cooperative or federation may submit an application to the market administrator for payments under the provisions of this section. In accordance with the requirements of the rules and regulations issued by the market administrator, any such application shall include a written description of the applicant's program for the performance of market-wide services, including evidence that adequate facilities and personnel will be maintained by it so as to enable it to perform the market-wide services; and the application shall contain a statement by the applicant that it will perform the required market-wide services for which it is applying for payments. The application shall set forth all necessary data so as to enable the market administrator to determine whether it meets the qualification requirements with respect to the payments for which the application is submitted. For the purpose of meeting the minimum membership requirements of 4,000 and 6,000 specified in this subsection, members shall include the members who are producers as defined in § 927.76 of this order and section 76 of the North Jersey order. An application shall be approved by the market administrator only if he determines that:

(1) In the case of a cooperative:

(i) It has not less than 4,000 members and receives from its members not less than 1 cent per hundredweight of milk delivered by them: *Provided,* That no person shall be counted in this respect as a member if he is a member of another cooperative which is an applicant for or which receives cooperative payments, or if he is a member of a federated cooperative.

(ii) If the application is also for an additional payment under subparagraph (3) of paragraph (f) of this section, it has not less than 6,000 members and receives from its members not less than 1 cent per hundredweight of milk delivered by them, subject to the proviso in subdivision (i) of this subparagraph.

(iii) If the application is also for an additional payment under subparagraph (4) of paragraph (f) of this section, the cooperative is an operating cooperative which operates marketing facilities, i. e., pool plant(s), at which it receives at least 25 per centum, by weight, of the milk marketed by its members: *Provided,* That in determining whether the 25 per centum minimum requirement is complied with, there shall be excluded the milk delivered by a member of the cooperative who is a member of another cooperative which is an applicant for or which receives cooperative payments on the same milk or which is a federated cooperative in a federation which is an applicant for or receiving cooperative payments on the same milk.

(2) In the case of a federation:

(i) It is duly incorporated under the laws of a state.

(ii) It has contracts with each of its federated cooperatives under which the cooperatives agree to remain in the federation for at least one year, and such contracts cover or will be renewed for a yearly period for every subsequent year for which the federated cooperatives are to be included within the membership of the federation for cooperative payment purposes.

(iii) Its federated cooperatives have an aggregate of not less than 4,000 mem-

bers and the federated cooperatives receive from their members not less than 1 cent per hundredweight of milk delivered by them; and its federated cooperatives will pay to the federation, when required by rules and regulations issued by the market administrator, the minimum monthly payment specified in the rules and regulations to finance the activities of the federation that are not market-wide in character: *Provided*, That no person shall be counted in this respect as a member if he is a member of a cooperative which is an applicant for or which receives cooperative payments, or if he is a member of another federated cooperative.

(iv) If the application is also for an additional payment under subparagraph (3) of paragraph (f) of this section, the aggregate membership of the federated cooperatives is not less than 6,000 members and the federated cooperatives receive from their members not less than 1 cent per hundredweight of milk delivered by their members, subject to the proviso in subdivision (iii) of this subparagraph.

(v) If the application is also for an additional payment under subparagraph (5) of paragraph (f) of this section, the federation operates marketing facilities, i. e., pool plant(s), or the federated cooperatives operate marketing facilities, at which is received at least 25 per centum, by weight, of the milk marketed by the members of the federated cooperatives: *Provided*, That in determining whether the 25 per centum minimum requirement is complied with, there shall be excluded the milk delivered by members of a cooperative which is an applicant for or which receives cooperative payments on the same milk, or which is a federated cooperative in another federation which is an applicant for or receiving cooperative payments on the same milk, or which is not meeting the requirements of this section applicable to it.

(3) The applicant cooperative or federation demonstrates that it has the ability to perform the market-wide services for which application is made, and that such services will be performed.

(4) The applicant cooperative or the federated cooperatives of an applicant federation are in no way precluded from arranging for the utilization of milk under their respective control so as to yield the highest available net return to all producers without displacing an equivalent quantity of other producer milk in the preferred classification.

(c) *Notice of qualification or denial: Effective date.* Upon determination by the market administrator that a cooperative or a federation is qualified to receive payment for performance of the market-wide services, he shall transmit such determination to the applicant cooperative or federation and publicly announce the issuance of the determination. The determination shall be effective with respect to milk delivered on and after the first day of the month following issuance of the determination. If, after consideration of an application for payments for market-wide services, the market administrator determines that the cooperative or federation is not qualified to receive such payments, he shall promptly notify the applicant and specifically set forth in such notice his reasons for denial of the application.

(d) *Requirements for continued qualification.* From time to time and in accordance with rules and regulations which may be issued by the market administrator, each qualified cooperative or federation must demonstrate to the market administrator that it continues to meet the qualification requirements for the payments and is fully performing the market-wide services for which it is being paid.

(e) *Market-wide services.* Each cooperative or federation shall perform the market-wide services enumerated in this paragraph. Such services are: (1) Analyzing milk marketing problems and their solutions, conducting market research and maintaining current information as to all market developments, preparing and assembling statistical data relative to prices and marketing conditions, and making an economic analysis of all such data; (2) determining the need for the formulation of amendments to the order and proposing such amendments or requesting other appropriate action by the Secretary or the market administrator in the light of changing conditions; (3) participating in proceedings with respect to amendments to the order, including the preparation and presentation of evidence at public hearings, the submission of appropriate briefs and exceptions, and also participating, by voting or otherwise, in the referenda relative to amendments; (4) participating in the meetings called by the market administrator, such as meetings with respect to rules and regulations issued under the order, including activities such as the preparation and presentation of data at such meetings and briefs for submission thereafter; (5) conducting a comprehensive education program among producers—i. e., members and non-members of cooperatives—and keeping such producers well informed for participation in the activities under the regulatory order and, as a part of such program, issuing publications that contain relevant data and information about the order and its operation; and the distribution of such publications to members and, on the same subscription basis, to non-members who request it, and holding meetings at which members and non-members may attend; and (6) in the case of a cooperative or federation which receives an additional payment under subparagraph (4) or (5) of paragraph (f) of this section, operating marketing facilities, or having within its membership federated cooperatives operating marketing facilities, i. e., pool plant(s), at which is received at least 25 per centum, by weight, of the milk marketed by all the members of the cooperative or by all the members of the federated cooperatives' members.

(f) *Rate, computation, time, and method of payment.* (1) Subject to the provisions of paragraph (g) of this section, the market administrator, on or before the 25th day of each month, shall make payment out of the producer settlement fund, or issue equivalent credit therefor, to each cooperative or federation which is qualified for such payments for market-wide services. The payment to a cooperative shall be based upon the milk reported by cooperative or proprietary handlers to have been received during the preceding month from its members, and the payment to a federation shall be based upon the milk reported by cooperative or proprietary handlers to have been received during the preceding month from the members of its federated cooperatives, subject in both instances to adjustment upon verification by the market administrator.

(2) Such payment or credit shall be at the rate of 2 cents per hundredweight of milk in accordance with subparagraph (1) of this paragraph: *Provided*, That in computing payment to a cooperative, there shall be excluded all of the milk of its members who belong to another cooperative which is an applicant for or which receives cooperative payments on the same milk or which is a federated cooperative in a federation which is an applicant for or receiving cooperative payments on the same milk: *Provided further*, That in computing payment to a federation there shall be excluded all of the milk of members of a cooperative which is an applicant for or which receives cooperative payments on the same milk, or which is a federated cooperative in another federation which is an applicant for or receiving cooperative payments on the same milk, or which is not meeting the requirements of this section applicable to it.

(3) Any cooperative that has at least 6,000 members and any federation which has an aggregate membership of its federated cooperatives of at least 6,000 members shall receive a payment, in addition to the payment provided for in subparagraph (2) of this paragraph, of 1 cent per hundredweight of milk in accordance with subparagraph (1) of this paragraph and subject to the provisos contained in subparagraph (2) of this paragraph.

(4) Any cooperative that operates marketing facilities, i. e., pool plant(s), at which is received at least 25 per centum, by weight, of the milk marketed by its members shall receive a payment, in addition to the payment provided for in subparagraph (2) or (3) of this paragraph of 1 cent per hundredweight of all milk marketed by its members in accordance with subparagraph (1) of this paragraph: *Provided*, That in computing the payment under this subparagraph there shall be excluded the milk delivered by a member of the cooperative who is a member of another cooperative which is an applicant for or which receives cooperative payments on the same milk or which is a federated cooperative in a federation which is an applicant for or receiving cooperative payments on the same milk.

(5) Any federation that operates marketing facilities, i. e., pool plant(s), or whose members include one or more federated cooperatives that operate marketing facilities, at which is received at least 25 per centum by weight, of the milk marketed by the members of its federated cooperatives shall receive a payment, in addition to the payment provided for in subparagraph (2) or (3) of this paragraph, of 1 cent per hundredweight of all milk marketed by such members in accordance with subparagraph (1) of this paragraph: *Provided*, That in computing the payment under this subparagraph, there shall be excluded the milk delivered by members of a cooperative which is an applicant for or which receives cooperative payments on the same milk, or which is a federated cooperative in another federation which is an applicant for or receiving cooperative payments on the same milk, or which is not meeting the requirements of this section applicable to it.

(6) If an individually qualified cooperative is affiliated with a federation, the cooperative payment shall be made to such cooperative unless its contract with the federation specifies in writing that the federation is to receive the payments. Any such contract must authorize the federation to receive the payments for at least one year, and such agreement must cover or be renewed for a yearly period for every subsequent year for which the federation is to receive the payments.

(g) *Disqualification.* (1) The market administrator shall issue an order wholly or partly disqualifying a previously qualified cooperative or federation for payments authorized pursuant to this section and such payments shall not thereafter be made to it if he determines that:

(i) The cooperative of federation no longer complies with the requirements of this section: *Provided*, That in the case of the federation, if one of its defeated cooperatives has failed to comply with the requirements of this section applicable to it or has failed, promptly after demand by the market administrator, to arrange for the utilization of milk under its control so as to yield the highest available net return to all producers without displacing an equivalent quantity of other producer milk in the preferred classification; the federation shall be disqualified only to the extent that its qualification for payments or the amount of its payments are based upon the membership, milk, or operations of such noncomplying federated cooperatives;

(ii) The cooperative or federation has failed to make reports or furnish records pursuant to this section or pursuant to rules and regulations issued by the market administrator; or

(iii) In the case of the cooperative, it has failed, promptly after demand by the market administrator, to arrange for the utilization of milk under its control so as to yield the highest available net return to all producers without displacing an equivalent quantity of other producer milk in the preferred classification.

(2) An order of the market administrator wholly or partly disqualifying a cooperative or federation shall not be issued until after the cooperative or federation has had opportunity for hearing thereon following not less than 15 days' notice to it specifying the reasons for the proposed disqualifications. If the cooperative or federation fails to file a written request for hearing with the market administrator within such period of 15 days, the market administrator may issue an order of disqualification without further notice; but if within such period a request for hearing is filed, the market administrator shall promptly proceed to hold such hearing pursuant to rules and regulations issued by him under paragraph (i) of this section.

(3) A disqualification order issued by the market administrator shall set forth the findings and conclusions on the basis of which it is issued.

(h) *Appeals*—(1) *From denials of application.* Any cooperative or federation whose application for qualification has been denied by the market administrator may, within 30 days after notice of such denial, file with the Secretary a written petition for review. But the failure to file such petition shall not bar the cooperative or federation from again applying to the market administrator for qualification.

(2) *From disqualification orders.* A disqualification order by the market administrator shall become final 30 days after its service on the cooperative or federation unless within such 30-day period the cooperative or federation files a written petition with the Secretary for review thereof. If such petition for review is filed, payments for which the cooperative or federation has been disqualified by the order shall be held in reserve by the market administrator pending ruling of the Secretary, after which the sums so held in reserve shall either be returned to the producer settlement fund or paid over to the cooperative or federation depending on the Secretary's ruling on the petition. If such petition for review is not filed, any payments which otherwise would be made within the 30-day period following issuance of the disqualification order shall be held in reserve until such order becomes final and shall then be returned to the producer settlement fund.

(3) *Record on appeal.* If an appeal is taken under subparagraph (1) or (2) of this paragraph, the market administrator shall promptly certify to the Secretary the ruling or order appealed from and the evidence upon which it was issued: *Provided*, That if a hearing was held the complete record thereof, including the applications, petitions, and all exhibits or other documentary material submitted in evidence shall be the record so certified. Such certified material shall constitute the sole record upon which the appeal shall be decided by the Secretary.

(i) *Regulations.* The market administrator is authorized to issue regulations and amendments thereto to effectuate the provisions of this section and to facilitate and implement the administration of its provisions. Such regulations shall be issued in accordance with the following procedure:

(1) All proposed rules and regulations and amendments thereto shall be the subject of a meeting called by the market administrator, at which all interested persons shall have opportunity to be heard. Not less than five days prior to the meeting, notice thereof and of the proposed regulations or amendments shall be published in the FEDERAL REGISTER and mailed to qualified cooperatives and federations. A stenographic record shall be made at such meetings which shall be public information and be available for inspection at the office of the market administrator.

(2) A period of at least five days after the meeting shall be allowed for the filing of briefs.

(3) All regulations and amendments thereto issued by the market administrator pursuant to this section must be submitted in tentative form to the Secretary for approval, shall not be effective without such approval, and shall be published in the FEDERAL REGISTER following such approval. The regulations or amendments in tentative form shall be forwarded also to cooperatives and federations qualified under this section and to other persons upon request in writing. The Secretary shall either approve the regulations or amendments thereto submitted by the market administrator or direct the market administrator to reconsider the tentative rules or amendments. In the event the market administrator is directed to give reconsideration to the matter, the market administrator shall either issue revised tentative regulations or amendments or call another meeting pursuant to this section for additional consideration of the rules or amendments.

(j) *Reports and records.* A qualified cooperative or federation and any federated cooperative in a qualified federation shall make such reports to the market administrator as may be requested by him for the administration of the provisions of this section, and shall maintain and make available to the market administrator or his representative such records as will enable the market administrator to verify such reports.

(k) *Notices, demands, orders, etc.* All notices, demands, orders, or other papers required by this section to be given to or served upon a cooperative or federation shall be deemed to have been given or served as of the time when mailed to the last known secretary of the cooperative or federation at his last known address.

(l) *Adjustment period.* Any cooperative which was qualified, on the effective date of this section, to receive payments pursuant to the provisions of § 927.76 as effective December 31, 1952 (referred to in this paragraph as the "former provisions"), shall continue to receive payments pursuant to and subject to the conditions specified in such former provisions on milk received from producers during the 90-day period immediately following the effective date of this section; and if such cooperative has applied, or is a federated cooperative of a federation which has applied, for qualification pursuant to this section prior to the expiration of such 90-day period, it shall continue to receive payments pursuant to the former provisions beyond such 90-day period until such time as the market administrator has ruled upon such application: *Provided*, That a cooperative or a federation may be qualified to receive payments pursuant to this section within such 90-day period: *Provided further*, That in no event shall a cooperative, or a federated cooperative in a federation, receive payment under the former provisions for any period following the effec-

tive date of qualification of the cooperative or federation under this section. For the purposes and to the extent specified in this paragraph, the provisions of § 927.76 as effective December 31, 1952, shall remain in force and effect after the effective date of this section.

§ 927.77 *Cream payments.* (a) For milk received from producers which is classified as Class III pursuant to § 927.37 (e) (2) the butterfat from which is subsequently assigned in accordance with the provisions of the rules and regulations issued by the market administrator pursuant to § 927.36 to sour cream, half and half, or reconstituted cream shipped to, received in, or distributed in the marketing area, or is not established to have been otherwise utilized, or to be still in storage, the handler required to file reports pursuant to § 927.52 shall pay to the producer settlement fund or be issued debits against balances due to such handler from the producer settlement fund an amount equal to 9 cents per pound of butterfat if the milk was separated in the months of March through July, and 10 cents per pound of butterfat if the milk was separated in the months of August through February.

(b) On the basis of reports pursuant to § 927.52 of the utilization of frozen cream and the market administrator's investigation and audit of such reports, the market administrator shall make payment out of the producer settlement fund to the handler filing such reports, or issue credit against balances due from such handler to the producer settlement fund, an amount equal to the butter-cheese adjustment on each pound of butterfat in such cream which was separated in the months of April through September from milk received from producers and was assigned, in accordance with the provisions of the rules and regulations issued by the market administrator pursuant to § 927.36, to butter in the months of January through March.

(c) With respect to Class II milk the butterfat from which is on hand at the plant in the form of cream, or having left the plant in the form of cream had not been delivered to a plant or purchaser by the end of the period for establishing classification, but subsequent to the end of the period for establishing classification such cream is so handled that it would have been classified at a plant outside the marketing area in Class III pursuant to § 927.37 (e) (1), (3), (5), or (6) had such handling occurred during the period for establishing classification, the handler who received the milk from producers may claim a refund by filing a report giving the facts with respect to such handling. On the basis of verification of such report, the market administrator shall make payment out of the producer settlement fund to such handler or issue credit against any balance due from such handler to the producer settlement fund in an amount equal to the difference between the Class II and Class III prices applicable for the month when the milk was received from producers.

§ 927.78 *Payments on milk received from dairy farmers at non-pool plants.* Payments shall be made by handlers to producers, through the producer settlement fund, for milk and milk products under conditions, in amounts, and by the handler pursuant to paragraphs (a) through (d) of this section: *Provided*, That for any month in which the volume of Class III milk used in the computation of the uniform price is less than 15 percent of the combined volume of the Class I–A and Class II milk used in such computation, the payments set forth in this section shall not be required; and *Provided further*, That in the case of milk received by a handler under this order from a plant which is a pool plant under the North Jersey order, the payments set forth in this section shall not be required.

(a) Payments shall be made for milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, half and half, fluid cream products, and skim milk, which milk or milk products meets each of the following conditions:

(1) It was derived from milk received at a non-pool plant from dairy farmers other than the plant operator.

(2) It was shipped to, received in, or distributed in the marketing area, or was received at a pool plant outside the marketing area.

(3) The milk or milk equivalent of the butterfat is classified as Class I–A or Class II, or the skim milk would be subject to the fluid skim differential if it were derived from pool milk.

(b) The amounts of payment for the products set forth in paragraph (a) of this section shall be as follows:

(1) If the milk or the milk equivalent of the butterfat, or the skim milk is classified and paid for under another order issued pursuant to the act, the amount of payment on such products, except skim milk, shall be any plus amount obtained by subtracting the value of the milk or the milk equivalent of the butterfat at the class price or prices under such order from the value computed in accordance with the classification and pricing set forth in this subpart: *Provided*, That the payment shall be at the rates set forth in subparagraph (2) of this paragraph if the other order permits the deduction of such payment from the amount otherwise due for such milk pursuant to such other order. The amount of payments on skim milk shall be an amount computed pursuant to § 927.44 adjusted for the location of the plant.

(2) If the milk or milk product is derived from milk received from dairy farmers at a non-pool plant in the 421–425 mile zone, or in some other zone nearer the marketing area, the handling of which is not regulated by an order issued pursuant to the act or is regulated by another order as specified in the proviso of subparagraph (1) of this paragraph, the amount of payment, except as otherwise specified in subparagraph (4) of this paragraph, shall be the differences between its classified value at the Class I–A or the Class II price, depending upon its classification, and its value at the Class III price, such class prices to be adjusted for butterfat test and the location of the plant at which the non-pool milk was originally received from farmers: *Provided*, That for concentrated fluid milk, cream, half and half, fluid cream products, and cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent butterfat, the payment shall be computed on the milk equivalent thereof as so classified. The amount of the payment on skim milk (either as skim milk, half and half, or in cultured milk drinks) shall be the amount computed pursuant to § 927.44 as similarly adjusted for location.

(3) If the milk or milk product is derived from milk received from dairy farmers at a non-pool plant farther from the marketing area than the 421–425 mile zone, the handling of which is not regulated by another order issued pursuant to the act, or is regulated by another order as specified in the proviso of subparagraph (1) of this paragraph, the amount of payments shall be the difference between the value of its milk equivalent at the Class I–A or Class II price, depending upon its classification, and the value of such milk at the midwestern condensery price announced pursuant to § 927.46 (b) (9), such class prices to be adjusted for the location of the plant at which the non-pool milk was originally received from dairy farmers: *Provided*, That for milk, fluid milk products, and cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, the payment shall be the difference between the value of such milk or milk product at the Class I–A price for milk containing 3.5 percent butterfat, adjusted for location of the plant, and the condensery price. The amount of the payment on skim milk (either as skim milk, half and half, or in cultured milk drinks) shall be the amount computed pursuant to § 927.44 similarly adjusted for location.

(4) For any month in which the volume of milk subject to the butter-cheese adjustment used in the computation of the uniform price is more than 15 percent of the combined volume of the Class I–A and Class II milk used in such computation, the payment required by subparagraph (2) of this paragraph shall be increased by the value of the milk or milk equivalent at the rate of the butter-cheese adjustment at the plant where the milk was received from dairy farmers.

(5) In computing the milk equivalent value of milk or milk products as specified in this paragraph, such value shall be computed on the basis of milk containing 3.5 percent of butterfat.

(c) Payment for any milk or milk product pursuant to this section shall be made, on behalf of the handler receiving the milk from dairy farmers, by the appropriate handler as set forth in subparagraphs (1) through (3) of this paragraph: *Provided*, That if the milk is received from a handler under another order issued pursuant to the act, which order provides that the payment to the producer settlement fund may be deducted from the handler's obligation under the other order, the payment shall be made by the handler subject to the other order regardless of the provisions of subparagraphs (1) through (3) of this paragraph.

(1) By the handler first receiving the milk or milk product at a pool plant outside the marketing area.

(2) By the handler operating the plant where the milk or milk product is first received in the marketing area if the milk or milk product is not received at a pool plant outside the marketing area.

(3) By the handler operating the plant from which the milk or milk product was moved into the marketing area if such milk or milk product is neither received at a pool plant outside the marketing area nor at a plant in the marketing area.

(d) The amount due pursuant to this section shall be entered on the handler's account as a debit immediately after the filing of the report pursuant to § 927.50, or if the handler fails to file such report, such amount shall be entered on the handler's account in accordance with § 927.75.

§ 927.79 *Payments on milk or milk products the source of which is not established.* Payments shall be made by handlers to producers through the producer settlement fund, for milk and milk products under conditions, in amounts, and by the handler pursuant to paragraphs (a) through (d) of this section.

(a) Payments shall be made for milk, concentrated fluid milk, fluid milk products, cultured or flavored milk drinks, cream, half and half, fluid cream products, and skim milk which milk or milk product meets each of the following conditions:

(1) It was derived from milk for which the farm source is not established.

(2) It was shipped to, received in, or distributed in the marketing area, or was received at a pool plant.

(3) If first found at a non-pool plant, the milk or milk equivalent of the butterfat is classified as Class I–A or Class II, or the skim milk is subject to the fluid skim differential.

(b) The amounts of payment for the product set forth in paragraph (a) of this section shall be as follows:

(1) For milk, concentrated fluid milk, fluid milk products, or cultured or flavored milk drinks containing 3.0 percent or more but not more than 5.0 percent of butterfat, the value of such milk, fluid milk products, cultured or flavored milk drinks, or the milk equivalent of such concentrated fluid milk at the class price at the plant where first found.

(2) For cream, half and half, fluid cream products, or cultured or flavored milk drinks containing less than 3.0 percent or more than 5.0 percent of butterfat, the value of the milk equivalent of such product at a rate per hundredweight computed pursuant to § 927.40 (e) (1) adjusted by the differentials set forth in column C in the table in § 927.42 for the zone of the plant at which first found.

(3) For skim milk in a form subject to the fluid skim milk differential, the value at a rate per hundredweight computed as follows: divide the amount computed pursuant to § 927.40 (e) (2) by 0.9125, add an amount computed pursuant to § 927.44, and adjust the result by the differential set forth in column B in the table in § 927.42 for the zone of the plant where first found.

(4) For skim milk in a form not subject to the fluid skim milk differential, the value at a rate per hundredweight computed as follows: divide the amount computed pursuant to § 927.40 (e) (2) by 0.9125.

(5) In computing the milk equivalent value of products as specified in this paragraph, such value shall be computed on the basis of milk containing 3.5 percent of butterfat.

(c) Payment for any milk or milk product pursuant to this section shall be made, on behalf of the handler receiving the milk from dairy farmers, by the appropriate handler as set forth in subparagraphs (1) through (3) of this paragraph:

(1) By the handler first receiving the milk or milk product at a pool plant outside the marketing area.

(2) By the handler operating the plant where the milk or milk product is first received in the marketing area if the milk or milk product is not received at a pool plant outside the marketing area.

(3) By the handler operating the plant from which the milk or milk product was moved into the marketing area if such milk or milk product is neither received at a pool plant outside the marketing area nor at a plant in the marketing area.

(d) The amount due pursuant to this section shall be entered on the handler's account as a debit immediately after the filing of the report pursuant to § 927.50, or if the handler fails to file such report, such amount shall be entered on the handler's account in accordance with § 927.75.

EXPENSE OF ADMINISTRATION

§ 927.80 *Payment by handlers.* As his pro rata share of the expense of administration of this subpart, each handler shall, on or before the 18th day of each month, pay to the market administrator a sum not exceeding two cents per hundredweight on the total quantity of milk which was received from producers at plants operated by such handler, directly or at the instance of a cooperative association of producers, the exact amount to be determined by the market administrator subject to review by the Secretary. This section shall not be deemed to duplicate any similar payment by any handler under an order issued by the Commissioner of Agriculture and Markets of the State of New York, with respect to the marketing area. Whenever verification by the market administrator discloses an error in the payment made by any handler, such error shall be adjusted not later than the date next following such disclosure on which payments are due pursuant to this section.

MISCELLANEOUS

§ 927.85 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before August 1, 1949, under Sec. 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received (or with respect to storage cream payments pursuant to § 927.77 (b), two years after the end of the calendar month during which such cream is utilized) if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable periods of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

§ 927.86 *Continuing obligation of handlers.* Unless otherwise provided by the Secretary in any notice of amendment, termination, or suspension of any

or all of the provisions of this subpart, such amendment, termination, or suspension shall not affect, waive, or terminate any right, duty, obligation, or liability which shall have risen or may thereafter arise in connection with any provision of this subpart; release or waive any violation of this subpart occurring prior to the effective date of such amendment, termination, or suspension; or affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

§ 927.87 *Continuing power and duty of market administrator.* The market administrator shall (a) continue in such capacity until discharged by the Secretary; (b) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, to such person as the Secretary shall direct; and (c) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator pursuant to this subpart.

§ 927.88 *Liquidation.* Upon the termination or suspension of this subpart, the market administrator shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such termination or suspension. Any funds collected for expenses pursuant to the provisions of this subpart over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator in liquidating the business of the market administrator's office shall be distributed by the market administrator to handlers in an equitable manner.

§ 927.89 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 927.90 *Amendments.* Whenever the Secretary calls a public hearing to consider amendments to this subpart he shall also simultaneously call a public hearing to consider the same amendments to the North Jersey order or promptly announce his determination that such a hearing with respect to the North Jersey order should not be held, together with reasons for such determination.

Following are proposed amendments to the New York Order No. 27; proposed by Dairymen's League Cooperative Association, Inc., and Metropolitan Cooperative Milk Producers Bargaining Agency, Inc.:

Amend Order No. 27 as follows:

(a) Enlarge the definition of a marketing area (§ 927.3) to include all or parts of the following counties in the State of New York: Albany, Rensselaer, Schenectady, Saratoga, Montgomery, Fulton, Oneida, Herkimer, Madison, Onondaga, Cayuga, Oswego, Tompkins, Chemung, Tioga, Broome, Sullivan, Ulster, Orange, Rockland, Putnam and Dutchess.

(b) Make coordinating amendments to others sections of the order so that certain of the present provisions applicable to the present marketing area do not apply to the added portions of the marketing area such as (1) § 927.60 (f) and § 927.66 (b) with regard to location differentials (see (c) below); (2) § 927.33 insofar as it now carries out the objective of country utilization classification which is practically unfeasible with regard to upstate markets, and (3) § 927.60, with regard to the method of pooling producer dealers (see (d) below.)

(c) Providing for a 15-cent per hundredweight direct delivery differential for milk delivered by producers to handlers' plants in the upstate extensions of the marketing area at which milk is packaged in consumer packages, to be paid by handlers in addition to the uniform price, in place of the location payments eliminated as to such upstate markets by (b) (1) above.

(d) Provide for the pooling of milk from handlers' own farms in the upstate extensions of the marketing area in excess of one thousand pounds a day, if the handler receives no milk from other producers or plants (see (b) (3) above.)

(e) Eliminate I–C pricing in upstate New York by amending § 927.37 (c) by taking out the words "the State of New York or."

Proposals for separate order for Northern New Jersey for amendment of Order No. 27; proposed by Milk Dealers' Association of Metropolitan New York, Inc., and Sheffield Farms Company, Inc.:

Class definitions and class prices. The class definitions and class prices should be the same under the two orders.

The base point for determining mileage zones, the actual mileage zones for each plant, freight zone differentials and location differentials should be identical under both orders.

Butterfat differentials applicable to class prices and the blend price to producers should be the same under both orders,

In order to achieve uniformity of blend prices at country plants in the same geographic area, the three following methods must be considered at a hearing. If the preliminary blend price computation under one order comes out higher than under the other, then provisions in the orders should

(a) Allow for the transfer of funds from one pool to the other so as to equalize the blend prices; or

(b) Allow for the assignment of milk from one pool to the other so as to equalize the blend prices; or

(c) Develop "area of production orders" so as to segregate on a geographic basis the plants eligible to participate in each order.

One of the key provisions of such "area of production orders" would be as follows:

All plants in Vermont, New York State except Rockland, Orange counties and in the Pennsylvania counties of Erie, Warren, McKean, Potter, Tioga, Bradford, Susquehanna, Wayne, Crawford, Sullivan and Wyoming can be Order 27 pool plants upon application and determination by the Secretary that the requirements for pool plant status are met and no plants in such area shall be eligible for pool plant status under a New Jersey order.

All plants in New Jersey, Delaware, Maryland, Pennsylvania except the eleven named counties above, and in the New York counties of Orange and Rockland can be New Jersey order plants upon application and determination by the Secretary that the requirements for pool plants are met, and no plants in such area shall be eligible for pool plant status under Order No. 27.

(1) Requirements: In order to qualify as a pool plant under either order, the person operating the plant shall meet each of the following requirements:

(aa) Be willing to ship fluid milk to the marketing area under either order milk received at the plant from dairy farmers.

(bb) Keep such control over the sanitary conditions under which milk received at the plant is produced and handled so that the plant can meet the requirements of a source of fluid milk for the marketing area under either order.

(cc) Have no commitments for disposition of milk that prevent him from shipping milk to the marketing area.

NOTE: Bulk tank farm milk should be treated in the same way that plants are treated, with the location of the farm being the governing factor in determining the order under which the milk would be regulated.

All of the proposals which follow as paragraphs are contingent on the adoption of one or more of the three proposals listed above as (a), (b) or (c):

* * * * *

If "area or production orders" are not developed, all plants having approval to ship fluid milk or fluid cream to the North Jersey markets in recent years should be allowed to elect to be pool plants under the New Jersey Order.

*Marketing area*—(a) *North Jersey.* If milk sold for fluid use in non-federally regulated areas is priced on a competitive basis the North Jersey marketing area should include only the 13 counties of North Jersey. If milk sold for fluid use in non-federally regulated areas is not priced on a competitive basis the three nearby counties in New York of Rockland, Orange and Sullivan, should also be included in the North Jersey marketing area.

(b) *Order No. 27.* If milk sold for fluid use in non-federally regulated areas is priced on a competitive basis there need be no change in the marketing area under Order No. 27. If competitive pricing is not maintained, then Putnam and Dutchess Counties in New York State should be included in the Order No. 27 marketing area.

*Mileage zones.* The hearing notice should provide for taking evidence on an equitable and proper method of determining mileage distances from a point in the marketing area under Order No. 27 to individual plants either under Order No. 27 or under a separate New Jersey order. The mileages so determined should apply under any separate New Jersey order as well as under Order No. 27. Such a method should be based on the following principles:

(a) Establish a representative basing point for the marketing area.

(b) Establish key points in the milkshed and also milk tank truck routes and mileages to the representative basing point for the marketing area.

(c) Provide that mileages from locations not at key points be established as a result of rules and regulations meeting on the basis of the shortest practical milk tank truck route to the key point route, with appropriate adjustment in key point mileage.

*Relocation payments.* For milk utilized for manufacturing, both orders should provide for payments from the respective pools to cover a portion of the first plant handling cost and transportation of the milk from the plant where first received from producers to the plant where the milk is manufactured.

*Pooling.* A New Jersey order must provide for market-wide pooling.

*Classification.* The New Jersey Order and Order 27 should use the same method of determining classification, as follows:

(a) Classification shall be determined at the plant at which milk is received from dairy farmers: *Provided*, that if such milk is shipped in the form of milk or cream

(1) to another pool plant or plants whether inside or outside the marketing area, and/or

(2) to another non-pool plant or plants within the marketing area, it shall be classified at the plant or plants to which it is shipped, and there shall be no limit on the number of inter-plant movements in the form of milk or cream (in other words, complete marketing area classification) except that milk or cream shipped to a non-pool plant outside the marketing area shall be classified at such non-pool plant unless the handler operating the pool plant from which such shipments are made to the non-pool plant elects in writing in his monthly reports to have classification of all milk or cream received during the month at such handler's pool plant and shipped as milk or cream to the non-pool plant determined at the pool plant from which the milk or cream is shipped to the non-pool plant.

(b) At the hearing appropriate methods of classifying and pricing milk moved from Order 27 plants to New Jersey order plants and vice versa, should be developed.

*Burden of proof and losses in transit.* Both orders should provide that the burden should rest on the handler receiving milk from producers to show that the milk should not be classified as Class I. If a handler can prove loss in transit, the milk equivalent shall be paid for at the Class II price.

*Period for establishing classification.* Both orders should provide that a period ending with the last day of the month following the month during which the milk was received from dairy farmers shall be allowed for handling such milk as a basis for establishing the classification as other than Class I.

Both orders should provide for establishing the same accounting procedure and appropriate rules and regulations.

*Classes of utilization for both orders.* (a) Class I shall be all milk sold or distributed as fluid milk in any federally regulated marketing area.

(b) Class I–A shall be all milk sold or distributed as fluid milk in any area not under federal regulation, except as defined in I–B.

(c) Class I–B shall be all milk sold or distributed as fluid milk in any area regulated by a state where compensatory payments are required on such milk. Both orders should expressly provide that this provision shall not be deemed a consent to or validation of the action of any state authority in imposing compensatory payments on milk under federal regulation without federal sanction.

(d) Concentrated fluid milk, fluid milk products, cultured or flavored milk drinks containing 3 percent or more but not more than 5.0 percent of butterfat sold or distributed in the Class I, Class I–A or Class I–B areas shall be classified the same as fluid milk in the same area.

(e) Class II: All milk received from producers at pool plants, except that which is classified as I, I–A, I–B, or III.

(f) Class III: All milk received from producers at pool plants, utilized for cheddar or cheddar type cheeses.

*Storage cream rebates.* With respect to Class II milk which is classified as storage cream or is on hand at the plant in the form of cream but subsequently is churned into butter, the Market Administrator shall credit the handler with 4 cents per pound of fat. Compare present Order 27, § 927.77 (b) and (c). (This provision should be the same in both orders.)

*Announcement of prices.* Both orders should provide that all class prices and uniform prices be announced on a 3.5 percent butterfat basis at the 201–210 mile zone.

*Class prices in both orders.* (a) Class I: Keep the present formula in Order 27, but provide for two changes, as follows:

(1) Adjust the base utilization percentage of 63.6 in the present Order 27 I–A formula to allow for the difference in the combined percentage of Class I milk in the two orders.

(2) Incorporate a new set of seasonal adjustment factors, as follows:

| | | | |
|---|---|---|---|
| January | 0.96 | July | 1.04 |
| February | .96 | August | 1.08 |
| March | .96 | September | 1.08 |
| April | .92 | October | 1.08 |
| May | .92 | November | 1.04 |
| June | .96 | December | 1.00 |

(b) Class I–A: (fluid milk in non-regulated area), uniform price plus 20 cents per hundredweight.

(c) Class I–B: (fluid milk in areas regulated by a state and upon which compensatory payments are required), Class II price in Order 27, described below.

(d) Class II: (all milk other than fluid milk and cheddar cheese)

(1) To be priced along the lines of present Order No. 27 Class III price, with appropriate modifications to reflect local conditions more realistically.

(2) For Class II milk utilized in butter, the Class II price under Order 27 (described above) minus 4.0 cents per pound of butterfat.

(e) Class III: (milk utilized for cheddar cheese). The formula price for this class to be based on the Wisconsin assembly point price of state brand cheddar cheese, with appropriate yield factor and making allowance.

*Fluid skim differential.* There shall be no fluid skim differential under either order.

*Butterfat differentials under both orders.* (a) Paid by handlers:

(1) Classes I, I–A and I–B, 4 cents per point.

(2) Class II, fat value in Class II (butter + 2 × 1.22 × 3.5) minus $0.33 divided by 35.

(3) Class III to be determined on the basis of evidence presented at the hearing.

(b) Paid to producers (uniform price). Weighted average butterfat differential paid by handlers on all milk in pool under Order No. 27.

*Location differential.* Both orders should provide that any and all location differentials should be paid out of the respective pools, and no part should be payable by the handler.

Provisions of Order 27 which should be incorporated in Order 27 and the New Jersey Order:

(a) Compensatory payments: These need not necessarily be the same in both orders.

(b) Expense of administration.

Miscellaneous provisions common to both orders:

(a) Termination of obligations.

(b) Continuing obligation of handlers.

(c) Liquidation.

(d) Appointment of agents by the Secretary.

One and the same market administrator should administer both orders and the rules and determinations under both orders should be the same.

Proposals for a separate order for Northern New Jersey and amendments to Order No. 27; proposed by a group of 23 members of the Milk Dealers Association of Northern New Jersey:

The respective orders must recognize and encompass the following:

1. The Northern New Jersey marketing area should include the four nearby New York counties located west of the Hudson River, and the Order 27 marketing area should include the two nearby New York counties located east of the Hudson River, or provision should be made for competitive pricing in those six nearby New York counties.

2. Market-wide pool for Northern New Jersey Order.

3. Equalization of prices to producers regardless of area in which their milk is marketed.

4. Equalization of cost of milk to dealers at given point or points in the marketing area or areas.

5. Freedom of movement and marketing of milk in both marketing areas.

6. Competitive pricing of milk marketed in non-federally regulated markets.

7. Recognition of long established open cream market in New Jersey as distinguished from New York City.

8. Classification of milk in the marketing areas.

9. Any new regulation for Northern New Jersey not effective until effective date of amended Order 27 designed to be compatible with such new Northern New Jersey Order.

10. Certified milk shall not be pooled.

Proposed order for Northern New Jersey; proposed by a group of 12 members of the Milk Dealers Association of Northern New Jersey:

DEFINITIONS

A. *Marketing area.* The marketing area shall include the following thirteen (13) counties in Northern New Jersey: Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Union and Warren and herein referred to as North Jersey.

B. *Others.* At the Hearing, definitions should be developed for: (1) Producer, (2) producer-handler, (3) dairy farmer, (4) Secretary, (5) Director, (6) Special premium grade A milk or equivalent, (7) person, (8) pool plant, (9) base-rating, (10) re-load plant, (11) other sources, (12) regulated plant, (13) city plant, (14) country plant, (15) reserve plant, etc. This list is not considered to be all inclusive.

MARKET ADMINISTRATOR

North Jersey Order should provide that it be administered by a Market Administrator, selected by the Secretary of the United States Department of Agriculture and the Director of the Office of Milk Industry, New Jersey State Department of Agriculture with his compensation, powers and duties to be set forth in accordance with the latest federal orders issued or to be issued.

POOL PLANTS

A. Plants eligible for pool plant status under North Jersey Order as of the effective date of the order:

1. Any person who operted a plant receiving milk for producers which plant shipped milk for fluid use into the marketing area of North Jersey Order during any of the months of July through December 1955 is qualified to have such plant designated as a pool plant provided such plant has a license issued by the New Jersey State Department of Health as an "A", or "B" or "C" designation and/or by any other health authority in the area.

2. Any person who operated a plant receiving milk from producers which plant was a reserve suply for the marketing area of North Jersey Order is qualified to have such plant designated as a pool plant prior to the effective date of the North Jersey Order provided it has a license from the New Jersey State Department of Health.

B. Requirements: In order to be designated as a pool plant upon application, the plant must maintain a license from a health authority in the area for shipment of milk for fluid use in the marketing area, be located in New York State, Vermont, Massachusetts, Connecticut, Pennsylvania, New Jersey, Maryland and Delaware and, in addition, the person operating the plant shall meet each of the following requirements.

1. Be willing to ship all the milk received at the plant from dairy farmers or producers to the marketing area.

2. Have no commitments for the disposition of the milk or milk products at the plant which would prevent the operator from shipping the fluid milk received at the plant from producers to the marketing area.

3. Any person who operated a plant which was pooled on the basis of shipping plant provision for 12 consecutive months, may apply to have such plant designated as a pool plant under North Jersey Order, effective the following month provided application is made prior to end of the 12th month.

C. Shipping plants: For any month a plant which ships Class I fluid milk to the marketing area, either directly or through other plants, which quantity of milk during the months of July through March is equal to more than 40 percent of the milk received from producers, or during the month of April through June is equal to more than 10 percent of the milk received directly from producers, shall automatically be designated a pool plant; *Provided*, that for the months of April, May or June no plant at which milk was received from producers shall be a pool plant on this basis unless during the preceding July, August, September and October at least 60 percent of such milk for each month is Class I, either directly or through other plants, was sold or distributed in or shipped to the marketing area in the form of milk.

D. Suspension and cancellation: North Jersey Order should provide:

1. That the designation of any plant as a pool plant shall be cancelled at the end of any month of December through April upon 15 days' prior notice to the Market Administrator by the person operating the plant and designation of pool plant once cancelled cannot be reinstated except when complying with B–3 of this section.

2. For an emergency milk provision that can be made effective in time of short supply and suspension upon noncompliance.

E. Plant replacements and change of operator: North Jersey Order should provide:

1. For replacement of one pool plant by another upon application made by the person operating the plant to the Market Administrator showing that the plant is a replacement for one or more pool plants.

2. That the designation of a plant as a pool plant in accordance with III-B shall be considered as applicable to the plant and subject to cancellation and suspension in accordance with III-D, regardless of change in the person owning or operating the plant.

CLASSIFICATION

A. Classification shall be determined at the plant at which milk is received from producers: *Provided*, That if such milk is shipped in the form of milk or cream to another plant or plants both outside and inside the marketing area, it shall be classified at the plant or plants to which it is shipped, and there shall be no limit on the number of interplant movements in the form of milk or cream, except when shipped to a non-pool plant outside the marketing area.

When milk or cream is shipped to a non-pool plant outside the marketing area, the classification of milk shipped in the form of milk and of milk, the butterfat from which is shipped in the form of cream and fluid skim milk shall be determined at the non-pool plant, unless the handler operating the pool plant from which such shipments are made to the non-pool plant elects in writing on his monthly reports to have classification of such milk, skim milk or cream received during the month at such handler's pool plant and shipped as milk, skim milk or cream to the non-pool plant determined at the pool plant from which the milk, skim milk or cream is shipped to the non-pool plant.

B. Burden of proof: The burden of proof should rest on the handler receiving milk from producers to show that the milk should not be classified as Class I. If a handler cannot prove loss of milk and milk products in transit, the milk shall be paid for at the Class I price; otherwise loss shall be plant loss at the Origin of shipment.

C. Period for establishing classification: A period ending with the last day of the month following the month during which the milk was received from dairy farmers shall be allowed for handling such milk as a basis for establishing the classification as other than Class I.

D. Classes of utilization:

1. Class I shall be all milk sold, distributed, or disposed of as fluid milk in the marketing area and not accounted for in any other class in this paragraph.

2. Class I–A shall be all milk sold or distributed as fluid milk in any other federally regulated marketing area.

3. Class I–B shall be all milk sold or distributed as fluid milk in any area not under federal regulation.

4. Class II shall be all milk products, the utilization of which is established as being sold, distributed, or disposed of and not established in Class II–A and plant shrinkage not in excess of 2% of the volume received from producers.

5. Class II–A shall be all milk products utilized for and made by Cheddar, Colby, or washed curd process utilized for processed cheese, butter, milk powder over 10% butterfat and chocolate products.

CLASS PRICES AND PAYMENTS TO PRODUCER

A. Announcement of prices: All class prices and uniform prices to be announced on a 3.7% butterfat basis at City Hall, Newark, New Jersey.

B. Class prices:

1. *Class I.* Use the present formula in order 61, Philadelphia marketing area with appropriate changes as may be developed at the Hearing for 3.7% Milk.

2. *Class I–A.* Same as Class I milk applicable in marketing area to which milk was shipped adjusted for 3.7% Butterfat.

3. *Class I–B.* Price shall be competitive with unregulated milk sold in same area.

4. *Class II.* (All milk other than fluid, cheese, butter, milk powder over 10% butterfat and chocolate products.) The formula price for this class to be: Fat value, (New York butter + 2 Cents × 1.22 × 3.7) plus non-fat value (weighted average prices of roller process (70%) and spray process (30%) non-fat dry milk solids at New York as reported by Urner-Barry × 7.5) minus 80 cents.

5. *Class II–A.* (Milk utilized for processed cheese, butter, milk powder over 10% butterfat, and chocolate products.) The formula price for this class to be four times the average wholesale price of 92-score butter at New York City, New York.

C. Fluid skim differential. There shall be no fluid skim differential.

D. Butterfat differentials using 3.7% as a base butterfat test.

1. Paid by handlers:

(a) Classes I, I–A, I–B, 4 cents per 1/10 of one percent of butterfat.

(b) Class II, fat value in Class II (butter+2×1.22×3.7) minus $0.33 divided by 37.

(c) Class II–A to be about 7 cents per 1/10% of butterfat or its equivalent value in butter.

2. Paid to producers (zone-blend price). Weighted average butterfat differential paid by handlers on all milk in pool on monthly basis.

E. Payment to producers to be on a base rating plan with the months of July, August, September and October to be used for establishing bases which must be kept in relation to Class I sales.

F. Area prices to be considered f. o. b. Newark, New Jersey.

G. Compensatory payments shall be paid by persons receiving milk in the marketing area from other sources, except from plants under Order No. 27.

MILEAGE ZONES AND PLANT PRICE DIFFERENTIALS

A. Mileage zones for country plants:

1. To be measured from City Hall, Newark, New Jersey.

2. At the hearing establish plant handling and transportation differentials.

B. Transportation differentials between mileage zones to be established on basis of evidence presented at the Hearing and set forth in a table.

1. The differential on Class I to be based on current costs of transportation as between mileage zones.

2. The differentials on Class II and Class II-A to be based on current costs of transportation as between mileage zones.

3. Zone price differentials paid to producers from the pool to be set forth in a table.

C. Mileage zones for specified plants and producer differentials:

1. The call of the hearing should be broad enough to permit equitable cost to handlers and equitable returns to producers.

PRODUCER DEALERS' AND HANDLERS' OWN HERD MILK

The method of handling dealer's own herd milk presents a special problem in North Jersey and should be given adequate consideration at the hearing as to whether or not it should be pooled.

BULK TANK PICKUP

North Jersey Order should provide that minimum prices to producers on bulk tank milk be based on the zone in which the milk house is located and in line with minimum prices at pool plants in the same area, with a provision for an appropriate differential to compensate handlers for the extra services rendered producers when milk is picked up at the milk house on a bulk tank basis.

Proposed order for Northern New Jersey and proposed amendment of Order No. 27, proposed by I. Elkin Nathans on behalf of Order 27 handlers: Mifflin Creamery Co. Inc., W. M. Evans Dairy Co. Inc., Lancaster Milk Company, Grover Farms Inc.; unregulated handlers: Lancaster Milk Company, Christiana Milk Products Co. Inc., The H. E. Koontz Creamery Inc., Tri-County Dairy Co. Inc., Hohneker's Dairy.

Proposals common to both orders:

1. *Definitions.* Act, Secretary, person, dairy farmers, producer, handler, plant, market Administrator: Same as §§ 927.1, 927.2, 927.4, 927.5, 927.6, 927.7, 927.8, and 927.10 of Order 27.

Marketing area:

For Order 27: Same as § 927.3 of Order 27.

For Order X: "The Northern New Jersey metropolitan milk marketing area" (hereinafter called the "marketing area") means all territory within the boundaries of the counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union and Warren, all in the state of New Jersey, and the counties of Dutchess, Orange, Putnam, Rockland, Sullivan and Ulster, all in the state of New York together with all piers, docks, and wharves connected therewith and all crafts moored thereat, and including territory within such boundaries which is occupied by government (Municipal, State, Federal or International) reservations, installations, institutions, or other establishments.

Pool plant: "Pool plant" means any plant which is designated as a pool plant pursuant to (as to Order 27 §§ 927.20, 927.22, 927.25 or 927.27 and as to Order X appropriate corresponding sections).

2. *Market Administrator.* Selection; compensation; powers and duties: Same as §§ 927.15, 927.16, 927.17 and 927.18 of Order 27 except that section numbers shown in § 927.18 (e) would refer to appropriate sections of Order X.

Proposed: That there be a single Market Administrator to administer the terms and provisions of both Order X and Order 27.

The following provisions are not common to both orders and our proposals are:

3. *Pool Plants; Order X.* The order shall not become effective until two months after the first day of the month following that in which the Secretary determines and announces the provisions of the order have been approved by the required number of dairy farmers eligible to vote thereon.

*Carry-over designation; Order X.* Any plant located in the States of New Jersey, New York, Vermont, Massachusetts, Connecticut, Pennsylvania, Delaware or Maryland, approved as a source of milk supply by a health authority in the marketing area at the time this order becomes effective, provided such plant is not at that time designated as a pool plant under another order of the Secretary, and from which shipments of fluid milk, fluid skim milk, or fluid cream were made into the marketing area during any of the months of July through December 1955, is hereby designated as a pool plant until such designation is cancelled pursuant to Sec. _____ of this order: *Provided*, however, such designation shall not apply to any person operating such plant if such person notifies the Secretary in writing within the calendar month following that in which the Secretary has announced the order had been approved in a referendum of dairy farmers, that he does not desire such designation.

*Eligible applicants; Order X.* Any person operating a plant located in the States of New Jersey, New York, Vermont, Massachusetts, Connecticut, Pennsylvania, Delaware or Maryland, which is approved as a source of milk supply by a health authority in the marketing area, may apply to the Secretary at any time during the first 12 months this order is in effect for designation as a pool plant, and thereafter may so apply before May 31 of any year for designation as a pool plant effective as of July 1. Applications shall be addressed to the Secretary and filed at the office of the Market Administrator. No such application may be made after the first 12 months in which this order is in effect by any person for a plant which was a designated pool plant during any of the 12 months preceding such application.

*Pool Plants; Order 27.*

*Carry-over designation; Order 27.* Same as § 927.20 of Order 27 except: Change "November 1944" to "November 1955."

*Eligible applicants; Order 27.* Same as § 927.21 of Order 27 except: Change "October, November and December" to "July, August, September, October and November" and change "July 1" to "June 1." Add the following: No such application may be made by any person for a plant which was designated pool plant during any of the 12 months preceding such application.

Provision common to both Orders X and 27:

*Requirements.* To qualify as a pool plant pursuant to Sec. _____ (as to Order X the sections entitled "Carry-over designation" and "Eligible Applicants" and as to Order 27 §§ 927.20, 927.22 or 927.25 of that order) the person operating the plant shall meet each of the following requirements:

Same as § 927.23 (a) (b) of Order 27 and (c) changed to read: "Have no commitments for the disposition of milk at the plant which would prevent the operator from being able to direct the shipments of the milk received at the plant from dairy farmers to the marketing area in order to comply with the call milk requirements of the order."

Further provisions common to both Order X and Order 27:

*Designation upon application.* Same as § 927.22 of Order 27 except: Change "August 1" in three places to "July 1."

*Suspension and cancellation of designation.* Same as § 927.24 of Order 27

except: In subsection (a) eliminate the words "during the months of April through July of any year" and the words "and, in addition, the designation shall be cancelled effective either on the first day of February or the first day of March 1954 upon application of the handler submitted to the Market Administrator prior to the effective date of cancellation." In subsection (b) change "June 15" to "May 15" and in final line change "August 1" to "July 1."

*Plant replacements.* Same as § 927.26 of Order 27.

*Plants shipping Class I milk to the marketing area.* Same as § 927.27 of Order 27 except: Change "Class I–A" to "Class I" and change "October, November and December" to "July, August, September, October and November" and change "60 percent" to "50 percent." In final proviso, change "January through July" to "January through June."

*Classification; basis for determination.* Classification shall be determined at the plant at which milk is received from producers: *Provided*, That if milk is shipped in the form of milk or cream

(a) To another pool plant or plants whether inside or outside the marketing area, and/or

(b) To another non-pool plant or plants within the marketing area, it shall be classified at the plant or plants to which it is shipped, and there shall be no limit on the number of inter-plant movements in the form of milk or cream (in other words, complete marketing area classification), except that milk or cream shipped to a non-pool plant outside the marketing area shall be classified at such non-pool plant unless the handler operating the pool plant from which such shipments are made to the non-pool plant elects in writing on his monthly reports to have classification of all milk and cream to the non-pool plant determined at the pool plant from which the milk or cream is shipped to the non-pool plant.

(As to Order 27 the above is a substitute for § 927.33.)

*Plant loss.* Allowances for plant loss on milk classified in Classes I, I–A, I–B and II not to exceed 5 percent of the butterfat in the product resulting from any such specific plant operation shall be classified in Class II; and from any specific plant operation classified as Class III plant loss shall be classified as Class III.

*Burden of proof.* The burden of proof should rest on the handler receiving milk from producers to show that the milk should not be classified as Class I. If a handler can prove loss in transit, the milk equivalent shall be paid for at the Class II price.

*Period for establishing classification.* A period ending with the last day of the month following the month during which the milk was received from producers shall be allowed for handling such milk as a basis for establishing the classification other than Class I.

*Accounting procedure and rules and regulations.* Both Order X and Order 27 must provide for accounting procedure and rules and regulations. As far as we can see the provisions of § 927.35 and § 927.36 of Order 27 are adequate and applicable to both orders with Order X to provide for appropriate section references.

Classification—Classes of Utilization:

Class I: Fluid milk and other products defined in Sec. 927.37 (a) of Order 27.

Class I–A: Fluid milk and other products as defined in § 927.37 (b) of Order 27 for use in other Federally regulated markets.

Class I–B: Fluid milk and other products as defined in § 927.37 (c) of Order 27 for use in markets outside the marketing area other than Federally regulated markets.

Class II: Butterfat in the form of cream for all uses and other products defined in § 927.37 (d) and in § 927.37 (e) of Order 27.

Class III: Milk utilized in Cheddar, American Cheddar, Colby, washed curd, or part skim Cheddar cheese, or is assigned to plant loss which pursuant to § 927.34 (as to Order X appropriate section) is associated with such products.

Class IV: Milk utilized in butter.

Minimum prices:

Class I: Sec. 927.40 (a) to be incorporated except § 927.40 (a) (9) and (11) to be amended to read:

(9) Adjust the base utilization percentage in Order X of 63.6 upward to allow for the higher percent of Class I milk in such order than in Order 27. (However, it is difficult to see how a correct figure can be applied until it is known from experience what will be the percentage of Class I to total receipts after the pool is set up and in operation).

(11) Incorporate a new set of seasonal adjustment factors as follows:

| | | | |
|---|---|---|---|
| January | 0.96 | July | 1.04 |
| February | .96 | August | 1.08 |
| March | .96 | September | 1.08 |
| April | .92 | October | 1.08 |
| May | .92 | November | 1.04 |
| June | .96 | December | 1.00 |

Class I: On shipments of Class I milk made by handlers under Order X into the marketing area of Order 27; or by handlers under Order 27 into the marketing area of Order X the price shall be the Class I price fixed in the order regulating the marketing area to which the milk is shipped and so utilized. As to other Federally regulated markets, principally Order 61, the compensatory provisions similar to § 927.78 of Order 27 should be retained, due to the fact that under Order 61 shipments of non-producer milk may be brought in without bringing the shipping plant under regulation, thus defeating the provisions of the compensatory payment section. However, § 927.78 as it would be incorporated in Order X and Order 27 should specify it is not applicable to Class I milk regulated by Order X or Order 27 as the case may be.

Class I–B: For Class I–B milk the price shall be the uniform price computed by the market administrator pursuant to Sec. ____ plus 20 cents per hundredweight.

Class II: Same as § 927.40 (f) of Order 27.

Class III: The formula price for this class to be based on the Wisconsin assembly price of state brand cheddar cheese, with appropriate yield factor and making allowance as developed in the hearing.

Class IV: For milk utilized in butter the Class II price minus 4.0 cents per pound of butterfat.

Butterfat differentials: Same as § 927.41 of Order 27 except: change "II and III" to "II" and provide that Classes III and IV be on direct ratio for the butterfat portion of the milk.

Transportation differentials.—A. Mileage zones for plants:

1. To be measured from the Manhattan entrance to the Holland Tunnel.

2. At the hearing establish key points in the milk shed and milk tank truck routes and mileages to the representative point in the marketing area.

3. Provide that mileages from other locations not at key points be established as the result of rules and regulations meeting, on basis of shortest practical milk tank route to the key point route, and appropriate adjustment in key point mileage.

B. Transportation zone differentials:

1. Payable by handlers: the differentials between mileage zones to be paid by handlers to be established on the basis of evidence presented at the hearing. But that whatever zone differential is established as representing true transportation cost in zones under 201–210 miles be carried through into zones over 201–210 miles to the end that the cost of milk from all zones be priced the same f. o. b. the marketing area basing point. Sufficient evidence has not been presented in any previous hearing as to what actual current transportation costs really are. Interested parties should be called upon to present such evidence.

2. Differentials to producers to be established on basis of evidence at the hearing.

Location differentials: Location differentials, if any, should be identical for both Order X and Order 27 and should be paid entirely out of the pool, and no part should be paid by handlers.

Other sections of Order 27 not specifically covered above would appear to be applicable to both Orders X and 27. These are:

Sec.
927.45 Use of equivalent price or index.
927.46 Announcement of prices
927.50 Reports of handlers.
927.51 Producer payroll reports.
927.52 Storage cream reports.
927.53 Other reports.
927.54 Verification of reports and payments.
927.55 Retention of records.
927.60 Determination of uniform price: General provisions to be followed subject to whatever location differentials, if any, are continued. Change reference to "I–C" to "I–B."
927.61 Computation of the uniform price: General provisions to be followed. Change "I–C" to "I–B."
927.62 Announcement of uniform price and weighted average butterfat differential.
927.65 Time and rate of payments.
927.66 Transportation and location differentials: In (b) delete "plus five cents."
927.67 Butterfat differential in uniform price.
927.70 Producer settlement fund.

Sec.
927.71 Handlers' accounts.
927.72 Payment to the producer settlement fund.
927.73 Payment out of the producer settlement fund.
927.74 Handlers' pool debit or credit.
927.75 Adjustment of errors in payments.
927.79 Payments on milk or milk products the source of which is not established.
927.80 Expense of administration — payments by handlers.
927.85 Termination of obligations.
927.86 Continuing obligation of handlers.
927.87 Continuing power and duty of market administrator.
927.88 Liquidation.
927.89 Agents.

Producer handlers: The provision that milk received from farms in Nassau or Suffolk counties, New York, which farms are not approved for the sale of milk in New York City, or received from the handler's own farm shall not be included in the determination of the uniform price (§ 927.60 of Order 27) should be continued as to Order 27. But such receipts in the area regulated by Order X should be so included.

Bulk tank shipments: The provisions of § 927.35 (a) and § 927.60 (f) as amended effective February 1, 1956 should be continued as to Order 27 and included in Order X, subject to such testimony as may be adduced at the hearing as is the amount, if any, of location differentials and the area in which they shall apply.

Under these proposals § 927.43 of Order 27—Butter-cheese differential adjustment; § 927.44—Skim milk differential; and § 927.77—Cream payments would be eliminated from Order 27 and also would not be proposed for Order X.

As to Order 27, make such further changes in all of our proposals as may be necessary, if inadvertently overlooked, through which there would be conflict by reason of our proposal to merge present Class II and Class III into one classification to be designated as Class II.

Proposals for a Northern New Jersey Order; Proposed by Lehigh Valley Cooperative Farmers and the Warren County Milk Dealers' Association:

1. The marketing area shall not include the counties of Sussex, Hunterdon, and Warren, all in the State of New Jersey.

2. The rate of payment per hundredweight to be paid by handlers located in the Commonwealth of Pennsylvania for milk disposed of within the marketing area as Class I shall be no less than the Class I prices determined under this order, with applicable deductions and differentials. Any payments required under this section shall be made by handlers to producers from whom such milk is received and shall not require payments in any form whatsoever into the Producer Settlement Fund or Market Pool established in this order.

3. Each handler located in the Commonwealth of Pennsylvania, and outside the Milk Marketing Area, shall pay to the Market Administrator ___ cents or such lesser amount as the Secretary shall prescribe for each hundredweight of Class I milk disposed of in the Marketing Area as Class I milk as his share of the expenses of this order.

Copies of this notice of hearing, and of Order No. 27, as amended, may be procured from the Market Administrator, 205 East 42d Street, New York 17, New York, or from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., or may be there inspected.

Dated: May 18, 1956.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

### AVOCADOS

### NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Department is giving consideration to the issuance of quality restrictions regarding the importation of avocados into the United States, and to requiring inspection and certification of each such import by the Federal or Federal-State Inspection Service pursuant to the provisions of § 1060.153 of the general regulations (Part 1060, 19 F. R. 7707, 8012) applicable to the importation of certain listed commodities (including avocados).

The requirements under consideration are to impose the same restrictions with respect to grade on imports of avocados that are imposed on the handlers of Florida avocados as set forth in the quality regulation which is being issued to become effective June 1, 1956, pursuant to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969; 20 F. R. 4177), regulating the handling of avocados grown in south Florida. The applicable regulatory provisions of such regulation are contained in paragraphs (b) and (c) thereof and are as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 1, 1956, and ending at 12:01 a. m., e. s. t., April 30, 1957, no handler shall handle any avocados unless such avocados (i) grade at least No. 2 Grade, * * *.

(c) As used herein "No. 2 Grade" * * * shall have the same meaning as in paragraph (c) * * * of § 969.130 of the supplementing rules and regulations, as amended (21 F. R. 2409).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposals set forth in the preceding paragraph should do so by forwarding the same to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2077, South Building, Washington 25, D. C., not later than the fifth day after the publication of this notice in the FEDERAL REGISTER.

Dated: May 22, 1956.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

### [ 26 CFR (1954) Part 1 ]

### INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

### TREATMENT OF EXCESS DISTRIBUTIONS BY TRUSTS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T: P, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 665 (c), 665 (d), 668 (a), and 7805 of the Internal Revenue Code of 1954 (68A Stat. 223, 224, 225, and 917; 26 U. S. C. 665 (c), 665 (d), 668 (a), and 7805).

[SEAL] RUSSELL C. HARRINGTON, *Commissioner of Internal Revenue.*

The following regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, except where otherwise specifically provided, are hereby prescribed under sections 665 through 668 of the Internal Revenue Code of 1954:

TREATMENT OF EXCESS DISTRIBUTIONS BY TRUSTS

Sec.
1.665–1 Excess distributions by trusts; scope of Subpart D.
1.665 (a) Statutory provisions; excess distributions by trust; definition of undistributed net income.
1.665 (a)–1 Undistributed net income.
1.665 (b) Statutory provisions; excess distributions by trust; definition of accumulation distribution.
1.665 (b)–1 Accumulation distribution.
1.665 (c) Statutory provisions; excess distributions by trust; definition of taxes imposed on the trust.
1.665 (c)–1 Taxes imposed on the trust.
1.665 (d) Statutory provisions; excess distributions by trust; definition of preceding taxable year.
1.665 (d)–1 Preceding taxable years.
1.665 (d)–2 Application of separate share rule.
1.666 (a) Statutory provisions; excess distributions by trusts; allocation of accumulation distribution.
1.666 (a)–1 Amount allocated.
1.666 (b) Statutory provisions; excess distributions by trusts; total taxes deemed distributed.
1.666 (b)–1 Total taxes deemed distributed.
1.666 (c) Statutory provisions; excess distributions by trusts; pro rata portion of taxes deemed distributed.
1.666 (c)–1 Pro rata portion of taxes deemed distributed.
1.666 (Examples) Examples.
1.667 Statutory provisions; excess distributions by trusts; denial of refund to trusts.

Sec.
1.667–1 Denial of refund to trusts.
1.668 (a) Statutory provisions; excess distributions by trusts; treatment of amounts deemed distributed in preceding taxable years; amounts treated as received in prior taxable years.
1.668 (a)–1 Amounts treated as received in prior taxable years.
1.668 (b) Statutory provisions; excess distributions by trusts; treatment of amounts deemed distributed in preceding taxable years; credit for taxes paid by trust.
1.668 (b)–1 Credit for taxes paid by the trust.
1.668 (Example) Example.

TREATMENT OF EXCESS DISTRIBUTIONS BY TRUSTS

§ 1.665–1 *Excess distributions by trusts; scope of subpart D.* Sections 665 through 668 (subpart D) are designed generally to prevent a shift of tax burden to a trust from a beneficiary or beneficiaries. To accomplish this, the sections provide special rules for treatment of amounts paid, credited, or required to be distributed by a complex trust (subject to sections 661 through 663 (subpart C)) in any year in excess of distributable net income for that year. Such an excess distribution is defined as an accumulation distribution, subject to the limitations in section 665 (b). An accumulation distribution is "thrown back" to each of the five preceding years in inverse order. That is, it will be taxed to the beneficiaries of the trust in the year the distribution is made or required, but in general only to the extent of the distributable net income of those years which was not in fact distributed. However, the resulting tax will not be greater than the aggregate of the taxes that would have been attributable to the amounts thrown back to previous years had they been included in gross income of the beneficiaries in those years. To prevent double taxation, the beneficiaries receive a credit for any taxes previously paid by the trust which are attributable to the excess thrown back. Sections 665 through 668 (subpart D) do not apply to any estate.

§ 1.665 (a) *Statutory provisions; excess distributions by trust; definition of undistributed net income.*

SEC. 665. *Definitions applicable to subpart D*—(a) *Undistributed net income.* For purposes of this subpart, the term "undistributed net income" for any taxable year means the amount by which distributable net income of the trust for such taxable year exceeds the sum of—

(1) The amounts for such taxable year specified in paragraphs (1) and (2) of section 661 (a); and

(2) The amount of taxes imposed on the trust.

§ 1.665 (a)–1 *Undistributed net income.* (a) The term "undistributed net income" means for any taxable year the distributable net income of the trust for that year as determined under section 643 (a), less—

(1) The amount of income required to be distributed currently and any other amounts properly paid or credited or required to be distributed to beneficiaries in the taxable year as specified in paragraphs (1) and (2) of section 661 (a), and

(2) The amount of taxes imposed on the trust, as defined in § 1.665 (c)–1.

The application of the rule in this paragraph to the first year of a trust in which income is accumulated may be illustrated by the following example:

*Example.* Assume that under the terms of the trust, $10,000 of income is required to be distributed currently to A and the trustee has discretion to make additional distributions to A. During the taxable year 1954 the trust had distributable net income of $30,100 derived from royalties and the trustee made distributions of $20,000 to A. The taxable income of the trust is $10,000 on which a tax of $2,640 is paid. The undistributed net income of the trust as of the close of the taxable year 1954 is $7,460 computed as follows:

| | | |
|---|---|---|
| Distributable net income | | $30,100 |
| Less: | | |
| Income currently distributable to A | $10,000 | |
| Other amounts distributed to A | 10,000 | |
| Taxes imposed on the trust (see § 1.665 (c)–1) | 2,640 | |
| | | 22,640 |
| Undistributed net income | | 7,460 |

See also paragraphs (e) (1) and (f) (1) of § 1.668 (Example) for additional illustrations of the application of the rule in this paragraph to the first year of a trust in which income is accumulated.

(b) However, the undistributed net income for any year to which an accumulation distribution for a later year may be thrown back may be reduced by accumulation distributions in intervening years and any taxes imposed on the trust which are deemed to be distributed under section 666 by reason of the accumulation distributions. On the other hand, undistributed net income for any year will not be reduced by any distributions in an intervening year which are excluded from the definition of an accumulation distribution under section 665 (b), or which are excluded under section 663 (a) (1). See paragraph (f) (5) of § 1.668 (Example) for an illustration of the reduction of undistributed net income for any year by a subsequent accumulation distribution.

§ 1.665 (b) *Statutory provisions; excess distributions by trust; definition of accumulation distribution.*

SEC. 665. *Definitions applicable to subpart D.* • • •

(b) *Accumulation distribution.* For purposes of this subpart, the term "accumulation distribution" for any taxable year of the trust means the amount (if in excess of $2,000) by which the amounts specified in paragraph (2) of section 661 (a) for such taxable year exceed distributable net income reduced by the amounts specified in paragraph (1) of section 661 (a). For purposes of this subsection, the amount specified in paragraph (2) of section 661 (a) shall be determined without regard to section 666 and shall not include—

(1) Amounts paid, credited, or required to be distributed to a beneficiary as income accumulated before the birth of such beneficiary or before such beneficiary attains the age of 21;

(2) Amounts properly paid or credited to a beneficiafy to meet the emergency needs of such beneficiary;

(3) Amounts properly paid or credited to a beneficiary upon such beneficiary's attaining a specified age or ages if—

(A) The total number of such distributions cannot exceed 4 with respect to such beneficiary,

(B) The period between each such distribution to such beneficiary is 4 years or more, and

(C) As of January 1, 1954, such distributions are required by the specific terms of the governing instrument; and

(4) Amounts properly paid or credited to a beneficiary as a final distribution of the trust if such final distribution is made more than 9 years after the date of the last transfer to such trust.

§ 1.665 (b)–1 *Accumulation distribution*—(a) *In general.* (1) Subject to the limitations set forth in paragraph (b) of this section the term "accumulation distribution" for any taxable year means an amount (if in excess of $2,000) by which the amounts properly paid, credited, or required to be distributed within the meaning of section 661 (a) (2) for that year exceed the distributable net income (determined under section 643 (a)) of the trust, reduced (but not below zero) by the amount of income required to be distributed currently. In computing the amount of an accumulation distribution pursuant to the preceding sentence, there is taken into account amounts applied or distributed for the purpose specified in section 677 (b) or section 678 (c) out of corpus or out of other than income for the taxable year and amounts used to discharge or satisfy any person's legal obligation as that term is used in § 1.662 (a)–4. If the distribution as so computed is $2,000 or less, it is not an accumulation distribution within the meaning of sections 665 through 668 (subpart D). If the distribution exceeds $2,000, then the full amount is an accumulation distribution for the purposes of sections 665 through 668 (subpart D).

(2) Although amounts properly paid, credited, or required to be distributed under section 661 (a) (2) do not exceed the income of the trust during the taxable year, an accumulation distribution may result if such amounts exceed distributable net income. This may result from the fact that expenses allocable to corpus are taken into account in determining taxable income and hence distributable net income. However, the provisions of sections 665 through 668 (subpart D) will not apply unless there is undistributed net income in at least one of the five preceding taxable years. See section 666 and the regulations thereunder.

(3) The provisions of subparagraphs (1) and (2) of this paragraph may be illustrated by the following examples (it is assumed in each case that the exclusions provided in paragraph (b) do not apply):

*Example (1).* A trustee properly makes a distribution to a beneficiary of $20,000 during the taxable year 1956, of which $10,000 is income required to be distributed currently to the beneficiary. The distributable net income of the trust is $15,000. There is an accumulation distribution of $5,000 computed as follows:

| | | |
|---|---|---|
| Total distribution | | $20,000 |
| Less: Income required to be distributed currently (section 661 (a) (1)) | | 10,000 |
| Other amounts distributed (section 661 (a) (2)) | | 10,000 |
| Distributable net income | $15,000 | |
| Less: Income required to be distributed currently | 10,000 | |
| Balance of distributable net income | | 5,000 |
| Accumulation distribution | | 5,000 |

*Example (2).* Under the terms of the trust instrument, an annuity of $15,000 is required to be paid to A out of income each year and the trustee may in his discretion make distributions out of income or corpus to B. During the taxable year the trust had income of $18,000, as defined in section 643 (b), and expenses allocable to corpus of $5,000. Distributable net income amounted to $13,000. The trustee distributed $15,000 of income to A and, in the exercise of his discretion, paid $5,000 to B. There is an accumulation distribution of $5,000 computed as follows:

| | | |
|---|---|---|
| Total distribution | | $20,000 |
| Less: Income required to be distributed currently to A (section 661 (a) (1)) | | 15,000 |
| Other amounts distributed (section 661 (a) (2)) | | 5,000 |
| Distributable net income | $13,000 | |
| Less: Income required to be distributed currently to A | 15,000 | |
| Balance of distributable net income | | 0 |
| Accumulation distribution to B | | 5,000 |

*Example (3).* Under the terms of a trust instrument, the trustee may either accumulate the trust income or make distributions to A and B. The trustee may also invade corpus for the benefit of A and B. During the taxable year, the trust had income as defined in section 643 (b) of $22,000 and expenses of $5,000 allocable to corpus. Distributable net income amounts to $17,000. The trustee distributed $10,000 each to A and B during the taxable year. There is an accumulation distribution of $3,000 computed as follows:

| | | |
|---|---|---|
| Total distribution | | $20,000 |
| Less: Income required to be distributed currently | | 0 |
| Other amounts distributed (section 661 (a) (2)) | | 20,000 |
| Distributable net income | | 17,000 |
| Accumulation distribution | | 3,000 |

(4) There are not taken into account, in computing the accumulation distribution for any taxable year, any amounts deemed distributed in that year because of an accumulation distribution in a later year. Thus, if a trust, reporting on the calendar year basis, makes an excess distribution of $1,000 for the taxable year 1955 and an accumulation distribution as defined in subparagraph (1) of this paragraph of $5,000 for 1956, and in 1956 $1,060 is deemed distributed under section 666 (b) or (c) as of the last day of 1955, the amount of $6,060 will not be added to the excess distribution for the year 1955 for the purpose of determining whether an accumulation distribution was made in 1955.

(b) *Exclusions.* (1) Certain amounts paid, credited, or required to be distributed to a beneficiary are excluded under section 665 (b) in determining whether there is an accumulation distribution for the purposes of sections 665 through 668 (subpart D). These exclusions are solely for the purpose of determining the amount allocable to preceding years under section 666 and in no way affect the determination under sections 661 through 663 (subpart C) of the beneficiary's tax liability for the year of distribution. Further, amounts excluded from accumulation distributions do not reduce the amount of undistributed net income for the 5 years preceding the year of distribution. The amounts excluded from the computation of an accumulation distribution are discussed in the following subparagraphs.

(2) *Distribution from accumulations while a beneficiary is under 21.* (i) The first exception to the definition of an accumulation distribution is for amounts paid, credited, or required to be distributed to a beneficiary who was under 21 years of age or unborn when it was accumulated. A distribution is to be considered as so paid, credited, or required to be distributed to the extent, and only to the extent, that there is no undistributed net income for taxable years preceding the year of distribution other than undistributed net income accumulated while the beneficiary was under 21. If a distribution can be made from income accumulated either before or after a beneficiary reaches 21, it will be considered as made from the most recently accumulated income, and it will be so considered even though the governing instrument directs that distributions be charged first against the earliest accumulations.

(ii) As was indicated in subparagraph (1) of this paragraph, a distribution of an amount excepted from the definition of an accumulation distribution will not reduce undistributed net income for the purpose of determining the effect of a future accumulation distribution. Thus a distribution to a beneficiary of income accumulated before he reached 21 would not reduce the undistributed net income includible in a future accumulation distribution to another beneficiary. However, all future distributions to the same beneficiary, or to another beneficiary to whom a distribution would be excepted under the provisions of this subparagraph, to the extent that they could not be paid, credited, or required to be distributed from other accumulated income, would be excepted from the definition of an accumulation distribution.

(iii) The following examples illustrate the application of the foregoing rules of this subparagraph (in each of these examples it is assumed that the exceptions in section 665 (b) (2), (3), and (4) do not apply):

(*a*) Income is to be accumulated until A reaches 21 when the corpus and accumulated income are to be distributed to him. The distribution is not an accumulation distribution.

(*b*) Income is to be accumulated until A is 21, when it is to be distributed to him but the corpus is to remain in trust. A distribution of the accumulated income to A when he reaches 21 is not an accumulation distribution.

(*c*) Income is to be accumulated and added to corpus until A reaches 21, when he is to receive one-third of the corpus (including accumulations). Thereafter all the income is to be paid to A until he is 23 when the remaining corpus (and accumulations) is to be paid to him. If A dies under that age any undistributed portion is to be paid to B, aged 45 when the trust was created. Distributions to A at 21 and 23 out of accumulations are not accumulation distributions even though they include accumulated income. However, if A died at the age of 22 a distribution to B would be an accumulation distribution and the amount of undistributed net income includible in the distribution will not be reduced by the previous distribution to A.

(*d*) Income is to be accumulated and added to corpus until A is 21. After he is 21, he is entitled to all the income and, in addition, to distributions of corpus in the discretion of the trustee. When he reaches 25 he is entitled to the corpus. Distributions to A are not accumulation distributions, whether they are discretionary or upon termination of the trust.

(*e*) The facts are the same as in the preceding example, except that income is to be accumulated until A is 23. Distributions to A are accumulation distributions to the extent of income accumulated after A reached 21.

(*f*) Income may be distributed among a testator's children or accumulated and added to corpus until the youngest child is 21, when the corpus is to be distributed to the testator's descendants per stirpes. Upon termination of the trust, the corpus is distributed to A, age 21; B, age 23; and C, the child of a deceased child, age 3. The distributions to A and C are not accumulation distributions. The distribution to B is an accumulation distribution to the extent of income accumulated after he reaches 21.

(*g*) Income may be distributed to A or accumulated and added to corpus during A's life. Upon the death of A the corpus is to be distributed to B. B is 23 at A's death. The distribution is an accumulation distribution to the extent of income accumulated since B reached 21.

(3) *Emergency distributions.* The second exclusion from the definition of an accumulation distribution is for amounts properly paid or credited to a beneficiary to meet his emergency needs. Whether or not a distribution falls within this exclusion depends upon the facts and circumstances causing the distribution. A distribution based upon an unforeseen or unforeseeable combination of circumstances requiring immediate help to the beneficiary would qualify for the exclusion. However, the beneficiary must be in actual need of the distribution and the fact that he had other sufficient resources would tend to negate the conclusion that a distribution was to meet his emergency needs. Ordinary distributions for the support, maintenance, or education of the beneficiary would not qualify for the exclusion.

(4) *Certain distributions at specified ages.* The third exclusion from the definition of accumulation distribution is for

amounts properly paid or credited to a beneficiary upon the beneficiary's attaining a specified age or ages, provided, (i) the total number of such distributions cannot exceed 4 with respect to that beneficiary; (ii) the period between each such distribution is 4 years or more; and (iii) on January 1, 1954, such distributions are required by the specific terms of the governing instrument. Any discretionary invasion of corpus at other times is not excluded under this subparagraph, but does not affect the status of distributions that would otherwise be excluded. If more than four distributions are required to be made to a particular beneficiary at specified ages if he survives to receive them, none of the distributions will be excluded, even though the beneficiary dies before he receives more than four. On the other hand, a direction to make additional distributions to a remainderman will not affect the status of distributions required to be made to the primary beneficiary. For example, a trust agreement provided on January 1, 1954, that when A reached 25 he would receive one-eighth of the corpus and accumulated income, as then constituted, and similar distributions at ages 30, 35, and 40. It also provided for similar distributions to B after A's death, and for additional discretionary distributions to both A and B. Required distributions to both A and B are excluded, regardless of whether discretionary distributions are made, but discretionary distributions are not excluded. On the other hand, if an additional distribution to A was directed when he reached 45, no distributions to him would be excluded, regardless of when he died.

(5) *Certain final distributions.* (i) The last exception to the definition of an accumulation distribution is for amounts properly paid or credited to a beneficiary as a final distribution of a trust if the final distribution is made more than 9 years after the date of the last transfer to such trust.

(ii) The term "last transfer to such trust" includes only transfers, whether by the original grantor or by a third person, made with a donative intent. A transfer arising out of a property right held by the trust is excluded, such as a transfer by a debtor in satisfaction of his indebtedness, or a distribution in liquidation or reorganization of a corporation. If the terms of two or more trusts include cross-remainders on the deaths of life beneficiaries, the donative transfers occurred at the time the trusts were created. The addition of the corpus of one trust to that of another when a remainder falls in is therefore not a new transfer within the meaning of the subsection.

(iii) For example, under the terms of a trust created July 1, 1950, by H for the benefit of his wife, W, the income of the trust is to be accumulated and added to corpus. Upon the expiration of a 10-year period, the trust is to terminate and its assets, including all accumulated income, are to be distributed to W. No transfers were made by H or other persons to the trust after it was created. Both the trust and W file returns on the calendar year basis. In accordance with its terms, the trust terminated on June 30, 1960, and on August 1, 1960, the trustee made a final distribution of the assets of the trust to W, consisting of $100,000 of donated principal, accumulated income of $30,000 attributable to the period July 1, 1950, through December 31, 1959, and income of $3,000 attributable to the period the trust was in existence during 1960. Subpart D is inapplicable to the $3,000 of income of the trust for 1960 since that amount would be deductible by the trust and includible in W's gross income for that year to the extent provided in sections 661 through 663 (subpart C). However, the balance of the distribution will qualify as an exclusion from the provisions of sections 665 through 668 (subpart D).

(6) *Exclusions under section 663 (a) (1).* Subparagraphs (1), (2), (3), (4), and (5) of this paragraph have no application to an amount which qualifies as an exclusion under section 663 (a) (1).

§ 1.665 (c) *Statutory provisions; excess distributions by trust; definition of taxes imposed on the trust.*

SEC. 665. *Definitions applicable to subpart D.* * * *

(c) *Taxes imposed on the trust.* For purposes of this subpart, the term "taxes imposed on the trust" means the amount of the taxes which are imposed for any taxable year on the trust under this chapter (without regard to this subpart) and which, under regulations prescribed by the Secretary or his delegate, are properly allocable to the undistributed portion of the distributable net income. The amount determined in the preceding sentence shall be reduced by any amount of such taxes allowed, under sections 667 and 668, as a credit to any beneficiary on account of any accumulation distribution determined for any taxable year.

§ 1.665 (c)-1 *Taxes imposed on the trust.* (a) (1) For the purpose of sections 665 through 668 (subpart D), the term "taxes imposed on the trust" means (for any taxable year) the amount of Federal income taxes which are properly allocable to the undistributed portion of the distributable net income. This amount is the difference between the total taxes of the trust for the year and the amount which would have been paid by the trust had all of the distributable net income, as determined under section 643 (a), been distributed. Thus, in determining the amount of taxes imposed on the trust for the purposes of sections 665 through 668 (subpart D), there is excluded the portion of the taxes paid by the trust which is attributable to items of gross income which are not includible in distributable net income, such as capital gains allocable to corpus.

(2) The rule stated in the preceding subparagraph may be illustrated by the following example:

*Example.* (i) Under the terms of a trust, which reports on the calendar year basis, the income may be accumulated or distributed to A in the discretion of the trustee and capital gains are allocable to corpus. During the taxable year 1954, the trust had income of $20,000 from royalties, long-term capital gains of $10,000, and expenses of $2,000. The trustee in his discretion made a distribution of $10,000 to A. The taxes imposed on the trust for the purposes of this subpart are $2,712, determined as shown below.

(ii) The distributable net income of the trust computed under section 643 (a) is $18,000 (royalties of $20,000 less expenses of $2,000). The total taxes paid by the trust are $3,787, computed as follows:

| | | |
|---|---|---|
| Royalties | | $20,000 |
| Capital gains | | 10,000 |
| Gross income | | 30,000 |
| Deductions: | | |
| Expenses | $2,000 | |
| Distributions to A | 10,000 | |
| Capital gain deduction | 5,000 | |
| Personal exemption | 100 | |
| | | 17,100 |
| Taxable income | | 12,900 |
| Total income taxes | | 3,787 |

(iii) The amount of taxes which would have been paid by the trust, had all of the distributable net income ($18,000) of the trust been distributed to A, is $1,074 computed as follows:

| | |
|---|---|
| Taxable income of the trust | $12,900 |
| Less: Undistributed portion of distributable net income ($18,000 −$10,000) | 8,000 |
| Balance of taxable income | 4,900 |
| Income taxes on $4,900 | 1,074 |

(iv) The amount of taxes imposed on the trust as defined in this paragraph is $2,713, computed as follows:

| | |
|---|---|
| Total taxes | $3,787 |
| Taxes which would have been paid by the trust had all of the distributable net income been distributed | 1,074 |
| Taxes imposed on the trust as defined in subdivision (i) | 2,713 |

(b) If in any subsequent year an accumulation distribution is made by the trust which results in a throwback to the taxable year, the taxes of the taxable year allocable to the undistributed portion of distributable net income (the taxes imposed on the trust), after the close of the subsequent year, are the taxes prescribed in paragraph (a) of this section reduced by the taxes of the taxable year allowed as credits to beneficiaries on account of amounts deemed distributed on the last day of the taxable year under section 666. See paragraph (f) (4) of the example in § 1.668 (Example) for an illustration of the application of this rule.

§ 1.665 (d) *Statutory provisions; excess distributions by trusts; definition of preceding taxable year.*

SEC. 665. *Definitions applicable to subpart D.* * * *

(d) *Preceding taxable year.* For purposes of this subpart, the term "preceding taxable year" does not include any taxable year of the trust to which this part does not apply. In the case of a preceding taxable year with respect to which a trust qualifies (without regard to this subpart) under the provisions of subpart B, for purposes of the application of this subpart to such trust for such taxable year, such trust shall, in accordance with regulations prescribed by the Secretary or his delegate, be treated as a trust to which subpart C applies.

§ 1.665 (d)-1 *Preceding taxable years*—(a) *Definition.* For purposes of sections 665 through 668 (subpart D), the term "preceding taxable year" does not include any taxable year to which part I of subchapter J of chapter 1 of the Internal Revenue Code of 1954 does not apply. See section 683 and regulations thereunder. Accordingly, the provisions of sections 665 through 668 (subpart D) may not, in general, be applied to any taxable year which begins before 1954 or ends before August 17, 1954. For example, if a trust (reporting on the calendar year basis) makes a distribution during the calendar year 1955 of income accumulated during prior years and the distribution exceeds the distributable net income of 1955, the excess distribution may be allocated under sections 665 through 668 (subpart D) to 1954, but it may not be allocated to 1953 and preceding years, since the Internal Revenue Code of 1939 applies to those years.

(b) *Simple trusts subject to sections 665 through 668 (subpart D).* An accumulation distribution may be properly allocated to a preceding taxable year in which the trust qualified for treatment under sections 651 and 652 (subpart B—relating to trusts which distribute current income only). In such event, the trust is treated for the preceding taxable year in all respects as if it were a trust to which sections 661 through 663 (subpart C) applies. An example of such a circumstance would be in the case of a trust (required under the trust instrument to distribute all of its income currently) which received in the preceding taxable year extraordinary dividends or taxable stock dividends which the trustee in good faith allocated to corpus, but which are subsequently determined to be currently distributable to the beneficiary. See section 643 (a) (4) and § 1.643 (a)-5. The trust would qualify for treatment under sections 661 through 663 (subpart C) for the year of distribution of the extraordinary dividends or taxable stock dividends, because the distribution is not out of income of the current taxable year and would be treated as other amounts properly paid or credited or required to be distributed for such taxable year within the meaning of section 661 (a) (2). Also, the distribution would qualify as an accumulation distribution for the purposes of sections 665 through 668 (subpart D) if in excess of $2,000 and not excepted under section 665 (b) and the regulations thereunder. For the purposes only of sections 665 through 668 (subpart D), the trust would be treated as subject to the provisions of sections 661 through 663 (subpart C) for the preceding taxable year and, in computing undistributed net income for such preceding year, the extraordinary and taxable stock dividends would be included in distributable net income under section 643 (a). Also, a personal exemption of only $100 would be allowable to the trust, rather than the $300 exemption allowed to trusts qualifying for treatment under sections 651 and 652 (subpart B), in determining the amount of taxes imposed on the trust for the purposes of sections 667 and 668.

§ 1.665 (d)-2 *Application of separate share rule.* In trust to which the separate share rule of section 663 (c) is applicable for any taxable year, sections 665 through 668 (subpart D) shall be applied as if each share were a separate trust. Thus, "undistributed net income" and the amount of an "accumulation distribution" are computed separately for each share. The "taxes imposed on the trust" shall be allocated as follows:

(a) There is first allocated to each separate share that portion of the "taxes imposed on the trust", computed before the allowance of credits under section 642 (a), which bears the same relation to the total that the distributable net income of the separate share bears to the distributable net income of the trust, adjusted for this purpose as follows:

(1) There is excluded from distributable net income of the trust and of each separate share any tax-exempt interest, foreign income of a foreign trust, and excluded dividends, to the extent such amounts are included in distributable net income pursuant to section 643 (a) (5), (6) and (7); and

(2) The distributable net income of the trust is reduced by any deductions allowable under section 661 for amounts paid, credited, or required to be distributed during the taxable year, and the distributable net income of each separate share is reduced by any such deduction allocable to that share.

(b) The taxes so determined for each separate share are then reduced by that portion of the credits against tax allowable to the trust under section 642 (a) in computing the "taxes imposed on the trust" which bear the same relation to the total that the items of income (allocable to the separate share) with respect to which the credit is allowed bear to the total of such items of the trust. The amount of taxes imposed on the trust allocable to a separate share as so determined is then reduced by the amount of the taxes allowed under sections 667 and 668 as a credit to a beneficiary of the separate share on account of any accumulation distribution determined for any subsequent taxable year. See § 1.665 (c)-1 (b).

§ 1.666 (a) *Statutory provisions; excess distributions by trusts; allocation of accumulation distribution.*

SEC. 666. *Accumulation distribution allocated to 5 preceding years*—(a) *Amount allocated.* In the case of a trust which for a taxable year beginning after December 31, 1953, is subject to subpart C, the amount of the accumulation distribution of such trust for such taxable year shall be deemed to be an amount within the meaning of paragraph (2) of section 661 (a) distributed on the last day of each of the 5 preceding taxable years to the extent that such amount exceeds the total of any undistributed net incomes for any taxable years intervening between the taxable year with respect to which the accumulation distribution is determined and such preceding taxable year. The amount deemed to be distributed in any such preceding taxable year under the preceding sentence shall not exceed the undistributed net income of such preceding taxable year. For purposes of this subsection, undistributed net income for each of such 5 preceding taxable years shall be computed without regard to such accumulation distribution and without regard to any accumulation distribution determined for any succeeding taxable year.

§ 1.666 (a)-1 *Amount allocated.* (a) If a trust makes an accumulation distribution in any taxable year, the distribution is included in the beneficiary's taxable income for that year to the extent of the undistributed net income of the trust for the preceding 5 years. It is therefore necessary to determine the extent to which there is undistributed net income for the preceding 5 years. For this purpose, an accumulation distribution made in any taxable year is allocated to each of the 5 preceding taxable years in turn, beginning with the most recent year, to the extent of the undistributed net income of each of those years. Thus, an accumulation distribution is deemed to have been made from the most recently accumulated income of the trust.

(b) If, prior to the application of the provisions of sections 665 through 668 (subpart D) to an accumulation distribution for the taxable year, there is no undistributed net income for a preceding taxable year, then no portion of the accumulation distribution is deemed distributed on the last day of such preceding taxable year. Thus, if an accumulation distribution is made during the taxable year 1960 and the trust had no undistributed net income for the taxable year 1959, then no portion of the 1960 accumulation distribution shall be deemed distributed on the last day of 1959. For purposes of sections 665 through 668 (subpart D), the term "5 preceding taxable years" includes only the 5 taxable years immediately preceding the taxable years in which the accumulation distribution is made and which are subject to part I of subchapter J of chapter 1 of the Internal Revenue Code of 1954, even though the trust has no undistributed net income during one or more of those years.

(c) Paragraphs (a) and (b) of this section may be illustrated by the following example:

*Example.* In 1959, a trust, reporting on the calendar year basis, makes an accumulation distribution of $25,000. In 1958, the trust had $7,000 of undistributed net income; in 1957, none; in 1956, $12,000; in 1955, $4,000; in 1954, $4,000. The accumulation distribution will be deemed distributed $7,000 in 1958, none in 1957, $12,000 in 1956, $4,000 in 1955, and $2,000 in 1954.

(d) For the purposes of allocating to any preceding taxable year an accumulation distribution of the taxable year, the undistributed net income of such preceding taxable year is computed without regard to the accumulation distribution of the taxable year or of taxable years following the taxable year. However, accumulation distributions of any taxable years intervening between such preceding taxable year and the taxable year are taken into account. Accordingly, if a trust has undistributed net income for the taxable year 1954 and makes an accumulation distribution during the taxable year 1955, the undistributed net income for 1954 is computed without regard to the accumulation distribution for 1955 or any subsequent year. If the trust makes a further accumulation distribution for 1956, the undistributed net income for 1954 is computed without regard to the accumulation distribution for 1956 or subsequent years; but the undistributed net income for 1954 will take into account the accumulation distribution for 1955.

§ 1.666 (b) *Statutory provisions; excess distributions by trusts; total taxes deemed distributed.*

SEC. 666. *Accumulation distribution allocated to 5 preceding years.* * * *

(b) *Total taxes deemed distributed.* If any portion of an accumulation distribution for any taxable year is deemed under subsection (a) to be an amount within the meaning of paragraph (2) of section 661 (a) distributed on the last day of any preceding taxable year, and such portion of such accumulation distribution is not less than the undistributed net income for such preceding taxable year, the trust shall be deemed to have distributed on the last day of such preceding taxable year an additional amount within the meaning of paragraph (2) of section 661 (a). Such additional amount shall be equal to the taxes imposed on the trust for such preceding taxable year. For purposes of this subsection, the undistributed net income and the taxes imposed on the trust for such preceding taxable year shall be computed without regard to such accumulation distribution and without regard to any accumulation distribution determined for any succeeding taxable year.

§ 1.666 (b)–1 *Total taxes deemed distributed.* (a) If an accumulation distribution is deemed under § 1.666 (a)–1 to be distributed on the last day of a preceding taxable year and the amount is not less than the undistributed net income for such preceding taxable year, then an additional amount equal to the taxes imposed on the trust as defined in § 1.665 (c)–1 for such preceding taxable year is likewise deemed distributed under section 661 (a) (2). For example, a trust has taxable income of $11,032 (not including any capital gains) and undistributed net income of $8,000 for the taxable year 1954. The taxes imposed on the trust are $3,032. During the taxable year 1955, an accumulation distribution of $8,000 is made to the beneficiary, which is deemed under § 1.666 (a)–1 to have been distributed on the last day of 1954. The taxes imposed on the trust for 1954 of $3,032 are also deemed to to have been distributed on the last day of 1954 since the 1955 accumulation distribution is not less than the 1954 undistributed net income. Thus, a total of $11,032 will be deemed to have been distributed on the last day of 1954 because of the accumulation distribution of $8,000 made in 1955.

(b) For the purpose of paragraph (a) of this section, the undistributed net income of any preceding taxable year is computed without regard to the accumulation distribution of the taxable year or any taxable year following such taxable year. However, any accumulation distribution of taxable years intervening between such preceding taxable year and the taxable year are taken into account. See § 1.666-(a)–1 (d) and paragraphs (f) (5) and (g) (1) of § 1.668 (Example).

§ 1.666 (c) *Statutory provisions; excess distributions by trusts; pro rata portion of taxes deemed distributed.*

SEC. 666. *Accumulation distribution allocated to 5 preceding years.* * * *

(c) *Pro rata portion of taxes deemed distributed.* If any portion of an accumulation distribution for any taxable year is deemed under subsection (a) to be an amount within the meaning of paragraph (2) of section 661 (a) distributed on the last day of any preceding taxable year and such portion of the accumulation distribution is less than the undistributed net income for such preceding taxable year, the trust shall be deemed to have distributed on the last day of such preceding taxable year an additional amount within the meaning of paragraph (2) of section 661 (a). Such additional amount shall be equal to the taxes imposed on the trust for such taxable year multiplied by the ratio of the portion of the accumulation distribution to the undistributed net income of the trust for such year. For purposes of this subsection, the undistributed net income and the taxes imposed on the trust for such preceding taxable year shall be computed without regard to the accumulation distribution and without regard to any accumulation distribution determined for any succeeding taxable year.

§ 1.666 (c)–1 *Pro rata portion of taxes deemed distributed.* (a) If an accumulation distribution is deemed under § 1.666 (a)–1 to be distributed on the last day of a preceding taxable year and the amount is less than the undistributed net income for such preceding taxable year, then an additional amount is likewise deemed distributed under section 661 (a) (2). The additional amount is equal to the taxes imposed on the trust, as defined in § 1.665 (c)–1, for such preceding taxable year, multiplied by the fraction of which the numerator is the amount of the accumulation distribution and the denominator is the undistributed net income for such preceding taxable year. See paragraphs (c) and (d) of example (2) in § 1.666 (Examples) and paragraph (f) (2) of § 1.668 (Example) for illustrations of this rule.

(b) For the purpose of paragraph (a) of this section, the undistributed net income of any preceding taxable year is computed without regard to the accumulation distribution of the taxable year or any taxable year following the taxable year. However, accumulation distributions of any taxable years intervening between such preceding taxable year and the taxable year are taken into account. See § 1.666 (a)–1 (d), paragraphs (e) and (h) of example (2) in § 1.666 (Examples), and paragraph (f) (5) of § 1.668 (Example).

§ 1.666 (Examples) *Examples.* The application of the provisions of §§ 1.666 (a)–1, 1.666 (b)–1, and 1.666 (c)–1 may be illustrated by the following examples:

*Example (1).* (a) A trust makes accumulation distributions as follows:

| | |
|---|---|
| 1959 | $7,000 |
| 1960 | 25,000 |

For 1954 through 1958, the undistributed portion of distributable net income, taxes imposed on the trust, and undistributed net income are as follows:

| Year | Undistributed portion of distributable net income | Taxes imposed on the trust | Undistributed net income |
|---|---|---|---|
| 1958 | $12,100 | $3,400 | $8,700 |
| 1957 | 16,100 | 5,200 | 10,900 |
| 1956 | 6,100 | 1,360 | 4,740 |
| 1955 | None | None | None |
| 1954 | 10,100 | 2,640 | 7,460 |

(b) Since the entire amount of the accumulation distribution for 1959 ($7,000), determined without regard to the accumulation distribution for 1960, is less than the undistributed net income for 1958 ($8,700), an additional amount of $2,736 is likewise deemed distributed under section 666 (c), determined as follows:

| | |
|---|---|
| $3,400 (taxes imposed on the trust for 1958) multiplied by | |
| $7,000 (accumulation distribution for 1958) | |
| $8,700 (undistributed net income for 1958) | |

(c) In allocating the accumulation distribution for 1960, the undistributed net income for 1958 will take into account the accumulation distribution for 1959, and the additional amount of taxes imposed on the trust for 1958 deemed distributed. The undistributed net income for 1958 will then be $1,906; and the taxes imposed on the trust for 1958 will then be $458, determined as follows:

| | | |
|---|---|---|
| Undistributed portion of distributable net income as of the close of 1958 | | $12,100 |
| Less: | | |
| Accumulation distribution (1959) | $7,000 | |
| Taxes deemed distributed under section 666 (c) (7,000/8,700×$3,400) | 2,736 | |
| | | 9,736 |
| Balance | | 2,364 |
| Less: Personal exemption | | 100 |
| Balance | | 2,264 |
| Taxes imposed on the trust (income taxes on $2,264) | | 458 |
| Undistributed portion of distributable net income as of the close of 1959 | | 2,364 |
| Less: Income taxes attributable thereto | | 458 |
| Undistributed net income for 1958 as of the close of 1959 | | 1,906 |

(d) The accumulation distribution of $25,000 for 1960 is deemed to have been made on the last day of the 5 preceding taxable years of the trust to the extent of $17,546, the total of the undistributed net income for such years, as shown in the tabulation below. In addition, $7,018, the total taxes imposed on the trust for such years are also deemed to have been distributed on the last day of such years, as shown below:

| Year | Undistributed net income | Taxes imposed on the trust |
|---|---|---|
| 1959 | None | None |
| 1958 | $1,906 | $458 |
| 1957 | 10,900 | 5,200 |
| 1956 | 4,740 | 1,360 |
| 1955 | None | None |

(e) No portion of the 1960 accumulation distribution is deemed made on the last day of 1954 because, as to 1960, 1954 is the sixth preceding taxable year.

*Example (2).* (a) Under the terms of a trust instrument, the trustee has discretion to accumulate or distribute the income to X and to invade corpus for the benefit of X. The entire income of the trust is from royalties. Both X and the trust report on the calendar year basis. The distributable net income of the trust for the taxable year 1954 is $20,100 and the income taxes paid by the trust for such year with respect to such income are $7,260. All of the income for 1954 was accumulated. All of the income for 1955 and 1956 was distributed and in addition the trustee made accumulation distributions within the meaning of section 665 (b) of $6,420 for each year.

(b) The undistributed net income of the trust determined under section 665 (a) as of the close of 1954, is $12,840, computed as follows:

| | | |
|---|---|---|
| Distributable net income | | $20,100 |
| Less: Taxes imposed on the trust | | 7,260 |
| Undistributed net income as of the close of 1954 | | 12,840 |

(c) The accumulation distribution of $6,420 made during the taxable year 1955 is deemed under section 666 (a) to have been made on December 31, 1954. Since this accumulation distribution is less than the 1954 undistributed net income of $12,840, a portion of the taxes imposed on the trust for 1954 is also deemed under section 666 (c) to have been distributed on December 31, 1954. The total amount deemed to have been distributed to X on December 31, 1954, is $10,050, computed as follows:

| | |
|---|---|
| Accumulation distribution | $6,420 |
| Taxes deemed distributed (6,420/12,840×$7,260) | 3,630 |
| Total | 10,050 |

(d) After the application of the provisions of sections 665 through 668 (subpart D) to the accumulation distribution of 1955, the undistributed portion of the distributable net income of the trust for 1954, is $10,050, and the taxes imposed with respect thereto are $2,623, computed as follows:

| | | |
|---|---|---|
| Distributable net income as of the close of 1954 | | $20,100 |
| Less: 1955 accumulation distribution and taxes deemed distributed on Dec. 31, 1954 (paragraph (c)) | | 10,050 |
| Undistributed portion of the 1954 distributable net income adjusted as of the close of 1955 | | 10,050 |
| Less: Personal exemption | | 100 |
| Balance | | 9,950 |
| Income taxes on $9,950 | | 2,623 |

(e) The undistributed net income of the trust for the taxable year 1954, as adjusted to give effect to the 1955 accumulation distribution, is $7,427, computed as follows:

| | | |
|---|---|---|
| Undistributed portion of distributable net income as of the close of 1955 | | $10,050 |
| Less: Income taxes applicable thereto | | 2,623 |
| Undistributed net income determined as of the close of 1955 | | 7,427 |

(f) Inasmuch as all of the income of the trust for the taxable year 1955 was distributed to X, the trust had no undistributed net income for that year. Accordingly, the accumulation distribution of $6,420 made during the taxable year 1956 is, under section 666 (a), deemed a distribution to X on December 31, 1954, within the meaning of section 661 (a) (2). Since this accumulation distribution is less than the 1954 adjusted undistributed net income of $7,427, the trust is deemed under section 666 (c) also to have distributed on December 31, 1954, a portion of the taxes imposed on the trust for 1954. The total amount deemed to be distributed on December 31, 1954, with respect to the accumulation distribution made in 1956, is $8,687, computed as follows:

| | |
|---|---|
| Accumulation distribution | $6,420 |
| Taxes deemed distributed (6,420/7,427×$2,623) | 2,267 |
| Total | 8,687 |

(g) After the application of the provisions of sections 665 through 668 (subpart D) to the accumulation distribution of 1956, the undistributed portion of the distributable net income of the trust for 1954, is $1,363, and the taxes imposed on the trust with respect thereto are $253, computed as follows:

| | | |
|---|---|---|
| Undistributed portion of distributable net income as of the close of 1955 | | $10,050 |
| Less: 1956 accumulation distribution and taxes deemed distributed on December 31, 1954 (paragraph (f)) | | 8,687 |
| Undistributed portion of distributable net income as of the close of 1956 | | 1,363 |
| Less: Personal exemption | | 100 |
| Balance | | 1,263 |
| Income taxes on $1,263 | | 253 |

(h) The undistributed net income of the trust for the taxable year 1954, determined as of the close of the taxable year 1956, is $1,110 ($1,363 less $253).

§ 1.667 *Statutory provisions; excess distributions by trusts; denial of refund to trusts.*

SEC. 667. *Denial of refund to trusts.* The amount of taxes imposed on the trust under this chapter, which would not have been payable by the trust for any preceding taxable year had the trust in fact made distributions at the times and in the amounts deemed under section 666, shall not be refunded or credited to the trust, but shall be allowed as a credit under section 668 (b) against the tax of the beneficiaries who are treated as having received the distributions. For purposes of the preceding sentence, the amount of taxes which may not be refunded or credited to the trust shall be an amount equal to the excess of (1) the taxes imposed on the trust for any preceding taxable year (computed without regard to the accumulation distribution for the taxable year) over (2) the amount of taxes for such preceding taxable year imposed on the undistributed portion of distributable net income of the trust for such preceding taxable year after the application of this subpart on account of the accumulation distribution determined for such taxable year.

§ 1.667–1 *Denial of refund to trusts.* (a) If an amount is deemed under section 666 to be an amount paid, credited, or required to be distributed on the last day of a preceding taxable year, the trust is not allowed a refund or credit of the amount of taxes imposed on the trust, as defined in § 1.665 (c)–1, which would not have been payable for the preceding taxable year had the trust in fact made such distribution on the last day of such year. Such taxes are allowed as a credit under section 668 (b) against the tax of the beneficiaries who are treated as having received the distributions in the preceding taxable year. The amount of taxes which may not be refunded or credited to the trust under this paragraph and which are allowed as a credit under section 668 (b) against the tax of the beneficiaries, shall be an amount equal to the excess of the taxes imposed on the trust (as defined in section 665 (c) and the regulations thereunder) for any preceding taxable year (computed without regard to the accumulation distribution for the taxable year) over the amount of taxes for such preceding taxable year which would be imposed on the undistributed portion of distributable net income of the trust for such preceding taxable year after the application of sections 665 through 668 (subpart D) on account of the accumulation distribution determined for such taxable year.

(b) Paragraph (a) of this section may be illustrated by the following examples:

*Example (1).* In 1954, a trust of which A is the sole beneficiary has taxable income of $20,000 (including capital gains allocable to corpus), on which a tax of $7,260 is paid. The undistributed portion of distributable net income is $15,000, to which $6,160 of the tax is allocable under section 665. The undistributed net income is therefore $8,840 ($15,000 minus $6,160). In 1955, the trust makes an accumulation distribution of $8,840. Under section 666 (b), the total taxes for 1954 attributable to undistributed net income are deemed distributed, so $15,000 is deemed distributed. The amount of the tax which may not be refunded to the trust under section 667 and the credit to which A is entitled under section 668 (b) is the excess of $6,160 over zero, since after the distribution and the application of sections 665 through 668 (subpart D) there is no remaining undistributed portion of distributable net income for 1954.

*Example (2).* The same trust as in example (1) above distributes $5,000 in 1955, rather than $8,840. The amount of the tax which may not be refunded to the trust and the amount of the credit available to A is the excess of $6,160 over $4,044, the tax on an amount equal to the undistributed portion of distributable net income ($15,000) reduced by the amount deemed under section 666 to have been distributed in 1954 ($8,484). The excess is computed as follows:

| | | |
|---|---|---|
| Accumulation distribution in 1955 | | $5,000 |
| Taxes deemed distributed under section 666 (c) (5,000/8,840×$6,160) | | 3,484 |
| Total amount deemed distributed out of the undistributed portion of distributable net income | | 8,484 |
| Tax attributable to the undistributed portion of distributable net income | | 6,160 |
| Tax on $11,516 (taxable income of $20,000 minus $8,484, amount deemed distributed) | $3,216 | |
| Tax on $5,000 (capital gains allocable to corpus) | 1,100 | |
| Tax attributable to undistributed portion of distributable net income | | 2,116 |
| Refund disallowed to the trust and credit available to A in 1955 | | 4,044 |

§ 1.668 (a) *Statutory provisions; excess distributions by trusts; treatment of amounts deemed distributed in preceding taxable years; amounts treated as received in prior taxable years.*

SEC. 668. *Treatment of amounts deemed distributed in preceding years—(a) Amounts treated as received in prior taxable years.* The total of the amounts which are treated under section 666 as having been distributed by the trust in preceding taxable year shall be included in the income of a beneficiary or beneficiaries of the trust when paid, credited, or required to be distributed to the extent that such total would have been included in the income of such beneficiary or beneficiaries under section 662 (a) (2) and (b) if such total had been paid to such beneficiary or beneficiaries on the last day of such preceding taxable year. The portion of such total included under the preceding sentence in the income of any beneficiary shall be based upon the same ratio as determined under the second sentence of section 662 (a) (2) for the taxable year in respect of which the accumulation distribution is determined, except that proper adjustment of

such ratio shall be made, in accordance with regulations prescribed by the Secretary or his delegate, for amounts which fall within paragraphs (1) through (4) of section 665 (b). The tax of the beneficiaries attributable to the amounts treated as having been received on the last day of such preceding taxable year of the trust shall not be greater than the aggregate of the taxes attributable to those amounts had they been included in the gross income of the beneficiaries on such day in accordance with section 662 (a) (2) and (b).

§ 1.668 (a)–1 *Amounts treated as received in prior taxable years—*(a) *Inclusion in gross income.* (1) Section 668 (a) provides that the total of the amounts treated under section 666 as having been distributed by the trust on the last day of a preceding taxable year of the trust shall be included in the gross income of the beneficiary receiving them. The total of such amounts is includible to the extent the amounts would have been included under section 662 (a) (2) and (b) if the total had actually been paid by the trust on the last day of such preceding taxable year. The total shall be included in the gross income of the beneficiary for the taxable year of the beneficiary in which such amounts are in fact paid, credited, or required to be distributed unless the taxable year of the beneficiary differs from the taxable year of the trust (see section 662 (c) and the regulations thereunder).

(2) The total of the amounts treated under section 666 as having been distributed by the trust on the last day of a preceding taxable year of the trust are included as prescribed in subparagraph (1) of this paragraph in the gross income of the beneficiary even though as of that day the beneficiary would not have been entitled to receive them had they actually been distributed on that day.

(3) Any deduction allowed to the trust in computing distributable net income for a preceding taxable year (such as depreciation, depletion, etc.) is not deemed allocable to a beneficiary because of amounts included in a beneficiary's gross income under this section (see paragraph (h) (2) (ii) of § 1.668 (Example)), since the deduction has already been utilized in reducing the amount included in the beneficiary's income.

(b) *Allocation among beneficiaries.* (1) The portion of the total amount includible in gross income under the preceding paragraph which is includible in the gross income of a particular beneficiary shall be based upon the ratio determined under the second sentence of section 662 (a) (2) for the taxable year (not the preceding taxable year).

(2) The rule of subparagraph (1) of this paragraph may be illustrated by the following example:

*Example.* (i) Under the terms of a trust instrument, the trustee may accumulate the income or make distributions to A and B. The trustee may also invade corpus for the benefit of A and B. The distributable net income of the trust for the taxable year 1955 is $10,000. The trust had undistributed net income for the taxable year 1954 of $5,000, to which a tax of $1,100 was allocable. During the taxable year 1955, the trustee distributes $10,000 to A and $5,000 to B. Thus, of the total distribution of $15,000, A received two-thirds and B received one-third.

(ii) For the purposes of determining the amounts includible in the beneficiaries' gross income for 1955, the trust is deemed to have made the following distributions:

| | |
|---|---|
| Amount distributed out of 1955 income (distributable net income) | $10,000 |
| Accumulation distribution deemed distributed by the trust on the last day of 1954 under section 666 (a) | 5,000 |
| Taxes imposed on the trust deemed distributed under section 666 (b) | 1,100 |

(iii) A will include in his gross income for 1955 two-thirds of each item shown in subdivision (ii). Thus, he will include in gross income $6,666.67 (10,000/15,000×$10,000) of the 1955 distributable net income of the trust as provided in section 662 (a) (2), and $3,333.33 (10,000/15,000×$5,000) of the accumulation distribution and $733.33 (10,000/15,000×$1,000) of the taxes imposed on the trust as provided in section 668 (a).

(iv) B will include in his gross income for 1955 one-third of each item shown in subdivision (ii), computed in the manner shown in subdivision (iii).

(3) When a trust pays, credits, or is required to distribute to a beneficiary amounts which are excluded under section 665 (b) (1), (2), (3), or (4) from the computation of an accumulation distribution, the amount includible under sections 665 through 668 (subpart D) in the gross income of the beneficiaries pursuant to paragraph (a) of this section is first allocated to the beneficiaries as provided in subparagraph (1) of this paragraph and, second, the amount allocable to the beneficiary receiving amounts which are excluded under section 665 (b) (1), (2), (3), or (4) is reduced by the excluded amounts.

(4) Subparagraph (3) of this paragraph may be illustrated by the following examples in which it is assumed the trusts and beneficiaries report on the calendar year basis and the income of the trusts was derived entirely from taxable interest:

*Example (1).* (i) A trust in 1957 has income as defined in section 643 (b) of $35,000 and expenses allocable to corpus of $5,000. Its distributable net income is, therefore, $30,000 ($35,000—$5,000). The undistributed net income of the trust and the taxes imposed on the trust were $12,840 and $7,260, respectively, for each of the years 1956, 1955, and 1954. The terms of the trust instrument provide for the accumulation of income during the minority of beneficiaries A and B. However, the trustee may make discretionary distributions to either beneficiary after he becomes 21 years of age. Also, the trustee may invade corpus for the benefit of A and B. B became 21 years of age on January 1, 1957, and, as of that date, A was 25 years old. The trustee distributed $50,000 each to A and B during 1957.

(ii) Since each beneficiary received one-half of the total amount distributed by the trust, each must include in gross income under section 662 (a) (2) one-half ($15,000) of the distributable net income ($30,000) of the trust for 1957.

(iii) The excess distribution of $35,000 ($50,000—$15,000) received by B is excluded from the determination of an accumulation distribution under section 665 (b) (1) and accordingly is not includible in B's gross income under section 668 (a). Nor is such amount treated as an accumulation distribution for the purpose of determining the amount includible in A's gross income under section 668 (a).

(iv) The accumulation distribution of the trust is $35,000, computed as follows:

| | | |
|---|---|---|
| Total distribution by the trust | | $100,000 |
| Less: | | |
| Distributable net income for 1957 | $30,000 | |
| Excess distribution to B | 35,000 | |
| | | 65,000 |
| Accumulation distribution to A | | 35,000 |

(v) The accumulation distribution of $35,000 will be allocated to the preceding taxable years 1956, 1955, and 1954, and the trust will be deemed to have made the following distributions to A on the last day of those years:

| | 1956 | 1955 | 1954 |
|---|---|---|---|
| Undistributed net income | $12,840 | $12,840 | $9,320 |
| Taxes imposed on the trust | 7,260 | 7,260 | 5,270 |
| Total | 20,100 | 20,100 | 14,590 |

Thus, A will include $54,790 in his gross income for 1957 under section 668 (a). A will, however, receive credit against his tax under section 668 (b).

*Example (2).* (i) Under the terms of a trust the trustee may make discretionary distributions out of income to A during her life. The balance of the income is to be accumulated during the minority of her son, B, and is to be distributed to him when he becomes 21 years of age. Thereafter the trustee may also make discretionary payments of income to B. Also, the trustee may invade corpus for the benefit of A and B. B became 21 years of age on December 31, 1955. The distributable net income of the trust for 1955 is $30,000. It had undistributed net income of $12,840 for the preceding taxable year 1954 and the taxes imposed on the trust for such year were $7,260. The trustee distributed $15,000 to A during 1955 and on December 31, 1955, he distributed $60,000 to B, which represented income accumulated during his minority.

(ii) Since B received four-fifths of the total amount ($75,000) distributed by the trust during 1955, he must include in his gross income under section 662 (a) (2) four-fifths ($24,000) of the distributable net income ($30,000) of the trust for 1955. A will include in her gross income under section 662 (a) (2) one-fifth ($6,000) of the distributable net income ($30,000) of the trust for 1955.

(iii) The excess distribution of $36,000 ($60,000—$24,000) received by B is excluded from the determination of an accumulation distribution under section 665 (b) (1) and accordingly is not includible in his gross income under section 668 (a).

(iv) The amount treated as an accumulation distribution for the purpose of determining the amount includible in A's gross income for 1955 under section 668 (a) is $9,000, computed as follows:

| | | |
|---|---|---|
| Total distribution by the trust | | $75,000 |
| Less: | | |
| Distributable net income for 1955 | $30,000 | |
| Excess distribution to B | 36,000 | |
| | | 66,000 |
| Amount treated as an accumulation distribution | | 9,000 |

(v) Inasmuch as the amount of $9,000 is less than the total undistributed net income of the trust ($12,840) for the preceding taxable year 1954, a pro rata portion of the taxes imposed on the trust for that year are also deemed distributed by the trust. Thus, A will include $14,073 in her gross income for 1955 under section 668 (a) computed as follows:

| | 1954 |
|---|---|
| Undistributed net income | $9,000 |
| Taxes imposed on the trust (9,000/12,840×$7,260) | 5,073 |
| Total | 14,073 |

A will, however, receive credit against her tax under section 668 (b).

(c) *Tax attributable to throwback.* (1) The tax attributable to amounts deemed distributed under section 666 is imposed on the beneficiary for the taxable year of the beneficiary in which the accumulation distribution is made unless the taxable year of the beneficiary is different from that of the trust (see section 662 (c) and the regulations thereunder). However, the tax cannot be greater than the aggregate of the taxes attributable to those amounts had they been included, in accordance with the provisions of section 662 (a) (2) and (b), in the gross income of the beneficiary for the preceding taxable year or years in which they were deemed distributed. The tax liability of the beneficiary for the taxable year is computed in the following manner:

(i) First, compute the amount of tax for the taxable year attributable to the section 666 amounts which are included in the gross income of the beneficiary for the year. The tax attributable to those amounts is the difference between the tax for the taxable year computed with the inclusion of the section 666 amounts in gross income and the tax computed without including them in gross income.

(ii) Next, compute the tax attributable to the section 666 amounts for each of the preceding taxable years as if they had been included in gross income for those years. The tax attributable to such amounts in each such preceding taxable year is the difference between the tax for such preceding year computed with the inclusion of the section 666 amounts in gross income and the tax for such year computed without including them in gross income. The tax computation for each preceding year shall reflect the taxpayer's marital and dependency status for that year.

(iii) The total tax for the taxable year shall be the tax for that year computed without including the section 666 amounts, plus—

(*a*) The amount of the tax for the taxable year attributable to the section 666 amounts (computed in accordance with subdivision (i) of this subparagraph), or

(*b*) The sum of the taxes for the preceding taxable years attributable to the section 666 amounts (computed in accordance with subdivision (ii) of this subparagraph),

whichever is the smaller.

(2) The provisions of subparagraph (1) of this paragraph may be illustrated by the following example:

*Example.* (i) During the taxable year 1956, $10,000 is deemed distributed under section 666 to a beneficiary, of which $6,000 is deemed distributed by the trust on the last day of 1955 and $4,000 on the last day of 1954. The beneficiary had taxable income (after deductions) from other sources of $5,000 for 1956, $10,000 for 1955, and $10,000 for 1954. The beneficiary's tax liability for 1956 is $4,730 determined as follows:

*Year 1956*

| | |
|---|---|
| Tax on $15,000 (taxable income including section 666 amounts) | $4,730 |
| Tax on $5,000 (taxable income excluding section 666 amounts) | 1,100 |
| Tax attributable to section 666 amounts | 3,630 |

*Year 1955*

| | |
|---|---|
| Tax on $16,000 (taxable income including section 666 amounts) | 5,200 |
| Tax on $10,000 (taxable income excluding section 666 amounts) | 2,640 |
| Tax attributable to section 666 amounts | 2,560 |

*Year 1954*

| | |
|---|---|
| Tax on $14,000 (taxable income including section 666 amounts) | 4,260 |
| Tax on $10,000 (taxable income excluding section 666 amounts) | 2,640 |
| Tax attributable to section 666 amounts | 1,620 |

(ii) Inasmuch as the tax of $3,630 attributable to the section 666 amounts as computed at 1956 rates is less than the aggregate of the taxes of $4,180 ($2,560 plus $1,620) determine for the preceding taxable years, the amount of $3,630 is added to the tax ($1,100) computed for 1956 without including the section 666 amounts.

§ 1.668 (b) *Statutory provisions; excess distributions by trusts; treatment of amounts deemed distributed in preceding taxable years; credit for taxes paid by trust.*

SEC. 668. *Treatment of amounts deemed distributed in preceding taxable years.* * * *

(b) *Credit for taxes paid by trust.* The tax imposed on beneficiaries under this chapter shall be credited with a pro rata portion of the taxes imposed on the trust under this chapter for such preceding taxable year which would not have been payable by the trust for such preceding taxable year had the trust in fact made distributions to such beneficiaries at the times and in the amounts specified in section 666.

§ 1.668 (b)–1 *Credit for taxes paid by the trust.* (a) The taxes imposed on a complex trust for a taxable year which would not have been paybale by the trust if amounts deemed under section 666 to have been distributed in the year had in fact been distributed in the year are not allowable as a refund to the trust but are allowable as a credit against the tax of the beneficiaries to whom the amounts described in section 666 (a) are distributed.

(b) The credit to which a beneficiary is entitled under section 668 (b) is allowed for the taxable year in which the accumulation distribution (to which the credit relates) is required to be included in the gross income of the beneficiary. Any excess over the total tax liability of the beneficiary is treated as an overpayment of tax.

(c) The beneficiary is entitled to a portion of the credit described in paragraph (a) of this section in the ratio which the amount of the accumulation distribution to him bears to the accumulation distributions to all the beneficiaries.

§ 1.668 (Example) *Example.* The provisions of sections 665 through 668 (subpart D) may be illustrated by the following example:

*Example.* (a) *Facts.* (1) Under the terms of a trust instrument, one-half of the trust income is required to be distributed currently to beneficiary A. The trustee may in his discretion accumulate the balance of the income of the trust or he may make distributions to B out of income or corpus. The trust is to terminate upon the death of A and the corpus is to be distributed to B. Capital gains are allocable to corpus. All of the expenses of the trust are charges against income. No provision is made in the trust instrument with respect to depreciation. The trust and both beneficiaries report on the calendar year basis. The trust had long-term capital gains of $20,000 for 1954, and $10,000 for 1955, which were allocated to corpus. The distributable net income of the trust as determined under section 643 (a) for 1954, 1955, 1956, and 1957 is deemed to consist of the following items of income:

| | Dividends | Rents | Interest (taxable) | Interest (exempt) | Total |
|---|---|---|---|---|---|
| 1954 | $15,000 | $20,000 | $10,000 | $5,000 | $50,000 |
| 1955 | 10,000 | 15,000 | 10,000 | 5,000 | 40,000 |
| 1956 | 10,000 | 20,000 | 15,000 | 5,000 | 50,000 |
| 1957 | 10,000 | 15,000 | 15,000 | 5,000 | 45,000 |

(2) One-half ($7,500) of the dividends for 1954 were received by the trust on or before July 31, 1954, and the balance were received after that date. The depreciation of rental property amounted to $10,000 for each of the years 1954 through 1957, one-half ($5,000) of which was deducted by the trust in computing the distributable net income shown above for the years 1954 and 1955. No deduction was taken by the trust for depreciation for the years 1956 and 1957 since all of the income was distributed during those years.

(3) The following distributions were made by the trustee to A and B during the taxable years 1954 through 1957:

| | A | B |
|---|---|---|
| 1954 | $25,000 | None |
| 1955 | 20,000 | None |
| 1956 | 25,000 | $45,000 |
| 1957 | 22,500 | 29,550 |

(b) *Distributions to A.* A is deemed to have received one-half of each item of income entering into the computation of distributable net income as shown in paragraph (a) (1) above. See § 1.662 (a)–2 for rules for the treatment of currently distributable income in the hands of the beneficiary. Inasmuch as one-half of the trust income is currently distributable to A, he is entitled to a deduction of one-half ($5,000) of the depreciation of the trust for each of the years 1954 through 1957 in computing his taxable income.

(c) *Tax liability of the trust—*(1) *1954.* (i) The tax liability of the trust for the taxable year 1954 is $13,451, computed as follows:

| | | |
|---|---|---|
| Distributable net income under section 643 (a) (paragraph (a) (1)) | | $50,000 |
| Less amounts not includible in gross income: | | |
| Tax-exempt interest | $5,000 | |
| Dividend exclusion | 50 | |
| | | 5,050 |
| Distributable net income as adjusted | | 44,950 |

| | |
|---|---|
| Add: Capital gains (long-term) | $20,000 |
| Total | 64,950 |
| Brought forward—Total | 64,950 |
| Deductions: | |
| Distributions to A | 22,475 |
| Capital gain deduction | 10,000 |
| Personal exemption | 100 |
| | 32,575 |
| Taxable income | 32,375 |
| Alternative tax | 13,601 |
| Dividend received credit | 150 |
| Tax liability | 13,451 |

(ii) See paragraph (b) above for character of income deemed distributed to A and section 661 for rules for computing the amount deductible by a trust for distributions to beneficiaries. Inasmuch as one-half of the dividends of the trust are deemed to be distributed to A, $25 of such distribution is deemed to be made from the dividend exclusion of $50, and the balance from dividends included in the gross income of the trust (that is, since the year 1954 is involved, $3,725 from dividends received on or before July 31, 1954, and $3,750 from dividends received after July 31, 1954; the trust is entitled to a dividend received credit attributable to the dividends of $3,750 received after July 31, 1954, which were not distributed to any beneficiary during the taxable year).

(2) *1955.* (i) The tax liability of the trust for the taxable year 1955 is $8,189, computed as follows:

| | |
|---|---|
| Distributable net income under section 643 (a) (paragraph (a) (1)) | $40,000 |
| Less amounts not includible in gross income: | |
| Tax-exempt interest | $5,000 |
| Dividend exclusion | 50 |
| | 5,050 |
| Distributable net income as adjusted | 34,950 |
| Add: Capital gains (long-term) | 10,000 |
| Total | 44,950 |
| Brought forward—Total | 44,950 |
| Deductions: | |
| Distributions to A | 17,475 |
| Capital gain deduction | 5,000 |
| Personal exemption | 100 |
| | 22,575 |
| Taxable income | 22,375 |
| Alternative tax | 8,388 |
| Dividend received credit | 199 |
| Tax liability | 8,189 |

(ii) See paragraph (b) above for character of income deemed distributed to A and section 661 for rules for computing the amount deductible by a trust for distributions to beneficiaries. Inasmuch as one-half ($4,975) of the dividends of $9,950 ($10,000 less dividend exclusion of $50) included in the gross income of the trust is deemed distributed to A, the trust is entitled to a dividend received credit with respect to the dividends of $4,975 which were not distributed to any beneficiary during the taxable year.

(3) *1956 and 1957.* The trust had no tax liability for the taxable years 1956 and 1957 since all of its income was distributed during such years.

(d) *Accumulation distributions.* (1) Accumulation distributions of $20,000 and $7,050, as defined in section 665 (b), were made to B during the years 1956 and 1957, respectively, computed as shown below:

| | 1956 | 1957 |
|---|---|---|
| Distributable net income of the trust as computed under section 643 (a) | $50,000 | $45,000 |
| Less: Income currently distributable to A | 25,000 | 22,500 |
| Balance of income | 25,000 | 22,500 |
| Other amounts distributed to B | 45,000 | 29,550 |
| Accumulation distributions to B | 20,000 | 7,050 |

(2) B is deemed to have received one-half of each item of income entering into the computation of distributable net income (shown in paragraph (a) (1)) for the years 1956 and 1957. Also, he is entitled to a deduction of one-half ($5,000) of the depreciation of the trust for each of the years 1956 and 1957 in computing his taxable income for these years.

(3) The accumulation distribution for 1956 must first be allocated to the preceding taxable years as provided in section 666. After the application of the provisions of sections 665 through 668 (subpart D) to the 1956 accumulation distribution and to the undistributed net incomes of the preceding taxable years, a similar allocation must be made of the 1957 accumulation distribution.

(e) *Throwback of 1956 accumulation distribution to 1955.* The accumulation distribution of $20,000 for 1956 must be allocated to the first preceding taxable year 1955, before allocation is made to the second preceding taxable year 1954.

(1) *1955 Undistributed net income.* (i) The undistributed net income of the trust for 1955, determined as of the close of 1955, is $12,885, computed as follows:

| | |
|---|---|
| Distributable net income as computed under section 643 (a) (paragraph (a) (1)) | $40,000 |
| Less: | |
| Distributions to A | $20,000 |
| Taxes imposed on the trust | 7,115 |
| | 27,115 |
| Undistributed net income as of the close of 1955 | 12,885 |

(ii) The taxes imposed on the trust of $7,115 are that portion of the taxes paid by the trust for 1955 which is attributable to the undistributed portion of distributable net income included in the taxable income of the trust (the "balance" in the computation below) and is determined as follows:

| | |
|---|---|
| Taxable income (paragraph (c) (2) (i)) | $22,375 |
| Capital gains allocable to corpus | $10,000 |
| Less: | |
| Capital gain deduction | $5,000 |
| Personal exemption | 100 |
| | 5,100 |
| Portion of taxable income allocable to corpus | 4,900 |
| Balance | 17,475 |
| Total taxes paid by the trust | 8,189 |
| Taxes on income ($4,900) allocable to corpus | 1,074 |
| Taxes imposed on the trust (section 665 (c)) | 7,115 |

(iii) The amount of $1,074 is the taxes which the trust would have paid for 1955 had all of the distributable net income been distributed during the year.

(2) *Allocation of 1956 accumulation distribution to the preceding taxable year 1955.* The portion of the 1956 accumulation distribution which is deemed under section 666 (a) to be distributed to B on the last day of 1955 (the first preceding taxable year) is $12,885, an amount equal to the undistributed net income for 1955. An additional amount equal to the taxes imposed on the trust ($7,115) is, under section 666 (b), also deemed to be distributed to B on the last day of 1955. Thus, a total of $20,000 ($12,885 plus $7,115) is deemed to be distributed to B on December 31, 1955, by reason of the allocation of the 1956 accumulation distribution to the first preceding taxable year. See paragraph (h) of this example for the treatment of the amount of $20,000 in the hands of B.

(3) *Character of amounts deemed distributed.* Inasmuch as one-half of the 1955 distributable net income of the trust as determined under section 643 (a) was currently distributable to A and the balance of such income is deemed under section 666 to be distributed to B on December 31, 1955, the distribution to B is deemed to consist of one-half of each item of income entering into the computation of the 1955 distributable net income; that is, dividends of $5,000, rents of $7,500, taxable interest of $5,000, and tax-exempt interest of $2,500.

(4) *Credit for taxes paid by the trust.* The amount of the taxes for the year 1955 which may not be refunded or credited to the trust under section 667 and which is allowed as a credit against the tax of B for 1956 under section 668 (b) is $7,115. See also paragraph (h) (3) of this example.

(5) *Effect of application of provisions of sections 665 through 668 (subpart D) to the year 1955.* After the allocation of the 1956 accumulation distribution to the preceding taxable year 1955, the undistributed portion of the distributable net income, and the undistributed net income, and the taxes imposed on the trust for 1955 are zero. The portion of the 1956 accumulation distribution which is unabsorbed by the 1955 undistributed net income is $7,115, determined as follows:

| | |
|---|---|
| 1956 accumulation distribution (paragraph (d) (1)) | $20,000 |
| Less: Amount allocable to 1955 | 12,885 |
| Balance allocable to second preceding taxable year 1954 | 7,115 |

(f) *Throwback of 1956 accumulation distribution to 1954.* The unabsorbed portion of the 1956 accumulation distribution of $7,115 is allocable to the second preceding taxable year 1954 and is treated under section 666 as a distribution to B on the last day of such year.

(1) *1954 Undistributed net income.* (i) The undistributed net income of the trust for 1954, determined as of the close of 1954, is $14,155, computed as follows:

| | |
|---|---|
| Distributable net income as computed under section 643 (a) (paragraph (a) (1)) | $50,000 |
| Less: | |
| Distributions to A | $25,000 |
| Taxes imposed on the trust | 10,845 |
| | 35,845 |
| Undistributed net income as of the close of 1954 | 14,155 |

(ii) The taxes imposed on the trust of $10,845 is that portion of the taxes paid by the trust for 1954 which is attributable to the undistributed portion of distributable net income included in the taxable income of the trust (the "balance" in the computation below) and is determined as follows:

| | |
|---|---|
| Taxable income (paragraph (c) (1) (i)) | $32,375 |
| Capital gains allocable to corpus | $20,000 |

| | |
|---|---|
| Less: | |
| Capital gain deduction | $10,000 |
| Personal exemption | 100 |
| | $10,100 |
| Portion of taxable income allocable to corpus | $9,900 |
| Balance | 22,475 |
| Total taxes paid by the trust | 13,451 |
| Taxes on income ($9,900) allocable to corpus | 2,606 |
| Taxes imposed on the trust (section 665 (c)) | 10,845 |

(iii) The amount of $2,606 is the taxes which the trust would have paid for 1954 had all of the distributable net income been distributed during that year.

(2) *Allocation of 1956 accumulation distribution to the second preceding taxable year 1954.* Since the unabsorbed portion of the 1956 accumulation distribution of $7,115 is less than the 1954 undistributed net income of $14,155, the trust is deemed under section 666 (c) to have also distributed an additional amount ($5,442) equal to a pro rata portion (7.115/14.165×$10.635) of the taxes imposed on the trust for 1954. Thus, a total of $12,557 ($7,115 plus $5,442) is deemed to be distributed to B on December 31, 1954, by reason of the throwback of the 1956 accumulation distribution. See paragraph (h) of this example for the treatment of the amount of $12,557 in the hands of B.

(3) *Character of amounts deemed distributed to B.* The amount of $12,557 which, under section 666, is deemed to be distributed to B on December 31, 1954, is deemed to be composed of the following items of income of the trust: Dividends, $3,767 (15,000/50,000×$12,557); rents, $5,023 (20,000/50,000×$12,557); taxable interest, $2,511 (10,000/50,000×$12,557); and tax-exempt interest, $1,256 (5,000/50,000×$12,557). One-half of the dividends of $3,767 is considered as distributed from the dividends received by the trust on or before July 31, 1954, of which $13 (3,767/15,000×$50) is deemed distributed from the dividends excluded under section 116 and the balance as distributed from the dividends received after July 31, 1954. Thus, of the total of $12,557 deemed distributed to B, $11,288 is considered as made from income included in the gross income of the trust and $1,269 from nontaxable income of the trust.

(4) *Credit for taxes paid by the trust.* The amount of the taxes for the year 1954 which may not be refunded or credited to the trust under section 667 and which is allowed as a credit against the tax of B for 1956 under section 668 (b), because of the allocation of the 1956 accumulation distribution to 1954, is $5,398, computed as follows:

| | |
|---|---|
| Taxable income of the trust as of the close of 1954 (paragraph (c) (1)) | $32,375 |
| Less: Amount deemed distributed to B under section 666 from the taxable income of the trust | 11,288 |
| Taxable income adjusted as of the close of 1956 | 21,087 |
| Taxes on $21,087 (alternative tax) | 6,053 |
| Taxes on income allocable to corpus (subparagraph (1) (ii) of this paragraph) | 2,606 |
| Taxes imposed on the trust determined as of the close of 1956 | 5,447 |
| Taxes imposed on the trust determined as of the close of 1954 | 10,845 |
| Taxes imposed on the trust determined as of the close of 1956 | $5,447 |
| Amount of taxes allowed as a credit to B under section 668 (b) | 5,398 |

(5) *Effect of application of provisions of sections 665 through 668 (subpart D) to the year 1954.* (i) The undistributed portion of the distributable net income of the trust for the year 1954, determined as of the close of 1956, is $12,443, computed as follows:

| | |
|---|---|
| Distributable net income (section 643 (a)) | $50,000 |
| Less: | |
| Amount currently distributable to A | $25,000 |
| Amount deemed distributed to B under section 666 | 12,557 |
| | 37,557 |
| Undistributed portion of distributable net income as of the close of 1956 | 12,443 |

(ii) The amount of $12,443 is deemed to consist of dividends of $3,733, rents of $4,977, taxable interest of $2,489, and tax-exempt interest of $1,244, determined as follows:

| | Dividends | Rents | Interest (taxable) | Interest (exempt) | Total |
|---|---|---|---|---|---|
| Trust income | $15,000 | $20,000 | $10,000 | $5,000 | [1] $50,000 |
| Distributions: | | | | | |
| To A | 7,500 | 10,000 | 5,000 | 2,500 | [2] 25,000 |
| To B | 3,767 | 5,023 | 2,511 | 1,256 | [3] 12,557 |
| Total | 11,267 | 15,023 | 7,511 | 3,756 | 37,557 |
| Balance | 3,733 | 4,977 | 2,489 | 1,244 | 12,443 |

[1] See paragraph (a) (1).
[2] See paragraph (b).
[3] See paragraph (f) (3).

(iii) The undistributed net income of the trust for 1954, determined as of the close of 1956, is $6,996, computed as follows:

| | |
|---|---|
| Undistributed portion of distributable net income as of the close of 1956 | $12,443 |
| Less: Taxes imposed on the trust determined as of the close of 1956 (subparagraph (4) of this paragraph) | 5,447 |
| Undistributed net income as of the close of 1956 | 6,996 |

(g) *Throwback of 1957 accumulation distribution.* Inasmuch as all of the income of the trust for the first preceding taxable year 1956 was distributed during such year and the trust had no undistributed net income for the second preceding taxable year 1955 after the application of sections 663 through 668 (subpart D) to the accumulation distribution made during 1956, the 1957 accumulation distribution of $7,050 is allocable to the third preceding taxable year 1954. See paragraph (d) (1) for computation of the accumulation distribution.

(1) *Allocation of 1957 accumulation distribution to the preceding taxable year 1954.* The portion of the 1957 accumulation distribution which is deemed under section 666 (a) to be distributed to B on the last day of 1954 is $6,996, an amount equal to the undistributed net income of the trust for 1954, determined as of the close of 1956. An additional amount equal to the taxes imposed on the trust ($5,447), determined as of the close of 1956, is under section 666 (b) also deemed to be distributed to B on the last day of 1954. See paragraph (f) (4) and (5) of this example. Thus, a total of $12,443 ($6,996 plus $5,447) is deemed to be distributed to B on December 31, 1954, by reason of the allocation of the 1957 accumulation distribution to the taxable year 1954. See paragraph (j) of this example for the treatment of the amount of $12,443 in the hands of B.

(2) *Character of amounts deemed distributed.* Inasmuch as the balance of the 1954 distributable net income of the trust is deemed under section 666 to be distributed to B on December 31, 1954, the distribution is deemed to consist of dividends of $3,733, rents of $4,977, taxable interest of $2,489, and tax-exempt interest of $1,244. See paragraph (f) (5) (ii) of this example.

(3) *Credit for taxes paid by the trust.* The amount of taxes for the year 1954 which may not be refunded or credited to the trust under section 667 and which is allowed as a credit against the tax of B under section 668 (b) is $5,447, the amount of taxes imposed on the trust determined as of the close of 1956. See paragraph (f) (4) of this example.

(4) *Effect of application of provisions of sections 665 through 668 (subpart D) to the year 1954.* After the allocation of the 1957 accumulation distribution to the preceding taxable year 1954, the undistributed portion of the distributable net income, the undistributed net income, and the taxes imposed on the trust for 1954 are zero. The balance of $54 ($7,050 less $6,996) of the 1957 accumulation distribution remaining after the allocation of the accumulation distribution to the year 1954, may not be allocated to the year 1953 since that year is not subject to the provisions of the Internal Revenue Code of 1954.

(h) *Determination of B's tax liability; taxable year 1956—*(1) *Amount of trust income includible in gross income.* (i) Of the amount of $45,000 distributed by the trust to B during the taxable year 1956, $25,000 is treated as a distribution out of trust income for that year within the meaning of section 662 (a) (2), and $20,000 as an accumulation distribution within the meaning of section 665 (b) (see paragraph (d) of this example). However, $12,885 plus taxes of $7,115 is deemed distributed to B on December 31, 1955, and $7,115 plus taxes of $5,442 on December 31, 1954, under section 666 by reason of the accumulation distribution made during 1956, and these amounts are includible in B's gross income for 1956 to the extent that they would have been includible in his gross income under section 662 (a) (2) and (b) for 1955 and 1954, respectively, had they been distributed on the last day of those years.

(ii) The amounts distributed to B out of trust income for the year 1956, and the amounts deemed distributed out of income for the preceding taxable years 1955 and 1954 have the following character for the purpose of determining the amount includible in B's gross income for 1956:

| Year | Dividends | Rents | Interest (taxable) | Interest (exempt) | Total |
|---|---|---|---|---|---|
| 1956 | $5,000 | $10,000 | $7,500 | $2,500 | [1] $25,000 |
| 1955 | 5,000 | 7,500 | 5,000 | 2,500 | [2] 20,000 |
| 1954 | 3,767 | 5,023 | 2,511 | 1,256 | [3] 12,557 |
| Total | 13,767 | 22,523 | 15,011 | 6,256 | 57,557 |

[1] See paragraph (d) (2).
[2] See paragraph (e) (3).
[3] See paragraph (f) (3).

Thus, B will include in gross income for 1956 dividends of $13,767 (subject to the dividend exclusion), rents of $22,523, and taxable interest of $15,011, and will exclude the tax-exempt interest of $6,256.

(2) *Computation of tax.* (i) For the purpose of computing B's tax liability, it is assumed that he was single during the taxable years 1954, 1955, and 1956, and that his taxable income (derived from salary) for each of the years 1954 and 1955 amounted to

$13,400 on which a tax of $4,002 was paid for each year. It is also assumed that his income (other than distributions from the trust) for 1956 was $15,000 derived from salary, and he had allowable deductions of $10,600, which included the deductions for personal exemption and depreciation of $5,000 from the trust.

(ii) The computation of the tax for the taxable year 1956 attributable to the section 666 amounts which are included in B's gross income for such year, as provided in § 1.668 (a)-1 (c) (1) (i), is as follows:

| | (1) Section 666 amounts excluded | (2) Section 666 amounts included |
|---|---|---|
| Salary | $15,000 | $15,000 |
| Income from trust: | | |
| Dividends ($50 excluded) | 4,950 | 13,717 |
| Rents | 10,000 | 22,523 |
| Taxable interest | 7,500 | 15,011 |
| Total | 37,450 | 66,251 |
| Less: Allowable deductions | 10,600 | 10,600 |
| Taxable income | 26,850 | 55,651 |
| Total tax | 11,267 | 31,058 |
| Less: Dividend received credit | 198 | 475 |
| Tax liability | 11,069 | 30,583 |
| Tax on income from which section 666 amounts are excluded | | 11,069 |
| 1956 tax attributable to section 666 amounts | | 19,514 |

No deduction for depreciation is allowed to B with respect to the portion of the accumulation distribution allocated to the preceding taxable years 1955 and 1954, since the deductions for depreciation allowed to the trust for those years were taken into consideration in determining the undistributed net income of the trust for each such year. Only that portion of the dividends received by the trust after July 31, 1954, and deemed distributed to B under section 666, on the last day of such year is included in computing the dividend received credit shown in column (2) above. See paragraph (f) (3).

(iii) The computation of the taxes for the preceding taxable years attributable to the section 666 amounts which are deemed attributed by the trust on the last day of these years, as provided in § 1.668 (a)-1 (c) (1) (ii), is as follows:

| | Preceding taxable years | |
|---|---|---|
| | First, 1955 | Second, 1954 |
| Taxable income previously reported | $13,400 | $13,400 |
| Section 666 amounts: | | |
| Dividends ($50 excluded) | 4,950 | 3,717 |
| Rents | 7,500 | 5,023 |
| Taxable interest | 5,000 | 2,511 |
| Taxable income as adjusted | 30,850 | 24,651 |
| Total tax | 13,747 | 9,944 |
| Less: Dividend received credit | 198 | 75 |
| Balance of tax | 13,539 | 9,869 |
| Tax liability | 4,002 | 4,002 |
| Tax attributable to section 666 amounts | 9,516 | 5,867 |

Only that portion ($1,883.50) of the dividends received by the trust after July 31, 1954, and deemed distributed under section 666 on the last day of that year, is included in computing the dividend received credit of $75 for the year 1954. See paragraph (f) (3).

(iv) Inasmuch as the aggregate of the taxes of $15,383 ($9,516 plus $5,867) attributable to the section 666 amounts as determined for the preceding taxable years is less than the tax of $19,514 determined for the taxable year 1956, the amount of $15,383 shall be added to the tax computed for 1956 without including the section 666 amounts. Thus, B's tax liability for 1956 is $26,452 ($11,069 plus $15,383).

(3) *Credits against the tax.* B is allowed under section 668 (b) a credit of $12,513 ($5,398 for 1954 and $7,115 for 1955) against his 1956 tax liability for the taxes paid by the trust for the preceding taxable years and which may not be refunded or credited to the trust under section 667. See paragraphs (e) (4) and (f) (4).

(i) [Reserved]

(j) *Taxable year 1957*—(1) *Amount of trust income includible in gross income.* (i) Of the amount of $29,550 distributed by the trust to B during the taxable year 1956, $22,500 is treated as a distribution out of trust income for that year within the meaning of section 662 (a) (2), and $7,050 as an accumulation distribution within the meaning of section 665 (b) (see paragraph (d)). However, $6,996 plus taxes of $5,442 is deemed distributed to B on December 31, 1954, under section 666 by reason of the accumulation distribution made during 1957, and that amount is includible in B's gross income for 1957, to the extent that it would have been includible in his gross income under section 662 (a) (2) and (b) for 1954, had it been distributed on the last day of that year.

(ii) The amounts deemed distributed to B out of trust income for the year 1957 and the preceding taxable year 1954 are deemed to have the following character for the purpose of determining the amount includible in B's gross income for 1957:

| Year | Dividends | Rents | Interest (taxable) | Interest (exempt) | Total |
|---|---|---|---|---|---|
| 1957 | $5,000 | $7,500 | $7,500 | $2,500 | [1] $22,500 |
| 1954 | 3,733 | 4,977 | 2,489 | 1,244 | [2] 12,443 |
| Total | 8,733 | 12,477 | 9,989 | 3,744 | 34,943 |

[1] See paragraph (d) (2).
[2] See paragraph (g) (2).

Thus, B will include in gross income for the year 1957 dividends of $8,733 (subject to the dividend exclusion), rents of $12,477, and taxable interest of $9,989 and will exclude the tax-exempt interest of $3,744.

(2) *Computation of tax.* (i) For the purpose of computing B's tax liability for 1957, it is assumed that he was single for the entire year and had income (other than distributions from the trust) of $15,000 from salary. Also, he had allowable deductions of $8,100, which included the deductions for personal exemption and depreciation of $5,000 from the trust of 1957.

(ii) The computation of the tax for the taxable year 1957 attributable to the section 666 amounts which are included in B's gross income for that year, as provided in § 1.668 (a)-1 (c) (1) (i), is as follows:

| | Section 666 amounts excluded | Section 666 amounts included |
|---|---|---|
| Salary | $15,000 | $15,000 |
| Trust income: | | |
| Dividends ($50 excluded) | 4,950 | 8,683 |
| Rents | 7,500 | 12,477 |
| Taxable interest | 7,500 | 9,989 |
| Total | 34,950 | 46,149 |
| Less: Allowable deductions | 8,100 | 8,100 |
| Taxable income | 26,850 | 38,049 |
| Total tax | 11,267 | 18,394 |
| Less: Dividends received credit | 198 | 275 |
| Tax liability | 11,069 | 18,119 |
| Tax on income from which section 666 amounts are excluded | | 11,069 |
| 1957 tax attributable to section 666 amounts | | 7,050 |

See explanation following computation in paragraph (h) (2) (ii) with respect to the allowance of deduction for depreciation and computation of the dividend received credit on dividends received by the trust in 1954.

(iii) The amount of tax, computed at 1954 rates, attributable to the section 666 amounts which are deemed to have been distributed by the trust on the last day of 1954, is $6,944, computed as follows:

| | | |
|---|---|---|
| 1954 taxable income as adjusted (paragraph (h) (2) (iii)) | | $24,651 |
| Section 666 amounts: | | |
| Dividends | 3,733 | |
| Rents | 4,977 | |
| Taxable interest | 2,489 | |
| Taxable income as adjusted | | 35,850 |
| Total tax | | 16,963 |
| Less: Dividends received credit | | 150 |
| Balance of tax | | 16,813 |
| Tax liability for 1954 | $4,002 | |
| Tax attributable to 1956 accumulation distribution (paragraph (h) (2) (iii)) | 5,867 | |
| | | 9,869 |
| Tax attributable to the section 666 amounts distributed in 1957 | | 6,944 |

Only that portion ($3,750) of the dividends received by the trust after July 31, 1954, and deemed distributed under section 666 on the last day of that year, is included in computing the dividend received credit of $150. See paragraphs (f) (3) and (g) (2).

(iv) Inasmuch as the tax $6,944 attributable to the section 666 amounts as determined for the preceding taxable year 1954 is less than the tax of $7,050 attributable to these amounts for the year 1957, the amount of $6,944 shall be added to the tax computed for 1957 without including in gross income the section 666 amounts. Thus, B's tax liability for 1957 is $18,013 ($11,069 plus $6,944).
